

City of Portland, Maine
Remote Finance Committee Meeting
Thursday, May 16, 2024
5:30 PM, Remote via ZOOM

AGENDA

PUBLIC COMMENT INFORMATION

To submit written public comment on an agenda item for which public comment is being accepted, email finance@portlandmaine.gov. Submissions must be received by 12:00 pm the day before the Finance Committee meeting to guarantee their inclusion in the agenda packet. All submissions must include the commenter's name and legal address. To help ensure your comment is submitted for the correct item, please include the name of the agenda item (see below).

ZOOM MEETING INFORMATION

This meeting will take place remotely using Zoom. This meeting will be held remotely pursuant to the Remote Meeting Policy adopted by the Portland City Council. Allow your computer to install the free Zoom app to get the best meeting experience. If you are not able to attend live, a recording will be available in the Agenda Center following the meeting. For agenda items where public comment is scheduled, you will need to use the "raise your hand" feature. To raise your hand via the telephone, please hit *9. You will be unmuted by the host when it is time for public comment.

1. Introductions

2. Public Hearing and Vote to Recommend FY25 City Manager's Recommended Budget to Full City Council for Approval

On Monday, April 8th the City Council referred the City Manager's Recommended Budget to the Finance Committee. On Tuesday, April 9th the Finance Committee began their detailed

review. At tonight's meeting, remaining responses to Q&A will be reviewed. A Public Hearing is scheduled to be taken on this item at the current meeting. A Vote on recommendation of the budget back to the full City Council is scheduled.

See <https://portlandmaine.gov/FinanceCommittee> for updates on the FY25 Budget Review Schedule

3. Review of Future Meeting Dates

Thursday, June 20, 2024

- **Review of Sustainability Fund ([as Approved by Sustainability and Transportation Committee on 5/8/24](#))**
- **Development of PILOT (Payment in Lieu of Taxes) Policy (most recently reviewed policy docs from 2017/2018 as reviewed by the Economic Development Committee)**

4. Adjournment

FY25 City Manager's Recommended Budget

Presentation to Finance Committee - April 9, 2024
(updated to include summaries for Departments presenting 4/11/24)

Budgeting 101 - Definitions

The City of Portland **Budget** is a fiscal plan setting out anticipated revenues and expenditures for accomplishing City services over the course of our fiscal year (which runs each July 1st through June 30th). Setting an annual operating budget is required by the [City Charter](#).

The City budget includes both the **general fund** and several **enterprise** funds.

Budgeting 101 - Definitions

The **general fund** is the largest of the City's funds and includes funding for basic municipal services such as public safety, health and human services, and public works. The general fund is supported by property taxes and a variety of other sources including excise taxes, licenses and permits, State of Maine revenue sharing and general assistance reimbursement, charges for services from City Departments and more.

The FY25 City Manager's Recommended general fund operating budget is \$277.3M

Budgeting 101 - Definitions

The **enterprise funds** are self supporting funds that rely on their own revenues to support their expenditures. They do not utilize any property tax revenue to support their operations. The City currently has four enterprise funds totaling \$76.6M:

- Jetport Enterprise Fund (\$34.9M)
- Sewer Enterprise Fund (\$33.7M)
- Stormwater Enterprise Fund (\$7.5M)
- Fish Pier Enterprise Fund (\$418k)

Tax Levy vs Tax Rate

TAX LEVY: The City Council sets the tax levy during budget approval, not the tax rate. The City **tax levy** is the amount of property taxes required to be collected from Portland property taxpayers to fund municipal operations.

TAX RATE (aka MILL RATE): The City Assessor uses the property tax levy approved by the City Council and divides it by the total taxable valuation of the City to come up with the final tax rate (also known as the mill rate or the millage rate). The tax rate represents the amount of taxes payable per dollar of assessed property value. This usually occurs in midsummer. Tax rates shown during the budget process are ESTIMATES.

Tax Levy vs Tax Rate - Additional Details

NOTE: The **tax levy increase** is typically HIGHER than the **tax rate increase**. As the City's local assessed valuation rises, more revenue is brought in per mill via the "mill rate".

Example: Actual FY24 vs FY25 proposed tax levy & tax rates

	TAX LEVY	TAX RATE**
City FY24 Approved	\$ 103,559,653.00	\$ 6.96
City FY25 CM Recommended	\$ 109,759,178.00	\$ 7.30
Increase (\$)	\$ 6,199,525.00	\$ 0.34
Increase (%)	5.99%	4.89%
PPS FY24 Approved Tax Levy	\$ 110,850,008.00	\$ 7.45
PPS FY25 FinComm Recommended Tax Levy*	\$ 119,402,624.00	\$ 7.94
Increase (\$)	\$ 8,552,616.00	\$ 0.49
Increase (%)	7.72%	6.58%

*PPS Board Vote Not Yet Taken as of 4/8/24

** Tax Rate is an estimate until City Tax Commitment is finalized

City of Portland Budgeting 101 - Revenues

The City of Portland budget is funded by a variety of revenue sources. Portland's budget is one of the most diverse budgets in New England and hit a new milestone this year being over 60% funded by non-property tax revenue sources.

The FY25 budget included total revenues of \$277.3M, total estimated non-property tax revenues of \$167.5M, and a required municipal property tax levy of \$109.8M.

	General Fund	County Tax	City General Fund
Total Expenditures	\$268,094,616	\$9,175,647	\$277,270,263
Less: Revenues	(167,511,085)	-	(167,511,085)
Surplus	0	-	0
Tax Levy	\$100,583,531	\$9,175,647	\$109,759,178

City of Portland Budgeting 101 - Revenues

CITY GENERAL FUND REVENUES

31 Property Taxes	\$109,759,178
31 Other Local Taxes	2,320,022
32 Licenses & Permits	7,430,794
33 Intergovernmental Revenue	38,137,410
34 Charges for Services	43,475,199
35 Fines, Forfeits and Penalties	2,396,804
36 Use of Money and Property	17,230,269
39 Other Sources	56,520,587

Total General Fund Revenues

\$277,270,263

City of Portland Budgeting 101 - Revenues

31 - Property Taxes - This is the total amount of property taxes required to be collected to support municipal operations

31 - Other Local Taxes - This category includes Excise Tax revenue and a revenue offset due to required Tax Increment Financing (TIF) payments and districts.

32 - Licenses and Permits - Business license revenue, permitting & inspections revenue, limited other Department permits etc.

33 - Intergovernmental Revenue - State & Federal revenue including State of Maine revenue sharing, general assistance reimbursement, grant revenues and more.

City of Portland Budgeting 101 - Revenues

34 - Charges for Services - Where you will find majority of Department revenues via charge for services they provide (examples include Parks & Rec program fees, berthing fees, and HHS clinic fees etc).

35 - Fines Forfeit Penalties - This category includes parking tickets and boots, code violation fees including restaurant inspection violations and more.

36 - Use of Money and Property - Parking meter income, parking garages income, rental income, interest income.

39 - Other Sources - Debt service reimbursement and other reimbursements from enterprise funds, employee contributions for benefits and various other misc.

City Manager's
Recommended Budget
"Blue Book" Summary:
What is included for FY25?

- Transmittal Letter from City Manager (p. 1 - 10)
- FY25 Comparative Budget Plan (p. 10-13)
- FY25 Tax Rate Computation (p. 14)
- FY25 Staffing FTE Change (p. 15)

Budgeting 101 - Median Assessed Home Value

We typically present the impact of each budget proposal on the **median** homeowner in Portland. What does this mean?

The **median** is the value separating the higher half of a data sample, a population, or a probability distribution, from the lower half. In simple terms, it may be thought of as the "middle" value of a data set. For example, in the data set {1, 3, 3, 6, 7, 8, 9}, the median is 6, the fourth number in the sample. The median is a commonly used measure of the properties of a data set in statistics and probability theory.

The **median home value** is the median assessed value of single family homes in Portland (including residential condominiums but removing separate parcel boat slips and separate parcel parking spaces) was \$371,900 and the **average** was \$420,328 as of Jan 2024.

Budgeting 101 - Impact to Median Homeowner

Using our median home value as of January 2024 of \$371,900 and rounding up to \$375,000 - the impact to the median homeowner of the FY25 City Manager Recommended and PPS Finance Committee Recommended Budget Proposals is as follows:

CITY - 34 cent mill rate increase X ($\$375,000 / \$1,000$) = \$127.50

PPS - 49 cent mill rate increase X ($\$375,000 / \$1,000$) = \$183.50

TOTAL - 83 cent mill rate increase X ($\$375,000 / \$1,000$) = \$311.25

Portland property owners can estimate the change in their tax bill (approximately) by reviewing their prior year home valuation, dividing by \$1,000, and multiplying by \$0.83. If your most recent property valuation is \$500,000 your current estimated tax increase for FY25 will be ($\$500,000 / 1,000 * .83$) or approximately \$415.

Budgeting 101 - Impact to Median Homeowner - Combined City Side Only Mill Rate Impact

IMPACT TO MEDIAN HOMEOWNER - EXAMPLES OF VARIOUS CITY SIDE ONLY TAX RATE IMPACT		
Overall % Tax Rate Increase	Tax Rate Impact	Impact to Median Homeowner
1%	\$0.07	\$ 26.10

Questions & Answers

DISTRIBUTE TO: Members of the City Council and Interim City Manager
FROM: Brendan T. O'Connell - Finance Director
DATE: May 6, 2024
SUBJECT: **FY25 Budget Frequently Asked Questions and Answers**

During the past several months and budget cycles the City has fielded many questions from residents of the City and members of the City Council in regards to the FY25 budget and valuation. Many of these questions have come up repeatedly via phone, email and in person over the years. This memo is intended to summarize responses to many of the frequently asked questions ("FAQ").

This document will be updated as the FY25 budget process progresses with responses to any new frequently asked questions from the Finance Committee, City Council and public.

Question 1: I noticed the FY25 budget includes \$150M of new estimated valuation. How does this growth benefit City and School revenues? (updated 4/10/2024)

The budget includes an estimated increase in local assessed value of \$150M from 4/1/23 to 4/1/24. This is a combination of new projects breaking ground or being completed, increases in existing property assessments and an estimate for tax appeals. This \$150 million of new property value created an additional approximately \$1,095,000 in tax revenue for municipal use (\$150,000,000 of new property value divided by \$1000 times the City portion of the mill rate of \$7.40). This \$150M of new property value also creates an additional approximately \$1,191,000 in tax revenue for Portland Public School Department use (\$150M / \$1000 x PPS mill rate of \$7.94). While this \$150M of growth seems like a significant increase, it represented only about a 0.1% overall increase to our FY24 valuation of approximately \$14.88 billion, and can only fund a fraction of the cost increases and revenue losses we faced in FY25, many of which were outside of City control.

Question 2: What is the breakdown of the tax levy between City and School operations? Is it 50/50? How has the tax levy and mill rate broken down in the last several years? (updated 4/10/24)

The overall City of Portland approved tax rate for FY24 is \$14.41 and the breakdown is not 50/50. The mill rate and tax levy is further broken down in the tax rate history table below. In FY24 the City mill rate was \$6.34 (44.0% of total mill rate), the County mill rate was \$0.62 (4.3% of total) and the Portland Public Schools mill rate was \$7.45 (51.7% of total). Because of the City's revaluation in FY22, which dropped

mill rates in proportion to the overall increase in valuation, progression of total taxes over time is difficult to follow. The second table on tax levy history (total amount of tax dollars collected to support each portion of the mill rate) provides easier to follow/understand data on trends in overall tax levy over time.

FY16 - FY24 City of Portland Tax Rate History & Breakdown							
Fiscal Year	City Tax Rate	City % of Total	County Tax Rate	County % of Total	School Tax Rate	School % of Total	City of Portland Tax Rate
FY16	\$ 9.83	47.65%	\$ 0.68	3.30%	\$ 10.12	49.05%	\$ 20.63
FY17	\$ 10.08	47.75%	\$ 0.70	3.32%	\$ 10.33	48.93%	\$ 21.11

FY20	\$ 86,173,337	46.29%	\$ 6,640,316	3.57%	\$ 93,345,139	50.14%	\$ 186,158,792
FY21	\$ 86,743,535	46.12%	\$ 7,011,159	3.73%	\$ 94,338,744	50.16%	\$ 188,093,438
FY22	\$ 83,867,622	44.12%	\$ 7,149,309	3.76%	\$ 99,083,251	52.12%	\$ 190,100,182
FY23	\$ 89,023,793	44.41%	\$ 7,563,215	3.77%	\$ 103,851,071	51.81%	\$ 200,438,079
FY24	\$ 94,353,230	44.01%	\$ 9,206,423	4.29%	\$ 110,850,008	51.70%	\$ 214,409,661
FY25**	\$ 100,583,531	43.89%	\$ 9,175,647	4.00%	\$ 119,402,624	52.10%	\$ 229,161,802
The City portion of the overall tax levy has increased by \$24.8M or 32.7% since FY16 (3.2% CAGR)							
The County portion of the overall tax levy has increased by \$3.9M or 75% since FY16 (6.4% CAGR)							
The School portion of the overall tax levy has increased by \$41.3M or 53% since FY16 (4.8% CAGR)							

* Note: FY24 County Tax Levy includes (and FY25-FY28 will also include) an additional \$761,342 due to County change to 6/30 year end

** FY25 figures will be finalized in May/June 2024

CAGR = Compound Annual Growth Rate

Question 3: Can you provide additional information regarding impacts of changes to the combined tax rate / mill rate? For example, what does a 1% increase mean for the median property owner in Portland? (updated 4/11/24 - see tables below for response)

IMPACT TO MEDIAN HOMEOWNER - EXAMPLES OF VARIOUS CITY SIDE ONLY TAX RATE IMPACT		
Overall % Tax Rate Increase	Tax Rate Impact	Impact to Mediam Homeowner
1%	\$0.07	\$ 26.10
2%	\$0.14	\$ 52.20
3%	\$0.21	\$ 78.30
4%	\$0.28	\$ 104.40
4.9%**	\$0.34	\$ 127.50
5%	\$0.35	\$ 130.50
6%	\$0.42	\$ 156.60
7%	\$0.49	\$ 182.70
8%	\$0.56	\$ 208.80
FY24 Approved Tax Rate	\$6.96	
Estimated Median Home Value	\$375,000	(see previous slide for details)
**Represents current recommendation from City Manager and PPS Finance Committee		

IMPACT TO MEDIAN HOMEOWNER - EXAMPLES OF VARIOUS TAX RATE INCREASE IMPACTS		
Overall % Tax Rate Increase	Tax Rate Impact	Impact to Mediam Homeowner
1%	\$0.14	\$ 54.04
2%	\$0.29	\$ 108.08
3%	\$0.43	\$ 162.11
4%	\$0.58	\$ 216.15
5%	\$0.72	\$ 270.19
5.8%**	\$0.83	\$ 311.25
6%	\$0.86	\$ 324.23
7%	\$1.01	\$ 378.26
8%	\$1.15	\$ 432.30
FY24 Approved Tax Rate	\$14.41	
Estimated Median Home Value	\$375,000	(see previous slide for details)
**Represents current recommendation from City Manager and PPS Finance Committee		

Question 4: The State of Maine equalized valuation for Portland is almost \$16.5B but the local assessed value is approximately 15B. What is the difference between these values and how do they impact my taxes? (updated 4/11/24)

Answer from the Assessor's Office: The State Equalized Valuation (SEV) is used as the basis to apportion the county tax, state-municipal revenue sharing, road assistance (highway block grants), general assistance grants and, the largest piece, state aid for education. It is also used by some utilities, such as the Portland Water District in its assessment of wastewater fees to municipalities.

State aid is vital to our municipal finances. The formula used to calculate the various municipal shares of state aid employ a variety of variables, including valuation of taxable property. For the state aid to be distributed equitably, the variables used in the formulas must be consistent; that is, the valuation figures must reflect the same percentage of market value for every municipality. Municipalities are required to assess at no less than 70% of true and just market value for property tax purposes, but within that constraint there is great variability. Through the process known as State Equalized Valuation, Maine Revenue Services develops annually an equalized value of every organized municipality and the unorganized territory. The finished product reflects the 100% taxable value for the municipality but does not represent the actual valuation used within the municipality which can vary widely between different municipalities.

- The City has not appealed or challenged the State Equalized Valuation. We agree with their analysis and their final value and would have a difficult time proving they are incorrect.
- The current State Equalized Valuation is based on actual property sales on an approximately 1-2 year lag. Sales prices have risen continuously over the last several years so we know our SEV will continue to rise.
- The reason the City uses the \$15B+ in its estimated projections is because this is the actual valuation that local taxes are levied against. The State's Equalized Value is not used to levy local property taxes, it is an indicator of what the actual 100% valuation should be. There is a wide difference between the two and this is one reason why we are undertaking a revaluation.
- While the State "certifies" their equalized value, this is only an aggregate total based on a sales ratio study of market data from the preceding 18-24 months. The State does not apportion or allocate individual uniform values to the 24,000+ parcels that make up the City of Portland.

Further information on SEV can be found:

[Maine Revenue Services Property Tax Bulletin No. 1 - Maine State Valuation](#)
[Rule 201 - Rules of Procedures Used to Develop State Valuation](#)

Question 5: Can staff provide details on how fundraising works in relation to the City's operating budget? Are there limitations on what items can be supplemented by fundraising? (updated 5/1/2022)

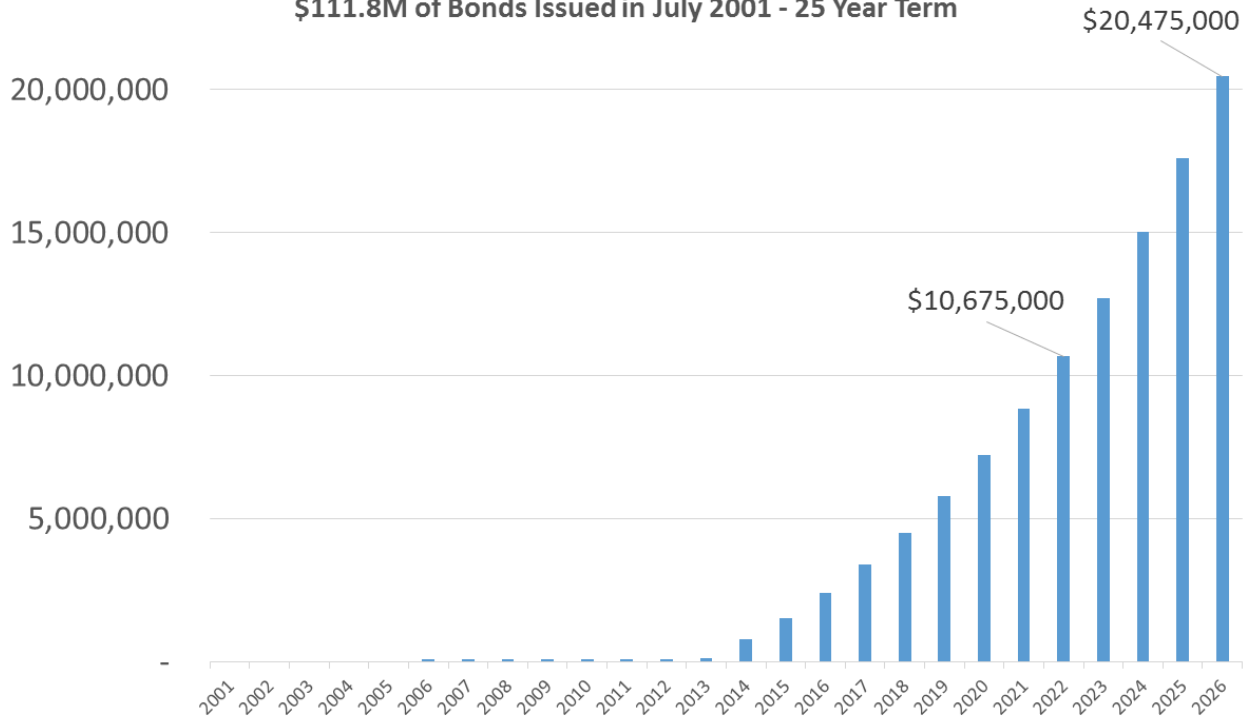

The City's spending of operating budget funds is authorized by an overall appropriation resolve passed during the City budget process. For programs supported either fully or partially via donations, the City budgets for the full amount of program expenditures within the appropriation resolve and also includes an estimate of the offsetting revenues in the resolve. City staff would be required to come back to City Council with an additional appropriation order if additional expenditures were required above and beyond what was already approved in the appropriation resolve. For example, if the City's overall operating budget was \$1M, and the City needed to launch a new \$50,000 program (supported by donations) midway through FY22 pushing total spending to \$1.05M the City Manager would bring a new appropriation order to Council asking the Council to appropriate the additional \$50,000 in donations, raising the overall appropriation to \$1,050,000.

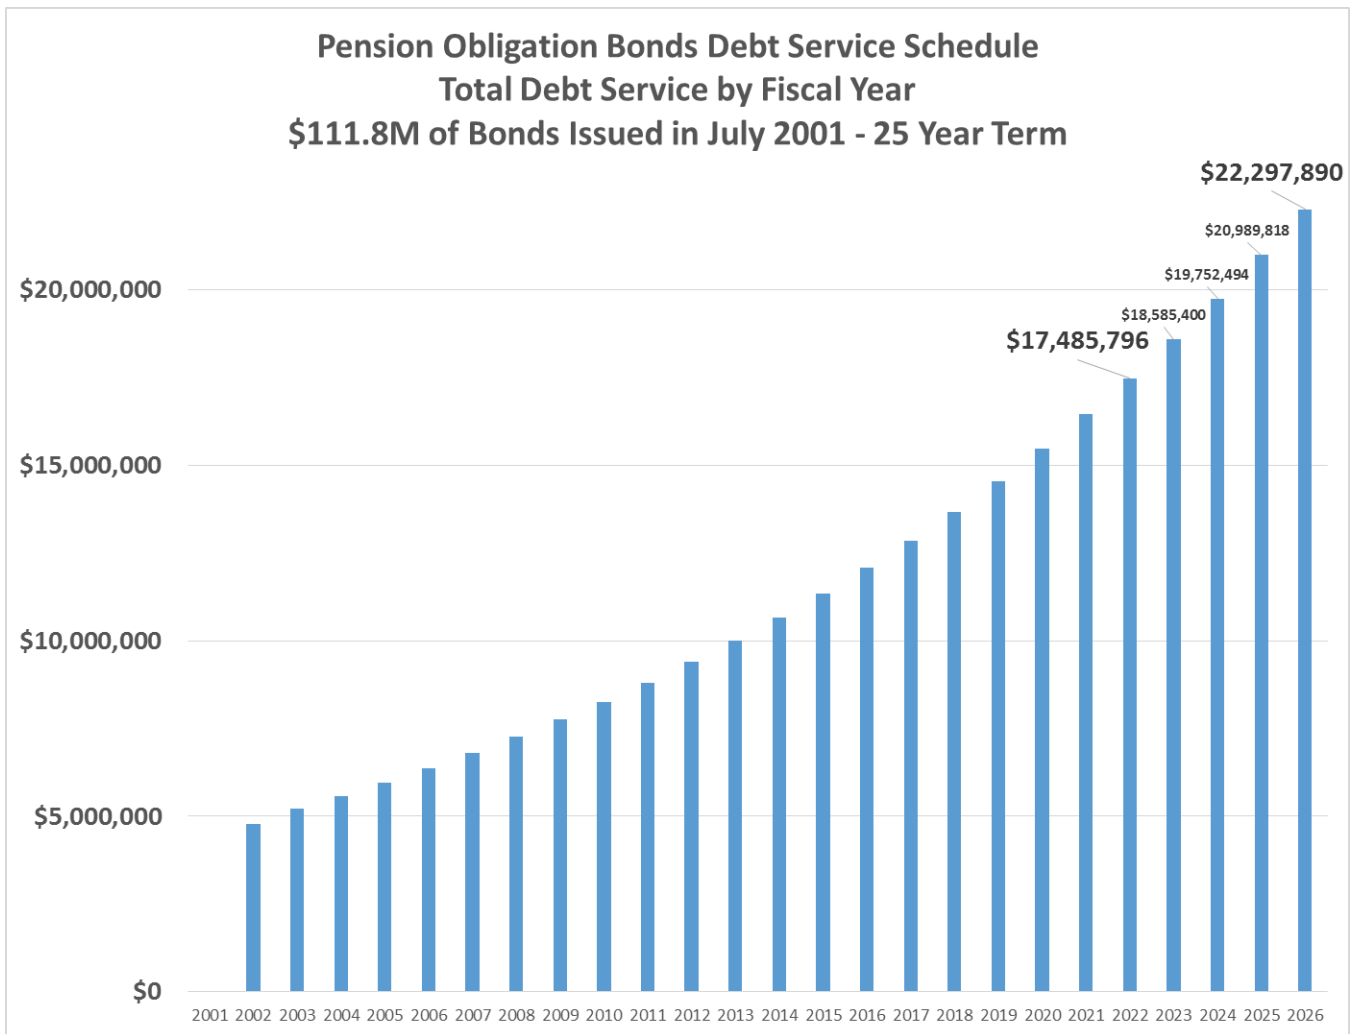

None of the programs currently being suggested for fundraising (in HHS, Parks & Recreation) have any restrictions that staff is currently aware of, but we would do further research before launching any specific new campaigns for any specific program or item.

Question 6: The FY25 budget calls for approximately \$4M of Debt Service Reserve use. Can you provide more detail on why this is appropriate and how it has helped smoothen property tax rates from FY23-FY27? (updated 4/11/2024)

Over the last several years the City has achieved significant cost savings due to an aggressive strategy of achieving credit rating upgrades to reduce future borrowing costs, refinancing previously issued debt at higher ratings and lower interest rates, renegotiating debt service related contracts, and making key vendor changes. These savings, currently held within the City's debt service fund reserves, are an integral part of staff strategy to smoothen property tax rates over the final five years of repayment of the City's \$111.8M pension obligation bond. The structure of the pension obligation bonds, issued back in July 2001, was very unfavorable in later years of the debt. No significant principal repayment on the debt began until 2014 and debt service payments will increase by over \$1.1M per year annually from FY24 through FY26. The final \$22.3M debt service payment is due on 6/1/26 and in fiscal years thereafter (beginning in FY27) the City and School Department will have significantly more operating budget flexibility and likely a reduction in tax levy on both sides of the budget (City and Schools).

Pension Obligation Bonds Debt Service Schedule
Principal Repayment by Fiscal Year
\$111.8M of Bonds Issued in July 2001 - 25 Year Term

Over the next two years (FY25 and FY26) the City will recommend that City Council utilize the debt service reserve to smoothen property tax rates in each fiscal and offset the impacts of the increases in pension obligation bonds debt service. If not for use of this reserve the property tax levy would be \$14M higher during FY23 - FY26 in total. Typically reserves are only recommended for use vs ONE TIME expenditures. In this instance use of the reserves remains appropriate as the debt service expenses related to pension obligation bonds are not an ongoing operating expense - they will be going away for good in FY27 (final payment is due in FY26 and in the FY27 operating budget there will be \$22.3M of capacity previously occupied by pension obligation debt service). Furthermore there are sufficient debt service reserves to cover the full amount of the increases in pension obligation bond debt service in each of the next four consecutive budget years. This use of the debt service reserve is this recommended approach from the Finance Department staff. Using pre-revaluation figures will result in a mill rate that is at least 72 cents lower than what the mill rate would have been if no debt service reserve was used.

The City's debt service reserve and the impending FY27 retirement of the pension obligation bonds also gives both the City and Schools flexibility in how new debt service expense impacts the property tax rate.

Question 7: What property tax relief programs are available to City residents? What are the income limitations on the Property Tax Stabilization Program and the Portland Senior Tax Equity Program (P-STEP)? (updated 4/11/24)

The City has a Tax Relief web page (<https://www.portlandmaine.gov/259/Tax-Relief>) dedicated to our various property tax relief programs. Many of the programs we offer are only permitted by State law and we must follow the rules they provided for allowable municipal programs (listed below):

- PROPERTY TAX STABILIZATION PROGRAM FOR SENIOR CITIZENS
- MAINE PROPERTY TAX DEFERRAL PROGRAM
- PORTLAND SENIOR TAX EQUITY PROGRAM (P-STEP)
- MAINE HOMESTEAD EXEMPTION PROGRAM
- BUSINESS EQUIPMENT TAX REIMBURSEMENT (BETR)
- BUSINESS EQUIPMENT TAX EXEMPTION (BETE)
- MAINE INDIVIDUAL INCOME TAX - PROPERTY TAX FAIRNESS CREDIT
- BLIND EXEMPTION
- VETERANS EXEMPTION
- SURVIVING SPOUSE, MINOR CHILD OR WIDOWED PARENT OF A VETERAN
- CURRENT LAND USE PROGRAMS (Farmland, Open Space, Tree Growth, and Working Waterfront)

We recommend referring to the City's Tax Relief web pages (and applicable State web pages) for details around qualification criteria and income limitations on each program. However, as of 4/26/23 there were no income limitations within the **State of Maine Property Tax Stabilization program for Senior Citizens**. For the **Portland Senior Tax Equity Program (P-STEP)** the income limitations are set by the State and taxpayers must qualify and determine their limits via completion of the State form. An excerpt from the form detailing income limitations on the 2022 State Form PFTC is below:

Who is eligible?

You may qualify for a **refundable Property Tax Fairness Credit** up to \$1,000 (\$1,500 if you are 65 years of age or older) if you meet all of the following:

- You were a Maine resident during any part of the tax year;
- You owned or rented a home in Maine during any part of the tax year and lived in that home as your principal residence during the year;
- Your total income during 2022 was less than the amount shown in the table below for your filing status and the number of qualifying children and dependents you claim:

If your Filing Status is:	AND Form 1040ME, line 13a is:		
	0	1	OR more than 1
	Your income must be less than:		
Single	\$55,000	\$55,000	\$55,000
Head of Household	\$70,000	\$70,000	\$86,250
Married filing Jointly or Qualifying Widow(er)	\$70,000	\$86,250	\$86,250

- You paid property tax on your home (principal residence) in Maine during the tax year that is greater than 4% of your total income **or** you paid rent on your home (principal residence) in Maine during the tax year that is greater than 26.67% of your total income. **Note** that the amount of property tax or rent you can include may be limited. See line 7 on Schedule PTFC/STFC.

You may qualify for a **refundable Sales Tax Fairness Credit** up to \$240, depending on the number of qualifying children and dependents on Form 1040ME, line 13a, if you meet all of the following:

- You were a Maine resident during any part of the tax year;
- Your total income during 2022 was not more than \$27,850 if filing single; \$44,050 if filing head of household; or, \$54,700 if married filing jointly or qualifying widow(er).

See the line 13 instructions below for more information.

Question 8: Are we able to create a discounted parking program for low to moderate income downtown workers? Either lower meter rates or lower City garage rates? (added 5/4/23)

We have not seen anything in any other municipalities regarding discounted meters for downtown workers. However the City has the benefit of owning several downtown garages and we have an existing **Park and Work** program. The purpose of the Park and Work program, since its inception about 30 years ago, has been to provide access to discounted parking for low to moderate income employees, or to unpaid volunteers. Portland Downtown administers the Park & Work program to employers for employees at or under 50% AMI. Employers or their employees pay for stickers to be adhered to parking tickets from the two city-owned and -operated garages, the Elm St. and Spring St. Garages, and the City of Portland subsidizes the cost. In the past several of the private parking facilities participated in the program, but for various reasons have decided to opt out of the Program

Understanding that discounting parking when it is at a premium does not make the most sense economically, Portland Downtown continues to partner with the City of Portland and other transportation partners on a multi-modal transportation marketing campaign to inform the public of options other than driving a car and parking downtown. Once here, it is very easy to walk, bike, bus, etc. in downtown, so we're excited to explore and share options.

Please visit the [Portland Downtown Park & Work](#) program page here for more information

Question 9: Can you provide actual expenditures for the last 10 fiscal years? (Updated 4-11-24)

Yes - the City Manager typically presents a budget classified by revenue type and Department to the full City Council each year. The comparative spending plan specifically shows all estimated income, indicating proposed tax levies, and all proposed expenditures, including debt service for the ensuing fiscal year (the FY25 City Manager's Recommendation); and is arranged as to show comparative figures for actual and estimated income and expenditures of the current fiscal year (FY24 Actuals/Projection) and actual income and expenditures of the preceding fiscal year (FY23).

In addition to the information that has been presented to the Finance Committee, City staff have added budget books to the Committee meeting backup for the preceding 10 fiscal years (FY14 through FY23) which show actual expenditures versus budgeted amounts for additional budget to actual comparison.

Question 10: How many full time employee vacancies are in each department? Please also note the length of time of the vacancy, if available. (table data collected in early April 2024)

See attachment as prepared by Human Resources for complete details from each Department. Each Department Head will also expand on vacant positions, term of vacancies if they have this data available (i.e. how long a position has been vacant), and issues caused by vacancies during their individual presentations to the Finance Committee. Please note, Human Resources does not track term of vacancies and Department Heads may only have anecdotal data about each position and the vacancy report as provided in 2023 can be found in [last year's budget FAQ](#). The report below may also not reflect final details from hirings in process (i.e. accepted offers from candidates who have not yet started with the City etc).

Question 11: Can the City save money by cutting chronically vacant positions? (updated 5/9/24). Please provide examples of the impact that vacancies have on the City.

Coordination of programs and operations of the City and recommendations on improvements in such programs and operations to the City Council is a duty of the City Manager as outlined in the City Charter. The budget process and the City Manager's recommended budget is the document that outlines the recommended course of action regarding operations based on Department recommendations, and funds and positions needed to coordinate City operations and programs each fiscal year. Of course, the Council has the ability to approve, reject, or amend the overall annual budget appropriation recommended by the City Manager per the process outlined in the Charter.

Each year the City budget includes changes in staffing levels. These may include elimination of staff/positions, additions of staff/positions, upgrades/reclassifications of existing staffing positions or use of outside temporary help and contractual services. With regard to FY25, the baseline assumption that was used was City Council guidance (given at the January 2024 budget workshop) that there should be no (or very limited) cuts to core City services.

The second assumption that should be made is that the City is not asking for funding in excess of necessary staffing levels - we are requesting the funds we need to staff and operate effectively based on Department guidance.

It is important to note that vacancies will always exist (and have historically existed) within the City budget as compared to budgeted positions. And in most of those instances having those vacant positions results in HIGHER costs to the City budget due to the need for overtime (remaining employees being paid to fill vacant shifts at 1.5x their regular rate of pay for hours worked beyond a regular 5 day weekly schedule) or using outside vendors/contractors to fill vacant shifts at higher rates of pay vs full time staff. There are also instances of revenue loss related to staff vacancies across many Departments.

In addition to that financial impact, there are also hidden costs related to employee morale, and often resulting turnover, when a Department is understaffed. Additionally, there have to be (and have been) reductions in service levels (i.e. delays in delivery of services, etc) as a result of these vacancies.

On the flip side, the City does sometimes also have instances of cost savings as a result of vacancies, usually related to our limited number of non-union positions. In these instances there are also typically some partially offsetting cost impacts and are also some hidden/non-financial costs.

Staff from various Departments have assisted in documenting examples of required staffing levels to effectively coordinate City programs and operations below, including costs of the program with full staffing, number of positions, position titles, union classification and more. The examples also include specifically what happens to costs in the instance of a vacancy.

Example #1 - Finance Department - Treasury Cashier Clerks

The City's Treasury Division is responsible for the collection of all monies into the City. This includes the collection of real estate taxes, personal property taxes, delinquent sewer user fees, and vehicle excise taxes and registration fees, as well as issuance of license plates. Treasury also collects parking ticket revenues and miscellaneous receivables, processes boat and utility trailer registrations, issues island vehicle and golf cart registrations, collects stormwater payments, administers the Portland Senior Tax Equity program and more. When a vacancy exists within Treasury, the City will typically immediately advertise the position and also reach out to an external staffing agency to fill the position on an interim basis. With one of our recent vacancies, a local staffing agency charged the City just under \$1000 per week for temp help based on a 37.5 hour workweek. When a full time employee was eventually hired, the hourly pay rate was approximately \$813.38.

It is worth noting that the time of year matters for this above example. The City's Treasury Department is incredibly busy in spring, summer and fall months and typically in December / early January as well. However, if the vacancy were to occur in late January or February the urgency to immediately hire a temp may not exist as February is our slowest month by registration volume (see chart below for collection history by month over previous three years).

