Transit District (Metro)

The Transit District account provides subsidy support to the Greater Portland Transit District, better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves. In April 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members. The district is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities. The City of Portland's share of the local operating subsidy is approximately 82%. Portland's actual share of the Metro budget has increased by \$87,690 or 3.5%.

Regional Transportation

The Regional Transportation Program (RTP) provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP services the cities of Portland, South Portland, and Westbrook, with the cost apportioned based on ridership. The FY17 ridership is increasing and expenses are anticipated to surpass the FY17 allocation.

Memberships - Miscellaneous

The Memberships account provides for City membership in various professional and governmental organizations whose purpose is to provide services and information to the City. This year's budget includes funding for Community Television Network, the Maine Municipal Association, the Greater Portland Council of Governments, Peaks Island Council, the Board of Harbor Commissioners, the HOME Team, and Community Counseling for TIP Program.

Street Openings

The Street Opening program and budget are governed by state law, and must be kept separate from the general fund. Each time one of the City's roads or sidewalks is excavated, the Street Opening program provides the services for permitting, inspection, and enforcement of the work. To fully fund the program, the City collects fees for services and to provide for the permanent restoration of excavations made by private contractors. The fee structure is based on the actual costs of administering the program.

In addition to administering and monitoring the excavations made by private contractors and utility companies, this fund also provides for some of the services required by state tort liability laws.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On January 1, 2017, the sewer user fee increases to \$9.35 per hundred cubic feet (hcf). This is an increase of \$0.40 over the FY16 blended two-tier rate of \$9.70 per hcf effective July 1, 2015 and \$8.20 per hcf effective January 1, 2016, an increase of 4.5%. The Stormwater program / rate separated from the Sewer Fund mid-year FY16, allowing more equitable distribution of user costs based on impervious area. The City has been making improvements to its combined sewer overflows. The second tier of projects was completed in 2013, and 2014 begins the third tier of CSO projects. The revised estimate of these projects totals over \$200 million over an estimated 15-25 years, the cost to be financed by the Sewer user fees and the Stormwater service charges.

In FY17, approximately 81.2% of the budget is allocated for debt service and assessment fees to the Water District.

STORMWATER FUND

FY17 is the 1st year in which both the Stormwater revenues and expenditures are estimated for a full year. The Stormwater Fund was created in FY16, and the new Stormwater fee was effective mid-year FY16, January 1, 2016. A stormwater division, previously a component of the Sewer Fund, separated in FY16 as part of an effort to achieve greater fairness in paying stormwater costs among its' users.

The PWD continues to provide billing services for the Sewer fees, while the City maintains the billing system for the costs related to Stormwater or the impervious areas. The FY17 Stormwater Service Charge remains unchanged at \$6.00/month per 1,200 square feet of impervious surface. The collected funds will be used to maintain and improve the City's infrastructure.

JETPORT

The Jetport is ranked by the Federal Aviation Administration as the 93rd largest airport in the United States based on enplanements. In calendar year 2015, a total of 1,744,979 passengers flew into and out of the Jetport. The Jetport is served by American Airlines, Delta Airlines, Elite Airways, JetBlue, Southwest Airlines, and United Airlines, along with their regional partners.

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 35% of the Jetport's total FY17 revenue, with parking, rental cars, concessions, ground rent, and miscellaneous revenue providing the other 65%.

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a commission to the Jetport based on gross sales. In FY17, car rental agency income is expected to draw 29% of the non-airline revenue. Parking, representing 45% of non-airline revenue, is contracted out to a private management company which pays the Jetport a monthly fee based on total net revenue earned.

Jetport Parking Division Income

Note: FY16 and FY17 are estimated amounts

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are four enterprise funds administered by three departments of the City. A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Department of Parks, Recreation and Facilities. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

STORMWATER FUND

The principal function of the Stormwater fund is to account for operating, maintaining, and meeting the capital costs requirements of the City of Portland stormwater and combined sewer infrastructure systems. The City of Portland maintains 129 miles of stormwater infrastructure, 141 miles of combined sewer systems, 96 miles of sanitary sewer and approximately 15,000 other structures that help to move and treat stormwater.

The city is also responsible for the capital costs necessary to maintain the system and the development and redevelopment of properties within the city and for meeting State and Federal mandates regarding the quality of streams and tidal waters within its jurisdiction.

JETPORT

The City of Portland's Department of Aviation and Transportation is responsible for the operation and maintenance of the Portland Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine. Passenger enplanements have increased from approximately 250,111 passengers annually in 1980 to 876,398 for calendar year 2015.

The Jetport's major expenses include the terminal building, operation of the Jetport Parking division, and maintenance of the Airfield runways, taxiways and aprons. Other central expenses include security, administrative, and marketing costs.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

Sewer Fund

The principal function of this fund is to account for the sewer services provided to City residents and business establishments. The Portland Water District (not a city department) owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly or quarterly fees, based upon water volume, to support the expenses of the fund.

The Sewer Fund expenditures increased \$690,774, or 3.0%. This increase is mainly attributed to the increased Portland Water District (PWD) assessment fees and debt service. The FY17 budget also reflects the Public Works department-wide reorganization designed to facilitate EPA reporting requirements, including personnel staffing changes in the Public Works Sewer Administration and Engineering divisions. Overall, the Sewer Fund has a net reduction of one full-time position.

Sewer Finance

This division's services are provided by the City's Finance Department. Finance provides billing and collection services, as well as lien processing for delinquent accounts. The Finance Department also maintains the financial records for the Sewer Fund and the computer network system.

Sewer Public Works Administration

The Sewer Administration division accounts for the associated costs incurred by the Department of Public Works administrative staff for sewer related activities.

Overall the FY17 Administration expenditures show an increase of \$526,771, largely due to the reallocation of monies between the Sewer Administration and Sewer Engineering divisions, and general restructuring of the Sewer Fund. This reorganization is part of an effort to enhance EPA reporting requirements. The Administration budget includes funding for Capacity, Management, Operation, and Maintenance (CMOM) asset management program development, Green Infrastructure (GI) program assessment, and Fats, Oils & Greases (FOG) inspection fees, as well as increases in software licensing.

Sewer Districting

The Sewer Districting division is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance, and sewer inspections and investigations.

Division expenditures have decreased \$13,299. This division includes a significant decrease in contractual services largely due to the FY16 funding of TV sewer-line inspections, offset by increases in staffing and supplies as a result of the Sewer Fund restructuring.

Sewer Communications

The Public Works Sewer Communications division accounts for the associated costs incurred for sewer related functions including service requests, street flooding and Dig Safe requests.

This budget remains relatively flat, with expenditures showing a decrease of \$1,324.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for implementing the Combined Sewer Overflow (CSO) abatement program and industrial pretreatment program, both federally mandated by the Clean Water Act.

Overall the FY17 Sewer Engineering expenditures reflect a decrease of \$574,395, largely due to the reallocation of monies between the Sewer Engineering and Sewer Administration divisions, and general restructuring of the Sewer Fund. This reorganization is part of an effort to enhance EPA reporting requirements. This division shows a net decrease of ten full-time positions, as well as a decrease in contractual services.

Stormwater Fund

Stormwater Management separated from the Sewer Fund beginning in FY16. The stormwater fee, which began January of 2016, was designed to fund the expenditures needed to operate and maintain this critical infrastructure system, preventing pollutants from entering valued waterways as mandated by the federal Clean Water Act (CWA). This new fee structure was designed to disperse the program costs to all City property owners who benefit from the positive impacts of this investment. The stormwater fee is based on the impervious area on a property.

The FY17 budget reflects the first full year of the new Stormwater Fund program, and includes staffing modifications.

Stormwater Management

The Stormwater Management division separated from the Sewer Fund in FY16. This division represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. They perform street flushing, and clean up after special events (parades, New Year's celebration, etc.). Their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

The FY17 budget calls for an additional \$1.2m in capital outlay for the development of a single stormwater storage filtration management system to be located on the redeveloped Hall School property. This system will provide treatment for both the Sagamore Village neighborhood and the new school as part of a more comprehensive plan.

Jetport

The Portland International Jetport provides commercial air service to over a million and a half passengers a year and also provides a general aviation facility for private aircraft and an air cargo terminal. The Jetport is a dedicated fund, which means that all revenues generated remain with the airport to fund both normal airport operations as well as capital improvements. No tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is budgeted under Administrative Services as the anticipated surplus. The airport has focused on completing minor capital improvement projects and is working on a new Airport Master Plan, providing guidance through the next 10-20 years.

The Jetport's overall expenditure budget (excluding surplus) reflects an increase of \$445,802, or 2.2%. Revenues have increased by \$1,024,376, or 5.0%.

Jetport Administration

The Jetport's Administration division is responsible for the day-to-day management of the Jetport and planning future operations. Divisional services include payroll, accounts payable and accounts receivable, budgeting and human resources functions.

The Administration budget has increased by \$86,388, or 9.7%. This increase is largely due to payroll increases, which includes one new position and a transfer of one position from the Jetport Security division.

Jetport Field

The Jetport Field division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft.

The FY17 budget increased by \$279,423, or 8.9%. Budgetary increases include the addition of one new position, increases in the runway snow removal contract, and an increase in capital needs.

General Aviation

The Jetport General Aviation division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. The General Aviation division collects landing fees from the aircraft that use the GA area, similar to the fees charged to the commercial airlines. These revenues help lower costs for the commercial airlines that serve the Jetport.

The General Aviation budget has decreased by \$9,125, or 34.7%.

Jetport Fringe & Indirect Costs

The Jetport's Fringe and Indirect Costs division reimburses the City's General Fund for expenses incurred for their services, including Police and Fire employee benefits, general liability insurance, the Fire Department's cost of firefighting and EMS services, and chargebacks on City-provided services including Executive, Finance, Legal, Human Resources and Information Technology.

This division's expenditures have decreased by \$133,066, or 3.7%, predominantly due to the decrease in Air Rescue costs, offset in-part by higher benefit costs.

Jetport Security Division

The Security division performs all administrative and operational activities related to security, including federally-mandated Jetport Security enhancements. The division maintains all security related equipment including cameras and monitors, computer equipment, and security doors and gates. This division is also responsible for processing employee background checks and issuing employee ID badges. The Communication Center provides communications and technical support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public. The costs of the police officers which serve at the Jetport are also paid from this division.

The Security division's budget has increased \$197,019, or 11.8%. Budget changes include the addition of various capital items, as well as reductions in division staffing.

Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including interior and exterior terminal cleaning and maintenance. The terminal division's engineering section is responsible for the planning, design and management of major terminal improvements.

The Terminal division's budget has an increase of \$177,109, or 3.5%. The budget increases are primarily a result of increases in contractual service items and utility costs, partially offset by decreases in maintenance & repairs and capital expense.

Jetport Parking

The Parking division oversees the parking maintenance of the Jetport's parking garage and surface lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

Expenditures have decreased by \$166,633, or 3.6%, due to a reduction in capital requests. The FY17 budget includes year 2 funding for a twenty year parking garage preventative maintenance and repair program.

Airfield Deicing Facility

The Airfield Deicing Facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the expenditures incurred, thus creating a "net zero" impact on the Jetport's overall budget.

Expenditures for the Airfield Deicing Facility have decreased by \$23,124, or 3.3%, largely due a new agreement alleviating the Jetport's responsibility of utility costs. The FY17 expenditures include the rental of a deicing truck while capital expenditures decreased.

Key Revenues and Expenditures

Revenues

The Housing and Community Development Program or HCD is a special revenue fund that is supported by several federal and local funding sources.

1. **Community Development Block Grant (CDBG) Program:** The Community Development Block Grant (CDBG) is funded by the federal government under the Housing and Community Development Act of 1974. For Program year 2016-2017 the City allocated \$1,905,948, which is comprised of \$1,791,448 in direct allocation from HCD and \$114,500 from program income; there are no dollars being used this year from re-programmed funds. These funds are used to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.
2. **Home Investment Partnership Program (HOME):** The HOME funds are available for a broad range of housing activities benefiting low and moderate income households. For 2016-2017, the City's revised proposal plans to utilize \$832,642 of HOME funds and \$205,000 of Program Income for a HOME Consortium between the City (\$710,409) and Cumberland County (\$327,233) for the development of new rental housing, single family and multi-family rehabilitation, tenant based rental assistance, and assistance to special non-profit agencies called Community Housing Development Organizations (CHDOs) to develop affordable housing.
3. **Emergency Solutions Grant Program (ESG):** The ESG funds can be used by the City to fund the rehabilitation, operation and support services of providers and facilities assisting Portland's homeless

population. The City proposes to use its 2016-2017 ESG entitlement allocation of \$161,232 to provide case management and homeless prevention services through City Family Shelter programs administered by the Department of Health and Human Services.

4. **Portland Development Fund:** Originally established in 1986, the goal of the Portland Development Fund is to respond to the need for 1) housing that is affordable to low and moderate income households, and 2) commercial and industrial development opportunities to further strengthen the local economy and generate jobs, particularly in downtown Portland.

Originally there was approximately \$1 million in the Portland Development Fund for both housing and economic development activities. Sources of funding include Urban Development Action Grant (UDAG) miscellaneous revenue, CDBG program income, CDBG entitlement allocations from previous years, and loan repayments and interest generated. In 1990 the fund was split into Housing, administered by the Housing & Community Development Division, and Economic Development, administered by the Economic Development Department.

The Housing portion of these funds is appropriated for several activities, including the development of new affordable rental housing, single and multi-family rehabilitation, and lead paint abatement. UDAG funds administered by the Economic Development Department, which is now approximately \$588,500, are used for loans and investments by the Portland Development Corporation.

Expenditures

The three expenditure categories utilized by the CDBG Program are: Public Services, also referred to as Social Services, Development Activity Funding, and Program Planning and Administration. A brief description of the services provided for the 2016-2017 fiscal year under each of these categories follows. A more comprehensive source of information on these programs can be found in the 2016-2020 Consolidated Housing or the 2016-2017 Annual Action Plan issued by the Department of Planning and Urban Development. The new 2016-2020 Consolidated Plan implemented the following new program goals and objectives:

- a. ***Neighborhood Investment and Infrastructure***
to create strong, safe, accessible and vibrant neighborhoods.
- b. ***Housing Availability***
to increase housing availability and affordability.
- c. ***Economic Opportunity***
to create economic opportunities to transition people out of poverty.
- d. ***Address the Needs of the Growing Homeless Population***
to prevent and reduce homelessness.

PUBLIC SERVICES (SOCIAL SERVICES)

1. Neighborhood Investment and Infrastructure includes Community Policing and the Family Shelter After Hours Program.
2. Economic Opportunity includes Catherine Morrill Child Care Voucher Program and the Learning Works English Language Program.
3. Address the Needs of the Growing Homeless Population includes Amistad Peer Coaching Initiative, Amistad Peer Support and Recovery Center, Oxford Street Shelter Housing Assistance, Milestone HOME Team, Preble Street's Teen Shelter, Resource Center, Food Programs & Women's Shelter, and the Wayside Food Programs.

DEVELOPMENT ACTIVITY FUNDING

1. Neighborhood Investment and Infrastructure includes Public Works ADA Curb Ramps, Pedestrian Safety & Related Work, Libbytown Community Gardens, Marginal Way, Bayside Roadway, Sidewalk Improvements & Related Work, and the Portland Housing Authority East Bayside Surveillance System.
2. Housing Availability includes Portland Housing Development Corporation 58 Boyd Street demolition project.
3. Economic Opportunity includes CEI Portland Jobs Alliance, CEI Microenterprise Assistance Program, and Living With Peace Micros Program.

PROGRAM PLANNING & ADMINISTRATION

The following are reimbursements to general operating accounts for program administration services:

1. The Department of Planning & Development provides Administration, Planning, Housing & Community Development, Historic Preservation, and Citizen Participation services which are reimbursable under the HCD guidelines.
2. The City receives reimbursement for a portion of the annual audit cost associated with auditing the HCD Program.
3. The City may receive reimbursement for a portion of the fringe benefits associated with the positions funded with HCD monies. However, the fringe benefit reimbursement along with all of the administrative costs must not exceed the 20% cap set by CDBG regulations.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2017 School budget was approved by the voters May 10, 2016.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 77.5% of the FY17 Education budget.

State Subsidy

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The portion of State Aid for Essential Programs and Services (EPS) accounts for 14.7% of the School's FY17 Budget. The chart represents the State Aid to Education EPS revenue history over the past six years.

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Board of Public Education for the City be administered by a school board comprised of nine members. The Board of Public Education performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into six categories: (1) Salaries and Benefits (2) Contractual Services (3) Supplies (4) Miscellaneous (5) Debt Service and (6) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Note: FY16 and FY17 are estimated amounts.

Budget Overview

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114 mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac Indian name meaning "shaped like a

great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cross Insurance Arena. Two major medical centers, Maine Medical Center and Mercy Hospital, are also located in the City.

Budget Overview

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

Budget Overview

1. projected collection estimates for the current fiscal year with explanations for projections substantially different than estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion

of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department budget, under the school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final

Budget Overview

justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self balancing accounts that comprise its assets, liabilities, reserves, fund equity/retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, parks recreation and facilities, public works, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the acquisition, construction or improvement of

capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds are: Fish Pier, Sewer, Stormwater and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

All proprietary funds are accounted for on a flow of economic resources measurement focus.

Budget Overview

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Basis of Budgeting

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Activity: A segment of the account number that identifies the type and purpose of the account. The two activity classifications used in budgeting are: 300's - Revenues and 400 & 500's - Expenditures.

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The element classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The element classification for employee related costs such as health insurance, pension, FICA, unemployment, and tool allowance.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Glossary of Terms

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The element classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Client Expenses: The element classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The element classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The element classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Glossary of Terms

Element: A segment of the account number that distinguishes types of expenditures. The major classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance and Repairs, Rentals, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, and other equipment.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of/and guidelines for financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices as a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, public works, parks recreation and facilities management, health and human services, public library, county tax, metro, and debt service.

Glossary of Terms

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

HUD: The abbreviation for Housing and Urban Development.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

Insurance: The element classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category (salary, materials, telephone service, travel, etc.) separately, along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The element classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The element classification used for tangible property or equipment used for operations having a cost between \$5,000 and \$10,000 per single item.

Glossary of Terms

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Classification: A basis for distinguishing types of expenditures in conjunction with the element. The major expense classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Services, Contractual Services, Maintenance and Repair, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The element classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Payroll: The element classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Rental: The element classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Glossary of Terms

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The element classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The element classification which includes expenses for electricity, fuel, telephone, water and sewer, and stormwater.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

- Public Health Env'l Health & Safety division's Emergency Preparedness program transferred to the City Manager's Office during FY17
- Public Health Env'l Health & Safety division's Health Inspections program transferred to Business Licensing during FY17
- Social Service's Portland Community Support Fund separated from General Assistance division during FY17

Budget Highlights

**General Fund & Enterprise Funds
FY13 - FY18 Appropriations**

General Fund Expenditures

The 2017-2018 General Fund budget totals \$189,306,368, an increase of \$3,034,483 or 1.6% over the 2016-2017 budget. The major changes in the FY18 budget include:

City Wages (*Excluding Programs Listed Below):	\$ 3,505,901
Benefits	\$ 606,682
County Tax	\$ 490,624
Lab & Medical	\$ 210,911
Office of Economic Opportunity*	\$ 208,166
Debt Service	\$ 198,462
Social Services Interpreter Services	\$ 173,300
Building Maintenance & Repair	\$ 155,254
Pavement Markings	\$ 150,000
Other Misc. Contractual Services	\$ 141,745
Vehicle Fuel	\$ 136,980
Library*	\$ 111,725
Other Equipment Maintenance & Repair	\$ 109,018
Metro / RTP	\$ 107,137
Planning Zoning / Impact Fee Study	\$ 100,000
Winter Operations Equipment Rental	\$ 82,920
Canco Road Division	\$ 80,260

Land & Building Rental	\$ 80,559
Electricity	\$ 77,980
Supplies All-Other Misc.	\$ 76,778
Emergency Issues	\$ 75,000
Fire Building Assessment	\$ (86,000)
Administrative Services	\$ (86,877)
Public Health GPH Contract	\$ (98,108)
PH Electronic Records (EDR / EMR)	\$ (98,219)
Communications System Maintenance	\$ (112,949)
ADA Self Evaluation Plan Study	\$ (125,000)
Trash Bags	\$ (128,870)
Crossing Guides Division*	\$ (131,200)
Capital Outlay	\$ (262,433)
Transfer Station CPRC	\$ (814,213)
School Maintenance Division*	\$ (1,096,257)
Social Services Client Services	\$ (1,308,440)

Enterprise Funds Expenditures

The 2017-2018 Enterprise Funds budget totals \$51,049,828, an increase of \$1,140,121 or 2.3% over the 2016-2017 budget.

The Jetport expenditure budget increased \$1,090,047 or 5.0% (or \$1,349,859, or 6.5%, excluding surplus). The more significant Jetport budgetary changes include the following:

Wages	\$ 288,172
Airfield Pavement Marking	\$ 175,000
Capital Outlay	\$ 172,491
Benefits	\$ 120,262
Jetport Field Snow & Ice Control	\$ 115,620
Security Services	\$ 103,215
Utilities	\$ 99,849
Baggage Handling Maintenance	\$ 81,854
Building Maintenance & Repair	\$ 71,636
Debt Service	\$ (115,782)
Anticipated Surplus	\$ (259,812)

The Sewer Fund expenses increased \$1,081,856 or 4.6%. The more substantial budgetary changes comprise of the following:

PWD Assessment	\$ 501,858
Sewer Collapse Repairs	\$ 340,000
Sewer Inspections	\$ 250,000

District Road Building Maintenance & Repairs	\$ 190,000
Other Equipment Maintenance & Repair	\$ 98,150
Manhole Structure Adjustments	\$ 75,000
Debt Service	\$ (479,108)

The FY18 Stormwater Fund has an expenditure budget of \$3,040,253, resulting in a decrease of \$1,071,259 or 26.1%. The FY18 budget estimate represents the 2nd full year of Stormwater Fund operations after separating from the Sewer Fund in FY17.

Wages	\$ 203,679
Benefits	\$ 63,468
Debt Service	\$ 62,746
Riverside Disposal Costs	\$ (156,660)
Sagamore Stormwater Storage Filtration	\$ (1,246,060)

General Fund Revenues

The 2017-2018 General Fund non-tax revenues are estimated at \$105,495,246, an increase of \$1,001,732, or 1.0%, over the 2016-2017 budget. The significant revenue changes are comprised of the following:

Barron Center Patient Receipts	\$ 861,821
Parking Meters	\$ 775,000
Building Permits	\$ 570,000
Excise Tax	\$ 536,050
Waterfront Division	\$ 451,978

Golf Course & Restaurant Divisions	\$ 199,373
Social Services Grant Reimbursements	\$ 177,218
Temple Street Garage	\$ 145,000
City Manager's Division Grant Reimb.	\$ 131,155

Enterprise Funds Revenues

The Enterprise Funds 2017-2018 revenue estimates are \$55,270,346, an increase of \$3,590,119 or 6.9%.

The major changes in the revenue estimates include the following:

Sewer User Fees	\$ 2,335,285
Jetport Parking Income	\$ 429,646
Jetport Car Rental Commissions	\$ 409,362
Jetport Terminal Rental	\$ 129,112
Jetport Concessions	\$ 96,073
Sewer Operating Transfers In (Winter)	\$ 72,859
Jetport Interest Income	\$ 55,000

Housing & Community Development Program (HCD)

The final 2017-2018 HCD program totals \$1,962,465, an increase of \$56,517, or 3.0%, from the 2016-2017 program. The Entitlement Grant decreased \$45,983, while Program Income and use of Surplus Funds increased by \$32,500 and \$70,000 respectively.

Education

**Education Appropriations &
Non-Tax Revenue Estimates
FY13-FY18**

The revised Education budget for 2017-2018 is \$105,748,589, an increase of \$2,145,705 or 2.1%. A summary of the more significant school expenditure changes is provided below:

Benefits	\$ 1,193,891
Wages	\$ 1,126,531
Purchased Professional & Technical Services	\$ 236,736
Software Licenses	\$ 196,383
Student Transportation Purchase Private	\$ 169,821
Capital Equipment	\$ 153,359
Employee Training & Development Services	\$ 122,072
Electricity	\$ 110,448
Special Ed Contracted Services	\$ (75,558)
Food	\$ (98,819)
Natural Gas	\$ (121,868)
Tuition In-State SAU	\$ (150,000)
Books & Periodicals	\$ (240,157)
Debt Service	\$ (460,535)

The total revised non-tax revenue estimate for Education is \$22,960,668, a decrease of \$310,840 or 1.3%. A summary of the revenue changes are as follows:

PATHS Part I & Part II Assessment	\$ 156,206
Food Service Revenue	\$ 43,330
Tuition Public K-8	\$ (56,000)
State Subsidy – EPS/Debt Service*	\$ (406,904)

*The revised FY18 Education budget only includes the FY18 amendment of +\$712,351 (Council Order #86-17/18). The anticipated Portland School's State Subsidy is actually an increase of +\$593,096 based on the final enacted State of Maine Budget approved in July of 2017; \$1m is designated for fund balance.

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, September and March.

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The last property revaluation was phased in over two years: FY2006 and FY2007. The previous revaluation was done in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY17 and FY18 are estimated amounts.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

Note: FY17 and FY18 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business

licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, Business Licenses, and the Cable TV Franchise are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

General Assistance (GA) reimbursement is the largest revenue in this category. In FY16, the State of Maine GA reimbursement rate changed from a tiered percentage reimbursement rate (50% / 90%) to a flat seventy percent (70.0%) reimbursement rate based on the City's eligible program expenditures. The lower FY15 and forward GA revenue collections reflect changes by the state in the GA reimbursement eligibility guidelines, excluding certain immigrants. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

Note: FY17 and FY18 are City estimated amounts.

An additional major source of revenue in this category is State Revenue Sharing.

Traditionally the State has set aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing

pool. The Revenue Sharing pool is then shared amongst 492 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

The State's FY16 budget, enacted June 30, 2015, temporarily reduced the Revenue Sharing distribution pool from 5.0% of all state sales, corporate, and personal income tax revenues to 2.0% for four years (FY2016 - FY2019). This reduction replaces the previous FY2014 and FY2015 reduction, which capped Revenue Sharing at \$62.5m.

Under this changed formula, FY18 Revenue Sharing I is calculated by multiplying the total Revenue Sharing Pool by 80%. Revenue Sharing II is calculated by multiplying the total Revenue Sharing Pool by 20%, with an added \$4m lump sum distribution at year end.

Note: FY17 and FY18 are City estimated amounts

Revenue Sharing I is based on the following formula:

$$\frac{\text{*population of town} \times \text{assessment (tax levy)}}{\text{state valuation for municipality}} = \text{the town's number}$$

Rev-II distributions are based on this calculation:

- a) assessment / state valuation = mil. rate
- b) (mil. Rate - .01) x population
= the town's number

All numbers are added together to come up with a statewide total. From the statewide total, each municipality is assigned a percentage of the total. The resulting percentage is then multiplied by the pool amount.

In FY2018, the State's Revenue Sharing projected share for Portland is 5.9%.

This category also includes the Local Road Assistance Program (LRAP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Note: FY17 and FY18 are estimated amounts.

Major sources of revenue are derived from Patient Receipts (Barron Center), Cultural / Recreation Services, Health Insurance Reimbursements, Emergency Medical Services (EMS), Recycling and the Waterfront.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties.

Note: FY17 and FY18 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, rental income, and interest earnings.

Interest Income

Note: FY17 and FY18 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, cemetery endowments, library, and School department are known as interfund charges. It also includes State Grants, Housing and Community Development Grants, Federal Grants and Other Agency Revenues.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, City Manager, Assessor, Finance, Legal, Human Resources, Parking, Economic Development, Planning, Permitting & Inspections, Information Technology, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police and Fire / EMS operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to the most advanced investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment.

Fire

The Fire Department provides for fire suppression, emergent medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Department is also responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system.

The Fire Department maintains ten fire stations and the Spring Street Fire Museum. A minimum of Forty-six firefighters and paramedics staff each shift on 18 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, two air rescue units, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

3. PUBLIC WORKS

The Department of Public Works is responsible for providing many of the essential services to City of Portland residents throughout the year. These services include the operation of the Riverside Recycling Facility (under a contract arrangement), and a comprehensive solid waste program, which includes trash collection, residential curbside recycling, a leaf collection program, as well as a heavy item / bulky collection pick-up program. Public Works also provides for the construction and maintenance of city streets and sidewalks, the sewer system, stormwater maintenance, and technical support / engineering services for Capital Improvements Projects. Other key services include the removal of snow and ice from city streets and sidewalks, maintenance of

the Portland Downtown District, maintenance and repair of all City vehicles and equipment, and traffic management, including maintenance of traffic signaling, street lights and traffic control and calming. Public Works also provides core public works services to four adjacent islands in Casco Bay.

4. HEALTH AND HUMAN SERVICES

The Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

Public Health is the state's most comprehensive local public health department. It consists of five programs: Operations, Family Health, Chronic Disease Prevention, the India Street Clinic, and Health Equity.

Social Services provides both financial assistance and support services for low-income Portland residents. Programs operated include General Assistance, Homeless Shelters for individuals and families, Case Management, and Representative Payee Services.

The Barron Center is the state's second largest long-term care nursing facility. The Barron Center is a 219 bed skilled rehabilitation and nursing facility, including a 50 bed specialty unit for the care of dementia. Residents of the Barron Center are able to receive speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The Office of Elder Affairs provides the community with an Elder Advocate. Assistance is provided in the form of senior information and referral, adult day health services, and community collaboration. Elder Affairs also operates Martha's Cottage, which is the only

domestic violence shelter for seniors in the country.

The majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants and reimbursement for direct services. The largest funding source for long-term care services at the Barron Center is MaineCare (Medicaid), followed by Medicare and private insurance.

5. Parks, RECREATION AND FACILITIES

The Department of Parks, Recreation and Facilities oversees the Parks, Forestry and Cemetery divisions, recreational programs and activities, the maintenance of all city, including the school HVAC systems and the waterfront properties, and the marketing and events management at the Expo, Merrill Auditorium, Ocean Gateway, Hadlock Field, and Fitzpatrick Stadium.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Parks, Recreation and Facilities is responsible for the day to day management and care of the parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department reaches out to many citizens and visitors through over 100 individual parks and 9.2 miles of trails.

All of this encompasses a geographical area of over 1,200 acres. The Parks, Recreation, and Facilities Department also maintains a wide variety of City trees as well as providing new plantings, and also manages two active cemeteries (Evergreen and Forest City) and several inactive cemeteries.

Recreation offers a vast array of services and leisure activities including recreation programs,

before and after school care, center for therapeutic recreation, pools, special events, operations of the ice arena, golf course, and golf course restaurant, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 83.6% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services to the residents of each of its three participating communities. The Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members in April of 2009. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The District's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the District, fares and assessments of member communities.

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the annual assessment is \$2,639,635 or 81.9%.

8. LONG TERM DEBT

Note: FY17 and FY18 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City budget. For fiscal year 2018, the gross debt budget is \$37,522,031, or 19.8% of the City's general fund budget; the School Department and Enterprise Funds reimburse the general fund \$14,368,426 of this expense. The FY18 net cost of debt service to the City general fund is \$22,498,667.

9. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2017, the City's equalized State Valuation of \$8,501,550,000 was 20.2% of the County's total equalized State Valuation of \$42.1 billion, resulting in a FY18 assessment to the City of Portland of \$5,907,743.

City Council

The City of Portland operates under a charter which was last amended on November 2, 2010. The City Council is comprised of a Mayor, elected for a four year term, five district Council members and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact, reasonable by-laws, regulations and ordinances. The council adopts an annual budget, authorizes the issuance of debt and provides for an annual audit. The Mayor has the authority to veto the annual budget, however the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops.

The revenues received by this department are from Housing & Community Development (HCD) grant funds for a portion of the annual audit costs.

City Clerk

The Department of City Clerk has three major functions: Elections, Vital Records, and City Records Maintenance. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Principal Administrative Officer, the Clerk's Deputy, is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. Two elections are planned for FY18: the November 2017 State / Municipal Election and the June 2018 combined School Budget Validation and Primary Election. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). This is a statewide system designed to standardize and centralize voter registration.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio/video recordings of several boards and committees.

City Manager

The department is responsible for the executive management of the City of Portland. Responsibilities include preparation and administration of council agendas and orders; coordination and administration of City departments, services, and programs; developing and enforcing administrative policies; handling of citizen inquiries and complaints, public relations and communication functions; neighborhood, waterfront, and island liaison efforts; local and state government liaison efforts; emergency preparedness; and the preparation of the annual Capital Improvement Plan.

This department consists of the City Manager and support staff. Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary for the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

The Office of Economic Opportunity was incorporated in the FY18 City Manager's budget with the goal of providing access to workforce opportunities for all Portlanders.

Assessor

The Department of the Assessor is responsible for the creation and maintenance of the tax roll. Additionally, it maintains records on over 1,300 exempt real estate accounts. The distribution of taxes is accomplished by assigning taxable assessed values to approximately 22,600 real estate accounts and 4,200 personal property accounts. Among the documents that must be accurately maintained by this department are real property records, property maps, ownership records, property sales information and personal property records. Computerization and web site development of department records and tasks continue as an enhancement to the assessment and data processing functions of this office.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for over 1,600 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

Treasury

The Treasury division is responsible for the collection of all monies into the City. This includes the collection of real estate taxes, personal property taxes, delinquent sewer user fees, and vehicle excise taxes and registration fees, as well as issuance of license plates. Treasury also collects parking ticket revenues and miscellaneous receivables, processes boat and utility trailer registrations, and issues island vehicle and golf cart registrations and Metro bus passes. All cash receipts for the City are processed in Treasury.

Residents may visit the Treasury Office in City hall for these services. There are also electronic options for residents:

(a) Treasury offers online payments of real estate through the City of Portland website:

<https://www.portlandmaine.gov/1567/Pay-Your-Property-Taxes-On-Line>.

(b) Treasury offers an electronic funds transfer (ACH) monthly debit from citizen accounts to conveniently pay taxes: <http://www.portlandmaine.gov/documentcenter/view/839>.

(c) Online options are available for residents to re-register vehicles through the State of Maine website:

<https://www1.maine.gov/online/bmv/rapid-renewal/>.

(d) Parking tickets can also be paid online through the website: www.portlandparkingtickets.com or

<https://portlandme.rmcpay.com/>.

(e) View / Print Tax Bills on-line at: <http://www.portlandmaine.gov/taxbill>.

The Treasury general fund expenditures increased \$58,375, or 9.0%, largely due to payroll expenses, including an added Lead Cashier Clerk position. Non-tax revenue projections include an anticipated increase in Interest Income.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys, one paralegal / insurance claims administrator, and a paralegal / legal assistant.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability claims and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees and Boards.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Fish Pier, Sewer, Stormwater, and Jetport funds. The department also receives revenue for various ordinance code violations, and settlements.

Human Resources

The Department of Human Resources provides many services to all City departments, including recruitment and hiring oversight, civil service program administration, labor relations, organizational development and education, employee health and benefits administration, and safety and risk management.

Expenditures increased \$46,207, or 4.7%, related mainly to the full-time hiring of the Workforce Diversity / Inclusion Specialist. The revenues received by this department are from charge backs for the services provided by the Human Resources staff for the Sewer, Stormwater and Jetport funds.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,615 metered spaces throughout the City, 838 of which have been converted to multi space meters that accept credit cards.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

Through FY17 the Parking Department administered the School Crossing Guide program, however, effective FY18 (July 1, 2017), these responsibilities are shifted to the School Department. FY18 Parking expenses overall are down \$70,746, or 3.0%. FY18 revenues are up from FY17 by \$794,548, or 10.2%, due to anticipated increases in Parking Meter and Temple Street Garage income.

Parking Administration

Parking Administration includes the management of on-street parking, the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

Expenses have increased \$53,901, or 4.1%, while Parking Administration revenue has risen \$659,230, or 13.3%. In addition to the FY18 increase in meter rates, with the advent of making parking meter payments more convenient via multi-space credit card enabled meters, meter revenue has climbed while parking ticket revenue has declined

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens.

Expenses for the Elm St parking garage are up minimally, or by 1.5%, and revenues remain flat.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Cross Arena and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Arena events. The garage also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens.

Expenses and revenues remain virtually unchanged from FY17.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens.

FY18 expenditures are essentially unchanged. Due to greater parking demand and a price increase, the FY18 revenues are up \$145,000 from FY17.

Economic Development

The Department of Economic Development is responsible for enhancing the economic growth of the City and is dedicated to fostering a vibrant and healthy economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city and waterfront, and employment opportunities.

By leading a collaborative effort among agencies, both in advocacy and acting as a business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that economic development issues are addressed in a timely, thorough, and proactive manner.

Economic Development

The division of Economic Development is comprised of the Director, Waterfront Coordinator, Business Development Representative, and the Senior Executive Assistant. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city, a vital waterfront, and employment opportunities. The Department also endeavors to keep the lines of communication open so that economic development issues are addressed in a timely, thorough, and proactive manner.

In addition, this division includes the Creative Portland Corporation (CPC) staff of 1.8 full-time equivalents; CPC is a nonprofit organization which supports the City of Portland's economic development efforts, which enhances and creates business in the creative economy, arts district development, and employment opportunities.

The CPC positions are funded 100% through the Downtown Transit Oriented Development Tax Increment Financing District; the Waterfront Coordinator position is 100% funded through revenue from the Waterfront Tax Increment Financing District.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The Division specializes in providing specific programs which will assist in the recruitment and development of new and existing business and industry within the city.

The Portland Development Corporation budget is fully funded by the interest income from its business loan programs; the PDC relies on this income from its business loan program to cover its operating expenses. Expenses are offset 100% by program revenue.

Police Department

The Police Department is comprised of six divisions: Administration, Jetport Security, Uniform Operations Group, Bureau of Investigative Services, Operations Support Services, and Dispatch Services.

Following a strategic plan created in 2010, the Police Department mission focuses on three distinct areas: Service Excellence, Community Engagement, and Resource Maximization. Every decision, plan, and contact made places emphasis on these three areas. All members of the Portland Police Department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department's expense increase of \$825,752, or 5.3%, is primarily due to increases in payroll expenses. This budget includes the addition of five new positions which incorporates three new Community Policing positions, a Substance Abuse Disorder Project position, and a new Telecommunications Supervisor due to a retirement of a South Portland staff position, related to the on-going consolidation with South Portland in the Portland Regional Communications Center (Dispatch Services).

Revenues for the department increased \$104,742, or 3.9%.

Police Administration

It is the responsibility of the Chief of Police to create policy and make resource management decisions for the Police Department's resources. The Administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

Expenditures in this division have increased \$47,040, or 4.6%, primarily due to increases in payroll expenses. Revenues have increased \$9,880, or 7.4%, primarily due to administrative payroll cost reimbursement.

Jetport Security

The Sergeant assigned to the Jetport Security division serves as a direct liaison between the Police Department and the Jetport staff and Administration.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoint during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

Expenditures in this division have increased \$27,723, or 5.2%, primarily due to increases in payroll and benefits. The cost for this division is entirely offset by revenues received by the Jetport.

Uniformed Operations Group

A Commander heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the repression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to assign a proportionate number of patrol officers to the high and low demand hours of the day and days of the week. It also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Community Policing Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Community Policing Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and their fellow officers to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to facilitate efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority. To more effectively serve the City's residences, the FY18 budget includes Community Policing personnel additions comprising of one new Police Sergeant and two new Patrol Officers.

The Uniformed Operations Group also contains a Traffic Unit responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

Expenditures in this division have increased \$641,656, or 6.9%, largely due to increases in payroll expenses which includes the three new Community Policing positions, as well as a new Substance Abuse Disorder Project position. The contractual increase is mostly attributed to the transfer of graffiti removal services from Public Works in-house staff to a contractual service. Revenues have increased \$14,984, or 1.5%, primarily due to payroll reimbursements.

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by the Assistant Chief and is comprised of the following sections: crimes against persons, crimes against property, and narcotics investigations. The division is responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the Court Officer, Criminal Process Services, and both the Victim Advocacy and Human Trafficking program.

Expenditures in this division have increased \$88,412, or 5.0%, due to increases in payroll expenses. Revenues received include funding from the Maine Drug Enforcement Agency (MDEA) and the Police Victim Witness Advocate grant for salary reimbursement. FY18 revenues reflect an increase of \$33,375, or 20.1%.

Operation Support Services

The Operations Support Services Division is commanded by the Assistant Chief and is comprised of the following sections: computer crimes, forensics, property, training, and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

Expenditures in this division have increased \$48,529, or 6.1%, primarily due to increases in payroll and maintenance & repair line expenses. Revenues have increased minimally by \$1,035, or 2.2%.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services and is supervised by the Emergency Communications Director. Serving Cape Elizabeth, South Portland and the City of Portland, the PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate police, fire, and emergency medical services resources. The 2011 regional consolidation allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

Expenditures in this division have decreased \$27,608, or 1.2%, primarily from the budget reduction of a maintenance agreement included in the FY17 capitalized purchase of a new communication system. This cost savings is offset by the on-going transition / merger of personnel resulting from the consolidation with South Portland, which includes the addition of a new Telecommunications Supervisor. Revenues have increased \$17,745 or 2.1%, due to the regional cost-sharing agreement.

Notes:

(1) 1 New Position Approved during FY17

Fire Department

The Fire Department consists of five divisions: Administration, Code Enforcement and Community Services, Field Operations, Jetport Air Rescue, and Operations Support Services. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall expenditure increase is \$382,917, or 2.3%. Payroll accounts for 97% of this increase, or \$372,155, which includes the cost-of-living increases for 229.2 full-time employees. Other line changes include a decrease in contracted services for the FY17 assessment of the fire department stations located around the city.

The revenue increase of \$35,335, or 0.8%, is mainly attributed to the Air Rescue Station FY18 operational costs; the division's expenses are fully reimbursed by the Jetport Enterprise Fund.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

This division also administers the human resources activities for the department including hiring, worker compensation claims, benefits, wellness, risk management, and payroll. The division has instituted a Peer Support Team, using the Police Department model, to deliver support and services to members facing crisis; this endeavor has positively impacted leave associated with Critical Incident Stress cases.

The Fire Administration budget decreased by \$18,180, or 2.9%, due in large part to the conclusion of department's Emergency Management Administrator position in September of FY18. The grant funds associated with this position reduced the division's net revenues by \$31,684 or 24.0%.

Code Enforcement & Community Services

The division of Code Enforcement and Community Services is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Additionally, the division reviews site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground & underground storage tanks and liquefied petroleum gas tanks.

The division administers the Fire Prevention Code, N.F.P.A 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. This division also provides the management oversight of company level inspections of residential and commercial properties totaling over 5,000 a year.

Code Enforcement and Community Services also comprises the public information, education and community outreach initiatives, which includes the Portland High School Program, public education materials, and public information of current events affecting the citizens of Portland.

The Code Enforcement and Community Services division's budget increased minimally by \$2,769, or 1.1%. Revenues increased \$646 or 3.8%.

Field Operations

The Field Operations Division is responsible for providing emergency services including fire suppression, emergency medical care and transport, hazardous materials response, technical rescue response and any possible public emergency. The division supports fire and life safety programs through routine field safety inspections.

The Field Operations division is responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting services. Responsibilities include ensuring compliance with state mandated EMS requirements which involves overseeing the medical licenses of over 200 personnel. Field EMS Operations provides advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR, to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit provides in-service training for all fire department members as well.

Field Operations provides emergency services for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay, including emergency medical transportation for the island residents, as well as training for the islands' volunteer call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. Additionally, this division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. This division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations.

The Field Operations Division expenditure increase is \$528,701, or 3.7%. Payroll, which increased by \$470,041, represents 89% of this division's total increase. The increase incorporates one new Lieutenant/Paramedic position and one Lieutenant/ Paramedic position transferred from the Operation Support Services division, as well as the step increases and cost-of living (COLA) increases for the division's 209 full-time employees.

The revenue decrease of \$11,000, or 0.3%, is due to a decrease in the reimbursement from the Jetport enterprise fund for Medcu emergency responses.

Air Rescue Station

The Jetport Air Rescue Station Division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. The Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The Air Rescue Station expenditure and revenue increase of \$77,373, or 8.7%, is primarily attributed to payroll increases.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Operation Support Services

The Operations Support Services Division encompasses Hydrants, Building Maintenance and Fire Alarm. The hydrant system is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment. Building maintenance provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors. The fire alarm section maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Portland Regional Communication Center's (PRCC) core equipment.

The Operations Support Services expenditure decrease of \$207,746, or 21.2%, is mainly attributed to staff reorganization. An additional decrease stems from the completion of the fire stations' assessment study.

This division's revenue is generated from the Fire Alarm Master Box Connections fees (see City Code Chapter 10, Section 102c).

Department of Planning & Development

The Department of Planning and Urban Development consists of two sections: Housing and Community Development (including Administration and Rehabilitation) and Planning (including Transportation and Historic Preservation). In addition to the City funded planning programs, this budget includes CDBG expenditures for staff, which is federally reimbursed. These two department sections are accounted for in three divisions within the budget: Administration, Planning, and Housing & Community Development.

A FY18 budgetary reorganization involved the Historic Preservation division merger into the Planning division and departmental staffing restructuring.

The department's expenditure budget has increased by \$357,208, or 22.5%. The expenditure increase includes two new positions, an increase in hours of existing personnel, and annual salary increases. In addition, the contractual services line increased, which incorporates a City-Code Chapter 14 rewrite and impact fee study.

The department's expected revenue increase of \$61,954, or 7.5%, is mainly due to an increase in site plan review income, which is offset by an increase in the architectural and engineering line expenditures.

Planning & Development Administration

The Administration division oversees all operations of the Department of Planning and Urban Development. A significant portion of the expenditures are salaries that are included on the CDBG side of the budget, including Community Development staff.

Expenditures have decreased \$44,349 or 8.7%, due to the budgetary reorganization of the Transportation Program Manager to the Planning division.

The FY18 revenue in this division reflects HCD salary reimbursement monies. Revenues have decreased \$32,657, or 13.2%, due to a FY17 revenue budgetary correction, as well as the division transfer of the Transportation Program Manager.

Notes:

(1) (1) Position Transferred to Planning (100-2404) in FY18

Planning

The Planning division provides development review services for site plan, subdivision, historic preservation, DEP site location permits, and rezoning requests. In addition, Planning provides comprehensive and long range planning for the City. Moreover, this year has seen the integration of the transportation and historic preservation programs into Planning. Division services include: the Comprehensive Plan, neighborhood planning and implementation of general and specific master plans, public art, multimodal transportation planning, and historic preservation planning. Planning also manages the Congress Square Park redesign, the Public Art program, and other urban design initiatives.

Planning expenditures have increased by \$487,194, or 60.7%. In addition to the FY18 reorganization / merger of the Historic Preservation program and the Transportation Program Manager with the Planning division, the payroll increases include the addition of a new Senior Planner position, as well as full-time funding for all of the Planner positions. Other division increases include funding for the zoning code rewrite and the impact fee study, and increased monies for reimbursed engineering services.

Likewise, Planning revenues have also increased by \$107,671, or 28.5%, primarily due to the Historic Preservation associated revenues and an increase in application fees, and incorporating a reduction in HCD salary funding.

Housing & Community Development

Housing and Community Development is responsible for administering all of the City-assisted housing rehabilitation loan and grant programs, as well as homeownership efforts. Housing-related planning activities are also carried out by this division.

The FY18 budget increase of \$53,945, or 39.4%, includes a new Lead Base Paint Program Manager project position.

This portion of the Housing and Community Development budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, and Housing Development Fund (program income from CDBG loan paybacks); any increase or decrease in the budget has no impact on the tax levy.

Permitting & Inspections

The Permitting and Inspections Department consists of four divisions: Administration, Inspections, Housing Safety, and Business Licensing. The department is responsible for issuing building permits; enforcing the City's building, plumbing, electrical, housing, and land use codes; issuing business licenses; and maintaining the rental housing registration program.

As part of the FY17 city-wide reorganization, this department centralized many of the permitting and inspection processes with the goal of creating a more efficient, stream-lined approach, resulting in improved customer service.

The department's expenditures have increased \$158,467 or 10.7%. This increase is predominantly a result of increased staffing costs, including the addition of three new positions mid-year FY17.

The department's revenue budget has increased by \$695,133, or 18.9%. This increase is predominantly related to the anticipated increase in building permit activity, followed by a projected increase in Housing Safety revenue.

Permitting & Inspections Administration

The Administration division oversees all operations of the Permitting and Inspections Department. This division consists of the Director of Permitting & Inspections, as well as an administrative support position, and the necessary tools to support the oversight of the department's daily operations.

The division's expenditure budget has increased \$17,467 or 11.5%, predominantly a result of salary increases.

Inspections

The Inspections division issues permits for construction of all types, and acts as the enforcement agency for building, housing, plumbing, electrical, mechanical, zoning, and land use rules and regulations.

The FY18 Inspections division expenditure budget has increased \$201,384, or 25.7%. The majority of this increase is correlated to the changes in the staffing needs as a result of the recent city-wide FY17 reorganization and creation of the Department of Permitting & Inspections, all in a conscious effort to provide centralized services for improved customer service; three new staff positions were added during FY2017.

The division's revenue budget has increased \$565,675, or 26.5%, due to the projected increase in building permit activity.

Housing Safety

The Housing Safety Office administers the rental housing registration and inspection program for residential rental properties in the City of Portland, and is responsible for enforcing life safety codes.

The rental housing inspection program is funded by the revenue collected from the rental units' annual registration fee.

The division's expenditure budget has decreased \$50,066, or 16.6%. The budget reduction is due to the department staffing reorganization which consolidated all code enforcement and inspection to be managed by the Inspections Director.

The division's revenue budget has increased \$111,610 or 26.0%, as a result of the increased number of rental units being registered, as well as the addition of short-term rentals registrations.

Business Licensing

The Business Licensing division processes over 2,000 licenses annually as required by the City Code, including the oversight of the City's taxi licensing. The Health Inspection program is also included within this division which encompasses restaurant inspections, Certified Food Protection Manager (CFPM) and enforcement, as well as Fats, Oils, and Grease (FOG) inspections.

The division's expenditure budget has decreased \$10,318 or 4.1%. The division's revenue budget has increased \$17,848 or 1.6%. This is predominantly due to the implementation of the Fats, Oils, and Grease program initiated during FY2017.

Information Technology

The Information Technology Department (IT) is responsible for the design, development and maintenance of a large, wide-area information network, managing all the technology hardware and software used by the City of Portland. The department is divided in four sections of expertise: Applications, Technical and Customer Services, Operations, and Geographic Information Systems (GIS).

The Applications support team develops software for specialized needs, and supports the software purchased by the City.

The Technical and Customer Services team is responsible for the internal and external customer service for the City of Portland. The Technical Services team manages data and voice networks, including the Help Desk, which supports our workforce of more than 1,300 technology users. In FY17 the City installed new phone systems for 212 Canco Rd, 250 Canco Rd and City Hall; Police Fire and the remaining Public Works phones are scheduled for replacement in FY18. The Customer Services team manages customer support using a social media application called FixIt! Portland; 3,626 customer service requests were processed in 2016 from Portland residents and visitors.

The Operations team monitors and maintains AS400 systems for Public Administration and Public Safety, installing quarterly updates and semi-annual updates for all applications. Recently the City purchased a new integrated software and technology service designed for the public sector; the City is scheduled to bring our first Tyler Technology applications online during FY18.

The Geographic Information Systems section maintains and updates the computerized mapping systems used by Public Administration and Public Safety. Additionally, IT is responsible for maintaining the technology infrastructure that supports a combined Public Safety Answering Services (PSAP) for Portland, South Portland and Cape Elizabeth.

The department's expenditure budget has increased by \$97,441, or 4.2%. The increase is a result of our migration to the new public administration integrated software, as well as upgrades for other critical systems. The Revenues received represent the reimbursement of costs and services provided to the Enterprise Funds and the PSAP.

Public Works

The Director of Public Works oversees the operations of ten (10) divisions within the General Fund, as well as the Street Opening, Sewer and Stormwater funds. The Director along with the Deputy Director of Public Works, Division Managers and administrative support staff, provide day to day supervision for these functions. The department is responsible for basic municipal services, public infrastructure management, citywide fleet management, the development and implementation of capital improvement plans, and the wastewater - stormwater utilities. Department staff supports several city committees including the Sustainability and Transportation Committee.

The Public Works General Fund expenditure budget increased by \$194,927, or 1.4%. The FY18 budget calls for the net addition of four new full-time positions, and increased funding for pavement markings, vehicle fuel, and winter operations. The Solid Waste budget decreased significantly due to the FY2017 mid-year reworking of the transfer station CPRC contract and the outsourcing of the administration of the Pay-As-You-Throw bags.

FY18 General Fund revenue budget decreased \$324,067, or 6.5%, and is attributed mainly to the Solid Waste program changes: trash bag revenue is now reported net of expense, and the Riverside Recycling Facility's disposal cost decrease eliminates the need for the enterprise fund chargebacks.

Public Works Administration

The Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of street opening permits and street-sidewalk occupancy permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

The Public Works Administration expenditure budget increased minimally by \$5,192 or 1.0%. This budget includes the elimination of an Accountant position.

Districting

The Districting division is a national award winning multi-tasking Public Works maintenance program comprised of five working crews. The division is responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, and grounds maintenance, including winter sidewalk snow removal operations.