Example #2 - Portland Fire Department / Public Safety

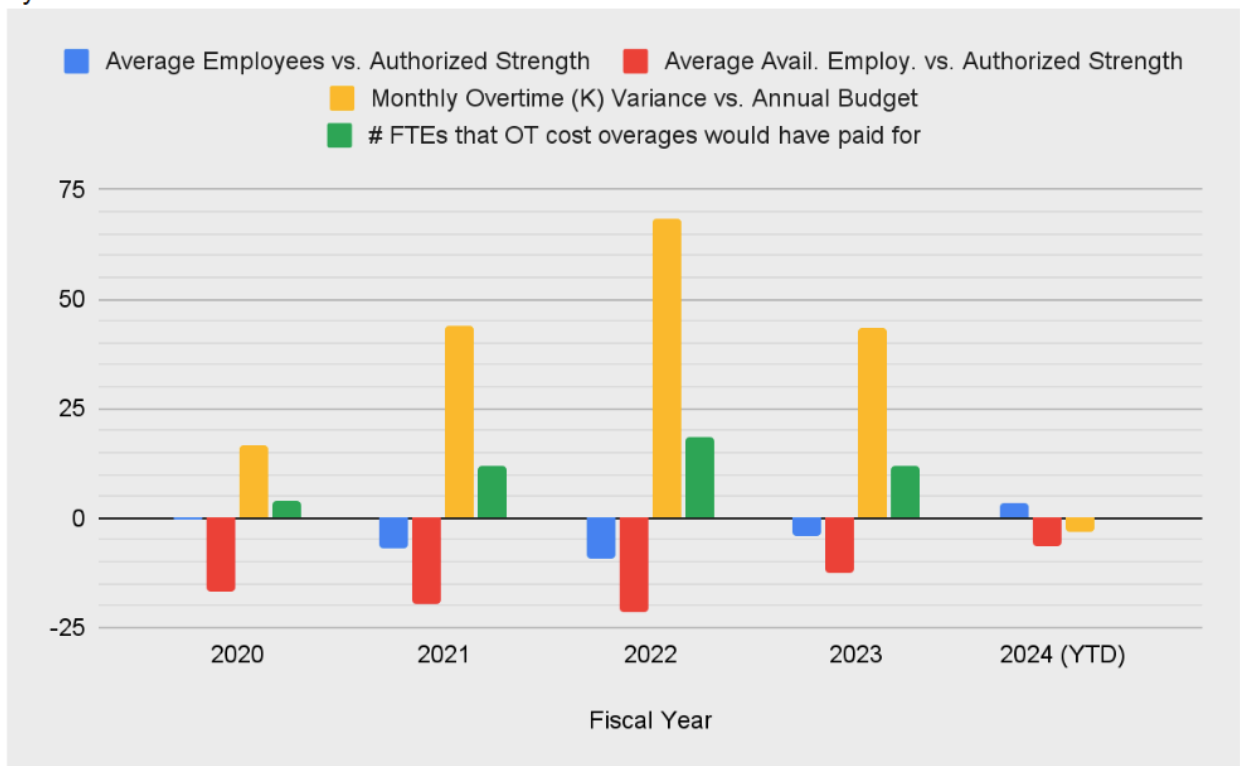

Essential Workers complete vital work to maintain the safety, security, and quality of the City. When vacancies occur, there are a few options for the Fire Department

- 1) Eliminate the positions and decrease services provided
- 2) Rely on current staff to maintain the status quo and cover vacant positions through overtime
- 3) Rely on current staff to maintain the status quo while continuing to try and hire new employees to fill vacant positions

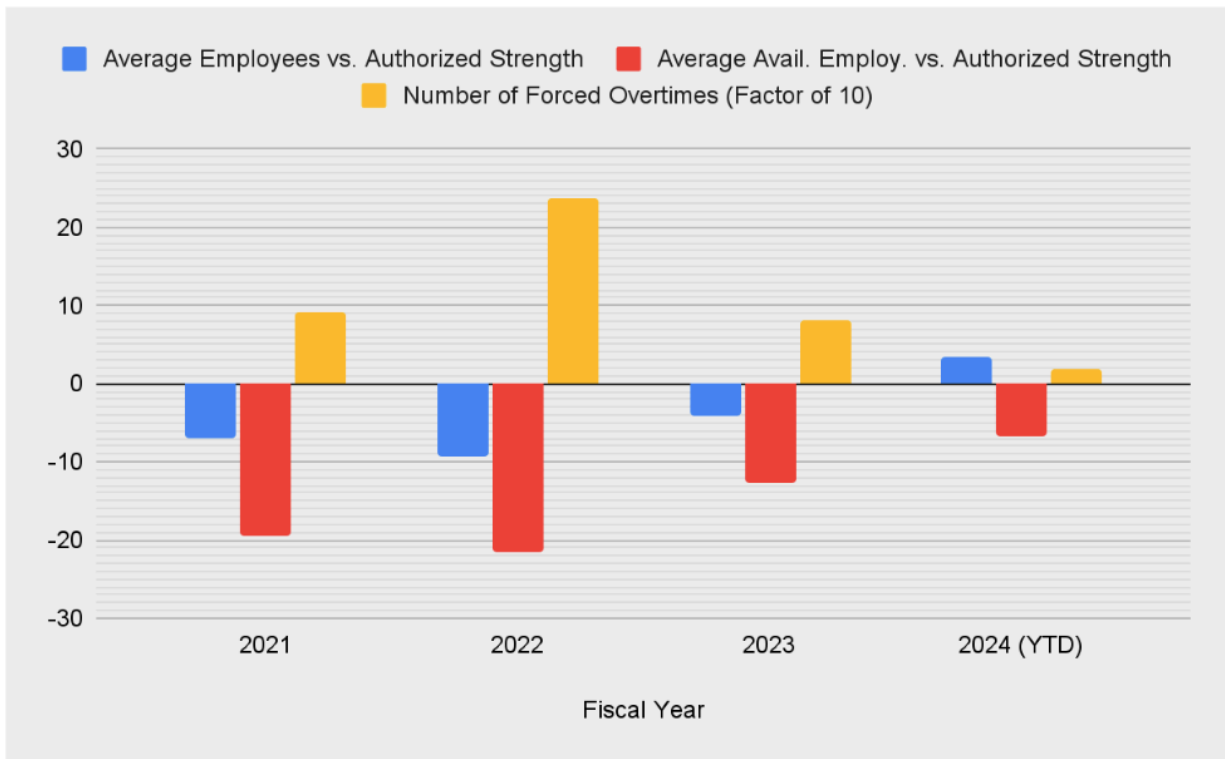

As outlined previously, the guidance from the City Council was to maintain existing essential service levels, so elimination of vacant positions was not an option. Over the last several fiscal years, the Department has relied on options 2 and 3 to meet the needs of the City. More recently (late FY23 and FY24) the Department has been more successful in hiring new employees to fill vacant positions and this has had a positive impact on the Department budget overall. The following charts illustrate recent overtime, FTE levels and impacts.

Employee Levels and Overtime Effects

Employee Levels and Forced Overtimes

Fire Department conclusions

- Elimination of vacancies would not reduce costs within the budget as the City is not reducing service levels for essential services
- The total cost of providing services is higher when significant vacancies exist - this is because more shifts are required to be filled at 1.5x overtime rates
- Relying on other employees to fill vacant positions with overtime has negative effects on work experience and morale:
 - Increased forced overtimes
 - Increased involuntary on-shift position moves
 - Increased sick leave usage
- Adequate staffing levels provide opportunities to use overtime funds as intended within public safety budgets including increased levels of training, particularly in areas of identified need, which in turn promotes high morale and a sense of health and vitality in the organizations

Example #3 - Police Department

As previously noted, guidance from the City Council was to maintain existing essential service levels. To that end, the Police Department (PD) has developed the budgeted staffing level (“authorized strength”) with reference to national standards, industry best practices, and the unique needs and circumstances associated with the Portland community. Further, adequate staffing levels provide opportunities to use overtime funds as intended within public safety budgets including increased levels of training, particularly

in areas of identified need, which in turn promotes high morale and a sense of health and vitality in the organizations.

PDs total authorized sworn staffing is 158. As of May 6, 2024, there are 33 vacancies spread across several divisions. As will be further outlined by PD staff at the 5/9/24 Finance Committee meeting, these vacancies are in both the patrol operations and specialty units. Staff is working to compile multi-year vacancy trends, but this analysis is not yet complete.

Staffing shortages within the department increased beginning in 2021. The principal reasons driving this trend include broad labor market pressure at the local, state and national levels, below market salaries, uniquely challenging working conditions in Portland compared to neighboring communities, and leadership turnover.

The Patrol Division is experiencing the highest number of vacancies. PD manages these vacancies in the following ways, each of which have a variety of adverse impacts.

- **Voluntary and Forced Overtime** - excessive overtime creates the conditions for staff fatigue and burnout; in particular, forced overtime worsens morale and weakens the department's ability to retain employees. Added overtime impacts the department's budget but is generally offset by wages-benefits savings related to vacancies.
- **Personnel Reassignment** - to fill patrol shifts, PD will often reassign staff from other units within the department. While this tactic can fill day-to-day patrol shifts, it means pulling staff from other important functions such as: traffic, community policing, crime reduction unit, and general detectives. This condition keeps the department in a perpetually reactive posture and is less able to engage in proactive activity.
- **Service Level Reductions** - as a last resort, PD is often forced to allow some shifts to go unfilled. Unfilled shifts do create budget savings, but it also means there is a lower than needed police presence across the city and leads to slower responses to calls for service. Low priority calls for service may take hours to get an officer to respond.

Taken together, the combined impact of these triage tactics make it very difficult to recruit and retain qualified officers.

Several recent actions give reason to be optimistic that the department will regain its needed staffing levels within 1-2 years, including: the Council's approval of wage increases for union personnel, onboarding the current Police Chief, and implementing a contract with the firm EPIC Recruiting which specializes in recruiting police officers. As we are late in the budget cycle, staff recommend additional time to allow these measures to improve the current situation.

As of May 2024, based on spending averages to date, total projected FY24 PD expenditures are \$17.2 million compared to budgeted expenditures of \$18.3 million. Total revenues are estimated to be \$1.8M

compared to budgeted revenues of \$2.1M. The estimated \$0.8 million net surplus accounts savings in regular wages related to staff vacancies, significant overages in the overtime account, and the City's recent restrictions on outside jobs (i.e. outside police details - which were restricted in Fall 2023) which result in not only a reduction in staffing expenditures but also a reduction in revenue collections. The projected surplus typically gets smaller in the final months of the fiscal year - these projections are based on actual weekly activity to date and warm weather spending is typically higher due to a variety of factors.

Budget to actual results have been volatile over the last several years with no clear trend in over-expenditure and/or surplus. Any budget surplus in this fiscal year would be the result of relatively recent staff vacancies, and ought to be viewed in relation to the corresponding reduced level of service being provided by the department as well as the adverse impacts on staff morale, health, and retention.

As discussed at the prior Finance Committee meeting, as part of the 2025-26 budget development process staff will perform another comprehensive examination of public safety priorities and desired community outcomes in relation to the department's budget, programs, and staffing.

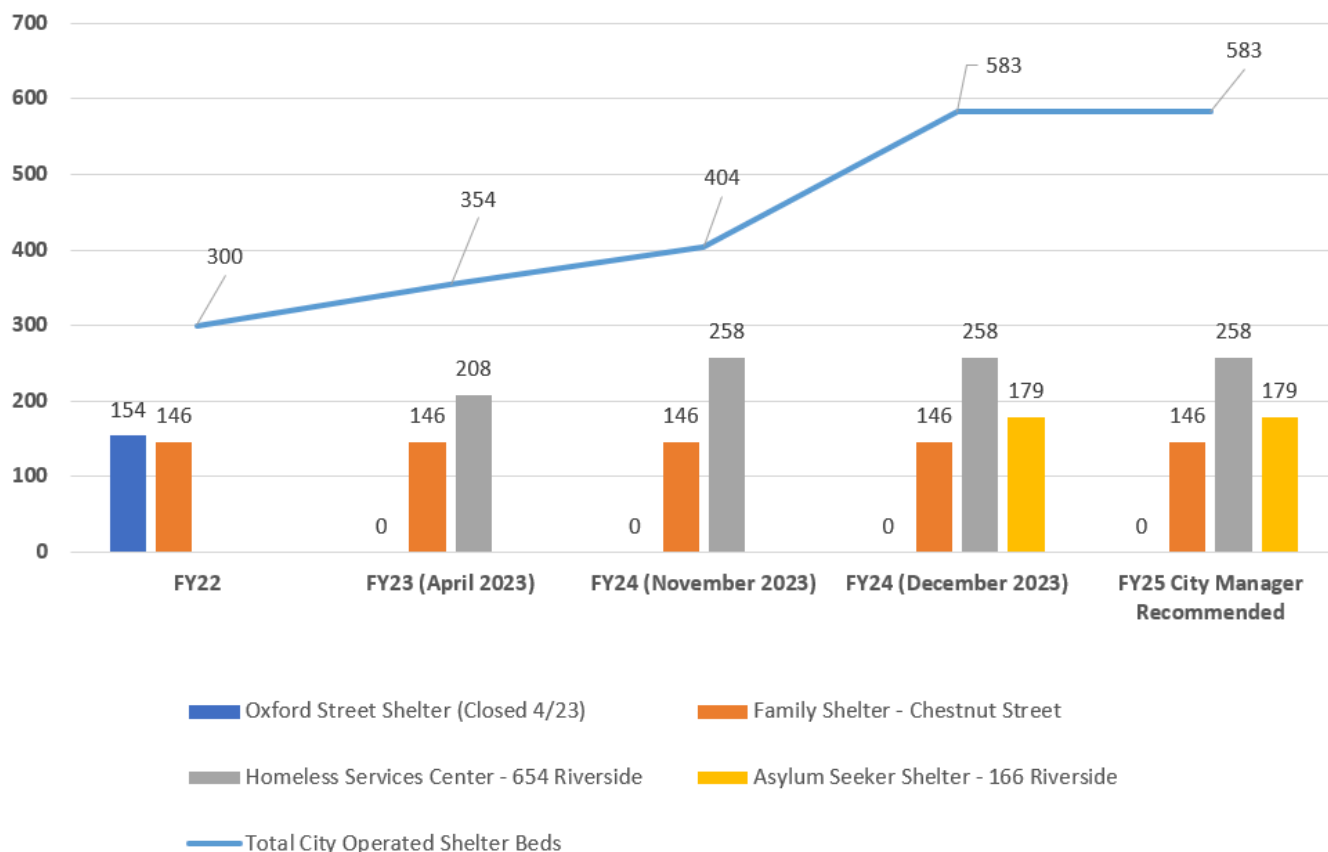

Example #4 - Chronic Vacancies Within Dispatch / 911

Optimal staffing within the Public Safety Answering Point (PSAP) is approximately 7 FTE's per shift. Currently shifts are 12 hours long with 8 hours of straight time and 4 hours of overtime. The City has done everything we can to address chronic overtime and repeated use of forced overtime in the PSAP room, including dropping down to absolute bare minimum staffing levels per block of time based on call volume. Cutting vacant dispatch positions would not have any impact on actual funds needed to operate the call center because it is a 24/7 emergency operation. If there is a vacant dispatch position, that dispatcher's shift would be filled either by another dispatcher who has already worked his regular shift, typically at full overtime rates - resulting in HIGHER costs to the City. Through the first 9 months of FY24, the Dispatch budget is trending towards full expenditure, with savings in the payroll line but significant (150% of budget) over-expenditure in the overtime line. Cutting the vacant positions would not have a positive impact on the FY25 budget as there would be no change in staffing levels to maintain existing levels of service.

Example #5 - HHS Shelter Attendants

In the last approximately 12 months the City has gone from 118FTE in Social Services in late FY23 to a requested FTE count of 221.8 for FY25. This is due to the large increase in the number of City operated shelter beds over that same time period (see chart below for history). There are a significant number of open shelter attendant positions and the majority of them are related to the recent significant increases in service levels / city operated shelter beds. As further illustrated below, cutting of vacant shelter attendant positions would not change our required staffing levels or result in budgetary savings.

Total City Operated Shelter Beds

At the shelters, we pay a staffing agency over \$30/hr for shelter attendants. Our 6 month to 1 year rate is \$20.34. So the City saves over \$350 per week per FTE when the attendants are on our payroll. In recent weeks the City has not been able to hire enough outside staffing to fill shifts, so we have been using a combination of outside contractual services + employees on overtime (paid at 1.5x their regular rate) - significantly more costly than if a position were filled. Because outside staffing agencies have not been able to fully meet our needs, we have also had to have many non-union employees fill in. These staff have been working up to 20 extra hours more in addition to their regular workweek at overtime rates. Repeated lengthy overtime has an impact on individual employee and team morale. Despite several shelter attendant positions being vacant as we head into the FY25 budget, the funds we are requesting are all needed to adequately staff our operations. Cutting a vacant position would not change the operational need for minimum staffing levels during each shift at our shelters and would not have a reduction to overall shelter operating cost.

Example #6 - Public Works - Curbside Collection

As noted in several previous examples, the City is not cutting core service levels within the FY25 budget. The City has worked incredibly hard to fill vacancies within Solid Waste. Deciding to cut vacancies in the Solid Waste budget would not result in cost savings since the work/collection will be performed regardless

of the number of FTE's vs outside contractor cost. See example below from Public Works on internal vs external costs.

FY 25 Pine Tree Waste:

1 truck/ 5 days per week/52 weeks = \$537,500

City of Portland: 1 Truck (Depreciated over 12 years) = \$28,000

Fuel	\$13,230
Repairs	\$21,662
1 MW I	\$47,750
1 MWII	\$53,000
OT	\$21,800
Benefits	<u>\$28,000</u>
Total	\$213,442

Example #7 - Recent Loss of IT Staff (non-union)

We have a recent resignation within IT related to a critical City function. We immediately reached out to a staffing firm who will provide assistance until the position is filled. Based on the initial quotes received, the cost from a staffing firm will be at a significantly higher cost than a full time employee.

Example #8 - Director Level / Senior Management Vacancies

The City's FY24 budget includes several Director level positions which are currently vacant. A prolonged unfilled vacancy of a non-union position, where no contract based alternative is available, results in weekly savings to the City. However, there are some offsetting cost increases that typically cut into the savings. First, a Departure of a long tenured employee results in payout of any unused vacation time and a portion of unused sick time. These payments are not budgeted. Second, typically an "interim" is appointed or several staff pitch in on the duties of the vacant position. Typically there is a small compensation increase related to prolonged performance of duties above an employee's existing pay grade. Finally, outside contractual services may be used to assist in specific parts of a duty. One example of this was with our recent Assessor vacancy - an outside firm was used to assist in the complex tax appeals received during the term of the vacancy. The City would not recommend elimination of these types of vacancies even when the positions are vacant for an extended period. A recent example is the Housing and Economic Development Director position. We did have true budget savings as a result of this particular vacancy. But there was an unmeasurable impact to morale of other staff and we did lose other staff during the course of the vacancy and likely would have lost more if the position had not been filled.

Question 12 - Can you provide some further examples of how vacancies can result in cost increases? For example, can you break down overtime and temp help expenses by Department for the last several fiscal years and show the impact of vacancies on those budgets? (added 5/14/24)

Yes - See [the attached breakdown of overtime, temporary help, and temporary services for the last three fiscal years](#). As noted above, vacant positions have a multitude of impacts in the City budget, typically negative. There have been adverse impacts to the City overtime budget, the City temporary help budget (staff who are on our payroll, working on a temporary basis) and our temporary services budgets (outside staffing agencies who we pay directly for staff, rather than using staff on our own payroll). These are three of the most easily measurable adverse impacts within the City budget but there are others as well.

In FY23 for example, the City budgeted \$10.2M for overtime, temporary help, and temporary services. Due to the high number of vacant positions, the City incurred nearly \$13.9M of expenses in these categories (a nearly \$3.65M over-expenditure). In FY22, the budget for these categories was \$8.7M and actual expenditures was over \$11.6M, a nearly \$2.9M over-expenditure. The over-expenditure for FY24 may exceed \$3M in total pending the final two months of activity in the current fiscal year. These are just the most measurable financial impact of the vacancies. In most Departments there is an impact to revenues due to vacancies which is not as easily and directly measurable. In many of the Departments (such as Parks, Rec and Facilities and the Barron Center) the impacts are significant. There are also impacts within the Contractual Services budgets when contracts with regular vendors are expanded due to lack of staff.

Finally, as noted in the previous question there are also hidden costs related to employee morale, and often resulting turnover, when a Department is understaffed. Additionally, there have to be (and have been) reductions in service levels (i.e. delays in delivery of services, etc) as a result of these vacancies.

DEFINITIONS OF FY25 ORG CATEGORY SUMMARY EXPENDITURE REPORT COLUMNS

FY24 REVISED APPRO = Actual amount of the FY24 approved appropriation as approved by the City Council.

FY24 TOTAL PROJECTION = Projected total amount of expenditure in the current budget year as submitted by Departments in January 2024. Please note - due to staff vacancies some Departments may have incomplete projections at the time of budget submission - updates are available upon request.

FY25 MGR RECOMM – The amount of FY25 budget request recommended by the City Manager to the City Council in April 2024 after performing detailed budget reviews with each Department.

INCR / (DECR) FY25 / FY24 – A comparison of the FY24 Revised Appro Column with the FY23 Mgr Recomm column showing the budget year to budget year increase that would result (in dollars) if the FY25 City Manager's Recommended budget was approved.

APPRO % CHG FY25 / FY24 - A comparison of the FY24 Revised Appro Column with the FY25 Mgr Recomm column showing the budget year to budget year percentage increase that would result if the FY25 City Manager's Recommended budget was approved.

City of Portland | Executive Department

Danielle P. West, *City Manager*

To: Mayor Dion and Members of the Portland City Council

CC: City of Portland Leadership Team and City Staff

From: Danielle P. West, City Manager

Date: April 8, 2024

Re: City Manager's FY25 Recommended Budget

Pursuant to Article VI, Section 5(e) and Article VII, Sections 5 and 6 of the City of Portland Charter, I am hereby submitting the City Manager's Recommended \$353 million FY25 Municipal Operating Budget. This is my third time submitting the City's operating budget to the City Council, but the first one since I accepted the permanent City Manager role. I continue to be enormously proud of the work City staff does each and every day to provide excellent municipal services to and for the City of Portland and its residents.

When our Finance Director gave his FY25 budget preview in January, he alerted us that once again we face many budget challenges, many of which are outside of our control. This year's initial budget gap looked to be about 50% worse than the previous year on the municipal side and was coupled with the largest budget shortfall we can recall ever seeing on the school side. On the municipal side of the budget alone, there were more than \$20M of known budget challenges as we began our budget work.

Over the last several months we have had several workshops and budget discussions with the Council and Finance Committee to set shared expectations for the upcoming budget year and address these challenges. During those discussions, the Council set guidance on limiting any tax rate increase to between 5 and 7%. The majority of the Council also noted they did not want to see cuts to core municipal services. Based on this guidance, I asked Departments to prepare their budgets conservatively. However, due to the significant challenges facing the City, many of them revenue related, the year-over-year tax levy increase based on conservative Department requested budgets was nearly 16%.

It was incredibly difficult to close the budget gap from the requested 16% down to within Council 5% to 7% guidance. Ultimately, we had to make revisions to Department requested budget proposals, set aside certain requests, and recommend fee increases to help balance the budget while at the same time ensuring that we addressed the needs of our workforce to the best of our ability since retention and recruitment continues to be a major focus.

We also had to double down on our lobbying efforts in Augusta since General Assistance (GA) funding (to address the homeless crisis) is the most significant challenge we faced throughout the development of this budget. Our ability to receive GA revenue continues to be critically important to our operations and overall budget. We remain the largest social services provider in the State when it comes to serving people who are at risk of or experiencing homelessness - whether that is by assisting those who are chronically homeless or asylum seekers who have come to Maine.

In fact, we have nearly doubled our City-operated shelter beds (to a total of 583) over the last year in an effort to shelter the most people in the most cost effective manner. More specifically, we worked to help develop and operate the new 179-bed shelter at 166 Riverside Industrial Parkway and expanded the capacity of the Homeless Services Center by 50 beds. At the same time we have opened additional shelter space, we have also worked to significantly reduce our use of costly hotels for emergency housing. The reduction of hotel use is a priority of the State and is critical to controlling

costs for the State and City GA budget.

The expansion of City-operated shelter space, as well as several Council approved grant and State funded programs, have resulted in the addition of approximately 58 FTEs (full-time employees) within Social Services in the FY25 budget as proposed. The majority of these staff, however, were added during FY24 to operationalize the items approved by the Council.

It is also worth noting that due to the significant community need and priorities of the Council, Social Services has been the driver of the overall FTE changes within the general fund as a whole. Looking back to FY20, there were approximately 1,200 FTEs in all City general fund Departments outside of Social Services. In my recommendation for FY25, the number of total FTEs for all other City Departments other than Social Services has again remained flat in an effort to deliver a budget within the Council guidance and address the Council's goals/priorities.

As a result of the major Social Services challenges we face, the City – including myself, the Mayor, our State delegation, and many members of City staff and City Council – continue to lobby for an increase in GA reimbursement rates and/or continued one-time payments to offset our growing commitment to sheltering the unhoused. We are thankful for the previous one-time payments we've received, and are pleased that the supplemental budget provides us with continuation of these one-time funds for FY25.

Other major budget challenges included the expiration of one-time federal ARPA funds, significant increases in health insurance costs which the City pays on behalf of our employees, rising contractually obligated union wage increases for our various unions, and an approximately \$5.7M increase in our debt service expenses due in part to the pension obligation bond.

Additionally, we continue to deal with a high number of staff vacancies, over 200 on average, which presents a budget and operational challenge – requiring costly overtime, use of more expensive external contractors, and significant extra hours and stress for other staff.

In light of all of the above challenges, and after a significant amount of work, I'm presenting you with a recommended FY25 budget that includes a **4.9% increase in the tax rate on the city side of the overall budget with a new city-side mill rate of \$7.30 per \$1,000 of assessed property value.** The impact of this increase on an average homeowner with a property valued at \$375,000 would be **\$127.50**. I know you have all seen the budget challenges faced by many municipalities in the region during our current budget cycle and I'm happy we are able to bring forth a tax rate increase below the budget guidance from Council. It is important to note that should there be any additional priorities or services the Council would like to address in this year's budget, I felt it most appropriate for those decisions to be made by the Finance Committee/Council during the upcoming budget review process.

To provide some context on changes in the City budget over the last several fiscal years, the following is a chart that outlines the City, County, and School portions of the tax levy since FY16:

FY16 - FY25 City of Portland Tax Rate History & Breakdown							
Fiscal Year	City Tax Levy	City % of Total	County Tax Levy	County % of Total	School Tax Levy	School % of Total	City of Portland Tax Levy
FY16	\$ 75,785,193	47.63%	\$ 5,240,009	3.29%	\$ 78,073,211	49.07%	\$ 159,098,413
FY17	\$ 78,445,570	47.78%	\$ 5,417,119	3.30%	\$ 80,331,376	48.92%	\$ 164,194,065
FY18	\$ 80,187,454	47.48%	\$ 5,907,743	3.50%	\$ 82,787,921	49.02%	\$ 168,883,118
FY19	\$ 83,323,749	46.91%	\$ 6,288,845	3.54%	\$ 88,003,431	49.55%	\$ 177,616,025
FY20	\$ 86,173,337	46.29%	\$ 6,640,316	3.57%	\$ 93,345,139	50.14%	\$ 186,158,792
FY21	\$ 86,743,535	46.12%	\$ 7,011,159	3.73%	\$ 94,338,744	50.16%	\$ 188,093,438
FY22	\$ 83,867,622	44.12%	\$ 7,149,309	3.76%	\$ 99,083,251	52.12%	\$ 190,100,182
FY23	\$ 89,023,793	44.41%	\$ 7,563,215	3.77%	\$ 103,851,071	51.81%	\$ 200,438,079
FY24	\$ 94,353,230	44.01%	\$ 9,206,423	4.29%	\$ 110,850,008	51.70%	\$ 214,409,661
FY25**	\$ 100,583,531	43.89%	\$ 9,175,647	4.00%	\$ 119,402,624	52.10%	\$ 229,161,802
The City portion of the overall tax levy has increased by \$24.8M or 32.7% since FY16 (3.2% CAGR)							
The County portion of the overall tax levy has increased by \$3.9M or 75% since FY16 (6.4% CAGR)							
The School portion of the overall tax levy has increased by \$41.3M or 53% since FY16 (4.8% CAGR)							

* Note: FY24 County Tax Levy includes (and FY25-FY28 will also include) an additional \$761,342 due to County change to 6/30 year end

** FY25 figures will be finalized in May/June 2024

CAGR = Compound Annual Growth Rate

The growth of the City portion of the property tax levy has been significantly outpaced by growth within the Cumberland County budget and Portland Public Schools portion of the tax levy.

FY25 DEPARTMENT HIGHLIGHTS OF NOTE

Health & Human Services: There are several highlights and components of the FY25 Health & Human Services budget request four major divisions: Social Services, HHS Admin, Public Health and the Barron Center

Within social services, the City has worked incredibly hard to open and expand our City-operated shelter locations. In the last year alone we have expanded that capacity by over 137 beds, going from an Oxford Street Shelter capacity of 154 to a brand new Homeless Services Center capacity of 258, plus adding a new shelter location at 166 Riverside Industrial Parkway with 179 beds. These are in addition to the capacity the City has for 42 families/146 individuals at our Family Shelter location. By opening these new shelter beds and working incredibly hard to transition families into permanent housing, we are able to reduce our reliance on hotels in FY25 and the reduction is estimated to be approximately \$9M, with a corresponding GA reimbursement reduction of \$6.3M. The net savings of \$2.7M helped us close a significant portion of our budget gap. It is important to note that should the amount of one-time funds from the State change as the State finalizes its budget, or if they make changes to GA rules or how they interpret those rules, that could have an impact on our final budget.

The social services budget includes funding to continue the additional 50 beds at the Homeless Services Center so we can continue to offer 258 beds. These beds have been consistently utilized due to the number of people experiencing homelessness. The equivalent cost of sheltering 50 individuals annually at a hotel would be approximately \$4M.

The Public Health budget includes several new grant funded positions and program funding increases within Family Health, Health Equity, the Portland Public Health Clinic, and Public Health Research. The FY25 budget also includes the appropriation of received and soon to be received 2023 and 2024 opioid settlement funds. City staff and the Council's Health and Human Services and Public Safety Committee will each have roles in determining how these funds are allocated in

accordance with their intended uses, and the public will also be given the opportunity to provide input.

The Barron Center budget sets a patient census target of 125 for the upcoming fiscal year and has set staffing levels as well as revenues and expenditures at this level.

Public Works: This department continues to manage a number of staffing vacancies and in recent years has given up full time equivalent positions in favor of more readily available (but more costly) outside contractors to do work formerly performed by City staff. This budget includes some target FTE increases to begin retaking some outside contracted services, generating a net savings to the taxpayer and providing the same or better levels of service. Additionally, the Public Works budget also proposes an increase in the cost of pay-as-you-throw trash bags to help offset the rising costs of disposal and recycling.

Parks, Recreation & Facilities: The Parks, Recreation and Facilities budget continues to see strong revenue increase to support their operations, with a nearly 9% increase in projected revenues supporting a 9.5% increase in expenditures. The Department added a Deputy Director position during FY24 as this department now oversees the Public Buildings and Waterfront Department.

Public Buildings & Waterfront: The significant increase in expenditures within this Department reflects approximately \$1.6 million for payments for electricity produced by renewable energy facilities across the state. These payments generate financial credits on our CMP bills that are guaranteed to exceed the payment made. This year we expect these projects to generate credits that will save the City and School Department in excess of \$500,000. The City Council and Portland Public School board approved participation in these projects in 2020 and they are now reaching commercial operation.

Fire Department: The Fire Department budget is up 7.7% to nearly \$22M for FY25 due in part to estimated increases in staffing costs. Total FTE within the Department is remaining flat for FY25. The Department continues to see rising levels of revenue reimbursement from EMS calls for service.

Planning & Urban Development: The Department contains no new FTE or major programmatic changes for FY25. The reduction in budget is due primarily to a change in the way the City is funding the bikeshare program – in the prior fiscal year the City had received a contribution from the State which was in turn passed along to the vendor. In the current fiscal year the program is set to be fully funded directly by the vendor.

Police: This budget implements fully the recent wage increases for the PBA and PSOPA unions passed by the City Council. The budget also includes continuation of our alternative response liaisons / behavioral health program – which had over 1,100 responses to calls in 2023. These positions were previously funded by an earmark program and are being funded in the local budget for the first time in FY25.

Assessor: This budget includes one new FTE for an Assistant Assessor in order to increase the amount of resources of this office as they begin the next revaluation process. This office does specialized work and having more support will help the City meet state standards and ensure continuity of staffing.

Permitting & Inspections: This department's budget does not include any new position requests and while there is a slight increase in expenditures they are also projecting an increase in revenue.

City Manager: The Executive Department budget added funding for additional Justice, Diversity, Equity and Inclusion (JDEI) efforts in FY24's budget to assist our JDEI Director in his work. During the course of FY24 the City hired a JDEI Associate with these funds and that position is showing as an added FTE in the FY25 budget. We are also eliminating the Chief of Staff position as Dena Libner was promoted to one of the Assistant City Manager positions.

Portland Public Library: The Portland Public Library (PPL) received a 5% increase in funding from their FY24 level and will receive payments of \$4,755,049 during FY25. This is in addition to \$675,000 in capital improvement plan funding allocated to PPL by the City Council in March 2024.

Wage Adjustment: This budget includes funding for potential future wage and contract increases from various Departments, which are anticipated to be needed in the upcoming fiscal year. The City has eight labor unions along with the non-union workforce and three Council appointed positions.

FY24 RECAP

Despite continued staff vacancies across City departments, our staff did amazing things in FY24 with the resources they had available. Below are some key highlights from several departments.

First, our Health & Human Services Department has faced many challenges this year, but continues to respond impressively when confronted with complex situations. Despite these challenges, there have also been many proactive successes worthy of highlighting. The Department issued a 2023 Year in Review report related to our homeless services work, which is worth a read to garner a meaningful perspective on this segment of our community.

Our Social Services division continued to go above and beyond in providing services for those who are at risk of experiencing homelessness or need emergency shelter services. Our Prevention & Diversion team worked with 913 people, 60% of whom stayed at a shelter, 20% who completed shelter paperwork, but did not stay, and 19.5% who found another place to stay. The Homeless Services Center placed a total of 159 clients, 27 of whom were chronically homeless, into permanent housing. The 162 housing placements represent 33,283 bed nights or 91.9 years. The 27 chronically homeless placements represented 10,664 of those bed nights or 32%. The Family Shelter placed 55 families representing 199 individuals into housing placements.

In December 2023, City staff opened the 166 Riverside Shelter at 166 Riverside Industrial Parkway to provide low-barrier, temporary emergency shelter to asylum seeking individuals experiencing homelessness over the age of 18. 166 Riverside St started as a vision to serve single adult asylum seekers in a more efficient way through a setting that affords service providers a centralized location to complete service delivery on-site. This vision began when as a community we saw an increased number of single adult asylum seekers arriving to call Maine, specifically Portland, home. While we have for many years welcomed asylum seeking families to Portland the arrival of singles was a new trend. As that trend increased and beds at the Homeless Services Center became occupied, there was an increased unsheltered population. 166 Riverside became a solution to both help build shelter capacity and serve those who have traditionally been underserved.

The Homeless Services Center's bed capacity was temporarily increased by 50 beds in response to the significant number of unsheltered individuals in the city, public health and safety hazards existing at encampments, and the imminent threat of further danger to those individuals' health and safety during the winter season. As a result of the increase in shelter capacity from asylum seekers moving to the 166 Riverside Industrial Parkway shelter, and adding 50 beds, outreach workers had greater success in helping individuals access shelter, addressing urgent health needs, preventing fatalities, and mitigating the public health and safety consequences of hazardous encampments.

Over the past year, the Public Health Division has continued its efforts in providing STD, primary care, and harm reduction services to Portland's underserved communities. Our Harm Reduction and Overdose Prevention services completed 6,178 total syringe exchanges and provided 2,789 referrals to community-based organizations for support with physical and behavioral health, basic needs, and recovery. They also distributed 5,067 Naloxone kits, which provide more than 10,000 doses of Narcan. For clinical services, our Maternal and Child Health program completed 1,513 home visits, 191 patients were seen by the Portland Community Free Clinic, 3,494 vaccines were administered by

the Immunization Program, 663 referrals were provided by the Mobile Medical Outreach team to community-based providers, 1,482 patients were seen in the STI clinic, and 768 people were provided services through our Screening, Prioritization, and Urgent Referral (SPUR) program. This work reflects the Public Health Division's commitment to providing essential services and responding to the evolving public health needs of the community.

For our Planning & Urban Development Department, 2023 included a significant amount of both development review and long range planning activity. With regard to new housing within the city, 1,130 housing units were approved, 528 of which were dedicated affordable units. 2023 also saw 489 units of prior year housing approvals completed and occupied and another 600 currently under construction, with more expected to break ground in 2024.

Significant approvals shepherded through the planning review process in 2023 included 165 Lambert Street (162 housing units, 58 Fore Street (396 housing units, 128-room hotel, 81,558 SF commercial space), 76 Congress (The Hill Arts, new theater construction), Evergreen Cemetery expansion, Abyssinian Meeting House addition, 48 Brown Street (54 housing units, mixed-use), 1 Bean Pot Circle (B&M Cannery rehabilitation), and the Bayside MDP (master plan for hundreds of housing units, mixed uses and public realm investments). Long range, transportation, and policy initiatives included implementation of LD 2003, release of a Historic Preservation Impact Study, the Lincoln Park fence restoration, re-initiating the Franklin Street redesign, furthering the Libbytown Safety & Accessibility Project (recently awarded an \$22.4 million federal grant), and multiple bike/ped pathway improvements. The first wave of ReCode drafts were released for public review, including a package of climate resilient zoning tools, both on track to be before the Council for adoption this year.

Our small business community, which is the backbone of Portland's economy and contributes so much to its authenticity and character, faced challenges from the pandemic and reinventing their business service processes. In response, the Portland Development Corporation (PDC), staffed by the Housing and Economic Development Department, reviewed and approved Microenterprise Grants to 126 small businesses from FY2020 through FY2022 in the total amount of approximately \$530,000. During FY2024, with \$400,000 of ARPA Funds, the PDC reviewed and approved Microenterprise Grants to 81 small businesses, using up this \$400,000 pool of funds. Of the 81 approved grants, 33 went to organizations that represent racially, ethnically, or linguistically diverse communities, representing approximately 41 percent of the total grantees. Grants have been used for various purposes including marketing, inventory, rent, and payroll. The PDC has also approved three commercial loans to date in FY2024 totalling \$482,688. These funds have been used to open and expand several businesses in Portland that increase the City's tax base and provide employment opportunities.

ARPA funds allocated by the City Council to the child care approved use category are also being utilized to offer grants to aspiring day care providers and existing centers to open or expand, adding much needed day care slot openings to Portland. To date, one hundred new slots for care have been documented.

The Housing and Economic Development Department (HEDD) also administers the Brownfields Program, which provides funding for assessment and cleanup of environmentally contaminated properties to facilitate redevelopment. The City's Brownfields Assessment Fund and Revolving Loan Fund are important tools available to support land revitalization in the city. The City recently received a new round of Brownfields Grant Funding from the USEPA for assessment work in the amount of \$500,000, and just prior to that received \$3 million in grant funds to recapitalize the City Brownfields Revolving Loan/Grant Fund for clean-up work. These funds have been, and will continue to be, used to assess and remediate contamination at several sites in the City, catalyzing projects that provide affordable housing and other important outcomes to Portland businesses and residents.

Housing availability and affordability continue to be a focus of the Council's Housing and Economic Development Committee (HEDC) and City officials. The HEDC recently recommended to the City Council approval of the 2024 Affordable Housing Development and TIF Application, drafted by HEDD staff. The City Council approved this at its March 18, 2024 meeting, making available an estimated \$1,961,008 for investment in affordable housing, together with access to the City's Affordable Housing Tax Increment Financing Program. Housing and Community Development staff processed several applications for funding to assist in the creation of workforce housing. In 2023 and to date in 2024, the City Council approved the use of over \$3.6 million for projects that, when completed, will create 122 new units and renovate 64 additional units of affordable housing, and 20 units of workforce homeownership housing. Additional applications are under review.

The HEDD also is a steward of the waterfront as the City is a major contributor to its economic vitality with ownership of the Portland Fish Pier, Portland Ocean Terminal/Maine State Pier, and Ocean Gateway. As part of the CAD (Confined Aquatic Disposal) Cell project, an economic impact study was done in 2020 which detailed revenue and employment from 95 identified marine businesses which generate \$650,000,000 in revenue and employ 2,250. The CAD Cell project is in its final design/construction phase, with dredging for private and public pier owners beginning Winter 2024/2025.

The Waterfront Coordinator in the HEDD works with the Boards of the Portland Fish Exchange and the Portland Fish Pier Authority, which recently agreed to a merger of the two boards, with the anticipated merger to be brought to the City Council in May 2024.

The Office of Economic Opportunity, housed within the HEDD, recently launched a new and expanded Natural Helpers Program, now in the middle of the four-month fellowship with 12 Natural Helpers. This program is based on national best practices designed to improve the inclusivity of government services and programs. It relies on a partnership between the City and community leaders to help connect minority communities to resources in order to achieve a working, sustainable lifestyle in Portland.

Our Permitting and Inspections Department continues to see its workload increase. The department has been impacted by recent citizen-initiated referendum questions passed by voters. This includes the Green New Deal, Rent Control ordinance, and regulations related to Marijuana retail establishments. In FY22, the Department managed an increase in workload, staff shortages, and dealing with returning to more of a pre-pandemic model. In FY23, the Department is continuing to manage record breaking numbers on top of additional Rent Control Referendum amendOur Permitting and Inspections Department has not seen a slow down this past fiscal year, in fact their workload continues to increase. In FY23 we were still encountering record breaking numbers along with consistent staff shortages. The first half of FY24 has continued to see averages of over 100 permits applied for each week, over 250 inspections performed each week, more rental units added to the City and business licenses continuing to be applied for in vacant storefronts.

In FY23, permitting staff processed 2,891 building permits, 1,878 electrical permits and 439 plumbing permits. This was an overall increase from FY22. During the current fiscal year, we are continuing on that same trend for permit numbers. The City's five Building Inspectors performed 5,118 inspections in FY23.

The Business Licensing office is consistently busy with new businesses and renewal business license applications. The amount of temporary events are almost back to pre-pandemic numbers, which has increased the workload. In FY23, staff issued 1,675 business licenses and performed 1,435 Health Inspections. We also issued 87 Marijuana Licenses and performed 402 Marijuana Inspections.

In our Housing Safety Office, the division was required to collect data on more than 20,000 units, staff the Rent Board, and investigate illegal rent increases. This work is in addition to the safety inspections we conduct on rental units in Portland. The City's four inspectors are both Certified

Code Enforcement Officers and Certified Fire Inspectors. They handle Long-Term, Short-Term, Complaints and Rent Inspections. In FY23, the Inspectors performed 3,557 inspections. The office issued 4,231 Long-Term licenses, which accounted for 18,545 units. They also issued 729 Short-Term licenses, which accounted for 848. In FY24 three positions were added for Rent Control and currently two of those positions have been filled. That staff has taken over Rent Control Complaints and have begun proactive enforcement of the ordinance.

The Portland International Jetport continued its record for customer service in 2023, winning the Airports Council International's Best Airport of 2 to 5 Million Passengers & Most Dedicated Staff in North America awards. The Jetport also set an all-time passenger record serving 2.22 million total passengers in 2023. This exceeded the prior record set in 2019 before the pandemic by 1.8% and provided the Jetport with the distinction of being the only airport in New England to exceed its pre-pandemic passenger record. These robust passenger volumes allowed operating revenues to fully recover and exceed pre-pandemic levels by 8.9% in FY23. This trend is continuing in FY24 with passenger volumes up 14% through February over the same period in FY23. The Jetport is projecting continued growth in FY25 with revenues up 9.8% from FY24.

During the past year we took a number of important actions recommended in our climate action plan, One Climate Future. Our Electrify Bikes! Program made it possible for 70 low and moderate income residents to purchase an e-bike so they have reliable, energy efficient transportation. The program also supported the economy by partnering with local brick and mortar shops who agreed to provide participants with point of sale discounts.

This March, we Launched DIY Electrify!, the third round of local incentives to help residents make their homes more comfortable, save energy, and reduce carbon emissions. Residents earning up to 80% of LMI are eligible to receive a rebate of up to \$250 to cover the cost of small electric appliances such as induction cooktops and portable energy star dishwashers, energy savings devices such as clothes drying racks, and weatherization products such as insulating blinds and window sealing kits. Promotion included a mailer to all Portland residents and an ongoing effort to inform residents who primarily speak a language other than English. All DIY Electrify! materials are available in Spanish, French, Portuguese, Arabic, Vietnamese, and Somali. The DIY Electrify! website is also available in the same languages.

We implemented a new customer management platform to improve implementation of the City's Energy and Water Use Benchmarking Ordinance. It has streamlined the reporting process for building owners resulting in better compliance and more thorough and accurate reports. This has allowed staff to provide the building owners with feedback about the energy performance of their buildings and establishes an accurate baseline by which building owners can measure the success of future building upgrades and efficiency measures. We will be hosting the first of four planned commercial energy efficiency workshops in April to provide commercial property owners with information about rebates, incentives, and financing tools that can support energy efficiency projects. This will include discussion of the C-PACE ordinance passed by the City Council this spring.

This year we will expand the Sustainable Neighborhoods program beyond our two pilot neighborhoods to include all City neighborhoods. We work with residents and neighborhood leaders to promote actions that build social resilience through collaborative action. The Sustainability Office will announce details about the program at the City's Second Annual Earth Day Celebration on April 20 in Payson Park. We will also continue efforts to promote sustainable landcare practices in alignment with Portland's landcare ordinance. This will include continued promotion of our successful Mow Tall Until Fall campaign launched last summer and a second summer series of informational webinars with information about organic landcare and gardening practices.

Finally, with assistance from the US Department of Energy, we will develop a strategic plan to transition the City vehicle fleet to 100% zero emissions vehicles in order to implement the Council's goal to have municipal operations run on 100% clean energy by 2040. We will take a major step in

this effort by adding our first electric trash truck to the fleet before June 30.

Furthering our commitment to our environment and open spaces, our Parks, Recreation and Facilities Department budget supports many community and Council priorities, from maintaining 67 parks and 30 city and school playgrounds, to the planting of 200 trees annually. The budget supports beautification and enjoyment of the city through the Parks Division, which oversees planting of perennial plants, tulip beds, urban meadows and orchards, oversight of 8 miles of multi-use bike paths, and basic maintenance of our 67 parks and open spaces spread over 1,400 acres. The budget supports the Portland Youth Corps, which engages youth of diverse backgrounds in career exploration, service in our parks, and outdoor adventure. The budget also supports recreational activities for the community such as the Before and After School Program with 1,000 participants, a youth basketball league with 500 participants, a Senior Adult program with over 500 participants, three city pools, and the Riverside Golf Course. Our Public Assembly Division runs our city venues and cultural institutions such as Merrill Auditorium, The James A. Banks, Sr. Portland Expo, Troubh Ice Arena, and Ocean Gateway. Our Custodial Division cleans all City buildings, and cleans our public park toilets daily. And our Cemetery Division budget supports maintenance and operation of 13 City cemeteries, including 11 historic cemeteries that are largely full, and Evergreen Cemetery and Forest City Cemetery which are still active and offer families a beautiful location to bury and remember loved ones.

CONCLUSION

I would like to thank the Finance Director Brendan O'Connell, the Finance Department staff, Human Resources Director Anne Torregrossa, and Communications Director Jessica Grondin for their assistance in developing this budget recommendation and presentation, as well as the hard work and diligence of all of the Department Directors and their staff in developing their budget requests.

I'd also like to thank all City employees for all the work they've done in helping us address some extremely complex issues over this last year, as well as the exemplary municipal services they provide each and every day. I'm proud of how we all worked together to keep our community strong.

Finally, I'd like to thank the Council for advising us on your priorities and working collaboratively with staff. We look forward to reviewing this recommended budget in more detail with you in the weeks ahead.

Sincerely,

Danielle P. West
City Manager

MEMORANDUM

Amendment to City Manager's Recommended Budget

DISTRIBUTE TO: City Manager West, Corporation Counsel Goldman, Mayor Dion, Finance Committee Chair Trevorrow, Finance Committee Member Fournier, Members of the City Council

FROM: Councilor Anna Bullett

DATE: May 6, 2024

SUBJECT: Amendment to City Manager's Recommended Budget - Addition of \$56,000 into Parks, Recreation and Facilities Budget

SPONSOR: Sponsored by Councilor Anna Bullett

I plan to propose an amendment to the FY25 City Manager's Recommended Budget to add \$56,000 to the Parks, Recreation and Facilities Department at the April 30, 2024 Finance Committee Meeting. The addition is intended to support the addition of a Senior Administrative Officer II (SAO II) position. The SAO II position plays a key role in the Human Resource functions of the Department, specifically focussing on recruitment, interviewing, HR administrative functions and policy communications, payroll, on-boarding, and medical and family leave requests. The Department has 160 Full Time Equivalent employees, and hundreds more seasonal and on-call employees. This position will support the recruitment and onboarding of qualified candidates, and will support their well-being while employed by the City of Portland.

Although the position carries a cost of \$56,000 I am confident that it will ultimately be a cost savings. The Department has repeatedly seen resignations from their dedicated human resources admin position due to the volume and intensity of the work. Loss of talented staff and lack of continuity carry both a financial and nonfinancial burden which is not insignificant. The parks & rec department has some of the city's youngest staff working with some of the city's youngest customers. Clear, well communicated HR policies, training, and support is vital to a well functioning and well staffed Department.

From what I understand based on the informative presentations from our Finance Director, each \$150,290 added to the budget adds one penny to the tax rate - so this amendment would add approximately $\frac{1}{3}$ of a penny to the FY25 tax rate.

MEMORANDUM

Amendment to City Manager's Recommended Budget

DISTRIBUTE TO: City Manager West, Corporation Counsel Goldman, Mayor Dion, Finance Committee Chair Trevorrow, Finance Committee Member Bullett, Members of the City Council

FROM: Councilor April Fournier

DATE: May 16, 2024

SUBJECT: Amendment to City Manager's Recommended Budget - Funding FY25
Clean Elections Program at \$300,000

SPONSOR: Sponsored by Councilor April Fournier

As highlighted by City Clerk Ashley Rand and Finance Director Brendan O'Connell, the Clean Elections program required less than half of their dedicated funding in FY24, a Mayoral election year. Approximately \$285,000 of the funding remains for use in FY25. As required by City ordinance, an additional contribution of \$290,000 is scheduled to be added into the fund for FY25 and is included as part of the tax levy for FY25 in the City Manager's Recommended Budget. This additional collection from property taxpayers is not necessary to effectively run the Clean Elections program in FY25. City Clerk Ashley Rand has indicated that a maximum of \$300,000 of funding will be necessary based on the estimated candidates in FY25. I propose to amend the FY25 City Manager's Recommended budget and the associated Clean Elections ordinance to reflect a \$15,000 additional contribution for FY25 bringing the program total to \$300,000. This saves property taxpayers \$275,000 for FY25, reduces the property tax rate by 2 cents, and still allows the Clean Elections program to fully function effectively. In the unlikely event that more than \$300,000 of clean elections funding is needed for FY25, the Finance Director and City Manager have indicated there are a number of additional places within the FY25 budget that could potentially be drawn upon.

City of Portland | Finance Department

Brendan T. O'Connell - Finance Director

CC: Danielle P. West, City Manager and Mark Dion, Mayor

Date: May 16, 2024

Re: Addressing \$4.2M Budget Shortfall for FY25

Background - \$4.2M revenue shortfall in FY25 City Manager's Recommended Budget

As you know, in the development of the FY25 budget, the City estimated that at least \$4.2M of one-time funds for high use communities in the State of Maine would be allocated to the City in the State supplemental budget. In fact, the City, our State Legislative delegation, and our contracted lobbyists advocated strongly for this additional General Assistance (GA) funding during the current legislative session. The City's delegation believed they had voted to approve at least \$5M in one time funds for "high use" communities in their final approved supplemental budget, with an additional \$5M also being allocated during last minute budget negotiations.

After the final budget was signed into law, however, the State Department of Health & Human Services has indicated that the Department instead intends to use the \$10M of funding to fully meet their 70% GA obligation. The City has continued to lobby in support of restoration of the initial intended purpose of the funds and has provided details regarding our reduction in spending that support the funding being available for one time payments (vs being needed to meet the State's 70% obligation. However, we must move forward with finding an alternative funding source(s) for our FY25 operations in case these efforts do not prove fruitful.

If this \$4.2M funding gap is not addressed, it equates to an additional 28 cent increase in the required property tax levy, pushing the City portion of the tax rate increase up to 9.1% and increasing the overall tax rate increase from the for FY25 to 7.8%

Background - Current Year Operating Results

During FY24, revenues related to losses taken in previous fiscal years are finally being received. During the COVID19 pandemic the City of Portland sheltering expenses were supposed to be covered nearly 100% by external funding sources - 70% by the State of Maine and approximately 30% from FEMA/MEMA. Reimbursement for hotel costs during 2020, 2021 and 2022 were not repaid to the City during those years, resulting in an approximately \$4.2M revenue shortfall for these items across multiple prior fiscal years. The full \$4.2M has now finally been repaid to the City, but this revenue was not budgeted in the current fiscal year.

NCS Staff and COVID Testing Expenses						196,721.00
TOTAL REIMBURSEMENT RECEIVED						4,242,969.76

Additionally, the City has recently completed revenue replacement calculations related to the American Rescue Plan Act (ARPA) for revenue losses based on pre-COVID revenue levels at 6/30/20, 6/30/21, 6/20/22 and 6/20/23 and the amount of calculated revenue loss per the allowable US Treasury formula is higher than expected. The City can record revenue from our ARPA funds up to the total amount of revenue loss and this is generally the broadest category of funding with the least restrictions on funding use.

Other factors that may help and are currently projected (but not guaranteed since there are still six plus weeks remaining in the current fiscal year (FY)) include expenditures below budget in several key areas (including winter operations, social services expenditures related to more efficient sheltering operations, the clean elections fund and more). Activity through the first nine months of FY24, indicate that the City most likely will have an unexpended fund balance above our required fund balance policy amount (of 16.66%) for the current fiscal year which will increase our overall fund balances as of 6/30/24.

Background – Historical Use of Fund Balances

Over the last decade, at the conclusion of a given FY, the City has strategically allocated and appropriated unassigned fund balances (above our required fund balance amount) to pay for dozens of critical one time projects and payments. The table below highlights previous City uses of unexpended fund balance as approved by the Council. Since there is no guarantee that

these funds will be available from FY to FY, uses have generally been limited to one time funding needs such as individual capital improvement plan projects, one time funding for City initiatives, and/or payment of soon to be retired debt service costs. The funds are also deemed suitable for one time contributions or for large one time payments (such as workers compensation claim settlements or the extra six-month budget payment due to Cumberland County when they switched from a calendar year to a fiscal year).

Council Order	Fund Balance Amount	Type of Use
<u>106-13/14</u>	\$445,333.00	Capital / CIP / One Time Projects
<u>154-16/17</u>	\$2,084,960.00	Capital / CIP / One Time Projects
<u>188-17/18</u>	\$3,055,000.00	Capital / CIP / One Time Projects
<u>216-17/18</u>	\$500,000.00	Workers Comp Claim Settlement
<u>153-18/19</u>	\$2,000,000.00	Capital / CIP / One Time Projects
<u>243-18/19</u>	\$750,000.00	Workers Comp Claim Settlement
<u>137-19/20</u>	\$1,000,000.00	Capital / CIP / One Time Projects
<u>78-20/21</u>	\$340,000.00	Capital / CIP / One Time Projects
<u>89-20/21</u>	\$500,000.00	Housing Trust Fund
<u>177-20/21</u>	\$3,500,000.00	Capital / CIP / One Time Projects
<u>164-21/22</u>	\$6,850,000.00	Capital / CIP / One Time Projects
<u>255-21/22</u>	\$3,200,000.00	Pension Obligation Bond Repayment Plan
<u>148-22/23</u>	\$2,000,000.00	Capital / CIP / One Time Projects
<u>219-22/23</u>	\$3,611,343.00	Pension Obligation Bond Repayment Plan
<u>145-23/24</u>	\$8,960,000.00	Capital / CIP / One Time Projects

Recommendation #1 - Appropriation of FEMA Funding To Close FY25 Budget Gap

As specified above, City typically does not appropriate *anticipated or projected* increases in fund balance. In general, we wait for completed audit results for the prior FY before taking action. However, due to the current circumstances, and to the fact that an increase in fund balance is most likely certain, we are bringing forward recommendations of use of fund balance in advance of the current FY end.

Given the situation regarding the State supplemental budget, we would recommend that the FEMA funding received in FY24 be accepted by the Council and appropriated for use in the FY25 budget in lieu of the anticipated one time GA funding. This makes the FY25 budget whole and prevents the extra 28 cent increase which would have been required if no alternative were found (see tables below).

FY25 Estimated Tax Levy and Tax Rate Calculation - With Loss of \$4.2M of GA Funding and No Alternative Revenue Sources

	General Fund	County Tax	City General Fund	Enterprise Funds	TOTAL CITY	School Dept	GRAND TOTAL

Recommendation #2 - Additional FY25 Tax Levy Reduction via Payment of One Time County Tax Expense Due from FY25-FY27

Next, staff recommends paying off the County tax expenses through a one time payment rather than multiple payments.

In 2023 Cumberland County switched from a calendar year to a fiscal year. As a result of this budgetary change and due to the timing of Cumberland County tax collections, the County needed to collect an extra six months of budget/county tax payments from municipalities within the County. Cumberland County gave member communities an option to either pay in full or split payments into five interest free installments.

The City opted to take advantage of the interest free installment plan. As of the end of FY24 the City will have only paid two of their five installments of approximately \$761k annually. The City could choose to pay up to three more of our remaining installments using savings and revenue in excess of budget from FY24 to make these one time payments, resulting in tax levy savings in FY25, FY26 and FY27 of \$761,342.80 annually (an annual mill rate savings of 5 cents per year or an approximately 0.7% reduction in the municipal portion of the mill rate vs what is currently proposed).

Overall, since there is capacity within the FY24 budget appropriation from the City Council, we recommend making the full remaining payment due to the County prior to the end of the current fiscal year. This would require a budget amendment to the City Manager's Recommended budget removing the \$761,342.80 in one time payments of County Tax that is currently included.

Recommendation #3 - Additional FY25 Tax Levy Reduction via Payment of Two-Time Pension Obligation Bond Debt Service with Fund Balance

Thirdly, because the pension obligation bond debt service is now only a "two time" expense (with remaining payments of approximately \$21M due on 6/1/25 and the final payment of \$22.3M due on 6/1/26), the City should also consider additional use of anticipated fund balance to offset more of the FY25 payment due, and using the remaining debt service reserve to offset more of the FY26 payment due. This would provide property tax reduction/stabilization in FY25 and FY26.

The City Manager's recommended budget already includes an estimated \$4.1M of debt service reserve use within FY25, and this was projected to rise to nearly \$5.5M of debt service reserve use in FY26 for a total of \$9.6M of property tax levy reduction over the next two fiscal years leading up to expiration of the pension obligation bonds on June 1, 2026. Based on actual activity in the current fiscal year and perceived level of Committee support for further use of fund balance to achieve tax reduction, staff feels comfortable that these amounts could be increased to \$5.1M for FY25 and \$6.5M in FY26, resulting in an additional \$2M of tax levy savings for a total of \$11.6M over the final two fiscal years of pension obligation bond

payments. This would result in a 6 cent reduction in the City portion of the mill rate or an approximately 0.8% reduction in the municipal mill rate vs what is currently proposed.

SUMMARY IMPACT TABLE – Recommendations #1, 2 and 3 + Amendments 1 and 2 from Finance Committee

The table below illustrates the revised estimated property tax levy increase assuming that staff recommendations 1, 2 and 3 above are taken by the Committee/Council and Amendment #1 (to increase Parks, Recreation and Facilities funding by \$56,000) and Amendment #2 (to fund FY25 Clean Elections program at \$300,000) are approved. The projected City mill rate increase would decrease from 4.9% on the City side down to 3.0%, with the mill rate itself estimated to increase by just 21 cents instead of the 34 cents.

	General Fund	County Tax	City General Fund	Enterprise Funds	TOTAL CITY	School Dept	GRAND TOTAL
Total Expenditures	\$266,875,616	\$8,414,304	\$275,289,920	\$76,600,285	\$351,890,205	\$119,402,624	\$471,292,829
Less: Revenues	(167,511,085)	-	(167,511,085)	(75,519,896)	(243,030,981)		(243,030,981)

FY25	\$6.61	\$0.56	\$7.17	\$0.00	\$7.17	\$7.94	\$15.12
FY24	\$6.34	\$0.62	\$6.96	\$0.00	\$6.96	\$7.45	\$14.41
\$ Increase	0.27	(0.06)	0.21	-	0.21	0.49	0.71
% of Total Increase	3.9%	-0.9%	3.0%	0.0%	3.0%	6.6%	4.9%

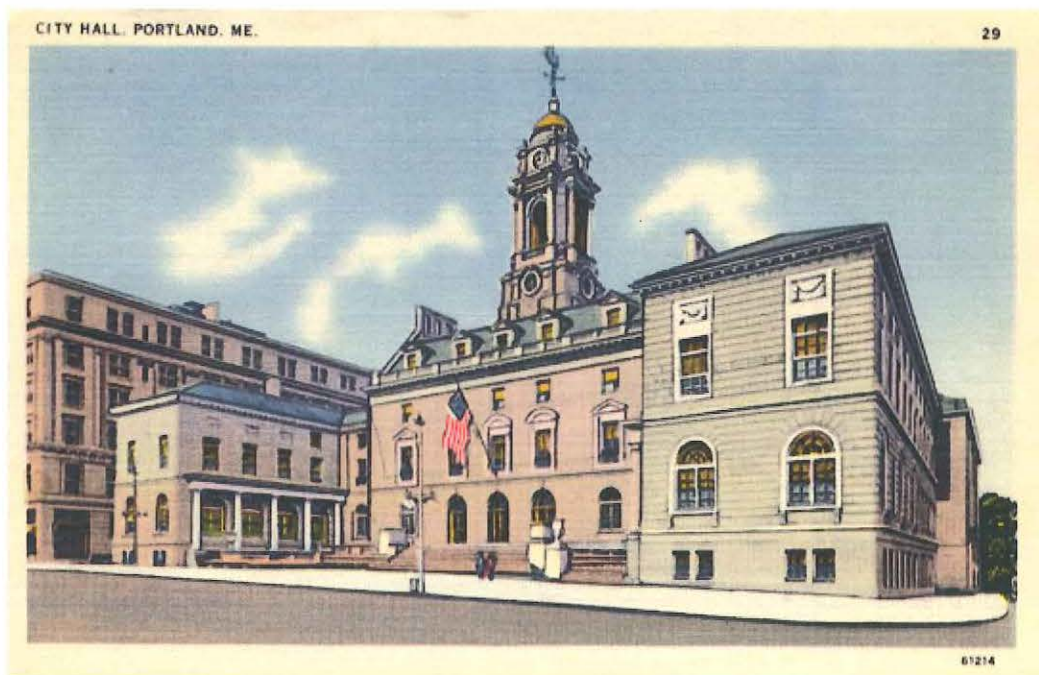

It is important to note that the City will continue to monitor and report financial results and will bring future recommendations to the Committee/Council for use of fund balance on critical capital needs, contributions to the housing trust fund, workers compensation settlements, and other potential one time funding uses. Staff will provide an additional FY24 update at the next regularly scheduled Finance Committee meeting on 6/20/24.

A budget amendment to address recommendations #1 through #3 is as follows:

- Decrease FY25 HHS GA Revenue by \$4,200,000
- Increase FY25 Finance Revenue by \$4,200,000
- Decrease FY25 County Tax Budget by \$761,342.80
- Increase FY25 Debt Service Revenue by \$1,000,000

Budget Highlights

General Fund Expenditures

The 2013-2014 General Fund budget totals \$170,809,990, an increase of \$8,307,914 or 5.1% over the 2012-2013 budget. The major changes in the FY14 budget include:

Wages	\$ 2,733,278
Debt Service	\$ 1,635,536
Benefits (Line Items)	\$ 1,033,763
Client Expense (Social Services)	\$ 1,019,860
Utilities	\$ 427,947
School HVAC & Maint. (Non-Wages)	\$ 295,665
County Tax	\$ 288,740
Supplies - All Other	\$ 187,995
Recycling Cart Pilot Program	\$ 163,000
State-High Two Way Study (Planning)	\$ 150,000
Food Expense	\$ 138,324
Health Insurance Administration Svcs.	\$ 126,639
Big Belly Compactors	\$ 102,000
Traffic Line Striping	\$ 100,200
Land & Building Rental	\$ 94,124
Vehicle Maintenance & Repair	\$ 78,460
Banking Services	\$ 70,680
Capital Outlay	\$ (93,955)

Lab & Medical Services	\$ (167,490)
Firefighting Minor Equipment	\$ (169,300)
ecomaine	\$ (268,878)

Note: The FY14 shift of the Golf Course and Ice Arena from the Enterprise Fund accounts for \$1,416,518 of the \$8,307,914 General Fund expenditure increase.

Enterprise Funds Expenditures

The 2013-2014 Enterprise Funds budget totals \$44,432,588, an increase of \$579,318, or 1.3%, over the 2012-2013 budget.

The Sewer Fund expenses rose 11.7%, or \$2,566,822, in FY14. These changes include:

Debt Service	\$ 924,145
Capital	\$ 560,000
Stormwater Engineering Projects	\$ 449,500
Contractual Miscellaneous Services	\$ 202,354
PWD Assessment	\$ 158,106
Wages	\$ 132,542
Benefits	\$ 97,096

The Jetport expenditure budget decreased \$367,054, or -1.8%. The newly expanded terminal opened in October of 2011 (FY12); FY14 represents the second full year of the new associated costs. The more significant Jetport budgetary changes include the following:

Anticipated Surplus	\$ 391,835
Advertising	\$ 136,950
Building Maintenance	\$ (96,830)
Airport Security Guards	\$ (98,926)
Police & Air Rescue Contributions	\$ (172,440)
Contracted Miscellaneous Services	\$ (194,526)
Capital Outlay	\$ (337,090)

The Golf Course and the Ice Arena budgets transferred to the General Fund in FY14. The shift of these two Enterprise Funds decreased FY14 Enterprise Fund Expenditures by \$1,590,991, or \$1,012,065 and \$578,926 respectively.

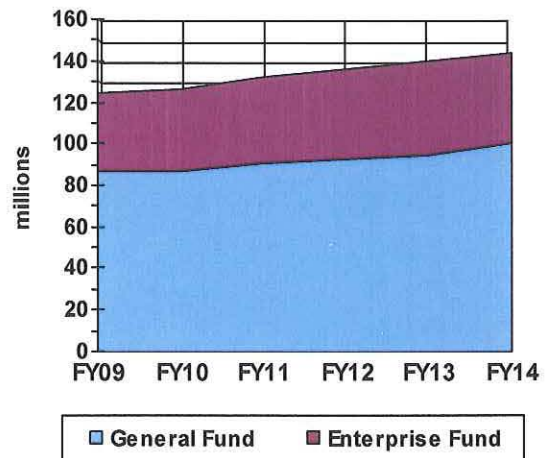

General Fund Revenues

The 2013-2014 General Fund non-tax revenues are estimated at \$100,158,418, an increase of \$5,451,831, or 5.8%, over the 2012-2013 budget. The significant revenue changes are comprised of the following:

SS State Social Service (GA)	\$ 1,707,602
Golf Course Culture / Recreation	\$ 783,171
Firefighting Confined Space	\$ 660,000
Barron Center Patient Receipts	\$ 631,059
Enterprise Fund Charges	\$ 627,719
Ice Arena	\$ 576,035
School Fund Charges	\$ 498,732
Sale of City Property	\$ 370,000
Building Permits	\$ 216,000
Health Insurance Employee Reimb.	\$ 202,386
Golf Course Food Services	\$ 179,965
Interest Income	\$ 172,558
Interest & Penalties	\$ 165,000
Barron Center Non-Patient Receipts	\$ 152,735
Emergency Medical Services (EMS)	\$ 150,000
Police Dispatch Cost Share	\$ 136,741
Therapeutic Recreation (New Division)	\$ 121,675
Parking Meters	\$ 115,000
Waterfront Ground Rent	\$ 111,720
Motor Vehicle Accident Response	\$ 100,000
Parking Garage Monthly Parking	\$ 99,095
Auto Registration	\$ 85,000
Grant Reimbursements	\$ (89,689)
HCD Charges	\$ (98,511)
Medicaid	\$ (118,030)
Fringe Benefits	\$ (401,314)
Revenue Sharing	\$ (1,891,155)

Jetport Concessions	\$ 73,779
Jetport Parking Income	\$ (138,065)
Jetport Deicing Service Charges	\$ (144,187)
Golf Course Restaurant	\$ (160,750)
Ice Arena	\$ (531,715)
Jetport Terminal Income	\$ (532,135)
Golf Course Maintenance Operations	\$ (835,975)

**General Fund & Enterprise Funds
Non-Tax Revenue Estimates
FY09-FY14**

Housing & Community Development Program (HCD)

The final 2013-2014 HCD program totals \$2,070,549, an increase of \$14,044, or 0.7% from the 2012-2013 program. The Entitlement Grant increased 9.6% or \$162,351, and Program Income increased 8.7% or \$9,600. The use of Surplus Funds decreased 61.2% or \$157,907.

Enterprise Funds Revenues

The Enterprise Funds 2013-2014 revenue estimates are \$43,728,185, a decrease of \$981,603 or 2.2%.

The major changes in the revenue estimates include the following:

Sewer User Fees	\$ 865,800
Jetport Landing Fees	\$ 316,551

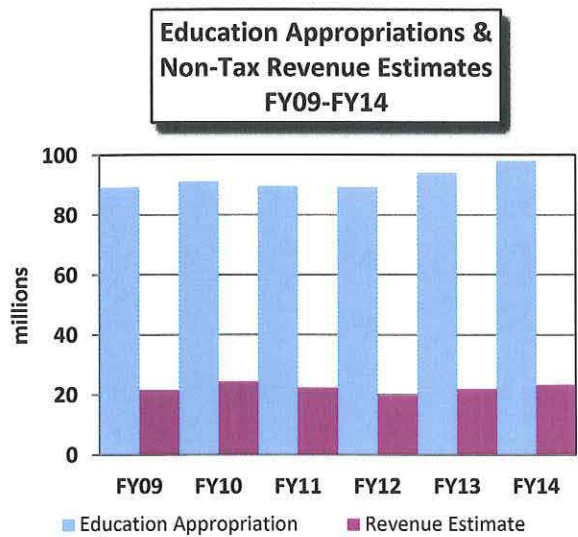

Education

The Education budget for 2013-2014 is \$98,275,361, an increase of \$4,027,913 or 4.3%. The increases in expenditures include:

Salaries & Benefits	\$ 3,039,083
Purchased Professional & Technical Svcs	\$ 259,283
Debt Service	\$ 249,545
Copier Lease	\$ 142,800
Tuition to Charter Schools	\$ 122,941

The total non-tax revenue estimate for Education is \$23,572,360, an increase of \$1,449,774 or 6.6%. A summary of the revenue changes are as follows:

State Subsidy - EPS	\$ 1,830,496
Food Service Revenue	\$ 188,648
Transport - Other Org	\$ (65,000)
PATHS Part I & Part II Assessment	\$ (202,508)
Use of Surplus	\$ (298,613)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, September and March.

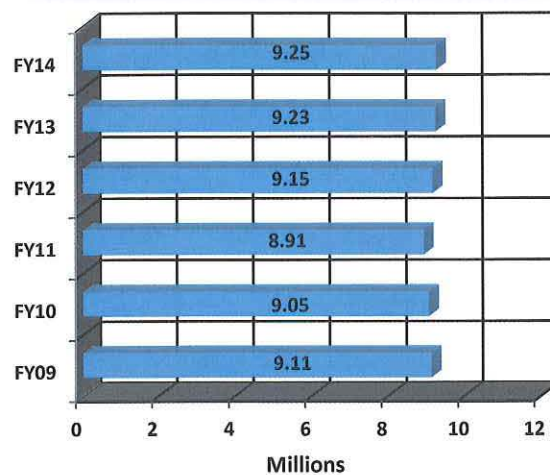

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The last property revaluation was phased in over two years: FY2006 and FY2007. The previous revaluation was done in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY13 and FY14 are estimated amounts.

Excise tax collections have had only minimal growth since the low in FY11.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

Note: FY13 and FY14 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, the Cable TV Franchise, and Business Licenses are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

Welfare reimbursement is the largest revenue in this category due to the increased need for assistance in FY14, offsetting approximately eighty percent (80%) of the Welfare Department expenditures. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

An additional major source of revenue in this category is State Revenue Sharing.

The State sets aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing pool. Based on current law of June 26, 2013, the State reduced the FY14 Revenue Sharing pool by approximately \$73.31 million, which is to be transferred to the State's General Fund undedicated revenue. The remaining Revenue Sharing pool is then shared amongst 493 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

Revenue Sharing I is based on the following formula:

$$\frac{\text{*population of town} \times \text{assessment (tax levy)}}{\text{state valuation for municipality}} = \text{the town's number}$$

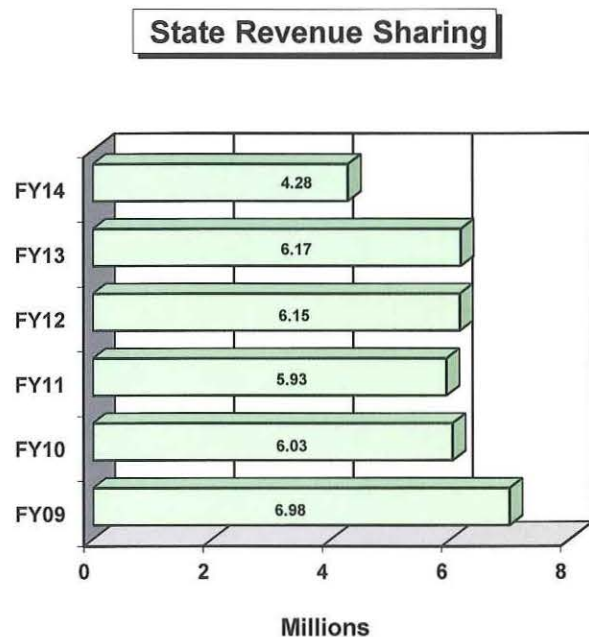

* Note: FY13 formula incorporates the 2010 Census data

All numbers are added together to come up with a statewide total. From the statewide total, each municipality is assigned a percentage of the total. The resulting percentage is then multiplied by the pool amount.

Rev-II distributions are based on this calculation:

$$\text{a) assessment / state valuation} = \text{mil. rate}$$

$$\text{b) (mil. Rate} - .01) \times \text{population} = \text{the town's number}$$

Note: FY13 and FY14 are City estimated amounts.

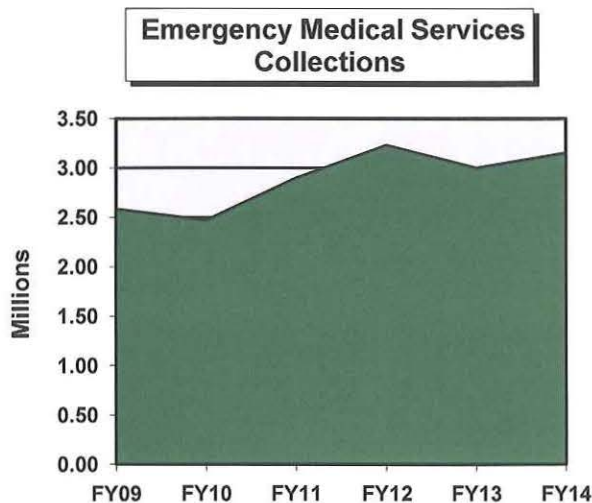

In FY2014, the State's projected share for Portland is 6.52%.

This category also includes the Urban Rural Initiative Program (URIP), the state program which provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Major sources of revenue come from Patient Receipts (Barron Center), Emergency Medical Services (EMS), Cultural / Recreation Services, Health Insurance Reimbursements, and Recycling.

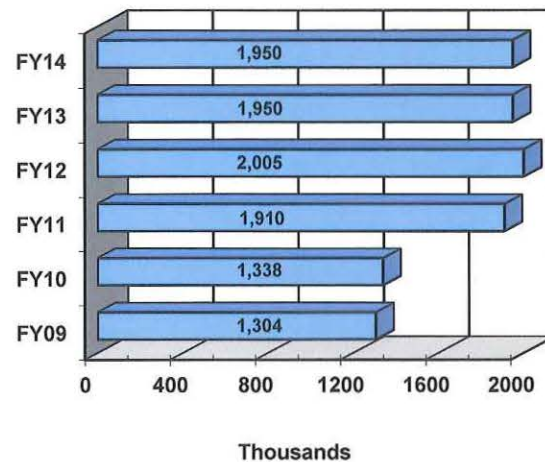

Note: FY13 and FY14 are estimated amounts.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties. The FY11 collection increase is attributed to the elimination of the Parking Ticket Forgiveness Program.

Parking Ticket Collections

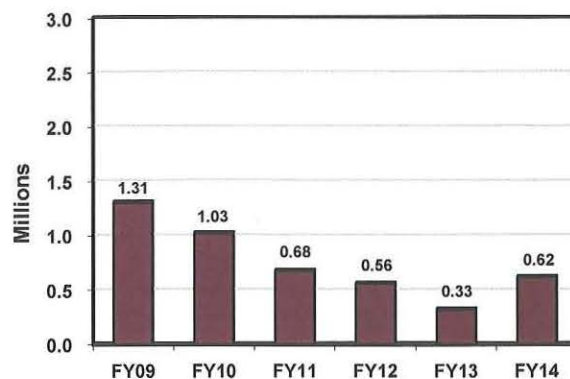

Note: FY13 and FY14 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, various rental fees, and interest earnings.

Interest Income

Note: FY13 and FY14 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, cemetery endowments, library, and School department are known as interfund charges. It also includes State Grants, Housing and Community Development Grants, Federal Grants and Other Agency Revenues.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, City Manager, Assessor, Finance, Legal, Human Resources, Parking, Economic Development, Planning, Information Technology, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police, Fire, and EMS operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to the most advanced investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment and economic slowdown.

Fire

The Fire Department provides for fire suppression, emergent medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Departments Electrical division is responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system. The Department also manages a fee-based non-emergent transport to medical facilities in the city.

The department maintains ten fire stations and the Spring Street Fire Museum. A minimum of Forty-six firefighters and paramedics staff each shift on 17 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, one air rescue unit, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

3. PUBLIC SERVICES

The Department of Public Services is responsible for providing many of the essential services, as well as some specialized community services, to City of Portland residents throughout the year. Public Services is responsible for the operations of the Riverside Recycling Facility under a contract arrangement, and has a comprehensive solid waste program which includes trash collection, residential curbside recycling services, and a fall leaf collection program. In FY12, a revamped version of the popular Heavy Item Pickup program (HIP) was restored. The new Bulky Collection Program uses a fee based tag system, with residents paying a fee to have large bulky items hauled away from their properties. The Public Services department provides for the construction and maintenance of streets and sidewalks, the City's sewer collection and interceptor system, stormwater maintenance, and technical support for annual Capital Improvements, environmental program support, and survey / records. The department is also responsible for the removal of snow and ice from city streets and sidewalks, maintaining the Portland Downtown District, maintenance and repair of all City vehicles and equipment, traffic management which includes traffic control, traffic calming, and street lighting, as well as providing core public works services to four adjacent islands in Casco Bay. The Department promotes pedestrian

accommodations throughout the City and near schools, and bicycle access via an active bicycle and pedestrian access program.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Today Public Services is responsible for the day to day management and care of the parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department reaches out to many citizens and visitors through over 100 individual parks and 9.2 miles of trails. All of this encompasses a geographical area of over 1,200 acres. Public Services also maintains a wide variety of City trees as well as providing new plantings, and also manages two active cemeteries (Evergreen and Forest City) and several inactive cemeteries.

4. HEALTH AND HUMAN SERVICES

This department undertakes the planning and coordination of health and human service activities in Portland, often in collaboration with non-profit agencies and the state and federal government. The department consists of the following operational divisions: Public Health Division, Social Services Division, the Barron Center and the Office of Elder Affairs.

The majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants and reimbursement for direct services. The largest funding source for long-term care services at the Barron Center is MaineCare (formerly Medicaid), followed by Medicare and private insurance.

The Office of Elder Affairs is focused on advocacy and non-institutional community based services.