Districting continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. This division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. Furthermore, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

The Districting expenditure increase of \$71,857, or 4.7%, includes one additional maintenance worker (floater), the Ocean Avenue Dump Fence install required by the DEP (90% reimbursement eligible), and minor Canco Road building improvements. The revenue reduction of \$4,591, or 18.8%, is attributed to a decrease in the School Department reimbursement due to the Parks division split from Districting in FY17.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, significantly reducing the recycling fleet. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces, as well as over 60 solar smart trash compactor units.

City property owners may dispose up to ten qualified bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card.

The Bulky Item Pick-up program was implemented in May of 2012. Residents must apply online and request stickers to attach to their approved items for disposal. Qualified small items, less than 30 pounds, which will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten qualified small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for qualified items over 30 pounds.

Districting expenditures decreased \$901,574, or 34.8%. During FY17, the city renegotiated the contract with CPRC which substantially reduced recycling costs. In addition, the city contracted with an outside vendor to manage the distribution and collections of the pay-as-you-throw trash bags. The revenue decrease of \$387,648, or 15.8%, is a result of the trash bag revenue now stated net of expense, and the elimination of the CPRC charges associated with the enterprise fund chargebacks.

Communications

The Communications section encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This section is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and EMS) of emergency situations occurring on the streets of Portland as reported by any Public Works employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

Transportation Operations

The Transportation budget within the Engineering division supports civil engineering and field operations personnel, materials, equipment, programs, systems maintenance, and utility costs. Over \$1.2 million in annual electric utility costs for street lighting and traffic & pedestrian signals are borne by this budget, with a small revenue offset for lighting associated with the School Department. The City's annual pavement marking program is also included in this budget, as well as all equipment, material, and labor associated with regulatory and advisory Traffic & Parking signage throughout the City. Along with the Engineering division, the Transportation team provides support to the Planning Department as well, supporting an increased volume of Locally Administered Projects funded by the Federal Highway Program thru PACTS and Maine DOT.

The Transportation expenditure budget increased \$382,249, or 14.4%. As a result of increasing demand for project delivery and the goal of decreasing consulting costs, the FY18 budget reflects the increase of three new full-time positions. In addition, there is increased allocation for pavement markings. Revenue increased \$128,475, or 31.0%, largely due to project salary reimbursement, as well as a slight increase in street occupancy income.

Engineering

The Engineering division is comprised of a team of professional and technical staff with Civil Engineering, GIS, and Construction Engineering expertise. The Engineering team supports the Water Resources division and numerous City Departments with several vital resources, including City Archives, survey, research, street numbering, GIS data, Right-Of-Way permitting, and construction activity inspection and enforcement. A key role of this division includes supporting the Planning Division with all land development proposal review and activities.

The FY18 expenditures are up \$77,491, or 6.9%, primarily due to salary changes and the inclusion of specific technical capital equipment upgrades. Revenue projections related to salary reimbursements decreased by \$89,099 or 8.6%.

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Works workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public. Winter operations actual expenses remain dependent on snowfall and severity of winter conditions.

Winter Expenses increased by \$204,546, or 17.5%, mainly due to the utilization of sewer and stormwater fund personnel in snow removal during regular shifts and additional funding in snow equipment rental.

Fleet Services

The Fleet Services division purchases, repairs, and rebuilds the City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, City Administration, Public Works, Parks Recreation and Facilities, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee and maintains the vehicle replacement program city-wide.

Fleet Services is also responsible for housing the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments with two certified fabricators.

An anticipated increase in the price of fuel, an added full-time mechanic, and additional monies for vehicle repair all account for the expenditure increase of \$282,512, or 8.2%.

Island Services

Island Services is responsible for all Public Works functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. Island Services also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

Expenditures increased \$61,517, or 10.3%. This increase includes a one-time cost of portable restrooms for use during the renovation of the community center, an increase in payroll costs, and increased funding for transportation of materials and equipment to the islands.

Parks, Recreation & Facilities

The Parks, Recreation and Facilities Department consists of four major sections: Parks, Recreation, Public Assembly Facilities, and Building Maintenance. The Parks section oversees parks, playgrounds, courts, athletic fields, cemeteries, forestry and horticulture, and fountains. Recreation manages four community centers, pools, Riverside Golf Course and Restaurant, Troubh Ice Arena, senior adult programming and therapeutic recreation. The Public Facilities section is responsible for scheduling and management of Merrill Auditorium, Hadlock Stadium, Portland Exposition Building, Ocean Gateway, and the Maine State Pier. Lastly, the Building Maintenance responsibilities include the maintenance, repair and renovation of a variety of City buildings as well as the City's Waterfront properties.

Parks, Recreation & Facilities Administration

The Parks, Recreation and Facilities Administrative division serves a large and extremely diverse department. The Administration division oversees the numerous activities and challenges that transpire within the department. Functions include providing general administrative support, involving much of the centralized accounting and payroll duties.

The expenditure increase of \$119,835, or 38.0%, is primarily attributed to the department's reorganization and consolidation of the support staff previously housed in other divisions.

Trades

The Trades division budget is comprised of a highly skilled workforce that maintains, repairs, and renovates the various City buildings. Services provided include carpentry, painting, electrical, plumbing, remodeling, and maintenance of the heating and ventilating systems.

Expenses have increased by \$153,851, or 15.8%, primarily due to payroll. In addition to the temporary help line increase, the Trades personnel salary costs were previously shared with the Department's School Maintenance division; the School resumed the responsibilities of the School Maintenance division in FY18.

Merrill Auditorium

This division includes all the expenses for maintaining Merrill Auditorium, a 1,900 seat performing arts venue attached to City Hall. Prime Tenants include Portland Ovation, the Portland Symphony Orchestra, and Friends of the Kotschmar Organ. The theater hosts a variety of performances each year including symphonies, Broadway performances, concerts, comedians, graduations and holiday programming. In FY16 Merrill Auditorium hosted 135 events with over 151,000 patrons in attendance.

Other Public Buildings

This division includes all the expenses for maintaining a variety of other City-owned buildings and structures.

FY18 expenditures have decreased \$37,919, or 6.9%, primarily due to the reduction in heating fuel costs.

Ice Arena

The Ice Arena is celebrating its 32nd year of operation and has been renamed in honor of the late William B. Trough. William B. Trough was instrumental in creating the rink when he served on the City Council during the 1970s-1980's. The City-owned rink, located next to the Portland Expo and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice skating and figure skating lessons are offered as well. The City also operates the Ice Arena concession stand. The annual Ice Show is held each year the last weekend of April and is open to the general public.

Exposition Building

The Portland Exposition Building division includes all the expenses for maintaining and managing this venue. The Portland Expo is home to PHS basketball, and the Maine Red Claws, a NBA development league, which began playing in 2010. In FY2016 the Expo hosted 94 events, with over 94,000 attendees, including basketball games, trade shows, middle school track, and professional boxing.

Waterfront Maintenance

Waterfront Maintenance is responsible for the repair, maintenance and operations of City-owned waterfront property which includes the Portland Ocean Terminal, Maine State Pier and Ocean Gateway.

Cruise passengers continue to be on an upward trajectory. By the season 2018 the City is projecting to welcome 150,000 passengers, up from 100,000 passengers in 2016.

Several major undertakings are planned for the upcoming year: pier maintenance work continues as the City finishes Phase III of a \$1.75m seawall project, pier work advances at Compass Park in preparation for concerts on the pier, new East End and Cushing floats are being constructed for this Spring, and new comfort space for cruise passengers will be ready for Fall.

The expense increase of \$288,664, or 32.9%, is due primarily to the terminal upgrade planned projects, sound monitoring and security screening equipment, and the addition of an Operations Foreman position. Revenues are anticipated to also increase by \$451,978, or 28.9%, due to increased cruise ship activity and rental income.

Public Assembly Facility

The Public Assembly division handles the general management, marketing, booking, event coordination and other miscellaneous staffing and operational needs of the department's Facilities section functions. Maine State Pier, Ocean Gateway and Permitted Events are included under the Public Assembly division. In FY2016 the Maine State Pier and Ocean Gateway hosted 161 events with over 69,000 guests in attendance; these events include concerts, weddings, proms, non-profit fundraisers, business meetings and holiday parties. Over 650 permitted events took place within the City including road races, block parties, farmer's markets, Art Walks, and rallies.

Expenditures have increased by \$44,336, or 4.6%, with the increase attributed to event staffing. Revenues have also increased by \$75,730, or 14.6%.

Concessions

The Concessions division manages the concessions and catering operations for Merrill Auditorium, Portland Exposition, Fitzpatrick Stadium and the Troubh Ice Arena.

Expenditures have increased \$27,527, or 7.7%, due largely to increased food expense. Concessions projected income has also increased by \$31,500 or 7.9%.

Athletic Facilities

The department's Parks section oversees the Athletic Facilities division. Athletic Facilities is responsible for the care of all City-owned athletic facilities in Portland. This includes fourteen baseball/softball fields, two artificial surface football/soccer stadiums, fifteen multi-purpose fields, thirty playgrounds, and a variety of tennis, basketball and volleyball courts, as well as ornamental water fountains.

Recreation

The Recreation Division provides a wide range of programming/leagues and clinics for all age groups in the City and operates four community centers: Riverton, Reiche, East End, and Peaks Island. The Recreation division offers before-and-after school programming at all elementary schools (no before-care at Peaks) known as The Bell Program, as well as summer camp programs for children currently in K-7th grade. In addition, the City offers an extensive program for senior adults.

The City currently provides before-and-after school programming for one out of every four children in the elementary schools. Almost 700 children learned to play basketball in our leagues this past season and over 400 children attended our summer camp programs. The Recreation division maintains a list of over 400 senior adults in our age sixty-five plus program. The City plans to introduce a new Park-n-Play program at Deering Oaks this summer as a drop-in program for children, as well as a Hacker's Camp for kids to learn how to write computer code.

Expenditures have increased \$67,414, or 3.6%, primarily due to increased payroll expense and equipment needs. Revenues are projected to increase \$39,480, or 2.6%.

Aquatics

The Aquatics division operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. The division offers swimming lessons and aquatic programming for all ages including adult water aerobics and a Master's level program. In any given week the Aquatics division instructs over 700 people in city pools, from infants to adults. Stand-up paddling has been a big success this year with classes filling to capacity each session.

Riverside Golf Course

The City-owned Riverside Golf Course offers 30 holes: the 18-hole North Course, the 9-hole South course and the 3-hole practice course. Amenities include lessons and clinics which are managed by the Recreation Division. The FY2017 budget included the return of a golf pro: the 3-hole practice course is utilized by the golf pro to provide lessons to beginner golfers and by golfers sharpening their short game skills. Riverside is home to several golf tournament events each year.

Several years ago the City contracted with the National Golf Foundation to assess our golf course. Since that time, the staff has been working to implement their recommendations. The City is very proud of the work accomplished and excited to welcome many new players to the Riverside courses. Riverside is also a full service winter venue: sledding hills, two ice skating ponds, and many miles of cross-country ski trails are provided at no cost to participants.

FY18 expenditures are increased by \$152,677, or 17.4%, primarily due to the inclusion of the use of organic materials, salary increases, and Audubon certification process. Projections for golf play also increased, contributing to the total revenue increase of \$141,257, or 15.3%.

Golf Course Restaurant

The Riverside Grill restaurant, located at the Riverside Golf Course, opened its doors in May 2014. The restaurant is overseen in-house by the Golf Course staff, including an experienced Chef and a new Front of House Manager. The restaurant is open year-round welcoming golfers and the general public alike. Riverside Grill serves both lunch and dinner, as well as a brunch on Saturdays and Sundays. The restaurant also provides a golfers' beverage cart option. Additionally the restaurant hosts weekly daily specials. More information about the menu and the weekly events may be found on our website at <http://www.theriversidegrill.com/>.

Canco Road Buildings

The Canco Road Buildings is a recently new division following the 2015 and 2016 property acquisitions of 212 Canco Road and 250 Canco Road. The new Canco Road Municipal Complex houses staff and services of the Public Works and the Parks Recreation & Facilities departments. This budget provides for the maintenance and cleaning operations of both facilities.

Parks Recreation and Facilities staff, formerly housed in several locations, is now centrally located at 212 Canco Road. The Public Works Districting, Communications, and Transportation division staff occupies 250 Canco Road; other divisional relocations are planned in future fiscal years. In addition, the Canco Road facility provides storage space for Public Safety and is home to the Fire Department's Fire Alarms section. The consolidation of city operations into one larger facility fulfills city goals to maximize efficiencies.

Cemeteries

The Cemetery division is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. The Cemetery crew also maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Overall, the Cemetery Operations is responsible for the care and maintenance of sixteen cemeteries.

In addition to the care of grounds, the division is responsible for interments and disinterments, lot sales and other funeral-related services. Wilde Memorial Chapel, located on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

In addition to the conventional use as cemeteries, cemeteries have also traditionally been used as a public park. Evergreen Cemetery, for example, is comprised of an extensive network of country lanes, paved roads, wooded trails, and greenscape which invite exploration. As the largest open space in Portland, the cemetery attracts a rich variety of avian life; the Maine Audubon utilizes Evergreen Cemetery and its undeveloped woods for annual bird watching excursions.

Expenses increased by \$181,309, or 27.4%, primarily due to the transfer of the Park Ranger program from the Parks division.

Forestry

The Forestry / Horticulture division is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance trimming is done as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs blocking streets. The successful Community Garden program is run through this division, with over 400 plots in ten gardens.

The division actively seeks grant money from the State to increase the number of city trees planted each year. Forestry also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees across the City. The division helps to maintain the City's status as a "Tree City USA", an award Portland has received since 1978.

Furthermore, our Horticultural group creates and maintains beautiful display gardens including our Deering Oaks rose garden and downtown planters.

Expenses have increased by \$84,836 or 13.5%. This increase is mostly attributed to an added horticulturalist and an additional arborist position to provide enhanced maintenance and beautification to our parks, one of the goals outlined in the Trust for Public Land's Open Spaces report.

Parks

The Parks section oversees the Parks, Cemeteries, Athletic Fields and Forestry division operations. The Portland Parks Division manages a parks system that includes natural open spaces, over sixty parks and playgrounds, and seven-and-a-half miles of multi-use trails all spread across 721 acres of land.

The Parks Division aims to provide outdoor recreational opportunities for everyone, during all four seasons of the year: from the Portland Skatepark, to four splash pads and wading pools, two dog parks, four maintained ice skating ponds, a sledding hill and miles of groomed cross-county ski tracks.

The City has started a new series called "A Walk in the Park". For more details, please visit the following weblink: <http://me-portland3.civicplus.com/1990/14550/Park-Tours-and-Talks>.

The Parks division total expenditure increase of \$115,762, or 13.8%, includes staff restructuring and new park entrance signage. The Parks division split from the Public Works Districting division in FY2017.

Department of Health & Human Services

The City of Portland's Department of Health and Human Services (HHS) Administration division consists of five full-time positions. Administration oversees the finance and human resource functions of Public Health, Social Services and the Barron Center. The Director of Health and Human Services, an Executive Assistant, and the Director of Elder Affairs are also included in the Administration division's budget.

In addition to payroll expenses, the budget includes minor operational expenses.

Public Health

Public Health, a division of the Health and Human Services (HHS) Department, is the State's most comprehensive local public health department. Public Health consists of five programs in FY18: Operations, Family Health, Chronic Disease Prevention, the India Street Clinic, and Health Equity. Public Health's specific activities include, but are not limited to, health policy development, direct services to the underserved, and health education.

The FY18 budget reflects continued transition of clinical services to other community agencies, the remainder of school based health centers, and the Children's Oral Health program.

The division relies primarily on grant funding. The FY18 revenue projection compensates for 58% of the Public Health division's budgeted expenditures.

Public Health Operations

The Operations program provides support services to all programs within the Public Health Division, as well as administrative support to HHS. These services include grants management of over twenty grants; policy and procedures creation and management; ensuring HIPPA and confidentiality compliance; payroll and reimbursement processing; supply ordering; facilities support; and liaises with the City Finance, Legal and Information & Technology departments. The Program is supported through both City and Grant funding.

The FY18 budget reflects a decrease of \$26,817, or 10.8%, primarily due to staff reclassification.

Family Health

Family Health is comprised of the Maternal & Child Health and Portland Defending Childhood programs. These programs provide access to violence prevention services and education, and maternal & child health services in-home and at community locations. Collectively, Family Health served more than 2,500 individuals with more than 5,200 visits and outreach. The Maternal and Child Health Program innovates its Playgroup to serve up to thirty-five children ages 0-5 years weekly. Additionally, Portland Defending Childhood implemented evidenced-informed violence prevention curricula in nearly one-hundred classrooms throughout the Portland Public School system.

The FY18 expenditure budget decreased by \$828,451, or 78.1%, primarily due to the final transition of school based medical and dental services to community partners.

Chronic Disease Prevention

The City of Portland's Chronic Disease Prevention program is dedicated to serving the residents of Portland by creating and advocating for health policies at the local and district level; the City utilizes evidence-based practices and collaborative partnerships. The health issues addressed include tobacco, smoke-free living, physical activity, healthy eating, lead poisoning prevention, skin cancer prevention, and substance abuse prevention.

The expenses have decreased by \$38,371, or 7.1%, primarily due to staff reductions caused by the loss of grant funding.

India Street Clinic

The India Street Clinic, located at 103 India Street, houses the Portland Needle Exchange, the HIV/STD and Hepatitis C Prevention Program, and the Portland Community Free Clinic. Individuals who are enrolled in the exchange may access clean syringes, education, counseling, testing, overdose prevention and linkage to treatment. The STD clinic offers HIV, STD, and hepatitis C testing and treatment services for sexually transmissible diseases on a walk-in basis. The Portland Community Free Clinic has over one-hundred volunteer medical providers and support staff, and is a partnership between the City and The Friends of the Free Clinic, a 501(c)(3) whose mission is to raise funding for the clinic. The Portland Community Free Clinic provides medical care to the uninsured that earn below 250% of the Federal Poverty Level, are between the ages of eighteen and sixty-four, live in Cumberland County, and are stably housed.

The FY18 budget reflects a decrease of \$147,548, or 18.6%, due to the transition of medical services.

Health Equity

The Health Equity Program supports the Public Health Division with services to minority populations. The goal of this division is to reduce health disparity for racial ethnic minorities in Greater Portland. Specific activities include health education to racial and ethnic minority groups, enrolling individuals in health insurance, and training public health and health care professionals in cultural competency.

The FY18 budget reflects a decrease of \$2,436 or 1.8%.

Social Services

The Social Services Division provides both financial assistance and support services for low-income Portland residents. Its purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Programs operated include General Assistance (GA), Homeless Shelters for individuals and families, Case Management and Representative Payee Services.

The City funds approximately 38% of the Social Services FY18 budget, as compared to the 41% budgeted in FY17. The remaining 62% of expenditures is funded through federal and state grants. Total revenues have decreased primarily due an anticipated decrease in GA reimbursement, as well as a reduction in CDBG funding; grant funding from Maine State Housing Authority increased in FY18.

Social Services Administration

This administrative unit is responsible for the overall general management of the Social Services programs. Services include grant management, data/statistical analysis, payroll, accounts payable, receivables and other operational responsibilities.

The FY18 budget for Administration increased by \$45,109, or 11.7%. The increase is primarily related to payroll, including changes in the funding of the administrative support staff through grants.

General Assistance

State law requires municipalities to administer General Assistance (GA) which provides for immediate aid to individuals who meet eligibility requirements and are unable to provide basic necessities essential to maintaining themselves or their families. Maine law states that municipalities have the responsibility to provide financial assistance to all eligible residents of their municipality, as well as non-residents who intend to reside in the municipality and have no other residence. GA provides basic needs in the areas of shelter, housing costs, utilities, food, medication, disposable diapers and hygiene items. All assistance is issued in vouchers and no cash is provided. The GA program processes an average of 1,250 applications per month and provides assistance to 4,010 individuals per year (unduplicated number).

In FY18, the GA program has continued the focus on self-sufficiency through the HIRE (Helping Individuals Regain Employment) program. The Division has increased the City's partnership with local employers, education professionals and the local Career Center in order to aid our GA recipients in finding long term employment.

Due to changes in the State eligibility regulations, a portion of Portland recipients of General Assistance will no longer be eligible for General Assistance in FY18, reducing anticipated expenditures by \$1,153,380 or 15.2%.

Housing & Support Services

Housing and Support Services provides representative payee services and workfare program management for able bodied individuals receiving General Assistance.

Due to the division's relocation of funding to the administrative division, both payroll expenditures and revenues decreased in FY18.

Oxford Street Shelter

The Social Services Division operates the Oxford Street Shelter and Community Overflow Shelter for adults. The Oxford Street Shelter is a low barrier facility that provides access to safe overnight shelter for homeless adults (18+) 365 days a year. The Oxford Street Shelter has a capacity of 154 beds. This division also operates an off-site Community Overflow Shelter at the Preble Street Resource Center and a warming center at the General Assistance waiting room. Additionally, clients are provided with a place to access a day shelter on weekends.

The shelter promotes a housing culture by offering an array of services such as housing triage, housing orientation, current apartment lists and assistance with travel to apartment showings.

Family Shelter

The Social Services Division operates the City of Portland's Family Shelter. The Family Shelter assists families with children under the age of 18. The Family Shelter has a capacity of 112 beds, and services are provided to over 700 individuals and 205 families each year. The Family Shelter is an apartment style homeless shelter that offers private rooms and shared spaces. Families who reside at the shelter work on several goals including housing, establishing medical care, enrolling children in school, and establishing mainstream resources.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of nine divisions.

The Barron Center provides comprehensive health care services to individuals in need recognizing the unique value of each person with the purpose of preserving and enhancing the individual's quality of life. The Barron Center is a 219 bed skilled rehabilitation and nursing facility, including a 50 bed specialty unit for the care of dementia. The Center provides speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The staff includes 263.7 full-time equivalent positions made up of over 315 individuals at any time.

The FY18 Barron Center expenditure budget increased by \$548,176, or 3.3%. The increases are mainly attributed to wage increases, as well as capital items. The FY18 revenue budget increased \$840,551, or 4.3%. This increase is attributed to the acuity of residents and the higher reimbursement associated for care based on acuity.

Barron Center Administration

The Barron Center Administration division is responsible for the care and management of the facility's capacity for 219 residents and 300+ full and part-time employees. The Business Office is responsible for the financial operations, which includes budgeting, payroll, accounts payable, and accounts receivable (including coordinating with the Barron Center's billing vendor).

The FY18 budget for Administration increased by \$34,101 or 1.6%. This increase is mainly attributed to staffing changes. Other changes include an increase in contractual services and a decrease in capital outlay.

Office of Elder Affairs

Through the Office of Elder Affairs, the City provides the community with an Elder Advocate, who is available to work with any Portland senior who needs help. Assistance is provided in the form of senior information and referrals, adult day health services and community collaboration. The Adult Day Services program offers supportive, daytime care that enables individuals living alone or with family to remain at home. The City manages a specialized program for clients with Alzheimer's disease or related dementias, and provides much-needed respite for caregivers.

The FY18 budget for the Office of Elder Affairs increased by \$8,238, or 3.5%.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's 18.2 positions provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The FY18 Nursing Administration division's budgetary increase of \$38,700, or 2.8%, is mainly attributed to general wage increases.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit, located on the main floor of the facility, is a 25 bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36 bed unit located on the second floor. The majority of these patients have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36 bed unit located on the second floor. The dementia residents (continuing care dementia) on this unit are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36 bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50 bed unit, managed as five 10 bed "neighborhoods", which provides Alzheimer related / type services. BC II residents are highly mobile and require unique staffing considerations.

The FY18 budget for Nursing Direct Care budget consists only of wages, and increased \$295,232 or 4.3%.

Nutrition & Supply

The Nutrition and Supply division consists of Resident Nutrition, Cafeteria / Catering, and Central Medical Supply. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, visitors, and operates The Clock Tower Cafe at City Hall. Catering services are provided for City functions, receptions, and celebrations. Central Medical Supply purchases, receives, stores, and distributes routine medical supplies, over-the-counter drugs, and other supplies for the various divisions within the Barron Center.

The FY18 budget for Nutrition and Supply increased \$33,795, or 1.0%. This increase is mainly attributed to the addition of two full-time positions, partially offset by decreases in the supply and capital outlay expense lines.

Environmental Services

The Barron Center's Environmental Services Division is composed of six employees who are responsible for the maintenance of the twelve-acre Brighton Avenue facility. The maintenance division keeps the building in repair and working order through completing projects in-house or arranging for outside vendors. Maintenance also conducts facility fire drills and provides orientation education for drill procedures.

The FY18 budget for Environmental Services increased \$137,511, or 13.5%, and is primarily attributable to various capital purchases.

Housekeeping

The Barron Center's Housekeeping staff is responsible for providing a clean and appealing environment for all residents of the Barron Center.

The FY18 budget for Housekeeping increased \$20,394 or 3.3%. This increase is mainly attributable to general wage increases.

Laundry Services

The Laundry division provides a clean and adequate supply of laundry to the residents. Personal laundry services are provided to nearly all of the residents. Laundry services are also provided to the City's Oxford Street Shelter and the Portland Community Health Center on Park Avenue.

The FY18 budget for Laundry decreased by \$23,465, or 4.5%. This decrease is attributed to the replacement of a laundry truck in the FY17 budget.

Debt Service

The Debt Service account provides for the payment of the principal and interest on the City's outstanding General Obligation Bonds, as well as the cost for the current-year bond issuance. Department revenue is from reimbursed bond costs, primarily from the City's enterprise funds and the School Department.

Library

Portland Public Library is a general purpose library system that serves the Portland and the surrounding region. The Portland Public Library (PPL) provides a wide array of collections, programs, and services to 80,000 patrons through four locations, the bookmobile, and the outreach service to low-mobility community members, as well as 24/7 access through our "virtual branch" on its website.

The Portland Public Library is a trusted educational leader and multifaceted community resource in Portland. PPL welcomes everyone, and provides exciting and meaningful opportunities to children and families, and to teens and adults as lifelong learners. PPL is also frequently accessed by those on the margins – the economically challenged, those in recovery or newly release from incarceration, new Mainers, our aging population, and others in transition. In addition to collections of over 360,000 and more extensive online resources, the Library offers over 1,000 programs each year for citizens to engage in education, entertainment, important conversations about issues in the community, tutoring, training in workforce skills, and other opportunities for growth.

Portland Public Library is an independent 501(c)(3) non-profit organization, governed by a Board of Trustees. PPL finances all of its collections, programs, and outreach through an Annual Campaign, operational grants, fees, and endowment income. The City of Portland owns the land and buildings in which the Library operates its public locations. Municipal support from the City of Portland, Cumberland County, and the Maine State Library is directed solely to the infrastructure needs of these buildings and the salaries of Library employees.

In April 2010, the Main Library location on Monument Square completed Phase I of a major renovation project, heightening the usability and improving the atmosphere of the space, including public meeting rooms used frequently by the City and other public institutions. Phase II of the Main Library renovation is in the planning phase. In 2013, the Library added a bookmobile. In 2016, the Burbank Branch Library received an extensive renovation; and the Peaks Island Branch Library will be renovated in 2017-2018.

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60 (or at age 65 after July 1, 2014), and Public Safety employees with 25 years of service. There is also a plan covering grandfathered Public Safety employees with 20 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, Group Life Insurance, Unemployment, and FICA. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

Health Insurance Program

The Health Insurance Account provides funding for the City's self-insured health plan. The City picks up the full cost of medical individual and family coverage for full-time grandfathered employees. For all remaining full-time employees, the City picks up 85% of employee only costs, 72% of employee and child(ren) costs, 69% of employee and adult costs and 65% of family costs.

During FY17, the City introduced a new voluntary wellness program, aimed at improving health and well-being of employees by achieving healthier living. Participation in the program's five wellness activities provides an incentive at the beginning of each plan year for employees to reduce or eliminate the employee only 15% share of costs.

Claim payments are made by a third-party administrator.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. When applicable, this account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

Contingency

The Contingency account provides funds which are set aside as a necessary provision for meeting unforeseen contingencies and emergencies which may arise during the year. Expenditures for contingencies arising in the implementation of the policies and work programs established by the City Council are authorized by the City Manager.

The FY18 budget decrease is primarily related to the American with Disabilities (ADA) self-evaluation plan study incorporated in the FY17 budget.

Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. Claims are processed in-house in the legal department through Maine Municipal Association's (MMA) property and casualty pool. In addition, the City purchases insurance policies to cover property and liability exposures that could possibly exceed the liability limits set forth in the Maine Tort Claims Act.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, airport and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

Transit District (Metro)

The Transit District account provides subsidy support to the Greater Portland Transit District, better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves. In April 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members. The district is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities.

The City of Portland's share of the local operating subsidy is approximately 82%. Portland's actual share of the Metro budget has increased by \$66,891 or 2.6%.

Regional Transportation

The Regional Transportation Program (RTP) provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP services the cities of Portland, South Portland, and Westbrook, with the cost apportioned based on ridership.

The FY18 budget increase is a reflection of a FY17 program change / adjustment.

Memberships - Miscellaneous

The Memberships account provides for City membership in various professional and governmental organizations whose purpose is to provide services and information to the City. This year's budget includes funding for Community Television Network, the Maine Municipal Association, the Greater Portland Council of Governments, Peaks Island Council, the Board of Harbor Commissioners, the HOME Team, and Community Counseling for TIP Program.

Street Openings

The Street Openings program and budget are governed by state law, and must be kept separate from the General Fund. All excavations in the City's roadway and sidewalk networks are permitted, inspected, and enforced thru this program. The fee structure is based on the actual costs of administering the program; labor, equipment, and materials costs are fully funded by the collection of fees for these services by way of a formula in our Rules & Regulations previously negotiated with the public utility companies and contractors based on State Law. This program also collects fees for permanent trench repairs as required by City Code for work to be performed in future fiscal years, hence, the possible sporadic budgetary variances from one fiscal year to the next.

The Street Openings (Excavation) Program is administered and enforced by personnel in the Engineering Division.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On July 1, 2017, the sewer user fee increases to \$9.65 per hundred cubic feet (hcf). This is an increase of \$0.30 over the FY17 rate of \$9.35 per hcf, an increase of 3.2%. The Stormwater program / rate separated from the Sewer Fund mid-year FY16, allowing more equitable distribution of user costs based on impervious area. The City has been making improvements to its combined sewer overflows. The second tier of projects was completed in 2013, and 2014 began the third tier of CSO projects. The capital cost estimate of these projects totals over \$200 million over an approximate 20 year time period, the cost to be financed by the Sewer user fees and the Stormwater service charges.

In FY18, approximately 77.7% of the budget is allocated for debt service and assessment fees to the Water District.

STORMWATER FUND

FY18 is the second year in which both the Stormwater revenues and expenditures are estimated for a full year. The Stormwater Fund was created in FY16, and the new Stormwater fee was effective mid-year FY16, January 1, 2016. A stormwater division, previously a component of the Sewer Fund, separated in FY16 as part of an effort to achieve greater fairness in paying stormwater costs among its' users.

The PWD continues to provide billing services for the Sewer fees, while the City maintains the billing system for the costs related to Stormwater or the impervious areas. The FY18 Stormwater Service Charge remains unchanged at \$6.00/month per 1,200 square feet of impervious surface. The collected funds are used to maintain and improve the City's infrastructure.

JETPORT

The Jetport is ranked by the Federal Aviation Administration as the 96th largest airport in the United States based on enplanements as of calendar year 2016. In FY17, a total of 1,819,008 passengers flew into and out of the Jetport. The Jetport is served by American Airlines, Delta Airlines, Elite Airways, JetBlue Airways, Southwest Airlines, and United Airlines, along with their regional partners.

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 34% of the Jetport's total FY18 revenue, with parking, rental cars, concessions, ground rent, and miscellaneous revenue providing the other 66%.

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a commission to the Jetport based on gross sales. In FY18, car rental agency income is expected to draw 30% of the non-airline revenue. Parking, representing 45% of non-airline revenue, is contracted out to a private management company which pays the Jetport a monthly fee based on total net revenue earned.

Jetport Parking Division Income

Note: FY17 and FY18 are estimated amounts

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are four enterprise funds administered by three departments of the City. A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Department of Parks, Recreation and Facilities. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

STORMWATER FUND

The principal function of the Stormwater fund is to account for operating, maintaining, and meeting the capital costs requirements of the City of Portland stormwater and combined sewer infrastructure systems. The City of Portland maintains 129 miles of stormwater infrastructure, 141 miles of combined sewer systems, 96 miles of sanitary sewer, 9 sewer pumping stations, and approximately 15,000 other structures that help to move and treat stormwater.

The city is also responsible for the capital costs necessary to maintain the system and the development and redevelopment of properties within the city and for meeting State and Federal mandates regarding the quality of streams and tidal waters within its jurisdiction.

JETPORT

The Jetport Fund is responsible for the operation and maintenance of the Portland International Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine. Passenger enplanements have increased from approximately 250,111 passengers annually in 1980 to 886,343 for calendar year 2016.

The Jetport's major expenses include the terminal building, operation of the Jetport Parking division, and maintenance of the Airfield runways, taxiways and aprons. Other central expenses include security, administrative, and marketing costs.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

Sewer Fund

The principal function of the Sewer Fund Enterprise is to account for the sewer services provided to City residents and business establishments. The Portland Water District (not a city department) owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly or quarterly fees, based upon water volume, to support the expenses of the fund.

The Sewer Fund expenditures increased \$1,081,856, or 4.6%. This increase is mainly attributed to the additional funding for sewer collapse repairs and sewer inspections in the Sewer Districting division, as well as an increase in the Portland Water District (PWD) assessment fees. Other significant changes include an increase in the allocation for maintenance & repairs and a decrease in the Sewer Debt Service expenditures.

Sewer Finance

This division's services are provided by the City's Finance Department. Finance provides billing and collection services, as well as lien processing for delinquent accounts. The Finance Department also maintains the financial records for the Sewer Fund and the computer network system.

Sewer Public Works Administration

This division accounts for the associated costs incurred by the Department of Public Works administrative staff for sewer related activities.

The FY18 Administration expenditures show a decrease of \$69,667, or 7.9%, largely due to the reduction of a full-time position and the elimination of the office reconfiguration funds allocated in FY17. The Administration budget also includes increased funding for Fats, Oils & Greases (FOG) inspection fees.

Sewer Districting

The Sewer Districting division is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance, and sewer inspections and investigations.

Division expenditures have increased \$1,084,445, or 61.4%. This division includes a significant increase in contractual services, including increased funding for emergency collapse sewer repairs and sewer inspections, building maintenance and repair used for outfitting the new building at 109 District Road, and necessary maintenance and repair of other equipment. The budget also includes the reduction of one position and the restructuring of staff.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for the implementation of the Combined Sewer Overflow (CSO) abatement program and the industrial pretreatment program, both federally mandated by the Clean Water Act.

Overall the FY18 Sewer Engineering expenditures reflect an increase of \$25,417, or 7.7%, largely due to the addition of one new position.

Stormwater Fund

The Stormwater Fund supports the expenditures needed to operate and maintain this critical infrastructure system, preventing pollutants from entering valued waterways as mandated by the federal Clean Water Act (CWA). The stormwater fee, implemented in January of 2016, was designed to disperse the program costs to all City property owners who benefit from the positive impacts of this investment; the Stormwater Fund separated from the Sewer Fund in FY16. The stormwater fee is based on the impervious area on a property.

The FY18 budget reflects the second full year of the new Stormwater Fund program, and includes staffing modifications. FY18 expenditures decreased \$1,071,259, or 26.1%. The decrease is primarily attributed to the FY17 budgeted monies for the Sagamore stormwater storage filtration system. Other decreases include the elimination of Riverside Recycling disposal costs due to a renegotiated contract and other contractual line changes.

Stormwater Management

The Stormwater Management division budget represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. The Sweeping division performs street flushing, and clean up after special events (parades, New Year's celebration, etc.); their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

The FY18 budget eliminates the FY17 budgeted capital outlay monies for the development of a single stormwater storage filtration management system, as well as the Riverside Recycling costs. The FY18 budget also incorporates a reorganization of division personnel, including the addition of two new positions. The Stormwater Fund separated from the Sewer Fund in FY16.

Jetport

The Portland International Jetport provides commercial air service to over a million and a half passengers a year and also provides a general aviation facility for private aircraft and an air cargo terminal. There are also two fixed-base operators (FBO) on property which provide aircraft sales and service as well as aircraft fueling. The Jetport is a dedicated fund which means that all revenues generated remain with the airport to fund both normal airport operations as well as capital improvements. No tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is budgeted under Administrative Services as the anticipated surplus.

The Jetport recently completed a new Airport Master Plan. This master plan is a guide for the Jetport's priorities in spending for airport maintenance, improvements and major equipment purchases, providing direction through the next 10-20 years.

The Jetport's overall expenditure budget (excluding anticipated surplus) has increased by \$1,349,859, or 6.5%. Revenues have increased by \$1,090,047, or 5.0%.

Jetport Administration

The Jetport's Administration division is responsible for the day-to-day management of the Jetport and for planning future operations. Divisional services include property management, payroll, accounts payable and accounts receivable, budgeting and human resources functions.

The Administration budget has decreased by \$28,413, or 2.9%, primarily due to a reduction in capital.

Jetport Field

The Jetport Field division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft. Division responsibilities include mowing, snow removal and fleet maintenance.

This budget has increased by \$418,973 or 12.3%. This increase is due to increased allocations for airfield maintenance services, winter snow and ice control, and capital purchases. The FY18 budget also includes staff restructuring between divisions.

General Aviation

The Jetport General Aviation division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. The General Aviation division collects landing fees from the aircraft that use the GA area, similar to the fees charged to the commercial airlines. These revenues help to lower the costs for commercial airlines that serve the Jetport.

The General Aviation budget remains flat for FY18.

Jetport Fringe & Indirect Costs

The Jetport's Fringe and Indirect Costs division reimburses the City's General Fund for expenses incurred for their services including employee benefits, general liability insurance, the Fire Department's Air Rescue Station and Medcu services, and chargebacks for City-provided departmental services including Executive, Finance, Legal, Human Resources and Information Technology.

This division's expenditures have increased by \$214,702, or 6.3%, predominantly due to higher benefit and increased Air Rescue costs.

Jetport Operations

The Operations division (formerly the Security Division) performs all administrative and operational activities related to security, including assuring that the Jetport complies with all federally-mandated airport security and operational procedures. The division oversees the maintenance of all security related equipment including cameras and monitors, computer equipment, and security doors and gates. The division is also responsible for processing employee background checks and issuing employee ID badges. The Operations Center (formerly called the Communications Center) provides communications and technical support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public, the airlines, and the airport businesses on property. The costs of the police officers which serve at the Jetport are also paid from this division.

The Security division's budget has increased by \$514,348, or 27.6%, largely due to the reorganization of staff within the department and contracted security services.

Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including interior and exterior terminal cleaning and maintenance. The terminal division's engineering section is responsible for the planning, design and management of major terminal improvements.

The Terminal's budget has increased by \$237,486 or 4.5%. The budget increases are primarily a result of increases in contractual maintenance service items and utility costs. The FY18 budget also includes staff restructuring between divisions.

Jetport Surplus

The Jetport surplus is determined annually by calculating total revenues minus total expenses, including capital purchases.

The FY18 surplus budget reflects a decrease of \$259,812, or 23.5%.

Division Summary

Jetport Parking

The Parking division oversees the parking maintenance and operations of the Jetport's parking garage and surface parking lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

Expenditures have increased by \$22,590, or 0.5%, primarily due to the appropriation increases in capital, offset largely by the reduction of debt service expenses.

Airfield Deicing Facility

The Airfield Deicing Facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the expenditures incurred, thus creating a "net zero" impact on the Jetport's overall budget.

Expenditures for the Airfield Deicing Facility have increased by \$7,503 or 1.1%.

Key Revenues and Expenditures

Revenues

The Housing and Community Development Program or HCD is a special revenue fund that is supported by several federal and local funding sources.

1. Community Development Block Grant (CDBG) Program:

The Community Development Block Grant (CDBG) is funded by the federal government under the Housing and Community Development Act of 1974. For Program year 2017-2018 the City allocated \$1,962,465, which is comprised of \$1,745,465 in direct allocation from HCD and \$147,000 from program income; \$70,000 is being used this year from re-programmed funds. These funds are used to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.

2. Home Investment Partnership Program (HOME):

The HOME funds are available for a broad range of housing activities benefiting low and moderate income households. For 2017-2018, the City proposes to utilize \$824,856 of HOME funds and \$200,000 of Program Income for a HOME Consortium between the City (\$694,441) and Cumberland County (\$330,415) for the development of new rental housing, single family and multi-family rehabilitation, tenant based rental assistance, and assistance to special non-profit agencies called Community Housing Development Organizations (CHDOs) to develop affordable housing.

3. Emergency Solutions Grant Program (ESG):

The ESG funds can be used by the City to fund the rehabilitation, operation and support services of providers and facilities assisting Portland's homeless

population. The City proposes to use its 2017-2018 ESG entitlement allocation of \$161,280 to provide case management and homeless prevention services through City Family Shelter programs administered by the Department of Health and Human Services.

4. Portland Development Fund: Originally established in 1986, the goal of the Portland Development Fund is to respond to the need for 1) housing that is affordable to low and moderate income households, and 2) commercial and industrial development opportunities to further strengthen the local economy and generate jobs, particularly in downtown Portland.

Originally there was approximately \$1 million in the Portland Development Fund for both housing and economic development activities. Sources of funding include Urban Development Action Grant (UDAG) miscellaneous revenue, CDBG program income, CDBG entitlement allocations from previous years, and loan repayments and interest generated. In 1990 the fund was split into Housing, administered by the Housing & Community Development Division, and Economic Development, administered by the Economic Development Department.

The Housing portion of these funds is appropriated for several activities, including the development of new affordable rental housing, single and multi-family rehabilitation, and lead paint abatement. UDAG funds administered by the Economic Development Department are used for loans and investments by the Portland Development Corporation.

Expenditures

The three expenditure categories utilized by the CDBG Program are: Public Services, also referred to as Social Services, Development Activity Funding, and Program Planning and Administration. A brief description of the services provided for the 2017-2018 fiscal year under each of these categories follows. A more comprehensive source of information on these programs can be found in the 2016-2020 Consolidated Housing or the 2017-2018 Annual Action Plan issued by the Department of Planning and Urban Development. The 2016-2020 Consolidated Plan implemented the following new program goals and objectives:

- a. ***Neighborhood Investment and Infrastructure***
to create strong, safe, accessible and vibrant neighborhoods.
- b. ***Housing Opportunity***
to increase housing availability and affordability.
- c. ***Economic Opportunity***
to create economic opportunities to transition people out of poverty.
- d. ***Address the Needs of the Growing Homeless Population***
to prevent and reduce homelessness.

PUBLIC SERVICES (SOCIAL SERVICES)

1. Neighborhood Investment and Infrastructure includes Community Policing.
2. Economic Opportunity includes Catherine Morrill Child Care Voucher Program and the Portland Opportunity Crew.
3. Address the Needs of the Growing Homeless Population includes Amistad Peer Coaching Initiative, Family Shelter After Hours Program, Milestone HOME Team, Preble Street's Teen Shelter, Resource Center, Food Programs & Women's Shelter, and the Wayside Food Programs.

DEVELOPMENT ACTIVITY FUNDING

1. Neighborhood Investment and Infrastructure includes Bayside Neighborhood Association Community Garden, Catholic Charities Energy Efficiency Upgrades – Support and Recovery Services, Portland Parks and Recreation East Bayside Futsal Court, Public Works Oxford Street / Bayside Sidewalk Improvements, YMCA Men's Dormitory Boiler Replacement, and Youth & Family Outreach Life & Safety Upgrades.
2. Economic Opportunity includes Catherine Morrill Day Nursery Toddler Classroom Expansion, Economic Development Department Business Assistance Program, and CEI Portland Microenterprise Assistance Program.

PROGRAM PLANNING & ADMINISTRATION

The following are reimbursements to general operating accounts for program administration services:

1. The Department of Planning & Development provides Administration, Planning, Housing & Community Development, and Citizen Participation services which are reimbursable under the HCD guidelines.
2. The City receives reimbursement for a portion of the annual audit cost associated with auditing the HCD Program.
3. The City may receive reimbursement for a portion of the fringe benefits associated with the positions funded with HCD monies. However, the fringe benefit reimbursement along with all of the administrative costs must not exceed the 20% cap set by CDBG regulations.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2018 School budget was approved by the voters June 13, 2017. With the July 2017 passage of the State of Maine budget and the increased state funding for the Portland Public Schools, the City Council approved an additional FY18 school spending allocation of \$712,351.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 78.3% of the FY18 Education budget.

State Subsidy

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The budgeted portion of State Aid for Essential Programs and Services (EPS) and debt service accounts for 14.0% of the School's FY18 Budget.

The chart represents the State Aid to Education revenue history over the past six years.

Note: FY17 and FY18 are estimated amounts

*FY18 State Aid to Education data includes the additional education funding received in the final enacted State of Maine Budget (July 2017), which includes an anticipated \$1m designated for fund balance.

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Board of Public Education for the City be administered by a school board comprised of nine members. The Board of Public Education performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into six categories: (1) Salaries and Benefits (2) Contractual Services (3) Supplies (4) Miscellaneous (5) Debt Service and (6) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Budget Overview

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114 mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac Indian name meaning "shaped like a

great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cross Insurance Arena. Two major medical centers, Maine Medical Center and Mercy Hospital, are also located in the City.

Budget Overview

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

Budget Overview

1. projected collection estimates for the current fiscal year with explanations for projections substantially different than estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the City's budget process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion

of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department budget, under the school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final

Budget Overview

justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self balancing accounts that comprise its assets, liabilities, reserves, fund equity/retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, parks recreation and facilities, public works, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the acquisition, construction or improvement of

capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds are: Fish Pier, Sewer, Stormwater and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

All proprietary funds are accounted for on a flow of economic resources measurement focus.

Budget Overview

Basis of Budgeting

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Activity: A segment of the account number that identifies the type and purpose of the account. The two activity classifications used in budgeting are: 300's - Revenues and 400 & 500's - Expenditures.

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The element classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The element classification for employee related costs such as health insurance, pension, FICA, unemployment, and tool allowance.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Glossary of Terms

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The element classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Client Expenses: The element classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The element classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The element classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Glossary of Terms

Element: A segment of the account number that distinguishes types of expenditures. The major classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance and Repairs, Rentals, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, and other equipment.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of/and guidelines for financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices as a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, public works, parks recreation and facilities, health and human services, public library, county tax, metro, and debt service.

Glossary of Terms

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

HUD: The abbreviation for Housing and Urban Development.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

Insurance: The element classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category (salary, materials, telephone service, travel, etc.) separately, along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The element classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The element classification used for tangible property or equipment used for operations having a cost between \$5,000 and \$10,000 per single item.

Glossary of Terms

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Classification: A basis for distinguishing types of expenditures in conjunction with the element. The major expense classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Services, Contractual Services, Maintenance and Repair, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The element classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Payroll: The element classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Rental: The element classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Glossary of Terms

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The element classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The element classification which includes expenses for electricity, fuel, telephone, water and sewer, and stormwater.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

*** Notes:**

- Full-time project positions directly charged to projects / grants in FY19
- Office of Economic Opportunity transferred from City Manager to Economic Development in FY19
- Public Buildings & Waterfront divisions split from Parks, Recreation & Facilities in FY19 (Custodial Services remain w/ 100-33-00)
- City Manager's Office of Economic Opportunity created in FY18
- Parking's School Crossing Guides division transferred to the School Department in FY18
- Planning's Historic Preservation division merged with the Planning division in FY18
- Parks, Recreation & Facilities' School Maintenance division transferred to the School Department in FY18

Budget Highlights

**General Fund & Enterprise Funds
FY14 - FY19 Appropriations**

General Fund Expenditures

The 2018-2019 General Fund budget totals \$194,461,142, an increase of \$5,154,774 or 2.7% over the 2017-2018 budget. The major changes in the FY19 budget include:

Debt Service	\$ 4,296,005
Benefits	\$ 2,870,829
County Tax	\$ 381,102
Social Services Client Services	\$ 276,318
IT Computer Software Contracts	\$ 214,808
Library Contribution	\$ 125,275
Vehicle Fuel	\$ 121,030
Canco Road Division	\$ 119,056
Assessor Revaluation (CIP Allocation)	\$ (75,256)
Social Services Interpreter Services*	\$ (83,300)
Heating Fuel	\$ (105,407)
Social Services Laundry*	\$ (129,200)
Barron Center Food Expense	\$ (156,115)
Stormwater	\$ (179,225)
Barron Center Medical & Prescription Supplies	\$ (180,337)

Oxford Street Temporary Services	\$ (187,464)
Minor Capital Items	\$ (190,150)
Social Services Building Rental*	\$ (214,442)
Lab & Medical Services	\$ (422,229)
City Wages*	\$ (590,373)
Street Lighting	\$ (821,349)

*Reflects a change in accounting for grant funded programs; grant activity charged directly to the grant funds (minor exceptions) beginning in FY19.

Enterprise Funds Expenditures

The 2018-2019 Enterprise Funds budget totals \$53,592,101, an increase of \$2,542,273 or 5.0% over the 2017-2018 budget.

The Jetport expenditure budget increased \$1,245,263 or 5.4% (or \$1,314,030, or 6.0%, excluding surplus). The more significant Jetport budgetary changes include the following:

Benefits	\$ 244,655
Storm Equipment Services	\$ 200,000
Administrative Svcs (Excluding Surplus)	\$ 150,209
Capital Outlay	\$ 144,086
Baggage Handling Maintenance	\$ 132,960
Wages	\$ 127,297
Contributions Police & Fire	\$ 89,897
Jetport Field Snow Removal / Haul	\$ 85,450
Vehicle Maintenance & Repair	\$ 79,000
Jet Bridge Maintenance	\$ 62,268
Anticipated Surplus	\$ (68,767)
Heating Fuel	\$ (106,560)

The Sewer Fund expenses increased \$1,561,646 or 6.3%. The more substantial budgetary changes comprise of the following:

Debt Service	\$ 649,970
PWD Assessment	\$ 312,910
Flow Assessment / Sewer Flow Monitoring	\$ 200,000
Wages	\$ 169,361
Indirect Costs	\$ 87,095
Benefits	\$ 83,668

The FY19 Stormwater Fund has an expenditure budget of \$2,759,614, resulting in a decrease of \$280,639 or 9.2%. The decrease in expenditures is largely attributed to the following:

Wages	\$ (119,709)
Catch Basin / Stormwater Treatment	\$ (100,000)
Architecture & Engineering Services	\$ (84,000)

General Fund Revenues

The 2018-2019 General Fund non-tax revenues are estimated at \$107,776,539, an increase of \$2,281,293, or 2.2%, over the 2017-2018 budget. The significant revenue changes are comprised of the following:

Debt Service School Department Charges	\$ 1,748,984
Excise Tax	\$ 837,000
Enterprise Fund Charges	\$ 797,955
Parking Meters	\$ 600,000
Waterfront Division (Passenger Fees & Misc.)	\$ 560,478
TIF Salary & Benefit Reimbursement	\$ 531,720
Elm & Spring St Garage Hourly & Monthly	\$ 492,000
SS State Social Service (GA)	\$ 410,748
Golf Course & Restaurant Divisions	\$ 280,309
Health Insurance Employee Reimbursement	\$ 238,353
Street Occupancy	\$ 227,500
Permitting & Inspections Business Licenses	\$ 164,151

Recreation Before & After School Program	\$ 152,300
CIP Wage Reimbursements	\$ 141,445
Fringe Benefits	\$ 128,327
Emergency Medical Services (EMS)	\$ 100,000
Barron Center Non-Patient Receipts	\$ 87,249
Special Revenue/Endowment Fund Chgs	\$ 87,035
Miscellaneous Reimbursements	\$ 83,592
Police Outside Jobs	\$ 82,988
Planning Public Safety Charges for Svcs	\$ 79,255
Library Health Insurance Reimbursement	\$ 65,000
Planning Misc. Charges for Services	\$ 50,000
Interest Income	\$ 50,000
WC School Charges	\$ (79,127)
Portland Community Free Clinic*	\$ (90,029)
Thames Street Lot Parking	\$ (95,000)
Debt Service Operating Transfers	\$ (102,318)
Canco Road Rental Income	\$ (130,000)
Planning Grant Reimbursement*	\$ (155,089)
Planning HCD Reimbursement*	\$ (158,240)
City Manager's Grant Reimbursement*	\$ (186,928)
Barron Center Patient Receipts	\$ (2,054,353)
HHS Grant & Misc. Reimbursements*	\$ (2,795,332)

*Reflects a change in accounting for grant funded programs; beginning in FY19, grant reimbursements (and the related expenditure offsets) shifted exclusively to the grant funds (minor exceptions).

Enterprise Funds Revenues

The Enterprise Funds 2018-2019 revenue estimates are \$57,828,357, an increase of \$2,558,011 or 4.6%.

The major changes in the revenue estimates include the following:

Sewer User Fees	\$ 741,361
Stormwater User Fees	\$ 570,057
Jetport Parking Income	\$ 443,478
Jetport Terminal Rental	\$ 401,203

Housing & Community Development Program (HCD)

The final 2018-2019 HCD program totals \$2,057,808, an increase of \$95,343, or 4.9%, from the 2017-2018 program. The Entitlement Grant increased \$150,457, while Program Income and use of Surplus Funds decreased by \$137,000 and \$58,114 respectively. The 2018-2019 HCD Program also includes \$120,000 in new funding from Tax Increment Financing (TIF), as well as \$20,000 in new funding from the Cotton Street lot sale proceeds.