5. RECREATION AND FACILITIES MANAGEMENT

This department is responsible for maintenance of all city and school buildings, including the school HVAC systems, and the waterfront properties. The department also oversees the marketing and events management at the Expo, Merrill Auditorium, Ocean Gateway, Hadlock Field, and Fitzpatrick Stadium.

Recreation offers a vast array of services and leisure activities including recreation programs, before and after school care, pools, special events, operations of both the ice arena and golf course, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 82.6% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services to the residents of each of its three participating communities. The Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members in April of 2009. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The District's operating and capital

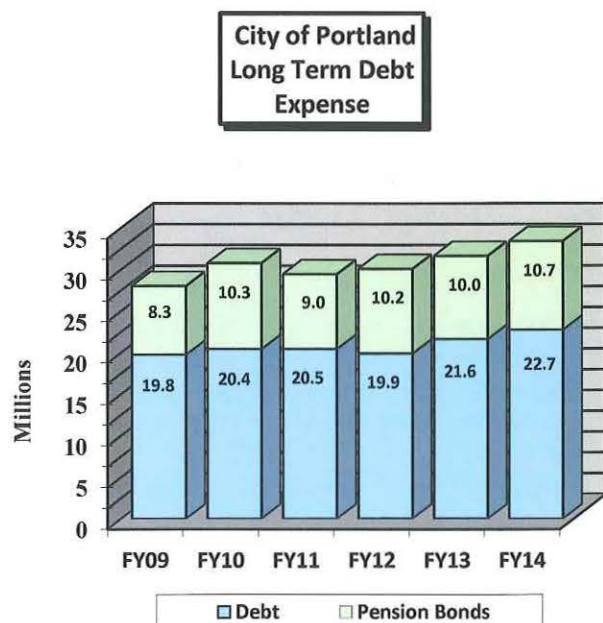

expenditures, including debt service, are financed by state and federal grants received directly by the District, fares and assessments of member communities.

The appropriation found under this division represents the City of Portland's estimated assessment for the upcoming fiscal year at the time the budget was prepared. The City's actual portion of the annual assessment is \$2,439,138 or 82%.

8. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2013, the City's equalized State Valuation of \$7,552,150,000 was 19.5% of the County's total equalized State Valuation of \$38.7 billion, resulting in a FY14 assessment to the City of Portland of \$4,757,524.

9. LONG TERM DEBT

Note: FY13 and FY14 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City budget. For fiscal year 2014, the gross debt budget is \$33,405,772, or 19.6% of the City's general fund budget; the School Department and Enterprise Funds reimburse the general fund \$13,202,254 of this expense. The FY14 net cost of debt service to the City general fund is \$19,592,431.

City Council

The City of Portland operates under a charter which was amended on November 02, 2010. In mid-FY12, the City elected a Mayor for a four year term. In addition to the Mayor, the City Council is comprised of five district Council members and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact, amend or repeal rules, ordinances and resolutions relating to the City's property, affairs and government, to preserve the public peace, health and safety, to establish personnel policies and authorize the issuance of debt. The council adopts an annual budget and provides for an annual audit. The Mayor has the authority to veto the annual budget, however the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops in order to more fully grasp the dimensions of urban problems.

The revenues received by this department are from Housing & Community Development (HCD) grant funds for a portion of the annual audit costs.

City Clerk

The Department of City Clerk has four major functions: Elections, Business Licenses, Vital Records, and City Records maintenance. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Principal Administrative Officer, or the Clerk's deputy, is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. Three elections are budgeted for FY14. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). This is a statewide system designed to standardize and centralize voter registration.

The Business License Administrator maintains and processes over 2,000 licenses annually as required by the City Code. The Licensing Administrator provides license applications and coordinates all interdepartmental approvals pursuant to licensing ordinances.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio/video recordings of several boards and committees.

City Manager

This department consists of the City Manager and support staff. Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary to the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

This department is responsible for the executive management of the City of Portland. Responsibilities include the preparation and administration of council agendas and orders, the coordination and administration of City departments, the handling of citizen inquiries and complaints, the public relations and communication functions, affirmative action, and neighborhood and island liaison efforts.

Beginning in FY14, the Economic Development divisions separated from the City Manager's, forming a separate department. For comparison purposes, the FY13 division data is displayed under the new organizational format.

Assessor

The Department of the Assessor is responsible for the creation and maintenance of the tax roll. Additionally, it maintains records on over 1,300 exempt real estate accounts. The distribution of taxes is accomplished by assigning taxable assessed values to approximately 22,400 real estate accounts and 4,100 personal property accounts. Among the documents that must be accurately maintained by this department are real property records, property maps, ownership records, property sales information and personal property records. Computerization and web site development of department records and tasks continue as an enhancement to the assessment and data processing functions of this office.

Finance

The Department of Finance consists of Administration and Treasury. The Finance Director and two division managers oversee the efficient operations of these functions.

The FY14 increase is mainly attributed to new operational expenses in Treasury's contractual services lines. The revenues reflected have decreased due to the reduction of Revenue Sharing funding at the state level.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for approximately 1,700 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

Treasury

The Treasury division is responsible for a variety of functions, including the collection of real estate taxes, personal property taxes and delinquent sewer user fees. Treasury also collects parking ticket revenues, vehicle excise taxes and registration fees, ATV / boat / snowmobile registration, island golf cart registration, Metro bus passes, miscellaneous receivables, and processes all cash receipts for the City.

In addition, Treasury is responsible for handling the administrative functions of the sewer fund. All expenditures incurred for this purpose are offset by revenues from the sewer fund. The remaining revenues are inter-fund charges to the various enterprise funds for their share of Treasury's administrative costs.

The Treasury budget rose in FY14 \$52,656, or 8.4%, mainly due to increased banking fee services. Decreased revenues are attributed to the lower funding of the State's Revenue Sharing pool.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys. Two office assistants provide support services to the legal staff.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability claims and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Jetport, Fish Pier, and Sewer funds. The department also receives revenue for various ordinance code violations.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City and administers the School Crossing Guide program. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,533 metered spaces throughout the City, 200 of which were recently converted to multi space meters that accept credit cards. The City anticipates converting approximately 300 more multi space meters in the 2014 fiscal year.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

FY14 expenses have remained relatively flat, with a minimal increase of less than 1.0%. The estimated FY14 revenues have increased by \$221,474, or 3.4%, due to projected increases in parking meter and the Spring Street Garage income.

Parking Administration

Parking Administration includes the management of on-street parking, the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

The FY14 revenues in this division have increased \$151,250, or 3.5%, primarily due to the relatively new multi-space meters and the newly offered Thames Street Lot daily parking.

Crossing Guides

The Parking Division administers the School Crossing Guide program to help ensure the safety of Portland children who walk to school. Crossing Guides staff twenty-eight intersections near Portland elementary schools.

Additional school crossing guides are included in the FY14 budget.

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens. The Elm Street Garage participates in the Park & Shop program.

Expenses are up \$12,715, or 5.5% mostly due to increased snow removal costs and new gates for the revenue control equipment. Revenues remain relatively flat.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Civic Center and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Civic Center events. It also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens. The Spring Street garage participates in the Park & Shop and Park & Work programs.

Expenses are up \$37,782, or 10.8%, due in the most part to increased building repair and snow removal costs. Revenues rose \$69,049, or 6.2%, due to the estimated increase in monthly parking.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens. The Temple Street Garage participates in the Park & Shop program.

FY14 expenditures are down due to the completion of the Temple Street façade repairs in FY13. FY14 revenues received are expected to remain level.

Economic Development

The Department of Economic Development is responsible for enhancing the economic growth of the City and is dedicated to fostering a vibrant and healthy economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city, and employment opportunities.

By leading a collaborative effort among agencies, both in advocacy and acting as a business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that economic development issues are addressed in a timely, thorough, and proactive manner.

Economic Development separated from the City Manager's Department beginning in FY14. The largest revenue source in this Department is from the City's portion of the UNUM TIF.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The division specializes in providing specific programs which will assist in the recruitment and development of new and existing business and industry within the city. The Portland Development Corporation budget is fully funded by the interest income from its business loan programs.

The PDC relies on the income from its business loan program to cover its operating expenses.

Police Department

The Police Department is comprised of seven divisions: Administration, Jetport Security, Homeland Security, Uniform Operations Group, Bureau of Investigative Services, Operations Support Services, and Dispatch Services.

Following a strategic plan created in 2010, the Police Department mission focuses on three distinct areas: Service Excellence, Community Engagement, and Resource Maximization. Every decision, plan, and contact made places emphasis on these three areas. All members of the Portland Police Department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department's expense increase of \$93,824, or 0.7%, is attributed primarily to reallocated payroll costs in the Portland Regional Communications Center, of which there is a revenue offset. The revenue decline of \$87,416, or 4.2%, is primarily due to decreases in grant funding.

Police Administration

It is the responsibility of the Chief of Police to create policy and manage the Police Department resources. The administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

Expenditures in the administrative division have increased by \$33,385 or 3.4% due to payroll expense. Revenues have decreased by \$33,932, or 18.8%, due to the completion of the Mental Health grant.

Jetport Security

The lieutenant assigned to Jetport Security division serves as a direct liaison between the Police Department, Jetport, Coast Guard, U.S. Customs, Harbor Master, Maine Emergency Management Agency (MEMA), and the Fire Department on Homeland Security issues.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoint during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

The division's expenses decreased \$107,521, or 17.3%, due to decreases in overtime. The cost for this division is entirely offset by revenues received by the Jetport.

Uniformed Operations Group

A Commander heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the repression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to assign a proportionate number of patrol officers to the high and low demand hours of the day and days of the week. It also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Senior Lead Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Senior Lead Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and their fellow officers to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to streamline efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority.

The Uniformed Operations Group also contains a Traffic Unit responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

The Patrol budget shows an expense increase of \$172,013 or 2.1%, attributable to wages. Revenues are projected to decrease by \$61,145, or 7.2%, due to the completion of grant funding for a number of positions.

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by the Assistant Chief and is comprised of the following sections: crimes against persons, crimes against property, and narcotics investigations. The division is responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the court officer, criminal process services, and the victim advocacy program.

The expenditure budget decreased \$27,456 or 1.8%, and revenues decreased \$35,795 or 34.2%, largely due to the conclusion of a project funded employee position.

Operation Support Services

The Operation Support Services Division is commanded by the Assistant Chief and is comprised of the following sections: computer crimes, forensics, property, training, and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

This budget has decreased \$34,448 or 4.2%, due primarily to position shift. Revenues in this division have decreased \$500 or 1.0% due to a reduction in report requests.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services, supervised by the Emergency Communications Director. The PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate resources as well as providing field officers with automated information 24 hours a day.

In 2011, telecommunications completed a regional consolidation that allowed the dispatch center to dispatch police and fire calls for the towns of Cape Elizabeth and South Portland as well. This reorganization has allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

Expenditures have increased by \$144,879 or 7.0%, primarily due to the on-going transition / merger of personnel resulting from the consolidation with South Portland. Revenues have increased \$151,477 or 54.7% due to the establishment of a cost-sharing agreement with South Portland.

Fire Department

The Fire Department consists of ten divisions: Administration, Special Services, Firefighting, Jetport Air Rescue, Fireboat, EMS, Hydrants, Building Maintenance, Fire Alarm, and Islands. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall expenditure increase is \$155,039 or 1.0%. The increase is attributed to payroll costs.

The revenue increase of \$343,488, or 6.9%, is due to additional revenue generated by the Confined Space Rescue Cooperative which is a means of replacing the lost revenue from the expired SAFER Grant, as well as billing for vehicle crash response. Both are new sources of revenue in FY14.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

The Fire Administration budget increased by \$51,210, or 8.1%, due to the restoration of an Accountant position and annual salary raises. The FY14 budget also includes the replacement of antiquated computer equipment for the department.

Revenues are being transferred to the specific divisions that the revenue relates to in FY14. Fire Inspections and Permits were moved to Special Services (100-2202), Special Detail Billing was moved to EMS (100-2206), and Fire Alarm Maintenance Fees and Knox Boxes were moved to Fire Alarm (100-2209).

Special Services

The Division of Special Services includes the Fire Prevention Bureau, which is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Special Services review site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground and underground storage tanks, and liquefied petroleum gas tanks.

The bureau administers the Fire Prevention Code, N.F.P.A 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. An in-house "company inspection" training program is ongoing.

The division is also responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting. Responsibilities also include ensuring compliance with state mandated EMS, basic and advanced firefighting requirements, which includes overseeing the medical licenses of over 200 personnel.

The FY14 revenue displayed here is simply a shift to the division responsible for generating the income (previously in Fire Administration).

Firefighting

The Firefighting Division is responsible for carrying out suppression, emergency medical calls, and field safety inspections. Fire prevention is maintained through routine field safety inspections and by assisting Special Services with code enforcement. Fire suppression responds to all fire situations, as well as to any possible public emergency.

The Firefighting division's budget increase of \$81,465, or 0.8%, is mostly attributed to the higher payroll costs associated with annual contractual pay raises. The revenue increase of \$300,715 represents the additional new revenue generated by the Confined Space Rescue Cooperative, which is a means of replacing the lost revenue from the expired SAFER Grant, as well as billing for vehicle crash response.

Air Rescue Station

The Jetport Air Rescue Station Division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The budget expenditure for Air Rescue Station decreased \$56,899 or 4.8% is mainly due to the reduction in Overtime Expenses.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Fireboat

The Fireboat Division provides firefighting capabilities for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay. The fireboat further provides emergency medical transportation for the island residents, as well as training for the island call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. The division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations. The city's fireboat, MV City of Portland IV, was commissioned in FY10.

This year's budget shows a decrease of \$10,030 or 1.1%, due to newer staff.

Emergency Medical Service

The EMS Division's primary responsibility is to provide advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit also provides in-service training for all fire department members.

Expenses for the division have increased by \$28,047, or 1.2%, due primarily to the growing costs of Medical Supplies.

Revenues are collected by an outside billing agency, which allows the division to keep abreast of the changes in allowable Medicare and Medicaid charges. Division revenues are projected to increase by \$173,250, or 5.6%, due to the projected increase in EMS income and the transfer of Special Detail Billing revenues from Fire Administration (100-2201).

Hydrants

The Hydrant System Division is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment.

The budget has decreased by \$2,852 or 0.8%.

Division Summary

Department: Fire Department	Division: Hydrants				Account: 100-22-07

Total	345,190	338,142	342,338	342,338	342,338	342,338

Building Maintenance

The Building Maintenance division provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors.

The division's budget has decreased \$8,138, or 2.8%, due to projected utility cost reductions.

Division Summary

Department: Fire Department **Division:** Building Maintenance **Account:** 100-22-08

Fire Alarm

The Fire Alarm Division maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Center's core equipment.

This budget increased \$69,941 or 26.4%. This increase represents a cost shift; rental space costs were previously paid with Homeland Security grant funds.

The Fire Alarm revenue is simply a divisional revenue shift from Fire Administration (100-2201).

Islands

The Islands Division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. The division is responsible for maintaining adequate resources for fire suppression and life safety, including fire equipment and personnel. Despite the logistical difficulties of protecting the islands, the division effectively maintains and provides fire suppression and life safety with island call forces.

The Islands budget has decreased \$11,285 or 21.7%, due to a reduction in various expense line items.

Division Summary

Department of Planning & Development

The Department of Planning and Development consists of three major Divisions: Housing and Community Development (includes Administration and Rehabilitation), Inspection Services, and Planning (includes Historic Preservation). In addition to the City funded Planning programs, this budget includes position CDBG expenditures, which are federally reimbursed.

The department's expenditure budget has increased by \$162,278, or 8.4%. This increase is predominantly due to the State Street and High Street two-way traffic study.

The department's revenues have increased by \$137,869, or 6.1%, due to the estimated Building Permit revenue income in the Inspection Services division.

Inspection Services

Inspection issues permits for construction of all types, and acts as the enforcement agency for building, housing, environmental, plumbing, electrical, mechanical, zoning, and land use rules and regulations.

The division prepares materials for the Board of Appeals, reviews, public markets, used car dealers, second hand dealers, beano, junk dealers, amusement, and massage establishments.

The division's expenditure budget has increased by \$26,957 or 4.7%, mostly due to payroll expense increases. Revenues have increased by \$130,874 or 8.8%. Building Permits and other division Non-Business Licenses are projected to increase \$246,000, while the HCD Inspection funding declined by \$109,726.

Planning

The division of Planning provides development review services for site plan, subdivision, historic preservation, D.E.P. site location and rezoning requests. Planning also provides comprehensive and long range planning services. These services include: the Bayside Brownfield Plan, neighborhood planning with a focus on Nasson's Corner/Brighton Avenue, Transportation Planning and Implementation, Open Space Plan and implementation of general and specific master plans, Historic District Boundaries Planning, the Arts and Culture Plan, and the Downtown Plan implementation (with a focus on streetscape improvements, Congress Street lighting, and Old Port lighting). Finally, the division is responsible for the preparation of the Capital Improvements Program, Congress Square Park project, the Shoreway Access and Portland Trails projects, and other urban design initiatives.

The Planning division's expenditure budget has increased by \$149,253, or 20.3%, with the FY14 inclusion of the State Street and High Street two-way traffic study. Revenues have increased by \$24,899, or 7.4%.

Housing and Neighborhood Services

Housing and Neighborhood Services is responsible for administering all of the City-assisted housing rehabilitation loan and grant programs, as well as homeownership efforts. Housing-related planning activities are also carried out by this division.

This portion of the Housing and Neighborhood Services budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, and Housing Development Fund (program income from CDBG loan paybacks). Therefore, any increase or decrease in the budget has no impact on the tax levy.

Historic Preservation

The Historic Preservation division provides services relating to the historic preservation ordinance. The staff works closely with the Historic Preservation Committee in enforcing and interpreting the City's historic preservation ordinance.

Expenses increased \$12,548, or 12.8%, due to the increased hours of a part-time position. Revenues are fairly flat, at a 1.0% increase.

Information Technology

The Information Technologies Department (IT) is responsible for the design, development and maintenance of a large, wide-area information network. This private fiber network connects all network servers and personal computers used by City and School offices. Another IT-provided service is the support of the City's internal telephone system of three telephone PBX computers and more than 1,000 telephone extensions.

IT maintains infrastructure that support combined Public Safety Answering Services (PSAP) for Portland, South Portland and Cape Elizabeth.

Both the expenditures and revenues budget remains relatively flat.

Public Services

The Public Services Director oversees the operations of thirteen (13) divisions within the General Fund, as well as the Street Openings and Sewer funds. The Director has an Assistant Director, three Division Managers and an administrative support staff that provide day to day supervision for these functions. The Department is responsible for basic municipal services, public infrastructure management, maintenance and development, citywide fleet management, and development and implementation of capital improvement plans. Department staff supports several city committees including the Transportation Sustainability and Energy Committee, Parks Commission, and Land Bank, and is staffing a task force on funding for stormwater program obligations.

The Department's general fund expenses for FY14 increased by \$639,423 or 3.9%. This increase is primarily a result of higher wage expense, including the transfers in of two staff members from other departments, the DPS Recycling Cart Pilot Program, the addition of ten Big Belly Compactors, increased street lighting costs, and partial restoration of salt usage (previously lowered due to high salt inventory from the light FY12 winter). The increased costs were offset somewhat by a savings in ecomaine; the combined gate fee and assessment savings represent a 17.6% reduction in this line. Revenues increased \$110,175 or 2.3%, largely due to projected increases in Street Occupancy revenues and School Department chargebacks.

Public Services Administration

The Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

The Administration division's expense budget has an increase of \$66,371, or 10.5%, mostly due to the reorganization of permitting functions (position transfer) from Recreation and Facilities Management. The majority of the revenue increase of \$28,970, or 24.5%, is also associated with the permitting function department transfer.

Cemeteries

Cemetery Operations is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. In addition to the care of grounds, the division is responsible for interments and disinterments, lot sales and other funeral-related services. The division also maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Wilde Memorial Chapel, on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

The expense budget has increased by \$26,088 or 4.6%, primarily due to payroll increases, contractual services work, and various supply lines. Revenues are anticipated to remain virtually flat.

Forestry and Horticulture

The Forestry and Horticulture division is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance trimming is done as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs that are blocking streets. The successful Community Garden program is run through this division, with 132 plots in four gardens selling out each year. Forestry personnel respond to weather emergencies year round, and are assigned to winter operations.

This division actively seeks grant money from the State to increase the number of city trees planted each year. Forestry and Horticulture also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees in the City. Annual CDBG funds are sought to support tree replacements within eligible downtown and peninsula zones. The division helps to maintain the City's status as a "Tree City USA".

Expenditures increased by \$22,184 or 3.9%.

Districting

The Districting division is a national award winning multi-tasking Public Service maintenance program comprised of five working crews. They are responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, parks and grounds maintenance, including winter sidewalk snow removal operations.

Parks maintenance includes the year-round care of community and neighborhood parks and open spaces. Over 100 individual parks and open spaces are cared for. Districting also continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. The division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. In addition, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

The Districting expense budget increased by \$75,998, or 4.0%, due to higher personnel costs, including the enhancement of the Park Ranger Program. Revenues have increased \$48,714, or 16.3%, primarily due to the division's higher anticipated school revenue chargebacks.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, reducing the recycling fleet from six to three trucks. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces.

City property owners may dispose up to ten bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, non-freon appliances, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card. Not counted toward the ten item limit, residents also may bring in universal waste such as TV's, computer monitors, fluorescent tubes, batteries, and thermostats.

The Bulky Item Pick-up program was implemented in May of 2012. Residents must apply online and request stickers to attach to their approved items for disposal. Small items, less than 30 pounds, which will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for items over 30 pounds.

FY14 expenditures decreased by \$34,704 or 0.9%. This decrease is attributed to the large reduction in the ecomaine gate and assessment fee, offset by the DPS Recycling Cart Pilot Program and the purchase of ten Big Belly Compactors. The revenues remain fairly flat.

Communications

The Communications division encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This division is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and Medcu) of emergency situations occurring on the streets of Portland as reported by any Public Services employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

Expenses have decreased by \$3,257 or 2.3%.

Portland Downtown District

The Portland Downtown District (PDD) is responsible for providing maintenance, cleaning services, and sidewalk snow removal to the downtown district. Revenue for this division is paid by the PDD Corporation for the services provided.

Expenses for this division have increased by \$12,718, or 4.3%, largely due to the new Fox Court public restroom cleaning expense, which is offset by additional revenue.

Construction Company

The Construction Company has been involved in a myriad of projects including sidewalk and handicap ramp construction, sewer culvert and trench work, sewer maintenance support, winter operations, playground and track construction, traffic calming installation and removal, relocation of City property, building repairs, and special assistance with Island Service needs. This division is a valuable resource with its versatility and cost efficiency.

Expenditures have increased \$17,479 or 4.3%, due to payroll and new equipment purchases.

Traffic

The Traffic division operates and maintains traffic and pedestrian signal systems and most street lighting. The division also designs and makes its own signage throughout the City and is responsible for the installation and maintenance of all traffic control signage and road markings, including crosswalks and bike lanes. In addition, all traffic calming, road closures, and detour requests are processed by this division, as well as traffic studies and pedestrian counts. The Traffic division supports the Planning Department's development process by providing comprehensive review of parking strategies and traffic impacts for all incoming site plan and subdivision applications. The division pursues regional savings by working with GPCOG's bid on road markings, and with MDOT on safety improvement projects and purchases of safety devices. The City also participates in a PACTS supported Regional Traffic Management System (RTMS).

Expenses increased by \$357,664, or 20.4%, primarily due to position reorganization, street lighting utility charges, additional line striping, and professional transportation/streetscape services. Revenues have also increased \$35,322 or 19.3%, due to anticipated increases in Street Occupancy related income.

- (2) 1 Position Transferred from Engineering (100-3137) in FY14

Engineering

The Engineering division is of a team of professional and technical staff who provide a variety of civil and construction engineering services for the City. This team develops, designs, seeks (alternative) funding for, administers, and constructs transportation and some environmental infrastructure projects in addition to managing a variety of compliance programs and customer support services. Additional tasks include record-keeping, mapping, and reviewing and inspecting private development. Capital projects focus on roadway, sidewalk, traffic, bicycle network, trail systems, stormwater, and sewer systems.

Expenses decreased by \$59,135 or 7.7%, primarily due to the transfer of the Bicycle/Pedestrian Program Coordinator position to the Traffic division and a reduction in architectural and engineering services. Revenues are up \$19,179 or 2.5%.

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Services workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public.

FY14 expenses increased by \$83,784 or 9.2%. This increase restores the majority of the estimated annual cost for winter salt; the surplus of salt from the 2011-2012 light winter provided a cost savings in FY13. School chargebacks account for the majority of the revenue for this division.

Fleet Services

The Fleet Services division purchases, repairs, and rebuilds the City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, Administration, Public Services, Recreation and Facilities Management, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee and maintains the vehicle replacement program Citywide.

Fleet Services is also responsible for the 82 Hanover Street building, which houses the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments, with two certified fabricators.

Expenditures increased by \$69,160 or 1.8%, primarily due to the vehicle fleet operational costs and payroll expenses. Revenues are down \$39,525 or 8.0%, due to projected decreases in chargebacks to both the Sewer Fund and School Department.

Island Services

Island Services is responsible for all Public Services functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. The division also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

Expenditures increased by \$5,073 or 0.9%.

Recreation & Facilities Management

The Recreation and Facilities Management Department consists of three major divisions: Facilities Management, Recreation, and Building Maintenance. The Facilities Management is responsible for scheduling and management of Merrill Auditorium, Hadlock Stadium, Portland Exposition Building, Ocean Gateway, and Maine State Pier. Recreation manages special events at various city parks and administers a variety of youth, adult, and senior recreation and aquatic programs. Lastly, the Building Maintenance responsibilities include the maintenance, repair and renovation of a variety of City and School buildings including the waterfront and lighting for various walking trails/parks.

Both expenditures and revenues have increased \$1,807,610 and \$1,976,275 respectively. These increases are primarily due to reorganization; new FY14 divisions include Administration, the Ice Arena, Therapeutic Recreation, and the Golf Course Maintenance Operations.

Administration

The Recreation and Facilities Management's Administrative division is new in FY14. The majority of the costs represent a shift of positions previously represented in the Public Assembly Facilities division. The Administration division was created to capture the general administrative support function expenditures of the entire department.

Notes:

(1) FY14 Reorg (New Division): 4 Positions Transferred from PAF (100-3310) in FY14

Trades

The Trades division budget is comprised of a highly skilled workforce that maintains, repair and renovate the various City buildings. Services provided include carpentry, painting, electrical, plumbing, remodeling, and the maintenance of heating and ventilating systems.

Expenses have increased by \$107,582, or 12.5%, primarily due to the consolidation of the Facilities on-call operation temporary help pool.

Merrill Auditorium

This division includes all the expenses for maintaining Merrill Auditorium, a 1,900 seat performing arts venue, attached to City Hall. The theater hosts a variety of performances each year including opera, ballet, musical theater and concerts.

Expenditures have decreased \$79,412, or 15.8%, due largely to the divisional reorganization in the accounting / tracking of payroll expenses. Revenues increased by \$34,050 or 7.1%.

Hadlock Stadium

This division includes all the expenses for maintaining Hadlock Stadium, home of the Portland Sea Dogs.

Expenditures have increased \$9,672, or 4.2%, due to anticipated increases in utility expenses, which is offset in part by the transfer of payroll game security charges to the Sea Dogs during FY13. Revenues also are increasing \$47,083, or 17.9%, due to utility reimbursements and stadium rental income.

Ice Arena

The City-owned Portland Ice Arena, located next to the Portland Expo and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice skating lessons are offered as well. The City also operates the Ice Arena concession operation.

Formally an Enterprise Fund, the Ice Arena moved to the General Fund in FY14. As a part of the General Fund, certain expenses are accounted for in non-departmental funds such as employee benefits, liability insurance and debt service.

Exposition Building

This division includes all the expenses for maintaining and managing the Portland Exposition Building. Numerous events are held each year at this facility by profit and non-profit organizers, including many school related sport activities. The Portland Expo is also home to the Maine Red Claws, a NBA development league, which began playing in FY2010, or the 2009-2010 season.

Expenditures have decreased \$125,791, or 24.7%, due to a change in the accounting method of how divisional payroll costs are tracked within the department. Revenues have also decreased \$27,600 or 8.1%.

Division Summary

Waterfront Maintenance

Waterfront Maintenance is responsible for the repair, maintenance, and operations of city-owned waterfront property which includes the Portland Ocean Terminal, Maine State Pier and Ocean Gateway.

Portland's 2012 cruise ship season was one of the best on record, totaling fifty-nine ships carrying over 85,500 passengers. Thirty-four large ships, carrying over 1,000 passengers, are currently scheduled for the summer / fall of FY14 with an expected 61,000+ visitors. Additional smaller ships are expected to be scheduled for the spring of FY14 or the 2014 season.

The Port Facilities Security Officer position, previously in the Police Department's Homeland Security division, is responsible for day-to-day operational security in the Port and acts as a liaison between the Police Department, Homeland Security, Jetport, Coast Guard, U.S. Customs, Harbor Master, Maine Emergency Management Agency (MEMA), and the Fire Department on port security issues.

The expense increase of \$17,264 or 2.7% is due primarily to the projected increase in utility expense, as well as new Ocean Gateway equipment and the dredging project. The payroll decrease is associated with the change in method to which divisional charges are accounted for. Revenues are anticipated to increase \$75,126, or 5.9%, due to anticipated additional leased space income.

Public Assembly Facility

The Public Assembly Facility (PAF) division handles the general management, marketing, booking, event coordination, and other miscellaneous staff and operational needs of the Facilities Management division functions of the department.

FY14 involved reorganization of payroll charges, including the creation of the Administration division in the Recreation and Facilities Department. Expenditures are down slightly by \$9,970 or 1.5%. Revenues are up \$8,700 or 10.7%.

Concessions

The Concessions division manages the concessions and catering operations for Merrill Auditorium, Portland Exposition, Fitzpatrick Field and the Portland Ice Arena.

Expenditures have decreased \$82,525, or 23.4%, due to the FY13 purchase of point-of-sale equipment and a decrease in food supplies. The concession revenues are also down \$74,700 or 19.2%.

Recreation

The Recreation division provides a wide range of programming / leagues and clinics for all age groups in the City, and operates community centers in the Riverton, Reiche, East End, the Cummings Center and Peaks Island. The Recreation division offers before-and-after school programs as well as summer camp programs for children in grades K-7 in all mainland elementary schools. This division also offers an extensive program for Senior Adults.

For the fourth year the July 4th fireworks display will continue due to the generous donations and support of the community and local businesses.

Expenditures are down \$33,701, or 2.1%, primarily due to the cost associated with Therapeutic Recreation, a new FY14 division in Recreation and Facilities Management. Revenues are projected to increase \$87,450 or 7.6%.

Aquatics

The Aquatics division operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. The division offers swimming lessons and aquatic programming for all ages including an Adult Masters Program.

FY14 expenditures remain basically flat. Revenues are projected to increase \$6,260 or 2.2%.

Therapeutic Recreation

Therapeutic Recreation is a new division in FY14, bringing this service in-house. Previously this was a contracted service expense under the Recreation division. This program incorporates three new City positions.

Revenues are anticipated to offset the expenses by approximately 77%.

Riverside Golf Course

The City-owned Riverside Golf Course offers 27 holes, the 18-hole North course and the 9-hole South course. Amenities include lessons and clinics which are managed by the Golf-Pro, and a Pro Shop. Riverside is also home to several popular golf tournament events each year. The First Tee 3-hole junior course is a program whereby introducing and cultivating young people in the game and etiquette of golf. The First Tee is also available as a practice facility with a separate membership fee. A new South Course clubhouse, funded by the 2010 CIP, opened in July of this year.

Formally an Enterprise Fund, the Golf Course moved to the General Fund in FY14. As a part of the General Fund, certain expenses are accounted for in non-departmental funds such as employee benefits, liability insurance and debt service. Weather conditions may significantly influence revenue collections.

Public Health

Public Health, a division of the Health and Human Services Department, is the State's most comprehensive municipal public health organization. Approximately 83.0% of the expense budget is supported by service revenue and Federal, State and private grants.

FY14 expenditures and revenues are up, largely due to the revenues associated with the Chronic Disease Prevention and the India Street Clinic divisions.

Family Health

The Family Health Services budget provides services for residents utilizing the Maternal and Child Health Home Visiting and the School-Based Health Center programs. This represents more than 700 individuals served by home visits, over 3,000 participants in-group activities, and 900-plus students in six student health centers. The division also provides oral health screening, education and sealant services to elementary schools.

Chronic Disease Prevention

The Chronic Disease Prevention Program implements evidenced-based community health interventions designed to improve the health of those who live, work and learn in Portland. The health issues addressed include tobacco, smoke-free living, physical activity, healthy eating, lead poisoning prevention and substance abuse prevention.

India Street Clinic

Through the continual acquisition of new grants, the Infectious Disease budget supports over 5,000 residents. Programs and services include adult immunization and TB testing, and several sexually transmitted disease programs that provide testing, counseling, case management, prevention and education. Positive Health Care creates access and services for individuals living with HIV. HIV and Hepatitis prevention services include a Needle Exchange Program. In addition, the Portland Community Free Clinic is a collaboration of volunteers and the City's Health and Human Services (HHS) Public Health Division, providing comprehensive primary medical care and referral services for over 600 low-income adults lacking medical insurance and a medical provider.

Environmental Health & Safety

The Environmental Health & Safety division provides for infectious disease investigation, reporting, surveillance, disease-specific education and emergency preparedness efforts in collaboration with the Division for Disease Control and community partners Southern Maine Region. This program is partially funded by the Center for Disease Control Public Health Preparedness and Response for Bioterrorism Cooperative Grant, distributed at the state level to the Bureau of Health, Division of Disease Control and then onto the City of Portland. Beginning in FY12, the Environmental Health & Safety program assumed responsibilities for food service establishment inspections.

Health Equity & Research

The Health Equity and Research Program supports the Public Health Division with health services to minority populations, health assessments, and evaluation efforts. Specific activities include outreach to racial and ethnic minority groups, data analysis, and quality improvements initiatives. Health Equity and Research also manages the Cumberland District Public Health Council and publishes the Annual Report.

Social Services

Social Services, a division of the Health & Human Services Department, provides both financial and support services to low income Portland residents. Its purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Social Services operates several programs, which provide basic safety net services to low income and homeless individuals. Services provided include General Assistance, Representative Payee, Case Management, Refugee Services, and homeless shelters for families and adults. The Division has experienced a 30% increase in shelter usage and a 12% increase in General Assistance applications granted.

The City funds approximately 19.7% of the Social Services division's budget. The remaining 80.3% of the division's budget is funded through federal and state grants. FY14 expenditures represent the continuing poor economic environment and corresponding demand for General Assistance and shelter services.

FY14 expenditures are up over the previous fiscal year's budget by \$1,764,549, or 17.2%. Revenues have also risen, \$1,814,296, or 23.2%; the FY14 revenues projections reflect the State's General Assistance reimbursement rates.

General Assistance

General Assistance (GA), which is mandated by State law for all municipalities, provides basic needs in the areas of shelter / housing, utilities, food, medication and other essential goods and services. All assistance is issued in voucher form. Each GA applicant is interviewed by a Financial Eligibility Specialist who determines eligibility and refers applicants to in-house employment and self-sufficiency programs as a requirement for future eligibility.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of ten divisions.

The Barron Center's expenditure budget increased \$356,329 or 2.4%. A large portion of this increase is due to the Golf Course Restaurant division, which was brought into the General Fund from an Enterprise Fund in FY14. Wages account for the majority of the remaining increase. Department revenues are anticipated to increase \$731,132 or 4.2%.

Barron Center Administration

Administration is responsible for the overall operations and administration of the Barron Center's 264.1 budgeted positions. Finance is responsible for the financial operations, which includes budgeting, payroll, accounts payable, accounts receivable, financial reporting, and financial projections. Labor Relations handles all personnel related issues and assists in contract negotiations. Social Services coordinates all resident admissions and provides for the psychosocial needs of the residents and their families. The medical director is responsible for staff physician services to residents and consultation with the administrator and nursing.

The Administration budget has decreased \$44,403 or 2.4%, mainly attributed to a decrease in contractual lab and medical services.

Office of Elder Affairs

The Office of Elder Affairs serves Portland's seniors in two specific ways: 1) The Elder Advocate which provides information and referral services, short term case management, and advocacy services; 2) The Adult Day Health I & II programs provide day health services to the frail elderly and the chronically ill who live in the community.

The Office of Elder Affairs expense budget increased \$43,357, or 15.9%, due to the increases in payroll costs, including the addition of 1.3 staff positions.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's sixteen and one-half employees provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The Nursing Administration budget increased by \$21,623, or 2.0%, predominantly due to the increased wages.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit is located on the main floor of the facility, is a 25 bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36 bed unit located on the second floor. The majority of the patients on 2 North have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36 bed unit located on the second floor. The dementia residents on the 2 South unit (continuing care dementia) are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36 bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50 bed unit, managed as five 10 bed "neighborhoods" which provide Alzheimer related / type services. Residents of BC II are highly mobile and require unique staffing considerations.

The Nursing Direct Care budget consists only of wages, and has increased \$131,591 or 2.1%.

Nutrition and Supply

The Nutrition and Supply division consists of Resident Nutrition, Cafeteria / Catering, and Central Medical Supply. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, visitors, and operates The Clock Tower Cafe at City Hall. The catering services are for City functions, receptions, and celebrations. Central Medical Supply purchases, receives, stores and distributes routine medical supplies, over the counter drugs, and other supplies for several divisions.

Nutrition and Supply's budget increased \$100,970 or 3.4%. The expense increase is largely attributed to increased payroll, including the addition of a half-time position, and food supply expenses.

Environmental Services

The Environmental Services division consists of Buildings and Ground Maintenance. The Buildings and Ground Maintenance program is responsible for the physical plant, grounds, utilities, and safety on the twelve-acre Brighton Avenue health care campus.

The Environmental Services budget decreased \$137,564 or 11.4%. This decrease is attributed to utility and capital line reductions.

Golf Course Restaurant

The Riverside Municipal Golf Course restaurant, Through the Woods at Riverside, is managed in-house by the Barron Center Food Service staff. The department completed its first full operating season in 2011; previously the restaurant was operated by a private vendor.

Formally an Enterprise Fund, the Golf Course moved to the General Fund in FY14.

Debt Service

The Debt Service account provides for the payment of the principal and interest on the City's outstanding General Obligation Bonds, as well as the cost for the current-year bond issuance. Revenue in this department is from bond costs, primarily for the enterprise funds and the School Department.

Library

The Portland Public Library is a general purpose library system that serves the Portland community by providing a diverse collection of books, media, programs, facilities, and electronic resources at four service locations along with access to resources nationwide. Its services encourage and support the educational, informational and recreational interests of all members of the community. As a regional library it shares its resources throughout Cumberland and York Counties. In addition, it participates in reciprocal service arrangements with other libraries nationwide.

The Portland Public Library is governed by a Board of Trustees which may include up to 21 members who may serve three-year staggered terms. The board currently consists of 16 trustees. As an independent and non-profit organization, the library is self-supporting through its own resources (endowment, fees, grants and annual fund) with additional grants from the City, Cumberland County, and the State of Maine. The City also owns the land and buildings in which the library operates.

In April of 2010, the Main Library, located on Congress Street and Monument Square, re-opened its doors upon completion of Phase I of its renovation project. The improvements include an enriched library atmosphere, featuring natural light and improved public space, with the goal to entice a broader spectrum of users to a more welcoming and contemporary library environment. Visitation, lending of materials, and use of resources have greatly increased as a result of the renovation. Phase II is still in the conceptual planning phase.

In FY12 the Library incorporated the findings of a comprehensive community survey for the implementation of the Portable Library concept in neighborhoods throughout the City. The Portable Library Program began in FY13, expanding services to all neighborhoods within the City.

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60, and Public Safety employees with 25 years of service. There is also a plan covering grandfathered Public Safety employees with 20 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, Group Life Insurance, Unemployment, and FICA. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

Health Insurance Program

The Health Insurance account provides funding for the City's self-insured health plan. The City picks up the full cost of medical coverage for all full-time employees as well as the family costs for grandfathered employees. For all remaining employees, the City picks up 81% of employee and child(ren) costs, 77% of employee and adult costs and 70% of family costs. Claim payments are made by a third party administrator.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. This account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

Contingency

The Contingency account provides funds which are set aside as a necessary provision for meeting unforeseen contingencies and emergencies which may arise during the year. Expenditures for contingencies arising in the implementation of the policies and work programs established by the City Council are authorized by the City Manager.

Department Summary

Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. Claims are processed in-house through Maine Municipal Association's (MMA) property and casualty pool. In addition, the City purchases insurance policies to cover property and liability exposures that could possibly exceed the liability limits set forth in the Maine Tort Claims Act.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

County Tax

County tax is assessed to each municipality by the county in which it resides. Distribution of the tax burden is made on the basis of the valuation of a municipality as determined by the State Board of Equalization. Portland's share of Cumberland County tax has increased by \$288,740 or 6.5%.

Transit District (Metro)

The Transit District account provides subsidy support to the Greater Portland Transit District, better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves. In April 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members. The district is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities. The City of Portland's share of the local operating subsidy is 82%.

Regional Transportation

The Regional Transportation Program provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP has a contract with the cities of Portland, South Portland, and Westbrook, with the cost apportioned based on ridership.

The Regional Transportation budget has increased by \$15,079 or 8.7%.

Capital

The Capital budget consolidates the normal operating annual capital expenses into one comprehensive budget, rather than incorporating these expenses in the individual department budgets. This presentational format, which began in FY12, is designed to better assess yearly changes on a budgetary level, and to serve as a useful tool in managing capital needs.

Street Openings

The Street Opening program and budget are governed by state law, and must be kept separate from the general fund. Each time one of the City's roads or sidewalks is excavated, the Street Opening program provides the services for permitting, inspection, and enforcement of the work. To fully fund the program, the City collects fees for services and to provide for the permanent restoration of excavations made by private contractors. The fee structure is based on the actual costs of administering the program.

In addition to administering and monitoring the excavations made by private contractors and utility companies, this fund also provides for some of the services required by state tort liability laws.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On July 1, 2013, the sewer user fee increased 3%, from \$8.11 to \$8.35 per hundred cubic feet. The City has been making improvements to its combined sewer overflows. The second tier of projects was completed in 2013, and 2014 begins the third tier of CSO projects, totaling over \$160 million over 15 years.

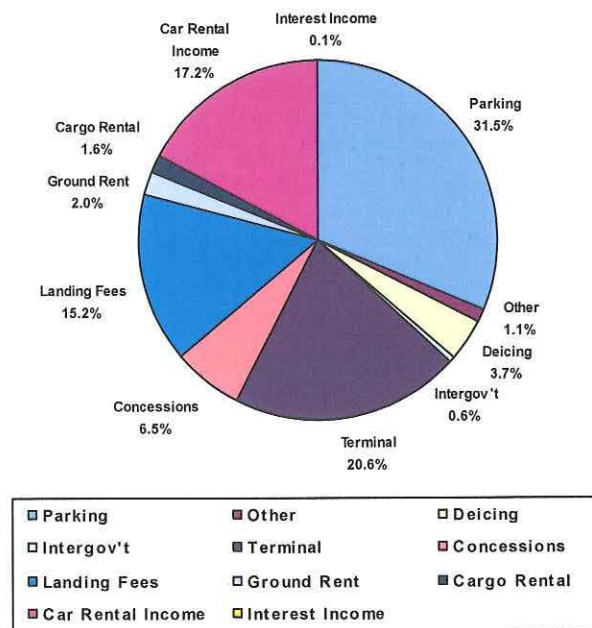

In FY14, approximately 73.9% is paid out for debt service and assessment fees to the Water District.

JETPORT

The Jetport is ranked by the Federal Aviation Administration as the 96th largest airport in the United States based on enplanements. In calendar year 2012, a total of 1,616,723 passengers flew into and out of the Jetport. The Jetport is served by Continental Airlines, Delta, JetBlue, Southwest Airlines, United Airlines and US Air, along with their regional partners.

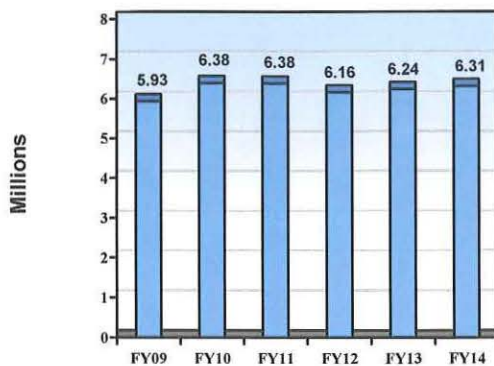

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 34% of the Jetport's total FY14 revenue, with parking, rental cars, concessions ground rent, and miscellaneous revenue providing the other 66%.

Jetport Revenues

Rental cars are provided on-site by Alamo, Avis, Budget, Enterprise, Hertz, and National. Each agency pays a commission to the Jetport based on gross sales. In FY14, car rental agency income is expected to draw 26% of the non-airline revenue. Parking, representing 48% of non-airline revenue, is contracted out to a private management company which pays the Jetport a monthly fee based on total net revenue earned.

Jetport Parking Division Income

Note: Garage Expansion Project Phase II
Parking Impact: May 2008 - March 2009
(Phase I: FY02 and FY03)

Note: FY13 and FY14 are estimated amounts

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are three enterprise funds administered by three departments of the City. A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Department of Recreation and Facilities Management. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plan for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

JETPORT

The City of Portland's Department of Aviation and Transportation is responsible for the operation and maintenance of the Portland Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine. Passenger enplanements have increased from approximately 250,111 passengers annually in 1980 to 816,054 for calendar year 2012.

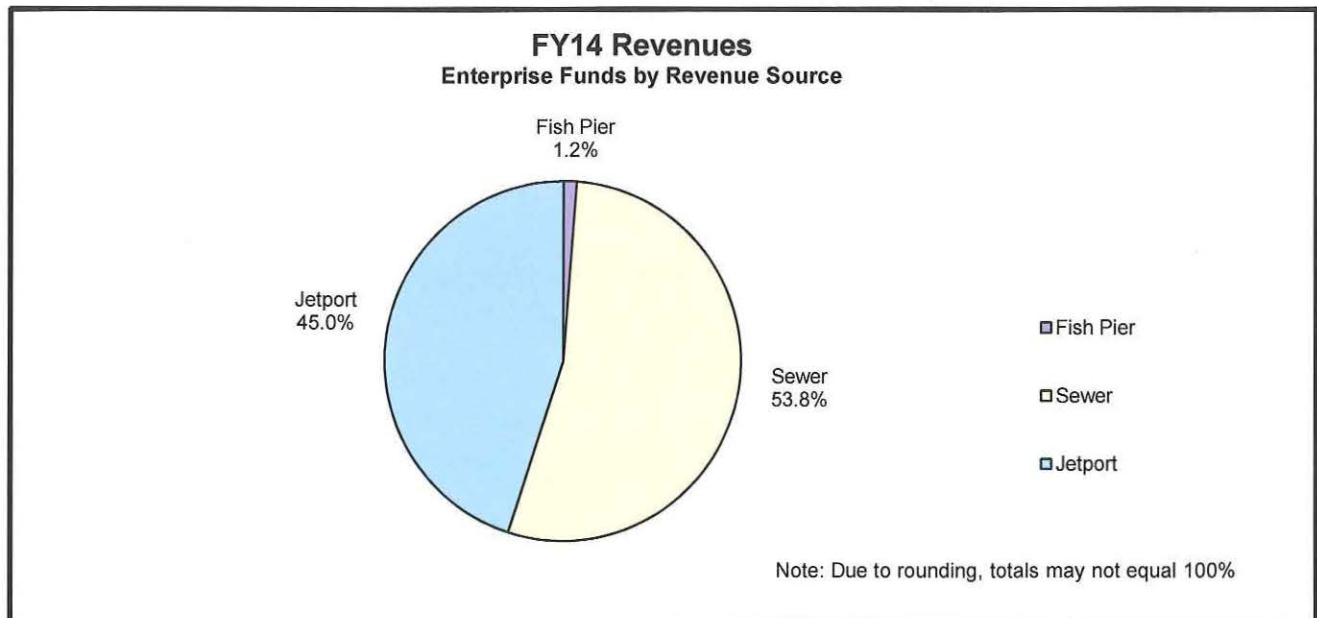

In October of 2011, the Jetport completed a 165,000 square foot addition to the terminal building. The terminal expansion improvements include new ticketing areas, a skybridge connecting the parking garage to the terminal, additional airline gates, additional security screening lanes, an inline baggage handling system, and additional concession areas.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation. In addition, there are seafood processing firms, ground vessels, Vessels Services, Inc, and the Marine Trade Center.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

Sewer Fund

The principal function of this fund is to account for the sewer services provided to City residents and business establishments. The Portland Water District (not a city department) owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly or quarterly fees, based upon water volume, to support the expenses of the fund.

Sewer Public Services Administration

The Sewer Administration division accounts for the associated costs incurred by the Department of Public Services administrative staff for sewer related activities.

The Sewer Administration budget increased by \$108,456 or 74.9%. The majority of this increase is due to the addition of the Water Resources Manager position.

Sewer Districting

The Sewer Districting division is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance and sewer inspections and investigations.

Expenditures have increased by \$185,207, or 13.3%, primarily due to capital equipment replacement needs.

Sewer Communications

The Public Services Sewer Communications division accounts for the associated costs incurred for sewer related functions including service requests, street flooding and Dig Safe requests.

The Sewer Communication expense budget increased by \$2,207 or 3.5%.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for implementing the Combined Sewer Overflow (CSO) abatement program and industrial pretreatment program, both federally mandated by the Clean Water Act.

The Sewer Engineering expense budget has risen by \$55,725, or 6.6%, due to capital outlay costs for new compliance tracking software and a replacement vehicle.

Stormwater Management

The Stormwater division represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

In FY13, the Sweeping division combined with the Stormwater division, as most of the Sweeping costs are Stormwater related. The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. They perform street flushing, and clean up after special events (parades, New Year's celebration, etc.). Their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

The Stormwater division expenditures show an increase of \$1,039,215 or 74.3%. The increase is related to increased contractual services for Clean Water Act Compliance and the development of the EPA integrated permit plan, and two large vehicle replacement items.

Notes:

(1) (5) Positions Transferred to the General Fund in FY14 (100-3307)

Jetport

The Portland International Jetport provides commercial air service to over a million and a half passengers a year, and also provides a general aviation facility for private aircraft and an air cargo terminal. The Jetport is a dedicated fund, which means that all revenues generated by the Jetport remain with the airport to fund both normal airport operations and capital improvements. No tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is budgeted under Administrative Services as anticipated surplus.

The Jetport completed an expansion of its terminal building in the winter of FY12, which nearly doubled the size of the terminal, provided additional airline boarding gates, an inline baggage handling system, additional security checkpoint lanes, increased vendor space in the gate area and added a passenger bridge from the parking garage to the terminal building.

The Jetport's overall expenditure budget (excluding surplus) reflects a decrease of \$758,889 or 4.0%. Revenues have decreased by \$367,054, or 1.8%.

Jetport Administration

The Jetport's Administration division is responsible for the day-to-day management of the Jetport and planning future operations. Divisional services include payroll, accounts payable and accounts receivable, budgeting and human resources functions. The Administration division also manages Jetport taxi permitting.

The Administration budget has decreased by \$98,612, or 11.3%, largely due to a position transfer and contractual services.

Jetport Field

The Jetport Field division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft.

The budget decreased by \$210,463 or 7.7%. The major decrease is a reduction in the funds for capital.

General Aviation

The Jetport General Aviation division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. In FY11, the General Aviation division began collecting landing fee revenues from the smaller aircraft that use the General Aviation area similar to the ones charged to the commercial airlines. These revenues help lower costs for the commercial airlines that serve the Jetport.

The General Aviation budget decreased by \$44,500, or 39.1%, largely due to a decrease in capital funding.

Jetport Fringe and Indirect Costs

The Jetport's Fringe and Indirect Costs division reimburses the City's General Fund for expenses incurred for their services, including Police and Fire employee benefits, general liability insurance, the Fire Department's cost of firefighting and EMS services, and chargebacks on City-provided services including Executive, Finance, Legal, Human Resources and Information Technology.

This division's expenditures rose by \$10,479, or 0.3%.

Jetport Security Division

The Security division performs all administrative and operational activities related to security, including federally-mandated Jetport Security enhancements. The division maintains all security related equipment including cameras and monitors, computer equipment, and security doors and gates. This division is also responsible for processing employee background checks and issuing employee ID badges. The Communication Center provides communications and technical support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public. The cost of the police officers which serve at the Jetport are also paid from this division.

The Security division's budget decreased by \$176,937, or 9.8%, attributable to the decreases in capital equipment and security personnel.

Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including interior and exterior terminal cleaning and maintenance. The terminal division's engineering section is responsible for the planning, design and management of major terminal improvements. The Jetport completed a major terminal expansion which almost doubled the size of the terminal building, adding three more passenger gates allowing current airlines to expand service or to allow new airlines to begin service at the Jetport. An inline baggage handling system was also added. The expansion was substantially completed in October of 2011 and construction completed in February of 2012.

The Terminal's budget has decreased by \$91,689, or 2.0%, due to the decreased cost in contractual services and capital, offset by an increase in debt service.

Jetport Surplus

The Jetport surplus is determined annually by calculating total revenues minus total expenses, including capital purchases.

The FY14 surplus increased by \$391,835 or 39.1%, largely due to the department's decrease in capital items, contractual services and contribution expenditures.

Division Summary

Jetport Parking Division

The Parking division oversees the parking maintenance of the Jetport's parking garage and surface lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

Expenditures have decreased by \$152,657 or 3.4%, primarily due to a decrease in debt service interest payments. FY14 division capital funding increased.

Airfield Deicing Facility

The Airfield Deicing Facility is entering its fourth year of operation in FY14. This facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the costs incurred.

Expenditures for the Airfield Deicing Facility have decreased by \$86,465 or 10.6% over the FY13 budget. Revenues generated from this division have also decreased.

Key Revenues and Expenditures

Revenues

The Housing and Community Development Program or HCD is a special revenue fund that is supported by several federal and local funding sources.

1. Community Development Block Grant (CDBG) Program:

The Community Development Block Grant (CDBG) is funded by the federal government under the Housing and Community Development Act of 1974. For Program year 2013-2014 the City allocated \$2,070,549, which is comprised of \$1,850,549 in direct allocation from HCD, \$120,000 from program income, and \$100,000 from re-programmed funds. These funds are used to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.

2. Home Investment Partnership Program (HOME):

The HOME funds are available for a broad range of housing activities benefiting low and moderate income households. For 2013-2014, the City proposes to utilize \$866,272 of HOME funds for a HOME Consortium between the City (\$515,335) and County (\$350,937) for the development of new rental housing, first time home buyer assistance, single family and multi-family rehabilitation, and assistance to special non-profit agencies called Community Housing Development Organizations (CHDOs) to develop affordable housing.

3. Emergency Solutions Grant Program (ESG):

The ESG funds can be used by the City to fund the rehabilitation, operation and support services of providers and facilities assisting Portland's homeless population. The City proposes to use its 2013-2014 ESG entitlement allocation of

\$123,159 to purchase supplies for the Homeless Health Clinic, and to provide case management and homeless prevention services through City Family Shelter programs administered by the Department of Health and Human Services.

4. Portland Development Fund: Originally established in 1986, the goal of the Portland Development Fund is to respond to the need for 1) housing that is affordable to low and moderate income families, and 2) commercial and industrial development opportunities to further strengthen the local economy and generate jobs, particularly in downtown Portland.

Originally there was approximately \$1 million in the Portland Development Fund for both housing and economic development activities. Sources of funding include Urban Development Action Grant (UDAG) miscellaneous revenue, CDBG program income, CDBG entitlement allocations from previous years, and loan repayments and interest generated. In 1990 the fund was split into Housing, administered by the Housing & Neighborhood Services Office, and Economic Development, administered by the Economic Development Department.

The Housing portion of these funds is appropriated for several activities, including the development of new affordable rental housing, single and multi-family rehabilitation, and lead paint abatement. UDAG funds administered by the Economic Development Department, which is now approximately \$900,000, are used for loans and investments by the Portland Development Corporation.

Expenditures

The three expenditure categories utilized by the CDBG Program are: Social Services, Development Activity Funding, and Program Planning and Administration. A brief description of the services provided for the 2013-2014 fiscal year under each of these categories follows. A more comprehensive source of information on these programs can be found in the 2010-2015 Consolidated Housing or the 2013-2014 Annual Action Plan issued by the Department of Planning and Development.

SOCIAL SERVICES

1. Basic Needs Services includes Health and Human Services After Hours Emergency Assistance Program and Preble Street: Day Shelter, Food Programs, and Women's Shelter.
2. Safe Neighborhood programs include the Amistad Support and Recovery Center, Health and Human Service's Behavioral Health Program, the Police Department's Community Policing Program, Milestone's H.O.M.E. Team, and the Wayside Food Programs.
3. Work and Shop Programs include the Catherine Morrill Day Nursery and Youth and Family Outreach Child Care Aid Program, the Maine Center for Deafness, and the Opportunity Alliance Parkside Neighborhood Center.

DEVELOPMENT ACTIVITY FUNDING

1. Mobility and Accessibility projects include the Public Services Department's Cumberland Avenue Sidewalk and Street Lighting, Handicap Access Ramps, and Anderson Street Neighborhood Byway projects, as well as the Irish Network Build Up! HVAC System.
2. Safe Neighborhood projects include Public Service's Neighborhood Tree Planting and Big Belly Solar Waste Compactor

Deployment, and Portland Housing Authority's Sagamore Village Playground.

3. Work and Shop projects include the City of Portland's Façade Improvement and the Portland Assistance Job Creation programs, Coastal Enterprises, Inc. Portland Microenterprise Assistance, and the Youth and Family Outreach Program Expansion.

PROGRAM PLANNING & ADMINISTRATION

The following are reimbursements to general operating accounts for program administration services:

1. The Department of Planning & Development provides Administration, Planning, Housing & Neighborhood Services, Historic Preservation, and Citizen Participation services which are reimbursable under the HCD guidelines.
2. The City receives reimbursement for a portion of the annual audit cost associated with auditing the HCD Program.
3. The City may receive reimbursement for a portion of the fringe benefits associated with the positions funded with HCD monies. However, the fringe benefit reimbursement along with all of the administrative costs must not exceed the 20% cap set by CDBG guidelines.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the School budget was approved by the voters May 14, 2013. A supplemental budget was also approved by the voters September 04, 2013 to reflect the legislature's increase of Portland's subsidy by \$1.9m.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 76.0% of the FY14 Education budget.

State Subsidy

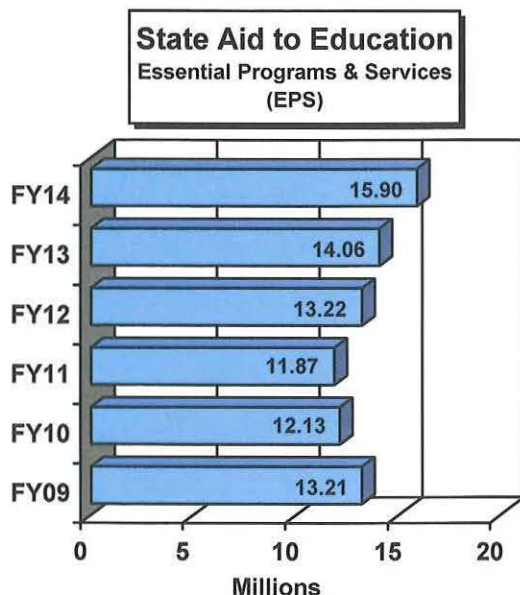

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The portion of State Aid for Essential Programs and Services (EPS) accounts for 16.2% of the School's FY14 Budget. The chart represents the State Aid to Education EPS revenue estimates over the past six years.

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Department of Education for the City be administered by a School Committee comprised of nine members. The School Committee performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into three categories: (1) Salaries and Benefits, (2) Services, Supplies and Other Costs, and (3) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Note: FY13 and FY14 are estimated amounts.

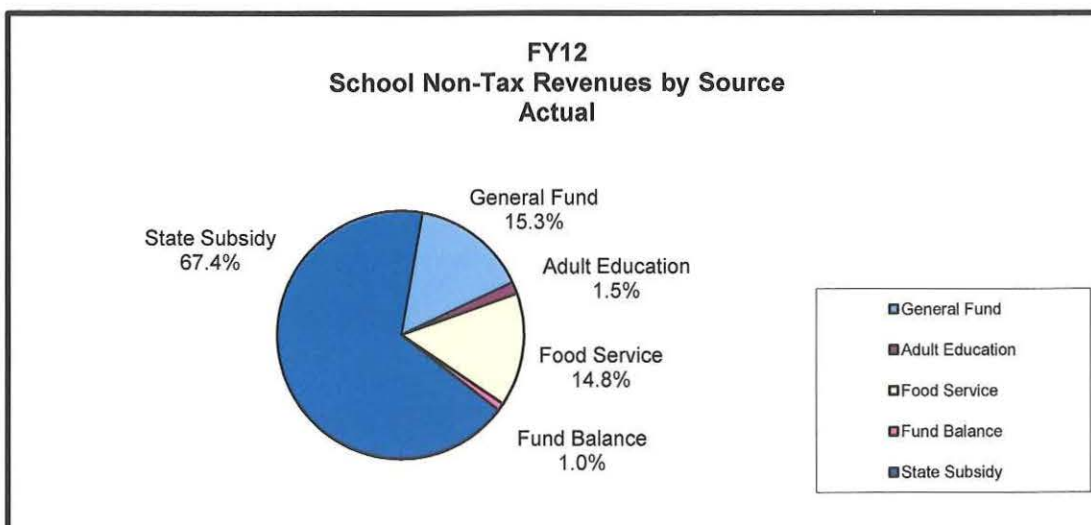

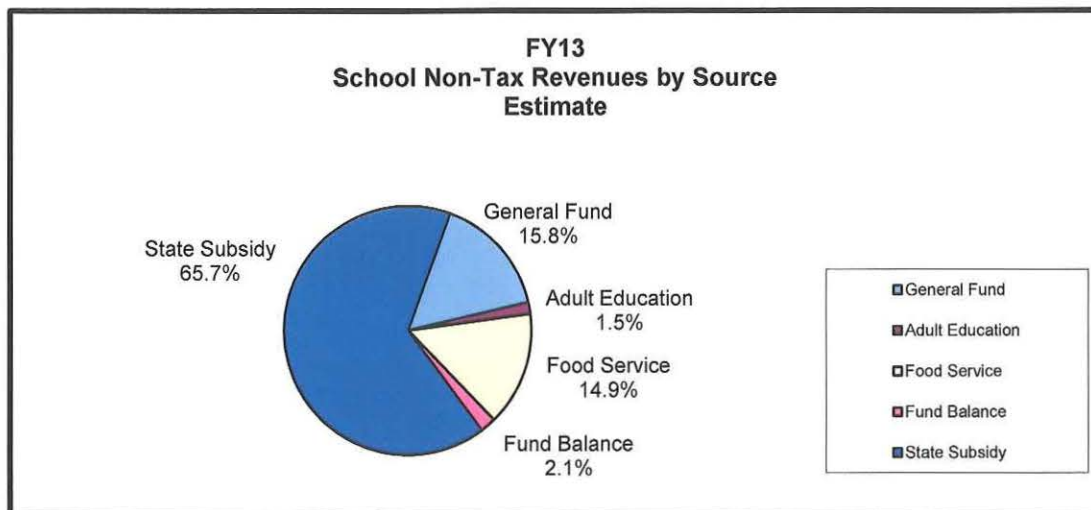

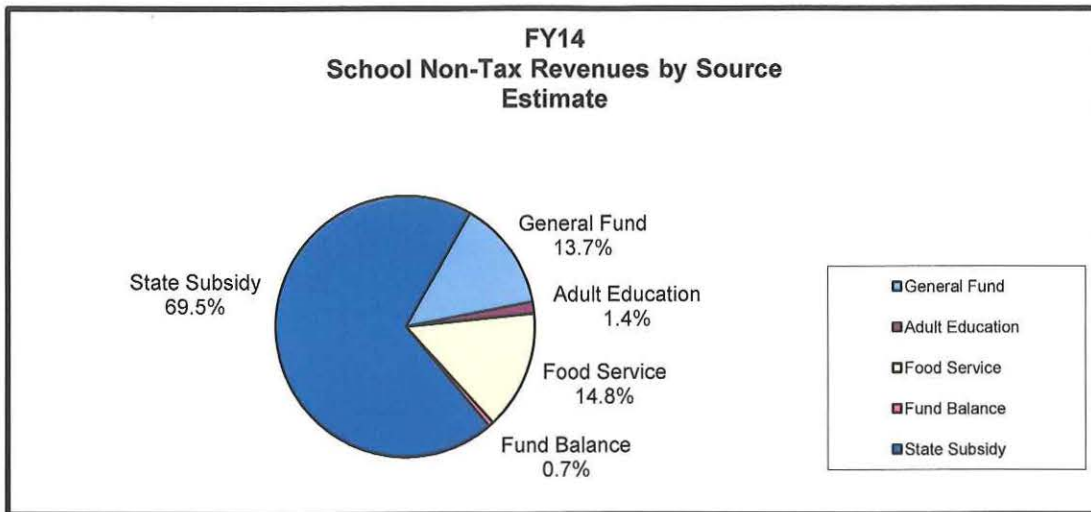

City of Portland, Maine

Strengthening a Remarkable City, Building a Community for Life

This page intentionally left blank.

Budget Overview

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled inter-state and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114 mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac

Indian name meaning "shaped like a great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cumberland County Civic Center. Two major medical centers, Maine Medical Center and Mercy Hospital, are also located in the City.

Budget Overview

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

Budget Overview

1. projected collection estimates for the current fiscal year with explanations for projections substantially different than estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department

budget, under the new school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this

Budget Overview

control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self balancing accounts that comprise its assets, liabilities, reserves, fund equity/retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, recreation and facilities management, public services, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the acquisition, construction or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived

principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds in FY14 are: Fish Pier, Sewer Fund and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

Budget Overview

All proprietary funds are accounted for on a flow of economic resources measurement focus.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Basis of Budgeting

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Activity: A segment of the account number that identifies the type and purpose of the account. The two activity classifications used in budgeting are: 300's - Revenues and 400 & 500's - Expenditures.

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The element classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The element classification for employee related costs such as health insurance, pension, FICA, unemployment, and tool allowance.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Glossary of Terms

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The element classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Client Expenses: The element classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The element classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The element classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Glossary of Terms

Element: A segment of the account number that distinguishes types of expenditures. The major classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance and Repairs, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, furniture and other equipment.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of/and guidelines for financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices as a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, recreation and facilities management, public services, health and human services, public library, county tax, metro, and debt service.

Glossary of Terms

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

HUD: The abbreviation for Housing and Urban Development.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

Insurance: The element classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category (salary, materials, telephone service, travel, etc.) separately, along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The element classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The element classification used for tangible property or equipment used for operations having a cost between \$5,000 and \$10,000 per single item.

Glossary of Terms

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Classification: A basis for distinguishing types of expenditures in conjunction with the element. The major expense classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Services, Contractual Services, Maintenance and Repair, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The element classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Payroll: The element classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Rental: The element classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Glossary of Terms

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The element classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

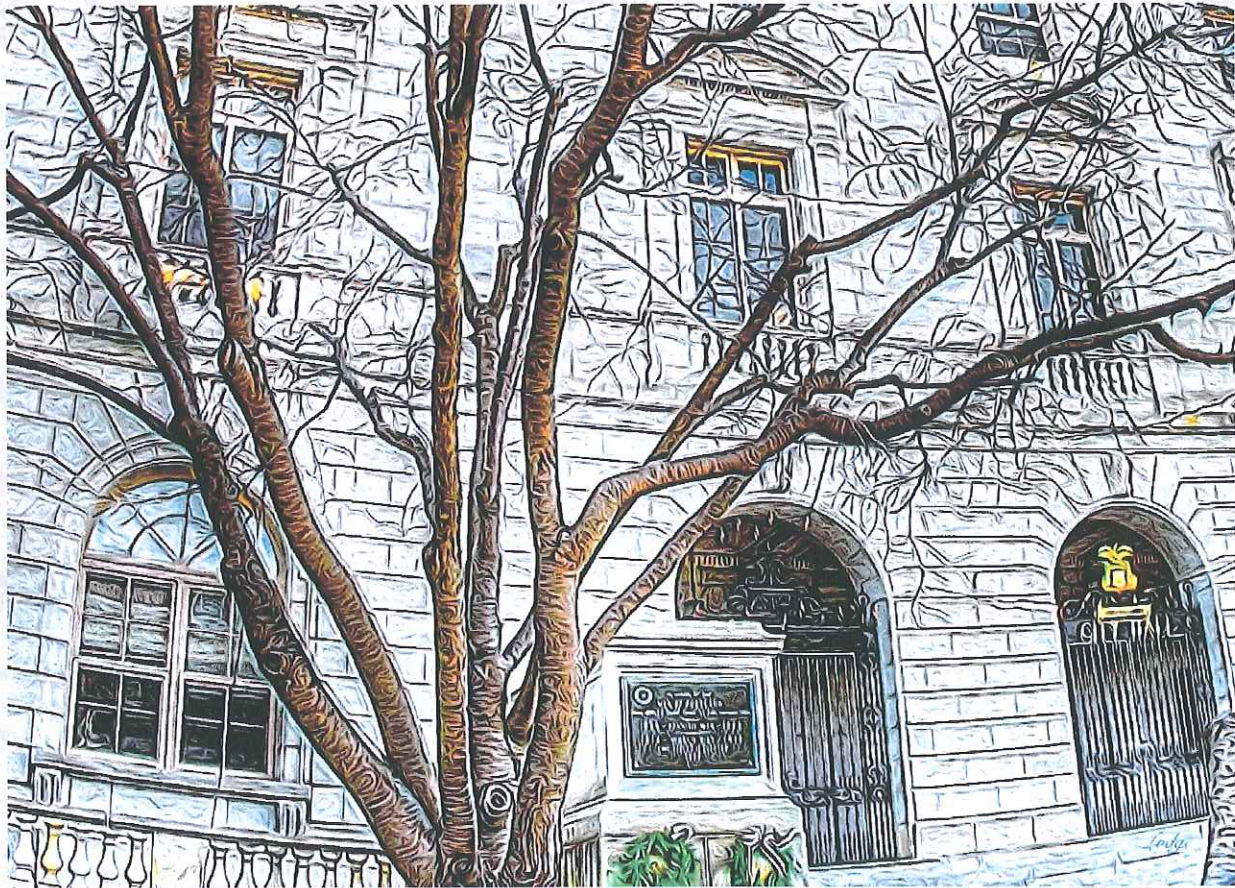

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The element classification which includes expenses for electricity, fuel, telephone, and water and sewer.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

Budget Highlights

**General Fund & Enterprise Funds
FY10 - FY15 Appropriations**

General Fund Expenditures

The 2014-2015 General Fund budget totals \$176,355,473, an increase of \$5,545,483 or 3.2% over the 2013-2014 budget. The major changes in the FY15 budget include:

Debt Service	\$ 1,762,931
City Wages	\$ 1,440,734
Benefits	\$ 1,120,453
Client Expense (Social Services)	\$ 966,160
County Tax	\$ 211,619
Contractual Services Misc.	\$ 175,436
Vehicle Maintenance & Repair	\$ 146,075
Library	\$ 121,466
Building Maintenance & Repair	\$ 120,675
Computer Maintenance & Repair	\$ 113,223
Food Expense	\$ 104,675
Contributions (All Other)	\$ 83,815
Self-Insurance Payments	\$ 80,000
General Liability Insurance	\$ (87,540)
Capital Outlay	\$ (135,300)
Arch & Eng. Svcs (FY14 State-High Study)	\$ (153,900)
Minor Equipment / Capital	\$ (194,315)
ecomaine	\$ (565,765)

Enterprise Funds Expenditures

The 2014-2015 Enterprise Funds budget totals \$44,630,363, an increase of \$197,775, less than one-half percent, over the 2013-2014 budget.

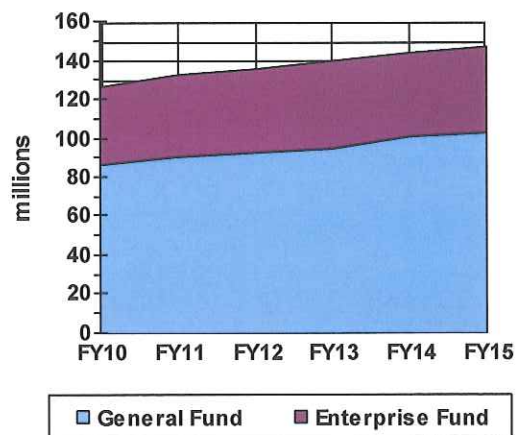

The Jetport expenditure budget increased \$638,665 or 3.4% (or \$485,119 or 2.5% including surplus). The expanded terminal opened in October of 2011. The more significant Jetport budgetary changes include the following:

Pavement Markings	\$ 176,730
Wages	\$ 174,651
Contracted Miscellaneous Services	\$ 122,993
Benefits	\$ 121,654
Capital Outlay	\$ 94,510
Deicing Fluid Collection/Recycling/Operations	\$ 67,099
Building Maintenance & Repair	\$ (124,061)
Anticipated Surplus	\$ (153,546)

The Sewer Fund expenses decreased 1.3%, or \$308,874, in FY15. These changes include:

Debt Service	\$ 335,379
Sewer Line TV Inspection	\$ 300,000
PWD Assessment	\$ 232,572
Wages	\$ 115,278
Revised Street Sweeping Program Signage	\$ 50,000
Benefits	\$ 43,123
Stormwater Engineering Projects	\$ (\$499,900)
Capital	\$ (\$897,600)

**General Fund & Enterprise Funds
Non-Tax Revenue Estimates
FY10-FY15**

General Fund Revenues

The 2014-2015 General Fund non-tax revenues are estimated at \$102,435,294, an increase of \$2,276,876, or 2.3%, over the 2013-2014 budget. The significant revenue changes are comprised of the following:

SS State Social Service (GA)	\$ 1,013,144
School Fund Charges	\$ 999,448
Excise Tax	\$ 603,000
SAFER Grant	\$ 466,075
Food Service	\$ 277,622
Enterprise Fund Charges	\$ 265,256
Building Permits	\$ 243,030
Fringe Benefits	\$ 205,904
Waterfront Charges for Services	\$ 181,235
Barron Center Patient Receipts	\$ 177,786
Waterfront Ground Rent	\$ 172,658
Emergency Medical Services (EMS)	\$ 148,000
Waterfront Rental Income	\$ 100,000
Medicaid	\$ 97,625
Social Services Grant Reimbursements	\$ 97,550
MDEA Reimbursements	\$ 77,282
Police Dispatch Cost Share Reimb.	\$ 73,585
Thames Street Lot	\$ 69,000
Golf Course Pro Shop	\$ 63,140
Before & After School Program	\$ 60,000
HCD Charges	\$ (80,195)
Auto Registration	\$ (81,000)
Parking Tickets	\$ (100,000)
Interest & Penalties	\$ (101,000)
Interest Income	\$ (172,000)
Casco Bay Garage	\$ (230,000)
Revenue Sharing	\$ (323,853)
Firefighting Confined Space	\$ (360,000)
Sale of City Property	\$ (570,000)
Homeless Health Grant Reimb.	\$ (1,101,348)

Enterprise Funds Revenues

The Enterprise Funds 2014-2015 revenue estimates are \$44,700,381, an increase of \$972,196 or 2.2%.

The major changes in the revenue estimates include the following:

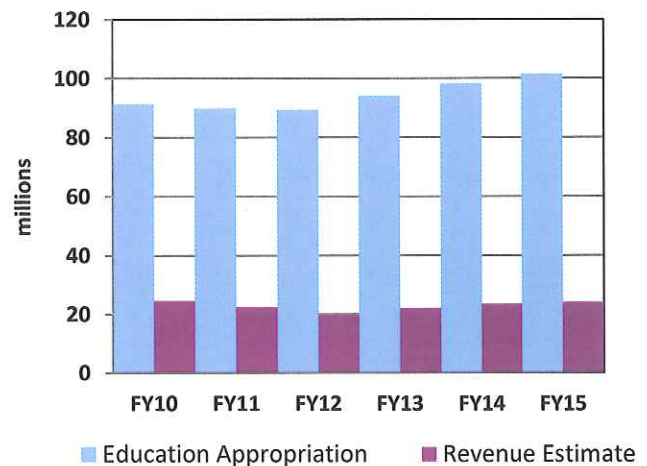

Sewer User Fees	\$ 468,990
Jetport Parking Income	\$ 258,768
Jetport Car Rental Commission	\$ 194,750
Jetport Deicing Service Charges	\$ 84,011
Jetport Cargo Rental	\$ (46,323)

Housing & Community Development Program (HCD)

The final 2014-2015 HCD program totals \$2,209,577, an increase of \$139,028, or 6.7% from the 2013-2014 program. The Entitlement Grant decreased 1.9% or \$34,972, and Program Income decreased 0.1% or \$1,000. The use of Surplus Funds increased 175.0% or \$175,000.

Education

Education Appropriations & Non-Tax Revenue Estimates FY10-FY15

The Education budget for 2014-2015 is \$101,592,669, an increase of \$3,317,308 or 3.4%. The increases in school expenditures include:

Technology Lease / Purchase	\$ 1,077,700
Salaries	\$ 653,958
Benefits	\$ 622,524
Instructional Supplies	\$ 198,874

Purchased Professional & Technical Svcs	\$ 179,539
Employee Training & Development Svcs	\$ 172,388
Books & Periodicals	\$ 157,883
Tuition to Charter School	\$ 111,460
Natural Gas	\$ 108,000
Rentals	\$ 94,052
Tuition to Private Source	\$ (92,000)
Bus Lease / Purchase	\$ (113,132)
Debt Service	\$ (290,898)

The total non-tax revenue estimate for Education is \$24,123,658, an increase of \$551,298 or 2.3%. A summary of the revenue changes are as follows:

MaineCare Medicaid Reimbursement	\$ 300,000
State Subsidy - EPS	\$ 115,740
Use of Surplus	\$ 94,671
PATHS Part I & Part II Assessment	\$ 88,661
Food Service Revenue	\$ 59,916
State Subsidy – Adult Ed	\$ (38,065)
Adult Ed Tuition Individual Enrichment	\$ (55,000)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, September and March.