Education

Education Appropriations & Non-Tax Revenue Estimates FY14-FY19

The Education budget for 2018-2019 is \$110,578,716, an increase of \$4,830,127 or 4.6%. A summary of the more significant school expenditure changes is provided below:

Debt Service	\$ 1,950,761
Benefits	\$ 1,832,647
Wages	\$ 1,089,796
Repair & Maintenance Services	\$ 545,358
General Supplies	\$ 228,961
Computer Lease	\$ 193,600
Natural Gas	\$ 108,188
Mowing / Plowing / Field Maintenance	\$ 99,166
Tuition to In-State SAU	\$ 90,832

Capital	\$ (75,804)
Books & Periodicals	\$ (87,738)
Stormwater	\$ (120,272)
Student Transportation Purchased - Private	\$ (189,058)
Purchased Professional & Technical Svcs	\$ (985,538)

The total revised non-tax revenue estimate for Education is \$22,575,285, a decrease of \$385,383 or 1.7%. A summary of the revenue changes are as follows:

State Subsidy – EPS/Debt Service*	\$ 1,539,519
MaineCare Medicaid Reimbursement	\$ 150,000
Food Service Revenue	\$ 68,953
Use of Surplus	\$ 30,270
Tuition Public 9-12	\$ (31,000)
Tuition CTE Other Units	\$ (195,000)
PATHS Part I & Part II Assessment	\$ (1,952,481)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, September and March.

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The last property revaluation was phased in over two years: FY2006 and FY2007. The previous revaluation was done in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY18 and FY19 are estimated amounts.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

Note: FY18 and FY19 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business

licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, Business Licenses, the Cable TV Franchise, and Street Occupancy are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

General Assistance (GA) reimbursement is the largest revenue in this category. In FY16, the State of Maine GA reimbursement rate changed from a tiered percentage reimbursement rate (50% / 90%) to a flat seventy percent (70.0%) reimbursement rate based on the City's eligible program expenditures. The lower FY15 and forward GA revenue collections reflect changes by the state in the GA reimbursement eligibility guidelines, excluding certain immigrants; the FY17 revenue receipt reflects a court settlement for services provided by the City in FY15. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

Note: FY18 and FY19 are City estimated amounts.

An additional major source of revenue in this category is State Revenue Sharing.

Traditionally the State has set aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing pool. The Revenue Sharing pool is then shared amongst 491 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

The State's FY16 budget, enacted June 30, 2015, temporarily reduced the Revenue Sharing distribution pool from 5.0% of all state sales, corporate, and personal income tax revenues to 2.0% for four years (FY2016 - FY2019). This reduction replaces the previous FY2014 and FY2015 reduction, which capped Revenue Sharing at \$62.5m.

Under this revised formula, the FY19 Revenue Sharing I is calculated by multiplying the total Revenue Sharing Pool by 80%. Revenue Sharing II is calculated by multiplying the total Revenue Sharing Pool by 20%, with an added \$4m lump sum distribution at year end.

Note: FY18 and FY19 are City estimated amounts

Revenue Sharing I is based on the following formula:

$$\frac{\text{population of town} \times \text{assessment (tax levy)}}{\text{state valuation for municipality}} = \text{the town's number}$$

Rev-II distributions are based on this calculation:

- a) assessment / state valuation = mil. rate
- b) (mil. Rate - .01) x population
= the town's number

All numbers are added together to come up with a statewide total. From the statewide total, each municipality is assigned a percentage of the total. The resulting percentage is then multiplied by the pool amount.

In FY2019, the State's Revenue Sharing projected share for Portland is 5.7%.

This category also includes the Local Road Assistance Program (LRAP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Note: FY18 and FY19 are estimated amounts.

Major sources of revenue are derived from Patient Receipts (Barron Center), Cultural / Recreation Services, Health Insurance Reimbursements, Emergency Medical Services (EMS), the Waterfront and Recycling.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties.

Note: FY18 and FY19 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, rental income, and interest earnings.

Interest Income

Note: FY18 and FY19 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, cemetery endowments, library, and School department are known as interfund charges. It also includes miscellaneous reimbursements, Other Agency Revenues, and Housing and Community Development Grants.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, City Manager, Assessor, Finance, Legal, Human Resources, Parking, Economic Development, Planning, Permitting & Inspections, Information Technology, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police and Fire / EMS operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to a highly trained team of Detectives providing comprehensive investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment.

Fire

The Fire Department provides for fire suppression, emergent medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Department is also responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system.

The Fire Department maintains ten fire stations and the Spring Street Fire Museum. A minimum of forty-six firefighters and paramedics staff each shift on 18 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, two air rescue units, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

3. PUBLIC WORKS

The Department of Public Works is responsible for providing many of the essential services to City of Portland residents throughout the year. These services include the operation of the Riverside Recycling Facility (under a contract arrangement), and a comprehensive solid waste program, which includes trash collection, residential curbside recycling, a leaf collection program, as well as a heavy item / bulky collection pick-up program. Public Works also provides for the construction and maintenance of city streets and sidewalks, the sewer system, stormwater maintenance, and technical support / engineering services for Capital Improvements Projects. Other key services include the removal of snow and ice from city streets and sidewalks, maintenance of

the Portland Downtown District, maintenance and repair of all City vehicles and equipment, and traffic management, including maintenance of traffic signaling, street lights and traffic control and calming. Public Works also provides core public works services to four adjacent islands in Casco Bay.

4. HEALTH AND HUMAN SERVICES

The Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

Public Health is the state's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, the India Street Clinic, Health Equity, and Research and Evaluation.

Social Services provides both financial assistance and support services for low-income Portland residents. Programs operated include General Assistance, Homeless Shelters for individuals and families, Case Management, and Representative Payee Services.

The Barron Center is the state's second largest long-term care nursing facility. The Barron Center is a 219 bed skilled rehabilitation and nursing facility, including a 50 bed specialty unit for the care of dementia. Residents of the Barron Center are able to receive speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The Office of Elder Affairs provides the community with an Elder Advocate. Assistance is provided in the form of senior information and referral, adult day health services, and community collaboration. Elder Affairs also operates Martha's Cottage, which is the only

domestic violence shelter for seniors in the country.

The majority of the funding for the Public Health and Social Services divisions is derived from state and miscellaneous reimbursements for direct services. Beginning in FY19, the City modified the accounting method for many of the grant funded programs; grant activity is charged directly to the grant funds (minor exceptions), and is therefore no longer a reimbursement to the General Fund. The largest General Fund funding source for long-term care services at the Barron Center is MaineCare (Medicaid), followed by private insurance and Medicare.

5. Parks, RECREATION AND FACILITIES

Parks, Recreation and Facilities split into two departments in FY19: the Department of Parks Recreation and Facilities, and the Public Buildings and Waterfront department. The Department of Parks, Recreation and Facilities oversees the Parks, Forestry and Cemetery divisions, recreational programs and activities, the marketing and event management venues, and the custodial services of the city's buildings. The Public Buildings and Waterfront department performs the basic maintenance operations of the city buildings, including the school HVAC systems and the waterfront properties; the department budget also includes the majority of the utility costs.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Parks, Recreation and Facilities is responsible for the day to day management and care of the parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department reaches out to many citizens and visitors through over 100 individual parks and 9.2 miles of trails.

All of this encompasses a geographical area of over 1,200 acres. The Parks, Recreation, and Facilities Department also maintains a wide variety of City trees as well as providing new plantings, and also manages two active cemeteries (Evergreen and Forest City) and several inactive cemeteries.

Recreation offers a vast array of services and leisure activities including recreation programs, before and after school care, center for therapeutic recreation, pools, special events, operations of the ice arena, golf course, and golf course restaurant, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 86.3% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services to the residents of each of its three participating communities. The Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members in April of 2009. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The District's operating and capital

expenditures, including debt service, are financed by state and federal grants received directly by the District, fares and assessments of member communities.

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the annual assessment is \$2,709,916 or 77.6%.

8. LONG TERM DEBT

Note: FY18 and FY19 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City budget. For fiscal year 2019, the gross debt budget is \$41,818,036, or 21.5% of the City's general fund budget; it is estimated that the School Department and the Enterprise Funds are to reimburse the general fund \$16,430,159 of this expense. The FY19 net cost of debt service to the City general fund is \$24,838,292.

9. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2018, the City's equalized State Valuation of \$9,049,500,000 was 20.5% of the County's total equalized State Valuation of \$44.1 billion, resulting in a FY19 assessment to the City of Portland of \$6,288,845.

City Council

The City of Portland operates under a charter which was last amended on November 2, 2010. The City Council is comprised of a Mayor, elected for a four year term, five district Council members and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact, reasonable by-laws, regulations and ordinances. The council adopts an annual budget, authorizes the issuance of debt and provides for an annual audit. The Mayor has the authority to veto the annual budget, however the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops.

The revenues received by this department are from Housing & Community Development (HCD) grant funds for a portion of the annual audit costs.

City Clerk

The Department of City Clerk has three major functions: Elections, Vital Records, and City Records Maintenance. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Principal Administrative Officer, the Clerk's Deputy, is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. Two elections are planned for FY19: the November 2018 State Gubernatorial/ Municipal Election and the June 2019 School Budget Validation Election. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). This is a statewide system designed to standardize and centralize voter registration.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages at the counter, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services. As of FY19, a Marriage Ceremony Package is now available for couples who would like the option of a more formal / traditional style wedding ceremony; this package includes a one hour rental of the State of Maine Room with full Notary Service vows performed by one of the City Clerk Staff members.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio/video recordings of several boards and committees.

Executive

The department is responsible for the executive management of the City of Portland. Responsibilities include preparation and administration of council agendas and orders; coordination and administration of City departments, services, and programs; developing and enforcing administrative policies; handling of citizen inquiries and complaints, public relations and communication functions; neighborhood, waterfront, and island liaison efforts; local and state government liaison efforts; emergency preparedness; and the preparation of the annual Capital Improvement Plan.

This department consists of the City Manager and support staff. Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary for the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

The FY19 budget consists of personnel changes including a new half-time Sustainability Coordinator and the transfer of The Office of Economic Opportunity to the Department of Economic Development.

Assessor

The Assessor's Office is responsible for the discovery and fair and equitable valuation of all real and personal property within the City. The office maintains ownership and mailing address records of all 24,000+ parcels, 4,200+ personal property accounts, tax exemptions, special assessments of specific properties, and tax maps. The office prepares and certifies the annual tax rolls and warrant to the City Treasurer in a timely manner while educating property owners on the appraisal process and their options to appeal.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for over 1,600 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

Treasury

The Treasury division is responsible for the collection of all monies into the City. This includes the collection of real estate taxes, personal property taxes, delinquent sewer user fees, and vehicle excise taxes and registration fees, as well as issuance of license plates. Treasury also collects parking ticket revenues and miscellaneous receivables, processes boat and utility trailer registrations, and issues island vehicle and golf cart registrations and Metro bus passes.

Residents may visit the Treasury Office in City hall for these services. There are also many electronic options for residents:

(a) Treasury offers online payments of real estate through the City of Portland website:

<https://www.portlandmaine.gov/1567/Pay-Your-Property-Taxes-On-Line>.

(b) View / Print Tax Bills on-line at:

<http://www.portlandmaine.gov/1567/View-AndOr-Pay-Your-Property-Taxes-On-Line>

(c) Online options are available for residents to re-register vehicles, trailers and boats through the State of Maine website: <https://www1.maine.gov/online/bmv/rapid-renewal/>.

(d) Parking tickets can be paid in Room 20 (Parking Office) as well as online through the website:

www.portlandparkingtickets.com or <https://portlandme.rmcpay.com/>.

The Treasury general fund expenditures decreased \$20,598, or 2.9%, attributed largely to a decrease in contractual services expenditures. The FY19 non-tax revenue projections remain relatively flat, increasing by \$2,506.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys, a liability and insurance claims manager, a litigation paralegal, and a paralegal / legal assistant.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability, and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees and Boards.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Fish Pier, Sewer, Stormwater, and Jetport funds. The department also receives revenue for various ordinance code violations, and settlements.

The FY19 expenditures increased \$88,432 or 14.2%, largely due to increased payroll expenses, including one new position.

Human Resources

The Department of Human Resources provides many services to all City departments, including recruitment and hiring oversight, civil service program administration, labor relations, organizational development and education, employee health and benefits administration, and safety and risk management.

FY19 expenditures increased \$27,778, or 2.7%, due to increased payroll costs. The revenues collected by this department are received from the Sewer, Stormwater and Jetport funds, for services provided by the Human Resources staff.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,615 metered spaces throughout the City, 850 of which have been converted to multi space meters that accept credit cards.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

FY19 expenses are up \$61,720, or 2.7%, due to payroll increases, as well as web meter and snow tow contractual services costs. FY19 revenues have risen by \$1,007,050, or 11.7%, largely due to FY19 fee increases in parking meters and the Elm Street and Spring Street hourly and monthly parking rates.

Parking Administration

Parking Administration includes the management of on-street parking, the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

FY19 Expenditures increased \$76,166, or 5.5%, due primarily to increased costs related to the multispace parking meters including credit card fees, extended warranties, and the purchase of two additional multispace meters, as well as increased snow tow rates.

FY19 Parking Administration revenues have also increased \$509,220, or 9.1%. Total parking meter revenue is expected to increase \$600,000 and is attributed to the FY19 meter rate increase; there continues to be a downward trend in parking ticket revenue as a result of the City's efforts to make parking meter payments more convenient via multi-space credit card enabled meters, and a mobile payment app to be introduced in FY19. The City also has suspended the enforcement of the street maintenance signs from June to October and eliminated the odd / even parking restrictions. Annual revenues from the Thames Street Lot are projected to be down \$95,000, or 50%, due to the reduction in the size of the lot for new development. Other minor revenue increases include Angelo's Acre and the snow tow lot.

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens.

Expenses for the Elm Street parking garage are down slightly, \$2,563, or 0.8%. Revenues have increased \$147,000 primarily due to a FY19 increase in the hourly and monthly rates.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Cross Arena and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Arena events. The garage also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens.

Expenses are down \$12,583, or 2.7%, largely due to a decrease in building maintenance and repair, and the anticipated savings in electricity by converting the lighting to LEDs. FY19 revenues are up \$340,830, primarily due to a FY19 increase in the hourly and monthly rates.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens.

FY19 revenues and expenditures at the Temple Street Garage remain relatively flat, each changing by less than 1.0%.

Economic Development

The Department of Economic Development is responsible for enhancing the economic growth of the City and is dedicated to fostering a vibrant and healthy economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city and waterfront, and economic and employment opportunities.

By leading a collaborative effort among agencies, both in advocacy and acting as a business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that economic development issues and opportunities are addressed in a timely, thorough, and proactive manner.

The Economic Development Department expenditure increase of \$142,942 is largely attributed to the transfer of the Office of Economic Opportunity from the City Manager's budget in FY19. The FY19 revenue increase of \$349,348 is mainly attributed to the increase in staff salary reimbursement from tax increment financing (TIF) funds.

Economic Development

The division of Economic Development is comprised of the Director, Waterfront Coordinator, Business Development Representative, and the Senior Executive Assistant. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city, a vital waterfront, and employment opportunities. The Department also endeavors to keep the lines of communication open so that economic development issues are addressed in a timely, thorough, and proactive manner.

In addition, this division includes the Creative Portland Corporation (CPC) staff of 2.1 full-time equivalents; CPC is a nonprofit organization which supports the City of Portland's economic development efforts, which enhances and creates business in the creative economy, arts district development, and employment opportunities.

In FY19, the Office of Economic Opportunity was transferred into the Economic Development division from the City Manager's Office.

The CPC positions are funded 100% via the Downtown Transit Oriented Development Tax Increment Financing District. In FY19, the other positions are also 100% funded through Tax Increment Financing (TIF), and include reimbursement from the Downtown, Waterfront and / or Bayside TIFs.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The Division specializes in providing specific programs which will assist in the recruitment and development of new and existing business and industry within the city.

The Portland Development Corporation budget is fully funded by the interest income from its business loan programs; the PDC relies on this income from its business loan program to cover its operating expenses. Expenses are offset 100% by program revenue.

Police Department

The Police Department is comprised of six divisions: Administration, Jetport Security, Uniform Operations Group, Bureau of Investigative Services, Operations Support Services, and Dispatch Services.

The Police Department's mission focuses on three distinct areas: Service Excellence, Community Engagement, and Resource Maximization. Every decision, plan, and contact made places emphasis on these three areas. All members of the Portland Police Department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department's expense increase of \$372,304, or 2.3%, is primarily due to increases in payroll expenses. This budget includes the elimination of one Police Sergeant and two Police Officers within the Community Policing Division, as well as two Police Officers in the Patrol Division and the Ordinance Enforcement Officer.

Outside Jobs and other payroll reimbursements account for the majority of the \$140,488 or 5.0% revenue increase.

Police Administration

It is the responsibility of the Chief of Police to create policy and make resource management decisions for the Police Department's assets. The administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

The expenditure increase of \$131,469, or 12.2%, includes the position transfer of the Police Major from the Uniform Operations division. Revenues have also increased by \$9,074, or 6.4 %.

Jetport Security

The Sergeant assigned to the Jetport Security division serves as a direct liaison between the Police Department and the Jetport staff and Administration.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoints during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

Expenditures in this division have increased \$13,847, or 2.5%, primarily due to increases in payroll expenses. The cost for this division is entirely offset by revenues received by the Jetport.

Uniformed Operations Group

A Commander heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the repression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to utilize a work load analysis to assign a proportionate number of patrol officers throughout the City. It also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Community Policing Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Community Policing Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and their fellow officers to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to facilitate efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority.

The Uniformed Operations Group also contains a Traffic Unit responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

Expenditures in this division have increased \$136,834, or 1.4%, primarily due to increases in payroll; the payroll increase includes the elimination of one Community Policing Sergeant, two Community Policing Officers, two Patrol Officers, and the Ordinance Enforcement Officer. Revenues have increased \$88,099, or 8.7% primarily due to the increase in Outside Jobs projected revenue and other payroll reimbursements.

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by the Assistant Chief and is comprised of both a criminal investigations division and a narcotics investigations division; these divisions are responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the Court Officer, the Criminal Process Services, and the Victim Advocacy program.

Expenditures in this division have increased \$82,742, or 4.5%, due to increases in payroll expenses. Revenues received include funding from the Maine Drug Enforcement Agency (MDEA) and the Police Victim Witness Advocate grant for salary reimbursement. FY19 revenues reflect an increase of \$12,640 or 6.3%.

Operation Support Services

The Operations Support Services Division is commanded by the Assistant Chief and is comprised of the following sections: computer crimes, forensics, property, training, and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

Expenditures in this division have decreased \$21,412, or 2.5%, primarily due to reductions in supplies offset by increases in payroll expenses. Revenues have increased by \$3,064, or 6.4%.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services and is supervised by the Emergency Communications Director. Serving Cape Elizabeth, South Portland and the City of Portland, the PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate police, fire, and emergency medical services resources. The 2011 regional consolidation allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

Expenditures in this division have increased \$28,824, or 1.3%, primarily due to increases in payroll expenses, offset by the transfer of the radio communications system annual maintenance agreement to the City's Fire Department. Revenues have increased \$13,764, or 1.6%, due to the regional cost-sharing agreement.

Fire Department

The Fire Department consists of five divisions: Administration, Code Enforcement and Community Services, Field Operations, Jetport Air Rescue, and Operations Support Services. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall expenditure increase is \$50,509 or 0.3%. The expenditure increase is mainly attributed to the Air Rescue Station FY19 increased operational costs which are fully reimbursed by the Jetport Enterprise Fund. Other changes include the reduction of four Fireboat positions offsetting personnel cost-of-living-adjustment (COLA) increases and a new administrative position.

The revenue increase of \$175,797, or 4.0%, is mainly attributed to anticipated increases in MEDCU billings; MEDCU billings make up the majority of the department's revenues.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

This division also administers the human resources activities for the department including hiring, worker compensation claims, benefits, wellness, risk management, and payroll. The division has instituted a Peer Support Team, using the Police Department model, to deliver support and services to members facing crisis; this endeavor has positively impacted leave associated with Critical Incident Stress cases.

The Fire Administration budget decreased by \$32,467, or 5.4%, largely due to the transfer and reclassification of an Assistant Fire Chief to Fire Operations netted with a new administrative support position. Division revenues are projected to increase \$20,016, or 20.0%, from revenue generated from the Portland Fire Department 250th Anniversary, offsetting the event expense increase.

- (3) 1 Reclassed from Senior Admin Officer during FY18
- (4) (1) Reclassed to Principal Admin Officer II during FY18
- (5) 1 New Position Approved in FY19

Code Enforcement & Community Services

The division of Code Enforcement and Community Services is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Additionally, the division reviews site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground & underground storage tanks and liquefied petroleum gas tanks.

The division administers the Fire Prevention Code, N.F.P.A. 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. This division also provides the management oversight of company level inspections of residential and commercial properties totaling over 5,000 a year.

Code Enforcement and Community Services also comprises the public information, education and community outreach initiatives, which includes the Portland High School Program, public education materials, and public information of current events affecting the citizens of Portland.

The Code Enforcement and Community Services division's budget increase of \$22,278, or 9.0%, is mainly attributed to added overtime for fire investigations and training. Revenues increased \$5,750, or 32.6%, and is attributed to the FY19 increased fee for Fire Alarm inspection stickers.

Field Operations

The Field Operations division is responsible for providing emergency services including fire suppression, emergency medical care and transport, hazardous materials response, technical rescue response and any possible public emergency. The division supports fire and life safety programs through routine field safety inspections.

The Field Operations division is responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting services. Responsibilities include ensuring compliance with state mandated requirements, including EMS and basic and advanced firefighting, and encompass overseeing the medical licenses of over 200 personnel. Field EMS Operations provides advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR, to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit provides in-service training for all fire department members as well.

Field Operations provides emergency services for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay, including emergency medical transportation for the island residents, as well as training for the islands' volunteer call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. Additionally, this division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. This division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations.

The Field Operations division overall expenditure increase is \$28,011 or 0.2% is primarily related to payroll increases, or the net increase of the cost-of-living-adjustments (COLA) and the net reduction of four fireboat positions, along with the position transfer and reclassification of the Division Fire Chief from Fire Administration.

The revenue increase of \$100,000, or 3.1%, is due to the increased projection in EMS revenue.

Air Rescue Station

The Jetport Air Rescue Station division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. The Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The Air Rescue Station expenditure and revenue increase of \$50,031, or 5.2%, is mainly due to payroll and training exercises increases.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Operation Support Services

The Operations Support Services division encompasses Hydrants, Building Maintenance and Fire Alarm. The hydrant system is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment. Building maintenance provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors. The fire alarm section maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Portland Regional Communication Center's (PRCC) core equipment.

The Operations Support Services expenditure decrease of \$17,344, or 2.2%, is attributed to the reduction of maintenance at nine stations around the city.

This division's revenue is generated from the Fire Alarm Master Box Connections fees (City Code Chapter 10, Section 102c). The divisional revenue has remained flat for FY19.

Department of Planning & Development

The Department of Planning and Urban Development consists of three divisions: Administration, Planning, and Housing & Community Development. In addition to the City funded planning programs, this budget includes Community Development Block Grant (CDBG) expenditures for staff, which is federally reimbursed.

The FY19 budget reflects a change in accounting for grant funded programs; fully-funded grant positions are now charged directly to the grant funds and no longer pass through the general fund. In the Department of Planning & Development, five positions, including the revenue offset, are now funneled directly through the grant accounts; this includes two positions in Administration and the entire Housing & Community Development division staff consisting of three positions.

The department's overall general fund expenditure budget has decreased by \$154,852, or 8.0%. This decrease is primarily interrelated with the grant funded payroll expenses described above. This budget also incorporates increased spending for a City-Code Chapter 14 rewrite and other contractual services.

The department's revenue is similarly decreasing \$145,024, or 16.3%. The FY19 budget includes fee increases for zoning applications and development review (City Code Chapter 14), in addition to the salary reimbursement decrease for the aforementioned grant funded positions.

Planning & Development Administration

The Administration division oversees all operations of the Department of Planning and Urban Development. A sizeable portion of the salary expenditures are also included on the CDBG side of the budget, including Community Development staff.

Expenditures have decreased \$81,934, or 17.7%. This decrease is attributed to the FY19 accounting method change for fully-funded grant positions, or two positions in the Administration budget; these positions are now directly charged to the grant funds rather than funneled through the general fund.

The revenue in this division reflects salary reimbursement monies mostly from HCD funds, as well as TIF and HOME funds. The FY19 revenues have decreased \$66,048, or 30.7%, due in part to the accounting change for grant positions, as well as a reduction in federal allocation.

Planning

The Planning division provides comprehensive and long range planning for the City. This division conducts development review for site plan, subdivision, historic preservation, DEP site location permits, and rezoning requests. Division services include the development and updating of the City's Comprehensive Plan (<http://www.portlandsplan.me>), neighborhood planning, implementation of plans, the City's public art program, multimodal transportation planning, and historic preservation planning. The Planning division also manages the Congress Square Park redesign and other urban design initiatives.

Planning expenditures have increased by \$118,010, or 9.1%. The division increases include additional funding for the zoning code rewrite (City Code Chapter 14) and increased monies for reimbursed engineering services.

Likewise, Planning revenues have also increased by \$111,952, or 23.1%. The net revenue increase includes the anticipated increased volume of project submittals, the FY19 zoning application and development review fee increases, and the reduction in HCD salary funding.

Housing & Community Development

Housing and Community Development is responsible for administering federal CDBG, HOME and ESG grants for the City. The division administers City-assisted housing rehabilitation loan and grant programs, as well as housing-related planning activities.

This portion of the Housing and Community Development budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, and Housing Development Fund (program income from the CDBG loan paybacks); any increase or decrease in the budget has no impact on the tax levy.

The division decrease of the expenditures and revenues reflects the FY19 accounting method change, charging the three fully-funded grant positions directly to the grant funds instead of a general fund pass-through.

Permitting & Inspections

The Permitting and Inspections Department consists of four divisions: Administration, Inspections, Housing Safety, and Business Licensing. The department is responsible for issuing building permits; enforcing the City's building, plumbing, electrical, housing, and land use codes; issuing business licenses and Certificates of Occupancy; and maintaining the rental housing registration program.

The department's expenditures have increased \$115,560 or 7.0%. This increase is predominantly a result of increased staffing costs, as well as an increase in contractual services expenditures.

The department's revenue budget has increased by \$134,901, or 3.1%. This increase is predominantly related to an increase in business license fees and activity, as well as newly added delegated fire plan review from the State Marshal's Office.

Permitting & Inspections Administration

The Administration Division is responsible for overseeing all aspects of the Permitting and Inspections Department. This division consists of the Director of Permitting & Inspections and the Principal Administrative Officer, as well as the necessary tools to support the oversight of the department's operations.

This division's expenditure budget has increased \$12,314, or 7.3%.

Inspections

The Inspections division issues permits for the construction of all types, and acts as the enforcement agency for building, housing, plumbing, electrical, mechanical, zoning, and land use rules and regulations.

This division's expenditure budget has decreased \$4,411, or 0.4%. This division's revenue budget has decreased \$28,750, or 1.1%, and is attributed to the transfer of the Outdoor Dining permit revenue to the Business Licensing division.

Housing Safety

The Housing Safety division administers the rental housing registration and inspection program for residential rental properties in the City of Portland, and is responsible for enforcing housing and life safety codes.

In FY18, the implementation of the Short Term Rental Registration program contributed approximately \$33,000 to the Housing Trust Fund.

This division's expenditure budget has increased \$95,605, or 38.0%. This increase is predominantly due to the reallocation of wages across divisions and the addition of Short Term Rental Registration monitoring services.

This division's revenue budget projection remains unchanged. The net revenue generated from the Short Term Rentals registration program will be contributed to the Housing Trust Fund.

Business Licensing

The Business Licensing division processes over 4,200 licenses annually as required by the City Code, including the oversight of the City's taxi licensing. The Health Inspection program is also included within this division which encompasses food service establishment inspections, and Certified Food Protection Manager (CFPM) exam administration and enforcement, as well as Fats, Oils, and Grease (FOG) maintenance inspections.

This division's expenditure budget has increased \$12,052 or 5.1%.

This division's revenue budget has increased \$163,651 or 14.5%. This is predominantly due to the FY19 increase in Business License fees, the transfer of Outdoor Dining permit revenue from the Inspections division, and increased Business License activity.

Information Technology

The Information Technology Department (IT) is divided into four areas of expertise: Applications, Technical and Customers Services, Operations, and Geographic Information Systems (GIS).

- The Applications support team develops software for specialized needs, and supports the software purchased by the City. Recently the City purchased a new integrated software and technology service designed for the public sector. Tyler Energov Community Development and Infrastructure Software went live in late FY18 and the first financial applications are scheduled for implementation during FY19.

- The Technical and Customer Services team is responsible for the internal and external customer service for the City of Portland. The Technical Services team manages data and voice networks, including the Help Desk which supports our workforce of more than 1,300 technology users. The new phone system project for Police and Fire is scheduled for completion in FY19. The Customer Services team manages customer support using a social media application called FixIt! Portland; 4,844 customer service requests from Portland residents and visitors were processed over the last year.

- The Operations team monitors and maintains the AS400 systems for both Public Administration and Public Safety, installing quarterly and semi-annual updates for all AS400 applications. Additionally, this team supervises the backups for all City owned computer servers and administers the department's financial functions.

- The Geographic Information Systems (GIS) section maintains and updates the computerized mapping systems used by Public Administration, Public Safety and the City's internal departments. GIS maintains all of the geospatial web and mobile applications, including the geographic database where more than 200 geographic layers exist. IT is also responsible for maintaining the technology infrastructure that supports a combined Public Safety Answering Services (PSAP) for Portland, South Portland and Cape Elizabeth.

The department's expenditure budget has increased by \$367,018, or 15.1%. The major increase is a result of the migration to the new public administration integrated software, as well as upgrades for other critical systems. Other increases include payroll and specialized technical equipment. The Revenues received represent the reimbursement of costs and services provided to the Enterprise Funds and the PSAP.

Public Works

The Director of Public Works oversees the operations of ten (10) divisions within the General Fund, as well as the Street Opening, Sewer and Stormwater funds. The Director along with the Deputy Director of Public Works, Division Managers and administrative support staff, provide day to day supervision for these functions. The department is responsible for basic municipal services, public infrastructure management, citywide fleet management, the development and implementation of capital improvement plans, and the wastewater - stormwater utilities. Department staff supports several city committees including the Sustainability and Transportation Committee.

The Public Works General Fund expenditure budget decreased by \$485,565 or 3.4%. With the purchase of street lights by the City from Central Maine Power and their conversion to LED fixtures (CIP funded), the FY19 street lighting line cost was reduced by approximately \$820,000. Payroll accounts for the biggest increase in this budget and includes two new positions, one in each of the Districting and Solid Waste divisions.

The FY19 General Fund revenue estimate increased \$432,546, or 9.3%. The increases are predominately due to the FY19 Street Occupancy Permit fee changes and expected rise in the number of permits issued, as well as an increase in salary reimbursements from the CIP and Street Opening funds.

Public Works Administration

The Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of street opening permits and street-sidewalk occupancy permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

The Public Works Administration expenditure budget increased by \$30,859, or 4.4%, largely due to wage increases. Revenues have increased by \$12,556 or 5.9%.

Districting

The Districting division (Streets & Sidewalks) is a national award winning multi-tasking Public Works maintenance program comprised of five working crews. The division is responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, and grounds maintenance, including winter sidewalk snow removal operations.

Districting continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. This division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. Furthermore, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

The Districting budget expenditures increased \$43,687 or 2.7%. This increase is primarily due to an increase in personnel costs, including a new Operations Manager, with the total wage increase offset by various decreases in other line item expenditures.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, significantly reducing the recycling fleet. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces, as well as over 60 solar smart trash compactor units.

City property owners may dispose up to ten qualified bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card.

The Bulky Item Pick-up program was implemented in May of 2012. Residents must apply online and request stickers to attach to their approved items for disposal. Qualified small items, less than 30 pounds, which will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten qualified small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for qualified items over 30 pounds.

Solid Waste expenditures increased \$79,841, or 4.7%. This increase is primarily due to increased wages, including a new Solid Waste Program Administrator. Budget reductions include a slight decrease in the anticipated ecomaine tonnage.

Revenues in this division increased minimally, largely due to the FY19 solid waste licenses fee increase. The majority of this division's revenue is generated from trash bag receipts.

- (5) (1) Position Reclassed to SW/Comp Officer during FY18

Communications

The Communications section encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This section is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and EMS) of emergency situations occurring on the streets of Portland as reported by any Public Works employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

Portland Downtown District

The Portland Downtown District (PDD) is responsible for providing maintenance, cleaning services, and sidewalk snow removal to the downtown district. Expenses for this division are offset by revenue from the PDD Corporation for the services provided.

Transportation Operations

The Transportation budget within the Engineering division supports civil engineering and field operations personnel, materials, equipment, programs, systems maintenance, and utility costs. Approximately \$400,000 in annual electric utility costs for street lighting and traffic & pedestrian signals are borne by this budget, with a small revenue offset for lighting associated with the School Department. The City's annual pavement marking program is also included in this budget, as well as all equipment, material, and labor associated with regulatory and advisory Traffic & Parking signage throughout the City. Along with the Engineering division, the Transportation team provides support to the Planning Department as well, supporting an increased volume of Locally Administered Projects funded by the Federal Highway Program thru PACTS and Maine DOT.

The Transportation expenditure budget decreased \$717,363, or 23.7%. This decrease is due to the purchase of street lights by the City from Central Maine Power, as well as the conversion to LED fixtures (CIP funded), saving the general fund approximately \$820,000. The largest increase in this budget is due to payroll costs.

Revenues in this division have increased \$375,644, or 69.3%. The revenue increases are predominately due to the FY19 Street Occupancy Permit fee changes and the expected rise in the number of permits issued, as well as an increase in salary reimbursements from the CIP fund. Other FY19 revenue increases include code violation fee changes.

- (8) (1) Position Eliminated in FY19 (Title Change from Sr Eng Tech during FY18)

Engineering

The Engineering division is comprised of a team of professional and technical staff with Civil Engineering, GIS, and Construction Engineering expertise. The Engineering team supports the Water Resources division and numerous City Departments with several vital resources, including City Archives, survey, research, street numbering, GIS data, Right-Of-Way permitting, and construction activity inspection and enforcement. A key role of this division includes supporting the Planning Division with all land development proposal review and activities.

The FY19 expenditures have increased \$15,599, or 1.3%. Revenues have also increased \$56,615 or 5.6%, largely due to the projected increase in the wage reimbursement from the Street Openings Fund.

- (5) 1 Title Change from Senior Surveyor during FY18
- (6) (1) Upgrade to Lead Surveyor; (1) Title Chg to Survey CAD Spec & (1) to Survey GIS Spec during FY18
- (7) 1 Position Upgrade from Associate Engineer during FY18
- (8) (1) Position Upgrade to Construction Insp Spec Approved during FY18
- (9) 1 Position Title Change from Sr Eng Technician during FY18
- (10) (1) Position Title Change to Sr Technician during FY18

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Works workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public. Winter operations actual expenses remain dependent on snowfall and severity of winter conditions.

Winter Expenses decreased by \$40,499 or 3.0%. The majority of this division's revenue represents the internal chargebacks to the School Department for the City's snow removal operations of school parking lots.

Fleet Services

The Fleet Services division purchases, repairs, and rebuilds the City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, City Administration, Public Works, Parks Recreation and Facilities, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee, and maintains the vehicle replacement program city-wide.

Fleet Services is also responsible for housing the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments with two certified fabricators.

The expenditure increase of \$105,331, or 2.8%, is mainly due to the anticipated increase in vehicle fuel costs. The revenue generated in this division is mostly related to reimbursed services, including fuel and labor costs from both internal and external entities such as the Enterprise Funds.

Island Services

Island Services is responsible for all Public Works functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. Island Services also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

Expenditures decreased \$11,525, or 1.8%. This decrease is mainly due to the FY18 one-time purchase of a portable restroom facility.

Parks, Recreation & Facilities

The FY19 Parks, Recreation and Facilities Department consists of three major sections, Parks, Recreation, and Public Assemblies. The Parks section oversees parks, playgrounds, courts, athletic fields, cemeteries, forestry and horticulture, and fountains. Recreation manages four community centers, pools, Riverside Golf Course and Restaurant, Troubh Ice Arena, senior adult programming and therapeutic recreation. The Public Assemblies section continues to be responsible for the scheduling and management of Merrill Auditorium, Hadlock Stadium, Portland Exposition Building, Ocean Gateway, and the Maine State Pier.

In FY19, Public Buildings and the Waterfront split from the Parks, Recreation and Facilities Department into its own department; under a new FY19 division, custodial services remains with the Parks, Recreation and Facilities Department. For comparative purposes, the divisional history remains intact with the reorganized divisions and is reflected in accordance with the new FY19 department divisional structure.

Parks, Recreation & Facilities Administration

The Parks, Recreation and Facilities Administrative division serves a large and extremely diverse department. The Administration division oversees the numerous activities and challenges that transpire within the department. Functions include providing general administrative support, involving much of the centralized accounting and payroll duties.

The FY19 personnel increases for this division include a new Marketing & Communications Coordinator (0.8 FTE), as well as the position transfer and reclassification of the Recreation Director (from the Recreation division) to the Deputy Director of Parks Recreation & Facilities.

Merrill Auditorium

This division includes all the expenses for the venue operations at Merrill Auditorium, a 1,900 seat performing arts venue attached to City Hall. Prime Tenants include Portland Ovation, the Portland Symphony Orchestra, and Friends of the Kotschmar Organ. The theater hosts a variety of performances each year including symphonies, Broadway performances, concerts, comedians, graduations and holiday programming. In FY17 Merrill Auditorium hosted 128 events with over 148,750 patrons in attendance.

With the FY19 reorganization of the Parks, Recreation and Facilities Department, the Merrill building maintenance functions transferred to the new FY19 Public Buildings & Waterfront Department and Custodial Services for public buildings was consolidated under one division in the Parks, Recreation and Facilities Department.

Merrill FY19 revenues increased \$53,400 or 9.1%.

Ice Arena

The Ice Arena is celebrating its 33rd year of operation and is named in honor of the late William B. Trough. William B. Trough was instrumental in creating the rink when he served on the City Council during the 1970s-1980's. The City-owned rink, located next to the Portland Expo and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice skating and figure skating lessons are offered as well. The City also operates the Ice Arena concession stand. The annual Ice Show is held each year the last weekend of April and is open to the general public.

Public Assembly Facility

The Public Assembly division handles the general management, marketing, booking, event coordination and other miscellaneous staffing and operational needs of the department's Facilities section functions. Maine State Pier, Ocean Gateway and Permitted Events are included under the Public Assembly division. In FY2017 the Maine State Pier and Ocean Gateway hosted 162 events with over 63,000 guests in attendance; these events include concerts, weddings, proms, non-profit fundraisers, business meetings and holiday parties. Over 650 permitted events took place within the City including road races, block parties, farmer's markets, Art Walks, and rallies.

As part of the FY19 Parks Recreation and Facilities Department reorganization, the FY19 divisional increase in revenues is attributed to the transfer of event revenue from the Exposition Building division to the Public Assembly Facility division.

Concessions

The Concessions division manages the concessions and catering operations for Merrill Auditorium, Portland Exposition, Fitzpatrick Stadium and the Trough Ice Arena.

The FY19 expenditures increased \$20,555 or 5.4%, largely due to the addition of a new Concessions Coordinator; the FY19 revenue is also anticipated to increase \$31,500 or 7.3%.

- (2) (.5) Position Reclassed to Building Maint/Cust Wkr during FY18

Recreation

The Recreation Division provides a wide range of programming / leagues and clinics for all age groups in the City and operates four community centers: Riverton, Reiche, East End, and Peaks Island. The Recreation division offers before-and-after school programming for more than 750 children at all elementary schools (no before-care at Peaks) known as The Bell Program, as well as summer camp programs for children currently in K-7th grade. In addition, the City offers an extensive program for senior adults.

The City currently provides before-and-after school programming for one out of every four children in the elementary schools. Almost 700 children learned to play basketball in our leagues this past season and over 400 children attended our summer camp programs. The Recreation division maintains a list of over 400 senior adults in our age sixty-five plus program. The City plans to introduce a new Park-n-Play program at various City parks this summer as a drop-in program for children, as well as a Hacker's Camp for kids to learn how to write computer code.

FY19 Recreation expenditures have decreased largely due to the changes in divisional personnel, including the Recreation Director position reclassification to the Deputy Director of Parks Recreation and Facilities and the transfer of this position to the Parks Recreation and Facilities Administration division, as well as reductions in other lines. The FY19 revenues increased \$142,523, or 9.2%; this is mainly attributed to fee changes in the before-and-after school program.

Aquatics

The Aquatics division operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. The division offers swimming lessons and aquatic programming for all ages including adult water aerobics and a Master's level program. In any given week the Aquatics division instructs over 700 people in city pools, from infants to adults. Stand-up paddling continues to be a big success with classes filling to capacity each session.

Riverside Golf Course

The City-owned Riverside Golf Course offers 30 holes: the 18-hole North Course, the 9-hole South course and the 3-hole practice course. Amenities include lessons and clinics which are managed by the Recreation Division. Riverside is also home to several golf tournament events each year. The 3-hole course is utilized by the golf pro to provide lessons to new golfers and golfers sharpening their short game skills.

Riverside is also a full service winter venue: sledding hills, two ice skating ponds, and many miles of cross-country ski trails are provided at no cost to participants.

Golf Course Restaurant

The Riverside Grill restaurant, located at the Riverside Golf Course, opened its doors in May 2014. The restaurant is overseen in-house by the Golf Course staff, including an experienced chef and a Front of House Manager. The restaurant is open year-round welcoming golfers and the general public alike. Riverside Grill serves both lunch and dinner, as well as a brunch on Saturdays and Sundays. The restaurant also provides a golfers' beverage cart option. Additionally the restaurant hosts weekly daily specials. More information about the menu and the weekly events may be found on our website at <http://www.theriversidegrill.com/>.

Custodian Services

As part of the FY19 department reorganization, custodian services separated from the Trades, Public Safety Buildings, City Hall, Merrill, Other Public Buildings, Expo, and Waterfront divisions. This FY19 newly consolidated Custodian Services division remains under the direction of the Parks Recreation and Facilities Department, whereas the various divisions comprised of general building maintenance and repair transferred to the new FY19 Public Buildings and Waterfront Department.

The Custodian Services budget provides for the personnel and materials for the cleaning operations of City Hall, Public Safety, Merrill Auditorium, Expo, the Canco Road complex and Ocean Gateway, as well as other city facilities.

Cemeteries

The Cemetery division is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. The Cemetery crew also maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Overall, the Cemetery Operations is responsible for the care and maintenance of sixteen cemeteries.

In addition to the care of grounds, the division is responsible for interments and disinterments, lot sales and other funeral-related services. Wilde Memorial Chapel, located on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

In addition to the conventional use as cemeteries, cemeteries have also traditionally been used as a public park. Evergreen Cemetery, for example, is comprised of an extensive network of country lanes, paved roads, wooded trails, and greenscape which invite exploration. As the largest open space in Portland, the cemetery attracts a rich variety of avian life; the Maine Audubon utilizes Evergreen Cemetery and its undeveloped woods for annual bird watching excursions.

Forestry

The Forestry / Horticulture division is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance trimming is done as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs blocking streets.

The division actively seeks grant money from the State to increase the number of city trees planted each year. Forestry also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees across the City. The division helps to maintain the City's status as a "Tree City USA", an award Portland has received since 1978.

Furthermore, our Horticultural group creates and maintains beautiful display gardens including our Deering Oaks rose garden and downtown planters.

The Community Garden program was transferred to the Parks division in FY19.

Parks

The Parks division manages a park system that includes over sixty parks, seven-and-a-half miles of multi-use trails, ten community gardens, two stadiums, sixteen cemeteries, and dozens of athletic fields and courts all spread across 721 acres of land. The Parks division also stewards an urban forest of 20,000 inventoried trees, and maintains flowerbeds, meadows, and natural open spaces throughout the city. Our Parks Rangers strive to make our parks safe for all, and our hard working maintenance crews keep our parks beautiful in the summer and plow our city sidewalks and trails in the winter.

The Parks Division aims to provide outdoor recreational opportunities for everyone during all four seasons of the year from the Portland Skatepark, to four splash pads and wading pools, two dog parks, four maintained ice skating ponds, a sledding hill, and miles of groomed cross-county ski tracks.

The City has started a new series called "A Walk in the Park". For more details, please visit the following weblink: <http://me-portland3.civicplus.com/1990/14550/Park-Tours-and-Talks>.

Public Buildings & Waterfront

The Public Buildings & Waterfront Department oversees the City's public buildings including the many smaller facilities, island Infrastructure, trail lighting, School HVAC, and most recently the maintenance and long term planning for the Fire Department. The Public Buildings & Waterfront Department also manages and maintains the Portland waterfront piers and facilities, as well as the cruise ship operations. This department is comprised of a skilled staff and licensed trades workers whose tasks consists of everyday maintenance, long term facility planning, and general contracting.

In FY19, Public Buildings and the Waterfront split from the Parks, Recreation and Facilities Department into its own department; custodial services, as well as the operational management of the Exposition Building venues, continues under the care of the Parks, Recreation and Facilities Department. In addition, the Merrill Auditorium division was split, creating a new facility maintenance division in this department. For comparative purposes, the divisional history remains intact with the reorganized divisions and is reflected in accordance with the new FY19 department divisional structure.

Other expense changes include increases in maintenance and repairs, largely related to improvements at the Canco Road facility, offset by reductions in utility and supply lines. The Waterfront cruise ship operation continues to thrive and is responsible for the department's overall projected revenue increase of \$143,078.

Public Buildings & Waterfront Administration

Public Buildings and Waterfront Administration is a newly created division with the advent of the new FY19 Public Buildings and Waterfront Department, separating the facility maintenance functions from the Parks Recreation and Facilities Department. The vast majority of the FY19 division's expenditures is simply an expenditure shift from the Trades division for the overall management operations of the new Public Buildings and Waterfront Department.

The department's administrative staff oversees the maintenance and up-keep of various city buildings, including the Waterfront division. Functions include providing general administrative support, centralized accounting, budget preparation, CIP oversight, and payroll, as well as long term facility planning and general contracting.

The FY19 personnel changes include the addition of a new Project Manager.

Trades

The Trades Division budget is comprised of a highly skilled workforce that maintains, repairs, and renovates the various City buildings. Services provided include carpentry, painting, electrical, plumbing, remodeling, and maintenance of the heating and ventilating systems.

The FY19 division's expenditure decrease reflects the shift of the Public Buildings and Waterfront management staff and other administrative expenditures to the new Public Buildings and Waterfront Administration division. In addition, as part of the FY19 Parks Recreation and Facilities Department reorganization, the temporary help expenditures shifted to the newly consolidated Custodian Services division.

Waterfront Maintenance

Waterfront Maintenance is responsible for the repair, maintenance and operations of City-owned waterfront property which includes the Portland Ocean Terminal, Maine State Pier and Ocean Gateway.

The major focuses in the upcoming year include fender system replacement, pier deck repairs, and exterior wall pile cap and stringer repairs. Also, pier maintenance work continues at Compass Park and comfort station. In addition to the eleven new floats recently deployed at East End Beach, new floats are scheduled for Great Diamond in the fall of FY19.

Cruise passengers continue to be on an upward trajectory; the FY19 division revenue is increasing \$560,478, or 27.8%, while FY19 expenditures are increasing \$170,621, or 14.6%. FY19 personnel changes include the net addition of one-and-a half new positions; other personnel changes include the shift of the Waterfront cleaning operations to the Parks Recreation and Facilities Department's new Custodian Services division.

Canco Road Buildings

The Canco Road Buildings division includes the properties at 212 Canco Road and 250 Canco Road, recently purchased in 2015 and 2016. The Canco Road Municipal Complex houses staff and services of the Public Works and the Parks Recreation & Facilities departments. In addition, the Canco Road facility provides storage space for Public Safety and is home to the Fire Department's Fire Alarms section. This budget provides for building maintenance items, small office renovations, and monthly utilities.

Department of Health & Human Services

The City's Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This assignment often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

The HHS Administration division consists of five full-time positions including the Director of Health and Human Services, the Director of Elder Affairs, and administrative support staff.

Public Health

Public Health, a division of the Health and Human Services (HHS) Department, is the State's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, India Street Health Center, Health Equity, and the new FY19 Research and Evaluation division. Public Health's specific activities include, but are not limited to, health policy development, public health research, data surveillance, health education, and analysis and communication, providing direct services to the underserved.

In FY19, the expenditures and revenues have decreased in proportionate amounts, as the budget reflects a change in accounting for grant funded programs; beginning in FY19, grant funded positions are charged directly to the grant funds and no longer pass through the general fund.

Public Health Administration

The Public Health Administration division provides support services to all programs within the Public Health division, as well as administrative support to HHS. These services include grant management, policy and procedures creation and management, ensuring HIPPA and confidentiality compliance, Public Health Accreditation Board requirement maintenance, payroll and reimbursement processing, supply ordering, facilities support, and liaises with the City's Finance, Legal and Information Technology departments.

The Administration revenue estimate reflects the administrative fee for the management and oversight of the various grants administered by Public Health.

Family Health

Family Health is comprised of the Maternal & Child Health and Portland Defending Childhood programs. These programs provide access to violence prevention services and education, and maternal & child health services in-home and at community locations. Collectively, Family Health served more than 2,500 individuals with more than 5,200 visits and outreach. The Maternal and Child Health Program innovates its Playgroup to serve up to thirty-five children ages 0-5 years weekly. Additionally, Portland Defending Childhood implemented evidenced-informed violence prevention curricula in nearly one-hundred classrooms throughout the Portland Public School system.

The FY19 Family Health budget shows a comparable decrease in both expenditures and revenues. Staff wages, which were previously routed through the operating budget, are now charged directly to the grant funds; this modification merely reflects an accounting method change and is not a reduction in divisional programming.

Overall expenditures also decreased as some salaries were reallocated to other divisions.

Chronic Disease Prevention

The City of Portland's Chronic Disease Prevention Program is dedicated to serving the residents of Portland by creating and advocating for health policies at the local and district level; the City utilizes evidence-based practices and collaborative partnerships. The health issues addressed include tobacco, smoke-free living, physical activity, healthy eating, lead poisoning prevention, skin cancer prevention, and substance abuse prevention.

The FY19 Chronic Disease Prevention expenditures and corresponding revenues both display a decrease. Starting in FY19, project wages are a direct charge to the grant funds instead of a general fund pass through; this modification merely reflects a change in the accounting method and is not a reduction in divisional programming. The program budget for all funds incorporates staffing changes, including a net position increase of 1.4 full-time equivalents. Budget changes also include the reallocation of salaries to other divisions and an increase in the purchase of medical supplies.

India Street Clinic

The India Street Clinic, located at 103 India Street, houses the Portland Needle Exchange, the HIV/STD and Hepatitis C Prevention Program, and the Portland Community Free Clinic. Individuals who are enrolled in the needle exchange may access clean syringes, education, counseling, testing, overdose prevention and linkage to treatment. The STD clinic offers HIV, STD, and hepatitis C testing and treatment services for sexually transmissible diseases on a walk-in basis. The Portland Community Free Clinic has over one-hundred volunteer medical providers and support staff, and is a partnership between the City and The Friends of the Free Clinic, a 501(c)(3) whose mission is to raise funding for the clinic. The Portland Community Free Clinic provides medical care to the uninsured that earn below 250% of the Federal Poverty Level, are above the age of eighteen, live in Cumberland County, and are stably housed. India Street also houses a Public Health Laboratory.

The FY19 India Street Clinic expenditures show a decrease, as project expenditures no longer pass through the general fund budget and are instead charged directly to the grant funds; this modification merely reflects a change in the accounting method and is not a reduction in divisional programming. The budget changes also include the reallocation of salaries from other divisions.

Health Equity

The Health Equity Program supports the Public Health Division with services to minority populations. The Health Equity Program specific activities include health education to racial and ethnic minority groups, enrolling individuals in health insurance, and training public health and health care professionals in cultural competency. This division also implements the Enhanced National Culturally and Linguistically Appropriate Services (CLAS) Standards policies to ensure services are in compliance.

The Health Equity expenditure and revenue reductions shown below reflect the FY19 accounting method change related to grant funded project activity. In FY19, project wages are charged direct to the grant funds rather than a general fund pass through; this modification merely reflects a change in the accounting method and is not a reduction in divisional programming. FY19 budget changes include a reallocation of salaries from other divisions.

Research & Evaluation

The Research and Evaluation Program serves several important functions within the Public Health Division, including research, public health surveillance, analysis and interpretation of public health data, and program evaluation. The program conducts public health research that focuses on understanding determinants of health. This program also conducts program evaluation, a systematic and objective assessment of the relevance, efficiency, effectiveness, sustainability, and impact of a program or intervention. Public Health surveillance, which is the systematic collection, analysis, and interpretation of health data, is another core program function. Data used to conduct public health surveillance include city-wide survey data collected by the Research and Evaluation Program, as well as data obtained from local and national sources. This division serves as a major source for Public Health data repository.

Research & Evaluation is a new program in FY19.

Social Services

The Social Services Division provides both financial assistance and support services for low-income Portland residents. Its purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Programs operated include General Assistance (GA), Homeless Shelters for individuals and families, Case Management and Representative Payee Services.

The Social Services division consists of five programs: Administration, General Assistance, the Portland Community Support Fund, Oxford Street Shelter and the Family Shelter; the Housing & Support Services program was absorbed by Administration and General Assistance in FY19.

The City's FY19 contribution to Social Services has increased primarily due to the addition of day service at the Oxford Street and the Family Shelters, implemented during FY18. Also in FY19, the grant funded expenditures and revenues have decreased in proportionate amounts, as this budget reflects a change in the accounting method; beginning in FY19, grant funded positions are charged directly to the grant funds and no longer pass through the general fund.

Social Services Administration

This Social Services Administration division is responsible for the overall general management of the Social Services programs. Services include grant management, data/statistical analysis, payroll, accounts payable, receivables, representative payee, and other operational responsibilities.

The FY19 expenditure budget for Administration increased by \$181,814 or 42.2%. This increase is primarily related to the transfer of two positions from the Housing and Support Services division and the reallocation of Social Services Administration's wages.

General Assistance

State law requires municipalities to administer General Assistance (GA) which provides for immediate aid to individuals who meet eligibility requirements and are unable to provide basic necessities essential to maintaining themselves or their families. Maine law states that municipalities have the responsibility to provide financial assistance to all eligible residents of their municipality, as well as non-residents who intend to reside in the municipality and have no other residence. GA provides basic needs in the areas of shelter, housing costs, utilities, food, medication, disposable diapers and hygiene items. All assistance is issued in vouchers and no cash is provided. The GA program processes an average of 1,130 applications per month and provides assistance to 3,022 individuals per year (unduplicated number).

In FY19, the GA program has continued the focus on self-sufficiency through the HIRE (Helping Individuals Regain Employment) program. The division has increased the City's partnership with local employers, education professionals, and the local Career Center in order to aid our GA recipients in finding long term employment.

The FY19 expenditures for General Assistance increased by \$369,210, or 5.8%. This increase is primarily related to the increased expenditures for housing assistance and other client services. The FY19 budget also includes changes in personnel status, including the security guard shift from temporary services to permanent and the transfer of one position from the Housing and Support Services division.

Portland Community Support Fund

The Portland Community Support Fund provides basic necessities assistance for immigrants who have received General Assistance in the past, however, are now deemed non-qualified for reimbursement by the State.

Total	250,000	126,563	217,804	200,000	200,000	200,000

Oxford Street Shelter

The Social Services Division operates the Oxford Street Shelter and Community Overflow Shelter for adults. The Oxford Street Shelter is a low barrier facility that provides access to safe overnight shelter for homeless adults (18+) 365 days a year. During FY18, the Oxford Street shelter expanded its hours of operation to 24 hours. The Oxford Street Shelter has a capacity of 154 beds. This division also operates an off-site Community Overflow Shelter at Preble Street and a warming center at the General Assistance waiting room with a capacity of 75 individuals.

The shelter promotes a housing culture by offering an array of services such as housing triage, housing orientation, current apartment lists and assistance with travel to apartment showings.

The FY19 Oxford Street Shelter budget reflects a decrease in both expenditures and revenues as project activity shifted to the grant funds directly, rather than funneling through the FY19 general fund operating budget; this modification merely reflects a change in the accounting method and is not a reduction in divisional programming. The FY19 budget also includes additional funding for day service at the shelter.

Family Shelter

The Social Services Division operates the City of Portland's Family Shelter. The administrative and support services staff are located on the first floor of 54 Chestnut Street.

The Family Shelter provides temporary housing to families with children under the age of 18. Shelter apartments are located at 54-58 Chestnut Street, including one unit to accommodate individuals with disabilities. Combined, the Family Shelter has a total capacity of 151 beds in an apartment style living environment. Apartments are shared by families and are furnished. Residents have access to telephones, cleaning supplies, transportation, and other basic needs. Each family member is assigned a case manager who works with families to develop self-sufficiency work plans in order to obtain permanent housing.

The FY19 Family Shelter budget reflects a decrease in both expenditures and revenues as project activity shifted to the grant funds directly, rather than funneling through the FY19 general fund operating budget; this modification merely reflects a change in the accounting method and is not a reduction in divisional programming. The FY19 budget also includes additional funding for day service at the shelter.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of nine divisions.

The Barron Center provides comprehensive health care services to individuals in need, recognizing the unique value of each person with the purpose of preserving and enhancing the individual's quality of life. The Barron Center is a 219 bed skilled rehabilitation and nursing facility, including a 50 bed specialty unit for the care of dementia. The Center provides speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The staff includes 244 full-time equivalent positions made up of over 300 individuals at any time.

Due to a recent decline in patient census, the FY19 Barron Center expenditures have decreased by \$1,346,919 or 7.9% and the revenue budget has decreased by \$1,953,601 or 9.5%. The decreases are attributable in part to a staffing shortage.

Barron Center Administration

The Barron Center Administration division is responsible for the care and management of the facility's capacity for 219 residents and 300+ full and part-time employees. The Business Office is responsible for the financial operations, which includes budgeting, payroll, accounts payable, and accounts receivable (including coordinating with the Barron Center's billing vendor).

The Barron Center's FY19 Administration expenditures have decreased by \$395,101, or 17.9%, primarily due to the decrease in lab and medical services.

Office of Elder Affairs

Through the Office of Elder Affairs, the City provides the community with an Elder Advocate, who is available to work with any Portland senior who needs help. Assistance is provided in the form of senior information and referrals, adult day health services and community collaboration. The Adult Day Services program offers supportive, daytime care that enables individuals living alone or with family to remain at home. The City manages a specialized program for clients with Alzheimer's disease or related dementias, and provides much-needed respite for caregivers.

The Office of Elder Affairs also collaborates with the Elder Abuse Institute of Maine to provide transitional housing and support services for elderly victims of abuse through the Martha's Cottage Project.

The FY19 expenditure budget for the Office of Elder Affairs increased by \$10,200 or 4.2%, and revenues are anticipated to increase \$43,518 or 20.9%.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's 18.2 positions provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The FY19 Nursing Administration division's budgetary increase of \$104,756, or 7.3%, is mainly attributed to general wage increases and hiring incentives, as well as other line increases.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit, located on the main floor of the facility, is a 25 bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36 bed unit located on the second floor. The majority of these patients have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36 bed unit located on the second floor. The dementia residents (continuing care dementia) on this unit are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36 bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50 bed unit, managed as five 10 bed "neighborhoods", which provides Alzheimer related services. BC II residents are highly mobile and require unique staffing considerations.

The FY19 budget for Nursing Direct Care budget, consisting only of wages, has decreased \$591,865 or 8.2%; due to a recent decline in the patient census, in part attributed to a staffing shortage, the FY19 budget reflects a reduction of 19.4 full-time equivalent positions.

Nutrition & Supply

The Nutrition and Supply division consists of Resident Nutrition, Cafeteria / Catering, and Central Medical Supply. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, visitors, and operates The Clock Tower Cafe at City Hall. Catering services are provided for City functions, receptions, and celebrations. Central Medical Supply purchases, receives, stores, and distributes routine medical supplies, over-the-counter drugs, and other supplies for the various divisions within the Barron Center.

The FY19 budget for Nutrition and Supply decreased \$419,908 or 12.5% largely due to the decrease in the supply lines, representative of the lower patient census.

Environmental Services

The Barron Center's Environmental Services division is composed of six employees who are responsible for the maintenance of the twelve-acre Brighton Avenue facility. The maintenance division keeps the building in repair and working order through completing projects in-house or arranging for outside vendors. Maintenance is also responsible for snow removal, landscaping, and conducting facility fire drills.

The FY19 budget for Environmental Services decreased \$61,537, or 5.3%, primarily due to the decrease in capital outlay expenditures.

Housekeeping

The Barron Center's Housekeeping staff is responsible for providing a clean and appealing environment for all residents of the Barron Center.

The FY19 Housekeeping budget's reduction of \$31,652, or 5.0%, is associated with decreases in supplies and equipment.

Laundry Services

The Laundry division provides a clean and adequate supply of laundry to the residents. Personal laundry services are provided to nearly all of the residents. Laundry services are also provided to the City's Oxford Street Shelter.

The FY19 budget for Laundry increased by \$34,778, or 7.0%; this increase is mainly attributed to general wage increases, as well as loading dock improvements.

Debt Service

The Debt Service account provides for the payment of the principal and interest on the City's outstanding General Obligation Bonds, as well as the cost for the current-year bond issuance. Department revenue is from reimbursed bond costs, primarily from the City's enterprise funds and the School Department.

Library

Portland Public Library is a general purpose library system that serves Portland and the surrounding region. Portland Public Library (PPL) provides a wide array of collections, programs, and services to 80,000 patrons through four locations, the bookmobile, and the outreach service to low-mobility community members, as well as 24/7 access through our "virtual branch" on its website.

The Portland Public Library is a trusted educational leader and multifaceted community resource in Portland. PPL welcomes everyone, and provides exciting and meaningful opportunities to children and families, and to teens and adults as lifelong learners. PPL is also frequently accessed by those on the margins – the economically challenged, those in recovery or newly release from incarceration, new Mainers, our aging population, and others in transition. In addition to collections of over 360,000 and more extensive online resources, the Library offers over 1,000 programs each year for citizens to engage in education, entertainment, important conversations about issues in the community, tutoring, training in workforce skills, and other opportunities for growth.

Portland Public Library is an independent 501(c)(3) non-profit organization, governed by a Board of Trustees. PPL finances all of its collections, programs, and outreach through an Annual Campaign, operational grants, fees, and endowment income. The City of Portland owns the land and buildings in which the Library operates its public locations. Municipal support from the City of Portland, Cumberland County, and the Maine State Library is directed solely to the infrastructure needs of these buildings and the salaries of Library employees.

In April 2010, the Main Library location on Monument Square completed Phase I of a major renovation project, heightening the usability and improving the atmosphere of the space, including public meeting rooms used frequently by the City and other public institutions. Phase II of the Main Library renovation is in the planning phase. In 2013, the Library added a bookmobile. In 2016, the Burbank Branch Library received an extensive renovation and the Peaks Island Branch Library renovations are scheduled for completion in July of 2018.

This budget reflects the City's contribution to the Library; the FY19 budget increased \$125,275, or 3.2%.

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60 (or at age 65 after July 1, 2014), and Public Safety employees with 25 years of service. There is also a plan covering grandfathered Public Safety employees with 20 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, Group Life Insurance, Unemployment, and FICA. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

Health Insurance Program

The Health Insurance Account provides funding for the City's self-insured health plan. The City picks up the full cost of medical individual and family coverage for full-time grandfathered employees. For all remaining full-time employees, the City picks up 85% of employee only costs, 72% of employee and child(ren) costs, 69% of employee and adult costs and 65% of family costs.

During FY17, the City introduced a new voluntary wellness program, aimed at improving health and well-being of employees by achieving healthier living. Participation in the program's five wellness activities provides an incentive at the beginning of each plan year for employees to reduce or eliminate the employee only 15% share of costs.

Claim payments are made by a third-party administrator.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. When applicable, this account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

Contingency

The Contingency account provides funds which are set aside as a necessary provision for meeting unforeseen contingencies and emergencies which may arise during the year. Expenditures for contingencies arising in the implementation of the policies and work programs established by the City Council are authorized by the City Manager.

Department Summary

Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. In addition, the City purchases insurance policies to cover property and liability exposures with limits set forth in the Maine Tort Claims Act. Claims are processed in-house in the legal department through Maine Municipal Association's (MMA) property and casualty pool.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, airport and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

Transit District (Metro)

The Transit District account provides subsidy support to the Greater Portland Transit District, better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves. In April 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members. The district is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities.

The City of Portland's share of the local operating subsidy is 77.6%. The City's Metro budget has increased by \$74,014 or 2.8%.

Regional Transportation

The Regional Transportation Program (RTP) provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP services the cities of Portland, South Portland, and Westbrook, with the cost apportioned based on ridership.

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On July 1, 2018, the FY19 sewer user fee increases to \$9.95 per hundred cubic feet (hcf). This is an increase of \$0.30 over the FY18 rate of \$9.65 per hcf, an increase of 3.1%.

In FY19, approximately 76.8% of the Sewer Fund budget is allocated for debt service and assessment fees to the Water District.

STORMWATER FUND

The Stormwater program / rate began mid-year FY16 on January 1, 2016; Stormwater related services separated from the Sewer Fund as part of an effort to achieve greater fairness in paying stormwater costs among its' users, allowing more equitable distribution of user costs which are based on impervious area.

The FY19 stormwater service charge increases July 1, 2018 to \$6.30/month per 1,200 square feet of impervious surface. This is an increase of \$0.30, or 5.0%, over the FY18 rate of \$6.00/month. The City maintains the Stormwater billing system.

The collected funds from the sewer user fees and stormwater service charges are used to maintain and improve the City's infrastructure, and to fund projects related to the Department of Environmental Protection's ("DEP") mandated Combined Sewer Overflow ("CSO") requirements. The capital cost estimate of these projects totals several hundred million over an approximate 20 year time period.

JETPORT

The Jetport is ranked by the Federal Aviation Administration as the 96th largest airport in the United States based on enplanements as of calendar year 2017. During 2017, a total of 1,862,213 passengers flew into and out of the Jetport. The Jetport is served by American Airlines, Delta Airlines, Elite Airways, Frontier Airlines, JetBlue Airways, Southwest Airlines, and United Airlines, along with their regional partners.

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 35% of the Jetport's total FY19 revenue, with parking, rental cars, concessions, ground rent, and miscellaneous revenue providing the other 65%.

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a fee for parking ready spaces, counter space, and commission on gross sales to the Jetport. In FY19, car rental agency income is expected to draw 29% of the non-airline revenue. Parking, representing 47% of non-airline revenue, is contracted out to a private management company, which remits the net revenues generated by the parking operations on a monthly basis.

Jetport Parking Division Income

Note: FY18 and FY19 are estimated amounts

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are four enterprise funds administered by three departments of the City.

A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Public Buildings and Waterfront department. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

STORMWATER FUND

The principal function of the Stormwater fund is to account for operating, maintaining, and meeting the capital costs requirements of the City of Portland stormwater and combined sewer infrastructure systems. The City of Portland maintains 129 miles of stormwater infrastructure, 141 miles of combined sewer systems, 96 miles of sanitary sewer, 9 sewer pumping stations, and approximately 15,000 other structures that help to move and treat stormwater.

The city is also responsible for the capital costs necessary to maintain the system and the development and redevelopment of properties within the city and for meeting State and Federal mandates regarding the quality of streams and tidal waters within its jurisdiction.

JETPORT

The Jetport Fund is responsible for the operation and maintenance of the Portland International Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine. Passenger enplanements have increased from approximately 250,111 passengers annually in 1980 to 925,903 for the calendar year 2017.

The Jetport's major expenses include the terminal building, operation of the Jetport Parking division, and maintenance of the Airfield runways, taxiways and aprons. Other central expenses include security, administrative, and marketing costs.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

Sewer Fund

The principal function of the Sewer Fund Enterprise is to account for the sewer services provided to City residents and business establishments. The Portland Water District (not a city department) owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly or quarterly fees, based upon water volume, to support the expenses of the fund.

The Sewer Fund expenditures increased \$1,561,646, or 6.3%. These increases are mainly attributed to the FY19 Sewer Debt Service, Portland Water District (PWD) assessment fees, payroll and benefits, and sewer flow monitoring costs.

Sewer Finance

This division's services are provided by the City's Finance Department. Finance provides billing and collection services, as well as lien processing for delinquent accounts. The Finance Department also maintains the financial records for the Sewer Fund and the computer network system.

The FY19 Sewer Finance division's increase of \$43,473, or 47.6%, is predominately related to the FY19 implementation cost of a new city-wide public sector software system.

Sewer Public Works Administration

This division accounts for the associated costs incurred by the Department of Public Works administrative staff for sewer related activities.

The FY19 Administration expenditures show a decrease of \$27,130, or 3.4%, largely due to a reduction in contractual services. Other budget changes include the transfer of one position from the Stormwater Fund.

Sewer Districting

The Sewer Districting division is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance, and sewer inspections and investigations.

Division expenditures have increased \$168,692, or 5.9%. The majority of this increase is due to the restructuring of staff between the Sewer and Stormwater funds; this division includes the transfer of two positions from the Stormwater Fund.

Sewer Communications

The Public Works Sewer Communications division accounts for the associated costs incurred for sewer related functions including service requests, street flooding and Dig Safe requests.

The FY19 division's expenditures increased slightly by \$3,631, or 5.7%.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for the implementation of the Combined Sewer Overflow (CSO) abatement program and the industrial pretreatment program, both federally mandated by the Clean Water Act.

This divisional budget reflects an increase of \$264,403, or 74.7%, most of which is attributed to the FY19 flow assessment / sewer flow monitoring expenses.

Stormwater Fund

The Stormwater Fund supports the expenditures needed to operate and maintain this critical infrastructure system, preventing pollutants from entering valued waterways as mandated by the federal Clean Water Act (CWA). The stormwater fee, implemented in January of 2016, was designed to disperse the program costs to all City property owners who benefit from the positive impacts of this investment; the Stormwater Fund separated from the Sewer Fund in FY16. The stormwater fee is based on the impervious area on a property.

The FY19 expenditures decreased \$280,639 or 9.2%. This decrease is primarily attributed to a reduction in various contractual service items and the restructuring of personnel between the Sewer and Stormwater Funds.

Stormwater Management

The Stormwater Management division budget represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. The Sweeping division performs street flushing, and clean up after special events (parades, New Year's celebration, etc.); their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

The FY19 expenditures are reduced by \$266,038, or 12.8%, mainly due to decreases in contractual services and the restructuring of personnel; three positions transferred from the Stormwater Fund to the Sewer Fund.

Jetport

The Portland International Jetport provides commercial air service to nearly two million passengers a year, general aviation facilities via two fixed base operators (FBOs) for private aircraft, and an air cargo facility. The Jetport is a dedicated fund which means all revenues generated remain with the airport to fund both normal airport operations as well as capital improvements. No local tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is budgeted under Administrative Services as the anticipated surplus.

The Jetport completed its most recent Airport Master Plan in 2016. The master plan sets the Jetport's priorities in spending for infrastructure improvements, major equipment purchases, and asset management for the short (years 1-6), intermediate (years 7-11), and long term (years 12-20) planning horizons.

The Jetport's overall FY19 expenditure budget, excluding anticipated surplus, has increased \$1,314,030 or 6.0%. Revenues have increased by \$1,245,263 or 5.4%.

Jetport Administration

The Jetport's Administration division is responsible for the day-to-day management of the Jetport and for planning future operations. Divisional services include property management, payroll, accounts payable and accounts receivable, budgeting and human resources functions.

The Administration budget increased by \$94,722 or 9.9%, primarily due to the addition of a safety training officer position and an increase in contractual services.

Jetport Field

The Jetport Field division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft. Division responsibilities include mowing, snow removal and fleet maintenance.

This budget has risen by \$277,136, or 7.3%, and incorporates increased allocations for airfield maintenance services, as well as winter snow and ice control. The FY19 budget changes also include staff restructuring.

General Aviation

The Jetport General Aviation division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. The General Aviation division collects landing fees from the aircraft that use the GA area, similar to the fees charged to the commercial airlines.

The General Aviation expenditures remain flat for FY19.

Jetport Operations

The Jetport Operations division performs all administrative and operational activities related to security and operations at the Jetport. These activities include observing all federally mandated TSA security and FAA operations regulations. The division oversees the maintenance of all security related equipment including cameras and monitors, computer equipment, and security doors and gates. The division is also responsible for processing employee background checks and issuing employee ID badges. The Operations Center provides communications, technical, and operations support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public, the airlines, and the airport businesses on property. The costs of the police officers which serve at the Jetport are also paid from this division.

The Operations Division's budget has increased by \$220,759, or 9.3%, largely due to the additional security system improvement capital expenses. This budget also includes staff restructuring and the net addition of 1.5 full-time equivalent positions.

Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including the interior and exterior terminal cleaning and maintenance. The terminal division's engineering section is responsible for the planning, design and management of major terminal improvements.

The Terminal's budget has increased by \$456,314 or 8.3%. The budget increases are primarily a result of increases in contractual maintenance service items. Other budget changes include a reduction in utility costs and an increase in capital outlay expense.

Jetport Surplus

The Jetport surplus is determined annually by calculating total revenues minus total expenses, including capital purchases.

The FY19 surplus budget reflects a decrease of \$68,767 or 8.1%.

Jetport Parking

The Parking division oversees the parking maintenance and operations of the Jetport's parking garage and surface parking lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

Expenditures have decreased by \$22,644, or 0.5%, which includes a reduction in FY19 capital outlay expenditures. Parking revenues are projected to increase \$443,478 or 6.4%.

Airfield Deicing Facility

The Airfield Deicing Facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the expenditures incurred, thus creating a "net zero" impact on the Jetport's overall budget.

Key Revenues and Expenditures

Revenues

The Housing and Community Development Program or HCD is a special revenue fund that is supported by several federal and local funding sources.

1. Community Development Block Grant (CDBG) Program:

The Community Development Block Grant (CDBG) is funded by the federal government under the Housing and Community Development Act of 1974. For Program year 2018-2019 the City allocated \$2,057,808, which is comprised of \$1,895,922 in direct allocation from HCD, \$10,000 from program income, and \$11,886 from re-programmed funds; additional sources of 2018-2019 fiscal year funding include \$120,000 from the Bayside TIF revenue and \$20,000 from the Cotton Street lot property sale. These funds are used to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.

2. Home Investment Partnership Program (HOME):

The HOME funds are available for a broad range of housing activities benefiting low and moderate income households. For 2018-2019, the City proposes to utilize \$1,151,710 of HOME funds and \$151,247 of Program Income for a HOME Consortium between the City (\$856,911) and Cumberland County (\$446,046) for the development of new rental housing, single family and multi-family rehabilitation, tenant based rental assistance, and assistance to special non-profit agencies called Community Housing Development Organizations (CHDOs) to develop affordable housing.

3. Emergency Solutions Grant Program (ESG):

The ESG funds can be used by the City to fund the rehabilitation, operation and support services of providers and facilities

assisting Portland's homeless population. The City proposes to use its 2018-2019 ESG entitlement allocation of \$157,131 to provide case management and homeless prevention services through City Family Shelter programs administered by the Department of Health and Human Services.

4. Portland Development Fund: Originally established in 1986, the goal of the Portland Development Fund is to respond to the need for 1) housing that is affordable to low and moderate income households, and 2) commercial and industrial development opportunities to further strengthen the local economy and generate jobs, particularly in downtown Portland.

Originally there was approximately \$1 million in the Portland Development Fund for both housing and economic development activities. Sources of funding include Urban Development Action Grant (UDAG) miscellaneous revenue, CDBG program income, CDBG entitlement allocations from previous years, and loan repayments and interest generated. In 1990 the fund was split into Housing, administered by the Housing & Community Development Division, and Economic Development, administered by the Economic Development Department.

The Housing portion of these funds is appropriated for several activities, including the development of new affordable rental housing, single and multi-family rehabilitation, and lead paint abatement. UDAG funds administered by the Economic Development Department are used for loans and investments by the Portland Development Corporation.

Expenditures

The three expenditure categories utilized by the CDBG Program are: Public Services, also referred to as Social Services, Development Activity Funding, and Program Planning and Administration. A brief description of the services provided for the 2018-2019 fiscal year under each of these categories follows. A more comprehensive source of information on these programs can be found in the 2016-2020 Consolidated Housing or the 2018-2019 Annual Action Plan issued by the Department of Planning and Urban Development. The 2016-2020 Consolidated Plan implemented the following new program goals and objectives:

- a. ***Neighborhood Investment and Infrastructure***
to create strong, safe, accessible and vibrant neighborhoods.
- b. ***Housing Opportunity***
to increase housing availability and affordability.
- c. ***Economic Opportunity***
to create economic opportunities to transition people out of poverty.
- d. ***Address the Needs of the Growing Homeless Population***
to prevent and reduce homelessness.

PUBLIC SERVICES (SOCIAL SERVICES)

1. Neighborhood Investment and Infrastructure includes Community Policing.
2. Economic Opportunity includes Catherine Morrill Child Care Voucher Program and Catholic Charities & ILAP Immigrant Legal Services.
3. Address the Needs of the Growing Homeless Population includes Amistad & Portland Downtown Peer Outreach Worker Program, Public Health's Mobil Medical Outreach Project, Social Services Division's Long Term Stayers Community Integration & Landlord Outreach Project, Milestone HOME Team, Preble Street's Food Programs, Teen Shelter, Resource Center & Women's Shelter, and the Wayside Food Programs.

DEVELOPMENT ACTIVITY FUNDING

1. Neighborhood Investment and Infrastructure includes Portland Parks, Recreation & Facilities North Woods Adventure Playground at Dougherty Field, Public Works Preble Street Corridor Sidewalk Project, Port Resources Hot Water Heater Replacement Project, and Portland Housing Authority Front Street Re-Development Phase I.
2. Economic Opportunity includes Economic Development Department Business Assistance Program, and CEI Portland Microenterprise Assistance Program.

PROGRAM PLANNING & ADMINISTRATION

The following are reimbursements to general operating accounts for program administration services:

1. The Department of Planning & Development provides Administration, Planning, Housing & Community Development, and Citizen Participation services which are reimbursable under the HCD guidelines.
2. The City receives reimbursement for a portion of the annual audit cost associated with auditing the HCD Program.
3. The City may receive reimbursement for a portion of the fringe benefits associated with the positions funded with HCD monies. However, the fringe benefit reimbursement along with all of the administrative costs must not exceed the 20% cap set by CDBG regulations.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2019 School budget was approved by the voters June 12, 2018.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 79.6% of the FY19 Education budget.

State Subsidy

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The budgeted portion of State Aid for Essential Programs and Services (EPS) and debt service accounts for 14.8% of the School's FY19 Budget.

The chart represents the State Aid to Education revenue history over the past six years.

Note: FY18 and FY19 are estimated amounts

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Board of Public Education for the City be administered by a school board comprised of nine members. The Board of Public Education performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into six categories: (1) Salaries and Benefits (2) Contractual Services (3) Supplies (4) Miscellaneous (5) Debt Service and (6) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Budget Overview

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114 mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac Indian name meaning "shaped like a

great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cross Insurance Arena. Two major medical centers, Maine Medical Center and Mercy Hospital, are also located in the City.

Budget Overview

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

Budget Overview

1. projected collection estimates for the current fiscal year with explanations for projections substantially different than estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the City's budget process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion

of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department budget, under the school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final

Budget Overview

justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self balancing accounts that comprise its assets, liabilities, reserves, fund equity/retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, parks recreation and facilities, public works, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the acquisition, construction or improvement of

capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds are: Fish Pier, Sewer, Stormwater and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

All proprietary funds are accounted for on a flow of economic resources measurement focus.

Budget Overview

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Basis of Budgeting

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Activity: A segment of the account number that identifies the type and purpose of the account. The two activity classifications used in budgeting are: 300's - Revenues and 400 & 500's - Expenditures.

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The element classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The element classification for employee related costs such as health insurance, pension, FICA, unemployment, and tool allowance.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Glossary of Terms

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The element classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Client Expenses: The element classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The element classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The element classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Glossary of Terms

Element: A segment of the account number that distinguishes types of expenditures. The major classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance and Repairs, Rentals, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, and other equipment.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of and guidelines for financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices as a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, public works, parks recreation and facilities, public buildings & waterfront, health and human services, public library, county tax, metro, and debt service.

Glossary of Terms

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

HUD: The abbreviation for Housing and Urban Development.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

Insurance: The element classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category (salary, materials, telephone service, travel, etc.) separately, along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The element classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The element classification used for tangible property or equipment used for operations having a cost between \$5,000 and \$10,000 per single item.

Glossary of Terms

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Classification: A basis for distinguishing types of expenditures in conjunction with the element. The major expense classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Services, Contractual Services, Maintenance and Repair, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The element classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Payroll: The element classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Rental: The element classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Glossary of Terms

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The element classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The element classification which includes expenses for electricity, fuel, telephone, water and sewer, and stormwater.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

(1) Planning: \$290,805 (2) Public Health: \$839,356 (3) Social Services: \$1,995,108

-Full-time project positions restored in FY20 (directly charged to projects / grants in FY19): Planning, Public Health & Social Services

-Office of Economic Opportunity transferred from City Manager to Economic Development in FY19

-Public Buildings & Waterfront divisions split from Parks, Recreation & Facilities in FY19 (Custodial Services remain w/ 100-33-000)

Budget Highlights

**General Fund & Enterprise Funds
FY15 - FY20 Appropriations**

General Fund Expenditures

The 2019-2020 General Fund budget totals \$206,732,571. After a brief change in the method of how grant funded programs were accounted for in FY19 in which grant activity was charged directly to the grant funds (minor exceptions), grant funded program expenses were restored to the General Fund in FY20. The comparable increase over the 2018-2019 budget equals \$9,146,160 or 4.6%. The major changes in the FY20 budget include:

City Wages*	\$ 3,713,387
Debt Service	\$ 3,269,762
County Tax	\$ 351,471
Social Services Client Services*	\$ 280,045
Workers' Comp	\$ 266,294
ecomaine	\$ 190,325
Supplies – All Other*	\$ 159,091
IT Computer Software & Maint. Contracts	\$ 153,170
Minor Equipment & Minor Capital Items*	\$ 130,648
Library Contribution	\$ 116,550
Social Services Building Rental*	\$ 112,129
Temporary Services	\$ 109,309

Benefits	\$ 109,080
Building Maintenance & Repair*	\$ 105,170
Fleet Vehicle Repair	\$ 81,700
Metro & Regional Transportation Services	\$ 80,223
Travel & Training*	\$ 65,595
Liability	\$ 64,867
Vehicle / Equipment Rental	\$ 62,496
Capital Outlay	\$ 50,575
Utilities	\$ (126,997)
Barron Center Lab & Medical	\$ (140,271)
Vehicle Fuel	\$ (229,200)

*The FY20 / FY19 expense budget variances incorporate the comparable FY19 grant activity value restored to the General Fund in FY20 (and the related revenue offsets). The FY19 grant funded comparable value equals \$3,125,269, the majority of which is represented in the aforementioned categories.

Enterprise Funds Expenditures

The 2019-2020 Enterprise Funds budget totals \$56,788,363, an increase of \$3,196,262 or 6.0% over the 2018-2019 budget.

The Jetport expenditure budget increased \$2,465,528 or 10.2% (or \$2,442,542, or 10.5%, excluding surplus). The more significant Jetport budgetary changes include the following:

Capital Outlay Building Improvements	\$ 918,500
Capital Outlay Land Improvements	\$ 371,185
Wages	\$ 259,402
Benefits	\$ 170,813
Field Snow Plow & Removal Services	\$ 157,135
Terminal Asset Management System	\$ 150,000
Misc. Other Contractual Services	\$ 119,751
Administrative Svcs (Excluding Surplus)	\$ 109,454
Utilities	\$ 102,657
Baggage Handling & Jet Bridge Maint.	\$ 101,244
Supplies – All Other	\$ 70,704
Building Maintenance & Repair	\$ 58,775
Minor Equipment	\$ 56,700
Facilities Van	\$ 50,500
Airfield Pavement Markings	\$ (50,000)
Temporary Services	\$ (53,867)
Computer Maintenance & Repair	\$ (58,082)
Storm Equipment Services	\$ (100,000)

The Sewer Fund expenses increased \$711,045 or 2.7%. The more substantial budgetary changes comprise of the following:

PWD Assessment	\$ 674,867
Debt Service	\$ 343,720
Pump Station Force Gravity Main & Sewer	\$ 150,000
Wages	\$ 144,121
INFOSWMM Computer Software Service	\$ 100,000
Right-of-Way Survey	\$ 50,000
Contracted Manhole Structure Adjustments	\$ (50,000)
Contracted Sewer Inspections	\$ (100,000)
Sewer Flow Assessment / Monitoring	\$ (100,000)
I09 District Road Wash Bay	\$ (150,000)
Contracted Sewer Repairs	\$ (340,000)

The FY20 Stormwater Fund has an expenditure budget of \$2,788,837, resulting in an increase of \$29,223 or 1.1%. The more significant expenditure variances are:

Debt Service	\$ 295,624
Wages	\$ 53,394
Catch Basin Rebuilds & Treatment	\$ (55,000)
Green Infrastructure Landscape Maintenance	\$ (100,000)
Capital Land Improvements (CIP Funding)	\$ (275,000)

General Fund Revenues

The 2019-2020 General Fund non-tax revenues are estimated at \$118,027,530, an increase of \$7,125,722, or 6.4%, over the 2018-2019 budget after incorporating the FY19 grant program revenues restored in FY20. The significant revenue changes are comprised of the following:

TIF Reimbursements	\$ 1,507,809
Debt Service School Department Charges	\$ 1,097,134
SS State Social Service (GA)	\$ 778,562
Debt Service Enterprise Fund Charges	\$ 679,420
Barron Center Patient Receipts	\$ 632,555
Parking Meters	\$ 435,000
Revenue Sharing	\$ 380,158
Building Permits	\$ 331,750
Interest Income	\$ 300,000
Grant Reimbursements*	\$ 267,056
Ocean Gateway Lot Parking	\$ 263,610

Health Insurance Employee Reimbursement	\$ 224,359
Merrill Auditorium Program	\$ 185,600
Barron Center Non-Patient Receipts	\$ 155,010
Waterfront Division	\$ 94,631
Street Occupancy	\$ 92,500
Solid Waste School Fund Charges	\$ 82,640
PW Communications Enterprise Fund Chgs	\$ 65,808
Fringe Benefits	\$ 59,054
Adult Day Care	\$ 55,196
Planning Public Safety	\$ 52,545
Permitting & Inspections Business Licenses	\$ 52,323
Recreation Before & After School Program	\$ 49,955
Barron Center Miscellaneous Reimbursement	\$ 47,804
Golf Course Program	\$ 45,141
Portland Downtown District (PDD)	\$ 41,234
PW Engineering Enterprise Fund Charges	\$ (47,384)
Planning Miscellaneous Charges for Services	\$ (56,900)
Other Miscellaneous Reimbursements	\$ (65,711)
Thames Street Lot Parking	\$ (95,000)
Parking Tickets	\$ (100,000)
Fleet School Department Charges	\$ (102,475)
Special Revenue / Endowment Fund Charges	\$ (123,294)
Excise Taxes	\$ (502,000)

*The FY20 / FY19 revenue budget variances incorporate the comparable FY19 grant reimbursement value restored to the General Fund in FY20 (and the related expenditure offsets). The FY19 grant reimbursement comparable value equals \$3,125,269 and is reflected in the grant reimbursement, HCD charges, and donations revenue line items.

**General Fund & Enterprise Funds
Non-Tax Revenue Estimates
FY15 - FY20**

Enterprise Funds Revenues

The Enterprise Funds 2019-2020 revenue estimates are \$61,471,535, an increase of \$3,643,178 or 6.3%.

The major changes in the revenue estimates include the following:

Jetport Parking Income	\$ 1,178,392
Sewer User Fees	\$ 1,132,574
Jetport Car Rental Commissions	\$ 675,837
Jetport Terminal Rental	\$ 508,588
Jetport Landing Fees	\$ 92,731

Housing & Community Development Program (HCD)

The final 2019-2020 HCD program totals \$2,042,566, a decrease of \$15,242, or 0.7%, from the 2018-2019 program: the Entitlement Grant decreased \$2,356, Program Income decreased by \$1,000, and the use of Surplus Funds decreased by \$11,886. The 2019-2020 HCD Program also includes flat funding from Tax Increment Financing (TIF) for \$120,000 and from the Cotton Street lot sale proceeds for \$20,000.

Education

**Education Appropriations & Non-Tax Revenue Estimates
FY15-FY20**

The Education budget for 2019-2020 is \$117,389,270, an increase of \$6,810,554 or 6.2%. A summary of the more significant school expenditure changes is provided below:

Wages	\$ 3,993,095
Benefits	\$ 1,416,721
Debt Service	\$ 544,019
Tuition to Private Source	\$ 255,053
Building / Equipment Repair & Maint. Svcs	\$ 193,007
Books & Periodicals	\$ 102,317
Purchased Professional & Technical Svcs	\$ 73,046
Food	\$ 69,152
Gasoline	\$ 60,874
Staff Travel	\$ 57,758
Instructional Supplies	\$ 54,973
Natural Gas	\$ 50,990
Mowing / Plowing / Field Maintenance	\$ 47,000
Computer Lease	\$ 46,500
Software Licenses	\$ (80,197)
Contractual Pre-K	\$ (162,554)

The total non-tax revenue estimate for Education is \$24,044,131, an increase of \$1,468,846 or 6.5%. A summary of the revenue changes are as follows:

State Subsidy – EPS/Debt Service	\$ 1,306,573
MaineCare Medicaid Reimbursement	\$ 1,033,928
Indirect Cost Recovery	\$ 100,000
Food Service Revenue	\$ 65,091
Adult Ed State Subsidy	\$ 60,748
Adult Ed Tuition – Individual Enrichment	\$ 20,000
PATHS Part I & Part II Assessment	\$ (21,876)
Adult Ed Tuition – Individual Voc.	\$ (30,000)
Tuition – State Agency Client	\$ (50,000)
SEED Withholding	\$ (1,001,000)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, September and March.

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The last property revaluation was phased in over two years: FY2006 and FY2007. The previous revaluation was done in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY19 and FY20 are estimated amounts.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

Note: FY19 and FY20 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business

licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, Business Licenses, the Cable TV Franchise, and Street Occupancy are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

General Assistance (GA) reimbursement is the largest revenue in this category. In FY16, the State of Maine GA reimbursement rate changed from a tiered percentage reimbursement rate (50% / 90%) to a flat seventy percent (70.0%) reimbursement rate based on the City's eligible program expenditures. The GA revenue collections, FY15 and forward, reflect changes by the state in the GA reimbursement eligibility guidelines, excluding certain immigrants; the FY17 revenue receipt reflects a court settlement for services provided by the City in FY15. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

Note: FY19 and FY20 are City estimated amounts.

An additional major source of revenue in this category is State Revenue Sharing.

Traditionally the State has set aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing pool. The Revenue Sharing pool is then shared amongst 491 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

In FY20 the State partially restores the Revenue Sharing distribution pool which has been reduced since FY2014. The State's FY16 budget, enacted June 30, 2015, temporarily reduced the Revenue Sharing distribution pool from 5.0% of all state sales, corporate, and personal income tax revenues to 2.0% for four years (FY2016 - FY2019). This reduction replaced the previous FY2014 and FY2015 reduction, which capped Revenue Sharing at \$62.5m.

Note: FY19 and FY20 are City estimated amounts

Revenue Sharing I is based on the following formula:

- [population of town x assessment (tax levy)] / state valuation for municipality = the town's computed number
- computed number / sum of all computed numbers = proportional share of REV-I distributions

Revenue Sharing II is based on the following formula:

- a) assessment / state valuation = mil. rate
- b) (mil. Rate - .01) x population = the town's computed number
- c) computed number / sum of all computed numbers = proportional share of REV-II distributions

In FY2020, the State's Revenue Sharing projected share for Portland is 5.4% based on the most recent data.

This category also includes the Local Road Assistance Program (LRAP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Note: FY19 and FY20 are estimated amounts.

Major sources of revenue are derived from Patient Receipts (Barron Center), Cultural / Recreation Services, Health Insurance Reimbursements, Emergency Medical Services (EMS), the Waterfront and Recycling.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties.

Note: FY19 and FY20 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, rental income, and interest earnings.

Interest Income

Note: FY19 and FY20 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, cemetery endowments, library, and School department are known as interfund charges. It also includes TIF and other miscellaneous reimbursements, Other Agency Revenues, and Housing and Community Development Grants.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, City Manager, Assessor, Finance, Legal, Human Resources, Parking, Economic Development, Planning, Permitting & Inspections, Information Technology, Public Buildings & Waterfront, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police and Fire / EMS operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to a highly trained team of Detectives providing comprehensive investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment.

Fire

The Fire Department provides for fire suppression, emergent medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Department is also responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system.

The Fire Department maintains ten fire stations and the Spring Street Fire Museum. A minimum of forty-six firefighters and paramedics staff each shift on 18 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, two air rescue units, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

3. PUBLIC WORKS

The Department of Public Works is responsible for providing many of the essential services to City of Portland residents throughout the year. These services include the operation of the Riverside Recycling Facility (under a contract arrangement), and a comprehensive solid waste program, which includes trash collection, residential curbside recycling, a leaf collection program, as well as a heavy item / bulky collection pick-up program. Public Works also provides for the construction and maintenance of city streets and sidewalks, the sewer system, stormwater maintenance, and technical support / engineering services for Capital Improvements Projects. Other key services include the removal of snow and ice from city streets and sidewalks, maintenance of

the Portland Downtown District, maintenance and repair of all City vehicles and equipment, and traffic management, including maintenance of traffic signaling, street lights and traffic control and calming. Public Works also provides core public works services to four adjacent islands in Casco Bay.

4. HEALTH AND HUMAN SERVICES

The Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

Public Health is the state's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, Health Equity, the India Street Clinic, and Research and Evaluation.

Social Services provides both financial assistance and support services for low-income Portland residents. Programs operated include General Assistance, Homeless Shelters for individuals and families, Case Management, and Representative Payee Services.

The Barron Center is the state's second largest long-term care nursing facility. The Barron Center is a 219 bed skilled rehabilitation and nursing facility, including a 50 bed specialty unit for the care of dementia. Residents of the Barron Center are able to receive speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The Office of Elder Affairs provides the community with an Elder Advocate. Assistance is provided in the form of senior information and referral, adult day health services, and community collaboration. Elder Affairs also operates Martha's Cottage, which is the only

domestic violence shelter for seniors in the country.

The majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants, and miscellaneous reimbursements for direct services. In FY20, the City modified, and restored, the accounting method for grant funded programs utilized prior to FY19; FY20 grant activity, both revenues and expenditures, is funneled through the general fund. The largest General Fund funding source for long-term care services at the Barron Center is MaineCare (Medicaid), followed by private insurance and Medicare.

5. Parks, RECREATION AND FACILITIES

The Department of Parks, Recreation and Facilities oversees the Parks, Forestry and Cemetery divisions, recreational programs and activities, the marketing and event management venues, and the custodial services of the city's buildings.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Parks, Recreation and Facilities is responsible for the day to day management and care of the parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department reaches out to many citizens and visitors through over 100 individual parks and 9.2 miles of trails.

All of this encompasses a geographical area of over 1,200 acres. The Parks, Recreation, and Facilities Department also maintains a wide variety of City trees as well as providing new plantings, and also manages two active cemeteries (Evergreen and Forest City) and several inactive cemeteries.

Recreation offers a vast array of services and leisure activities including recreation programs, before and after school care, center for therapeutic recreation, pools, special events,

operations of the ice arena, golf course, and golf course restaurant, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 84.2% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services, serving the Brunswick, Falmouth, Freeport, Gorham, Portland, South Portland, Westbrook, and Yarmouth communities. In April of 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook as the third community assessment member. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. During early 2019, Metro will be working with the communities of Brunswick, Freeport and Yarmouth to move the Metro *BREEZ* project from its pilot phase to permanence; this also entails bringing these communities onto the Metro Board of Directors as full members who also share in covering their fair portion of the agency's fixed and overhead costs. The Board of Directors has the responsibility for budgeting and financing. The District's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the District, fares, assessments of member communities, non-member local funding, and other miscellaneous revenues.

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the annual assessment is \$2,787,772.

8. LONG TERM DEBT

Note: FY19 and FY20 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City budget. For fiscal year 2020, the gross debt budget is \$45,087,798, or 21.8% of the City's general fund budget; it is estimated that the Enterprise Funds and the School Department are to reimburse the general fund \$18,206,713 of this expense. The FY20 net cost of debt service to the City general fund is \$25,356,302.

9. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2019, the City's equalized State Valuation of \$9,687,850,000 was 20.7% of the County's total equalized State Valuation of \$46.9 billion, resulting in a FY20 assessment to the City of Portland of \$6,640,316.

City Council

The City of Portland operates under a charter which was last amended on November 2, 2010. The City Council is comprised of a Mayor, elected for a four year term, five district Council members and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact, reasonable by-laws, regulations and ordinances. The council adopts an annual budget, authorizes the issuance of debt and provides for an annual audit. The Mayor has the authority to veto the annual budget, however the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops.

The revenues received by this department are from Housing & Community Development (HCD) grant funds for a portion of the annual audit costs.

City Clerk

The Department of City Clerk has three major functions: Elections, Vital Records, and City Records Maintenance. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Deputy City Clerk is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. Three elections are planned for FY20: the November 2019 State General & Municipal ranked-choice voting (RCV) Mayoral Election, the proposed election; LD 245, "An Act to Re-Establish a Presidential Primary System in Maine" beginning March 2020 and every four years thereafter, and the June 2020 State Primary & School Budget Validation Election. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). The CVR is a statewide system designed to standardize and centralize voter registration. During FY20, the State will be providing (per precinct) new Election Machine tabulators; the City will be renting additional machines as warranted per election.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages at the counter, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services. As of FY19, a Marriage Ceremony Package is now available for couples who would like the option of a more formal / traditional style wedding ceremony; this package includes a one-hour rental of the State of Maine Room with full Notary Service vows performed by one of the City Clerk Staff members. FY20 introduces the implementation of online ordering for requesting certified vital records.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio / video recordings of several boards and committees.

The City Clerk's expenditure budget has increased \$86,199, or 16.1%. The FY20 increases include the Mayor ballot tabulation, citizen initiatives, record restoration / preservation, increased voting machine rentals, and office renovations.

Executive

The department is responsible for the executive management of the City of Portland. Responsibilities include preparation and administration of council agendas and orders; coordination and administration of City departments, services, and programs; developing and enforcing administrative policies; handling of citizen inquiries and complaints, public relations and communication functions; neighborhood, waterfront, and island liaison efforts; local and state government liaison efforts; emergency preparedness; and the preparation of the annual Capital Improvement Plan.

This department consists of the City Manager and support staff. Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary for the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

The FY20 expenditures decreased \$46,687 or 4.8%, and revenues decreased \$28,655 or 2.8%, primarily due to personnel reorganization changes.

Assessor

The Assessor's Office is responsible for the discovery and fair and equitable valuation of all real and personal property within the City. The office maintains ownership and mailing address records of all 24,000+ parcels, 4,200+ personal property accounts, tax exemptions, special assessments of specific properties, and tax maps. The office prepares and certifies the annual tax rolls and warrant to the City Treasurer in a timely manner while educating property owners on the appraisal process and their options to appeal.

Finance

The Department of Finance consists of Administration and Treasury. The Finance Director and the Deputy Finance Director oversee the efficient operations of these functions.

The FY20 department expenditures have increased \$112,629, or 6.1%, primarily due to wages. The department's estimated revenues also increased by \$708,527, or 12.1%. The FY20 revenue estimate increase includes the partial restore of the State's Revenue Share distribution pool and higher interest income reflective of recent interest rate increases.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for over 1,600 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

The FY20 Finance Administration expenditure increase of \$63,359, or 5.5%, is predominately due to wage increases. The revenue increase display of \$18,895, or 4.0%, is attributed to the Enterprise Fund chargebacks. The high FY19 revenue projection is a result of the sale of the 55 Portland and 52 Hanover properties; the Public Works City offices relocated to Canco Road in the fall of FY19.

Treasury

The Treasury division is responsible for the collection of all monies into the City. This includes the collection of real estate taxes, personal property taxes, delinquent sewer user fees, and vehicle excise taxes and registration fees, as well as issuance of license plates. Treasury also collects parking ticket revenues and miscellaneous receivables, processes boat and utility trailer registrations, and issues island vehicle and golf cart registrations and Metro bus passes.

Residents may visit the Treasury Office in City hall for these services. There are also many electronic options for residents:

- (a) Treasury offers online payments of real estate through the City of Portland website:
<https://www.portlandmaine.gov/1567/Pay-Your-Property-Taxes-On-Line>.
- (b) View / Print Tax Bills on-line at:
<http://www.portlandmaine.gov/1567/View-AndOr-Pay-Your-Property-Taxes-On-Line>
- (c) Online options are available for residents to re-register vehicles, trailers and boats through the State of Maine website: <https://www1.maine.gov/online/bmv/rapid-renewal/>.
- (d) Parking tickets can be paid in Room 20 (Parking Office) as well as online through the website:
www.portlandparkingtickets.com or <https://portlandme.rmcpay.com/>.
- (e) Portland Senior Tax Equity Program (P-STEP) Application:
<https://www.portlandmaine.gov/DocumentCenter/View/23533/Portland-Senior-Tax-Equity-Program-P-STEP-Application> or <http://www.portlandmaine.gov/145/Tax-Relief>

The FY20 Treasury general fund expenditures increased \$49,270, or 7.2%, attributed largely to an increase in payroll expenditures, including funds for the FY20 new P-STEP program. The FY20 non-tax revenue estimate increase is \$689,632, or 12.8%. The revenue estimate increase is primarily related to the partial restoration of the State Revenue Sharing formula and a rise in interest rates.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys, a risk manager, a litigation paralegal, and a paralegal / legal assistant.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability, and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees and Boards.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Fish Pier, Sewer, Stormwater, and Jetport funds. The department also receives revenue for various ordinance code violations, and settlements.

The FY20 expenditures increased \$31,935, or 4.5%, largely due to increased personnel costs. FY20 estimated revenues increased \$15,205, or 11.2%.

Human Resources

The Department of Human Resources provides many services to all City departments, including recruitment and hiring oversight, civil service program administration, labor relations, organizational development and education, employee health and benefits administration, and safety and risk management.

FY20 expenditures increased \$7,976, or 0.8%. The FY20 budget includes equipment maintenance and rental cost increases, and equipment for the City's training room. Also included in this budget is a reduction of the Employee Assistance Coordinator from full-time to half-time status and the transfer of fire physical fitness testing expenses to the Fire Department. The revenues collected by this department are received from the Sewer, Stormwater and Jetport funds for services provided by the Human Resources staff.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,631-metered spaces throughout the City, 856 of which have been converted to multi space meters that accept credit cards.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

FY20 expenses are up \$28,850, or 1.2%, primarily due to payroll increases, including 0.4 FTE hour increase of a Parking Control Officer. FY20 revenues have risen by \$545,100, or 5.7%, largely due to FY20 fee increases in parking meter rates, as well as the opening of the Ocean Gateway parking lot during the spring of 2019.

Parking Administration

Parking Administration includes the management of on-street parking, which includes the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

FY20 Expenditures increased \$27,026, or 1.9%. Expenditure changes include an increase in personnel expense and a decrease in supplies due to the FY19 expense of additional multi-space parking meters.

FY20 Parking Administration revenues have increased \$504,110, or 8.2%. Total parking meter revenue is expected to increase \$435,000, attributed to the FY20 meter rate increase; there continues to be a downward trend in parking ticket revenue as a result of the City's efforts to make parking meter payments more convenient via multi-space credit card enabled meters, and a mobile payment app. The Thames Street Lot has closed; however, the City has temporarily opened up daily parking at the Ocean Gateway Queuing Lane which is expected to generate \$263,610 in revenue.

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens.

Expenses for the Elm Street parking garage are down slightly, \$2,798, or 0.9%. Revenues also remain relatively flat, increasing \$1,840 or 0.3%.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Cross Arena and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Arena events. The garage also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens.

FY20 Expenses have slightly increased \$3,492, or 0.8%. FY20 revenues also increased slightly by \$14,150, or 0.8%.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens.

FY20 Temple Street Garage expenditures remain relatively flat with an increase of \$1,130, or 0.9%. Revenues increased \$25,000, or 2.3%, due to an increase in the monthly parking rate.

Economic Development

The Department of Economic Development is responsible for enhancing the economic growth of the City and is dedicated to fostering a vibrant and healthy economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city and waterfront, and economic and employment opportunities.

By leading a collaborative effort among agencies, both in advocacy and acting as a business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that economic development issues and opportunities are addressed in a timely, thorough, and proactive manner.

The Economic Development Department expenditures increased \$40,539, or 6.4%, largely attributed to an increase in payroll expense. FY20 staffing changes include the elimination of the Creative Portland contract employees, a new Outreach & Initiatives Coordinator, and the transfer of the Marketing & Communications Coordinator from Parks, Recreation & Facilities; the net FTE decrease is (0.1). The department's seven positions are offset 100% by revenue reimbursement; the FY20 revenue increase of \$28,799, or 5.1%, is mainly attributed to the increase in staff salary reimbursement from tax increment financing (TIF) funds.

Economic Development

The division of Economic Development is comprised of the Director and a support staff of six. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city, a vital waterfront, and employment opportunities. The Department also endeavors to keep the lines of communication open so that economic development issues are addressed in a timely, thorough, and proactive manner. This division also includes the Office of Economic Opportunity.

The salaries in this division are 100% funded through Tax Increment Financing (TIF), and include reimbursement from the Downtown, Waterfront and / or Bayside TIFs.

The FY20 expenditures have increased \$40,539, or 6.7%. FY20 budget changes include various personnel changes, including a new Outreach and Initiatives Coordinator, the transfer of the Marketing and Communications Coordinator from Parks, Recreation and Facilities Administration division, and the elimination of the Creative Portland Corporation (CPC) contract positions and corresponding revenue offset. FY20 revenues have increased by \$28,799, or 5.3%.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The Division specializes in providing specific programs which will assist in the recruitment and development of new and existing business and industry within the city.

The Portland Development Corporation budget is fully funded by the interest income from its business loan programs; the PDC relies on this income from its business loan program to cover its operating expenses. Expenses are offset 100% by program revenue.

Police Department

The Police Department is comprised of six divisions: Administration, Uniform Operations Group, Bureau of Investigative Services, Operations Support Services, Dispatch Services and Jetport Security.

The Police Department's mission focuses on three distinct areas: Service Excellence, Community Engagement, and Resource Maximization. Every decision, plan, and contact made places emphasis on these three areas. All members of the Portland Police Department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department's expense increase of \$896,927, or 5.3%, is primarily due to contractual increases in payroll expenses. The FY20 expenditures also include the budget restore of the Victim Witness Advocate from 0.3 to 1.0 FTE, reflective of the position's continuing live status, which is 94.1% funded by a Federal Grant.