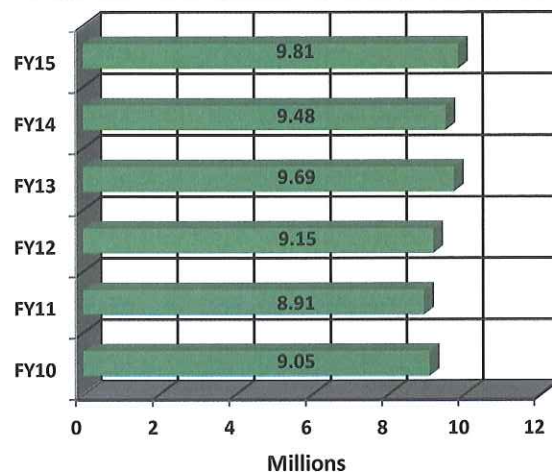

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The last property revaluation was phased in over two years: FY2006 and FY2007. The previous revaluation was done in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY14 and FY15 are estimated amounts.

Excise tax collections appear to be back on the rise after the low in FY11.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

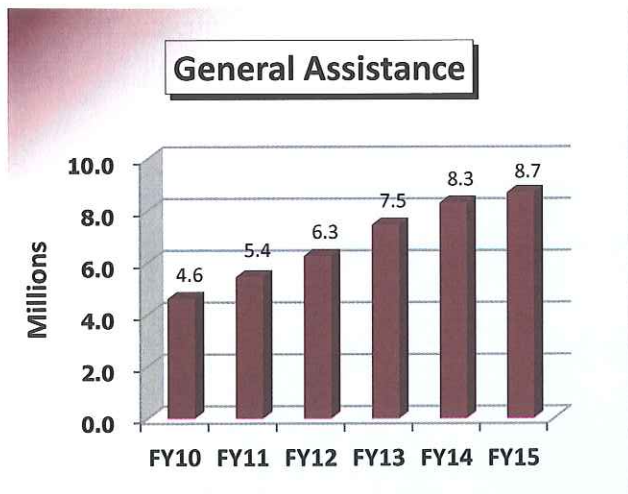

Note: FY14 and FY15 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, Business Licenses, and the Cable TV Franchise are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

General Assistance reimbursement is the largest revenue in this category, with recent history portraying the growing need for service. General Assistance reimbursement offsets approximately eighty-one and a half percent (81.5%) of the Department's program expenditures. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

Note: FY14 and FY15 are City estimated amounts.

An additional major source of revenue in this category is State Revenue Sharing.

Traditionally the State set aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing pool. The Revenue Sharing pool is then shared amongst 493 municipalities and unorganized

townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

Revenue Sharing I is based on the following formula:

$$\frac{\text{population of town} \times \text{assessment (tax levy)}}{\text{state valuation for municipality}} = \text{the town's number}$$

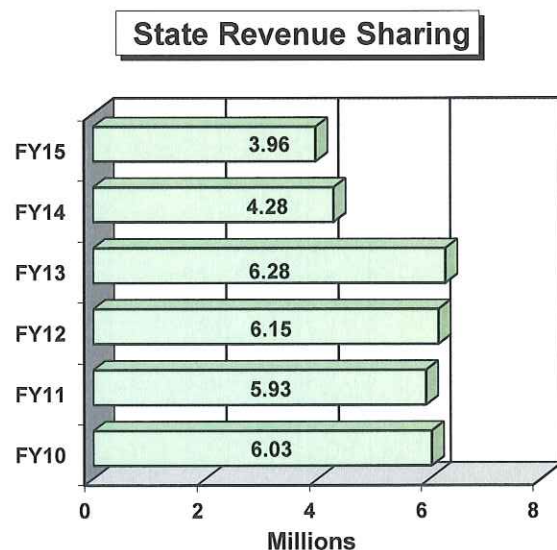

All numbers are added together to come up with a statewide total. From the statewide total, each municipality is assigned a percentage of the total. The resulting percentage is then multiplied by the pool amount.

Rev-II distributions are based on this calculation:

$$\text{a) assessment / state valuation} = \text{mil. rate}$$

$$\text{b) (mil. Rate} - .01) \times \text{population} = \text{the town's number}$$

The state budget, enacted in June of 2013, reduced the Revenue Sharing distribution pool for FY2014 and FY2015, transferring these funds instead to the State's General Fund undedicated revenue. LD 1762, enacted in February of 2014 by the 126 Legislature, repealed the FY2015 additional cut of approximately \$40 million.

Note: FY14 and FY15 are City estimated amounts.

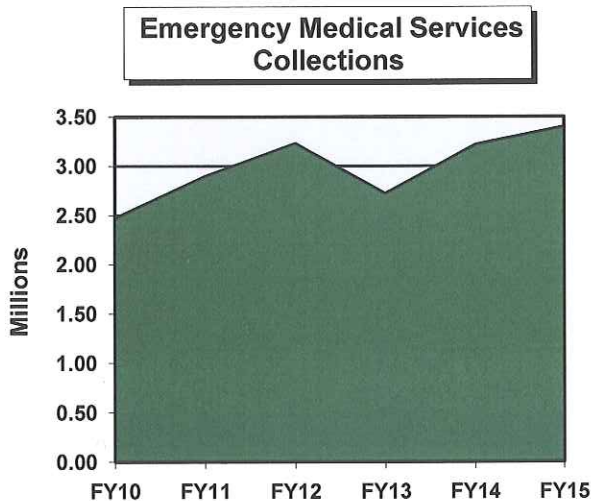

In FY2015, the State's Revenue Sharing projected share for Portland is 6.4%.

This category also includes the Local Road Assistance Program (LRAP), formerly named the Urban Rural Initiative Program (URIP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Major sources of revenue come from Patient Receipts (Barron Center), Emergency Medical Services (EMS), Cultural / Recreation Services, Health Insurance Reimbursements, and Recycling.

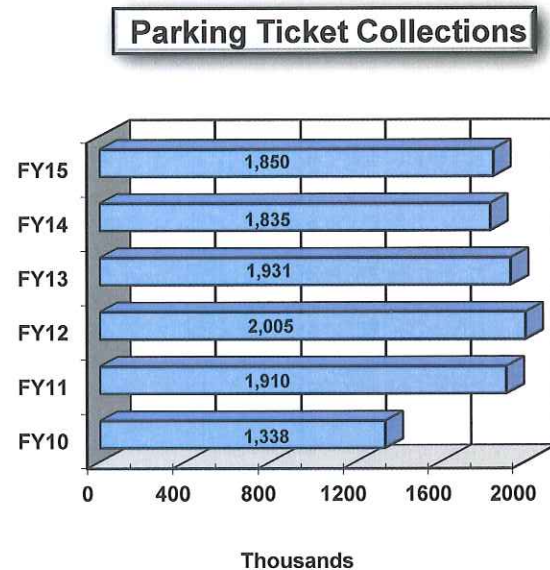

Note: FY14 and FY15 are estimated amounts.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for

neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

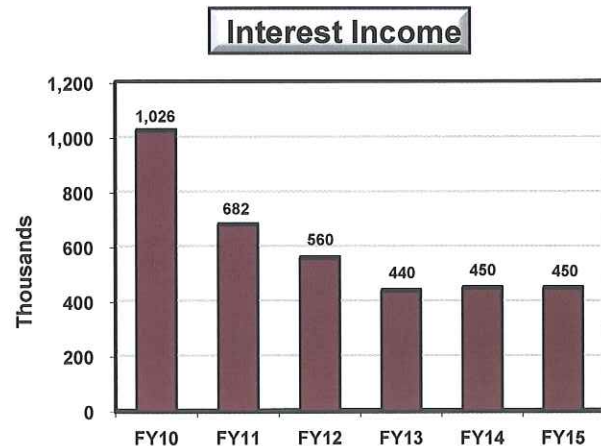

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties. The FY11 collection increase is attributed to the elimination of the Parking Ticket Forgiveness Program.

Note: FY14 and FY15 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, various rental fees, and interest earnings.

Note: FY14 and FY15 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, cemetery endowments, library, and School department are known as interfund charges. It also includes State Grants, Housing and Community Development Grants, Federal Grants and Other Agency Revenues.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, City Manager, Assessor, Finance, Legal, Human Resources, Parking, Economic Development, Planning, Information

Technology, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police and Fire / EMS operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to the most advanced investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment and economic slowdown.

Fire

The Fire Department provides for fire suppression, emergent medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Departments Electrical division is responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system. The Department also manages a fee-based non-emergent transport to medical facilities in the city.

The department maintains ten fire stations and the Spring Street Fire Museum. A minimum of Forty-six firefighters and paramedics staff each shift on 17 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, one air rescue unit, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

3. PUBLIC SERVICES

The Department of Public Services is responsible for providing many of the essential services, as well as some specialized community services, to City of Portland residents throughout the year. Public Services is responsible for the operations of the Riverside Recycling Facility under a contract arrangement, and has a comprehensive solid waste program which includes trash collection, residential curbside recycling services, and a fall leaf collection program. In FY12, a revamped version of the popular Heavy Item Pickup program (HIP) was restored. The new Bulky Collection Program uses a fee based tag system, with residents paying a fee to have large bulky items hauled away from their properties. The Public Services department provides for the construction and maintenance of streets and sidewalks, the City's sewer collection and interceptor system, stormwater maintenance, and technical support for annual Capital Improvements, environmental program support, and survey / records. The department is also responsible for the removal of snow and ice from city streets and sidewalks, maintaining the Portland Downtown District, maintenance and repair of all City vehicles and equipment, traffic management which includes traffic control, traffic calming, and street lighting, as well as providing core public works services to four adjacent islands in Casco Bay.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Today Public Services is responsible for the day to day management and

care of the parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department reaches out to many citizens and visitors through over 100 individual parks and 9.2 miles of trails. All of this encompasses a geographical area of over 1,200 acres. Public Services also maintains a wide variety of City trees as well as providing new plantings, and also manages two active cemeteries (Evergreen and Forest City) and several inactive cemeteries.

4. HEALTH AND HUMAN SERVICES

This department undertakes the planning and coordination of health and human service activities in Portland, often in collaboration with non-profit agencies and the state and federal government. The department consists of the following operational divisions: Public Health Division, Social Services Division, the Barron Center and the Office of Elder Affairs.

The majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants and reimbursement for direct services. The largest funding source for long-term care services at the Barron Center is MaineCare (formerly Medicaid), followed by Medicare and private insurance.

The Office of Elder Affairs is focused on advocacy and non-institutional community based services.

5. RECREATION AND FACILITIES MANAGEMENT

This department is responsible for maintenance of all city and school buildings, including the school HVAC systems, and the waterfront properties. The department also oversees the marketing and events management at the Expo, Merrill Auditorium, Ocean Gateway, Hadlock Field, and Fitzpatrick Stadium.

Recreation offers a vast array of services and

leisure activities including recreation programs, before and after school care, pools, special events, operations of both the ice arena and golf course, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 82.7% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services to the residents of each of its three participating communities. The Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members in April of 2009. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The District's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the District, fares and assessments of member communities.

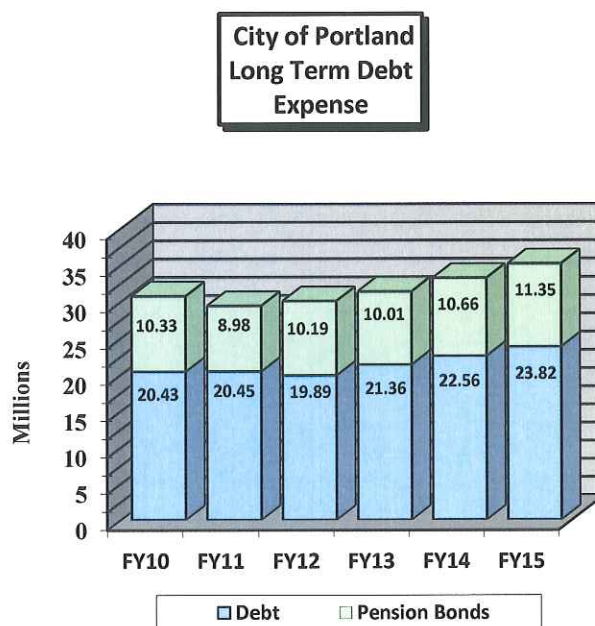

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the annual assessment is \$2,511,910 or 82.1%.

8. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county

government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2014, the City's equalized State Valuation of \$7,551,450,000 was 19.6% of the County's total equalized State Valuation of \$38.6 billion, resulting in a FY15 assessment to the City of Portland of \$4,969,143.

9. LONG TERM DEBT

Note: FY14 and FY15 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City budget. For fiscal year 2015, the gross debt budget is \$35,168,703, or 19.9% of the City's general fund budget; the School Department and Enterprise Funds reimburse the general fund \$14,093,925 of this expense. The FY15 net cost of debt service to the City general fund is \$20,540,877.

City Council

The City of Portland operates under a charter which was amended on November 02, 2010. In mid-FY12, the City elected a Mayor for a four year term. In addition to the Mayor, the City Council is comprised of five district Council members and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact, amend or repeal rules, ordinances and resolutions relating to the City's property, affairs and government, to preserve the public peace, health and safety, to establish personnel policies and authorize the issuance of debt. The council adopts an annual budget and provides for an annual audit. The Mayor has the authority to veto the annual budget, however the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops in order to more fully grasp the dimensions of urban problems.

The revenues received by this department are from Housing & Community Development (HCD) grant funds for a portion of the annual audit costs.

City Clerk

The Department of City Clerk has four major functions: Elections, Business Licenses, Vital Records, and City Records maintenance. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Principal Administrative Officer, the Clerk's deputy, is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. Two elections are budgeted for FY15: the Nov 2014 Gubernatorial and the May 2015 School Budget Validation. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). This is a statewide system designed to standardize and centralize voter registration.

The Business License Administrator maintains and processes over 2,000 licenses annually as required by the City Code. The Licensing Administrator provides license applications and coordinates all interdepartmental approvals pursuant to licensing ordinances.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio/video recordings of several boards and committees.

City Manager

This department consists of the City Manager and support staff. Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary to the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

This department is responsible for the executive management of the City of Portland. Responsibilities include the preparation and administration of council agendas and orders, the coordination and administration of City departments, the handling of citizen inquiries and complaints, the public relations and communication functions, affirmative action, neighborhood and island liaison efforts and preparation of the annual Capital Improvement Plan.

During FY14, a new Waterfront Coordinator position was added to this Department, funded through the revenue from the Waterfront Tax Increment Financing District. Also added is a 311 Customer Service Representative, scheduled to start in January of 2015.

Assessor

The Department of the Assessor is responsible for the creation and maintenance of the tax roll. Additionally, it maintains records on over 1,300 exempt real estate accounts. The distribution of taxes is accomplished by assigning taxable assessed values to approximately 22,400 real estate accounts and 4,100 personal property accounts. Among the documents that must be accurately maintained by this department are real property records, property maps, ownership records, property sales information and personal property records. Computerization and web site development of department records and tasks continue as an enhancement to the assessment and data processing functions of this office.

Finance

The Department of Finance consists of Administration and Treasury. The Finance Director and two division managers oversee the efficient operations of these functions.

The FY15 expenditure increase of \$45,116 or 2.7% is mainly attributed to wages. During FY14, the City began issuing license plates in Treasury with the addition of a new Cashier Clerk. The revenues reflected have decreased by \$1,245,329 or 19.1%. These decreases are largely due to the estimated one-time land sale (Bayside) in FY2014, the state reduction of FY15 Revenue Sharing funding, and projected decreases in Interest and Interest and Penalty related income.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for approximately 1,700 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

The FY15 Net decrease of \$610,781 is mainly attributed to the projected FY2014 one-time land sale of Bayside property.

Treasury

The Treasury division is responsible for a variety of functions, including the collection of real estate taxes, personal property taxes and delinquent sewer user fees. Treasury also collects parking ticket revenues, vehicle excise taxes and registration fees, ATV / boat / snowmobile registration, island golf cart registration, Metro bus passes, miscellaneous receivables, and processes all cash receipts for the City.

In addition, Treasury is responsible for handling the administrative functions of the sewer fund. All expenditures incurred for this purpose are offset by revenues from the sewer fund. The remaining revenues are inter-fund charges to the various enterprise funds for their share of Treasury's administrative costs.

During the spring of FY14, the City began the service of issuing license plates in Treasury with the addition of a new Cashier Clerk position. The Treasury net budget decreased in FY15 by \$679,664, or 14.1%, due to the decline in revenue projections related primarily to the State's Revenue Sharing pool, Interest Income, and Interest and Penalties.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys. Two Paralegals provide support services to the legal staff.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability claims and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Jetport, Fish Pier, and Sewer funds. The department also receives revenue for various ordinance code violations.

In FY15, the half-time position of an Associate Corporate Counsel was restored; during FY14, Legal and the Police Department shared a position.

Human Resources

The Department of Human Resources provides many services to all City departments, including recruitment and hiring oversight, civil service program administration, labor relations, organizational development and education, employee health and benefits administration, and safety and risk management.

The revenues received by this department are from charge backs for the services provided by the Human Resources staff for the Sewer and Jetport funds.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City and administers the School Crossing Guide program. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,547 metered spaces throughout the City, 500 of which have been converted to multi space meters that accept credit cards. The City anticipates converting additional single space meters to multi space meters in the 2015 fiscal year.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

FY15 expenses are up \$77,747 or 4.0%, primarily in Administration due to the contractual operational costs associated with the web meters. The estimated FY15 revenues are down, by \$97,775 or 1.4%, primarily as a result of the accounting change of the Casco Bay Garage to a non-budgetary account.

Parking Administration

Parking Administration includes the management of on-street parking, the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

The FY15 revenues in this division have decreased \$200,650 or 4.5%, due to the accounting change of the Casco Bay Garage revenue to a non-budgetary account during FY14. Revenue decreases are also associated with increased compliance of the multi space meters (reducing parking ticket revenue) and reduced street maintenance restrictions. Expenses have risen \$100,063, or 9.2%, and is largely attributed to the operational costs associated with the multi space meters.

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens. The Elm Street Garage participates in the Park & Shop program.

Expenses are down \$7,103 or 2.9%. Revenues are up \$35,250 or 9.6% due to increased monthly parkers.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Civic Center and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Civic Center events. It also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens. The Spring Street garage participates in the Park & Shop and Park & Work programs.

Expenses are relatively flat. Revenues are up \$47,625, or 4.0%, due to the increased rental and monthly parking income.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens. The Temple Street Garage participates in the Park & Shop program.

FY15 expenditures are down \$11,275 or 9.5%. FY15 revenues are expected to increase by \$20,000, or 2.7%, due to rate increases.

Economic Development

The Department of Economic Development is responsible for enhancing the economic growth of the City and is dedicated to fostering a vibrant and healthy economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city, and employment opportunities.

By leading a collaborative effort among agencies, both in advocacy and acting as a business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that economic development issues are addressed in a timely, thorough, and proactive manner.

The largest revenue source in this Department is from the City's portion of the UNUM TIF.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The Division specializes in providing specific programs which will assist in the recruitment and development of new and existing business and industry within the city. The Portland Development Corporation budget is fully funded by the interest income from its business loan programs.

The PDC relies on the income from its business loan program to cover its operating expenses.

Police Department

The Police Department is comprised of six divisions: Administration, Jetport Security, Uniform Operations Group, Bureau of Investigative Services, Operations Support Services, and Dispatch Services.

Following a strategic plan created in 2010, the Police Department mission focuses on three distinct areas: Service Excellence, Community Engagement, and Resource Maximization. Every decision, plan, and contact made places emphasis on these three areas. All members of the Portland Police Department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department's expense increase of \$597,730, or 4.3%, is primarily due to increases in payroll expenses. This budget includes 4.8 new positions, including the addition of a new Ordinance Enforcement Officer and the restoration of a half-time Community Justice Advocate eliminated in FY14. The other added positions are offset either fully or partially by increased revenue.

Reimbursements related to Jetport Security, the Portland Regional Communications Center, and the new FY15 positions account for the majority of the 14.0% revenue increase of \$278,713.

Police Administration

It is the responsibility of the Chief of Police to create policy and make resource management decisions for the Police Department's resources. The administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

Expenditures in this division have decreased by \$11,671, or 1.2%, due to a transfer of the Mental Health Coordinator position to the Uniform Operations Group division, offset by general yearly increases to payroll expense. Revenues have decreased by \$31,077, or 21.1%, due to the reduction of revenues received by the Jetport.

Jetport Security

The sergeant assigned to the Jetport Security division serves as a direct liaison between the Police Department and the Jetport staff and administration.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoint during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

Expenditures in this division have decreased \$3,077, or 0.6%, mostly due to a decrease in overtime. The cost for this division is entirely offset by revenues received by the Jetport; the revenues listed below for the FY14 projection and FY15 columns are over-stated in error.

Uniformed Operations Group

A Commander heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the repression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to assign a proportionate number of patrol officers to the high and low demand hours of the day and days of the week. It also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Senior Lead Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Senior Lead Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and their fellow officers to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to streamline efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority.

The Uniformed Operations Group also contains a Traffic Unit responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

Expenditures in this division have increased \$320,712, or 3.9%, primarily due to payroll expenses. This division includes the restoration of a full-time Community Justice Advocate position, a new Police Officer offset entirely by revenue, and the Mental Health Coordinator position transfer from Police Administration. Revenues increased \$53,259, or 6.8%, related to the additional Police Officer position and an increase in HCD Community Policing program funding.

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by the Assistant Chief and is comprised of the following sections: crimes against persons, crimes against property, and narcotics investigations. The division is responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the court officer, criminal process services, and the victim advocacy program.

Expenditures in this division have increased \$112,381, or 7.5%, primarily due to the addition of the MDEA funded Police Detective position and the grant funded Police Victim / Witness Advocate position. The revenues reflect an increase of \$87,782 or 127.3%.

Operation Support Services

The Operation Support Services Division is commanded by the Assistant Chief and is comprised of the following sections: computer crimes, forensics, property, training, and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

Expenditures in this division have increased \$48,278, or 6.1%. This division includes the new Ordinance Enforcement Officer position. Revenues have increased minimally by \$1,324, or 2.7%.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services, supervised by the Emergency Communications Director. The PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate resources as well as providing field officers with automated information 24 hours a day.

In 2011, telecommunications completed a regional consolidation that allowed the dispatch center to dispatch police and fire calls for the towns of Cape Elizabeth and South Portland as well. This reorganization has allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

Expenditures in this division have increased \$131,107, or 7.5%, primarily due to the on-going transition / merger of personnel resulting from the consolidation with South Portland as well as other payroll increases. Revenues have increased \$73,585, or 17.2%, due to the establishment of a cost-sharing agreement with South Portland.

Fire Department

The Fire Department reorganizes and consolidates into five divisions in FY15 (previously ten): Administration, Code Enforcement and Community Services, Field Operations, Jetport Air Rescue, and Operations Support Services. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall expenditure increase is \$615,909 or 3.8%. Payroll increases account for \$393,160, or 2.8%, of this increase. Overall, the department is up .7 of one position. Other increases include supplies, contractual services, building rental and wearing apparel.

The revenue increase is \$192,504, or 3.6%. Revenue changes entail the inclusion of staffing reimbursement through the SAFER grant and increased MEDCU estimates, offset by a decrease in confined space revenue.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

The Fire Administration budget decreased by \$38,865, or 5.7%, due to the FY15 reorganization (the Deputy Chief positions assigned to the Field Operations division). Division revenues decreased \$42,670 or 29.4% as a result of grant funding changes.

Code Enforcement & Community Services

The division of Code Enforcement and Community Services, previously called the Division of Special Services, includes the Fire Prevention Bureau. The Fire Prevention Bureau is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Additionally, Fire Prevention reviews site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground & underground storage tanks and liquefied petroleum gas tanks.

The Fire Prevention bureau administers the Fire Prevention Code, N.F.P.A 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. An in-house "company inspection" training program is ongoing.

This division also comprises the community outreach and education initiatives, which includes the Portland High School Program, public education materials, and public information of current events affecting the citizens of Portland.

The Code Enforcement and Community Services division's budget increase of \$23,084, or 8.1%, is mainly attributed to the cost associated with training and equipment needed to provide more effective and efficient NFPA compliant plan review.

Field Operations

In FY15 the Field Operations Division was created to encompass four of the previously named divisions: Firefighting, Fire Boat, Emergency Medical Service and Islands. This division is responsible for providing emergency services including fire suppression, emergency medical care and transport, hazardous materials response, technical rescue response and any possible public emergency. The division supports fire and life safety programs through routine field safety inspections.

Field Operations provides emergency services for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay, including emergency medical transportation for the island residents, as well as training for the island call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. This division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations. The city's fireboat, MV City of Portland IV, was commissioned in FY10.

Additionally, the Field Operations Division is responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting. Responsibilities includes ensuring compliance with state mandated EMS, basic and advanced firefighting requirements, which involves overseeing the medical licenses of over 200 personnel. Field Operations provides advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR, to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit provides in-service training for all fire department members as well.

The Field Operations Division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. Despite the logistical difficulties of protecting the islands, the division effectively maintains and provides fire suppression and life safety with island call forces.

For comparative purposes, the combined expenditure increase of these four absorbed divisions encompassing this new division's budget (not shown below), is \$470,516 or 3.6%; payroll increases represent \$372,847, or 3.1%, including staff shifts and general wage increases. Other minor increases include supplies, maintenance & repairs, and wearing apparel.

Also for comparative purposes, revenue estimates have risen \$237,075, or 5.9%, for all combined divisions. This increase is largely due to the addition of SAFER grant revenue and the increase of MEDCU revenue, offset by a decrease in confined space revenue projections.

Air Rescue Station

The Jetport Air Rescue Station Division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The Air Rescue Station expenditure decrease of \$6,197, or 0.6%, is mainly due to various reductions including training, utilities, and capital, offset by increased overtime costs.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Operation Support Services

The Operations Support Services Division is a consolidation of three former divisions: Hydrants, Building Maintenance and Fire Alarm. The hydrant system is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment. Building maintenance provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors. The fire alarm section maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Center's core equipment.

For comparative purposes, the combined expenditure increase of these three absorbed divisions encompassing this new division's budget (not shown below), is \$167,371 or 17.5%. The increases are varied amongst most expenditure classification categories.

The divisional revenue is mainly due to billing for Fire Alarm Master Box Connections (see City Code Chapter 10, Section 102©).

Department of Planning & Development

The Department of Planning and Development consists of three major Divisions: Housing and Community Development (includes Administration and Rehabilitation), Inspections Services, and Planning (includes Historic Preservation). In addition to the City funded Planning programs, this budget includes position CDBG expenditures, which are federally reimbursed.

The department's expenditure budget has increased by \$119,433, or 5.7%. This increase is predominantly due to increased wages, which includes a new Transportation Policy Analyst, a Deputy Director of Inspections and a transfer of the Bicycle/Pedestrian Program Coordinator from the Department of Public Services, offset by the State Street and High Street two-way traffic study funded in FY14.

The department's revenues have increased by \$241,238, or 10.0%, due to the estimated Building Permit revenue income in the Inspection Services division.

Planning & Development Administration

The Administration division oversees all operations of the Department of Planning and Urban Development. A greater part of the expenditures are salaries that are included on the CDBG side of the budget.

Expenditures have increased \$93,357, or 27.7%, largely due to payroll expenses which include a new Transportation Policy Analyst and other staffing changes.

The revenue in this division reflects the HCD reimbursement for salaries, which has increased \$10,020 or 5.1%.

Inspection Services

Inspections issues permits for construction of all types, and acts as the enforcement agency for building, housing, environmental, plumbing, electrical, mechanical, zoning, and land use rules and regulations.

The division prepares materials for the Board of Appeals, reviews, public markets, used car dealers, second hand dealers, beano, junk dealers, amusement, and massage establishments.

The division's expenditure budget has increased by \$97,837 or 16.3%, which includes the addition of the Deputy Director of Inspections position, technology equipment, and the code enforcement vehicle lease.

Revenues have increased by \$255,405 or 15.8%; Building Permits and other division Non-Business Licenses account for the vast majority of this increase.

Planning

The division of Planning provides development review services for site plan, subdivision, historic preservation, D.E.P. site location and rezoning requests. Planning also provides comprehensive and long range planning services. These services include: the Bayside Brownfield Plan, neighborhood planning with a focus on Nasson's Corner / Brighton Avenue, Transportation Planning and Implementation, Open Space Plan and implementation of general and specific master plans, Historic District Boundaries Planning, the Arts and Culture Plan, and the Downtown Plan implementation (with a focus on streetscape improvements, Congress Street lighting, and Old Port lighting). Finally, the division is responsible for the preparation of the Capital Improvements Program, Congress Square Park project, the Shoreway Access and Portland Trails projects, and other urban design initiatives.

The Planning division's expenditure budget has decreased by \$61,735, or 7.0%. The FY15 decrease is due to the FY14 budget inclusion of the State Street and High Street two-way traffic study, offset by payroll increases, including the transfer of the Bicycle / Pedestrian Program Coordinator position from the Department of Public Services Transportation Operations. Planning revenues have remained flat.

Housing & Community Development

Housing and Community Development is responsible for administering all of the City-assisted housing rehabilitation loan and grant programs, as well as homeownership efforts. Housing-related planning activities are also carried out by this division.

This portion of the Housing and Community Development budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, and Housing Development Fund (program income from CDBG loan paybacks). Therefore, any increase or decrease in the budget has no impact on the tax levy.

Information Technology

The Information Technology Department (IT) is responsible for the design, development and maintenance of a large, wide-area information network, managing all the technology hardware and software used by the City of Portland. The department is divided in four sections of expertise: Applications, Technical Services, Operations, and Geographic Information Systems (GIS).

The Applications support team develops software for specialized needs, and supports the software purchased by the City. The Technical Services team manages data and voice networks, including the Help Desk, which support our workforce of more than 1,000 technology users. The Operations team monitors and maintains AS400 systems for Public Administration and Public Safety, installing quarterly updates and semi-annual updates for applications. The Geographic Information Systems section maintains and updates the computerized mapping systems used by Public Administration and Public Safety. Additionally, this division is responsible for preserving the infrastructure that supports a combined Public Safety Answering Services (PSAP) for Portland, South Portland and Cape Elizabeth.

The department's expenditure budget has increased by \$34,192, or 1.63%. The Revenues received represent the reimbursement of costs and services provided to the Enterprise Funds and the PSAP, and have slightly decreased by \$1,978, or .9%.

Notes:

(1) Title Change from MIS Director during FY14

Public Services

The Public Services Director oversees the operations of thirteen (13) divisions within the General Fund, as well as the Street Openings and Sewer funds. The Director has an Assistant Director, five (5) Division Managers and an administrative support staff that provide day to day supervision for these functions. The Department is responsible for basic municipal services; wastewater - stormwater utilities, public infrastructure management, maintenance and development, citywide fleet management, and development and implementation of capital improvement plans. Department staff supports several city committees including the Transportation Sustainability and Energy Committee, Parks Commission, and Land Bank Commission, and is staffing a task force on funding for stormwater program obligations.

General Fund expenses decreased by \$585,456 or 3.5%, mainly due to savings in the Solid Waste division as a result of the elimination of the ecomaine assessment and the FY14 budgetary inclusion of the Recycling Cart Pilot Program. Revenues have increased \$104,503, or 2.1%, attributed to the chargebacks to the Enterprise Funds and School Department.

Public Services Administration

The Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of street-sidewalk and special events permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

Expenses increased by \$43,607, or 6.3%, mostly due to payroll cost increases, which includes the addition of a half-time Events Assistant position. Revenues are up slightly by \$1,913, or 1.3%.

Cemeteries

Cemetery Operations is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. In addition to the care of grounds, the division is responsible for interments and disinterments, lot sales and other funeral-related services. The Cemetery crew maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Wilde Memorial Chapel, on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

Expenses decreased by \$3,589 or .6%, mainly due to a reduction in contractual services work. Revenues decreased \$32,418, or 7.5%, primarily due to the estimated decrease in Perpetual Care Interest Income.

Forestry and Horticulture

The Forestry and Horticulture Section is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance trimming is done as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs that are blocking streets. The successful Community Garden program is run through this division, with over 270 plots in eight gardens. Forestry personnel respond to weather emergencies year round, and are assigned to winter operations.

The division actively seeks grant money from the State to increase the number of city trees planted each year. Forestry and Horticulture also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees in the City. Annual CDBG funds are sought to support tree replacements within eligible downtown and peninsula zones. The division helps to maintain the City's status as a "Tree City USA".

Expenses increased by \$68,301 or 11.6% mainly due to increased services provided to the School Department.

Districting

The Districting division is a national award winning multi-tasking Public Service maintenance program comprised of five working crews. They are responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, parks and grounds maintenance, including winter sidewalk snow removal operations.

Parks maintenance includes the year-round care of community and neighborhood parks and open spaces. Over 100 individual parks and open spaces are cared for. Districting also continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. The division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. In addition, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

The Districting expense budget increased by \$68,262, or 3.5%, mainly due to the addition of the new Park Ranger position and increased supply costs. Revenues have decreased \$46,605, or 13.4%, primarily due to the division's lower anticipated school revenue chargebacks.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, reducing the recycling fleet from six to three trucks. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces.

City property owners may dispose up to ten bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, non-freon appliances, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card. Not counted toward the ten item limit, residents also may bring in universal waste such as TV's, computer monitors, fluorescent tubes, batteries, and thermostats.

The Bulky Item Pick-up program was implemented in May of 2012. Residents must apply online and request stickers to attach to their approved items for disposal. Small items, less than 30 pounds, which will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for items over 30 pounds.

Expenses decreased by \$969,248 or 24.7% mainly due to the elimination of the ecomaine assessment, the elimination of the FY14 budgeted Recycling Cart Pilot Program, and an anticipated transfer station ton credit. Expenditures for the year also include a trash and recycling study.

Revenues have increased \$52,132, or 2.5%, largely due to increased School Department reimbursements and anticipated sales of recycling carts.

Communications

The Communications Section encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This Section is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and Medcu) of emergency situations occurring on the streets of Portland as reported by any Public Services employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

Expenses increased by \$5,548 or 3.9%, mainly due the centralized budgeting of personal protective equipment.

Construction

The Construction Company has been involved in a myriad of projects including sidewalk and handicap ramp construction, sewer culvert and trench work, sewer maintenance support, winter operations, playground and track construction, traffic calming installation, relocation of City property, building repairs, and special assistance with Island Service needs. This Section is an important resource with its versatility and cost efficiency.

Expenses increased minimally by \$3,090, or 0.7%, mainly due to increased payroll expenditures.

Transportation Operations

The Transportation Operations Division operates and maintains traffic and pedestrian signal systems and most street lighting. All electric utility costs for these systems are borne by this budget. The division also designs and makes its own signage throughout the City and is responsible for the installation and maintenance of all traffic control signage and road markings, including crosswalks and bike lanes. Traffic markings are installed by a contractor and supervised by staff from this Section. In addition, traffic calming, road closures, and detour requests are processed by this division, as well as transportation studies and pedestrian counts. The Transportation Operations Division supports the Planning Department's development process by providing comprehensive review of parking strategies and traffic impacts for incoming site plan and subdivision applications. The division works with MaineDOT on safety improvement projects and purchases of safety devices. The City also participates in a PACTS supported Regional Traffic Management System (RTMS), which is tasked with long term regional goals of traffic signal specifications and communications.

Expenses increased by \$1,614, or 0.1%. Changes include the transfer out of the Bicycle / Pedestrian Program Coordinator to the Planning division, anticipated decreases in street lighting costs, increases in pavement marking expenditures, and updated parking restriction signage.

Revenues increased \$23,851, or 10.9%, due to the combination of the elimination of the Street Occupancy fines incorporated in the FY14 budget and the FY15 expense offset related to the parking restriction signage.

Notes:

(1) (1) Position Transferred to Planning (100-2404) in FY15

Engineering

The Engineering division is of a team of professional and technical staff who provide a variety of civil and construction engineering services for the City. This team develops, designs, seeks (alternative) funding for, administers, and constructs transportation and some environmental infrastructure projects in addition to managing a variety of compliance programs and customer support services. Additional tasks include record-keeping, mapping, and reviewing and inspecting private development. Capital projects focus on roadway, sidewalk, traffic, bicycle network, trail systems, stormwater, and sewer systems.

Expenses increased by \$8,024 or 1.1%, mainly due to a combination of general wage salary increases and a reduction in architectural and engineering services. Revenues have increased \$25,473, or 3.2%, due to salary reimbursements and increased Local Road Assistance Program (LRAP) funding.

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Services workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public.

Expenses increased by \$98,639, or 9.9%, in salary, equipment rental, and supply lines to better reflect winter spending activity. The revenue collections primarily represent chargebacks for plowing and snow removal of school properties and walking routes.

Fleet Services

The Fleet Services division purchases, repairs, and rebuilds the City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, Administration, Public Services, Recreation and Facilities Management, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee and maintains the vehicle replacement program Citywide.

Fleet Services is also responsible for the 82 Hanover Street building, which houses the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments, with two certified fabricators.

Expenses increased by \$69,320 or 1.8%, mainly due to a combination of payroll and vehicle fleet operational costs. The revenues decreased \$30,659, or \$6.7%, and represent reimbursements primarily from enterprise funds, the schools and outside agencies.

Island Services

Island Services is responsible for all Public Services functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. Island Services also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

Expenses increased by \$8,227 or 1.5%, mainly due to supplies.

Recreation & Facilities Management

The Recreation and Facilities Management Department consists of three major divisions: Facilities Management, Recreation, and Building Maintenance. The Facilities Management is responsible for scheduling and management of Merrill Auditorium, Hadlock Stadium, Portland Exposition Building, Ocean Gateway, and Maine State Pier. Recreation manages special events at various city parks and administers a variety of youth, adult, and senior recreation and aquatic programs. Lastly, the Building Maintenance responsibilities include the maintenance, repair and renovation of a variety of City and School buildings.

Expenditures and revenues have increased \$902,851 and \$1,070,591 respectively. The most notable increase relates to the transfer of the Golf Course restaurant from the Barron Center division, accounting for \$418,887 of both the expenditure and revenue increase.

Recreation & Facilities Administration

The Recreation and Facilities Management's Administrative division serves a large and extremely diverse department. Serving all three major sections, Facilities Management, Recreation and Building Maintenance, the Administration division oversees the numerous activities and challenges that transpire within the department. Functions include providing general administrative support, involving much of the centralized accounting and payroll duties.

The expenditure increase of \$15,641, or 5.6%, is attributed primarily to salary increases.

Ice Arena

The City-owned Portland Ice Arena, located next to the Portland Expo and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice skating lessons are offered as well. The City also operates the Ice Arena concession operation.

The majority of the expenditure increase of \$17,584, or 3.4%, is a result a new water heater purchase. Revenues are estimated to increase \$11,365, or 2.0%, primarily due to new leased space income.

Exposition Building

This division includes all the expenses for maintaining and managing the Portland Exposition Building. Numerous events are held each year at this facility by profit and non-profit organizers, including many school related sport activities. The Portland Expo is also home to the Maine Red Claws, a NBA development league, which began playing in FY2010, or the 2009-2010 season.