Revenues are increasing \$38,130, or 1.3%, which predominately includes a mix of payroll and other expense reimbursements.

Police Administration

It is the responsibility of the Chief of Police to create policy and make resource management decisions for the Police Department's assets. The administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

The expenditure increase of \$66,948, or 5.5%, represents FY20 salary increases. FY20 revenues have increased by \$8,437, or 5.6 %, and is largely associated with administrative fee reimbursements.

Uniformed Operations Group

A Commander heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the repression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to utilize a workload analysis to assign a proportionate number of patrol officers throughout the City. It also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Community Policing Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Community Policing Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and their fellow officers to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to facilitate efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority.

The Uniformed Operations Group also contains a Traffic Unit responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

Expenditures in this division have increased \$553,870 or 5.5%, primarily due to contractual payroll increases as well as an increase in supplies. Revenues have decreased \$37,329, or 3.4% primarily due to the elimination in funding of the Substance Use Disorder Liaison previously funded by other sources of revenue.

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by the Assistant Chief and is comprised of both a criminal investigations division and a narcotics investigations division; these divisions are responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the Court Officer, the Criminal Process Services, and the Victim Advocacy program.

FY20 expenditures in this division have increased \$89,440, or 4.6%, primarily due to increases in payroll expenses. The FY20 budget includes the Police Victim Witness Advocate position restore to full-time status, which is reflective of actual staffing; this position is 94% grant funded. Revenues received also include funding from the Maine Drug Enforcement Agency (MDEA). FY20 revenues reflect an increase in salary reimbursements of \$52,666, or 24.8%.

Operations Support Services

The Operations Support Services Division is commanded by the Assistant Chief and is comprised of the following sections: computer crimes, forensics, property, training, and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

Expenditures in this division have increased \$79,355, or 9.6%, primarily due to increased police training costs as well as contractual salary increases. FY20 revenue estimates decreased slightly by \$625 or 1.2%.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services and is supervised by the Emergency Communications Director. Serving the Town of Cape Elizabeth, South Portland and the City of Portland, the PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate police, fire, and emergency medical services resources. The 2011 regional consolidation allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

FY20 expenditures in this division have increased \$97,988, or 4.3%, primarily due to increases in payroll expenses. FY20 revenues are anticipated to increase slightly by \$5,655, or 0.7%.

Jetport Security

The Sergeant assigned to the Jetport Security division serves as a direct liaison between the Police Department and the Jetport staff and Administration.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoints during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

FY20 expenditures and revenues in this division have increased \$9,326, or 1.6%, primarily due to increases in contractual payroll expenses. The cost for this division is entirely offset by revenues received by the Jetport.

Fire Department

The Fire Department consists of five divisions: Administration, Code Enforcement and Community Services, Field Operations, Operations Support Services and Jetport Air Rescue. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall expenditure increase is \$938,743 or 5.4%. The expenditure increase is mainly attributed to contractual payroll increases. Other expenditure increases include medical supplies, including two new heart monitors, the transfer of civil service exams and physical fitness assessment costs from the Human Resources department, and building maintenance and repair station improvements. The Air Rescue Station operational costs are fully reimbursed by the Jetport Enterprise Fund.

The revenue remains flat, with a FY20 increase of \$1,507.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

This division also administers the human resources activities for the department including hiring, worker compensation claims, benefits, wellness, risk management, and payroll. The division has instituted a Peer Support Team, using the Police Department model, to deliver support and services to members facing crisis; this endeavor has positively impacted leave associated with Critical Incident Stress cases.

The FY20 Fire Administration budget has increased by \$26,298, or 4.6%, largely due to salary increases. The FY20 revenues are down \$20,317, or 16.9%, attributed to revenues anticipated for the FY19 Portland Fire Department 250th Anniversary.

Code Enforcement & Community Services

The division of Code Enforcement and Community Services is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Additionally, the division reviews site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground & underground storage tanks and liquefied petroleum gas tanks.

The division administers the Fire Prevention Code, N.F.P.A. 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. This division also provides the management oversight of company level inspections of residential and commercial properties totaling over 5,000 a year.

Code Enforcement and Community Services also comprises the public information, education and community outreach initiatives, which includes the Portland High School Program, public education materials, and public information of current events affecting the citizens of Portland.

The Code Enforcement and Community Services division's budget increase of \$18,351, or 6.8%, is mainly attributed to salary increases. Revenues increased \$11,525, or 49.3%, and is attributed to an anticipated increase in inspection sticker revenue.

Field Operations

The Field Operations division is responsible for providing emergency services including fire suppression, emergency medical care and transport, hazardous materials response, technical rescue response and any possible public emergency. The division supports fire and life safety programs through routine field safety inspections.

The Field Operations division is responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting services. Responsibilities include ensuring compliance with state mandated requirements, including EMS and basic and advanced firefighting, and encompass overseeing the medical licenses of over 200 personnel. Field EMS Operations provides advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR, to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit provides in-service training for all fire department members as well.

Field Operations provides emergency services for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay, including emergency medical transportation for the island residents, as well as training for the islands' volunteer call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. Additionally, this division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. This division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations.

The FY20 Field Operations division overall expenditure increase of \$831,235, or 5.7%, is primarily related to payroll increases. This budget also includes additional medical equipment and supplies, as well as the transfer of promotional and fire fitness assessment expense from Human Resources.

The revenue decrease is \$6,300, or 0.2%, is a result of the decrease in confined space revenue.

Operation Support Services

The Operations Support Services division encompasses Hydrants, Building Maintenance and Fire Alarm. The hydrant system is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment. Building maintenance provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors. The fire alarm section maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Portland Regional Communication Center's (PRCC) core equipment.

The FY20 Operations Support Services expenditure increase of \$48,460, or 6.4%, is attributed an increase in building maintenance and hydrant costs.

This division's revenue is generated from the Fire Alarm Master Box Connections fees (City Code Chapter 10, Section 102c). The divisional revenue has increased slightly by \$2,200, or 2.4%.

Air Rescue Station

The Jetport Air Rescue Station division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. The Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The Air Rescue Station expenditure and revenue increase of \$14,399, or 1.4%, is mainly attributed to payroll increases offset by a FY20 reduction in training requests.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Department of Planning & Development

The Department of Planning and Urban Development consists of three divisions: Administration, Planning, and Housing & Community Development. In addition to the City funded planning programs, this budget includes Community Development Block Grant (CDBG) expenditures for staff, which is federally reimbursed.

The FY20 budget restores project positions in the general fund, reinstating the accounting method for fully funded grant program positions prior to FY19. In the Department of Planning & Development, five project positions are restored: two positions in Administration and the entire Housing & Community Development division staff consisting of three positions. The FY20 revenue also increased offsetting this total expenditure increase.

The department's budget general fund expenditure increase as displayed below is \$290,560. When incorporating the FY19 project salary costs of \$290,805 for comparative purposes, \$126,601 in Administration and \$164,204 in Housing & Community Development, the FY20 over FY19 expenditure decrease is \$245.

In addition to the FY20 project salary increases, other budget changes include increases in annual wages, as well as a decrease in the contractual services expense due to the FY19 City-Code Chapter 14 zoning re-write.

Planning & Development Administration

The Administration division oversees all operations of the Department of Planning and Urban Development. A sizeable portion of the salary expenditures is also included on the CDBG side of the budget, including Community Development staff.

FY20 expenditures as displayed below have increased \$179,175, or 47.0%, primarily due to increases in payroll expenditures. This increase is predominately attributed to the FY20 general fund restore of two grant positions, the accounting method practiced pre-FY19; the FY20 grant position general fund expenditures are offset by revenue.

The revenue in this division reflects salary reimbursement monies mostly from HCD funds, as well as TIF and HOME funds. The revenues have increased \$98,159, or 65.9%, due to the FY20 accounting change for grant positions; revenues also reflect a reduction in federal allocation monies.

Planning

The Planning division provides comprehensive and long range planning for the City. This division conducts development review for site plan, subdivision, historic preservation, DEP site location permits, and rezoning requests. Division services include the development and updating of the City's Comprehensive Plan (<http://www.portlandsplan.me>), neighborhood planning, implementation of plans, the City's public art program, multimodal transportation planning, historic preservation planning, and the management of other urban design initiatives.

FY20 Planning expenditures have decreased by \$77,784, or 5.5%. The division's expenditure reduction is primarily due to the FY19 funding for the zoning code rewrite (City Code Chapter 14). Planning revenues have increased by \$39,238, or 6.6%, and the division's FY20 net reduction is \$117,022, or 14.4%.

Housing & Community Development

Housing and Community Development is responsible for administering federal CDBG, HOME and ESG grants for the City. The division administers City-assisted housing rehabilitation loan and grant programs, as well as housing-related planning activities.

This portion of the Housing and Community Development budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, and Housing Development Fund (program income from the CDBG loan paybacks); any increase or decrease in the budget has no impact on the tax levy.

The FY20 division's increase of the expenditures and revenues reflects the FY20 accounting method change of grant funded positions back to the pre-FY19 accounting method in which both expenditures and revenues are funneled through the general fund.

Permitting & Inspections

The Permitting and Inspections Department consists of four divisions: Administration, Inspections, Housing Safety, and Business Licensing. The department is responsible for issuing building permits; enforcing the City's building, plumbing, electrical, housing, and land use codes; issuing business licenses and Certificates of Occupancy; and maintaining the rental housing registration program.

The department's expenditures have increased \$88,847 or 5.0%. This increase incorporates personnel staffing changes, including a department net increase of a +0.5 FTE, and monies for microfiche conversion.

The department's FY20 estimated revenue has increased by \$400,698, or 8.9%, largely due to an increase in anticipated building permit revenue and Housing Safety division activity.

Permitting & Inspections Administration

The Administration Division is responsible for overseeing all aspects of the Permitting and Inspections Department. This division consists of the Director of Permitting & Inspections and the Principal Administrative Officer, as well as the necessary tools to support the oversight of the department's operations.

The FY20 division's expenditure budget decrease of \$50,847, or 28.0%, is primarily due to the Director of Permitting & Inspections vacancy and the anticipated FY20 mid-year hire.

Inspections

The Inspections division issues permits for the construction of all types, and acts as the enforcement agency for building, housing, plumbing, electrical, mechanical, zoning, and land use rules and regulations.

The FY20 division's expenditure budget has increased \$95,726, or 9.8%, primarily due to the department's staffing reorganization and the department's reallocation of wages. The FY20 budget also includes increased funds for microfiche conversion. In addition, this division's budget reflects an increase of \$320,250 in revenue, which is attributed to the anticipated increase in building permit revenue. The division's overall net reduction is \$224,524 or 13.3%.

Housing Safety

The Housing Safety division administers the rental housing registration and inspection program for residential rental properties in the City of Portland, and is responsible for enforcing housing and life safety codes.

The FY19 Short Term Rental Registration program contributed approximately \$176,000 to the Housing Trust Fund; the Short Term Rental program was implemented in FY18.

This division's FY20 expenditure budget has increased \$60,620, or 17.5%. This increase is predominantly due to the reallocation of wages across divisions and annual salary increases. This division's revenue budget projection increased \$83,467, or 15.4%, and reflects income related to the Long and Short Term Rental program.

Business Licensing

The Business Licensing division processes over 4,200 licenses annually as required by the City Code, including the oversight of the City's taxi licensing. The Health Inspection program is also included within this division, which encompasses food service establishment inspections, and Certified Food Protection Manager (CFPM) exam administration and enforcement, as well as Fats, Oils, and Grease (FOG) maintenance inspections.

The FY20 division's expenditure budget has decreased \$16,652, or 6.6%, due to the elimination of background check requirements and other minor decreases in supplies and wages. The division's revenue budget has decreased \$3,019 or 0.2%, predominantly due to the FY20 anticipated reduction in the FOG Sewer reimbursement.

Information Technologies

The Information Technology Department (IT) is divided into four areas of expertise: Applications, Technical and Customers Services, Operations, and Geographic Information Systems (GIS).

- The Applications support team develops software for specialized needs, and supports the software purchased by the City. The City purchased new public sector integrated software and technology service: Tyler Energov Community Development and Infrastructure Software went live in late FY18 and the first financial applications were implemented during FY19.

- The Technical and Customer Services team is responsible for the internal and external customer service for the City of Portland. The Technical Services team manages data and voice networks, including the Help Desk, which supports the City's workforce of more than 1,300 technology users. The new phone system project for Police and Fire was completed in FY19. The Customer Services team manages customer support using a social media application called FixIt! Portland; approximately 5,000 customer service requests from Portland residents and visitors are processed annually.

- The Operations team monitors and maintains the AS400 systems for both Public Administration and Public Safety, installing quarterly and semi-annual updates for all AS400 applications. Additionally, this team supervises the backups for all City owned computer servers and administers the department's financial functions.

- The Geographic Information Systems (GIS) section maintains and updates the computerized mapping systems used by Public Administration, Public Safety and the City's internal departments. GIS maintains all of the geospatial web and mobile applications, including the geographic database where more than 200 geographic layers exist. IT is also responsible for maintaining the technology infrastructure that supports a combined Public Safety Answering Points (PSAP) for Portland, South Portland and Cape Elizabeth.

The department's expenditure budget has increased by \$144,560, or 4.1%. The major increase is a result of the continued migration to new integrated software and upgrades of other critical systems. Other budget changes include annual payroll increases, the department reduction of 1.3 FTEs, including the elimination of the FY19 Director of Information Technology turnover transition monies and the transfer of the Call Center Specialist to the Executive department, and FY19 one-time capital purchases. The Revenues received represent the reimbursement of costs and services provided to the Enterprise Funds and the Portland Regional Communications Center (PSAP).

Public Works

The Director of Public Works oversees the operations of ten (10) divisions within the General Fund, as well as the Street Opening, Sewer and Stormwater funds. The Director along with the Deputy Director of Public Works, Division Managers and administrative support staff, provide day to day supervision for these functions. The department is responsible for basic municipal services, public infrastructure management, citywide fleet management, the development and implementation of capital improvement plans, and the wastewater - stormwater utilities. Department staff supports several city committees including the Sustainability and Transportation Committee.

The Public Works General Fund expenditure budget increased by \$664,791 or 4.8%. Payroll accounts for the biggest increase in this budget at \$494,329, which includes a department increase of a +0.5 FTE. The FY20 budget also includes an increase in ecomaine tipping fees, capital outlay software needs and vehicle repair, partially offset by the projected decrease in vehicle fuel costs.

The FY20 General Fund revenue estimate increased \$66,687 or 1.3%.

Public Works Administration

The Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of street opening permits and street-sidewalk occupancy permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

The FY20 Public Works Administration expenditure budget decreased by \$2,466, or 0.3%, primarily due to the FY20 funding allocation share of the Safety Training Officer position with Parks, Recreation & Facilities at the new Canco Road location. Administration revenues increased \$49,572, or 22.1%, largely due to the increased Enterprise Fund reimbursement including Canco Road Rent and salary reimbursement income.

Districting

The Districting division (Streets & Sidewalks) is a national award winning multi-tasking Public Works maintenance program comprised of five working crews. The division is responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, and grounds maintenance, including winter sidewalk snow removal operations.

Districting continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. This division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. Furthermore, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

The Districting budget expenditures increased \$81,917 or 4.9%. This increase is primarily due to an increase in personnel costs. The division's School revenue chargebacks decreased \$1,300.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, significantly reducing the recycling fleet. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces, as well as over 60 solar smart trash compactor units.

City property owners may dispose up to ten qualified bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card.

The Bulky Item Pick-up program was implemented in May of 2012. Residents can apply online and request stickers to attach to their approved items for disposal. Qualified small items, items less than 30 pounds that will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten qualified small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for qualified items over 30 pounds.

FY20 Solid Waste expenditures increased \$372,384, or 21.0%. This increase is primarily due to the new ecomaine recycling tipping fee, wages and temporary services, and an expected capital outlay for route analysis software.

Revenues in this division increased \$94,988, or 4.6%, primarily due to the School's reimbursement of the ecomaine recycling tipping fee. The majority of this division's revenue is generated from trash bag receipts.

Communications

The Communications section encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This section is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and EMS) of emergency situations occurring on the streets of Portland as reported by any Public Works employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

In FY20, the Communications division's gross expenses are consolidated within the general fund, with a revenue offset from the Sewer Fund. Expenditures have increased \$69,217, largely due to the Senior Operations Dispatcher position transfer from the Sewer Fund; likewise revenues have also increased, by \$66,343.

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Works workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public. Winter operations actual expenses remain dependent on snowfall and severity of winter conditions.

Winter expenses remain flat for FY20, with a \$120 reduction. Budget changes include a salt price decrease and anticipated increases in winter operations hired equipment. The majority of this division's revenue represents the internal chargebacks to the School Department for the City's snow removal operations of school parking lots.

Island Services

Island Services is responsible for all Public Works functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. Island Services also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

FY20 expenditures increased \$40,794, or 6.3%. In addition to general salary increases, the transportation line to and from the islands for trash removal and equipment reflects an increase. The revenue in this division for scrap metal sales is anticipated to decrease \$1,050 or 16.7%.

Transportation Operations

The Transportation budget within the Engineering division supports civil engineering and field operations personnel, materials, equipment, programs, systems maintenance, and utility costs. Approximately \$400,000 in annual electric utility costs for street lighting and traffic & pedestrian signals are borne by this budget, with a small revenue offset for lighting associated with the School Department. The City's annual pavement marking program is also included in this budget, as well as all equipment, material, and labor associated with regulatory and advisory Traffic & Parking signage throughout the City. Along with the Engineering division, the Transportation team provides support to the Planning Department as well, supporting an increased volume of Locally Administered Projects funded by the Federal Highway Program thru PACTS and Maine DOT.

The Transportation expenditure budget increased \$23,324, or 1.0%. The largest increases are in personnel costs and in minor capital for new advisory signs; offsetting decreases include reductions in contractual services and computer maintenance & repair expense.

Revenues in this division have increased \$66,026, or 7.2%. The revenue increase is predominately due to the FY20 increase of the street occupancy fee.

Engineering

The Engineering division is comprised of a team of professional and technical staff with Civil Engineering, GIS, and Construction Engineering expertise. The Engineering team supports the Water Resources division and numerous City Departments with several vital resources, including City Archives, survey, research, street numbering, GIS data, Right-Of-Way permitting, and construction activity inspection and enforcement. A key role of this division includes supporting the Planning Division with all land development proposal review and activities.

The FY20 expenditures have increased \$50,289, or 4.1%. The FY20 changes include salary increases, partially offset by a supply decrease related to the FY19 Canco Road office relocation setup. Revenues have decreased \$117,719, or 11.7%, largely due to the projected salary reimbursement reductions from the Street Openings and Sewer funds.

Fleet Services

The Fleet Services division purchases, repairs and rebuilds City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, City Administration, Public Works, Parks Recreation and Facilities, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee, and maintains the vehicle replacement program citywide.

Fleet Services is also responsible for housing the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments with two certified fabricators.

In July of FY20, the fleet operation will begin the relocation of their facility to Canco Road.

The FY20 budget calls for an expenditure decrease of \$11,782, or 0.3%. The most notable budget changes include the projected decrease in vehicle fuel costs, and projected increases in vehicle maintenance and repair, salaries, and capital outlay, including the FY20 purchase of new fleet management software. The revenue budget has decreased \$134,437, or 37.4%; this reduction reflects city re-fueling and fleet maintenance service changes previously provided to the School Department, as well as outside entities.

Parks, Recreation & Facilities

The FY20 Parks, Recreation and Facilities Department consists of three major sections, Parks, Recreation, and Public Assemblies. The Parks section oversees parks, playgrounds, courts, fountains, forestry and horticulture, athletic fields, and cemeteries. Recreation manages four community centers, senior adult programming, pools, therapeutic recreation, Riverside Golf Course and Restaurant, and Troubh Ice Arena. The Public Assemblies section continues to be responsible for the scheduling and management of Merrill Auditorium, Hadlock Stadium, Portland Exposition Building, Ocean Gateway, and the Maine State Pier. In addition, the Public Assemblies division also manages the City's concessions and custodial services.

The FY20 department's expenditures have increased \$323,136, or 2.9%, predominately due to increased personnel costs. Other minor department changes includes an increase in Cemetery building maintenance & ground repairs, the new equipment lease of ADA golf carts, and a decrease in FY20 department capital outlay requests. Revenues have increased \$484,600, or 6.6%, primarily due to estimated increases in Merrill box office rental and Recreation program and division income.

Parks, Recreation & Facilities Administration

The Parks, Recreation and Facilities Administrative division serves a large and extremely diverse department. The Administration division oversees the numerous activities and challenges that transpire within the department. Functions include providing general administrative support, involving much of the centralized accounting and payroll duties.

The FY20 budget increase is \$38,318, or 6.4%, primarily due to increased personnel costs. Staffing changes include a net reduction of 0.3 FTEs: formerly a full-time position in Public Works, the Safety / Training Officer becomes a shared position with Parks, Recreation and Facilities at the new Canco Road location and the Marketing & Communications Coordinator position transfers to the Economic Development department.

Parks

The Parks division manages a park system that includes over sixty parks, seven-and-a-half miles of multi-use trails, ten community gardens, two stadiums, sixteen cemeteries, and dozens of athletic fields and courts all spread across 721 acres of land. The Parks division also stewards an urban forest of 20,000 inventoried trees, and maintains flowerbeds, meadows, and natural open spaces throughout the city. Our Parks Rangers strive to make our parks safe for all, and our hard working maintenance crews keep our parks beautiful in the summer and plow our city sidewalks and trails in the winter.

The Parks Division aims to provide outdoor recreational opportunities for everyone during all four seasons of the year from the Portland Skatepark, to four splash pads and wading pools, two dog parks, four maintained ice skating ponds, a sledding hill, and miles of groomed cross-county ski tracks.

The City has started a new series called "A Walk in the Park". For more details, please visit the following weblink: <http://me-portland3.civicplus.com/1990/14550/Park-Tours-and-Talks>.

The Parks division expenditures increased \$128,218, or 12.8%. The FY20 budget includes the transfer of the Parks Ranger Program from Cemeteries. Other budget changes includes increases in annual salaries and in community gardening funding, and decreases in capital outlay and minor capital related to FY19 one-time purchases. Revenues increased \$23,765 or 35.5%, and incorporates select user fee rate increases.

Forestry

The Forestry / Horticulture division is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance trimming is done as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs blocking streets.

The division actively seeks grant money from the State to increase the number of city trees planted each year. Forestry also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees across the City. The division helps to maintain the City's status as a "Tree City USA", an award Portland has received since 1978.

Furthermore, our Horticultural group creates and maintains beautiful display gardens including our Deering Oaks rose garden and downtown planters.

FY20 Forestry expenditures increased \$23,997, or 3.5%, largely due to wage increases. Revenues increased \$5,130.

Athletic Facilities

The department's Parks section oversees the Athletic Facilities division. Athletic Facilities is responsible for the care of all City-owned athletic facilities in Portland. This includes fourteen baseball / softball fields, two artificial surface football / soccer stadiums, fifteen multi-purpose fields, thirty playgrounds, and a variety of tennis, basketball and volleyball courts, as well as ornamental water fountains.

The FY20 budget has increased by \$6,399, or 0.8%. This budget includes one new position to assist in applying the city's new pesticide ordinance, as well as general payroll increases. Other changes include a reduction in capital outlay related to FY19 equipment purchases. Revenue estimates for Athletic Field increased \$39,292, or 12.7%.

Cemeteries

The Cemetery division is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. The Cemetery crew also maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Overall, the Cemetery Operations is responsible for the care and maintenance of sixteen cemeteries.

In addition to the care of grounds, the division is responsible for interments and disinterments, lot sales and other funeral-related services. Wilde Memorial Chapel, located on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

In addition to the conventional use as cemeteries, cemeteries have also traditionally been used as a public park. Evergreen Cemetery, for example, is comprised of an extensive network of country lanes, paved roads, wooded trails, and greenscape which invite exploration. As the largest open space in Portland, the cemetery attracts a rich variety of avian life; the Maine Audubon utilizes Evergreen Cemetery and its undeveloped woods for annual bird watching excursions.

The Cemeteries budget has decreased \$46,824, or 5.4%. FY20 expenditure changes include the transfer of the Parks Ranger Program to Parks, and funds for cemetery gravel road repair and building improvements. Revenues are anticipated to increase \$15,718, or 2.9%.

Recreation

The Recreation Division provides a wide range of programming / leagues and clinics for all age groups in the City and operates four community centers: Riverton, Reiche, East End, and Peaks Island. The Recreation division offers before-and-after school programming for more than 750 children at all elementary schools (no before-care at Peaks) known as The Bell Program, as well as summer camp programs for children currently in K-7th grade. In addition, the City offers an extensive program for senior adults.

The City currently provides before-and-after school programming for one out of every four children in the elementary schools. Almost 700 children learned to play basketball in our leagues this past season and over 400 children attended our summer camp programs. The Recreation division maintains a list of over 400 senior adults in our age sixty-five plus program. The City plans to introduce a new Park-n-Play program at various City parks this summer as a drop-in program for children, as well as a Hacker's Camp for kids to learn how to write computer code.

FY20 Recreation expenditures have increased \$69,572, or 3.8%, primarily due to personnel costs, as well as administrative contractual expense. The FY20 revenues increased \$114,959, or 6.8%.

Aquatics

The Aquatics division operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. The division offers swimming lessons and aquatic programming for all ages including adult water aerobics and a Master's level program. In any given week, the Aquatics division instructs over 700 people in city pools, from infants to adults. Stand-up paddling continues to be a big success with classes filling to capacity each session.

The FY20 budget has decreased \$4,597, or 0.7%. Budget changes include reorganization of program staffing, and cost increases in supply and utility lines. Revenues are estimated to increase \$25,948, or 6.5%.

Riverside Golf Course

The City-owned Riverside Golf Course offers 30 holes: the 18-hole North Course, the 9-hole South course and the 3-hole practice course. Amenities include lessons and clinics, which are managed by the Recreation Division. Riverside is also home to several golf tournament events each year. The 3-hole course is utilized by the golf pro to provide lessons to new golfers and golfers sharpening their short game skills.

Riverside is also a full service winter venue: sledding hills, two ice skating ponds, and many miles of cross-country ski trails are provided at no cost to participants.

FY20 expenditures increased \$49,593, or 4.7%, and comprises of increased personnel costs and monies for an ADA golf cart lease. Revenues are anticipated to increase \$45,141, or 3.7%.

Golf Course Restaurant

The Riverside Grill restaurant, located at the Riverside Golf Course, opened its doors in May 2014. The restaurant is overseen in-house by the Golf Course staff, including an experienced chef and a Front of House Manager. The restaurant is open year-round welcoming golfers and the general public alike. Riverside Grill serves both lunch and dinner, as well as a brunch on Saturdays and Sundays. The restaurant also provides a golfers' beverage cart option. Additionally the restaurant hosts weekly daily specials. More information about the menu and the weekly events may be found on our website at <http://www.theriversidegrill.com/>.

FY20 budgeted expenditures increased \$7,176, or 1.3%, and anticipated revenues increased \$4,000, or 0.7%.

Ice Arena

The Ice Arena is celebrating its 34th year of operation, and is named in honor of the late William B. Trough. William B. Trough was instrumental in creating the rink when he served on the City Council during the 1970s-1980's. The City-owned rink, located next to the Portland Expo and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice-skating and figure skating lessons are offered as well. The City also operates the Ice Arena concession stand. The annual Ice Show is held each year the last weekend of April and is open to the general public.

The FY20 expenditure budget is increasing \$23,419, or 4.1%, due to payroll costs, and the anticipated revenue budget is increasing \$36,185, or 6.0%.

Merrill Auditorium

This division includes all the expenses for the venue operations at Merrill Auditorium, a 1,900 seat performing arts venue attached to City Hall. Prime Tenants include Portland Ovations, the Portland Symphony Orchestra, and Friends of the Kotschmar Organ. The theater hosts a variety of performances each year including symphonies, Broadway performances, concerts, comedians, graduations and holiday programming. Merrill Auditorium hosts approximately 125 annual events with over 148,000 patrons in attendance.

Merrill FY20 expenditures have increased \$6,491, or 3.7%. Revenues are anticipated to increase \$185,600, or 29.0%, related primarily to the surcharge on box office sales.

Public Buildings & Waterfront

The Public Buildings & Waterfront Department oversees the City's public buildings including the many smaller facilities, island Infrastructure, trail lighting, School HVAC, and the maintenance and long term planning for the Fire Department. The Public Buildings & Waterfront Department also manages and maintains the Portland waterfront piers and facilities, as well as the cruise ship operations. This department is comprised of a skilled staff and licensed trades workers whose tasks consists of everyday maintenance, long term facility planning, and general contracting.

FY20 Department expenditures have increased \$60,537 or 1.2%. This budget incorporates Evergreen ADA building improvements as well as Public Safety HVAC enhancements. Other expense changes include additional funds for Waterfront security and capital equipment, offset by additional anticipated division revenue income, an increase in contractual payroll expense, and reductions in utility costs. The Waterfront cruise ship operation continues to thrive and is responsible for the department's overall projected revenue increase of \$91,370 or 2.6%.

Waterfront Maintenance

Waterfront Maintenance is responsible for the repair, maintenance and operations of City-owned waterfront property, which includes the Portland Ocean Terminal, Maine State Pier and Ocean Gateway.

Division responsibilities include fender system replacement, pier deck repairs, and exterior wall pile cap and stringer repairs. The division also maintains over thirty floats between the mainland and islands. Pier maintenance work continues at Compass Park in the upcoming year.

FY20 expenditures are decreasing by \$19,341, or 1.4%. Budget changes include the purchase of an electric passenger golf cart, an increase in cruise ship security services, and a decrease in various expense lines, including allocation reductions in new maintenance and repair projects. Cruise passengers remain on an upward trajectory; the FY20 division revenue is increasing \$94,631, or 3.7%.

Health & Human Services Department

The City's Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This assignment often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

The HHS Administration division consists of four full-time positions including the Director of Health and Human Services, a Financial Manager, and administrative support staff.

FY20 HHS Administration expenditures have decreased \$82,496, or 19.7%, due to staffing changes; the budget includes a division transfer of the Director of Elder Affairs to the Office of Elder Affairs.

Public Health

Public Health, a division of the Health and Human Services (HHS) Department, is the State's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, Health Equity, India Street Health Center, and Research and Evaluation. Public Health's specific activities include, but are not limited to, health policy development, public health research, data surveillance, health education, and analysis and communication, providing direct services to the underserved.

In FY20, the division's 14.6 project funded positions are restored in the general fund, reinstating the accounting method for fully funded grant program positions prior to FY19. The FY20 related grant expenditures and revenues have increased in proportionate amounts; in FY19, grant funded positions were charged directly to the grant funds. In addition, Public Health increased 1.2 FTEs primarily as a result of internal staffing changes.

Public Health's general fund increases in expenditures and revenues as displayed below is \$1,058,381 and \$978,342 respectively, resulting in a FY20 net increase of \$80,039, or 9.1%.

Public Health Administration

The Public Health Administration division provides support services to all programs within the Public Health division, as well as administrative support to HHS. These services include grant management, policy and procedures creation and management, ensuring HIPPA and confidentiality compliance, Public Health Accreditation Board requirement maintenance, payroll and reimbursement processing, supply ordering, facilities support, and liaises with the City's Finance, Legal and Information Technology departments.

The Administration revenue estimate reflects the administrative fee received for the management and oversight of the various grants administered by Public Health.

The FY20 expenditure increase is \$68,922, or 31.1%. This increase is primarily due to program staffing changes, as well as general salary increases. Grant revenue increased \$92,200, or 107.9%.

Family Health

Family Health is comprised of the Maternal & Child Health program. This program offers a variety of services to Portland residents including free home visits for residents who are pregnant or have a child up to age 5. Education and services include developmental assessments, healthy eating, and child safety assessments, including lead hazards. Additional services include the Maternal & Child Health Program's playgroup to serve children ages 0-5 years.

The FY20 Family Health budget shows a comparable increase in both expenditures and revenues. Project staff wages, directly charged to grant funds in FY19, are restored to the general fund in FY20 as a pass-through; grant revenues offset grant expenditures.

The FY20 expenditures increased \$84,030 and FY20 revenues increased \$92,274.

Chronic Disease Prevention

The City of Portland's Chronic Disease Prevention Program is dedicated to serving the residents of Portland by creating and advocating for health policies at the local and district level; the City utilizes evidence-based practices and collaborative partnerships. The health issues addressed include tobacco prevention, physical activity, healthy eating, lead poisoning prevention, and substance abuse prevention.

The FY20 Chronic Disease Prevention expenditures and corresponding revenues both display an increase. Project staff wages, directly charged to grant funds in FY19, are restored to the general fund in FY20 as a pass-through; grant revenues offset grant expenditures.

The FY20 expenditures increased \$584,136 and FY20 revenues increased \$573,780. The Chronic Disease Prevention program staffing changes include a net of one new full-time project position.

Health Equity & Research

The Health Equity & Research program supports the Public Health Division with services to minority populations. Specific activities include health education to racial and ethnic minority groups in order to decrease health disparities by improving access to needed health care. The objectives include identifying community health needs, implementing interventions to address, ensuring that available community assets and resources are used responsibly, and collaborating with other health and social service providers to ensure the provision of culturally and linguistically appropriate services.

The FY20 Health Equity & Research program expenditures and corresponding revenues both reflect an increase. Project staff wages, directly charged to grant funds in FY19, are restored to the general fund in FY20 as a pass-through; grant revenues offset grant expenditures. In addition, the FY20 budget changes include one new half-time position.

The FY20 expenditures increased \$56,365 and FY20 revenues increased \$47,468.

India Street Clinic

The India Street Clinic, located at 103 India Street, houses the Portland Needle Exchange, the HIV/STD and Hepatitis C Prevention Program, and the Portland Community Free Clinic. Individuals who are enrolled in the needle exchange may access clean syringes, education, counseling, testing, overdose prevention and linkage to treatment. The STD clinic offers HIV, STD, and hepatitis C testing and treatment services for sexually transmissible diseases on a walk-in basis. The Portland Community Free Clinic has over one-hundred volunteer medical providers and support staff, and is a partnership between the City and The Friends of the Free Clinic, a 501(c)(3) whose mission is to raise funding for the clinic. The Portland Community Free Clinic provides medical care to the uninsured that earn below 250% of the Federal Poverty Level, are above the age of eighteen, live in Cumberland County, and are stably housed. India Street also houses a Public Health Laboratory.

The FY20 India Street Clinic expenditures and corresponding revenues both reflect an increase. Project staff wages, directly charged to grant funds in FY19, are restored to the general fund in FY20 as a pass-through; grant revenues offset grant expenditures. FY20 budget changes include a reallocation of salaries from other divisions.

The FY20 expenditures increased \$263,208 and FY20 revenues increased \$172,620.

Research & Evaluation

The Research and Evaluation Program serves several important functions within the Public Health Division, including research, public health surveillance, analysis and interpretation of public health data, and program evaluation. The program conducts public health research that focuses on understanding determinants of health. This program also conducts program evaluation, a systematic and objective assessment of the relevance, efficiency, effectiveness, sustainability, and impact of a program or intervention. Public Health surveillance, which is the systematic collection, analysis, and interpretation of health data, is another core program function. Data used to conduct public health surveillance include citywide survey data collected by the Research and Evaluation Program, as well as data obtained from local and national sources. This division serves as a major source for Public Health data repository.

The FY20 Research & Evaluation expenditure increase is \$1,720, or 2.3%.

Social Services

The Social Services Division provides both financial assistance and support services for low-income Portland residents. Its purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Programs operated include General Assistance (GA), Homeless Shelters for individuals and families, Case Management and Representative Payee Services.

The Social Services division consists of five programs: Administration, General Assistance, the Portland Community Support Fund, Oxford Street Shelter and the Family Shelter.

In FY20, the division's 26.6 project funded positions and expenses are restored in the general fund, reinstating the accounting method for grant programs prior to FY19. As a result, both the FY20 general fund expenditures and revenues have increased; in FY19, grant funded expense items were charged directly to the grant funds. In addition, due to the FY19 influx of those seeking emergency shelter services, the Social Services division increased 5.7 FTEs; the FY19 use of per diem workers have been replaced as full-time positions in FY20.

Social Services general fund increases in expenditures and revenues as displayed below is \$3,254,509 and \$2,788,631 respectively, resulting in a FY20 net increase of \$465,878, or 10.0%.

Social Services General Assistance

State law requires municipalities to administer General Assistance (GA), which provides for immediate aid to individuals who meet eligibility requirements and are unable to provide basic necessities essential to maintaining themselves or their families. Maine law states that municipalities have the responsibility to provide financial assistance to all eligible residents of their municipality, as well as non-residents who intend to reside in the municipality and have no other residence. GA provides basic needs in the areas of shelter, housing costs, utilities, food, medication, disposable diapers and hygiene items. All assistance is issued in vouchers and no cash is provided. The GA program processes an average of 1,130 applications per month and provides assistance to 3,022 individuals per year (unduplicated number).

In FY20, the GA program has continued the focus on self-sufficiency through the HIRE (Helping Individuals Regain Employment) program. The division has increased the City's partnership with local employers, education professionals, and the local Career Center in order to aid our GA recipients in finding long-term employment.

The FY20 expenditures for General Assistance increased by \$288,739, or 4.3%. This increase is predominantly due to the increased expenditures for client housing and food assistance. The FY20 budget also includes staffing changes, as well as annual wage increases. Corresponding revenues also increased, by \$192,112 or 4.7%.

Oxford Street Shelter

The Social Services Division operates the Oxford Street Shelter and Community Overflow Shelter for adults. The Oxford Street Shelter is a low barrier facility that provides access to safe overnight shelter for homeless adults (18+) 365 days a year. During FY18, the Oxford Street shelter expanded its hours of operation to 24 hours. The Oxford Street Shelter has a capacity of 154 beds. In addition, this division also operates an off-site Community Overflow Shelter at Preble Street, which has a capacity of seventy-five (75) additional beds

The shelter promotes a housing culture by offering an array of services such as housing triage, housing orientation, current apartment lists and assistance with travel to apartment showings.

The FY20 Oxford Street Shelter budget reflects an increase in both expenditures and revenues as project activity is restored to and funneled through the general fund in FY20, rather than a direct charge to grant funds.

The FY20 Oxford Street general fund expenditures have increased \$1,926,289 and the corresponding revenues have increased \$1,683,414. The City continues to experience a tremendous influx of new individuals, or intakes, seeking emergency shelter services.

Family Shelter

The Social Services Division operates the City of Portland's Family Shelter. The administrative and support services staff are located on the first floor of 54 Chestnut Street.

The Family Shelter provides temporary housing to families with children under the age of 18. Shelter apartments are located at 54-58 Chestnut Street, including one unit to accommodate individuals with disabilities. Combined, the Family Shelter has a total capacity of 151 beds in an apartment style living environment. Apartments are shared by families and are furnished. Residents have access to telephones, cleaning supplies, transportation, and other basic needs. Each family member is assigned a case manager who works with families to develop self-sufficiency work plans in order to obtain permanent housing.

The FY20 Family Shelter budget reflects an increase in both expenditures and revenues as project activity is restored in the FY20 general fund budget as a pass-through. The FY20 general fund expenditures are increasing \$1,027,292, and corresponding revenues are increasing \$934,105. In addition to the restore of 9.1 project FTEs to the FY20 general fund, this program incorporates a shift from the use of per diem workers to permanent positions.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of nine programs.

The Barron Center provides comprehensive health care services to individuals in need, recognizing the unique value of each person with the purpose of preserving and enhancing the individual's quality of life. The Barron Center is a 219 bed skilled rehabilitation and nursing facility, including a 50-bed specialty unit for the care of dementia. The Center provides speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The staff includes 246.8 full-time equivalent positions made up of over 300 individuals at any time. FY20 personnel changes includes 1.8 new position requests, as well as the transfer of the Director of Elder Affairs from HHS Administration to the Office of Elder Affairs.

The FY20 budget, as with FY19, is based upon an estimated 80.0% patient occupancy rate. FY20 expenditures have increased \$317,346 or 2.0%, while estimated revenues have increased \$882,769 or 4.7%; the general fund net decrease is \$565,423, or 18.9%.

Barron Center Administration

The Barron Center Administration division is responsible for the care and management of the facility's capacity for 219 residents and 300+ full and part-time employees. The Business Office is responsible for the financial operations, which includes budgeting, payroll, accounts payable, and accounts receivable (including coordinating with the Barron Center's billing vendor).

The FY20 Barron Center Administration expenditures have increased by \$9,240, or 0.5%. The FY20 budget incorporates one new Principal Administrative Officer to oversee the human resources functions of the division's dynamic staffing needs; this budget also includes a line reduction in lab and medical therapy services.

Office of Elder Affairs

Through the Office of Elder Affairs, the City provides the community with an Elder Advocate, who is available to work with any Portland senior who needs help. Assistance is provided in the form of senior information and referrals, adult day health services and community collaboration. The Adult Day Services program offers supportive, daytime care that enables individuals living alone or with family to remain at home. The City manages a specialized program for clients with Alzheimer's disease or related dementias, and provides much-needed respite for caregivers.

The Office of Elder Affairs also collaborates with the Elder Abuse Institute of Maine to provide transitional housing and support services for elderly victims of abuse through the Martha's Cottage Project.

The FY20 expenditure budget for the Office of Elder Affairs is increasing by \$130,755, or 51.7%; this increase is largely due to a department staffing reorganization. The FY20 personnel changes include the transfer of the Director of Elder Affairs position from HHS Administration, as well as the addition of a new 0.8 CNA FTE. Program revenue is increasing \$55,196, or 22.0%.

Therapeutic Recreation

Therapeutic Recreation provides a broad variety of individual and group recreational activities for all residents, and oversees the 150 member volunteer program.

The FY20 budget for Therapeutic Recreation increased by \$14,462, or 5.2%. This increase includes general annual wage increases and purchase replacement of chairs and tables.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's 18.2 positions provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The FY20 Nursing Administration division's budgetary increase of \$63,634, or 4.1%, is mainly attributed to general wage increases and a whirlpool tub capital outlay replacement.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit, located on the main floor of the facility, is a 25-bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36-bed unit located on the second floor. The majority of these patients have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36-bed unit located on the second floor. The dementia residents (continuing care dementia) on this unit are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36-bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50-bed unit, managed as five 10-bed "neighborhoods", which provides Alzheimer related services. BC II residents are highly mobile and require unique staffing considerations.

The FY20 budget for Nursing Direct Care budget, consisting only of wages, has an increase of \$45,773, or 0.7%. This budget includes general annual wage increases, and a reduction in overtime expense.

Nutrition & Supply

The Nutrition and Supply division consists of Resident Nutrition, Cafeteria / Catering, and Central Medical Supply. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, visitors, and operates The Clock Tower Cafe at City Hall. Catering services are provided for City functions, receptions, and celebrations. Central Medical Supply purchases, receives, stores, and distributes routine medical supplies, over-the-counter drugs, and other supplies for the various divisions within the Barron Center.

The FY20 budget for Nutrition and Supply decreased \$28,976, or 1.0%, largely due to decreases in the medical supply and overtime lines.

Environmental Services

The Barron Center's Environmental Services division is composed of six employees who are responsible for the maintenance of the twelve-acre Brighton Avenue facility. The maintenance division keeps the building in repair and working order through completing projects in-house or arranging for outside vendors. Maintenance is also responsible for snow removal, landscaping, and conducting facility fire drills.

The FY20 Environmental Services budget increased \$24,654, or 2.3%. Budget changes include an increase in payroll costs and in general building repairs, and a reduction in utility costs.

Laundry Services

The Laundry division provides a clean and adequate supply of laundry to the residents. Personal laundry services are provided to nearly all of the residents. Laundry services are also provided to the City's Oxford Street Shelter.

The FY20 Laundry Services budget increased by \$14,375, or 2.7%, primarily due to increased personnel costs. The FY20 budget includes laundry service to the Family Shelter; costs of these services are fully reimbursed to the Barron Center.

Debt Service

The Debt Service account provides for the payment of the principal and interest on the City's outstanding General Obligation Bonds, as well as the cost for the current-year bond issuance. Department revenue is from reimbursed bond costs, primarily from the City's enterprise funds and the School Department.

The FY20 budget includes Lyseth Elementary School renovations and TIF revenue reimbursement. The FY20 net budget is increasing \$518,010 or 2.0%.

Public Library

Portland Public Library is a general-purpose library system that serves Portland and the surrounding region. Portland Public Library (PPL) provides a wide array of collections, programs, and services to 80,000 patrons through four locations, the bookmobile, and the outreach service to low-mobility community members, as well as 24/7 access through our "virtual branch" on its website.

The Portland Public Library is a trusted educational leader and multifaceted community resource in Portland. PPL welcomes everyone, and provides exciting and meaningful opportunities to children and families, and to teens and adults as lifelong learners. PPL is also frequently accessed by those on the margins – the economically challenged, those in recovery or newly release from incarceration, new Mainers, our aging population, and others in transition. In addition to collections of over 360,000 and more extensive online resources, the Library offers over 1,000 programs each year for citizens to engage in education, entertainment, important conversations about issues in the community, tutoring, training in workforce skills, and other opportunities for growth.

Portland Public Library is an independent 501(c)(3) non-profit organization, governed by a Board of Trustees. PPL finances all of its collections, programs, and outreach through an Annual Campaign, operational grants, fees, and endowment income. The City of Portland owns the land and buildings in which the Library operates its public locations. Municipal support from the City of Portland, Cumberland County, and the Maine State Library is directed solely to the infrastructure needs of these buildings and the salaries of Library employees.

This budget reflects the City's contribution to the Library; the FY20 budget increased \$116,550, or 2.9%.

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60 (or at age 65 after July 1, 2014), and Public Safety employees with 25 years of service. There is also a plan covering grandfathered Public Safety employees with 20 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, FICA, Group Life Insurance, and Unemployment. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

Health Insurance Program

The Health Insurance Account provides funding for the City's self-insured health plan. The City picks up the full cost of medical individual and family coverage for full-time grandfathered employees. For all remaining full-time employees, the City picks up 85% of employee only costs, 72% of employee and child(ren) costs, 69% of employee and adult costs and 65% of family costs.

During FY17, the City introduced a new voluntary wellness program, aimed at improving health and well-being of employees by achieving healthier living. Participation in the program's five wellness activities provides an incentive at the beginning of each plan year for employees to reduce or eliminate the employee only 15% share of costs.

Claim payments are made by a third-party administrator.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files, and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. When applicable, this account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

General Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. In addition, the City purchases insurance policies to cover property and liability exposures with limits set forth in the Maine Tort Claims Act. Claims are processed in-house in the legal department through Maine Municipal Association's (MMA) property and casualty pool.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, airport and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

County Tax

County tax is assessed to each municipality by the county in which it resides. Distribution of the tax burden is made on the basis of the valuation of a municipality as determined by the State Board of Equalization. Portland's share of Cumberland County tax in FY20 has increased by \$351,471 or 5.6%.

Transit District (Metro)

The Transit District account provides subsidy support to the Greater Portland Transit District, better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves, serving the communities of Brunswick, Falmouth, Freeport, Gorham, Portland, South Portland, Westbrook, and Yarmouth. Metro works with the Portland Area Comprehensive Transportation System (PACTS), the Greater Portland Council of Governments (GPCOG), multiple partner transit agencies, and member communities to implement a coordinated regional transit system.

A Board of Directors manages the transit district. The Board of Directors has responsibility for budgeting and financing. During the course of early 2019, Metro will be working with the communities of Brunswick, Freeport and Yarmouth to move the Metro BREEZ project from its pilot phase to permanence. This also entails bringing these communities onto the Metro Board of Directors as full members who also contribute their fair portion of the agency's fixed and overhead costs. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities.

The FY20 City's Metro budget has increased by \$74,123 or 2.7%. The FY20 new revenue represents a TIF reimbursement. Portland residents will continue to benefit from a mid-2018 expansion of METRO transit service.

Regional Transportation

The Regional Transportation Program (RTP) provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP services the cities of Portland, South Portland, Falmouth and Westbrook, with the cost apportioned based on ridership.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On July 1, 2019, the FY20 sewer user fee increases to \$10.40 per hundred cubic feet (hcf). This is an increase of \$0.45 over the FY19 rate of \$9.95 per hcf, an increase of 4.5%.

In FY20, approximately 78.5% of the Sewer Fund budget is allocated for debt service and assessment fees to the Water District.

STORMWATER FUND

The Stormwater program / rate began mid-year FY16 on January 1, 2016; Stormwater related services separated from the Sewer Fund as part of an effort to achieve greater fairness in paying stormwater costs among its' users, allowing more equitable distribution of user costs which are based on impervious area.

The FY20 stormwater service charge remains unchanged July 1, 2019 at \$6.30/month per 1,200 square feet of impervious surface. The City maintains the Stormwater billing system.

The collected funds from the sewer user fees and stormwater service charges are used to maintain and improve the City's infrastructure, and to fund projects related to the Department of Environmental Protection's ("DEP") mandated Combined Sewer Overflow ("CSO") requirements. The capital cost estimate of these projects totals several hundred million over an approximate 20 year time period.

JETPORT

The Jetport is ranked by the Federal Aviation Administration as the 92nd largest airport in the United States based on enplanements as of calendar year 2018. During 2018, more than 1.8 million passengers flew into and out of the Jetport. The Jetport is served by five major airlines: American Airlines, Delta Airlines, JetBlue Airways, Southwest Airlines, and United Airlines, along with their regional partners.

Note: Due to rounding, totals may not equal 100%

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 34% of the Jetport's total FY20 revenue, with parking, rental cars, concessions, ground rent, and miscellaneous revenue providing the other 66%.

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a fee for parking ready spaces, counter space, and commission on gross sales to the Jetport. In FY20, car rental agency income is expected to draw 30% of the non-airline revenue. Parking, representing 48% of non-airline revenue, is contracted out to a private management company, which remits the net revenues generated by the parking operations on a monthly basis.

A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Public Buildings and Waterfront department. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

STORMWATER FUND

The principal function of the Stormwater fund is to account for operating, maintaining, and meeting the capital costs requirements of the City of Portland stormwater and combined sewer infrastructure systems. The City of Portland maintains 129 miles of stormwater infrastructure, 141 miles of combined sewer systems, 96 miles of sanitary sewer, 9 sewer-pumping stations, and approximately 15,000 other structures that help to move and treat stormwater.

The city is also responsible for the capital costs necessary to maintain the system and the development and redevelopment of properties within the city and for meeting State and Federal mandates regarding the quality of streams and tidal waters within its jurisdiction.

Jetport Parking Division Income

Note: FY19 and FY20 are estimated amounts

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are four enterprise funds administered by three departments of the City.

JETPORT

The Jetport Fund is responsible for the operation and maintenance of the Portland International Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine. Passenger enplanements have increased from approximately 250,111 passengers annually in 1980 to 1,062,873 for the calendar year 2018.

The Jetport's major expenses include the terminal building, operation of the Jetport Parking division, and maintenance of the Airfield runways, taxiways and aprons. Other central expenses include security, administrative, and marketing costs.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

Sewer Fund

The principal function of the Sewer Fund Enterprise is to account for the sewer services provided to City residents and business establishments. The Portland Water District, not a city managed department, owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly or quarterly fees, based upon water volume, to support the expenses of the fund.

The Sewer Fund expenditures increased \$711,045, or 2.7%. The FY20 budget primary expenditure changes includes increases in the PWD Assessment and Sewer Fund Debt Service budgets, and a decrease in the Sewer Districting budget.

Sewer Finance

This division's services are provided by the City's Finance Department. Finance provides billing and collection services, as well as lien processing for delinquent accounts. The Finance Department also maintains the financial records for the Sewer Fund and the computer network system.

The FY20 Sewer Finance division's increase of \$7,128, or 5.3%, is predominately related to general salary increases.

Sewer Districting

The Sewer Districting division is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance, and sewer inspections and investigations.

FY20 division expenditures have decreased \$381,927, or 12.6%. The FY20 budget includes funds for pump station improvements and driveway paving at 109 District Road, and personnel increases, including one new water resources maintenance worker position. FY20 reductions include sewer project inspection and repair, as well as the removal of the FY19 funded 109 Districting Road wash bay.

Sewer Communications

The Public Works Sewer Communications division accounts for the associated costs incurred for sewer related functions including service requests, street flooding and Dig Safe requests.

The FY20 expenditures have decreased \$1,879, or 2.8%. The FY20 budget represents one third of the general fund's communications program costs.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for the implementation of the Combined Sewer Overflow (CSO) abatement program and the industrial pretreatment program, both federally mandated by the Clean Water Act.

This divisional budget reflects a decrease of \$15,129, or 2.4%. The FY20 budget includes funds for a geographic information system (GIS) integrated modeling service for the management of stormwater drainage and wastewater collection systems.

Stormwater Fund

The Stormwater Fund supports the expenditures needed to operate and maintain this critical infrastructure system, preventing pollutants from entering valued waterways as mandated by the federal Clean Water Act (CWA). The stormwater fee, implemented in January of 2016, was designed to disperse the program costs to all City property owners who benefit from the positive impacts of this investment; the Stormwater Fund separated from the Sewer Fund in FY16. The stormwater fee is based on the impervious area on a property.

The FY20 expenditures increased \$29,223, or 1.1%. The budget changes include an increase in Debt Service and a decrease in Stormwater Management division expenditures.

Stormwater Management

The Stormwater Management division budget represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. The Sweeping division performs street flushing, and clean up after special events (parades, New Year's celebration, etc.); their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

The FY20 expenditures are reduced by \$274,231, or 15.1%; CIP funds will be utilized to cover the costs of the FY20 capital outlay projects. Other budget changes include personnel increases, facility costs, and a reduction in contractual services.

Jetport Fund

The Portland International Jetport provides commercial air service to nearly two million passengers a year, general aviation facilities via two fixed base operators (FBOs) for private aircraft, and an air cargo facility. The Jetport is a dedicated fund which means all revenues generated remain with the airport to fund both normal airport operations as well as capital improvements. No local tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is budgeted under Administrative Services as the anticipated surplus.

The Jetport completed its most recent Airport Master Plan in 2016. The master plan sets the Jetport's priorities in spending for infrastructure improvements, major equipment purchases, and asset management for the short (years 1-6), intermediate (years 7-11), and long term (years 12-20) planning horizons.

The Jetport's overall FY20 expenditure budget, excluding anticipated surplus, has increased \$2,442,542 or 10.5%. Revenues have increased by \$2,465,528 or 10.2%.

Jetport Administration

The Jetport's Administration division is responsible for the day-to-day management of the Jetport and for planning future operations. Divisional services include property management, payroll, accounts payable and accounts receivable, budgeting and human resources functions.

The FY20 Administration budget increased by \$173,861, or 16.1%, primarily due to staffing changes, including the addition of one new full-time position. This budget also includes a vehicle replacement purchase.

Jetport Marketing

Jetport Marketing, a program under the Jetport Administration division, coordinates marketing, advertising, promotional, and public relation services for the Jetport.

The FY20 Marketing expenditures increased \$96,750, or 19.3%. The FY20 budget includes funds for a Short Message Service (SMS) website build, the sponsorship of an air traffic control tower and airplane exhibit at the new Children's Museum and Theatre of Maine at Thompson's Point in Portland, and general increases in marketing and advertising activities, including a marketing intern.

Jetport Fringe and Indirect Costs

The Jetport's Fringe and Indirect Costs, a program under the Jetport Administration division, reimburses the City's General Fund for expenses incurred for their services including employee benefits, general liability insurance, the Fire Department's Air Rescue Station and Medcu services, and chargebacks for City-provided departmental services including Executive, Finance, Legal, Human Resources and Information Technology.

The FY20 expenditures have increased by \$123,511, or 3.1%.

Jetport Field

The Jetport Field division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft. Division responsibilities include mowing, snow removal and fleet maintenance.

The FY20 expenditures have risen by \$485,887, or 11.9%. This budget incorporates changing local share allocations for FY20 capital projects and an increase in the snow removal expense.

Jetport General Aviation

The Jetport General Aviation division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. The General Aviation division collects landing fees from the aircraft that use the GA area, similar to the fees charged to the commercial airlines.

The FY20 General Aviation expenditures remain flat for FY20. FY20 landing fees are anticipated to increase \$57,069 or 30.1%.

Jetport Operations

The Jetport Operations division performs all administrative and operational activities related to security and operations at the Jetport. These activities include observing all federally mandated TSA security and FAA operations regulations. The division oversees the maintenance of all security related equipment including cameras and monitors, computer equipment, and security doors and gates. The division is also responsible for processing employee background checks and issuing employee ID badges. The Operations Center provides communications, technical, and operations support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public, the airlines, and the airport businesses on property. The costs of the police officers that serve at the Jetport are also paid from this division.

The FY20 Operations division's budget has increased by \$106,904, or 4.1%, largely due to the addition of two new full-time equivalent positions. Miscellaneous revenue is anticipated to increase \$15,500 or 36.4%.

Jetport Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including the interior and exterior terminal cleaning and maintenance. The terminal division's engineering section is responsible for the planning, design and management of major terminal improvements.

The FY20 expenditures have increased by \$1,022,104, or 17.1%. The budget increases are primarily a result of the FY20 new capital project allocations, a new asset management system service, and increased utility costs. The larger FY20 budgeted Terminal division capital items include AC and rooftop replacement, as well as an expansion of the baggage claim carousel.

Jetport Parking Division

The Parking division oversees the parking maintenance and operations of the Jetport's parking garage and surface parking lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

The FY20 Jetport Parking division expenditures have increased by \$459,405, or 10.3%, predominantly due to the increase in building improvement capital outlay. Parking revenues are projected to increase \$1,178,392, or 15.9%.

Jetport Airfield Deicing Facility

The Airfield Deicing Facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the expenditures incurred, thus creating a "net zero" impact on the Jetport's overall budget.

Key Revenues and Expenditures

Revenues

The Housing and Community Development Program or HCD is a special revenue fund that is supported by several federal and local funding sources.

1. Community Development Block Grant (CDBG) Program:

The Community Development Block Grant (CDBG) is funded by the federal government under the Housing and Community Development Act of 1974. For Program year 2019-2020 the City allocated \$2,042,566, which is comprised of \$1,893,566 in direct allocation from HCD, \$9,000 from program income, and \$0 from re-programmed funds; additional sources of 2019-2020 fiscal year funding include \$120,000 from the Bayside TIF revenue and \$20,000 from the Cotton Street lot property sale. These funds are used to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.

2. Home Investment Partnership Program (HOME):

The HOME funds are available for a broad range of housing activities benefiting low and moderate income households. For 2019-2020, the City proposes to utilize \$1,020,693 of HOME funds and \$148,926 of Program Income for a HOME Consortium between the City (\$746,394) and Cumberland County (\$426,225) for the development of new rental housing, single family and multi-family rehabilitation, tenant based rental assistance, and assistance to special non-profit agencies called Community Housing Development Organizations (CHDOs) to develop affordable housing.

3. Emergency Solutions Grant Program (ESG):

The ESG funds can be used by the City to fund the rehabilitation, operation and support services of providers and facilities

assisting Portland's homeless population. The City proposes to use its 2019-2020 ESG entitlement allocation of \$160,837 to provide case management and homeless prevention services through City Family Shelter programs administered by the Department of Health and Human Services.

4. Portland Development Fund:

Originally established in 1986, the goal of the Portland Development Fund is to respond to the need for 1) housing that is affordable to low and moderate income households, and 2) commercial and industrial development opportunities to further strengthen the local economy and generate jobs, particularly in downtown Portland.

Originally there was approximately \$1 million in the Portland Development Fund for both housing and economic development activities. Sources of funding include Urban Development Action Grant (UDAG) miscellaneous revenue, CDBG program income, CDBG entitlement allocations from previous years, and loan repayments and interest generated. In 1990, the fund was split into Housing, administered by the Housing & Community Development Division, and Economic Development, administered by the Economic Development Department.

The Housing portion of these funds is appropriated for several activities, including the development of new affordable rental housing, single and multi-family rehabilitation, and lead paint abatement. UDAG funds administered by the Economic Development Department are used for loans and investments by the Portland Development Corporation.

Expenditures

The three expenditure categories utilized by the CDBG Program are: Public Services, also referred to as Social Services, Development Activity Funding, and Program Planning and Administration. A brief description of the services provided for the 2019-2020 fiscal year under each of these categories follows. A more comprehensive source of information on these programs can be found in the 2016-2020 Consolidated Housing or the 2019-2020 Annual Action Plan issued by the Department of Planning and Urban Development. The 2016-2020 Consolidated Plan implemented the following new program goals and objectives:

- a. ***Neighborhood Investment and Infrastructure***
to create strong, safe, accessible and vibrant neighborhoods.
- b. ***Housing Opportunity***
to increase housing availability and affordability.
- c. ***Economic Opportunity***
to create economic opportunities to transition people out of poverty.
- d. ***Address the Needs of the Growing Homeless Population***
to prevent and reduce homelessness.

PUBLIC SERVICES (SOCIAL SERVICES)

1. Neighborhood Investment and Infrastructure includes Community Policing.
2. Economic Opportunity includes Catherine Morrill Child Care Voucher Program and Portland Adult Education New Mainers Resource Center Job Search Support Program.
3. Address the Needs of the Growing Homeless Population includes Amistad & Portland Downtown Peer Outreach Worker Program, Public Health's Mobil Medical Outreach Project, Social Services Division's Long Term Stayers Community Integration & Landlord Outreach Project, Milestone HOME Team, Preble Street's Food Programs, Teen

Shelter & Women's Shelter, Spurwink Adult Behavioral Health Opioid Treatment Program, and the Wayside Food Programs.

DEVELOPMENT ACTIVITY FUNDING

1. Neighborhood Investment and Infrastructure includes Boys and Girls Club Energy Efficiency Upgrades, City of Portland & Portland Downtown Bicycle Infrastructure, Public Works Elm Street Sidewalk Improvements and Public Works Kennebec Street Lighting, Mayo Street Arts Wheelchair Access Ramp, and Port Resources Group Home Rehab.
2. Housing Opportunities includes the Alpha One Critical Access Ramp Program.
3. Economic Opportunity includes Economic Development Department Business Assistance Program, CEI Portland Microenterprise Assistance Program and Learning Works Renovation of Historic Education Facility.

PROGRAM PLANNING & ADMINISTRATION

The following are reimbursements to general operating accounts for program administration services:

1. The Department of Planning & Development provides Administration, Planning, Housing & Community Development, and Citizen Participation services, which are reimbursable under the HCD guidelines.
2. The City receives reimbursement for a portion of the annual audit cost associated with auditing the HCD Program.
3. The City may receive reimbursement for a portion of the fringe benefits associated with the positions funded with HCD monies. However, the fringe benefit reimbursement along with all of the administrative costs must not exceed the 20% cap set by CDBG regulations.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2020 School budget was approved by the voters June 11, 2019.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 79.5% of the FY20 Education budget.

State Subsidy

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The budgeted portion of State Aid for Essential Programs and Services (EPS) and debt service accounts for 15.0% of the School's FY20 Budget.

The chart represents the State Aid to Education revenue history over the past six years.

Note: FY19 and FY20 are estimated amounts

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Board of Public Education for the City be administered by a school board comprised of nine members. The Board of Public Education performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into six categories: (1) Salaries and Benefits (2) Contractual Services (3) Supplies (4) Miscellaneous (5) Debt Service and (6) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Budget Overview

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114 mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac Indian name meaning "shaped like a

great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep-water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cross Insurance Arena. Two major medical centers, Maine Medical Center and Mercy Hospital, are also located in the City.

Budget Overview

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

Budget Overview

1. projected collection estimates for the current fiscal year with explanations for projections substantially different than estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the City's budget process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion

of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department budget, under the school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget, which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final

Budget Overview

justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity/retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, parks recreation and facilities, public works, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the acquisition, construction or improvement of

capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds are: Fish Pier, Sewer, Stormwater and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

All proprietary funds are accounted for on a flow of economic resources measurement focus.

Budget Overview

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year-end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Basis of Budgeting

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The character code classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The character code classification for employee related costs such as health insurance, pension, FICA, unemployment, cell phones, clothing and tool allowance, and medical stipends.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment / Transfer: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Glossary of Terms

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The character code classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Character Code: A grouping mechanism that characterizes the type of expenditure and / or revenue. The major expenditure classifications utilized by the City of Portland include Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance & Repairs, Rentals, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service. The major revenue classifications include Property & Excise Taxes, Licenses & Permits, Intergovernmental, Charges for Services, Fines Forfeits & Penalties, Uses of Money & Property, and Other Finance Resources.

Client Expenses: The character code classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The character code classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The character code classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Glossary of Terms

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, and other equipment.

Function: A segment of the account number that identifies the budget category of the account. The eleven primary activity classifications used in budgeting include Education, General Government, Public Safety, Public Works, Health and Human Services, Parks and Recreation, Library, Debt Service, County Tax, Metro and the Enterprise Operations.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of and guidelines for financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices as a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges,

Glossary of Terms

interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, public works, parks recreation and facilities, health and human services, public library, county tax, metro, and debt service.

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

HUD: The abbreviation for Housing and Urban Development.

Insurance: The character code classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category or object code separately (salary, materials, telephone service, travel, etc.), along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The character code classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Glossary of Terms

Minor Capital Items: The character code classification used for tangible property or equipment used for operations having a cost of $\geq \$5,000$ and $< \$10,000$ per single item.

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Code: A segment of the account number identifying the specific types of expenditures and / or revenues at the most detailed level. The city's object codes, defined in the chart of accounts, are utilized across all funds as appropriate, completing the full account number designation. Object Codes are assigned a character code for budget grouping classification purposes.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The character code classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Organization Code: A short code identifying an account number's fund, department, division, and program.

Payroll: The character code classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Program: A segment of the account number identifying the third level in the formal City organization in which a specific activity is carried out; several programs may comprise a single division.

Rental: The character code classification used for rental expenses of land, buildings, vehicles and equipment.

Glossary of Terms

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The character code classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The character code classification which includes expenses for electricity, heating fuel, telephone, water and sewer, and stormwater.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

Budget Highlights

**General Fund & Enterprise Funds
FY16 - FY21**

General Fund Expenditures

The 2020-2021 General Fund budget totals \$202,806,660, a decrease of \$3,925,911 or 1.9%. As the magnitude of the coronavirus began to emerge in March of 2020, the City began scaling back City operations. With the FY21 budget well underway under the pre-pandemic scenario, the City's FY21 budget passage was then delayed. The City's FY21 final approved budget, passed by Council in September of 2020, incorporates the awareness of the evolving economic changes in the midst of the pandemic. The major changes in the FY21 budget include:

Social Services Client Services	\$ 1,260,038
Debt Service	\$ 612,481
County Tax	\$ 370,843
Waste Management Contract	\$ 310,800
Electricity	\$ 180,484
Barron Center Healthcare Consulting Services	\$ 180,000
METRO	\$ 89,286
Snow Dump	\$ 88,000
Police Steering Committee	\$ 75,000
Waterfront Trail & Seawall Repairs	\$ 75,000

Construction Supplies	\$ (34,980)
Printing	\$ (35,521)
Postage & Freight	\$ (36,563)
Advertising	\$ (36,645)
Vehicle / Equipment Rental	\$ (40,425)
Liability Insurance	\$ (46,197)
Capital Outlay	\$ (52,196)
Program-Activity Expense	\$ (55,850)
Land & Building Rental	\$ (58,086)
Workers' Comp Indirect Chargebacks	\$ (58,278)
Zoning Rewrite / Recode (FY20 Expense)	\$ (75,000)
Supplies – All Other	\$ (104,021)
Legal Services	\$ (106,507)
Wearing Apparel	\$ (116,952)
Temporary Services	\$ (161,373)
Computers & Technology Supplies	\$ (164,604)
Travel & Training	\$ (178,250)
Food Expense	\$ (206,969)
Minor Equipment & Minor Capital Items	\$ (231,092)
IT Computer Software & Maint. Contracts	\$ (238,574)
Vehicle Fuel	\$ (248,739)
Library Contribution	\$ (250,713)
Traffic Pavement Markings	\$ (269,765)
Other Contractual Misc. Services	\$ (425,731)
Employee Benefits	\$ (1,642,187)
City Wages	\$ (2,194,395)

Enterprise Funds Expenditures

The 2020-2021 Enterprise Funds budget totals \$54,179,760, a decrease of \$2,608,603 or 4.6% over the 2019-2020 budget; this budget decrease is largely attributed to the Jetport as a result of the Covid-19 outbreak.

The FY21 Jetport expenditure budget decreased \$2,503,521 or 9.4% (or \$1,701,897, or 6.6%, excluding surplus). The more significant Jetport budgetary changes include the following:

Contributions (Air Rescue & Police Security)	\$ 120,853
Terminal Exterior Landscape & Plant Care	\$ (75,000)
Advertising	\$ (83,500)
Administrative Svcs (Excluding Surplus)	\$ (84,950)
Capital Outlay Other Equipment	\$ (86,319)
Capital Outlay Vehicle	\$ (87,500)

Field Snow Plow & Removal Services	\$ (92,135)
Utilities	\$ (99,716)
Wages	\$ (112,082)
Baggage Handling & Jet Bridge Maint.	\$ (119,158)
Airfield Pavement Markings	\$ (125,000)
Other Contractual Misc. Services	\$ (133,405)
Terminal Asset Mgmt System (FY20 Expense)	\$ (150,000)
Supplies – All Other	\$ (198,877)
Capital Outlay Building Improvements	\$ (357,882)
Anticipated Surplus	\$ (801,624)

The FY21 Sewer Fund expenses decreased \$323,654 or 1.2%. The more substantial budgetary changes comprise of the following:

Rodent Control Contracted Services	\$ 112,000
Sewer Inspection / Camera Contracted Svcs	\$ 100,000
Financial Software Implementation (FY20)	\$ (41,120)
Debt Service Division	\$ (59,042)
Maintenance & Repair	\$ (80,760)
Manhole Structure Adjustment Contracted Svcs	\$ (100,000)
INFOSWMM Computer Software Svc (FY20)	\$ (100,000)
109 District Road Improvements (FY20)	\$ (135,745)

The FY21 Stormwater Fund has an expenditure budget of \$2,972,872, resulting in an increase of \$184,035 or 6.6%. The more significant expenditure variances are:

Benefits	\$ 115,725
Contracted Services Miscellaneous	\$ 70,181
Debt Service Division	\$ 69,528
Wages	\$ 25,585
Vehicle Maintenance & Repair	\$ (21,000)
Administrative Services	\$ (25,305)
Architecture & Engineering Services	\$ (26,000)

The FY21 Fish Pier Fund has an expenditure budget of \$423,216, resulting in an increase of \$34,537 or 8.9%.

Wages	\$ 42,647
-------	-----------

General Fund Revenues

The 2020-2021 General Fund non-tax revenues are estimated at \$113,475,489, a decrease of \$4,552,041, or 3.9%, over the 2019-2020 budget. The revenue areas substantially negatively impacted by the coronavirus pandemic include Parking, the Parks & Recreation Department, and the Waterfront / Cruise Ship operations. The Health & Human estimated revenue increases are directly correlated with expenditures. The revenue changes include the following:

**General Fund & Enterprise Funds
Non-Tax Revenue Estimates
FY16 - FY21**

SS State Social Services (GA)	\$ 1,264,137
Social Services Misc. Reimbursements	\$ 570,745
Social Services Division Grant Reimb.	\$ 435,527
Public Health Division Grant Reimb.	\$ 417,016
TIF Reimbursements	\$ 369,890
India Street Donation	\$ 267,665
Police Dispatch Division	\$ 242,711
MEDCU Public Safety Charges for Services	\$ 200,000
Street Occupancy	\$ 198,805
Permitting & Inspections Business Licenses	\$ 182,768
Parks Division	\$ 115,505
Police Investigative Services Misc. Reimb.	\$ 79,837
Economic Dev. Misc. Reimb.	\$ 78,508

Fire Air Rescue Enterprise Fund Chargebacks	\$ 76,668
Debt Service Enterprise Fund Chargebacks	\$ 72,171
Revenue Sharing	\$ 69,842
Planning Public Safety Charges for Services	\$ 69,500
Benefits Enterprise Fund Chargebacks	\$ 59,203
Housing & Community Dev. Grant Reimb.	\$ 56,310
Adult Day Care Division	\$ (64,354)
Police Uniformed Ops School Chargebacks	\$ (98,560)
Payment in Lieu of Taxes (PILOT)	\$ (100,000)
Social Services Medicaid (MaineCare)	\$ (123,600)
Interest & Penalties	\$ (150,000)
Barron Center Non-Patient Receipts	\$ (169,493)
Public Works CIP Chargebacks	\$ (172,211)
Temple Street Parking Garage	\$ (225,000)

Debt Service School Department Chargebacks	\$ (404,753)
Parking Tickets	\$ (630,000)
Public Assemblies Division	\$ (666,967)
Hourly Parking	\$ (710,000)
Excise Taxes	\$ (1,003,000)
Parking Meters	\$ (1,095,100)
Recreation Division	\$ (1,437,292)
Waterfront Division	\$ (1,983,967)

Enterprise Funds Revenues

The Enterprise Funds 2020-2021 revenue estimates are \$50,224,881, a decrease of \$11,246,654 or 18.3%.

The major changes in the revenue estimates include the following:

Sewer Interest Income	\$ 184,500
Stormwater Interest Income	\$ 65,000
Sewer Enterprise Fund Chargebacks	\$ 53,431
Jetport Misc. Charges for Services	\$ (58,353)
Stormwater User Fees	\$ (177,235)
Jetport Concessions	\$ (638,350)
Jetport Terminal Rental	\$ (808,919)
Sewer User Fees	\$ (969,698)
Jetport Landing Fees	\$ (2,333,932)
Jetport Car Rental Commissions	\$ (2,600,705)
Jetport Parking Income	\$ (3,639,035)

Housing & Community Development Program (HCD)

The final 2020-2021 HCD program totals \$2,081,348, an increase of \$38,782, or 1.9%, from the 2019-2020 program: the Entitlement Grant increased \$39,197 and Program Income decreased by \$415. The 2020-2021 HCD Program also includes flat funding from Tax Increment Financing (TIF) for \$120,000 and from the Cotton Street lot sale proceeds for \$20,000, and no use of Surplus Funds.

Education

**Education Appropriations &
Non-Tax Revenue Estimates
FY16-FY21**

The Education budget for 2020-2021 is \$119,862,677, an increase of \$2,473,407 or 2.1%. A summary of the more significant school expenditure changes is provided below:

Wages	\$ 995,589
Benefits	\$ 728,622
Special Ed Contracted Services	\$ 199,528
Electricity	\$ 173,383
Professional Education Services	\$ 140,000

Natural Gas	\$ 101,272
Tech-Related Equipment < \$10k	\$ 99,552
Books & Periodicals	\$ 91,996
Employee Training & Development Svcs	\$ 89,996
Insurance – General Liability	\$ 88,921
Recycling Services	\$ 78,040
Equipment > \$10k	\$ 75,000
General Supplies	\$ 58,357
Instructional Supplies	\$ (52,399)
Food	\$ (59,959)
Purchased Professional & Technical Svcs	\$ (60,769)
E-books & Online Subscriptions	\$ (75,868)
Debt Service	\$ (88,091)
Tuition to Private Source	\$ (133,650)

The total non-tax revenue estimate for Education is \$25,523,933, an increase of \$1,479,802 or 6.2%. A summary of the revenue changes are as follows:

State Subsidy – EPS/Debt Service	\$ 1,030,862
SEED Withholding	\$ 1,001,000
Adult Ed State Subsidy	\$ 99,954
Surplus Use	\$ 60,050
Tuition Public K-8	\$ 50,000
Tuition – State Agency Client	\$ (30,000)
Transportation Fees Private	\$ (35,000)
MaineCare Medicaid Reimbursement	\$ (713,928)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, traditionally in September and March.

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The last property revaluation was phased in over two years: FY2006 and FY2007. The previous revaluation was done in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model

and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY20 and FY21 are estimated amounts.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

Note: FY20 and FY21 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, Business Licenses, Street Occupancy and the Cable TV Franchise are the largest sources of revenues in this category.

and the pandemic in the spring of FY20. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

An additional major source of revenue in this category is State Revenue Sharing.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

Note: FY20 and FY21 are estimated amounts.

General Assistance (GA) reimbursement is the largest revenue in this category. In FY16, the State of Maine GA reimbursement rate changed from a tiered percentage reimbursement rate (50% / 90%) to a flat seventy percent (70.0%) reimbursement rate based on the City's eligible program expenditures. The GA revenue collections, FY15 and forward, reflect changes by the state in the GA reimbursement eligibility guidelines, excluding certain immigrants. The FY17 revenue receipt reflects a court settlement for services provided by the City in FY15. The FY20 and the FY21 estimates reflect an increased need for assistance resulting from the influx of asylum seekers in the summer of FY20

Note: FY20 and FY21 are estimated amounts.

Traditionally the State has set aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing pool. The Revenue Sharing pool is then shared amongst 488 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

The State's FY16 budget, enacted June 30, 2015, temporarily reduced the Revenue Sharing distribution pool from 5.0% of all state sales, corporate, and personal income tax revenues to 2.0% for four years (FY2016 - FY2019). This reduction replaced the previous FY2014 and FY2015 reduction, which capped Revenue Sharing at \$62.5m.

In FY20 the State partially restores the Revenue Sharing distribution pool, which has been reduced since FY2014, to 3.0%, and to 3.75% in FY21.

Revenue Sharing I is based on the following formula:

- $$\frac{[\text{population of town} \times \text{assessment (tax levy)}]}{\text{state valuation for municipality}} = \text{the town's computed number}$$
- $$\frac{\text{computed number}}{\text{sum of all computed numbers}} = \text{proportional share of REV-I distributions}$$

Revenue Sharing II is based on the following formula:

- $$\frac{\text{assessment}}{\text{state valuation}} = \text{mil. rate}$$
- $$(\text{mil. Rate} - .01) \times \text{population} = \text{the town's computed number}$$
- $$\frac{\text{computed number}}{\text{sum of all computed numbers}} = \text{proportional share of REV-II distributions}$$

In FY2021, the State's Revenue Sharing projected share for Portland is 5.4% based on the most recent data.

This category also includes the Local Road Assistance Program (LRAP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Major sources of revenue are derived from Patient Receipts (Barron Center), Health Insurance Reimbursements, Emergency Medical Services (EMS), Cultural / Recreation Services, and Recycling.

Note: FY20 and FY21 are estimated amounts.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties.

Note: FY20 and FY21 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, rental income, and interest earnings.

Note: FY20 and FY21 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, cemetery endowments, library, and School department are known as interfund charges. Other revenue includes TIF and other miscellaneous reimbursements, Other Agency Revenues, and various grant reimbursements including Housing and Community Development grants.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is

also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, Executive, Assessor, Finance, Legal, Human Resources, Parking, Housing & Economic Development, Planning, Permitting & Inspections, Information Technology, Public Buildings & Waterfront, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police and Fire / EMS operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to a highly trained team of Detectives providing comprehensive investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly

trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment.

Fire

The Fire Department provides for fire suppression, emergency medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Department is also responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system.

The Fire Department maintains ten fire stations and the Spring Street Fire Museum. A minimum of forty-six firefighters and paramedics staff each shift on 18 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, two air rescue units, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

3. PUBLIC WORKS

The Department of Public Works is responsible for providing many of the essential services to City of Portland residents throughout the year. These services include the operation of the Riverside Recycling Facility (under a contract arrangement), and a comprehensive solid waste program, which includes trash collection, residential curbside recycling, a leaf collection program, as well as a heavy item / bulky collection pick-up program. Public Works also provides for the construction and

maintenance of city streets and sidewalks, the sewer system, stormwater maintenance, and technical support / engineering services for Capital Improvements Projects. Other key services include the removal of snow and ice from city streets and sidewalks, maintenance of the Portland Downtown District, maintenance and repair of all City vehicles and equipment, and traffic management, including maintenance of traffic signaling, street lights and traffic control and calming. Public Works also provides core public works services to four adjacent islands in Casco Bay.

4. HEALTH AND HUMAN SERVICES

The Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

Public Health is the state's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, Health Equity, the India Street Clinic, and Research and Evaluation.

Social Services provides both financial assistance and support services for low-income Portland residents. Programs operated include Social Service Administration, General Assistance, the Oxford Street Shelter and the Family Shelter. Day services are available at the Oxford Street Shelter. During the influx of asylum seekers and then again during the pandemic, Social Services opened a temporary shelter at the Portland Expo. Social Services also provides case management, including assistance with securing housing and job placement, and representative payee services to clients.

The Barron Center is the state's second largest long-term care nursing facility. The

Barron Center is a 219-bed skilled rehabilitation and nursing facility, including a 50-bed specialty unit for the care of residents with dementia. Residents of the Barron Center are able to receive speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The Office of Elder Affairs provides the community with an Elder Advocate. Assistance is provided in the form of senior information and referral, adult day health services, and community collaboration. Elder Affairs also operates Martha's Cottage, which is the only domestic violence shelter for seniors in the country.

A large majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants, and miscellaneous reimbursements for direct services.

5. PARKS, RECREATION AND FACILITIES

The Department of Parks, Recreation and Facilities oversees Parks, Forestry and Cemetery, recreational programs and activities including permitting of outdoor events, races and rallies, the marketing and event management venues including Merrill Auditorium, and the custodial services of the city's buildings.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Parks, Recreation and Facilities is responsible for the day-to-day management and care of 1,288 acres of parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department serves the many citizens and visitors of Portland through 67 individual parks and 8 miles of multi-use trails.

The Parks, Recreation, and Facilities Department also maintains 20,000 City trees as

well as providing new plantings, and manages two active cemeteries (Evergreen and Forest City) and eleven inactive cemeteries.

Recreation offers a vast array of services and leisure activities including Community Centers, recreation programs, before and after school care, center for therapeutic recreation, three pools, special events, operations of the ice arena, golf course, and golf course restaurant, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 85.1% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services, serving the Brunswick, Falmouth, Freeport, Gorham, Portland, South Portland, Westbrook, and Yarmouth communities. In April of 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook as the third community assessment member. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. During early 2019, Metro began working with the communities of Brunswick, Freeport and Yarmouth to move the Metro *BREEZ* project from its pilot phase to permanence; this also entailed bringing these communities onto the Metro Board of Directors as full members who also share in covering their fair portion of the

agency's fixed and overhead costs. The Board of Directors has the responsibility for budgeting and financing. The District's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the District, fares, assessments of member communities, non-member local funding, and other miscellaneous revenues.

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the annual assessment is \$2,877,058.

8. LONG TERM DEBT

Note: FY20 and FY21 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City budget. For fiscal year 2021, the gross debt budget is \$45,700,279, or 22.5% of the City's general fund budget; it is estimated that the Enterprise Funds and the School Department are to reimburse the general fund \$17,874,131 of this expense. The FY21 net cost of debt service to the City general fund is \$25,510,511.

9. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2020, the City's equalized State Valuation of \$10,507,000,000 was 20.8% of the County's total equalized State Valuation of \$50.4 billion, resulting in a FY21 assessment to the City of Portland of \$7,011,159.

City Council

The City of Portland operates under a charter which was last amended on November 2, 2010. The City Council is comprised of a Mayor, elected for a four-year term, five district Council members and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact, reasonable by-laws, regulations and ordinances. The council adopts an annual budget, authorizes the issuance of debt and provides for an annual audit. The Mayor has the authority to veto the annual budget, however the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops.

The City Council expenditure budget increased \$105,968 or 30.8%. The FY21 increase includes Racial Equity Steering Committee funding and monies for the FY21 Charter Commission, added at the Finance Committee level.

The revenues received by this department are from Housing & Community Development (HCD) grant funds for a portion of the annual audit costs.

City Clerk

The Department of City Clerk has three major functions: Elections, Vital Records, and City Records Maintenance. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Deputy City Clerk is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with assisting the Clerk in facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. The FY20 June 2020 State Primary & School Budget Validation Election was postponed due to COVID-19 and held on July 14, 2020 (FY21). Two elections are planned in FY21: the November 2020 State General / Presidential & Municipal Election, and the June 2021 State Primary & School Budget Validation Election / Special Municipal Charter Commission Election. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). The CVR is a statewide system designed to standardize and centralize voter registration. During FY21, the State will be providing (per precinct) new Election Machine tabulators; the City will incur added expenses of renting additional machines as warranted per election including the rental of a high-speed tabulator for the Presidential election. Also, with the passage of Rank Choice Voting for all Municipal Seats in the FY20 March Referendum Election, there are new associated costs in consulting, printing and advertising fees.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages at the counter, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services. As of FY19, a Marriage Ceremony Package is now available for couples who would like the option of a more formal / traditional style wedding ceremony; this package includes a one-hour rental of the State of Maine Room with full Notary Service vows performed by one of the City Clerk Staff members.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio / video recordings of several boards and committees.

The City Clerk's expenditure budget has increased \$56,733, or 9.1%, largely due to election costs including additional funding for the Charter Commission. Revenues are anticipated to decrease \$40,576 or 17.8%.

Executive

The department is responsible for the executive management of the City of Portland. Responsibilities include preparation and administration of council agendas and orders; coordination and administration of City departments, services, and programs; developing and enforcing administrative policies; handling of citizen inquiries and complaints, public relations and communication functions; community liaison efforts; local and state government liaison efforts; and the preparation of the annual Capital Improvement Plan.

This department consists of the City Manager and support staff. Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary for the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

The FY21 expenditures decreased \$165,189 or 17.8%, primarily due to a reduction in staffing. Revenues decreased \$42,939, or 4.2%, attributed to a reduction in passport revenue and new FCC rules governing local cable agreements.

Assessor

The Assessor's Office is responsible for the discovery and fair and equitable valuation of all real and personal property within the City. The office maintains the ownership, mailing address, parcel and valuation data for all 24,000+ parcels, 3,200+ personal property accounts including all tax exemptions, special assessments of specific properties, and parcel tax maps. The office prepares and certifies the annual tax rolls and warrant to the City Treasurer as well as submitting the Municipal Valuation Return (MVR) to the State. The Assessor's Office works to educate property owners in understanding the appraisal process and renders decisions on annual appeals of property valuation.

The Assessor's expenditure budget decreased \$16,539, or 3.8%, which includes a reduction in hours of one fulltime position.

Finance

The Department of Finance consists of Administration and Treasury. The Finance Director and the Deputy Finance Director oversee the efficient operations of these functions.

The FY21 department expenditures have decreased \$87,228, or 4.5%, largely due to wages which includes hour reductions of three fulltime employees. The department's estimated revenues also decreased by \$76,965, or 1.2%. The FY21 revenue estimate reduction is primarily due to lower interest and penalty income, offset in part to the phased-in partial restore of the State's Revenue Share distribution pool which began in FY20.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for over 1,600 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

The FY21 Finance Administration expenditure decrease of \$45,764, or 3.8%, is predominately due to staff hour reductions in response to the coronavirus outbreak, as well as a decrease in postage expenses. The revenue increase display of \$26,004, or 5.3%, is attributed to the estimated receipts in the sale of city property.

Treasury

The Treasury division is responsible for the collection of all monies into the City. This includes the collection of real estate taxes, personal property taxes, delinquent sewer user fees, and vehicle excise taxes and registration fees, as well as issuance of license plates. Treasury also collects parking ticket revenues and miscellaneous receivables, processes boat and utility trailer registrations, and issues island vehicle and golf cart registrations and Metro bus passes.

Residents may visit the Treasury Office in City Hall for these services. There are also many electronic options for residents:

(a) Treasury offers online payments of real estate through the City of Portland website:

<https://www.portlandmaine.gov/1567/Pay-Your-Property-Taxes-On-Line>

(b) View / Print Tax Bills on-line at:

<http://www.portlandmaine.gov/1567/View-AndOr-Pay-Your-Property-Taxes-On-Line>

(c) Online options are available for residents to re-register vehicles, trailers and boats through the State of Maine website: <https://www1.maine.gov/online/bmv/rapid-renewal/>

(d) Parking tickets can be paid in Room 20 (Parking Office) as well as online through the website:

www.portlandparkingtickets.com or <https://portlandme.rmcpay.com/>

(e) Portland Senior Tax Equity Program (P-STEP) Application:

<https://www.portlandmaine.gov/DocumentCenter/View/23533/Portland-Senior-Tax-Equity-Program-P-STEP-Application> or <http://www.portlandmaine.gov/145/Tax-Relief>

The FY21 Treasury general fund expenditures decreased \$41,464, or 5.6%. In addition to the decrease in payroll expenditures, property tax mailings have been reduced from semi-annual notices to one annually. The FY21 non-tax revenue estimate decrease is \$102,969, or 1.7%. The revenue estimate decrease is primarily related to lower interest rates and title company report requests offset by the partial restoration of the State Revenue Sharing formula and a rise in the Treasury Office processing of auto registrations.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys, a risk manager, a litigation paralegal, and a paralegal / legal assistant.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability, and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees and Boards.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Fish Pier, Sewer, Stormwater, and Jetport funds. The department also receives revenue for various ordinance code violations, and settlements.

The FY21 expenditure decrease of \$12,517, or 1.7%, is largely due to a reduction in projected administrative services, legal services and in the supply line expenses. The FY21 revenues remain unchanged. The larger FY20 projected revenue reflects a code violation award.

Human Resources

The Department of Human Resources provides many services to all City departments, including recruitment and hiring oversight, civil service program administration, labor relations, organizational development and education, employee health and benefits administration, and safety and risk management.

The FY21 budget includes a net increase in personnel staff of 0.8 FTE position and various reductions in the contractual services lines, resulting in an expenditure increase of \$1,396 or 0.1%. The revenues collected by this department are received from the Sewer, Stormwater and Jetport funds for services provided by the Human Resources staff.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,631-metered spaces throughout the City, 903 of which have been converted to multi space meters that accept credit cards.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

FY21 expenses are down \$121,361, or 5.1%, largely due to the reduced staffing at the Elm St Garage as a result of the automation of the garage, anticipated parking web-meter cost decreases, and the postponement of garage building repair and maintenance projects. FY21 revenues, primarily parking meter, hourly garage and parking ticket revenue, are projected to decrease by \$2,675,585 or 26.3% as a consequence of the pandemic.

Parking Administration

Parking Administration includes the management of on-street parking, which includes the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

FY21 Expenditures decreased \$5,357, or 0.4%. Expenditure changes include reductions in travel and training and credit card expenses, offset in-part by contractual payroll increases.

FY21 Parking Administration revenues have decreased \$1,733,210 or 26.2% due to COVID-19. Parking meter rates increased in FY21, however, the FY21 parking meter revenue estimate has been reduced. Parking ticket and parking garage revenues have also been adversely affected by the pandemic.

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens.

The FY21 Elm Street Garage expenses are down \$49,451, or 16.5%, and includes the reduction of one garage cashier due to the automation of the garage, as well as the postponement of garage building repair and maintenance projects. The FY21 revenue projections are down \$187,500, or 26.7%, mostly due to the decline in hourly parking due to COVID-19.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Cross Arena and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Arena events. The garage also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens.

FY21 expenses have decreased \$18,423, or 4.1%, due to the postponement of garage building repair and maintenance projects. FY21 revenues decreased \$530,075, or 30.5%, predominantly due to the drop in hourly parking as a result of the COVID-19 slowdown.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens.

FY21 Temple Street Garage expenditures are down \$48,130, or 38.2%, due primarily to the postponement of some garage repair and maintenance projects. Revenue estimates are down \$225,000, or 20.5%, due to a reduction in hourly parking and vacancies in retail space.

Housing & Economic Development

For FY2021, the City's Housing and Community Development division (formerly in the Planning and Urban Development Department) was merged with the Economic Development Department, thus creating the Department of Housing and Economic Development.

The Housing and Economic Development Department is responsible for enhancing the residential and economic growth of the City and is dedicated to fostering a vibrant and healthy residential and economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city and waterfront, economic and employment opportunities, and residential programs.

By leading a collaborative effort among agencies, both in advocacy and acting as a housing and business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that housing and economic development issues and opportunities are addressed in a timely, thorough, and proactive manner.

Because of the merger, the Housing and Economic Development Department expenditures increased \$545,702, or 80.9%, attributable largely to the merger's payroll expenses. In total, nine new employees are reflective in this budget, including the budget restore of the Creative Portland positions. All of the Department's positions and most other expenses are offset by revenue reimbursement.

Economic Development

Economic Development is comprised of the Housing and Economic Development Director, Waterfront Coordinator, Business Development Representative, Senior Executive Assistant, Director of Office Economic Opportunity and its Initiatives and Outreach Coordinator, and the Office of Creative Portland Director and Program Assistant. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city, a vital waterfront, a sustainable creative economy, and employment opportunities. Staff also endeavors to keep the lines of communication open so that economic development issues are addressed in a timely, thorough, and proactive manner.

During FY2021, Economic Development will continue its programs of service and assistance to businesses during the COVID-19 Pandemic, facilitating various loan and grant programs.

FY21 division expenses rose \$14,456, or 2.2%. Budget changes include the elimination of the Marketing & Communications Coordinator position and the restoration of the two Creative Portland positions previously contracted. The reduction in the contractual services lines and travel and training largely offset the net one additional position.

All positions in FY2021 are 100% funded through various revenues sources, including Tax Increment Financing.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The PDC offers various commercial loan and grant "gap" financing programs to support business start-up and expansion in the City of Portland.

Due to the COVID-19 Pandemic, the PDC now offers a Rapid Response Loan program, which provides up to a \$10,000 loan with \$5,000 forgivable under certain conditions.

The Portland Development Corporation budget is fully funded by the interest income from its business loan programs; the PDC relies on this income from its business loan program to cover its operating expenses. FY21 expenses remain flat and are offset 100% by program revenue.

Housing & Community Development

In FY21, the City's Housing and Community Development division (formerly in the Planning & Urban Development Department) merged with the Economic Development Department, creating the Department of Housing & Economic Development. This merger adds an additional eight positions to this department, positions previously reflected in the Planning Administration and the Planning Housing & Community Development divisions.

Housing and Community Development is responsible for administering federal CDBG, HOME and ESG grants for the City. This division administers City-assisted housing development programs, as well as housing-related planning activities.

This portion of the salaries of the Housing and Community Development budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, Housing Development Fund (program income from the CDBG loan paybacks), and Tax Increment Financing; any increase or decrease in the budget has no impact on the tax levy.

Police

The Police Department is comprised of six divisions: Administration, Uniform Operations Group, Bureau of Investigative Services, Operations Support Services, Dispatch Services and Jetport Security.

The Police Department's mission focuses on three distinct areas: Service Excellence, Community Engagement, and Resource Maximization. Every decision, plan, and contact made places emphasis on these three areas. All members of the Portland Police Department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department expense decrease of \$561,711, or 3.2%, is primarily due to payroll reductions including the elimination of three sworn police officer positions and a delay in the hiring of unfilled positions. The FY21 budget also shows a reduction in the supply line; the FY20 operating budget included computer technology for new vehicles.

FY21 revenues are increasing \$230,385, or 7.7%, primarily due to an increase in the cost share calculation of the Portland Regional Communications Center (PRCC). The costs incurred by the City's Dispatch Services division are shared by the cities of Portland, South Portland and the Town of Cape Elizabeth.

Police Administration

It is the responsibility of the Chief of Police to create policy and make resource management decisions for the Police Department's assets. The administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

The FY21 expenditure decrease of \$55,820, or 4.4%, is primarily due to the six-month delay in the hire of the department's Assistant Police Chief.

Uniformed Operations Group

A Commander heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the repression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to utilize a workload analysis to assign a proportionate number of patrol officers throughout the City. It also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Community Policing Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Community Policing Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and their fellow officers to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to facilitate efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority.

The Uniformed Operations Group also contains a Traffic Unit responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

Expenditures in this division have decreased \$310,003 or 2.9%, primarily due to reductions in payroll, as well as the supply lines primarily related to the FY20 purchase of new vehicle computer technology. The personnel budget reductions include department restructuring for a net reduction of one position in this division. Staffing changes include the elimination of the two School Resource Officers and one Community Policing Officer, and the transfer of two positions from the Bureau of Investigative Services division. Salary savings also include the delayed hiring of new sworn officers. Revenues have decreased \$101,781, or 9.6%, primarily due to the reduction of the School Resource Officers previously reimbursed at 75%.

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by the Assistant Chief and is comprised of both a criminal investigations division and a narcotics investigations division; these divisions are responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the Court Officer, the Criminal Process Services, and the Victim Advocacy program.

FY21 expenditures in this division have decreased \$174,361, or 8.6%, primarily due to decreases in payroll expenses, which include the transfer of two unfilled detective positions to the patrol team within the Uniformed Operations Group division and a six-month delay in the hiring of unfilled positions. Revenues have increased \$79,837, or 30.1 %, attributed to an increase in the Maine Drug Enforcement Agency (MDEA) payroll reimbursement rate.

Operations Support Services

The Operations Support Services Division is commanded by the Assistant Chief and is comprised of the following sections: computer crimes, forensics, property, training, and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

Expenditures in this division have decreased \$31,006, or 3.4%, primarily due to FY21 reductions in the police training line. FY21 revenues have increased \$28,888, or 57.8%, due to a vendor change for public accessed accident report requests.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services and is supervised by the Emergency Communications Director. Serving the Town of Cape Elizabeth, South Portland and the City of Portland, the PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate police, fire, and emergency medical services resources. The 2011 regional consolidation allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

FY21 expenditures in this division have increased \$15,729, or 0.7%, primarily due to slight increases in payroll for shift coverage and medical expenses for pre-employment and new hires. FY21 revenues have risen \$242,711, or 28.1%, reflecting an increase in the cost share reimbursement calculation of the Portland Regional Communications Center (PRCC).

Jetport Security

The Sergeant assigned to the Jetport Security division serves as a direct liaison between the Police Department and the Jetport staff and Administration.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoints during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

FY21 expenditures and revenues in this division have decreased \$6,250, or 1.1%, due to slight decreases in both payroll and training expenses. The cost for this division is entirely offset by revenues received by the Jetport.

Fire

The Fire Department consists of five divisions: Administration, Code Enforcement and Community Services, Field Operations, Operations Support Services and Jetport Air Rescue. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall expenditure decrease is \$430,782, or 2.4%. Payroll budget reductions account for the majority of the expense decrease with other reductions in the supply and minor capital lines offset partially by increases in the maintenance and repair lines. In FY21, there is a reduction of two department positions as well as the removal of the unsettled contract increases for 224 FTE's previously budgeted in FY20.

The FY21 revenue increase is \$302,143, or 6.6%. The revenue increase is mainly attributed to new fees approved in FY21 and an increase in the Air Rescue Station division expenses 100% reimbursed by the Jetport.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

This division also administers the human resources activities for the department including hiring, worker compensation claims, benefits, wellness, risk management, and payroll. The division has instituted a Peer Support Team, using the Police Department model, to deliver support and services to members facing crisis. This has positively impacted leave associated with Critical Incident Stress cases.

The FY21 Fire Administration budget increased by \$27,194, or 4.5%, due to department staffing changes during FY20 resulting in the addition of one new administrative position in this division. FY21 expenditure reductions include decreases in the various supply lines and in the travel and training line. FY21 division revenues remain flat.

Code Enforcement & Community Services

The division of Code Enforcement and Community Services is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Additionally, the division reviews site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground & underground storage tanks and liquefied petroleum gas tanks.

The division administers the Fire Prevention Code, N.F.P.A 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. This division also provides the management and oversight of company level inspections of residential and commercial properties totaling over 5,000 a year.

Code Enforcement and Community Services also comprises the public information, education and community outreach initiatives, which includes the Portland High School Program, public education materials, and public information of current events affecting the citizens of Portland.

The Code Enforcement and Community Services division's budget decrease of \$50,426, or 17.5%, is mainly attributed to overtime and training line-item reductions. FY21 revenues remain flat.

Field Operations

The Field Operations division is responsible for providing emergency services including fire suppression, emergency medical care and transport, hazardous materials response, technical rescue response and any possible public emergency. The division supports fire and life safety programs through routine field safety inspections.

The Field Operations division is responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting services. Responsibilities include ensuring compliance with state mandated requirements, including EMS and basic and advanced firefighting, and encompass overseeing the medical licenses of over 200 personnel. Field EMS Operations provides advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR, to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit provides in-service training for all fire department members as well.

Field Operations provides emergency services for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay, including emergency medical transportation for the island residents, as well as training for the islands' volunteer call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. Additionally, this division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. This division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations.

The FY21 Field Operations division expenditure decrease is \$533,838, or 3.6%. This budget reduction is attributed largely to payroll decreases including department staffing changes resulting in three division position reductions and the removal of unsettled contract increases included in the FY20 budget. Other reductions include a decrease in wearing apparel and minor equipment requests, and monies for the FY20 purchase of two cardiac monitors. The department's billing services was reclassified from a contractual service to an administrative service expense in FY21. Revenues have increased \$200,000, or 6.0%, as a result of the FY21 approval of new fees.

Operation Support Services

The Operations Support Services division encompasses Hydrants, Building Maintenance and Fire Alarm. The hydrant system is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment. Building maintenance provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors. The fire alarm section maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Portland Regional Communication Center's (PRCC) core equipment.

The Operations Support Services expenditure increase of \$69,620, or 8.7%, is attributed to the increase in maintenance expenses at nine stations around the city and hydrant costs.

The divisional revenue has increased \$25,475, or 26.9%, largely due to FY21 fee increases.

Air Rescue Station

The Jetport Air Rescue Station Division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The Air Rescue Station expenditure and revenue increase of \$76,668, or 7.5%, is mainly due to the increase in overtime and vehicle maintenance and repair costs.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Planning & Urban Development

The Department of Planning and Urban Development consists of two divisions: Administration and Planning.

A reorganization in FY21 moved the Housing and Community Development division out of the Planning & Urban Development Department into the Housing and Economic Development Department. This restructure also included staffing organizational shifts: four positions formerly budgeted in Planning Administration and three positions formerly budgeted in Planning's Housing & Community Development division.

The FY21 department net budget reduction is \$328,548, or 32.6%: department expenditures decreased \$654,510, or 31.5%, and department revenues decreased \$325,962, or 30.4%. The FY21 budget includes payroll savings attributed to furloughs and delayed hiring during the pandemic. Additionally, the contractual services lines reflect a reduction due to the zoning re-write dollars budgeted in FY20 and a decrease in non-reimbursed advertising costs.

The planning department will continue to work on the City-Code Chapter 14 zoning re-write through FY21.

Planning & Development Administration

The Administration division oversees all operations of the Department of Planning and Urban Development.

The FY21 expenditures are down \$348,406, or 62.2%, largely due to the reorganization and transfer of the Housing & Community Development division to the Housing & Economic Development Department which also incorporates four Planning Administration position salaries, as well as the associated revenue offset. Other Administration payroll savings include staff turnover and the delayed hiring of an Administrative Assistant until January of 2021.

Planning

The Planning division provides comprehensive and long-range planning for the City. This division conducts development review for site plan, subdivision, historic preservation, DEP site location permits, and rezoning requests. Division services include the development and updating of the City's Comprehensive Plan (<http://www.portlandsplan.me>), neighborhood planning, implementation of plans, the City's public art program, multimodal transportation planning, and historic preservation planning. The Planning division also manages the Congress Square Park redesign and other urban design initiatives.

The FY21 Planning expenditures have decreased by \$116,935, or 8.8%. Reductions include the FY20 operating budget funding for the City Code Chapter 14 zoning rewrite, non-reimbursed advertising costs, and reflected savings for furlough and vacancies due to the pandemic. FY21 projected revenues have increased \$80,274, or 12.6%.

Housing & Community Development

A reorganization in FY21 transferred the Housing and Community Development division from the Planning & Urban Development Department to the newly titled Housing & Economic Development Department.

The Housing and Community Development division is a net zero budget; any increase or decrease in the budget has no impact on the tax levy.

Permitting & Inspections

The Permitting and Inspections Department consists of four divisions: Administration, Inspections, Housing Safety, and Business Licensing. The department is responsible for issuing building permits; enforcing the City's building, plumbing, electrical, housing, and land use codes; issuing business licenses and Certificates of Occupancy; and maintaining the rental housing registration program.

The department's expenditures have increased \$77,484 or 4.2%. This increase incorporates personnel staffing changes, a department net increase of a +2.25 full-time equivalent positions (FTE). FY21 expense reductions include the FY20 budgeted contractual microfiche conversion monies and reductions in the administrative services lines.

The department's FY21 estimated revenue has risen by \$230,108, or 4.7%. The increase in anticipated business licenses revenue is related to the recently passed marijuana ordinance; the revenue increase also includes a modest increase in building permit revenue.

Permitting & Inspections Administration

The Administration Division is responsible for overseeing all aspects of the Permitting and Inspections Department. This division consists of the Director of Permitting & Inspections and the Principal Administrative Officer, as well as the necessary tools to support the oversight of the department's operations.

This division's expenditure budget increase of \$25,851, or 19.8%, is attributed to the anticipated full-time restore of the Director of Permitting & Inspections in January 2021 from the previously budgeted 0.5 FTE.

Inspections

The Inspections division issues permits for the construction of all types, and acts as the enforcement agency for building, housing, plumbing, electrical, mechanical, zoning, and land use rules and regulations.

This division's expenditure budget has decreased \$33,703, or 3.1%. This decrease is predominantly attributed to the budgeted FY20 contractual services monies for microfiche conversions, and also includes various other line-item reductions. This division encompasses a net increase of a half-time position. The division's revenue budget has increased \$63,250, or 2.1%, and is attributed to the steady increase in development and building permit revenue and revenue from the State Fire Marshal's delegated fire plan review.

Housing Safety

The Housing Safety division administers the rental housing registration and inspection program for residential rental properties in the City of Portland, and is responsible for enforcing housing and life safety codes.

The Short-Term Rental Registration program contributed approximately \$176,000 to the Housing Trust Fund in FY19 and approximately \$123,000 in FY20.

This division's expenditure budget has increased \$74,137, or 18.2%. This budget includes an increase of 1.4 FTEs, which also consists of a reallocation of wages across divisions.

This division's revenue budget has increased \$14,175 or 2.3%. The net revenue increase is due to an anticipated rise in rental registration activity and reinspection fee income. The net revenue generated from the Short-Term Rentals registration program will be contributed to the Housing Trust Fund.

Business Licensing

The Business Licensing division processes over 4,200 licenses annually as required by the City Code, including the oversight of the City's taxi licensing. The Health Inspection program is also included within this division which encompasses food service establishment inspections, and Certified Food Protection Manager (CFPM) exam administration and enforcement, as well as Fats, Oils, and Grease (FOG) maintenance inspections.

This division's expenditure budget has increased \$11,199, or 4.8%, predominantly due to the 0.1 net FTE position increase and an increase in reimbursed advertising costs.

This division's revenue budget has increased \$152,683 or 11.9%, and is primarily attributed to the FY21 implementation of the marijuana licensing ordinance.

Information Technologies

The City of Portland Information Technology Department (COP IT) has recently undergone a significant transformation including a new organizational structure comprised of three teams: the Advanced Services Team, the Core Team and the Service Desk.