Expenditures have increased in various line categories \$20,560, or 5.4%. Revenues have decreased \$17,300, or 5.5%, due to decreases in rental income.

Waterfront Maintenance

Waterfront Maintenance is responsible for the repair, maintenance, and operations of city-owned waterfront property which includes the Portland Ocean Terminal, Maine State Pier and Ocean Gateway.

Portland's 2013 cruise ship season comprised of fifty-nine ships carrying over 70,000 passengers. Seventy-three ships, thirty-five of which carry over 1,000 passengers, are currently scheduled for the summer / fall of FY15 with an expected 74,500+ visitors.

The Port Facilities Security Officer position is responsible for day-to-day operational security in the Port and acts as a liaison between the Police Department, Homeland Security, Jetport, Coast Guard, U.S. Customs, Harbor Master, Maine Emergency Management Agency (MEMA), and the Fire Department on port security issues.

The expense increase of \$65,498, or 10.0%, is due primarily to the projected increase in utility expense, also a revenue offset, and additional maintenance and repair costs. Revenues are anticipated to increase \$290,893, or 21.6%, due to the 2014 season return of ferry service to Nova Scotia, anticipated additional leased space income, and the projected increase in the number of cruise ship passengers.

Public Assembly Facility

The Public Assembly Facility (PAF) division handles the general management, marketing, booking, event coordination, and other miscellaneous staff and operational needs of the Facilities Management division functions of the department.

Expenditures have increased by \$39,377, or 6.1%, attributed to increased payroll costs, including minor staffing changes. Revenues are up \$134,300 due to the shift of event income, transferred from the Waterfront division in FY15.

Recreation

The Recreation division provides a wide range of programming / leagues and clinics for all age groups in the City, and operates community centers in the Riverton, Reiche, East End, the Cummings Center and Peaks Island. The Recreation division offers before-and-after school programs as well as summer camp programs for children in grades K-7 in all mainland elementary schools. This division also offers an extensive program for Senior Adults.

For the fifth year, the July 4th fireworks display will continue due to the generous donations and support of the community and local businesses.

Expenditures are up \$38,713, or 2.5%, primarily due to increased payroll costs, including staffing changes, and increases in the contractual services lines. Revenues are projected to increase \$66,296, or 5.3%, largely due to the income increase in the Before and After School Program.

Aquatics

The Aquatics division operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. The division offers swimming lessons and aquatic programming for all ages including an Adult Master's Program.

FY15 expenditures rose \$10,505, or 2.7%, mainly due to payroll cost increases. Revenues are projected to increase \$16,833 or 5.8%.

Therapeutic Recreation

Therapeutic Recreation, previously a contracted service expense under the Recreation division prior to FY14, is now an in-house service comprised of three and one-half City positions.

Revenues are received mostly from nearby communities and school districts, with anticipated revenues to offset expenses by approximately 76%.

Riverside Golf Course

The City-owned Riverside Golf Course offers 27 holes, the 18-hole North course and the 9-hole South course. Amenities include lessons and clinics which are managed by the Golf-Pro, and a Pro Shop. Riverside is also home to several popular golf tournament events each year. The First Tee 3-hole junior course is a program whereby introducing and cultivating young people in the game and etiquette of golf. The First Tee is also available as a practice facility with a separate membership fee.

The latest CIP improvements include a new South Course clubhouse, which opened in July of 2013, and the more recent renovations to the main clubhouse.

Formally an Enterprise Fund, the Golf Course moved to the General Fund in FY14. FY15 Expenditures raised \$89,542, or 12.9%, which represents an increase of goods sold in the pro-shop, an update to the irrigation system software, and an increase in payroll expense. Revenues also rose, mostly attributed to the projected increases in Pro Shop sales.

Golf Course Restaurant

The new Riverside Municipal Golf Course restaurant, The Riverside Grill, opened its doors this past May. The new restaurant is currently managed in-house by the Recreation and Facilities Department and is operated by new and very experienced chefs. The restaurant serves both lunch and dinner in the newly renovated quarters, with supplementary outdoor seating overlooking the greens.

Formerly run by the Barron Center Food Service staff, the restaurant transferred to the Recreation and Facilities Department in the spring of 2014. Formally an Enterprise Fund, the Golf Course also transferred to the General Fund at the start of FY14.

The FY15 revenues and expenditures net to zero. For comparative purposes, not displayed below, budgeted expenditures increased \$212,325 over FY14, while revenues have a projected increase of \$238,157.

Public Health

Public Health, a division of the Health and Human Services Department, is the State's most comprehensive municipal public health organization. Approximately 80% of the expense budget is supported by service revenue and Federal, State and private grants.

FY15 expenditures and revenues have decreased \$1,136,064 and \$1,225,539 respectively, predominantly due to the phase out of the Health Care for the Homeless division, a grant funded program which was awarded to another agency in January of 2014.

Family Health

Family Health serves parents of young children through Maternal and Child Health (MCH) Home Visiting and students in four schools with School-Based Health Centers. More than 700 individuals are served through home visits, over 2,000 encounters in MCH group activities, and 900-plus students in four student health centers. The Children's Oral Health program provides oral health screening, education and sealants at all Portland elementary schools. Family Health also includes the federally-funded Defending Childhood initiative, which provides training, public awareness, and treatment to prevent and address children's exposure to violence.

Chronic Disease Prevention

The Chronic Disease Prevention Program implements evidenced-based community health interventions designed to improve the health of those who live, work and learn in Portland. The health issues addressed include tobacco, smoke-free living, physical activity, healthy eating, lead poisoning prevention and substance abuse prevention.

Health Care for the Homeless

For more than 20 years, the City has provided health care services for adults and teens experiencing homelessness in Portland. The Health Care for the Homeless Program (HCH) grew to become an integrated, interdisciplinary care environment that included a wide range of medical, dental, mental health, substance abuse treatment, and supportive services specifically modified to meet the needs of the more than 1,600 homeless individuals served in 2013.

Effective January 1, 2014, the federal Health Care for the Homeless grant was awarded to another agency and the City's HCH program will close by the end of the first half of FY2015. The medical program is scheduled to close before the start of FY2015. The dental and behavioral health programs will close no later than the end of November 2014. In addition to dental and behavioral health services, HCH staff will provide outreach and patient transfer services through the end of calendar year 2014. Outreach and transfer efforts will be focused on transitioning as many HCH patients to other health care providers as possible in an effort to minimize the impact of the City's program ending.

India Street Clinic

Through the continual acquisition of new grants, the Infectious Disease budget supports over 5,000 residents. Programs and services include adult immunization and TB testing, and several sexually transmitted disease programs that provide testing, counseling, case management, prevention and education. Positive Health Care creates access and services for individuals living with HIV. HIV and Hepatitis prevention services include a Needle Exchange Program. In addition, the Portland Community Free Clinic is a collaboration of volunteers and the City's Health and Human Services (HHS) Public Health Division, providing comprehensive primary medical care and referral services for over 600 low-income adults lacking medical insurance and a medical provider.

Environmental Health & Safety

The Environmental Health & Safety program inspects food service establishments and prepares response efforts in the event of a biological public health crisis. Beginning in FY12, the Environmental Health & Safety program assumed responsibilities for food service establishment inspections. The risk of foodborne illness from food service establishments is decreased through the education of restaurant personnel and the enforcement of state laws and city ordinances by Health Inspectors. This program is partially funded by the U.S. Centers for Disease Control and Prevention's Public Health Preparedness and Response for Bioterrorism Cooperative Grant, distributed at the state level to the Maine Center for Disease Control and Prevention and then onto the City of Portland. This funding supports the planning and response for biological public health hazards in Southern Maine through the Cities Readiness Initiative.

Health Equity & Research

The Health Equity and Research Program supports the Public Health Division with health services to minority populations, health assessments, and evaluation efforts. Specific activities include outreach to racial and ethnic minority groups, data analysis, and quality improvements initiatives. Health Equity and Research also manages the Cumberland District Public Health Council and publishes the Annual Report.

Social Services

The Social Services Division provides both financial assistance and support services for low-income Portland residents. Its purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Programs operated include General Assistance, homeless shelters for individuals and families, Refugee Services, Case Management and Representative Payee Services.

The City funds approximately 19.2% of this division's budget. The remaining 80.8% of expenditures is funded through federal and state grants. The FY15 budget illustrates an increase in demand for public assistance and an increase use in homeless shelters. FY15 expenditures are up over the previous year's budget by \$1,266,026 or 10.5%. Revenues have also increased by \$1,090,194, or 11.3%; FY15 revenue projections reflect an increase in General Assistance reimbursement from the State Department of Health and Human Services. Housing & Support Services is a new division in FY15, and incorporates programs previously included in the Administration and Shelter divisions.

Social Services Administration

The administrative unit is responsible for overall management of division programs. Administrative services include grant management, data/statistical analysis, payroll and human resources, accounts payable, receivables and other operational costs.

In FY15, programs previously incorporated in this division, transferred to the new division entitled Housing & Support Services; these programs include case management, representative payee and veteran's family services.

Social Services General Assistance

State law requires municipalities to administer General Assistance (GA) which provides for immediate aid to individuals who meet eligibility requirements and are unable to provide basic necessities essential to maintaining themselves or their families. Maine laws state that municipalities have the responsibility to provide financial assistance to all eligible residents of their municipality, as well as non-residents who intend to reside in the municipality and have no other residence. GA provides basic needs in the areas of shelter, housing costs, utilities, food, medication, disposable diapers and hygiene items. All assistance authorized is issued in vouchers and no cash is provided. The GA program processes an average of 1,400 applications per month and provides assistance to 4,300 individuals per year (unduplicated number).

Social Services Shelters

The Social Services Division operates the Oxford Street Shelter & Community Overflow Shelter for adults and the Family Shelter. These shelters provide safe, temporary housing for homeless adults and families. Services provided include assistance with housing location, case management and crisis intervention. The Oxford Street Shelter has a capacity of 154 beds and also operates off-site Community Overflow Shelters at the Preble Street Resource Center and the General Assistance waiting room. The Family Shelter has a capacity of 94 beds. Shelter services are provided to over 2,000 adults and 275 families each year.

In FY15, programs including Home To Stay, Tenant Based Rental Housing Assistance (TBRA), employment assistance and job training transferred to a new division, Housing and Support Services.

Refugee Services

The Refugee Services Program provides case management services and cultural skills training to secondary migrant refugees in Portland. Multi-lingual staff assists with short term crisis intervention and case work. Services provided include employment and job placement, housing location and life skills training. Refugee Services also operates the Services for Survivors of Torture Program which is funded through the federal office of Refugee Resettlement. This program provides clinical services, counseling and therapy for both refugees and asylum seekers who were victims of torture. The Refugee Services Program provides services to 1,000 individuals per year.

Housing & Support Services

The Housing and Support Services Division provides case management, employment assistance, representative payee services, veteran's services and housing assistance to homeless individuals in Portland. This Division also operates the Home To Stay program which is fully funded by a grant from the Maine State Housing Authority and the Tenant Based Rental Housing Assistance Program (TBRA). Home To Stay provides follow up case management services and housing subsidies to homeless individuals and families. The HUD Home funded TBRA program provides security deposits and first month rental assistance to homeless individuals and families.

The Housing and Support Services Division is a new division in FY15, incorporating programs previously housed in the Administration and Shelter divisions.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of nine divisions.

The Barron Center's expenditure budget, as shown below, increased \$94,988 or .6%. The Golf Course Restaurant division, brought into the General Fund from an Enterprise Fund in FY14, transferred to the Recreation & Facilities Management Department in FY15. For comparative purposes, the expenditure increase without the Golf Course Restaurant is \$301,550 or 2.0%; wages account for \$286,754 of this increase. Department overall revenues are anticipated to increase \$70,496 or .4%, or \$251,226, or 1.4%, excluding the Golf Course Restaurant.

Barron Center Administration

Administration is responsible for the overall operations and administration of the Barron Center's 266.2 budgeted positions. Finance is responsible for the financial operations, which includes budgeting, payroll, accounts payable, accounts receivable, financial reporting, and financial projections. Labor Relations handles all personnel related issues and assists in contract negotiations. Social Services coordinates all resident admissions and provides for the psychosocial needs of the residents and their families. The medical director is responsible for staff physician services to residents and consultation with the administrator and nursing.

The Administration budget's increase of \$52,861, or 3.0%, is mainly attributed to a wages, which includes the addition of a part-time receptionist in the business office.

Office of Elder Affairs

The Office of Elder Affairs serves Portland's seniors in two specific ways: 1) The Elder Advocate which provides information and referral services, short term case management, and advocacy services; 2) The Adult Day Health I & II programs provide day health services to the frail elderly and the chronically ill who live in the community.

The Office of Elder Affairs expense budget increased \$11,344, or 3.6%, mainly due to wage increases.

Therapeutic Recreation

Recreation Therapy provides a broad variety of individual and group recreational activities for all residents and also oversees the 150 member volunteer program.

The Recreation Therapy budget increased \$37,807 or 16.9%. Payroll expenditures account for \$36,907 of this increase, which includes the addition of one new recreation therapy aide position for the Dementia unit known as Barron Center II.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's 16.9 employees provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The Nursing Administration budget increased by \$32,224, or 2.9%, due to the increased wages costs.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit is located on the main floor of the facility, is a 25 bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36 bed unit located on the second floor. The majority of the patients on 2 North have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36 bed unit located on the second floor. The dementia residents on the 2 South unit (continuing care dementia) are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36 bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50 bed unit, managed as five 10 bed "neighborhoods" which provide Alzheimer related / type services. Residents of BC II are highly mobile and require unique staffing considerations.

The Nursing Direct Care budget consists only of wages, and has increased \$105,844 or 1.7%.

Nutrition and Supply

The Nutrition and Supply division consists of Resident Nutrition, Cafeteria / Catering, and Central Medical Supply. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, visitors, and operates The Clock Tower Cafe at City Hall. The catering services are for City functions, receptions, and celebrations. Central Medical Supply purchases, receives, stores and distributes routine medical supplies, over the counter drugs, and other supplies for several divisions.

Nutrition and Supply's budget increased \$37,875 or 1.2%. The expense increase is largely attributed to increased food supply expenses, wage costs, and an increase in paper product costs due to styrofoam being banned from use.

Environmental Services

The Environmental Services division consists of Buildings and Ground Maintenance. The Buildings and Ground Maintenance program is responsible for the physical plant, grounds, utilities, and safety on the twelve-acre Brighton Avenue health care campus.

The Environmental Services budget increased \$29,443 or 2.8%. This increase is primarily attributed to increased utility costs, as well as a variety of other line item changes.

Housekeeping

The goals and responsibilities of the Housekeeping staff are to provide a clean and appealing environment for all residents of the Barron Center.

The Housekeeping budget decreased \$14,302, or 2.3%. This is mostly attributed to savings in cleaning supply costs.

Laundry Services

The Laundry division provides a clean and adequate supply of laundry to the residents. Personal laundry services are provided to nearly all of the residents. Laundry services are also provided to the City's Oxford Street Shelter for men and various Public Health Facilities run by City of Portland.

The Laundry budget increased by \$8,454 or 1.8%. This increase consists of mostly wage cost increases.

Golf Course Restaurant

The new Riverside Municipal Golf Course restaurant, The Riverside Grill, opened its doors this past May. The new restaurant is currently managed in-house by the Recreation and Facilities Department and is operated by new and very experienced chefs. The restaurant serves both lunch and dinner in the newly renovated quarters, with supplementary outdoor seating overlooking the greens.

Formerly run by the Barron Center Food Service staff, the restaurant transferred to the Recreation and Facilities Department in the spring of 2014. Formally an Enterprise Fund, the Golf Course Restaurant transferred to the General Fund at the start of FY14.

Debt Service

The Debt Service account provides for the payment of the principal and interest on the City's outstanding General Obligation Bonds, as well as the cost for the current-year bond issuance. Revenue in this department is from bond costs, primarily for the enterprise funds and the School Department.

Library

The Portland Public Library is a general purpose library system that serves the Portland community by providing a diverse collection of books, media, programs, facilities, and electronic resources at four service locations along with access to resources nationwide. Its services encourage and support the educational, informational and recreational interests of all members of the community. As a regional library it shares its resources throughout Cumberland and York Counties. In addition, it participates in reciprocal service arrangements with other libraries nationwide.

The Portland Public Library is governed by a Board of Trustees which may include up to 21 members who may serve three-year staggered terms. The board currently consists of 16 trustees. As an independent and non-profit organization, the library is self-supporting through its own resources (endowment, fees, grants and annual fund) with additional grants from the City, Cumberland County, and the State of Maine. The City also owns the land and buildings in which the library operates.

In April of 2010, the Main Library, located on Congress Street and Monument Square, re-opened its doors upon completion of Phase I of its renovation project. The improvements include an enriched library atmosphere, featuring natural light and improved public space, with the goal to entice a broader spectrum of users to a more welcoming and contemporary library environment. Visitation, lending of materials, and use of resources have greatly increased as a result of the renovation. Phase II is still in the conceptual planning phase.

In FY12 the Library incorporated the findings of a comprehensive community survey for the implementation of the Portable Library concept in neighborhoods throughout the City. The Portable Library Program began in FY13, expanding services to all neighborhoods within the City.

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60, and Public Safety employees with 25 years of service. There is also a plan covering grandfathered Public Safety employees with 20 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, Group Life Insurance, Unemployment, and FICA. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

Health Insurance Program

The Health Insurance account provides funding for the City's self-insured health plan. The City picks up the full cost of medical coverage for all full-time employees as well as the family costs for grandfathered employees. For all remaining employees, the City picks up 81% of employee and child(ren) costs, 77% of employee and adult costs and 70% of family costs. Claim payments are made by a third party administrator.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. This account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. Claims are processed in-house through Maine Municipal Association's (MMA) property and casualty pool. In addition, the City purchases insurance policies to cover property and liability exposures that could possibly exceed the liability limits set forth in the Maine Tort Claims Act.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

County Tax

County tax is assessed to each municipality by the county in which it resides. Distribution of the tax burden is made on the basis of the valuation of a municipality as determined by the State Board of Equalization. Portland's share of Cumberland County tax has increased by \$211,619 or 4.4%.

Transit District (Metro)

The Transit District account provides subsidy support to the Greater Portland Transit District, better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves. In April 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members. The district is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities. The City of Portland's share of the local operating subsidy is approximately 82%. The Metro budget has increased by \$72,772 or 3.0%.

Regional Transportation

The Regional Transportation Program provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP has a contract with the cities of Portland, South Portland, and Westbrook, with the cost apportioned based on ridership.

The Regional Transportation budget has decreased by \$43,467 or 23.0%.

Memberships - Miscellaneous

The Memberships account provides for City membership in various professional and governmental organizations whose purpose is to provide services and information to the City. This year's budget includes funding for the Peaks Island Council, Greater Portland Council of Governments, the Maine Municipal Association, Community Television Network, HOME Team, Community Counseling for TIP Program, and the Board of Harbor Commissioners.

Wage Adjustment

The Wage Adjustment account provides a wage reserve, which may result from scheduled union contract negotiations or other personnel compensation agreements. The FY15 negative value represents primarily an adjustment to the COLAs (cost of living adjustment) calculated in the department wages at the time of the original budget request.

Capital

The Capital budget consolidates the normal operating annual capital expenses into one comprehensive budget, rather than incorporating these expenses in the individual department budgets. This presentational format, which began in FY12, is designed to better assess yearly changes on a budgetary level, and to serve as a useful tool in managing capital needs.

Street Openings

The Street Opening program and budget are governed by state law, and must be kept separate from the general fund. Each time one of the City's roads or sidewalks is excavated, the Street Opening program provides the services for permitting, inspection, and enforcement of the work. To fully fund the program, the City collects fees for services and to provide for the permanent restoration of excavations made by private contractors. The fee structure is based on the actual costs of administering the program.

In addition to administering and monitoring the excavations made by private contractors and utility companies, this fund also provides for some of the services required by state tort liability laws.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On July 1, 2014, the sewer user fee increased 5.5%, from \$8.35 to \$8.81 per hundred cubic feet. The City has been making improvements to its combined sewer overflows. The second tier of projects was completed in 2013, and 2014 begins the third tier of CSO projects, totaling over \$170 million over 15 years.

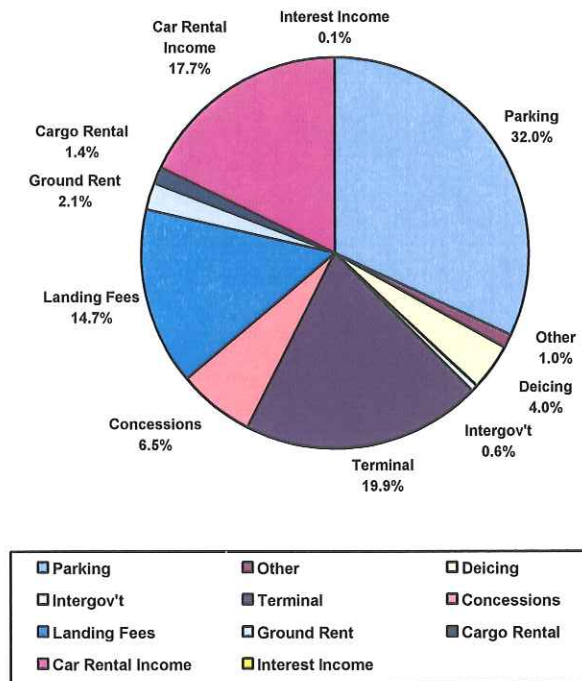

In FY15, approximately 77.2% is paid out for debt service and assessment fees to the Water District.

JETPORT

The Jetport is ranked by the Federal Aviation Administration as the 96th largest airport in the United States based on enplanements. In calendar year 2013, a total of 1,675,978 passengers flew into and out of the Jetport. The Jetport is served by Delta, JetBlue, Southwest Airlines, United Airlines and US Air, along with their regional partners.

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 33% of the Jetport's total FY15 revenue, with parking, rental cars, concessions ground rent, and miscellaneous revenue providing the other 67%.

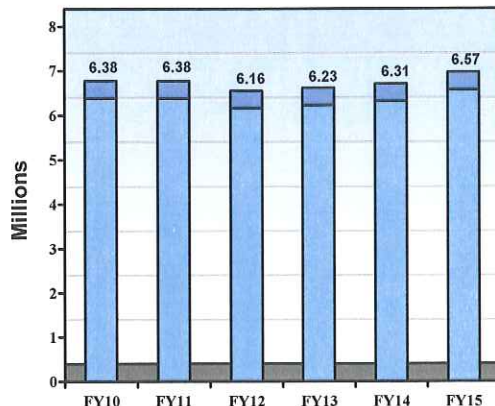

Jetport Revenues

Note: Due to rounding, totals may not equal 100%

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a commission to the Jetport based on gross sales. In FY15, car rental agency income is expected to draw 26% of the non-airline revenue. Parking, representing 48% of non-airline revenue, is contracted out to a private management company which pays the Jetport a monthly fee based on total net revenue earned.

Jetport Parking Division Income

Note: FY14 and FY15 are estimated amounts

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are three enterprise funds administered by three departments of the City. A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Department of Recreation and Facilities Management. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

JETPORT

The City of Portland's Department of Aviation and Transportation is responsible for the operation and maintenance of the Portland Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine. Passenger enplanements have increased from approximately 250,111 passengers annually in 1980 to 832,034 for calendar year 2013.

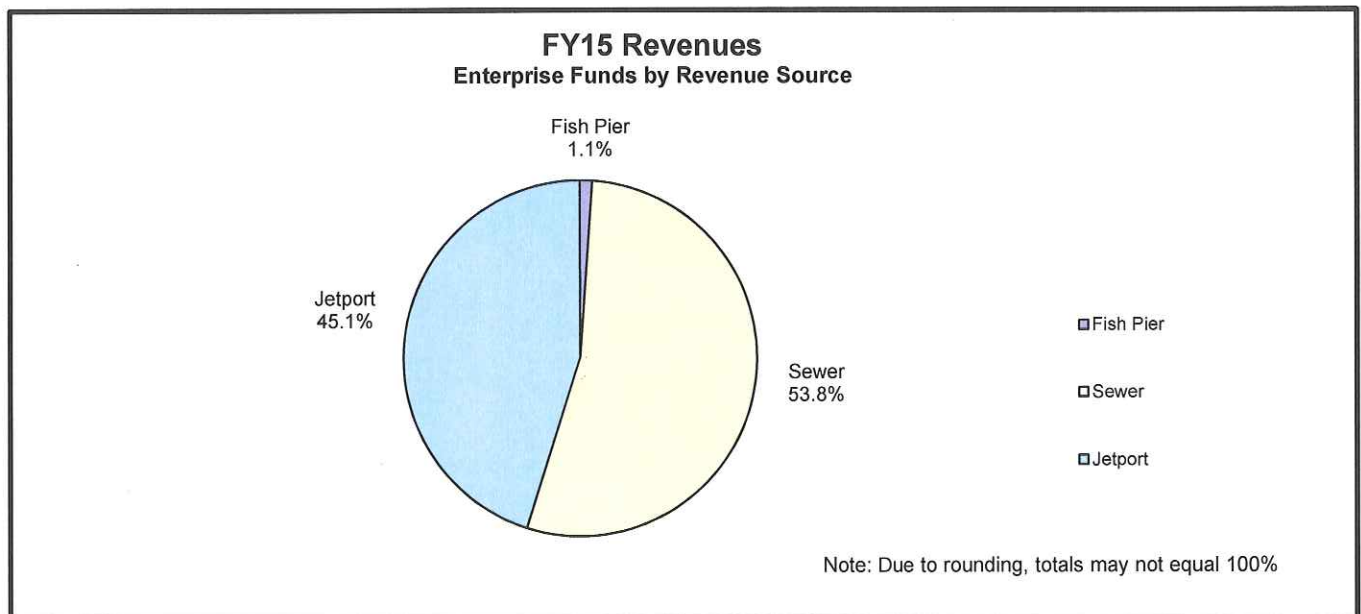

The Jetport completed a 165,000 square foot addition to the terminal building in October of 2011. The terminal expansion improvements include new ticketing areas, a skybridge connecting the parking garage to the terminal, additional airline gates, additional security screening lanes, an inline baggage handling system, and additional concession areas.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

Sewer Fund

The principal function of this fund is to account for the sewer services provided to City residents and business establishments. The Portland Water District (not a city department) owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly or quarterly fees, based upon water volume, to support the expenses of the fund.

Sewer Public Services Administration

The Sewer Administration division accounts for the associated costs incurred by the Department of Public Services administrative staff for sewer related activities.

Expenses increased by \$18,868 or 7.4%, predominantly due to the addition of an Asset and Information Management Specialist position, offset by reductions in supplies and capital outlay.

Sewer Districting

The Sewer Districting division is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance and sewer inspections and investigations.

Division expenses have decreased by \$184,378, or 11.7%, primarily as a result of the decline in capital outlay expenditures. Contractual service expenditures have increased rather significantly due to the addition of CMOM (Capacity Management, Operations & Maintenance) funding, which includes sewer line television inspection services, as well as monies for OSHA mandated confined space rescue.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for implementing the Combined Sewer Overflow (CSO) abatement program and industrial pretreatment program, both federally mandated by the Clean Water Act.

Expenses decreased slightly by \$3,034, or 0.3%, mainly due to reductions in capital and supply lines. Expenditure decreases are offset by increases in payroll costs and contractual increases related to aerial mapping and environmental investigations.

Stormwater Management

The Stormwater division represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. They perform street flushing, and clean up after special events (parades, New Year's celebration, etc.). Their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

Expenses decreased by \$725,086 or 29.7%, mainly due to the large reductions in contractual services and capital outlay. Decreases are somewhat offset by payroll and supply increases related to the FY15 modified sweeping program plan.

Jetport

The Portland International Jetport provides commercial air service to over a million and a half passengers a year and also provides a general aviation facility for private aircraft and an air cargo terminal. The Jetport is a dedicated fund, which means that all revenues generated remain with the airport to fund both normal airport operations as well as capital improvements. No tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is budgeted under Administrative Services as the anticipated surplus.

Since the completion of the expansion of the terminal building in FY12, the airport has focused on completing minor capital improvement projects and is beginning to work on a new Airport Master Plan, providing guidance through the next 10–20 years.

The Jetport's overall expenditure budget (excluding surplus) reflects an increase of \$638,665 or 3.4%. Revenues have also increased, by \$485,119, or 2.5%.

Jetport Administration

The Jetport's Administration division is responsible for the day-to-day management of the Jetport and planning future operations. Divisional services include payroll, accounts payable and accounts receivable, budgeting and human resources functions. The Administration division also manages taxi permitting for the City of Portland.

The Administration budget has increased by \$74,618 or 9.7%. The greater part of the increase is due to the inclusion of funds to prepare an updated Master Plan for the airport and a vehicle capital purchase.

Jetport Field

The Jetport Field division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft.

The budget has increased by \$384,992 or 15.3%. Budgetary increases include the addition of a new Operations Supervisor position and capital items, along with increases in utilities, airfield pavement markings, and runway snow removal.

Notes:

(1) 1 New Position Approved in FY15

General Aviation

The Jetport General Aviation division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. In FY11, the General Aviation division began collecting landing fee revenues from the smaller aircraft that use the General Aviation area similar to the ones charged to the commercial airlines. These revenues help lower costs for the commercial airlines that serve the Jetport.

The General Aviation budget has decreased by \$30,000, or 43.4%, due to the public aircraft viewing area paving expense included in the FY14 budget.

Jetport Fringe and Indirect Costs

The Jetport's Fringe and Indirect Costs division reimburses the City's General Fund for expenses incurred for their services, including Police and Fire employee benefits, general liability insurance, the Fire Department's cost of firefighting and EMS services, and chargebacks on City-provided services including Executive, Finance, Legal, Human Resources and Information Technology.

This division's expenditures have increased by \$88,285 or 2.8%, mostly due to increased pension and health insurance expenses, offset by a decrease in chargebacks / indirect costs of City-provided general fund department services.

Jetport Security Division

The Security division performs all administrative and operational activities related to security, including federally-mandated Jetport Security enhancements. The division maintains all security related equipment including cameras and monitors, computer equipment, and security doors and gates. This division is also responsible for processing employee background checks and issuing employee ID badges. The Communication Center provides communications and technical support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public. The costs of the police officers which serve at the Jetport are also paid from this division.

The Security division's budget has increased by \$15,578, or 0.9%, primarily due to the cost increase of payroll and maintaining the Jetport's security system, offset by decreases in the Police Department chargebacks.

Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including interior and exterior terminal cleaning and maintenance. The terminal division's Engineering section is responsible for the planning, design and management of major terminal improvements.

The Terminal division's budget has increased by \$293,250 or 6.3%. The FY15 budget includes the addition of a Laborer position to maintain the outbound baggage system, various increases in contractual services including terminal cleaning services, jet bridges and the baggage handling system maintenance costs, terminal roadway pavement markings, landscaping and external information technology support, and lastly, an increase in capital requests.

Jetport Surplus

The Jetport surplus is determined annually by calculating total revenues minus total expenses, including capital purchases.

The FY15 surplus has decreased by \$153,546 or 14.6%.

Division Summary

Jetport Parking Division

The Parking division oversees the parking maintenance of the Jetport's parking garage and surface lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

Expenditures have decreased by \$254,619 or 5.7% for FY15, attributable predominantly to decreased capital requests.

Airfield Deicing Facility

The Airfield Deicing Facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the expenditures incurred, thus creating a "net zero" impact on the Jetport's overall budget.

Expenditures for the Airfield Deicing Facility have increased by \$84,011 or 11.5% over FY14, mainly due to the increased contracted cost in running the facility, as well as projected electricity expense increases.

Key Revenues and Expenditures

Revenues

The Housing and Community Development Program or HCD is a special revenue fund that is supported by several federal and local funding sources.

- 1. Community Development Block Grant (CDBG) Program:** The Community Development Block Grant (CDBG) is funded by the federal government under the Housing and Community Development Act of 1974. For Program year 2014-2015 the City allocated \$2,209,577, which is comprised of \$1,815,577 in direct allocation from HCD, \$119,000 from program income, and \$275,000 from re-programmed funds. These funds are used to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.
- 2. Home Investment Partnership Program (HOME):** The HOME funds are available for a broad range of housing activities benefiting low and moderate income households. For 2014-2015, the City proposes to utilize \$913,178 of HOME funds and \$210,000 of Program Income for a HOME Consortium between the City (\$743,341) and County (\$379,837) for the development of new rental housing, single family and multi-family rehabilitation, tenant based rental assistance and assistance to special non-profit agencies called Community Housing Development Organizations (CHDOs) to develop affordable housing.
- 3. Emergency Solutions Grant Program (ESG):** The ESG funds can be used by the City to fund the rehabilitation, operation and support services of providers and facilities assisting Portland's homeless

population. The City proposes to use its 2014-2015 ESG entitlement allocation of \$150,336 to purchase supplies for the Homeless Health Clinic, and to provide case management and homeless prevention services through City Family Shelter programs administered by the Department of Health and Human Services.

- 4. Portland Development Fund:** Originally established in 1986, the goal of the Portland Development Fund is to respond to the need for 1) housing that is affordable to low and moderate income families, and 2) commercial and industrial development opportunities to further strengthen the local economy and generate jobs, particularly in downtown Portland.

Originally there was approximately \$1 million in the Portland Development Fund for both housing and economic development activities. Sources of funding include Urban Development Action Grant (UDAG) miscellaneous revenue, CDBG program income, CDBG entitlement allocations from previous years, and loan repayments and interest generated. In 1990 the fund was split into Housing, administered by the Housing & Community Development Division, and Economic Development, administered by the Economic Development Department.

The Housing portion of these funds is appropriated for several activities, including the development of new affordable rental housing, single and multi-family rehabilitation, and lead paint abatement. UDAG funds administered by the Economic Development Department, which is now approximately \$900,000, are used for loans and investments by the Portland Development Corporation.

Expenditures

The three expenditure categories utilized by the CDBG Program are: Social Services, Development Activity Funding, and Program Planning and Administration. A brief description of the services provided for the 2014-2015 fiscal year under each of these categories follows. A more comprehensive source of information on these programs can be found in the 2010-2015 Consolidated Housing or the 2014-2015 Annual Action Plan issued by the Department of Planning and Development.

SOCIAL SERVICES

1. Basic Needs Services includes Opportunity Alliance Heat and Food Program, and Preble Street: Day Shelter, Teen Shelter, Women's Shelter and Food Programs.
2. Safe Neighborhood programs include the Amistad Support and Recovery Center, Health and Human Service's Behavioral Health Program, the Police Department's Community Policing Program, and the Wayside Food Programs.
3. Work and Shop Programs include the Catherine Morrill Day Nursery / Youth and Family Outreach Child Care Aid Program.

DEVELOPMENT ACTIVITY FUNDING

1. Mobility and Accessibility projects include the Public Services Department's North Boyd Street Multiuse Trail, St. John / Valley Streetscape, and the Oxford / Elm Street Crossing.
2. Safe Neighborhood projects include Public Service's Big Belly Solar Waste Compactor Deployment, Milestone, Inc. Air Quality Improvement and Shelter Bathroom Renovation, and the Preble Street Resource Center & HCH Clinic Floor Replacement.
3. Work and Shop projects include the Living with Peace Microenterprise Program,

Learning Works Office Renovations at 181 Brackett Street, and the Portland the Food Co-op Grocery Store Job Creation Program.

PROGRAM PLANNING & ADMINISTRATION

The following are reimbursements to general operating accounts for program administration services:

1. The Department of Planning & Development provides Administration, Planning, Housing & Community Development, Historic Preservation, and Citizen Participation services which are reimbursable under the HCD guidelines.
2. The City receives reimbursement for a portion of the annual audit cost associated with auditing the HCD Program.
3. The City may receive reimbursement for a portion of the fringe benefits associated with the positions funded with HCD monies. However, the fringe benefit reimbursement along with all of the administrative costs must not exceed the 20% cap set by CDBG guidelines.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2015 School budget was approved by the voters May 13, 2014.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 76.3% of the FY15 Education budget.

State Subsidy

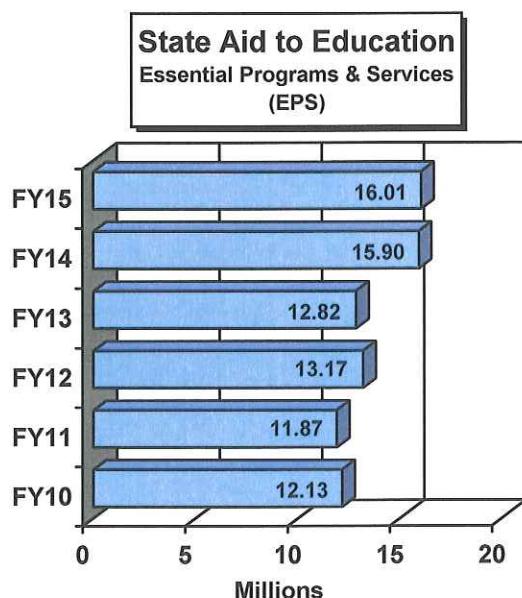

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The portion of State Aid for Essential Programs and Services (EPS) accounts for 15.8% of the School's FY15 Budget. The chart represents the State Aid to Education EPS revenue history over the past six years.

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Department of Education for the City be administered by a School Committee comprised of nine members. The School Committee performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into three categories: (1) Salaries and Benefits, (2) Services, Supplies and Other Costs, and (3) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Note: FY14 and FY15 are estimated amounts.

Budget Overview

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114 mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac Indian name meaning "shaped like a

great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cumberland County Civic Center. Two major medical centers, Maine Medical Center and Mercy Hospital, are also located in the City.

Budget Overview

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

Budget Overview

1. projected collection estimates for the current fiscal year with explanations for projections substantially different than estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion

of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department budget, under the new school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final

Budget Overview

justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self balancing accounts that comprise its assets, liabilities, reserves, fund equity/retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, recreation and facilities management, public services, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the

acquisition, construction or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds in FY15 are: Fish Pier, Sewer Fund and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

Budget Overview

All proprietary funds are accounted for on a flow of economic resources measurement focus.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Basis of Budgeting

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Activity: A segment of the account number that identifies the type and purpose of the account. The two activity classifications used in budgeting are: 300's - Revenues and 400 & 500's - Expenditures.

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The element classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The element classification for employee related costs such as health insurance, pension, FICA, unemployment, and tool allowance.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Glossary of Terms

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The element classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Client Expenses: The element classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The element classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The element classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Glossary of Terms

Element: A segment of the account number that distinguishes types of expenditures. The major classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance and Repairs, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, furniture and other equipment.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of/and guidelines for financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices as a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, recreation and facilities management, public services, health and human services, public library, county tax, metro, and debt service.

Glossary of Terms

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

HUD: The abbreviation for Housing and Urban Development.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

Insurance: The element classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category (salary, materials, telephone service, travel, etc.) separately, along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The element classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The element classification used for tangible property or equipment used for operations having a cost between \$5,000 and \$10,000 per single item.