The newly formed Advancing Services Team is responsible for the quality of COP IT performance through IT Targeted Services Management, momentum and control of all IT projects, and advancements through user training, process improvement and new technologies. Strategically, this team is focused on assessing the quality of COP IT work and paving an easy path for better quality.

The Core Team, in addition to application support, is responsible for all foundational infrastructure and systems that applications and users rely on. This team ensures confidentiality, integrity, and availability of three major application stacks (public administration, GIS and public safety) and many other line of business applications. In addition to managing and updating these core systems, the team also processes the tier-3 and tier-4 support escalations from the IT Service Desk. Strategically, this team is focused on more reliable, cost effective, and better performing core elements to support business agility.

The IT Service Desk is responsible for direct city staff support including end-user devices. With the support of Advancing Services, this team is developing tier-0 material (IT Self-Help information), and in context of the reorganization they are building a new emphasis on and confidence in immediate tier-1 support. This team also handles more technical tier-2 issues, including those that need one-to-one support whether onsite or remote. Strategically, this team is focused on bringing the time to resolution closer to the customer's first moment of need.

FY21's aggressive spending reduction goals creates a very challenging scenario. During the increased dependency on technology in 2020, the department has continued to focus on quality while pivoting to different ways of doing things; the department strives to continually deliver good quality service.

The FY21 expenditures have decreased \$325,234, or 11.2%. The expense decrease is attributed with several significant contractual service items that have been either renegotiated or not renewed in FY21. The revenues, representing the reimbursement of costs and services provided to the Enterprise Funds and external users, decreased \$4,246, or 1.0%.

Public Works

The Director of Public Works oversees the operations of eleven (11) divisions within the General Fund, as well as the Street Opening, Sewer and Stormwater funds. The Director along with the Deputy Director of Public Works, division managers and administrative support staff, provide day to day supervision for these functions. The department is responsible for basic municipal services, public infrastructure management, citywide fleet management, the development and implementation of capital improvement plans, and the wastewater - stormwater utilities. Department staff supports several city committees including the Sustainability and Transportation Committee.

The FY21 Public Works General Fund expenditure budget decreased by \$980,468 or 6.7% while the revenue budget increased by \$94,237 or 1.8%. The FY21 primary expenditure decreases include the staffing reduction of 9.4 FTEs, vehicle fuel for the City's fleet, and capital outlay. Contractual services changes include the reduction of pavement markings monies to one annual application, formerly two, and additional funds appropriated for the waste management contract and the snow dump. In FY21, the former Transportation Operations program was restructured and split into two; the existing org was renamed to Transportation Engineering under the department's Engineering Division, and a new org entitled Traffic & Transportation Operations was created under the Public Works Operations Division.

Public Works Administration

The Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of street opening permits and street-sidewalk occupancy permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

The FY21 Public Works Administration expenditure budget decreased by \$53,915, or 7.4%, predominately due to the net reduction of one-and-a half positions: two administrative positions were eliminated and a new Program Coordinator position was approved starting mid-year. The majority of this division's revenue is related to salary reimbursements from the Sewer and Stormwater Enterprise Funds for their apportioned costs.

Streets & Sidewalks

The Streets & Sidewalks division is a national award-winning multi-tasking Public Works maintenance program comprised of five working crews. The division is responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, and grounds maintenance, including winter sidewalk snow removal operations.

The division continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. This division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. Furthermore, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

The FY21 Streets & Sidewalks budget decreased \$63,634, or 3.7%, largely attributed to a decrease in temporary help wages and various supply line items.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, significantly reducing the recycling fleet. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces, as well as over 60 solar smart trash compactor units.

City property owners may dispose up to ten qualified bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card.

The Bulky Item Pick-up program was implemented in May of 2012. Residents can apply online and request stickers to attach to their approved items for disposal. Qualified small items, less than 30 pounds, which will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten qualified small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for qualified items over 30 pounds.

FY21 Solid Waste expenditures increased \$99,968, or 4.7%. This budget includes the reduction of three-and-a-half positions, a decrease from the FY20 capital outlay request, and an increase in the waste management contract.

Communications

The Communications section encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This section is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and EMS) of emergency situations occurring on the streets of Portland as reported by any Public Works employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

The FY21 expenditures decreased by \$1,345, or 0.7%.

Portland Downtown District

The Portland Downtown District (PDD) is responsible for providing maintenance, cleaning services, and sidewalk snow removal to the downtown district. Expenses for this division are offset by revenue from the PDD Corporation for the services provided.

The FY21 budget includes the addition of one full-time maintenance worker position, with a reduction in the temporary help line.

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Works workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public. Winter operations actual expenses remain dependent on snowfall and severity of winter conditions.

Winter expenses remain flat for FY21, with a \$78 increase. The expense increase in contractual services relates to the snow dump and is offset by other line reductions in wages and winter vehicle rental operations.

Island Services

Island Services is responsible for all Public Works functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. Island Services also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

The FY21 Island expenditures increased \$1,475 or 0.2%. The small revenue reflected in this division represents scrap metal sales, an anticipated decrease of \$750 or 14.3%.

Traffic & Transportation

In the FY21 budget, the Transportation Operations budget under the Public Works Engineering & Transportation Division was split creating this new Traffic & Transportation Operations program under the Public Works Operations Division.

The Traffic & Transportation Operations program supports field operations, personnel, materials, systems maintenance and utility costs. Over \$400,000 is budgeted for annual electric utility costs for street lighting and traffic & pedestrian signals. This program is also responsible for the city's annual pavement marking as well as equipment, material & labor associated with regulatory and advisory traffic and parking signage throughout the city.

For comparative purposes, the FY21 budget includes the reduction of pavement markings from twice a year to one annual application, as well as a 0.4 FTE position reduction due to a delayed FY21 hire.

Transportation Engineering

In FY21 the Transportation Operations budget under the Public Works Engineering & Transportation Division was split into two separate programs, Transportation Engineering as displayed here, and Traffic & Transportation Operations under the Public Works Operations Division.

Along with the Engineering division, the Transportation Engineering team provides civil engineering support to the Planning & Urban Development Department as well, supporting an increased volume of Locally Administered Projects funded by the Federal Highway Program thru PACTS and Maine DOT.

The FY21 Transportation Engineering budget changes include the reduction of three full-time positions. For comparative purposes, the Transportation Engineering program revenues increased \$76,133; the projected Street Occupancy permits rose 38.5% while CIP salary reimbursements are projected to decrease.

Engineering

The Engineering division is comprised of a team of professional and technical staff with Civil Engineering, GIS, and Construction Engineering expertise. The Engineering team supports the Water Resources division and numerous City Departments with several vital resources, including City Archives, survey, research, street numbering, GIS data, Right-Of-Way permitting, and construction activity inspection and enforcement. A key role of this division includes supporting the Planning & Urban Development Division with all land development proposal review and activities.

The FY21 expenditures have decreased \$59,727, or 4.7%. The FY21 expense changes consists primarily of wage decreases including the net reduction of one FTE due to the delayed mid-year hire of two positions. Revenues have increased \$38,372, or 4.3%, largely due to the projected salary reimbursements from the Street Opening and Enterprise Funds.

Fleet Services

The Fleet Services division purchases, repairs, and rebuilds the City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, City Administration, Public Works, Parks Recreation and Facilities, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee, and maintains the vehicle replacement program city-wide.

Fleet Services, located at Canco Road, is also responsible for housing the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments with two certified fabricators.

The FY21 Fleet Services budget has decreased \$426,005, or 11.2%. The most notable budget changes include the projected decrease in vehicle fuel costs, a reduction in capital outlay requests, and a decrease in maintenance & repair costs. The budget also incorporates the reduction of one supervisor position. Revenues are anticipated to decrease \$21,100, or 9.4%, correlated largely to the lower fuel cost chargebacks to the Enterprise Funds.

Parks, Recreation & Facilities

The Parks, Recreation and Facilities Department consists of three major divisions: Parks, Recreation, and Public Assemblies. The Parks division oversees parks, open spaces, trails, community gardens, playgrounds, courts, fountains, forestry and horticulture, athletic fields and cemeteries. The Recreation division manages four community centers, senior adult programming, three pools, therapeutic recreation, general community recreation programs, Riverside Golf Course and Restaurant, and the Troubh Ice Arena. The Public Assemblies division is responsible for the scheduling and management of Merrill Auditorium, Hadlock Stadium, Portland Exposition Building, Ocean Gateway, and the Maine State Pier, including the management of the City's concessions and custodial services.

The FY21 department's expenditures have decreased \$2,192,724, or 19.0%. The department operations have been substantially impacted by the pandemic since the onset in March of 2020 due to the state and federal restrictions on bringing people together. As a result, there are significant decreases in personnel and program supplies which includes the reduction of 25.3 FTE staff positions. Revenues have also decreased \$1,988,754, or 25.4%. While it is still unknown when all the traditional activities will be able to resume, the City is hopeful and ready to restore services, bringing back all programming to the community when it can safely be done.

Parks, Recreation & Facilities Administration

The Parks, Recreation and Facilities Administrative division serves a large and extremely diverse department. The Administrative division oversees the numerous activities and challenges that transpire within the department, including providing general administrative support, centralized accounting, and payroll duties.

The FY21 budget decrease of \$156,001, or 24.4%, is primarily due to the elimination of the Deputy Director of Parks, Recreation and Facilities position.

Parks

The Parks division manages a park system that includes over sixty parks, seven-and-a-half miles of multi-use trails, ten community gardens, two stadiums, and dozens of athletic fields and courts all spread across 1,288 acres of land. The Parks division also stewards an urban forest of 20,000 inventoried trees, and maintains flowerbeds, meadows, and natural open spaces throughout the city. Our Park Rangers strive to make our parks safe for all, and our hard-working maintenance crews keep our parks beautiful in the summer and plow our city sidewalks and trails in the winter.

The Parks division aims to provide outdoor recreational opportunities for everyone during all four seasons of the year from the Portland Skatepark, to four splash pads and wading pools, two dog parks, three maintained ice-skating ponds, a sledding hill, and miles of groomed cross-country ski tracks.

The Parks program expenditures, a program of the Parks division, decreased \$282,744, or 25.0%. The FY21 budget incorporates a significant decrease in salaries, a net reduction of 4.5 FTEs with the addition of a full-time Park Ranger, and a reduction in community garden funding. Revenues are anticipated to increase \$70,955 or 78.2%; the addition of Keep Maine Healthy Grant revenue is helping to offset the additional costs Parks is incurring due to the Coronavirus pandemic.

Forestry

The Forestry / Horticulture section is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance is performed as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs blocking streets.

Forestry / Horticulture actively seeks grant money from the State to increase the number of city trees planted each year. Forestry also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees across the City. Furthermore, the Forestry staff helps to maintain the City's status as a "Tree City USA", an award Portland has received since 1978.

The Horticulture crew creates and maintains beautiful display gardens including our Deering Oaks rose garden and downtown planters.

The FY21 Forestry expenditures increased \$16,213, or 2.3%, largely attributed to the additional expenses from the Keep Maine Healthy Grant, fully offset by additional revenue.

Athletic Facilities

The Athletic Facilities section, overseen by the Parks division, is responsible for the care of all City-owned athletic facilities in Portland. This includes fourteen baseball / softball fields, two artificial surface football / soccer stadiums, fifteen multi-purpose fields, thirty playgrounds, and a variety of tennis, basketball and volleyball courts, as well as ornamental water fountains.

The FY21 budget has an increase of \$101,155, or 12.5%, and includes a net increase of a half-time position. This budget continues the implementation of the city's pesticide ordinance and adds funding for extra porta-potties. Revenues are projected to decrease \$102,635, or 29.4%.

Cemeteries

Cemeteries is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. The Cemetery crew also maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Overall, the Cemetery Operations is responsible for the care and maintenance of thirteen cemeteries.

In addition to the care of grounds, the division is responsible for interments and disinterments, lot sales and other funeral-related services. Wilde Memorial Chapel, located on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

In addition to the conventional use as cemeteries, cemeteries have also traditionally been used as public parks. Evergreen Cemetery, for example, is comprised of an extensive network of country lanes, paved roads, wooded trails, and greenscape which invite exploration. As the largest open space in Portland, this cemetery attracts a rich variety of avian life; the Maine Audubon utilizes Evergreen Cemetery and its undeveloped woods for annual bird watching excursions.

The Cemeteries budget has decreased \$43,382, or 5.2%, primarily due to reductions in the temporary help and contractual services lines. Revenues are anticipated to increase \$127,135, or 22.5%, due to an overall increase in cemetery fees.

Recreation

Recreation provides a wide range of programming / leagues and clinics for all age groups in the City and operates four community centers: Riverton, Reiche, East End, and Peaks Island. Recreation offers before-and-after school programming, known as the Before and After the Bell Program, at all elementary schools as well as summer camp programs. While the City's traditional recreation programs may not look the same this year, the core programs have been modified to meet current safety standards as well as the needs of the community.

In the FY21 budget, the division was forced to make the difficult decision to temporarily cut the popular Senior Adults program; with the Coronavirus pandemic, the determination was made that this program could not safely be operated. The Senior Adults program will be restarted when groups can safely gather again.

The FY21 expenditures budget has decreased \$475,939, or 25.0%, due to the temporary program reductions in a variety of line items, including a decrease in personnel costs and a reduction of 6.8 FTEs. Revenues are also expected to decrease \$658,643, or 36.3%.

Aquatics

Aquatics operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. The division offers swimming lessons and aquatic programming for all ages including adult water aerobics and a Master's level program. In any given week pre-pandemic, the Aquatics division traditionally instructs over 700 people in city pools, from infants to adults. Stand-up paddling continues to be a big success with classes filling to capacity each session.

The FY21 expenditure budget has decreased \$168,951, or 26.4%. Budget changes include reduced personnel costs, including 2.6 FTE position reductions, as well as decreases in various other program related lines. Likewise, program revenues are estimated to fall \$165,162, or 38.7%.

Riverside Golf Course

The City-owned Riverside Golf Course offers 30 holes: the 18-hole North Course, the 9-hole South Course and the 3-hole practice course. Amenities include lessons and clinics. Riverside is also home to several golf tournament events each year.

Riverside is also a full-service winter venue: sledding hills, two ice skating ponds, and many miles of cross-country ski trails are provided at no cost to participants.

FY21 expenditures decreased \$109,140, or 9.9%, mainly due to personnel cost reductions, including the reduction of two FTE positions. Revenues are projected to decrease \$196,422, or 15.5%, in response to the pandemic environment.

Golf Course Restaurant

The Riverside Grill restaurant, located at the Riverside Golf Course, had been overseen in-house by the Golf Course staff since May 2014. Due to the pandemic the restaurant remains closed for the 2020 season, however, the restaurant is providing a golfers' beverage / food cart option. This year, restaurant operations will conclude at the end of the 2020 season with a reopening date yet to be determined.

FY21 budget expenditures are expected to decrease \$313,088, or 57.9%, due to the winter closing date and Covid restrictions. Revenues are expected to decrease \$348,500, or 64.4%, due to the reduced schedule.

Ice Arena

The Ice Arena is named in honor of the late William B. Troubh; William B. Troubh was instrumental in creating the rink when he served on the City Council during the 1970s-1980's. The City-owned rink, located next to the Portland Expo and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice-skating and figure skating lessons are offered as well.

The FY21 expenditure budget is decreasing \$44,155, or 7.4%, attributed largely to the reduction in the payroll and utility lines. Revenues are projected to decrease \$68,565, or 10.7%, due to the state's coronavirus pandemic limitations on group sizes for classes and events. At the time of the FY21 budget preparation, little was known on the future state of the social gathering restrictions; the Ice Arena remained closed during the summer of 2020 and has reopened in September 2020 for private lessons at minimal capacity.

Public Assembly Facility (PAF)

Public Assemblies Administration supervises the general management, marketing, booking, event coordination and other miscellaneous staffing and operational needs of the department's Facilities division functions. Maine State Pier, Ocean Gateway and Permitted Events also fall under the Public Assembly Facilities division. The Maine State Pier and Ocean Gateway traditionally hosts over 150 annual events with over 60,000 guests in attendance; these events include concerts, weddings, proms, non-profit fundraisers, business meetings and holiday parties. Over 600 permitted outdoor events traditionally take place within the City including road races, block parties, farmer's markets, Art Walks, and rallies.

The performing arts and sports industries have been profoundly impacted by the Coronavirus pandemic. The Public Assemblies division is driven by these industries and thus has also been significantly impacted by event cancellations and disruptions due to capacity limitations.

The FY21 expenditure budget is projected to decrease \$451,197, or 42.5%. This is due to the reduction of personnel costs, including the reduction of 8.3 FTE positions, as well as the reduction in event related costs. Revenues are also expected to decrease \$104,980, or 13.1%. While outdoor events and small gatherings are flourishing, the larger more attended events are currently decreasing.

Concessions

The Concessions division manages the concessions and catering operations for Merrill Auditorium, Portland Exposition, Fitzpatrick Stadium and the Troubh Ice Arena.

Concessions, as of February 2020, also oversees the management of the Clock Tower Café in City Hall previously managed by the Barron Center; FY21 is the first year all expenses and revenues are located within this program.

The FY21 expenditures decreased \$48,447, or 11.6%, primarily attributed to a reduction in payroll due to the closure of all performing arts and sports venues for events. Revenues are expected to decrease \$31,367, or 6.6%.

Custodial Services

Custodian Services provides the personnel and materials for the cleaning operations of City Hall, Public Safety, Merrill Auditorium, Expo, the Canco Road complex and Ocean Gateway, as well as other city facilities. This operation is under the direction of the Parks, Recreation and Facilities Department.

The FY21 expenditures have decreased \$143,873, or 15.0%. This budget includes a large reduction in temporary personnel costs as well as a reduction in cleaning supply costs.

Merrill Auditorium

This division program includes all the expenses for the venue operations at Merrill Auditorium, a 1,900-seat performing arts venue attached to City Hall. Prime Tenants include Portland Ovations, the Portland Symphony Orchestra, and Friends of the Kotzschmar Organ. The theater hosts a variety of performances each year including symphonies, Broadway performances, concerts, comedians, graduations and holiday programming. Merrill Auditorium traditionally hosts approximately 125 annual events with over 148,000 patrons in attendance.

Merrill Auditorium is one of the hardest hit divisions by the ongoing Coronavirus pandemic. The performing arts industry has severe restrictions on attendance levels as well as performance staffing levels. Due to the safety restrictions that are in place, most performing arts venues including Merrill Auditorium, are operating on a virtual basis; our prime tenants are streaming shows on virtual platforms for their patrons' entertainment.

The FY21 expenditure budget has decreased \$73,175, or 40.1%, mostly due to the reduction in personnel costs consisting of a reduction of a 0.6 FTE position. Revenues are also expected to decrease \$530,620, or 64.2%.

Public Buildings & Waterfront

The Public Buildings & Waterfront Department oversees the City's public buildings including the many smaller facilities, island infrastructure, trail lighting, School HVAC, and the maintenance and long-term planning for the Fire Department. The Public Buildings & Waterfront Department also manages and maintains the Portland waterfront piers and facilities, including cruise ship operations. This department is comprised of a skilled staff and licensed trades workers whose tasks consists of everyday maintenance, long term facility planning, and general contracting.

FY21 Department expenditures have remained virtually flat, decreasing \$1,157 or 0.0%. This budget incorporates solar panels at the Ocean Avenue landfill, trail and seawall repairs, and ADA Upgrades at the Cummings Center for public restroom use. Other budget item changes include the renovation of the Purchasing office, new proximity card building access, and boom lift replacement. Contractual and temporary services expenditures relating to the cruise ship operations have been reduced.

The department's revenue decrease of \$1,930,093, or 54.4%, is directly related to the pandemic's US water "No Sail" order affecting the Waterfront's division cruise ship operations. City staff continues to work closely with State and Canada NE Partners preparing for a safe return of service for arriving guests.

Public Buidlings & Waterfront Administration

The Public Buildings and Waterfront Administration staff oversees the maintenance and up-keep of various city buildings, including the Waterfront division. Functions include providing general administrative support, centralized accounting, budget preparation, CIP oversight, and payroll, as well as long term facility planning and general contracting.

The FY21 budget increase is \$4,624 or 1.2%, predominantly due to salary increases; wages incorporate a personnel furlough reduction during the pandemic.

Trades

The Trades Division budget is comprised of a highly skilled workforce that maintains, repairs, and renovates the various City buildings. Services provided include carpentry, painting, electrical, plumbing, remodeling, and maintenance of the heating and ventilating systems.

The FY21 expenditures decreased \$131,531, or 17.8%, primarily due to salary reductions. This budget includes a net reduction of 2.0 FTE positions as well as a furlough adjustment reduction. The program's primary revenue relates to the reimbursement of services performed for the Fish Pier enterprise fund.

Canco Road

The Canco Road Buildings includes the properties at 212 Canco Road and 250 Canco Road. The Canco Road Municipal Complex houses staff and services of the Public Works and the Parks Recreation & Facilities departments. In addition, the Canco Road facility provides storage space for Public Safety and is home to the Fire Department's Fire Alarms section. This budget provides for building maintenance items, small office renovations, and monthly utilities.

The FY21 expenditures are down \$17,400, or 4.0%, largely due to the budgeted decrease in utility costs.

Waterfront Maintenance

Waterfront Maintenance is responsible for the repair, maintenance and operations of City-owned waterfront property which includes the Portland Ocean Terminal, Maine State Pier and Ocean Gateway.

Division responsibilities include fender system replacement, pier deck repairs, and exterior wall pile cap and stringer repairs. The division also maintains over thirty floats between the mainland and islands.

FY21 expenditures are decreasing by \$83,584, or 6.3%. Budget changes include expense reductions in various cruise ship operating lines, predominately in contractual and temporary services, including the 0.5 FTE Director of Cruise Ship Marketing contracted position. The FY21 budget contains funds for trail and seawall repair as well a divisional increase in temporary help for the parking lot oversight previously budgeted in PAF Administration. The coronavirus No Sail Order suspended the cruise ship operations affecting the entire 2020 cruise ship season in Portland. The FY21 Waterfront division revenue is decreasing \$1,983,967, or 74.3%.

Health & Human Services Department

The City's Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This assignment often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

The HHS Administration division consists of four full-time positions including the Director of Health and Human Services, and administrative support staff.

FY21 HHS Administration expenditures have decreased \$8,111, or 2.4%, largely due to a slight decrease in payroll and a reduction in the travel and training line.

HHS Public Health

Public Health, a division of the Health and Human Services (HHS) Department, is the State's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, Health Equity, India Street Health Center, and Research and Evaluation. Public Health's specific activities include, but are not limited to, health policy development, public health research, data surveillance, health education, and analysis and communication, providing direct services to the underserved

FY21 Public Health expenditures rose \$123,272, or 5.9%, due to additional funding opportunities. This budget includes an additional four full-time positions and increased temporary help monies for interpreter services. Public Health revenues increased \$684,681, or 60.4%.

Public Health Administration

The Public Health Administration division provides support services to all programs within the Public Health division, as well as administrative support to HHS. These services include grant management, policy and procedures creation and management ensuring HIPPA confidentiality compliance, Public Health Accreditation Board requirement maintenance, payroll and reimbursement processing, supply ordering, facilities support, and liaises with the City's Finance, Legal and Information Technology departments.

The Public Health Administration revenue estimate reflects the administrative fee received for the management and oversight of the various grants administered by Public Health

FY21 Public Health Administration expenditures increased by \$3,647 or 1.3%. Revenues increased \$157,039, or 88.4%, predominantly due to the FY21 Keep ME Healthy grant.

Family Health

Family Health is comprised of the Maternal & Child Health program. This program offers a variety of services to Portland residents including free home visits for residents who are pregnant or have a child up to age 5. Education and services include developmental assessments, healthy eating, and child safety assessments, including lead hazards. Additional services include the Maternal & Child Health Programs' playgroup to serve children ages 0-5 years.

FY21 Family Health expenditures decreased \$1,715 or 1.3%. Grant revenue decreased slightly by \$847, or 0.9%.

Chronic Disease Prevention

The City of Portland's Chronic Disease Prevention Program is dedicated to serving the residents of Portland by creating and advocating for health policies at the local and district level; the City utilizes evidence-based practices and collaborative partnerships. The health issues addressed include tobacco prevention, physical activity, healthy eating, lead poisoning prevention, skin cancer prevention, and substance abuse prevention and harm reduction services.

FY21 Chronic Disease Prevention expenditures increased by \$135,577 or 19.8%, due to the additional staffing of 3.7 FTEs funded by new grant sources. FY21 revenue increased \$203,707, or 35.5%, attributed primarily to the Tobacco Prevention Services grant, as well as the Keep ME Healthy grant.

Health Equity

The Health Equity program supports the Public Health Division with services to minority populations. The Health Equity program specific activities include health education to racial and ethnic minority groups, enrolling individuals in health insurance, and training public health and health care professionals in cultural competency. This program also implements the Enhanced National Culturally and Linguistically Appropriate Services (CLAS) Standards policies to ensure services are in compliance.

FY21 Health Equity expenditures increased by \$41,576 or 24.8%, largely attributed to the interpreter services temporary help increase. FY21 grant projected revenues increased \$28,092, or 59.2%.

India Street Clinic

The India Street Clinic, located at 103 India Street, houses the Portland Needle Exchange, the HIV/STD and Hepatitis C Prevention Program, and the Portland Community Free Clinic. Individuals who are enrolled in the needle exchange may access clean syringes, education, counseling, testing, overdose prevention and linkage to treatment. The STD clinic offers HIV, STD, and hepatitis C testing and treatment services for sexually transmissible diseases on a walk-in basis. The Portland Community Free Clinic has over one-hundred volunteer medical providers and support staff, and is a partnership between the City and The Friends of the Free Clinic, a 501(c)(3) whose mission is to raise funding for the clinic. The Portland Community Free Clinic provides medical care to the uninsured that earn below 250% of the Federal Poverty Level, are above the age of eighteen, live in Cumberland County, and are stably housed. India Street also houses a Public Health Laboratory.

FY21 India Street expenditures decreased \$36,031, or 4.9%, due to a reduction in contracted temporary services. Program estimated revenues increased \$278,204, or 114.9%, largely due to the FY21 Public Health Service Act Section 340B funding projection for outpatient pharmaceuticals.

Research & Evaluation

The Research and Evaluation program serves several important functions within the Public Health Division, including research, public health surveillance, analysis and interpretation of public health data, and program evaluation. The program conducts public health research that focuses on understanding determinants of health. In addition, this program conducts program evaluation, a systematic and objective assessment of the relevance, efficiency, effectiveness, sustainability, and impact of a program or intervention. Public Health surveillance, which is the systematic collection, analysis, and interpretation of health data, is another core program function. Data used to conduct public health surveillance include city-wide survey data collected by the Research and Evaluation program, as well as data obtained from local and national sources. The Research and Evaluation program serves as a major source for Public Health data repository.

FY21 Research & Evaluation expenditures decreased \$19,782, or 26.4%, primarily due to a reduction in salary expense. The FY21 program grant revenue is projected to increase \$18,486.

HHS Social Services

The Social Services Division provides both financial assistance and support services for low-income Portland residents. This division's purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Programs operated include General Assistance (GA), Homeless Shelters for individuals and families, Case Management and Representative Payee Services.

The FY21 Social Services division consists of four programs: Administration, General Assistance, Oxford Street Shelter and the Family Shelter.

FY21 Social Services expenditures increased \$1,455,588, or 11.1%, predominantly due to the increased funding in the General Assistance Program client expense lines, as well as personnel staffing costs. The Social Services division revenue increased \$2,146,809, or 26.6%. FY21 revenue estimates include reimbursement for increased GA expenditures and Covid-19 pandemic funding including the Emergency Solutions Grant (ESG), FEMA emergency housing funds, and Keep ME Healthy grant funds.

Social Services Administration

This Social Services Administration division is responsible for the overall general management of the Social Services programs. Services include grant management, data/statistical analysis, payroll, accounts payable, receivables, representative payee, and other operational responsibilities.

FY21 Social Services expenditures increased slightly by \$4,502 or 0.7%. The increased revenue of \$54,520, or 22.2%, reflects FY21 Covid funds from the Emergency Solutions Grant (ESG).

Social Services General Assistance

State law requires municipalities to administer General Assistance (GA) which provides for immediate aid to individuals who meet eligibility requirements and are unable to provide basic necessities essential to maintaining themselves or their families. Maine law states that municipalities have the responsibility to provide financial assistance to all eligible residents of their municipality, as well as non-residents who intend to reside in the municipality and have no other residence. GA provides basic needs in the areas of shelter, housing costs, utilities, food, medication, disposable diapers and hygiene items. All assistance is issued in vouchers and no cash is provided.

In FY21, the GA program has continued the focus on self-sufficiency through the HIRE (Helping Individuals Regain Employment) program. The program has increased the City's partnership with local employers, education professionals, and the local Career Center in order to aid our GA recipients in finding long term employment.

FY21 General Assistance expenditures increased by \$1,380,679, or 19.5%. This increase is primarily related to the increased expenditures for housing assistance and other client services in part due to the need for social distancing during the Covid-19 pandemic. Likewise, revenues have also increased, \$1,456,245, or 33.9%, and includes new FY21 funding related to Covid-19.

Oxford Street Shelter

The Social Services Division operates the Oxford Street Shelter and Community Overflow Shelter for adults. The Oxford Street Shelter is a low barrier facility that provides access to safe overnight shelter for homeless adults (18+) 365 days a year. During FY18, the Oxford Street shelter expanded its hours of operation to 24 hours. The Oxford Street Shelter has a capacity of 154 beds.

The shelter promotes a housing culture by offering an array of services such as housing triage, housing orientation, current apartment lists and assistance with travel to apartment showings.

FY21 Oxford Street Shelter expenditures increased by \$135,034 or 3.7%. This increase is predominately due to increased staffing; during FY20, the Oxford Street Shelter turned into a 24/7 operation. Other FY21 budget changes include the elimination of the City's Preble Street Dayroom rental / service as of the second quarter. FY21 program revenues increased \$516,992, or 22.7%. Additional FY21 budget funding sources include Covid-19 ESG and Keep ME Healthy grant monies in addition to increased General Assistance reimbursements based on budgeted expenditures.

Family Shelter

The Social Services Division operates the City of Portland's Family Shelter. The administrative and support services staff are located on the first floor of 54 Chestnut Street.

The Family Shelter provides temporary housing to families with children under the age of 18. Shelter apartments are located at 54-58 Chestnut Street, including one unit to accommodate individuals with disabilities. Combined, the Family Shelter has a total capacity of 151 beds in an apartment style living environment. Apartments are shared by families and are furnished. Residents have access to telephones, cleaning supplies, transportation, and other basic needs. Each family member is assigned a case manager who works with families to develop self-sufficiency work plans in order to obtain permanent housing.

FY21 Family Shelter expenditures increased by \$135,373, or 8.5%, mainly due to increased staffing including the addition of one full-time position. Program revenues also rose, \$119,052 or 9.5%, attributed to the FY21 ESG Covid grant.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of nine divisions.

The Barron Center provides comprehensive health care services to individuals in need, recognizing the unique value of each person with the purpose of preserving and enhancing the individual's quality of life. The Barron Center is a 219-bed skilled rehabilitation and nursing facility, including a 50-bed specialty unit for the care of dementia. The Center provides speech, occupational and physical therapy services, and short- and long-term nursing care services in addition to end of life and hospice services.

FY21 Barron Center expenditures increased \$164,655, or 1.0%, primarily due to increased personnel costs. This budget includes a reduction of 9.2 FTE staff positions. Revenues decreased by \$267,431, or 1.4%; during the pandemic, the facility is accepting limited new patients.

Barron Center Administration

The Barron Center Administration division is responsible for the care and management of the facility's capacity for 219 residents and 300+ full and part-time employees. The Business Office is responsible for the financial operations, which includes budgeting, payroll, accounts payable, and accounts receivable (including coordinating with the Barron Center's billing vendor).

FY21 Barron Center Administration expenditures increased by \$79,462 or 4.4%. The FY21 budget includes new healthcare consulting services funds offset by various other line-item decreases; the 3rd party billing was reclassified from contractual services to administrative services.

Office of Elder Affairs

Through the Office of Elder Affairs, the City provides the community with an Elder Advocate, who is available to work with any Portland senior who needs help. Assistance is provided in the form of senior information and referrals, adult day health services and community collaboration. Two Adult Day Programs offer supportive, daytime care that enables older adults living alone or with family to remain at home. One program specializes in the care of individuals with Alzheimer's disease or related dementias. Both adult day programs provide much needed respite for family caregivers.

The Office of Elder Affairs also collaborates with the Elder Abuse Institute of Maine to provide transitional housing and support services for elderly victims of abuse through the Martha's Cottage Project.

FY21 Office of Elder Affairs expenditures decreased by \$24,069 or 6.3%. Expenditure decreases include the reduction of a 0.4 FTE staff position and a reduction in food expense due to the Covid-19 temporary closure. FY21 program revenues decreased \$58,054, or 18.9%.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's 18.2 positions provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The FY21 Nursing Administration expenditures increased by \$42,721, or 2.7%, attributed to the budgeted increase in personnel costs.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit, located on the main floor of the facility, is a 25-bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36-bed unit located on the second floor. The majority of these patients have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36-bed unit located on the second floor. The dementia residents (continuing care dementia) on this unit are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36-bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50-bed unit, managed as five 10-bed "neighborhoods", which provides Alzheimer related services. BC II residents are highly mobile and require unique staffing considerations.

FY21 Nursing Direct Care personnel expenditures increased \$148,854 or 2.2%. This budget includes a FY21 temporary reduction of 7.0 FTE staff positions in response to the resident census and the limited new patient intake during the pandemic.

Nutrition & Supply

Nutrition and Supply consists of Resident Nutrition, Cafeteria / Catering, and Central Medical Supply. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, and visitors. Catering services are also provided for City functions, receptions, and celebrations. Central Medical Supply purchases, receives, stores, and distributes routine medical supplies, over-the-counter drugs, and other supplies for the various divisions within the Barron Center.

FY21 Nutrition and Supply expenditures decreased by \$106,978 or 3.7%. FY21 expense reductions include various supply lines, as well as a program reduction of 2.0 FTE staff positions which transferred to the Concessions operation in the Parks, Recreation and Facilities Department.

Environmental Services

The Barron Center's Environmental Services program is composed of six employees who are responsible for the maintenance of the twelve-acre Brighton Avenue facility. The maintenance division keeps the building in repair and working order through completing projects in-house or arranging for outside vendors. Maintenance is also responsible for snow removal, landscaping, and conducting facility fire drills.

FY21 Environmental Services expenditures increased minimally by \$6,140, or 0.5%, largely due to wage increases. The facility improvements budgeted for FY21 include patio repair and counter top replacements.

Debt Service

The Debt Service account provides for the payment of the principal and interest on the City's outstanding General Obligation Bonds, as well as the cost for the current-year bond issuance. Department revenue is from reimbursed bond costs, primarily from the City's enterprise funds and the School Department.

The FY21 Debt Service expenditure increase is \$612,481, or 1.4%. The FY21 cost increase is attributed primarily to the 2001 pension obligation bonds. The FY21 revenue budget decrease is in part due to the deferral of the Lyseth Elementary School renovation principal payment to FY22.

Public Library

Portland Public Library is a general-purpose library system that serves Portland and the surrounding region. Portland Public Library (PPL) provides a wide array of collections, programs, and services to 80,000 patrons through four locations, the bookmobile, and the outreach service to low-mobility community members, as well as 24/7 access through our “virtual branch” on its website.

The Portland Public Library is a trusted educational leader and multifaceted community resource in Portland. PPL welcomes everyone, and provides exciting and meaningful opportunities to children and families, and to teens and adults as lifelong learners. PPL is also frequently accessed by those on the margins – the economically challenged, those in recovery or newly release from incarceration, new Mainers, our aging population, and others in transition. In addition to collections of over 360,000 and more extensive online resources, the Library offers over 1,000 programs each year for citizens to engage in education, entertainment, important conversations about issues in the community, tutoring, training in workforce skills, and other opportunities for growth.

Portland Public Library is an independent 501(c)(3) non-profit organization, governed by a Board of Trustees. PPL finances all of its collections, programs, and outreach through an Annual Campaign, operational grants, fees, and endowment income. The City of Portland owns the land and buildings in which the Library operates its public locations. Municipal support from the City of Portland, Cumberland County, and the Maine State Library is directed solely to the infrastructure needs of these buildings and the salaries of Library employees.

This budget reflects the City’s contribution to the Library; the FY21 budget decreased \$250,713, or 6.0%. Due to the pandemic, the Library remains closed until further notice offering only PPL-To-Go door side services.

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60 (or at age 65 after July 1, 2014), and Public Safety employees with 25 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

The FY21 Pension expenditures decreased \$633,673, or 7.5%.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, FICA, Group Life Insurance, and Unemployment. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

The FY21 Employee Benefits expenditure budget estimate decreased \$1,188,727, or 5.1%. This decrease is attributed in part to the Health Insurance claim reduction occurring during the coronavirus pandemic.

Health Insurance Program

The Health Insurance Account provides funding for the City's self-insured health plan. The City picks up the full cost of medical individual and family coverage for full-time grandfathered employees. For all remaining full-time employees, the City picks up 85% of employee only costs, 72% of employee and child(ren) costs, 69% of employee and adult costs and 65% of family costs.

During FY17, the City introduced a new voluntary wellness program, aimed at improving health and well-being of employees by achieving healthier living. Participation in the program's five wellness activities provides an incentive at the beginning of each plan year for employees to reduce or eliminate the employee only 15% share of costs.

Claim payments are made by a third-party administrator.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. When applicable, this account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

Contingency

The Contingency account provides funds which are set aside as a necessary provision for meeting unforeseen contingencies and emergencies which may arise during the year. Expenditures for contingencies arising in the implementation of the policies and work programs established by the City Council are authorized by the City Manager.

General Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. In addition, the City purchases insurance policies to cover property and liability exposures with limits set forth in the Maine Tort Claims Act. Claims are processed in-house in the legal department through Maine Municipal Association's (MMA) property and casualty pool.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, airport and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

County Tax

County tax is assessed to each municipality by the county in which it resides. Distribution of the tax burden is made on the basis of the valuation of a municipality as determined by the State Board of Equalization. Portland's share of Cumberland County tax in FY21 has increased by \$370,843 or 5.6%.

Transit District (METRO)

The Transit District account provides subsidy support to the Greater Portland Transit District (GPTD), better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves, serving the communities of Brunswick, Falmouth, Freeport, Gorham, Portland, South Portland, Westbrook, and Yarmouth. Metro works with the Portland Area Comprehensive Transportation System (PACTS), the Greater Portland Council of Governments (GPCOG), multiple partner transit agencies, and member communities to implement a coordinated regional transit system.

A Board of Directors manages the transit district. The Board of Directors has responsibility for budgeting and financing. During the course of early 2019, Metro worked with the communities of Brunswick, Freeport and Yarmouth to move the Metro BREEZ project from its pilot phase to permanence. This also entailed bringing these communities onto the Metro Board of Directors as full members who also contribute their fair portion of the agency's fixed and overhead costs. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities.

The FY21 City's Metro budget has increased by \$89,286 or 3.2%. The FY21 revenue represents projected TIF and Coronavirus Aid, Relief, and Economic Security (CARES) Act reimbursement.

Regional Transportation

The Regional Transportation Program (RTP) provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP services the cities of Portland, South Portland, and Westbrook, with the cost apportioned based on ridership.

Memberships - Miscellaneous

The Memberships account provides for City membership in various professional and governmental organizations whose purpose is to provide services and information to the City. This year's budget includes funding for the Greater Portland Council of Governments, Community Television Network, the Maine Municipal Association, the Board of Harbor Commissioners, Peaks Island Council, the HOME Team, and Community Counseling for TIP Program.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On October 1, 2020, the FY21 sewer user fee increases to \$11.15 per hundred cubic feet (hcf). This is an increase of \$0.75 over the FY20 rate of \$10.40 per hcf, an increase of 7.2%.

In FY21, approximately 79.4% of the Sewer Fund budget is allocated for debt service and assessment fees to the Water District.

STORMWATER FUND

The Stormwater program / rate began mid-year FY16 on January 1, 2016; Stormwater related services separated from the Sewer Fund as part of an effort to achieve greater fairness in paying stormwater costs among its' users, allowing more equitable distribution of user costs which are based on impervious area.

The FY21 stormwater service charge increases to \$6.75/month per 1,200 square feet of impervious surface as of October, 1, 2020, an increase of \$0.45 or 7.1%. The City maintains the Stormwater billing system.

The collected funds from the sewer user fees and stormwater service charges are used to maintain and improve the City's infrastructure, and to fund projects related to the Department of Environmental Protection's ("DEP") mandated Combined Sewer Overflow ("CSO") requirements. The capital cost estimate of these projects totals several hundred million over an approximate 20-year time period.

JETPORT

The Jetport is ranked by the Federal Aviation Administration as the 94th largest airport in the United States based on enplanements as of calendar year 2019. The Jetport served 2.18 million passengers in calendar year 2019, which decreased to 1.63 million passengers in fiscal year 2020 as the COVID-19 pandemic reduced the use of air travel worldwide. The Jetport is served by four major airlines operating year-round: American Airlines, Delta Airlines, Southwest Airlines, and United Airlines, along with their regional partners. Additional seasonal service is provided by Elite Airways, Frontier, JetBlue and Sun Country.

Jetport Revenues

Parking	Ground Rent	Deicing
Terminal Rental	Intergov't	Concessions
Other	Landing Fees	Cargo Rental
Car Rental Income	Interest Income	

Note: Due to rounding, totals may not equal 100%

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 36% of the Jetport's total FY21 revenue estimate, with parking, rental cars, concessions, ground rent, and miscellaneous revenue providing the other 64%.

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a fee for parking ready spaces, counter space, and commission on gross sales to the Jetport. In FY21, car rental agency income is expected to draw 25% of the non-airline revenue. Parking, representing 44% of non-airline revenue, is contracted out to a private management company, which remits the net revenues generated by the parking operations on a monthly basis. With decreased air travel due to the pandemic, parking income, airline revenues and car rental revenue estimates all reflect significant reductions.

Note: FY20 and FY21 are estimated amounts

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are four enterprise funds administered by three departments of the City. A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Public Buildings and Waterfront department. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

STORMWATER FUND

The principal function of the Stormwater fund is to account for operating, maintaining, and meeting the capital costs requirements of the City of Portland stormwater and combined sewer infrastructure systems. The City of Portland maintains 129 miles of stormwater infrastructure, 141 miles of combined sewer systems, 96 miles of

sanitary sewer, 9 sewer-pumping stations, and approximately 15,000 other structures that help to move and treat stormwater.

The city is also responsible for the capital costs necessary to maintain the system and the development and redevelopment of properties within the city and for meeting State and Federal mandates regarding the quality of streams and tidal waters within its jurisdiction.

JETPORT

The Jetport Fund is responsible for the operation and maintenance of the Portland International Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine. Passenger enplanements have increased from approximately 250,111 passengers annually in 1980 to 1,088,728 for the calendar year 2019 before the pandemic.

The Jetport's major expenses include the terminal building, operation of the Jetport Parking division, and maintenance of the Airfield runways, taxiways and aprons. Other central expenses include security, administrative, and marketing costs.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

The FY21 expenditure budget has increased \$34,537, or 8.9%, and reflects the addition of the Waterfront Coordinator salary at 50%. Excluding projected surplus (revenues over expenditures), the FY21 Fish Pier revenue estimate is anticipated to increase \$22,126, or 4.0%.

Sewer Fund

The principal function of the Sewer Fund Enterprise is to account for the sewer services provided to City residents and business establishments. The Portland Water District, not a city department, owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly, quarterly or annual fees, based upon water volume, to support the expenses of the fund.

As an Enterprise Fund, expenditures and revenues net to zero. Revenues in excess of expenditures are recorded in the fund balance line.

The FY21 Sewer Fund budgeted expenditures decreased \$323,654 or 1.2%. This reduction is largely due to a decrease in capital outlay requests; the FY20 budget included funds for pump station improvements and driveway paving at 109 District Road, as well as a computer software wastewater modeling and management application. This budget includes a net increase of one full-time position.

Sewer Finance

This division's services are provided by the City's Finance Department. Finance provides billing and collection services, as well as lien processing for delinquent accounts. The Finance Department also maintains the financial records for the Sewer Fund and the computer network system.

The FY21 Sewer Finance division's decrease of \$37,582, or 26.5%, is related to the budget reduction in contractual services for the implementation of the city-wide public sector software system.

Sewer Districting

Sewer Districting is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance, and sewer inspections and investigations.

FY21 program expenditures have decreased \$81,476, or 3.1%. The FY21 budget changes include the net increase of two full-time positions, a decrease in manhole adjustments, an increase in contractual services for TV camera work and pest control, and a reduction in capital outlay related to FY20 projects at 109 District Road.

Sewer Communications

Public Works Sewer Communications accounts for the associated costs incurred for sewer related functions including service requests, street flooding and Dig Safe requests.

Sewer Communications expenditures are budgeted at one third of the general fund communications costs.

The FY21 expenditure program decrease is \$430 or 0.7%.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for the implementation of the Combined Sewer Overflow (CSO) abatement program and the industrial pretreatment program, both federally mandated by the Clean Water Act.

This divisional budget reflects a decrease of \$90,387, or 15.0%, largely due to the FY20 budget appropriation for a geographic information system (GIS) integrated modeling service for the management of stormwater drainage and wastewater collection systems.

Stormwater Fund

The Stormwater Fund supports the expenditures needed to operate and maintain this critical infrastructure system, preventing pollutants from entering valued waterways as mandated by the federal Clean Water Act (CWA). The stormwater fee, implemented in January of 2016 and separating from the Sewer Fund, was designed to disperse the program costs to all City property owners who benefit from the positive impacts of this investment. The stormwater fee is based on the impervious area on a property.

The FY21 budgeted expenditures increased \$184,053, or 6.6%, largely attributed to the projected increase in benefit and debt service costs. FY21 budget changes also include the reduction of one full-time position and a contractual services line increase with regards to the watershed assessment per MS4 permit requirements and an update to the Stormwater Management Plan.

Stormwater Finance Administration

The Stormwater Finance division provides billing, collection and customer service to all property owners in the City of Portland.

The FY21 Stormwater Finance division's expenditures have decreased \$8,917, or 3.2%, primarily due to decreases in the contractual service line items.

Division Summary

Stormwater Management

The Stormwater Management division budget represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. The Sweeping division performs street flushing, and clean up after special events (parades, New Year's celebration, etc.); their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

The FY21 expenditures increased slightly by \$5,339, or 0.3%. FY21 budget changes include reductions of one full-time staff position, right-of-way work and vehicle repair. The FY21 budget also includes an increase in contractual services for watershed assessment and an update to the Stormwater Management Plan.

Jetport Fund

The Portland International Jetport provides commercial air service to over two million passengers a year, general aviation facilities via two fixed base operators (FBOs) for private aircraft, and an air cargo facility. The Jetport is a dedicated fund which means all revenues generated remain with the airport to fund both normal airport operations as well as capital improvements. No local tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is budgeted under Administrative Services as the anticipated surplus, whereas in the case of FY21, expenditures in excess of revenues are projected under revenue or use of Jetport Fund Balance.

The Jetport completed its most recent Airport Master Plan in 2016. The master plan sets the Jetport's priorities in spending for infrastructure improvements, major equipment purchases, and asset management for the short (years 1-6), intermediate (years 7-11), and long term (years 12-20) planning horizons.

The pandemic continues to have a profound financial impact on the Jetport as COVID-19 travel restrictions have reduced the use of air travel worldwide. The Jetport's overall FY21 expenditure budget, excluding FY20 anticipated surplus, has decreased \$1,701,897 or 6.6%. FY21 projected revenues, without the use of FY21 fund balance, have decreased by \$10,411,367 or 39.2%; airline and parking revenue are the Jetport's largest revenue streams, followed then by car rental commissions. Prior to the pandemic, the Portland International Jetport was breaking passenger records in each of the past four years (2016-2019) as well as in the two months prior to the onset on the pandemic in March of 2020.

Jetport Administration

Jetport Administration is responsible for the day-to-day management of the Jetport and for planning future operations. Administration services include property management, payroll, accounts payable and accounts receivable, budgeting and human resources functions.

The FY21 Administration budget decreased by \$76,114, or 6.2%. FY21 budget changes include the elimination of the Marking & Communication Coordinator position, contractual service reductions, and the removal of a FY20 hybrid vehicle budget item, as well as increases both in the training and computer & technology lines.

Jetport Marketing

Jetport Marketing, a program under the Jetport Administration division, coordinates marketing, advertising, promotional, and public relation services for the Jetport.

The FY21 Marketing expenditures decreased \$187,500, or 31.3%, essentially due to the slowdown in air travel activity during the pandemic.

Jetport Fringe and Indirect Costs

The Jetport's Fringe and Indirect Costs, a program under the Jetport Administration division, reimburses the City's General Fund for expenses incurred for their services including employee benefits, general liability insurance, the Fire Department's Air Rescue Station and Medcu services, and chargebacks for City-provided departmental services including Executive, Finance, Legal, Human Resources and Information Technology.

The FY21 budgeted expenditures have increased by \$203,850, or 5.0%.

Jetport Field

The Jetport Field division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft. Division responsibilities include mowing, snow removal and fleet maintenance.

The FY21 expenditures have decreased by \$357,101 or 7.8%. This budget incorporates several changes including a reduction in winter operation supplies and services, pavement marking expenses, and changes to the FY21 capital expenses. The FY21 budget includes increases in vehicle maintenance & repair, as well as capital outlay appropriations for crack sealing equipment and a radio upgrade.

Jetport General Aviation

The Jetport General Aviation division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. The General Aviation division collects landing fees from the aircraft that use the GA area, similar to the fees charged to the commercial airlines.

The General Aviation expenditures remain flat for FY21, with revenues projected to decrease \$33,820 or 13.7%.

Jetport Operations

The Jetport Operations division performs all administrative and operational activities related to security and operations at the Jetport. These activities include observing all federally mandated TSA security and FAA operations regulations. The division oversees the maintenance of all security related equipment including cameras and monitors, computer equipment, and security doors and gates. The division is also responsible for processing employee background checks and issuing employee ID badges. The Operations Center provides communications, technical, and operations support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public, the airlines, and the airport businesses on property. The costs of the police officers that serve at the Jetport are also paid from this division.

The FY21 Operations division's expenditure budget has decreased by \$339,539, or 12.6%, attributed to the pandemic environment. FY21 budget reductions include one full-time manager position, contracted security, and capital outlay requests. Miscellaneous revenue is anticipated to decrease \$20,625 or 35.5%.

Jetport Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including the interior and exterior terminal cleaning and maintenance. The terminal division's engineering section is responsible for the planning, design and management of major terminal improvements.

The FY21 expenditures are projected to decrease by \$595,967, or 8.5%, largely as a response to the COVID-19 impact on the airport. This budget's expenditures include reductions in several contractual services items, including the FY20 appropriation for an asset management system, capital outlay requests and utilities.

Jetport Parking Division

The Parking division oversees the parking maintenance and operations of the Jetport's parking garage and surface parking lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

The FY21 Jetport Parking division expenditures have decreased by \$349,776, or 7.1%, due to the annual capital outlay request changes. Parking revenues are projected to decrease significantly by \$3,969,035, or 46.2%, due to COVID-19 travel restrictions.

Jetport Airfield Deicing Facility

The Airfield Deicing Facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the expenditures incurred, thus creating a “net zero” impact on the Jetport’s overall budget.

Jetport Surplus

The Jetport surplus is determined annually by calculating total revenues minus total expenses, including capital purchases. As an enterprise fund, this entity is self-supporting and under normal operating conditions displays a varying operating budget annual surplus. In FY21, however, due to the coronavirus pandemic outbreak, the Jetport's projected expenditures exceed the projected revenues; the difference between the excess of expenses over revenues is balanced by the use of surplus to reflect an overall net zero budget for the Jetport Fund.

The FY21 surplus division expenditure budget reflects a decrease of \$801,624, or 100.0%.

Key Revenues and Expenditures

Revenues

The Housing and Community Development Program or HCD is a special revenue fund that is supported by several federal and local funding sources.

1. **Community Development Block Grant (CDBG) Program:** The Community Development Block Grant (CDBG) is funded by the federal government under the Housing and Community Development Act of 1974. For Program year 2020-2021 the City allocated \$2,081,348, which is comprised of \$1,932,763 in direct allocation from HCD, \$8,585 from program income, and \$0 from re-programmed funds; additional sources of 2020-2021 fiscal year funding include \$120,000 from the Bayside TIF revenue and \$20,000 from the Cotton Street lot property sale. These funds are used to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.
2. **Home Investment Partnership Program (HOME):** The HOME funds are available for a broad range of housing activities benefiting low and moderate income households. For 2020-2021, the City proposes to utilize \$1,053,039 of HOME funds and \$150,000 of Program Income for a HOME Consortium between the City (\$770,647) and Cumberland County (\$432,611) for the development of new rental housing, multi-family rehabilitation, tenant based rental assistance, and assistance to special non-profit agencies called Community Housing Development Organizations (CHDOs) to develop affordable housing.
3. **Emergency Solutions Grant Program (ESG):** The ESG funds can be used by the City to fund the rehabilitation, operation and support services of providers and facilities

assisting Portland's homeless population. The City proposes to use its 2020-2021 ESG entitlement allocation of \$166,383 to provide case management and homeless prevention services through City Family Shelter programs administered by the Department of Health and Human Services.

4. **Portland Development Fund:** Originally established in 1986, the goal of the Portland Development Fund is to respond to the need for 1) housing that is affordable to low and moderate income households, and 2) commercial and industrial development opportunities to further strengthen the local economy and generate jobs, particularly in downtown Portland.

Originally, there was approximately \$1 million in the Portland Development Fund for both housing and economic development activities. Sources of funding include Urban Development Action Grant (UDAG) miscellaneous revenue, CDBG program income, CDBG entitlement allocations from previous years, and loan repayments and interest generated. In 1990, the fund was split into Housing, administered by the Housing & Community Development division, and Economic Development, administered by the Economic Development department.

The Housing portion of these funds is appropriated for several activities, including the development of new affordable rental housing, single and multi-family rehabilitation, and lead paint abatement. Administered by the Housing & Economic Development Department, UDAG funds are used for loans and investments by the Portland Development Corporation.

Expenditures

The three expenditure categories utilized by the CDBG Program are: Public Services, also referred to as Social Services, Development Activity Funding, and Program Planning and Administration. A brief description of the services provided for the 2020-2021 fiscal year under each of these categories follows. A more comprehensive source of information on these programs can be found in the 2016-2020 Consolidated Housing or the 2020-2021 Annual Action Plan issued by the Department of Housing and Economic Development. The 2016-2020 Consolidated Plan implemented the following new program goals and objectives:

- a. ***Neighborhood Investment and Infrastructure***
to create strong, safe, accessible and vibrant neighborhoods.
- b. ***Housing Availability***
to increase housing availability and affordability.
- c. ***Economic Opportunity***
to create economic opportunities to transition people out of poverty.
- d. ***Address the Needs of the Growing Homeless Population***
to prevent and reduce homelessness.

PUBLIC SERVICES (SOCIAL SERVICES)

1. Neighborhood Investment and Infrastructure includes Community Policing.
2. Economic Opportunity includes Catherine Morrill Child Care Voucher Program and Catholic Charities Immigrant Legal Advocacy Project (ILAP).
3. Address the Needs of the Growing Homeless Population includes Public Health's Mobile Medical Outreach Project, Social Services division's Long Term Stayers Community Integration & Landlord Outreach Project, Furniture Friends Basic Necessities Program, Milestone HOME Team, Preble Street's Food Programs, Teen Shelter & Women's Shelter, and the Wayside Food Programs.

DEVELOPMENT ACTIVITY FUNDING

1. Neighborhood Investment and Infrastructure includes Recreation's Riverton Elementary School ADA Inclusive Playground, Public Works Bayside Area Sidewalk and Freshman Alley Lighting, First Parish Church Accessibility Project, and Maine Irish Heritage's Front Stairway Restoration and Center Upper Sanctuary Accessibility Projects.
2. Housing Availability includes Community Housing of Maine Middle Street Apartments, Port Resources Group Home Heat Pump Project, and Portland Housing Development Corporation Washington Gardens.
3. Economic Opportunity includes Catherine Morrill Day Nursery Energy Efficiency Improvement Plan and the Nursery Life Safety Repairs Project, Economic Development division's Business Assistance Program, and CEI Portland Microenterprise Assistance Program.

PROGRAM PLANNING & ADMINISTRATION

The following are reimbursements to general operating accounts for program administration services:

1. The Department of Housing & Economic Development provides Administration, Housing & Community Development, and Citizen Participation services. The Department of Planning and Urban Development provides Planning services. These services are all reimbursable under the HCD guidelines.
2. The City receives reimbursement for a portion of the annual audit cost associated with auditing the HCD Program.
3. The City may receive reimbursement for a portion of the fringe benefits associated with the positions funded with HCD monies. However, the fringe benefit reimbursement along with all of the administrative costs must not exceed the 20% cap set by CDBG regulations.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2021 School budget was approved by the voters July 14, 2020.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 78.7% of the FY21 Education budget.

State Subsidy

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The budgeted portion of State Aid for Essential Programs and Services (EPS) and debt service accounts for 15.6% of the School's FY21 Budget.

The chart represents the State Aid to Education revenue history over the past six years.

Note: FY20 and FY21 are estimated amounts

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Board of Public Education for the City be administered by a school board comprised of nine members. The Board of Public Education performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into six categories: (1) Salaries and Benefits (2) Contractual Services (3) Supplies (4) Miscellaneous (5) Debt Service and (6) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Portland, Maine

Yes. Life's good here.

This page intentionally left blank.

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114-mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac Indian name meaning "shaped like a

great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater, which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep-water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cross Insurance Arena. Two major medical centers, Maine Medical Center and Mercy Hospital, are also located in the City.

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

1. projected collection estimates for the current fiscal year with explanations for projections substantially different from the estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the City's budget process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion

of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department budget, under the school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget, which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final

justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity / retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, parks recreation and facilities, public works, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the acquisition, construction or improvement of

capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds are: Fish Pier, Sewer, Stormwater and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

All proprietary funds are accounted for on a flow of economic resources measurement focus.

Basis of Budgeting

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year-end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The character code classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The character code classification for employee related costs such as health insurance, pension, FICA, unemployment, cell phones, clothing and tool allowance, and medical stipends.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment / Transfer: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Glossary of Terms

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The character code classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Character Code: A grouping mechanism that characterizes the type of expenditure and / or revenue. The major expenditure classifications utilized by the City of Portland include Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance & Repairs, Rentals, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service. The major revenue classifications include Property & Excise Taxes, Licenses & Permits, Intergovernmental, Charges for Services, Fines Forfeits & Penalties, Uses of Money & Property, and Other Finance Resources.

Client Expenses: The character code classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The character code classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The character code classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Glossary of Terms

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, and other equipment.

FTE: Personnel staffing acronym for full-time equivalent based on the position's standard hours.

Function: A segment of the account number that identifies the budget category of the account. The eleven primary activity classifications used in budgeting include Education, General Government, Public Safety, Public Works, Health and Human Services, Parks and Recreation, Library, Debt Service, County Tax, Metro and the Enterprise Operations.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of / and guidelines for financial accounting and reporting. These guidelines govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

Glossary of Terms

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, public works, parks recreation and facilities, health and human services, public library, county tax, metro, and debt service.

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually designated for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

HUD: The abbreviation for Housing and Urban Development.

Insurance: The character code classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category or object code separately (salary, materials, telephone service, travel, etc.), along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The character code classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Glossary of Terms

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The character code classification used for tangible property or equipment used for operations having a cost of $\geq$ \$5,000 and $<$ \$10,000 per single item.

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Code: A segment of the account number identifying the specific types of expenditures and / or revenues at the most detailed level. The city's object codes, defined in the chart of accounts, are utilized across all funds as appropriate, completing the full account number designation. Object Codes are assigned a character code for budget grouping classification purposes.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The character code classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Organization Code: A short code identifying an account number's fund, department, division, and program.

Payroll: The character code classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Program: A segment of the account number identifying the third level in the formal City organization in which a specific activity is carried out; several programs may comprise a single division.

Glossary of Terms

Rental: The character code classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The character code classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The character code classification which includes expenses for heating fuel, electricity, water and sewer, and telephone.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

Budget Highlights

**General Fund & Enterprise Funds
FY17 - FY22**

General Fund Expenditures

The 2021-2022 General Fund budget totals \$212,156,884, an increase of \$9,350,224 or 4.6%. The FY22 budget incorporates the partial restoration of the coronavirus FY21 budget reductions; the magnitude of the pandemic began to emerge in March of 2020 (late FY20) during the City's FY21 budget preparation process. The major changes in the FY22 budget include:

Debt Service	\$ 2,655,134
City Wages	\$ 2,646,287
Social Services Client Services	\$ 1,604,790
Merrill Auditorium Roof Repair	\$ 500,000
Ambulance	\$ 280,000
Housing Trust Fund Contribution	\$ 250,000
Travel & Training	\$ 165,715
Vehicle Fuel	\$ 156,134
IT Computer Software & Maint. Contracts	\$ 149,608
METRO	\$ 143,089
County Tax	\$ 136,150
Other Contractual Misc. Services	\$ 117,889
Parking Garage Repairs	\$ 106,800
Workers' Comp Indirect Chargebacks	\$ 85,000

Race, Equity And Leadership (REAL)	\$ 80,000
Library Contribution	\$ 78,557
Traffic Pavement Markings	\$ 72,065
Planning Recode Phase II (Continued)	\$ 65,000
Historic District Housing Cost Study	\$ 65,000
Agricultural Supplies	\$ 61,586
Medical Supplies	\$ 58,800
Ecomaine	\$ 55,575
IT Human Resources Support	\$ 50,000
Interpreter Services	\$ 43,477
Computers & Technology Supplies	\$ 36,616
General Liability Insurance	\$ 33,906
Barron Center Electronic Charting System	\$ 30,400
Charter Commission (FY21)	\$ (33,048)
Voting Machine Rental	\$ (36,000)
Event Supplies	\$ (41,226)
Air Rescue M&R Vehicles	\$ (50,000)
Employee Benefits	\$ (55,473)
Food Expense	\$ (55,482)
Police Steering Committee (FY21)	\$ (75,000)
Lab & Medical Services	\$ (139,653)

Enterprise Funds Expenditures

The FY2022 Enterprise Funds budget totals \$56,059,417, an increase of \$1,879,657 or 3.5% over the 2020-2021 budget; this budget increase is largely attributed to the Sewer Fund.

The FY22 Jetport expenditure budget totals \$23,947,754, decreasing \$127,000 or 0.5% compared to FY21 (Note: the FY22 Jetport surplus is budgeted at \$0 for a second year in a row as a result of the pandemic). The more significant Jetport budgetary changes include the following:

Capital Outlay	\$ 63,291
Airfield Paint Supplies	\$ 50,000
Contractual Services Misc.	\$ (56,442)
Building Maintenance Terminal Cleaning	\$ (87,210)
Administrative Services	\$ (102,145)

The FY22 Sewer Fund expenditure budget of \$28,441,361 increased by \$1,732,443 or 6.5% compared to FY21. The budgetary changes comprise of the following:

Debt Service Division	\$ 775,349
PWD Assessment	\$ 702,280
City Wages	\$ 189,200
Sewer Flow Monitoring	\$ 120,000
Street Opening Repairs	\$ 40,625
Pan & Tilt Camera (FY21)	\$ (64,255)
Sewer Indirect Chargebacks	\$ (67,194)

The FY22 Stormwater Fund has an expenditure budget of \$3,248,661, resulting in an increase of \$275,789 or 9.3%. The more significant expenditure variances are:

Debt Service Division	\$ 199,088
City Wages	\$ 82,475
Stormwater Project Survey Work	\$ 50,000
Benefits	\$ (41,667)

The FY22 Fish Pier Fund has an expenditure budget of \$421,641, resulting in a decrease of \$1,575 or 0.4%.

departments revenues include a FY22 allocation from the American Rescue Plan Act (ARPA) for anticipated losses in FY22 revenues based on pre-pandemic operations. The FY22 Health & Human Social Services Division's estimated revenues increased \$106,785, less than the rise in the estimated expenditures of \$2,091,495; the Social Services Division's FY22 net increase of expenditures over revenues is \$1,984,710. The FY22 / FY21 revenue changes include the following:

American Rescue Plan Act (ARPA)	\$ 8,750,000
Revenue Sharing	\$ 2,750,000
SS State of Maine Social Services	\$ 1,121,812
Debt Service School Department Charges	\$ 1,102,846
Barron Center Patient Receipts	\$ 706,137
Debt Service Enterprise Fund Chargebacks	\$ 516,602
Parking Tickets	\$ 430,000
Health Insurance Employee Reimbursement	\$ 403,962
Permitting & Inspections Business Licenses	\$ 388,682
Parking Meters	\$ 375,100
Debt Service Misc. Charges for Services	\$ 204,414
Golf Course Recreation Charges for Services	\$ 145,839
Street Openings Reimbursement.	\$ 131,569
Ocean Gateway Parking	\$ 125,000
Before & After School Program	\$ 115,665
Social Services Grant Reimbursement	\$ 109,677
Athletic Facilities Field Use	\$ 85,636
Electrical Permits	\$ 70,000
Street Occupancy	\$ 59,095
Excise Taxes	\$ (50,500)
Economic Development Misc. Reimbursement	\$ (78,508)
Parks & Recreation Rental Income	\$ (101,820)
India Street Donations	\$ (116,566)
Enterprise Fund Misc. Reimbursements	\$ (180,162)
Public Health Division Grant Reimb.	\$ (205,368)
Hourly & Monthly Parking Garages	\$ (206,932)
Enterprise Fund Benefit Chargebacks	\$ (227,166)
MEDCU Public Safety Charges for Services	\$ (300,000)
Parks & Recreation Keep ME Healthy Grant	\$ (320,853)
Social Services FEMA Emergency Housing	\$ (434,219)
Building Permits	\$ (450,000)
Interest Income	\$ (598,368)
Social Services Misc. Reimbursements	\$ (690,485)
TIF Reimbursements	\$ (874,712)

General Fund Revenues

The 2021-2022 General Fund non-tax revenues are estimated at \$126,275,476, an increase of \$12,799,987, or 11.3%, over the 2020-2021 budget. The FY22 revenue areas substantially impacted by the coronavirus pandemic include Finance, Parking, the Parks & Recreation Department, the Waterfront / Cruise Ship, and the Barron Center operations; these

Enterprise Funds Revenues

The Enterprise Funds 2021-2022 revenue estimates are \$58,219.679, an increase of \$7,994.798 or 15.9%.

The major changes in the revenue estimates include the following:

Sewer User Fees	\$ 2,402,514
Jetport Federal CARES Reimbursement	\$ 1,834,393
Jetport Landing Fees	\$ 1,273,949
Jetport Car Rental Commissions	\$ 1,038,846
Stormwater User Fees	\$ 723,727
Jetport Parking Income	\$ 633,340
Jetport Concessions	\$ 271,205
Jetport Cargo Revenues	\$ 63,977
Stormwater Interest Income	\$ (65,000)
Sewer Interest Income	\$ (165,650)

Housing & Community Development Program (HCD)

The 2021-2022 HCD program totals \$2,346,300, an increase of \$265,042, or 12.7%, from the 2020-2021 program: the Entitlement Grant increased \$15,991, Program Income decreased by \$949, and the funding from Tax Increment Financing (TIF) and the Cotton Street lot sale proceeds remain flat at \$120,000 and \$20,000 respectively. This budget also incorporates \$250,000 in new HUD Cares Act (CV) funding, with no use of Surplus Funds.

Education

The final 2021-2022 Education budget approved July 19, 2021 is \$126,454,700, an increase of \$6,592,023 or 5.5%. A summary of the more significant school expenditure changes is provided below:

School Wages	\$ 4,820,657
Debt Service	\$ 1,131,634
Benefits	\$ 1,045,276
Insurance – General Liability	\$ 81,795
HVAC Maintenance	\$ 77,811

Tuition to Private Source	\$ 35,150
Special Ed Contracted Services	\$ 30,230
Employee Training & Development Svcs	\$ (74,212)
Natural Gas	\$ (118,200)
Repair & Maintenance Services	\$ (137,704)
Capital Equipment	\$ (139,275)
Computer Lease	\$ (193,600)

Education Appropriations & Non-Tax Revenue Estimates FY17-FY22

The total non-tax revenue estimate for Education is \$27,371,449, an increase of \$1,847,516 or 7.2%. A summary of the revenue changes are as follows:

State Subsidy – EPS/Debt Service	\$ 1,941,284
MaineCare Medicaid Reimbursement	\$ 20,900
Food Service	\$ (16,079)
Adult Ed State Subsidy	\$ (16,744)
Surplus Use	\$ (59,333)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, traditionally in September and March.

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The latest revaluation occurred this year in FY22. The previous property revaluation was phased in over two years, FY2006 and FY2007, and a prior revaluation was completed in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model

and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY21 and FY22 are estimated amounts.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

Note: FY21 and FY22 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Business Licenses, Building Permits, Street Occupancy and the Cable TV Franchise are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

The FY22 budget incorporates \$8.750m in new American Rescue Program Act (ARPA) relief funds for the anticipated loss of City revenue during the coronavirus pandemic.

excluding certain immigrants. The FY17 revenue receipt reflects a court settlement for services provided by the City in FY15. The FY20 revenue collection and the FY21 projection reflect the increasing need for general assistance resulting from the influx of asylum seekers in the summer of FY20 and the on-going pandemic beginning in the spring of FY20. In FY22 this increased need resulting from the pandemic is anticipated to continue. Due to the need to “socially distance”, shelter capacities were reduced and local hotel utilization became necessary to provide for emergency housing. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

Another major source of revenue in this category is State Revenue Sharing.

Note: FY21 and FY22 are estimated amounts.

The second largest revenue in this category for FY22 is the General Assistance (GA) reimbursement. In FY16, the State of Maine GA reimbursement rate changed from a tiered percentage reimbursement rate (50% / 90%) to a flat seventy percent (70.0%) reimbursement rate based on the City's eligible program expenditures. The GA revenue collections, FY15 and forward, reflect changes by the state in the GA reimbursement eligibility guidelines,

Note: FY21 and FY22 are estimated amounts.

Traditionally the State has set aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing pool. The Revenue Sharing pool is then shared amongst 488 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

The State's FY2016 budget, enacted June 30, 2015, temporarily reduced the Revenue Sharing distribution pool from 5.0% of all state sales, corporate, and personal income tax revenues to 2.0% for four years (FY2016 - FY2019). This reduction replaced the previous FY2014 and FY2015 reduction, which capped Revenue Sharing at \$62.5m.

With the latest newly elected governor, the State partially restores the Revenue Sharing distribution pool in FY2020 to 3.0%, which has been reduced since FY2014, with an anticipated phased in approach to restore back to the statutorily defined level of 5.0% in future years; the allocation percentage changed to 3.75% in FY2021 and 4.5% in FY2022.

Revenue Sharing I is based on the following formula:

- a) $\frac{[\text{population of town} \times \text{assessment (tax levy)}]}{\text{state valuation for municipality}} = \text{the town's computed number}$
- b) $\text{computed number} / \text{sum of all computed numbers} = \text{proportional share of REV-I distributions}$

Revenue Sharing II is based on the following formula:

- a) $\text{assessment} / \text{state valuation} = \text{mil. rate}$
- b) $(\text{mil. Rate} - .01) \times \text{population} = \text{the town's computed number}$
- c) $\text{computed number} / \text{sum of all computed numbers} = \text{proportional share of REV-II distributions}$

In FY2022, the State's Revenue Sharing projected share for Portland is 5.2% based on the most recent data.

This category also includes the Local Road Assistance Program (LRAP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital

improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Major sources of revenue are derived from Patient Receipts (Barron Center), Health Insurance Reimbursements, Cultural / Recreation Services, Emergency Medical Services (EMS), and Recycling.

Note: FY21 and FY22 are estimated amounts.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties.

Note: FY21 and FY22 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, rental income, and interest earnings.

Note: FY21 and FY22 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the

enterprise funds, cemetery endowments, library, and School department are known as interfund charges. Other revenue includes TIF and other miscellaneous reimbursements, Other Agency Revenues, and various grant reimbursements including Housing and Community Development grants.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, Executive, Assessor, Finance, Legal, Human Resources, Parking, Housing & Economic Development, Planning, Permitting & Inspections, Information Technology, Public Buildings & Waterfront, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police, Fire / EMS and Dispatch operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to a highly trained team of Detectives providing comprehensive investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment.

Fire

The Fire Department provides for fire suppression, emergency medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Department is also responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system.

The Fire Department maintains ten fire stations and the Spring Street Fire Museum. A minimum of forty-six firefighters and paramedics staff each shift on 18 pieces of apparatus, which include: five engine

companies, four ladder companies, five ambulances, one heavy rescue company, two air rescue units, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

Dispatch

The Dispatch Department, while remaining under the direction of the Police Department, separated into its own department in FY22.

3. PUBLIC WORKS

The Department of Public Works is responsible for providing many of the essential services to City of Portland residents throughout the year. These services include the operation of the Riverside Recycling Facility (under a contract arrangement), and a comprehensive solid waste program, which includes trash collection, residential curbside recycling, a leaf collection program, as well as a heavy item / bulky collection pick-up program. Public Works also provides for the construction and maintenance of city streets and sidewalks, the sewer system, stormwater maintenance, and technical support / engineering services for Capital Improvements Projects. Other key services include the removal of snow and ice from city streets and sidewalks, maintenance of the Portland Downtown District, maintenance and repair of all City vehicles and equipment, and traffic management, including maintenance of traffic signaling, street lights and traffic control and calming. Public Works also provides core public works services to four adjacent islands in Casco Bay.

4. HEALTH AND HUMAN SERVICES

The Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration,

Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

Public Health is the state's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, Health Equity, the India Street Clinic, and Research and Evaluation.

Social Services provides both financial assistance and support services for low-income Portland residents. Programs operated include Social Service Administration, General Assistance, the Oxford Street Shelter and the Family Shelter. Day services are available at the Oxford Street Shelter. Due to the pandemic guidelines, Social Services is required to reduce the number of available beds in the shelters. To accommodate for this occupancy reduction, the Social Services Division has secured rooms in local hotels to house individuals and families: this has resulted in a substantial increase to the client services expense lines. Social Services also provides case management, including assistance with securing housing and job placement, and representative payee services to clients.

The Barron Center is the state's second largest long-term care nursing facility. The Barron Center is a 219-bed skilled rehabilitation and nursing facility, including a 50-bed specialty unit for the care of residents with dementia. Residents of the Barron Center are able to receive speech, occupational and physical therapy services, and short- and long-term nursing care services in addition to end of life and hospice services.

The Office of Elder Affairs provides the community with an Elder Advocate. Assistance is provided in the form of senior information and referral, adult day health services, and community collaboration. Elder Affairs operates Martha's Cottage, which is the only domestic violence shelter for seniors in the country. In addition, the Office of Elder Affairs leads the Age Friendly Community Initiative for the City of Portland.

A large majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants, and miscellaneous reimbursements for direct services.

5. PARKS, RECREATION AND FACILITIES

The Department of Parks, Recreation and Facilities oversees Parks, Forestry and Cemetery, recreational programs and activities including permitting of outdoor events, races and rallies, the marketing and event management venues including Merrill Auditorium, and the custodial services of the city's buildings.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Parks, Recreation and Facilities is responsible for the day-to-day management and care of 1,288 acres of parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department serves the many citizens and visitors of Portland through 67 individual parks and 8 miles of multi-use trails.

The Parks, Recreation, and Facilities Department also maintains 20,000 City trees as well as providing new plantings, and manages two active cemeteries (Evergreen and Forest City) and eleven inactive cemeteries.

Recreation offers a vast array of services and leisure activities including Community Centers, recreation programs, before and after school care, center for therapeutic recreation, three pools, special events, operations of the ice arena, golf course, and golf course restaurant, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting

through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 85.0% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services, serving the Brunswick, Falmouth, Freeport, Gorham, Portland, South Portland, Westbrook, and Yarmouth communities. In April of 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook as the third community assessment member. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. During early 2019, Metro began working with the communities of Brunswick, Freeport and Yarmouth to move the Metro *BREEZ* project from its pilot phase to permanence; this also entailed bringing these communities onto the Metro Board of Directors as full members who also share in covering their fair portion of the agency's fixed and overhead costs. The Board of Directors has the responsibility for budgeting and financing. The District's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the District, fares, assessments of member communities, non-member local funding, and other miscellaneous revenues.

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the FY22 annual assessment is \$3,020,147.

8. LONG TERM DEBT

Debt Service expenditures repay principal and interest on the City's general obligation

bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City's budget. For fiscal year 2022, the gross debt budget is \$48,355,413 or 22.8% of the City's general fund budget; it is estimated that the Enterprise Funds and the School Department are to reimburse the general fund \$19,493,579 of this expense. The FY22 net cost of debt service to the City general fund is \$28,351,386.

Note: FY21 and FY22 are estimated amounts.

9. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2021, the City's equalized State Valuation of \$11,149,300,000 was 21.0% of the County's total equalized State Valuation of \$53.1 billion, resulting in a FY22 assessment to the City of Portland of \$7,147,309.

City Council

The City of Portland operates under a charter which was last amended on November 2, 2010. The City Council is comprised of a Mayor, elected for a four-year term, five district Council members and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact, reasonable by-laws, regulations and ordinances. The council adopts an annual budget, authorizes the issuance of debt and provides for an annual audit. The Mayor has the authority to veto the annual budget, however the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops.

The City Council expenditure budget decreased \$25,774 or 5.7%. The FY22 overall department decrease relates to the one-time FY21 budget appropriation for the Racial Equity Steering Committee. The FY22 budget includes the restoration of travel and training eliminated due to the pandemic in the FY21 budget, monies for the position replacement search for the City Manager, and an increase in the FY22 wages.

City Clerk

The Department of City Clerk has three major functions: Elections, Vital Records, and City Records Maintenance. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Deputy City Clerk is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with assisting the Clerk in facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. Two elections are planned in FY22: the November 2021 State Referendum / Municipal Election, and the June 2022 State Primary & School Budget Validation Election. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). The CVR is a statewide system designed to standardize and centralize voter registration. During FY22, the State will be providing (per precinct) new Election Machine tabulators; the City will incur added expenses of renting additional machines as warranted per election including the rental of a high-speed tabulator. Also, with the passage of Rank Choice Voting for all Municipal Seats in the FY20 March Referendum Election, there are new associated costs in consulting, printing and advertising fees when a ranking is needed.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages at the counter, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services. As of FY19, a Marriage Ceremony Package is now available for couples who would like the option of a more formal / traditional style wedding ceremony; this package includes a one-hour rental of the State of Maine Room with full Notary Service vows performed by one of the City Clerk Staff members.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio / video recordings of several boards and committees.

The City Clerk's expenditure budget has decreased \$47,219, or 6.9%, largely due to smaller election costs during this fiscal year and the absence of the FY21 one-time budgeted expenditure for the June 2021 Charter Commission. Revenues are anticipated to decrease \$8,978, or 4.8%, as a result of the anticipated decrease in marriage licenses and vital record certificates attributed to the pandemic.

Executive

The department is responsible for the executive management of the City of Portland. Responsibilities include preparation and administration of council agendas and orders; coordination and administration of City departments, services, and programs; developing and enforcing administrative policies; handling of citizen inquiries and complaints, public relations and communication functions; community liaison efforts; local and state government liaison efforts; and the preparation of the annual Capital Improvement Plan.

This department consists of the City Manager and support staff. Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary for the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

The FY22 expenditures increased \$66,048 or 8.6%, primarily due to the addition of a new Communications Specialist position and annual wage increases. The revenue decrease of \$73,052, or 7.5%, is attributed to the reduction in the FY22 Enterprise Fund chargebacks and the anticipated lower cable franchise fee revenue associated with the new recent FCC rules governing local cable agreements.

Assessor

The Assessor's Office is responsible for the discovery and fair and equitable valuation of all real and personal property within the City. The office maintains the ownership, mailing address, parcel and valuation data for all 24,500+ parcels, 3,100+ personal property accounts including all tax exemptions, special assessments of specific properties, and parcel tax maps. The office prepares and certifies the annual tax rolls and warrant to the City Treasurer as well as submitting the Municipal Valuation Return (MVR) to the State. The Assessor's Office works to educate property owners in understanding the appraisal process and renders decisions on annual appeals of property valuation.

The Assessor's FY22 expenditure budget increased \$28,119, or 6.7%, due to the Office Assistant's temporary hour reduction in FY21 due to the pandemic and the FY22 restoration of hours back to a full-time position, and the anticipated contractual services expenditures related to the FY22 revaluation project.

Finance

The Department of Finance consists of Administration and Treasury. The Finance Director and the Deputy Finance Director oversee the efficient operations of these functions.

The FY22 department expenditures have increased \$27,458, or 1.5%. This increase is attributed to the restoration of three employees to full-time after FY21 budget hours were reduced in the pandemic cutbacks.

The department's estimated non-tax revenues increased by \$2,847,795, or 44.0%. The FY22 revenue estimate includes the restoration of the State's Revenue Share distribution pool which began in FY20, \$750,000 in American Rescue Plan Act (ARPA) funds for revenue losses during the pandemic, and a drop in interest income.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for over 1,600 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

The FY22 Finance Administration expenditure increase of \$31,296, or 2.7%, is predominately due to the restoration of three positions to full-time; FY21 staff hours were reduced in response to the coronavirus outbreak. The revenue decrease of \$39,059, or 7.6%, is attributed to a reduction in the Enterprise Fund reimbursements.

Treasury

The Treasury division is responsible for the collection of all monies into the City. This includes the collection of real estate taxes, personal property taxes, delinquent sewer user fees, and vehicle excise taxes and registration fees, as well as issuance of license plates. Treasury also collects parking ticket revenues and miscellaneous receivables, processes boat and utility trailer registrations, and issues island vehicle and golf cart registrations and Metro bus passes.

Residents may visit the Treasury Office in City Hall for these services. There are also many electronic options for residents:

(a) Treasury offers online payments through the City of Portland website:

<https://www.portlandmaine.gov/909/Pay-For>

(b) View / Print Tax Bills on-line at:

<https://www.portlandmaine.gov/217/Property-Taxes>

(c) Online options are available for residents to re-register vehicles, trailers and boats through the State of Maine website: <https://www1.maine.gov/online/bmv/rapid-renewal/>

(d) Parking tickets can be paid in Room 20 (Parking Office) as well as online through the website:

www.portlandparkingtickets.com or <https://portlandme.rmcpay.com/>

(e) Portland Senior Tax Equity Program (P-STEP) Application:

<https://www.portlandmaine.gov/DocumentCenter/View/23533/Portland-Senior-Tax-Equity-Program-P-STEP-Application> or <https://www.portlandmaine.gov/259/Tax-Relief>

The FY22 Treasury general fund expenditure decrease of \$3,838, or 0.6%, is primarily attributed to the elimination of a summer intern added in the FY20 and FY21 budgets to help provide additional assistance for the Portland Senior Tax Equity Program (P-Step), as well as other minor wage changes.

The FY22 Treasury non-tax revenue estimate increase is \$2,136,854 or 35.8%. This revenue estimate increase incorporates the restoration of the State Revenue Sharing formula funds along with a decrease in interest income due to lower rates of return.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys, a risk manager, a litigation paralegal, and a paralegal / legal assistant.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability, and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees and Boards.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Fish Pier, Sewer, Stormwater, and Jetport funds. The department also receives revenue for various ordinance code violations, and settlements.

The FY22 expenditure increase of \$116,231, or 15.9%, is largely attributed to the addition of one new Associate Corporate Counsel position. The FY22 revenue increase of \$41,415, or 27.3% is related to the increased Enterprise Fund chargeback funding.

Human Resources

The Department of Human Resources provides many services to all City departments, including recruitment and hiring oversight, civil service program administration, labor relations, organizational development and education, employee health and benefits administration, and safety and risk management.

The expenditures for FY22 increased \$84,937 or 7.9%. The FY22 budget includes the elimination of the FY21 furlough reduction due to the pandemic, staffing change increases, and increased funding for racial equity training. The revenues collected by this department are received from the Sewer, Stormwater and Jetport funds for services provided by the Human Resources staff.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,648-metered spaces throughout the City, 895 of which have been converted to multi space meters that accept credit cards.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

FY22 expenditures up \$142,895 or 6.4%. Payroll increases include the reclassification of the Parking Control Officers and Supervisor, as well as a 0.2 FTE position increase of a Parking Garage Cashier. The FY22 budget also includes the reinstatement of garage building repair and maintenance projects that were postponed last year as a result of the pandemic budget reductions. The Parking Department revenues have increased by \$2,791,624 or 37.3%, including a \$2 million allocation from the American Rescue Plan Act (10.6% without ARPA funds). Parking ticket, parking meter and parking lot revenue activity are anticipated to increase over the FY21 budget appropriation, while garage hourly and monthly parking income is anticipated to be less.

Parking Administration

Parking Administration includes the management of on-street parking, which includes the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

FY22 Expenditures have decreased \$15,786, or 1.1%, largely due to the transfer of the Maintenance Worker position to the Elm Street Garage which is offset in part by the FY22 position reclassification increases of the Parking Control Officers and Supervisor.

FY22 Parking Administration revenues are estimated to increase \$999,050, or 20.4%, as the recovery from the height of the COVID-19 pandemic begins; parking ticket, parking meter and parking lot revenues are projected to improve in FY22 over FY21.

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens.

FY22 Expenses for the Elm Street Parking Garage are budgeted to increase \$50,654, or 20.2%, due the transfer of the Maintenance Worker position from Parking Administration and the reinstatement of garage building maintenance and repair projects that were postponed in the FY21 budget due to the pandemic. Revenues are projected to decrease \$53,440, or 10.4%, due to the continued impacts of the pandemic on the hourly and monthly parking activity.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Cross Arena and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Arena events. The garage also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens.

FY22 Expenses have increased \$59,027 or 13.6%, due to the 0.4 FTE increase of a Spring Street Parking Garage Cashier position, as well as the reinstatement of garage building maintenance and repair projects that were postponed in the FY21 budget. FY22 revenues are projected to decrease \$153,986, or 12.8%, due to the continued reduction in hourly and monthly parking activity due to the COVID-19 slowdown.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens.

The FY22 Temple Street Garage expenditures have increased \$49,000, or 62.8%; this increase is attributed to the reinstatement of the garage building maintenance and repair projects that were reduced in the FY21 budget due to Covid-19 outbreak. The FY22 budgeted revenues remain flat compared with FY21.

Housing & Economic Development

The Housing and Economic Development Department is responsible for enhancing the residential and economic growth of the City and is dedicated to fostering a vibrant and healthy residential and economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city and waterfront, economic and employment opportunities, residential programs, and a vital creative economy.

By leading a collaborative effort among agencies, both in advocacy and acting as a housing and business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that housing and economic development issues and opportunities are addressed in a timely, thorough, and proactive manner.

The Housing and Economic Development Department FY22 expenditures increased \$57,161, or 4.7%, attributed largely to an increase in contractual services line-item expenditures after a reduction in the FY21 budget due to the City's overall revenue loss from the Pandemic. Department expenditure increases also include a FY22 position reclassification and increased monies for interpreter services. All of the Department's positions and expenses are offset 100% by revenue reimbursement.

Economic Development

Economic Development is comprised of the Housing and Economic Development Director, Waterfront Coordinator, Business Development Representative, Principal Administrative Officer, Office of Economic Opportunity Director and its Outreach & Initiatives Coordinator, and the Office of Creative Portland Director and Program Assistant. The department strives to facilitate a strong and diversified tax base, an active and revitalized city, a vital waterfront, a sustainable creative economy, and employment opportunities. Staff also endeavors to keep the lines of communication open so that economic development issues are addressed in a timely, thorough, and proactive manner.

During FY22, Economic Development will continue its programs of service and assistance to businesses during the COVID-19 Pandemic, facilitating various loan and grant programs.

The FY22 expenditures have increased \$50,233, or 7.6%, primarily related to the restoration of expenditure reductions during the pandemic, as well as a slight increase in wages due to the reclassification of the Senior Executive Assistant position and additional monies for interpreter services.

All positions in FY22 are 100% funded through various revenues sources, including Tax Increment Financing.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The PDC offers various commercial loan and grant "gap" financing programs to support business start-up and expansion in Portland.

Due to the COVID-19 Pandemic, the PDC now offers a Rapid Response Loan program, which provides up to a \$10,000 loan with \$5,000 forgivable under certain conditions.

The Portland Development Corporation budget is fully funded by the interest income from its business loan programs; the PDC relies on this income from its business loan program to cover its operating expenses.

The FY22 expenses remain flat and are offset 100% by program revenue.

Housing & Community Development

Housing and Community Development is responsible for administering federal CDBG, HOME, and ESG grants for the City. This division administers City-assisted housing development programs, as well as housing-related planning activities.

This portion of the salaries of the Housing and Community Development budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, and Housing Development Fund (program income from the CDBG loan paybacks), and Tax Increment Financing; any increase or decrease in the budget has no impact on the tax levy.

Police

The Police Department comprises of five divisions in FY22: Administration, Uniform Operations, Bureau of Investigative Services, Operations Support Services, and Jetport Security. In FY22, the Dispatch Services division moved to its own department, allowing for better comparability of the City's Police Department to other agencies around the nation. This new FY22 department is still under the oversight of the Police Department.

The Police Department's mission focuses on maintaining a safe city by working in partnership with the community to prevent and reduce crime, protect life and property, help resolve neighborhood problems, and protect the rights of all. Every decision, plan and contact made places emphasis on Service Excellence, Community Engagement and Resource Maximization. All members of the department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department's overall budget was reduced by approximately 12.5% primarily due to the separation of emergency dispatch services from the Police budget. For comparability purposes, the FY22 five Police divisions increased a total of \$229,866 or 1.6%.

Exclusive of Dispatch Services, the department's expenditure increase is primarily due to the reversal of the FY21 furloughs, a FY21 effort to reduce costs during the on-going pandemic; this budgeted furlough expense restoration accounts for approximately \$156,600 of the department's budget increase over the prior year. In addition, this budget includes the addition of a new fulltime Alternative Response Liaison position to the City's Behavioral Health Unit along with other minor staffing changes. Other budget increases include the replacement purchase in minor equipment.

Also exclusive of Dispatch Services, the FY22 revenues are decreasing minimally by \$3,388 or 0.2%.

Police Administration

It is the responsibility of the Chief of Police to create policy and make resource management decisions for the Police Department's assets. The administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

The FY22 Police Administration budget is increasing \$84,141 or 6.9%, primarily in payroll expenses. The Administration's wage increase is largely due to the restoration of wages related to the FY21 furloughs budgeted during the beginning of the pandemic to reduce costs. The increase in payroll also comprises of one additional FTE from a division transfer, as well as other staffing changes as part of an organizational restructuring.

Revenues are essentially flat, increasing \$390 or 0.3%.

Uniformed Operations Group

A Police Major heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the suppression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to utilize a workload analysis to assign a proportionate number of patrol officers throughout the City. This model structure also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Community Policing Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Community Policing Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and other department and city staff to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to facilitate efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority. In addition, this section consists of a Traffic Unit, responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

The FY22 division expenditures have increased \$110,572 or 1.1%, primarily due to increases in payroll and minor equipment expenses. The elimination of the FY21 furloughs related to the pandemic and the addition of an Alternative Response Liaison position to the department's Behavioral Health Unit, the department's only new FY22 FTE, account for the majority of the FY22 / FY21 increase.

FY22 revenues have increased slightly by \$2,746 or 0.3%. The bulk of this division's revenue stream relates to Police Officer Outside Detail and Community Policing Coordinator reimbursements.

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by a newly formed Major of the Support and Investigative Services Section. Investigative Services is comprised of both a criminal investigations division and a special enforcement division, which includes drug enforcement, crime reduction, forensics, property and task force assignments. These divisions are responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the Court Officer, the Criminal Process Services, and the Victim Advocacy program.

FY22 expenditures in this division have increased \$29,451, or 1.6%, primarily due to payroll expenses, which is comprised of the removal of the FY21 furloughs, offset by a position reclassification and corresponding position transfer to Police Administration in addition to minor increases in union contractual obligations.

FY22 revenues are projected to increase slightly by \$4,682, or 1.4%. The majority of the divisional revenue is comprised of the Maine Drug Enforcement Agency (MDEA) and Victim / Witness Advocate grant salary reimbursements.

Operations Support Services

The Operations Support Services Division is commanded by a newly formed Major of the Support and Investigative Services Section. This section is comprised of professional standards, training, internal affairs and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

The FY22 division expenditures have increased \$16,908, or 1.9%, primarily due to training increases, in part due the inclusion of promotional training grant funded in FY21. The FY22 budget includes training new crash reconstructionists, as well as the anticipated training and other costs related to seeking national accreditation through the Commission on Accreditation for Law Enforcement Agencies (CALEA).

The FY22 revenue projection remains flat, and consists of the forensic crime lab reimbursement from regional municipalities and the issuance of accident reports.

Dispatch Services

In FY22, Dispatch Services separated from the Police Department's budget and transferred to its own department (100-23), however, this section continues to be administered by the Police Department. This accounting structure department separation will facilitate improved comparability between the City's Police Department and other emergency services agencies around the country, as well as help isolate and appropriately allocate costs related to our shared emergency dispatch center with the other involved communities.

Jetport Security

The Sergeant assigned to the Jetport Security division serves as a direct liaison between the Police Department and the Jetport staff and Administration.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoints during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

FY22 expenditures and revenues in this division have decreased \$11,206, or 1.9%, due to staff turnover. The cost for this division is entirely offset by revenues received by the Jetport.

Fire

The Fire Department consists of five divisions: Administration, Code Enforcement and Community Services, Field Operations, Operations Support Services and Jetport Air Rescue. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall FY22 expenditure increase is \$376,774, or 2.1%. This budget includes a new ambulance, as well as increases in the travel & training lines associated with paramedic certification, and an Air Rescue training prop and the upcoming FY22 large mock drill. This budget also incorporates minor staffing position changes.

The FY22 revenue decrease is \$292,749, or 6.0%. The revenue projected decrease is attributed to the Medcu EMS reduced call volume activity during the pandemic. The Air Rescue Station division expenses are 100% reimbursed by the Jetport.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

This division also administers the human resources activities for the department including hiring, worker compensation claims, benefits, wellness, risk management, and payroll. The division has instituted a Peer Support Team, using the Police Department model, to deliver support and services to members facing crisis. This has positively impacted leave associated with Critical Incident Stress cases.

The FY22 Fire Administration budget increased by \$21,987, or 3.5%, the majority of which is attributed to payroll contractual increases, as well as temporary help contract IT support. FY22 division revenues remain flat.

Code Enforcement & Community Services

The division of Code Enforcement and Community Services is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Additionally, the division reviews site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground & underground storage tanks and liquefied petroleum gas tanks.

The division administers the Fire Prevention Code, N.F.P.A 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. This division also provides the management and oversight of company level inspections of residential and commercial properties totaling over 5,000 a year.

Code Enforcement and Community Services also comprises the public information, education and community outreach initiatives, which includes the Portland High School Program, public education materials, and public information of current events affecting the citizens of Portland.

The FY22 Code Enforcement and Community Services division's budget decrease of \$60,087, or 25.2%, is predominantly attributed to the transfer of one Fire Captain/EMT position to Field Operations. FY22 revenues, consisting of non-business licenses, most notably inspection stickers, remain flat.

Field Operations

The Field Operations division is responsible for providing emergency services including fire suppression, emergency medical care and transport, hazardous materials response, technical rescue response and any possible public emergency. The division supports fire and life safety programs through routine field safety inspections.

The Field Operations division is responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting services. Responsibilities include ensuring compliance with state mandated requirements, including EMS and basic and advanced firefighting, and encompass overseeing the medical licenses of over 200 personnel. Field EMS Operations provides advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR, to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit provides in-service training for all fire department members as well.

Field Operations provides emergency services for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay, including emergency medical transportation for the island residents, as well as training for the islands' volunteer call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. Additionally, this division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. This division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations.

The FY22 Field Operations expenditure increase is \$388,748, or 2.6%. This budget increase is largely attributed to the inclusion of a new ambulance. The division payroll increase is predominantly due to the transfer of a Fire Captain / EMT position from Fire's Code Enforcement & Community Services division.

Divisional revenues have decreased \$300,000, or 8.5%, as a result of the pandemic's reduced Medcu / EMS call volume.

Operation Support Services

The Operations Support Services division encompasses Hydrants, Building Maintenance and Fire Alarm. The hydrant system is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment. Building maintenance provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors. The fire alarm section maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Portland Regional Communication Center's (PRCC) core equipment.

The FY22 Operations Support Services expenditure increase of \$23,275, or 2.7%, is attributed to the increase in building maintenance expenses at nine stations around the city.

The FY22 revenue has increased \$4,400, or 3.7%. The revenue activity in this division is mainly generated from the master box alarm annual maintenance and new connection fee.

Air Rescue Station

The Jetport Air Rescue Station Division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The FY22 Air Rescue Station expenditure and revenue increase is \$2,851, or 0.3%. The largest increase in this budget is in the travel and training line which includes a new training prop and a FY22 scheduled large mock emergency drill, most of which is offset by other line decreases. Budget decreases include the elimination of the FY21 skid steer replacement and the maintenance and repair foam disposal expense one-time purchases.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services and is supervised by the Emergency Communications Director. Serving the Town of Cape Elizabeth and the cities of South Portland and Portland, the PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate police, fire, and emergency medical services resources. The 2011 regional consolidation allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

In FY22, Dispatch Services separated from the Police Department's budget (100-21) and transferred to its own department, however, this section continues to be administered by the Police Department. This accounting department structure separation will facilitate improved comparability between the City's Police Department and other emergency services agencies around the country, as well as help isolate and appropriately allocate costs related to our shared emergency dispatch center with the other involved communities.

For comparability purposes, the FY22 Dispatch Services expenditures increased \$41,984, or 1.8%, primarily due to the restoration of the FY21 furlough budget wage reduction offset by FY22 staff turnover cost reductions. Less notable changes include maintenance & repair and contractual services expenditure increases.

The department revenues generated reflects the Dispatch cost share from the Town of Cape Elizabeth and South Portland.

Department of Planning & Development

The Planning and Urban Development Department promotes and plans for the future vitality, livability and prosperity of this remarkable city and all its people; Portland is Maine's largest economic center and its largest residential community.

The Planning and Urban Development Department's work involves overseeing and directing all planning and urban development activities including: comprehensive planning; managing and improving the City's zoning site plan, subdivision and historic preservation ordinances; working with developers, neighborhoods and citizens on site plan review of larger projects; design review of developments; and transportation planning in coordination with other City departments.

The Department of Planning and Urban Development consists of two divisions: Administration and Planning.

The FY22 department expenditure budget increased \$172,746, or 12.1%. Increases in the FY22 payroll expenses include the elimination of the FY21 furlough & wage reductions in light of the pandemic, as well as FY22 union contractual wage increases. The significant department increase in contractual services includes funds for the continued City-Code Chapter 14 zoning re-write Phase II and the Historic Impact Housing Cost Study.

FY22 revenues decreased \$7,552, or 1.0%, attributed to the projected reduction in program income reviews.

Planning & Development Administration

The Planning & Urban Development Administration division oversees all operations of the Department of Planning and Urban Development.

The FY22 expenditures have increased \$17,351, or 8.2%, largely attributed to the restoration of wages reduced in the FY21 budget in response to the pandemic slowdown.

Planning

The Planning division provides comprehensive and long-range planning for the City. This division conducts development review for site plan, subdivision, historic preservation, DEP site location permits, and rezoning requests. Division services include the development and updating of the City's Comprehensive Plan (<http://www.portlandsplan.me>), neighborhood planning, implementation of plans, the City's public art program, multimodal transportation planning, and historic preservation planning. The Planning division also manages the Congress Square Park redesign and other urban design initiatives.

The FY22 Planning expenditures have increased \$155,395, or 12.8%. FY22 increases include the elimination of FY21 reduced position hours due to the pandemic, as well as funds for the City Code Chapter 14 zoning rewrite and the Historic District Impact Study. The division projected revenues have decreased \$7,552, or 1.1%.

Permitting & Inspections

The Permitting and Inspections Department consists of four divisions: Administration, Inspections, Housing Safety, and Business Licensing. The department is responsible for issuing building permits; enforcing the City's building, plumbing, electrical, housing, and land use codes; issuing business licenses and Certificates of Occupancy; and maintaining the rental housing registration program.

The department's expenditures have increased \$246,341 or 12.8%. This FY22 increase is predominantly attributed to the new +4.25 full-time equivalent (FTE) positions: a Life Safety CEO / Plan Reviewer, a Licensing Registration Coordinator, a Licensing & Registration Assistant, a Marijuana Compliance Coordinator, and the Director of Permitting & Inspections hours to full-time status.

The department's FY22 estimated revenue has decreased \$18,753 or 0.4%. The FY22 revenue projection includes a decline in Building Permit revenue of \$450,000 and an increase in Business License revenue of \$386,643.

Permitting & Inspections Administration

The Administration Division is responsible for overseeing all aspects of the Permitting and Inspections Department. This division consists of the Director of Permitting & Inspections and the Principal Administrative Officer, as well as the necessary tools to support the oversight of the department's operations.

This division's FY22 expenditure budget has increased \$23,218, or 14.9%, predominantly due to the Director of Permitting & Inspections position restore to full-time status mid-year of January 2021 (FY21).

Inspections

The Inspections division issues permits for the construction of all types, and acts as the enforcement agency for building, housing, plumbing, electrical, mechanical, zoning, and land use rules and regulations.

This division's expenditure budget has increased \$36,051 or 3.5%, largely due to the FY22 addition of a new full-time Life Safety CEO / Plan Reviewer 50%/50% position share with the Housing Safety Division. This division's revenue budget has decreased \$383,000, or 12.5%, predominantly due to the building permit decrease in big development post COVID.

Housing Safety

The Housing Safety division administers the rental housing registration and inspection program for residential rental properties in the City of Portland, and is responsible for enforcing housing and life safety codes.

The net revenue generated from the Short-Term Rentals registration program will be contributed to the Housing Trust Fund. In FY20, the Short-Term Rental Registration program contributed approximately \$123,000 to the Housing Trust Fund.

The FY22 division's expenditure budget has increased \$109,269, or 22.7%. This increase is predominantly due to increased staffing in response to the Rent Control Ordinance. The FY22 budget incorporates the addition of 2.1 new full-time equivalent positions including a Licensing & Registration Coordinator, a 50%/50% shared full-time Life Safety CEO / Plan Reviewer with Inspections, and a 60%/40% shared full-time Licensing & Registration Assistant with Business Licensing.

This division's FY22 revenue budget has also increased \$372,893 or 58.4%. This increase is attributed to the Long-Term Rental registration fees established by the Rent Control Ordinance.

Business Licensing

The Business Licensing division processes over 4,200 licenses annually as required by the City Code, including the oversight of the City's taxi licensing. The Health Inspection program is also included within this division which encompasses food service establishment inspections, and Certified Food Protection Manager (CFPM) exam administration and enforcement, as well as Fats, Oils, and Grease (FOG) maintenance inspections.

The FY22 division's expenditure budget has increased \$77,803 or 31.7%. This is predominantly related to increased staff to respond to the new Marijuana Ordinance and Citizen referendum and includes a new full time Marijuana Compliance Coordinator position and a 40%/60% shared full-time Licensing & Registration Assistant with the Housing Safety division.

The FY22 revenue budget projection has decreased \$8,646 or 0.6%, predominantly due to the decrease in division activity during the pandemic.

Information Technologies

The City of Portland Information Technology Department (COP IT) is comprised of three teams: the Advanced Services Team, the Core Team and the Service Desk.

The Advancing Services Team is responsible for the quality of COP IT performance through IT Targeted Services Management, momentum and control of all IT projects, and advancements through user training, process improvement and new technologies. Strategically, this team is focused on assessing the quality of COP IT work and paving an easy path for better quality.

The Core Team, in addition to application support, is responsible for all foundational infrastructure and systems that applications and users rely on. This team ensures confidentiality, integrity, and availability of three major application stacks (public administration, GIS and public safety) and many other line of business applications. In addition to managing and updating these core systems, the team also processes the tier-3 and tier-4 support escalations from the IT Service Desk. Strategically, this team is focused on more reliable, cost effective, and better performing core elements to support business agility.

The IT Service Desk is responsible for direct city staff support including end-user devices. With the support of Advancing Services, the Service Desk team is developing tier-0 material (IT Self-Help information), and continues to build an emphasis on and confidence in immediate tier-1 support. This team also handles the more technical tier-2 issues, including those who need one-to-one support whether onsite or remote. Strategically, this team is focused on bringing the time to resolution closer to the customer's first moment of need.

Amid technology transformation and the ever-increasing dependency on, the department continues to focus on improved means of achieving goals including cost effectiveness and delivering good quality service.

The FY22 expenditures increased \$269,556, or 10.4%. The FY22 budget incorporates various position reclassifications with a total net decrease of 0.2 FTEs and contractual monies to support Human Resources' IT needs. In addition, this budget includes the replacement of public safety software, as well as funds for other critical software support services.

The department's revenue activity reflects the reimbursement of costs and services provided to the Enterprise Funds and external users.

Public Works

The Director of Public Works oversees the operations of eleven (11) divisions within the General Fund, as well as the Street Opening, Sewer and Stormwater funds. The Director along with the Deputy Director of Public Works, division managers and administrative support staff, provide day to day supervision for these functions. The department is responsible for basic municipal services, public infrastructure management, citywide fleet management, the development and implementation of capital improvement plans, and the wastewater - stormwater utilities. Department staff supports several city committees including the Sustainability and Transportation Committee.

The FY22 Public Works General Fund expenditure budget increased by \$795,889 or 5.8%. The FY22 department payroll expenditure increases include the restoration of 3.4 full-time equivalent (FTE's) positions from the FY21 pandemic budget reductions, as well as one new FY22 full-time Island Services Maintenance Worker position. The contractual service increases include the transfer of the graffiti removal expenditure from the Police Department, increased funding for traffic line markings to include high visibility (epoxy) markings and to allow for a second round of school zone crosswalk painting. The supplies category increase is largely attributed to the price rise in vehicle fuel.

The revenue budget increase of \$120,153, or 2.3%, is predominantly a result of the projected increase in the street occupancy revenue activity. Reimbursement from other City funds also increased in FY22.

Public Works Administration

The Public Works Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of street opening permits and street-sidewalk occupancy permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

The FY22 Administration expenditure budget increased by \$33,318, or 5.0%, largely due to restoration of the Program Coordinator from a 0.5 full-time equivalent (FTE) position to full-time in FY22; this position was reduced in FY21 due to the pandemic budget decreases. The majority of this division's revenue is derived from the Sewer and Stormwater Enterprise Funds for their apportioned costs for salary reimbursements and building space.

Streets & Sidewalks

The Streets & Sidewalks division is a national award-winning multi-tasking Public Works maintenance program comprised of five working crews. The division is responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, and grounds maintenance, including winter sidewalk snow removal operations.