Glossary of Terms

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Classification: A basis for distinguishing types of expenditures in conjunction with the element. The major expense classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Services, Contractual Services, Maintenance and Repair, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The element classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Payroll: The element classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Rental: The element classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Glossary of Terms

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The element classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The element classification which includes expenses for electricity, fuel, telephone, and water and sewer.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

Budget Highlights

**General Fund & Enterprise Funds
FY11 - FY16 Appropriations**

General Fund Expenditures

The 2015-2016 General Fund budget totals \$178,524,521, an increase of \$2,169,048 or 1.2% over the 2014-2015 budget. The major changes in the FY16 budget include:

City Wages	\$ 1,700,359
Benefits	\$ 949,263
Pension Bond	\$ 728,339
County Tax	\$ 270,866
Contingency Legal Services (GA)	\$ 250,000
Workers' Compensation Insurance	\$ 150,980
Stormwater Utility Charges	\$ 131,000
Electricity	\$ 102,410
Street Lighting	\$ 96,701
Library	\$ 89,798
Public Health EMR System	\$ 81,763
Lab & Medical	\$ (86,787)
Travel & Training	\$ (154,155)
Minor Equipment / Minor Capital	\$ (156,349)
Debt Interest & Principal	\$ (275,292)
Vehicle Fuel	\$ (353,930)
Social Services Client Expense	\$ (1,406,719)

Enterprise Funds Expenditures

The 2015-2016 Enterprise Funds budget totals \$46,512,005, an increase of \$1,589,782 or 3.5% over the 2014-2015 budget.

The Stormwater Fund, separating from the Sewer Fund in FY2016, has an expenditure budget of \$2,434,898. A start-up allocation of \$291,860 for this endeavor was approved mid-year FY15, resulting in a fund increase of \$2,143,038 in FY16.

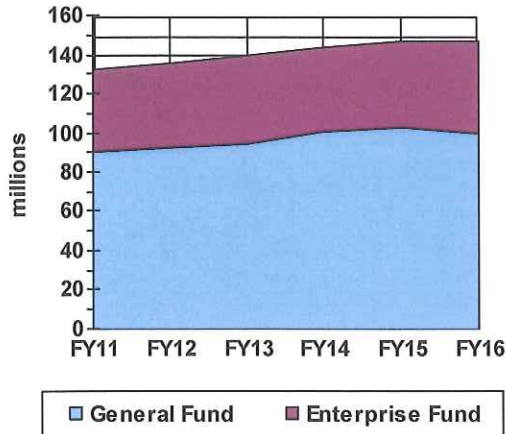

The Jetport expenditure budget increased \$959,251 or 5.0% (or \$590,066 or 2.9% including surplus). The more significant Jetport budgetary changes include the following:

Capital Outlay	\$ 436,429
Indirect Costs	\$ 185,911
Benefits	\$ 94,653
Wages	\$ 92,200
Utilities	\$ 65,438
Supplies All Other	\$ 63,641
Building Cleaning Services	\$ 54,207
Building Maintenance & Repair	\$ 43,143
Deicing Fluid Collection/Recycling/Operations	\$ (84,670)
Anticipated Surplus	\$ (369,185)

The Sewer Fund expenses decreased 5.0%, or \$1,201,772. These changes include:

Wages	\$ 279,288
PWD Assessment	\$ 193,371
Benefits	\$ 109,095
Indirect Costs	\$ 105,752
Contractual Services Misc.	\$ 86,175
Capital	\$ 78,004
Maintenance & Repair Other Equipment	\$ 49,500
Architecture & Engineering Services	\$ (37,000)
Debt Service	\$ (357,736)
Stormwater Division	\$ (1,713,446)

**General Fund & Enterprise Funds
Non-Tax Revenue Estimates
FY11-FY16**

General Fund Revenues

The 2015-2016 General Fund non-tax revenues are estimated at \$99,051,224, a decrease of \$3,384,070, or 3.3%, over the 2014-2015 budget. The significant revenue changes are comprised of the following:

Barron Center Patient Receipts	\$ 1,028,969
Debt Service Operating Transfers	\$ 657,722
Housing Safety Division	\$ 435,000
Recycling Program	\$ 423,521
Waterfront Charges for Services	\$ 347,320
Parking Garages & Lots	\$ 319,032
Social Services Grant Reimbursements	\$ 289,667
Sale of City Property	\$ 180,000
Rec. & Facilities Management Rentals (Tenant, Commercial & Non-Commercial)	\$ 165,320
Street Occupancy	\$ 160,165
Public Health Division	\$ 157,244
Excise Tax	\$ 143,500
Parking Meters	\$ 135,000
Cemetery Division	\$ 108,867
Interest & Penalties	\$ 107,117
Police Dispatch Cost Share Reimb.	\$ 67,700
MECA Reimbursement	\$ (103,563)
Fire Confined Space	\$ (124,900)
Local Road Assistance Program	\$ (135,500)
Fringe Benefits	\$ (140,816)

SS Medicaid State Reimbursement	\$ (164,488)
Riverside Recycling	\$ (183,970)
Building Permits	\$ (209,030)
Waterfront Rental Income	\$ (330,328)
SAFER Grant	\$ (466,075)
Emergency Medical Services (EMS)	\$ (495,215)
School Fund Debt Service Charges	\$ (1,126,456)
SS State Social Service (GA)	\$ (4,619,564)

Enterprise Funds Revenues

The Enterprise Funds 2015-2016 revenue estimates are \$47,429,855, an increase of \$2,729,474 or 6.1%.

The major changes in the revenue estimates include the following:

Stormwater User Fees	\$ 2,562,157
Sewer Stormwater Chargebacks	\$ 296,669
Jetport Landing Fees	\$ 275,151
Jetport Car Rental Commission	\$ 175,406
Jetport Terminal Rental	\$ 170,228
Sewer User Fees	\$ (726,622)

Housing & Community Development Program (HCD)

The final 2015-2016 HCD program totals \$1,905,564, a decrease of \$304,013, or 13.8% from the 2014-2015 program. The Entitlement Grant decreased 1.4% or \$24,513, and Program Income decreased 3.8% or \$4,500. The use of Surplus Funds decreased 100.0% or \$275,000.

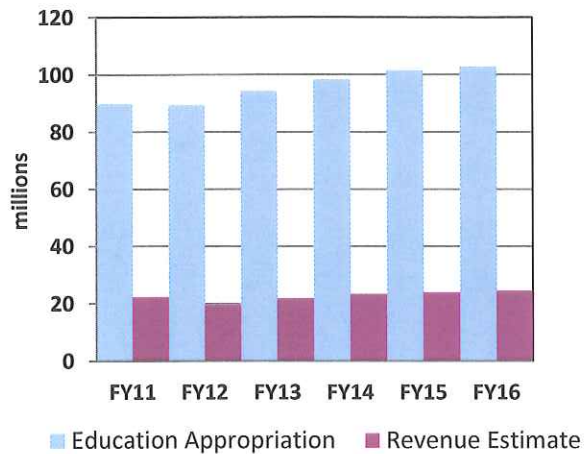

Education

The Education budget for 2015-2016 is \$102,776,657, an increase of \$1,183,988 or 1.2%. A brief summary of the changes in school expenditures include:

Salaries	\$ 1,239,743
Benefits	\$ 925,488

Employee Training & Dev. Services	\$ (68,464)
Electricity	\$ (89,314)
Copier Lease	\$ (100,000)
Tuition to Charter School	\$ (234,401)
Debt Service	\$ (501,475)

**Education Appropriations &
Non-Tax Revenue Estimates
FY11-FY16**

The total non-tax revenue estimate for Education is \$24,703,446, an increase of \$579,788 or 2.4%. A summary of the revenue changes are as follows:

State Subsidy - EPS	\$ 722,953
Use of Surplus	\$ 165,000
PATHS Part I & Part II Assessment	\$ 58,617
Tuition CTE Other Units	\$ 30,000
Federal Reimb. Telecom Service E-Rate	\$ 25,000
Tuition – State Agency Client	\$ (20,000)
Misc. Local Revenue	\$ (65,000)
MaineCare Medicaid Reimbursement	\$ (125,000)
Food Service Revenue	\$ (217,502)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, September and March.

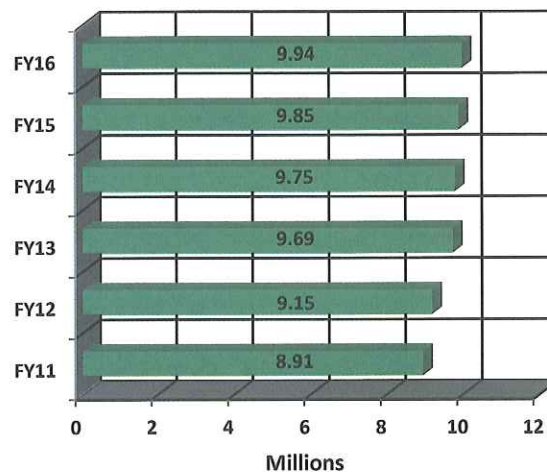

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The last property revaluation was phased in over two years: FY2006 and FY2007. The previous revaluation was done in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY15 and FY16 are estimated amounts.

Excise tax collections appear to be back on the rise after the low in FY11.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

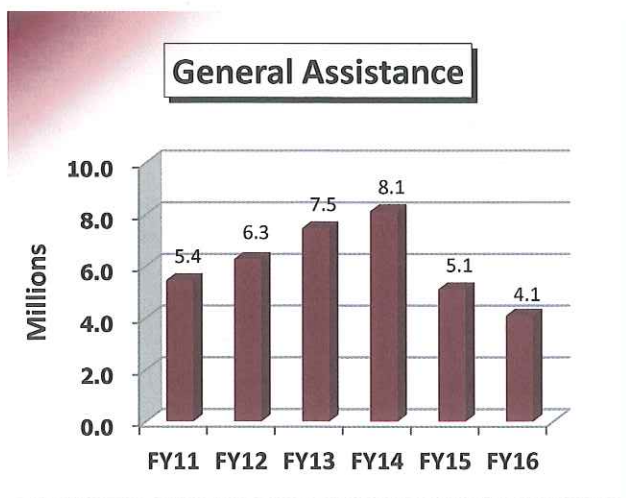

Note: FY15 and FY16 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, Business Licenses, and the Cable TV Franchise are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

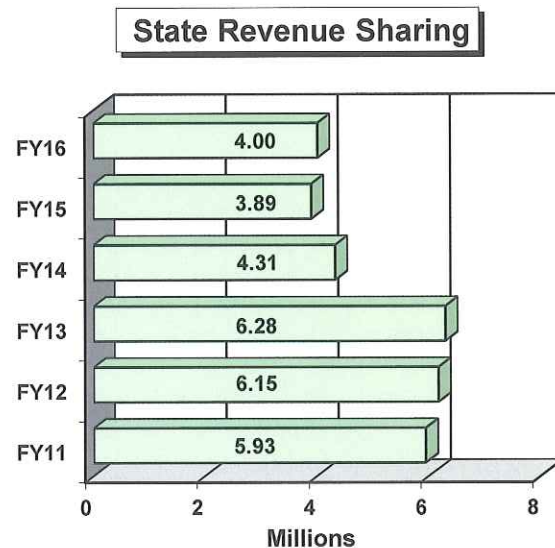

General Assistance (GA) reimbursement was by far the largest revenue in this category. In FY16, the State of Maine GA reimbursement rate changes from a tiered percentage reimbursement rate (50% / 90%) to a flat seventy percent (70.0%) reimbursement rate based on the City's eligible program expenditures. The city's lower than anticipated FY15 GA revenue collections and the FY16 revenue estimate reflect a recent change by the state in the GA reimbursement eligibility guidelines, excluding certain immigrants. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

Note: FY15 and FY16 are City estimated amounts.

An additional major source of revenue in this category is State Revenue Sharing.

Traditionally the State set aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing pool. The Revenue Sharing pool is then shared amongst 493 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

Note: FY15 and FY16 are City estimated amounts

Revenue Sharing I is based on the following formula:

$$\frac{\text{*population of town} \times \text{assessment (tax levy)}}{\text{state valuation for municipality}} = \text{the town's number}$$

All numbers are added together to come up with a statewide total. From the statewide total, each municipality is assigned a percentage of the total. The resulting percentage is then multiplied by the pool amount.

Rev-II distributions are based on this calculation:

a) $\text{assessment} / \text{state valuation} = \text{mil. rate}$

b) $(\text{mil. Rate} - .01) \times \text{population} = \text{the town's number}$

The State's FY16 budget, enacted June 30, 2015, temporarily reduces the Revenue Sharing distribution pool from 5.0% of all state sales, corporate, and personal income tax revenues to 2.0% for the next four years (FY2016 - FY2019). This reduction replaces the previous FY2014 and FY2015 reduction, which capped Revenue Sharing at \$62.5m.

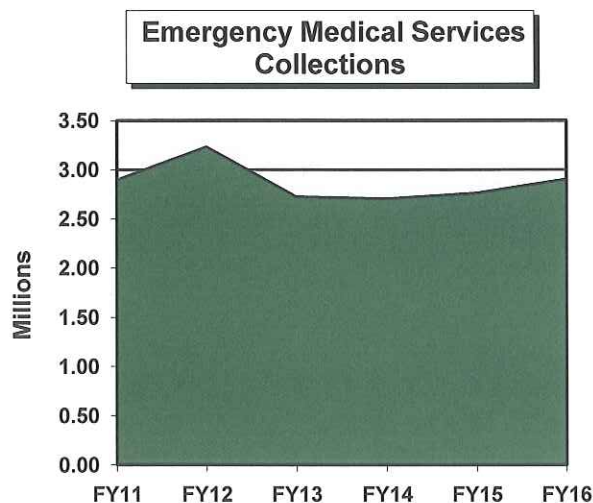

In FY2016, the State's Revenue Sharing projected share for Portland is 6.1%.

This category also includes the Local Road Assistance Program (LRAP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Major sources of revenue come from Patient Receipts (Barron Center), Cultural / Recreation Services, Emergency Medical Services (EMS), Health Insurance Reimbursements, and Recycling.

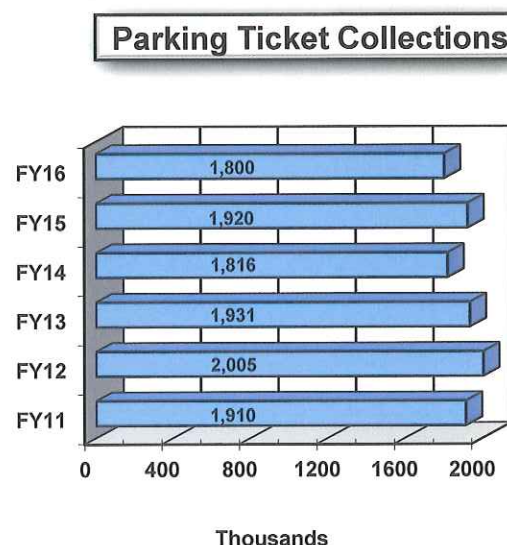

Note: FY15 and FY16 are estimated amounts.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

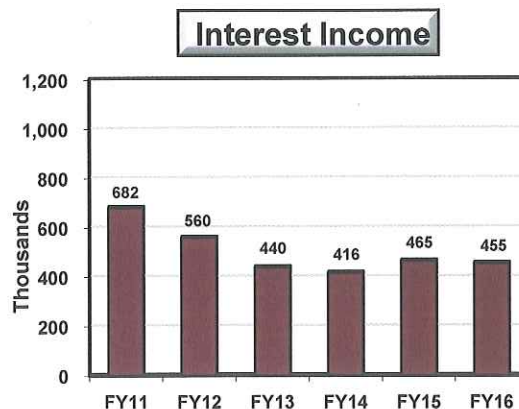

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties.

Note: FY15 and FY16 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, rental income, and interest earnings.

Note: FY15 and FY16 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, cemetery endowments, library, and School department are known as interfund charges. It also includes State Grants, Housing and Community Development Grants, Federal Grants and Other Agency Revenues.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, City Manager, Assessor, Finance, Legal, Human Resources, Parking, Economic Development, Planning, Information

Technology, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police and Fire / EMS operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to the most advanced investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment and economic slowdown.

Fire

The Fire Department provides for fire suppression, emergent medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Department is also responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system.

The department maintains ten fire stations and the Spring Street Fire Museum. A minimum

of Forty-six firefighters and paramedics staff each shift on 17 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, one air rescue unit, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

3. PUBLIC SERVICES

The Department of Public Services is responsible for providing many of the essential services, as well as some specialized community services, to City of Portland residents throughout the year. Public Services is responsible for the operations of the Riverside Recycling Facility under a contract arrangement, and has a comprehensive solid waste program which includes trash collection, residential curbside recycling services, and a fall leaf collection program. In FY12, a revamped version of the popular Heavy Item Pickup program (HIP) was restored. The Bulky Collection Program uses a fee based tag system, with residents paying a fee to have large bulky items hauled away from their properties. The Public Services department provides for the construction and maintenance of streets and sidewalks, the City's sewer collection and interceptor system, stormwater maintenance, and technical support for annual Capital Improvements, environmental program support, and survey / records. The department is also responsible for the removal of snow and ice from city streets and sidewalks, maintaining the Portland Downtown District, maintenance and repair of all City vehicles and equipment, traffic management which includes traffic control, traffic calming, and street lighting, as well as providing core public works services to four adjacent islands in Casco Bay.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Today Public Services is responsible for the day to day management and care of the parks and open spaces in the City. Serving people of all ages and

contributing to healthy lifestyles and leisure activities of the community, this department reaches out to many citizens and visitors through over 100 individual parks and 9.2 miles of trails. All of this encompasses a geographical area of over 1,200 acres. Public Services also maintains a wide variety of City trees as well as providing new plantings, and also manages two active cemeteries (Evergreen and Forest City) and several inactive cemeteries.

4. HEALTH AND HUMAN SERVICES

This department undertakes the planning and coordination of health and human service activities in Portland, often in collaboration with non-profit agencies and the state and federal government. The department consists of the following operational divisions: Public Health Division, Social Services Division, the Barron Center and the Office of Elder Affairs.

The majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants and reimbursement for direct services. The largest funding source for long-term care services at the Barron Center is MaineCare (Medicaid), followed by Medicare and private insurance.

The Office of Elder Affairs is focused on advocacy and non-institutional community based services.

5. RECREATION AND FACILITIES MANAGEMENT

This department is responsible for maintenance of all city and school buildings, including the school HVAC systems, and the waterfront properties. The department also oversees the marketing and events management at the Expo, Merrill Auditorium, Ocean Gateway, Hadlock Field, and Fitzpatrick Stadium.

Recreation offers a vast array of services and leisure activities including recreation programs, before and after school care, center for therapeutic recreation, pools, special events,

operations of the ice arena, golf course, and golf course restaurant, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 82.9% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services to the residents of each of its three participating communities. The Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members in April of 2009. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The District's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the District, fares and assessments of member communities.

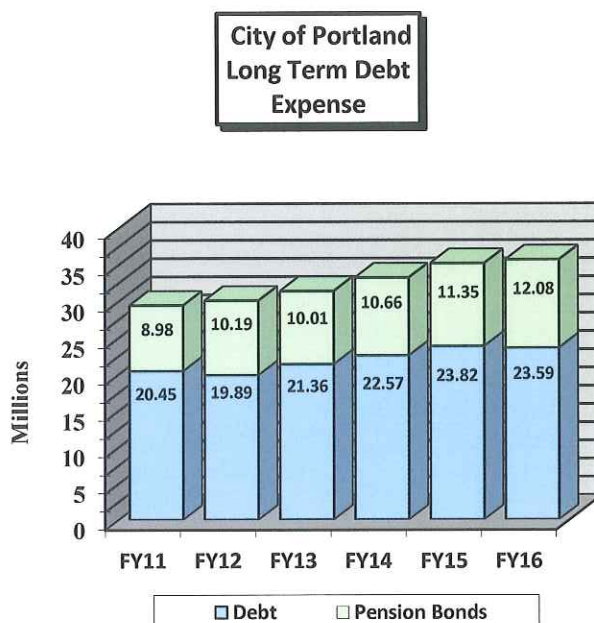

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the annual assessment is \$2,485,054 or 81.6%.

8. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is

determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2015, the City's equalized State Valuation of \$7,707,200,000 was 19.6% of the County's total equalized State Valuation of \$39.4 billion, resulting in a FY16 assessment to the City of Portland of \$5,240,009.

9. LONG TERM DEBT

Note: FY15 and FY16 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City budget. For fiscal year 2016, the gross debt budget is \$35,669,850, or 20.0% of the City's general fund budget; the School Department and Enterprise Funds reimburse the general fund \$12,549,319 of this expense. The FY16 net cost of debt service to the City general fund is \$21,938,037.

City Council

The City of Portland operates under a charter which was amended on November 02, 2010. In mid-FY12, the City elected a Mayor for a four year term. In addition to the Mayor, the City Council is comprised of five district Council members and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact, amend or repeal rules, ordinances and resolutions relating to the City's property, affairs and government, to preserve the public peace, health and safety, to establish personnel policies and authorize the issuance of debt. The council adopts an annual budget and provides for an annual audit. The Mayor has the authority to veto the annual budget, however the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops in order to more fully grasp the dimensions of urban problems.

The revenues received by this department are from Housing & Community Development (HCD) grant funds for a portion of the annual audit costs.

City Clerk

The Department of City Clerk has four major functions: Elections, Business Licenses, Vital Records, and City Records maintenance. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Principal Administrative Officer, the Clerk's Deputy, is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. Three elections are budgeted for FY16: the Nov. 2015 State & Municipal Election, the May 2016 School Budget Validation and the June 2016 Primary. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). This is a statewide system designed to standardize and centralize voter registration.

The Business License Administrator and an Assistant maintain and process over 2,000 licenses annually as required by the City Code. The Licensing Administrator provides license applications and coordinates all interdepartmental approvals pursuant to licensing ordinances.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio/video recordings of several boards and committees.

City Manager

This department consists of the City Manager and support staff. The FY16 budget also includes the creation of the Housing Safety division under this Department.

Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary for the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

City Manager Administration

The Administration division is responsible for the executive management of the City of Portland. Responsibilities include preparation and administration of council agendas and orders; coordination and administration of City departments, services, and programs; developing and enforcing administrative policies; handling of citizen inquiries and complaints, public relations and communication functions, affirmative action; neighborhood, waterfront, and island liaison efforts; local and state government liaison efforts; and preparation of the annual Capital Improvement Plan.

The Waterfront Coordinator position is funded through revenue from the Waterfront Tax Increment Financing District.

Housing Safety

Housing Safety is a new division of the City Manager's Office and is intended to be a cross-cutting division that coordinates inspection activities from multiple departments as it relates to rental housing safety. The purpose of the program is to inspect the approximately 17,000 rental units in the city for life safety issues. The budget for this division includes the creation of a new mandatory rental housing inspection program funded by the revenue collected from an annual registration fee on rental units. The program includes the creation of five new positions.

Assessor

The Department of the Assessor is responsible for the creation and maintenance of the tax roll. Additionally, it maintains records on over 1,300 exempt real estate accounts. The distribution of taxes is accomplished by assigning taxable assessed values to approximately 22,600 real estate accounts and 4,200 personal property accounts. Among the documents that must be accurately maintained by this department are real property records, property maps, ownership records, property sales information and personal property records. Computerization and web site development of department records and tasks continue as an enhancement to the assessment and data processing functions of this office.

Finance

The Department of Finance consists of Administration and Treasury. The Finance Director and two division managers oversee the efficient operations of these functions.

The FY16 division expenditures decreased \$34,594 or 2.0%. The revenues reflected have increased by \$190,283 or 3.6%. The revenue increases are due in part to higher anticipated collections related to Interest & Penalties and Sale of City Property.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for approximately 1,700 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

Treasury

The Treasury division is responsible for the collection of all monies into the City. This includes the collection of real estate taxes, personal property taxes, delinquent sewer user fees, and vehicle excise taxes and registration fees, as well as issuance of license plates. Treasury also collects parking ticket revenues and miscellaneous receivables, processes boat and utility trailer registrations, and issues island vehicle and golf cart registrations and Metro bus passes. All cash receipts for the City are processed in Treasury.

Residents may visit the Treasury Office in City hall for these services. There are also electronic options for residents:

(a) Treasury offers an electronic funds transfer (ACH) monthly debit from citizen accounts to conveniently pay taxes.

(b) Online options are available for residents to re-register vehicles through the State of Maine website <https://www1.maine.gov/online/bmv/rapid-renewal/>.

(c) Parking tickets can also be paid online through the website <http://www.informe.org/ppt/>.

The Treasury general fund expenditures decreased by \$40,391, or 5.9%, largely due to the elimination of a Cashier Clerk position. Non-tax revenue projections include an anticipated increase in Interest and Penalties.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys. One paralegal / insurance claims administrator and a paralegal / legal assistant provide support services to the legal staff.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability claims and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees and Boards.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Jetport, Fish Pier, and Sewer funds. The department also receives revenue for various ordinance code violations.

Human Resources

The Department of Human Resources provides many services to all City departments, including recruitment and hiring oversight, civil service program administration, labor relations, organizational development and education, employee health and benefits administration, and safety and risk management.

The Human Resources budget remains virtually flat in FY16, with the exception of the travel & training increase. In budget preparation to reduce costs, the FY16 travel & training lines were initially condensed and allocated to Human Resources; during the fiscal year, fiscal management of this reduced travel & training allocation is assigned back to the various departments. The revenues received by this department are from charge backs for the services provided by the Human Resources staff for the Sewer and Jetport funds.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City and administers the School Crossing Guide program. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,547 metered spaces throughout the City, 500 of which have been converted to multi space meters that accept credit cards. The City anticipates converting additional single space meters to multi space meters in the 2016 fiscal year.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

FY16 expenses are up 6.4%, primarily in Administration due to the contractual operational costs associated with the web meters, as well as Elm & Spring garage utility costs. The estimated FY16 revenues are up by \$373,700 or 5.6%, due to anticipated increases in garage and meter income.

Parking Administration

Parking Administration includes the management of on-street parking, the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

Expenses have increased \$92,893, or 7.9%, due largely to the cost of cell phone connection and credit card fees for the multi space meters and wage increases. The FY16 revenues have risen \$146,300, or 3.4%, primarily due to multi space parking meter projected increases.

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens. The Elm Street Garage participates in the Park & Shop program.

Expenses are up \$5,378 or 2.3%. Revenues are up \$44,240, or 11.0%, mostly due to increased number of monthly parkers.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Cross Arena and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Civic Center events. The garage also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens. The Spring Street garage participates in the Park & Shop and Park & Work programs.

Expenses are up 8.4%, due primarily to increased electricity cost. Revenues are up \$59,160, or 4.8%, due to the increased number of monthly parkers.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens. The Temple Street Garage participates in the Park & Shop program.

FY16 expenditures are relatively flat. FY16 revenues are expected to increase by \$124,000, or 16.1%, due to rate increases and increased parkers.

Economic Development

The Department of Economic Development is responsible for enhancing the economic growth of the City and is dedicated to fostering a vibrant and healthy economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city, and employment opportunities.

By leading a collaborative effort among agencies, both in advocacy and acting as a business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that economic development issues are addressed in a timely, thorough, and proactive manner.

The UNUM TIF and corresponding City's portion expired in FY15, thus resulting in the FY16 revenue decrease.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The Division specializes in providing specific programs which will assist in the recruitment and development of new and existing business and industry within the city.

The Portland Development Corporation budget is fully funded by the interest income from its business loan programs; the PDC relies on this income from its business loan program to cover its operating expenses. Expenses are offset 100% by program revenue; the FY15 revenue variance below reflects an overstatement of the FY15 revenue projection.

Police Department

The Police Department is comprised of six divisions: Administration, Jetport Security, Uniform Operations Group, Bureau of Investigative Services, Operations Support Services, and Dispatch Services.

Following a strategic plan created in 2010, the Police Department mission focuses on three distinct areas: Service Excellence, Community Engagement, and Resource Maximization. Every decision, plan, and contact made places emphasis on these three areas. All members of the Portland Police Department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department's expense increase of \$215,385, or 1.5%, is primarily due to increases in payroll expenses. This budget includes the addition of a Telecommunicator position due to the retirement of South Portland personnel related to the on-going consolidation with South Portland in the Portland Regional Communications Center (Dispatch Services), as well as the elimination of three positions: an Administrative Assistant, the Ordinance Enforcement Officer, and a Public Service Clerk.

The Jetport Security and grant reimbursements reductions, coupled with the increase in the Communications Center reimbursement, account for the majority of the 1.6% revenue decrease of \$37,104.

Police Administration

It is the responsibility of the Chief of Police to create policy and make resource management decisions for the Police Department's resources. The administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

Expenditures in this division have increased \$4,388, or 0.4%, while Revenues remain basically unchanged, increasing slightly by \$611 or 0.5%.

Notes:

(1) (1) Position Eliminated in FY16

Jetport Security

The sergeant assigned to the Jetport Security division serves as a direct liaison between the Police Department and the Jetport staff and administration.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoint during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

Expenditures in this division have increased \$8,315, or 1.6%, due to increases in payroll expenses. The cost for this division is entirely offset by revenues received by the Jetport; the FY15 revenue variance listed below reflects an overstatement of the FY15 revenue estimate.

Uniformed Operations Group

A Commander heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the repression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to assign a proportionate number of patrol officers to the high and low demand hours of the day and days of the week. It also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Senior Lead Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Senior Lead Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and their fellow officers to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to streamline efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority.

The Uniformed Operations Group also contains a Traffic Unit responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

Expenditures in this division have increased \$163,619, or 1.9%, primarily due to increases in payroll expenses. Revenues decreased \$21,981, or 2.6%; the final COPS Hiring Grant reimbursement, approved during FY10, was received in FY15.

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by the Assistant Chief and is comprised of the following sections: crimes against persons, crimes against property, and narcotics investigations. The division is responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the court officer, criminal process services, and the victim advocacy program.

Expenditures in this division have increased \$89,219, or 5.6%, due to increases in payroll expenses, including a position transfer from the Uniformed Operations Group. Revenues received include funding from the Maine Drug Enforcement Agency (MDEA) and the Police Victim Witness Advocate grant for salary reimbursement. FY16 revenues reflect an increase of \$6,492 or 4.1%.

Operation Support Services

The Operation Support Services Division is commanded by the Assistant Chief and is comprised of the following sections: computer crimes, forensics, property, training, and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

Expenditures in this division have decreased \$141,045, or 16.9%, primarily due to the temporary FY16 Travel & Training allocation to the Human Resources Department, and a decrease in payroll expenses due to the elimination of two positions, the Ordinance Enforcement Officer and a Public Service Clerk. Revenues have decreased minimally by \$1,324, or 2.6%.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services, supervised by the Emergency Communications Director. The PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate resources as well as providing field officers with automated information 24 hours a day.

In 2011, telecommunications completed a regional consolidation that allowed the dispatch center to dispatch police and fire calls for the towns of Cape Elizabeth and South Portland as well. This reorganization has allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

Expenditures in this division have increased \$90,889, or 4.5%, primarily due to the on-going transition / merger of personnel resulting from the consolidation with South Portland, as well as other payroll increases. Revenues have also increased \$67,700, or 13.5%, due to this establishment of the South Portland cost-sharing agreement.

Fire Department

The Fire Department consists of five divisions: Administration, Code Enforcement and Community Services, Field Operations, Jetport Air Rescue, and Operations Support Services. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall expenditure decrease is \$195,606 or 1.2%. This decrease is primarily due to the expiration of the SAFER grant, which expires October of 2015, as well as the temporary FY16 Travel & Training allocation to the Human Resources Department. In all, there is a reduction of 7.6 positions in this department.

The FY16 revenue decrease is \$1,088,321 or 19.7%. Significant revenue changes include a decrease in EMS and confined space revenue estimates, and the conclusion of staffing reimbursement through the SAFER grant.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

The Fire Administration budget increased by \$52,062, or 8.0%, primarily due to the position increase of the Assistant Fire Chief to full salaried status, approved and adopted in the FY15 Department Reorganization Plan. Division revenues increased \$5,230, or 5.1%.

Code Enforcement & Community Services

The Code Enforcement and Community Services division is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Additionally, the division reviews site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground & underground storage tanks and liquefied petroleum gas tanks.

The division administers the Fire Prevention Code, N.F.P.A 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. Code Enforcement and Community Services division also provides the management oversight of company level inspections of residential and commercial properties, totaling over 5,000 a year.

This division comprises the public information, education and community outreach initiatives, which includes the Portland High School Program, public education materials, and public information of current events affecting the citizens of Portland.

The Code Enforcement and Community Services division's budget increase of \$57,244, or 18.7%, is mainly attributed to the absorption of the Fire Alarm System Specialist position approved during FY15.

Field Operations

The Field Operations Division is responsible for providing emergency services including fire suppression, emergency medical care and transport, hazardous materials response, technical rescue response and any possible public emergency. The division supports fire and life safety programs through routine field safety inspections.

Field Operations provides emergency services for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay, including emergency medical transportation for the island residents, as well as training for the island call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. This division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations.

Additionally, the Field Operations Division is responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting. Responsibilities includes ensuring compliance with state mandated EMS, basic and advanced firefighting requirements, which involves overseeing the medical licenses of over 200 personnel. Field Operations provides advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR, to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit provides in-service training for all fire department members as well.

The Field Operations Division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. Despite the logistical difficulties of protecting the islands, the division effectively maintains and provides fire suppression and life safety with island volunteer call forces.

The Field Operations Division expenditure decrease is \$282,285, or 2.1%. The largest component of this decrease is due to the October 2015 conclusion of the SAFER grant, resulting in a reduction of 8.3 positions. The reduction in the Administrative Services essentially reflects the temporary allocation of Travel & Training to the Human Resources Department during the FY16 budget preparation process.

The revenue decrease of \$1,085,225, or 25.6%, is due to the loss of SAFER grant revenue, and the adjustment of EMS and confined space revenues.

Air Rescue Station

The Jetport Air Rescue Station Division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The Air Rescue Station expenditure decrease of \$7,076, or 0.6%, is a result of a reduction in maintenance and repairs costs, offset by FY16 salary increases.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Operation Support Services

The Operations Support Services Division encompasses Hydrants, Building Maintenance and Fire Alarm. The hydrant system is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment. Building maintenance provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors. The fire alarm section maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Center's core equipment.

The Operations Support Services expenditure decreased a total of \$15,551 or 1.4%. The divisional revenue is related to the receipts for the Fire Alarm Master Box Connections (see City Code Chapter 10, Section 102©).

Department of Planning & Development

The Department of Planning and Development consists of three major Divisions: Housing and Community Development (includes Administration and Rehabilitation), Inspections Services, and Planning (includes Historic Preservation). In addition to the City funded Planning programs, this budget includes position CDBG expenditures, which are federally reimbursed.

The department's expenditure budget has increased by \$17,259, or 0.8%. This expenditure net increase includes minor position reduction changes and an overall increase in payroll expenses. Other changes include reductions in Rentals and Supplies, as well as the temporary Travel & Training allocation to the Human Resources Department.

The department's revenue decrease of \$133,461, or 5.1%, is predominately due to the reduction in the Building Permit estimate, offset somewhat by increased salary reimbursements from HCD, grants and other funding sources.

Planning & Development Administration

The Administration division oversees all operations of the Department of Planning and Urban Development. A greater part of the expenditures are salaries that are included on the CDBG side of the budget.

Expenditures have increased \$73,303, or 17.0%, due to increased payroll expenses, including the transfer of a half-time position from Planning.

The revenue in this division reflects HCD salary reimbursement monies, as well as partial funding for the half-time project Bicycle / Pedestrian Program Coordinator position. Revenues have increased \$57,780 or 28.0%.

Inspection Services

Inspection issues permits for construction of all types, and acts as the enforcement agency for building, housing, environmental, plumbing, electrical, mechanical, zoning, and land use rules and regulations.

The division prepares materials for the Board of Appeals, reviews, public markets, used car dealers, second hand dealers, beano, junk dealers, amusement, and massage establishments.

The division's expenditure budget has decreased by \$12,400 or 1.8%. Minor equipment purchases, the FY15 fulfilment of a 2 year electric vehicle lease, and the temporary allocation of Travel & Training to Human Resources all contribute to the decrease in the FY16 expenditures.

The revenue budget decrease of \$203,280, or 10.9%, is attributed to the reduction in the Building Permit revenue estimate.

Planning

The division of Planning provides development review services for site plan, subdivision, historic preservation, D.E.P. site location and rezoning requests. Planning also provides comprehensive and long range planning services. These services include: the Bayside Brownfield Plan, neighborhood planning with a focus on Nasson's Corner / Brighton Avenue, Transportation Planning and Implementation, Open Space Plan and implementation of general and specific master plans, Historic District Boundaries Planning, the Arts and Culture Plan, and the Downtown Plan implementation (with a focus on streetscape improvements, Congress Street lighting, and Old Port lighting). Finally, the division is responsible for the preparation of the Capital Improvements Program, Congress Square Park project, the Shoreway Access and Portland Trails projects, and other urban design initiatives.

The Planning division's expenditure budget has decreased by \$35,833, or 4.4%. The FY16 decrease is mainly due to position changes, including the Bicycle/ Pedestrian Coordinator position divisional transfer to Planning Administration.

Planning revenues have increased \$20,736 or 5.8% due to increased reimbursements for consulting expenses and planning development and inspection review services. An additional \$5,000 in revenue was also received from the EPA Brownfield Grant.

Housing & Community Development

Housing and Community Development is responsible for administering all of the City-assisted housing rehabilitation loan and grant programs, as well as homeownership efforts. Housing-related planning activities are also carried out by this division.

This portion of the Housing and Community Development budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, and Housing Development Fund (program income from CDBG loan paybacks); any increase or decrease in the budget has no impact on the tax levy.

Historic Preservation

The Historic Preservation division provides services relating to the historic preservation ordinance. The staff works closely with the Historic Preservation Committee in enforcing and interpreting the City's historic preservation ordinance.

Expenses increased \$5,351, or 4.5%, in varied lines. Revenues increased \$4,465, or 7.5% due to additional Certified Local Government (CLG) grant funding from the Maine Historic Preservation Commission.

Information Technology

The Information Technology Department (IT) is responsible for the design, development and maintenance of a large, wide-area information network, managing all the technology hardware and software used by the City of Portland. The department is divided into four sections of expertise: Applications, Technical and Customer Services, Operations, and Geographic Information Systems (GIS).

The Applications support team develops software for specialized needs, and supports the software purchased by the City. The Technical and Customer Services team is responsible for the internal and external customer service for the City of Portland. The Technical Services team manages data and voice networks, including the Help Desk, which supports our workforce of more than 1,300 technology users. The Customer Services team manages customer support using a social media application called Fix It! Portland; over 5,000 requests from Portland residents and visitors are anticipated in 2015. The Operations team monitors and maintains AS400 systems for Public Administration and Public Safety, installing quarterly updates and semi-annual updates for applications. The Geographic Information Systems section maintains and updates the computerized mapping systems used by Public Administration and Public Safety. Additionally, this division is responsible for maintaining the technology infrastructure that supports a combined Public Safety Answering Services (PSAP) for Portland, South Portland and Cape Elizabeth.

The department's budgeted expenditures remain fairly flat, decreasing slightly. The revenues received represent the reimbursement of cost and services provided to the Enterprise Funds and the PSAP.

Public Services

The Public Services Director oversees the operations of thirteen (13) divisions within the General Fund, as well as the Street Openings fund, Sewer fund, and the new Stormwater fund. The Director has an Assistant Director, five (5) Division Managers and an administrative support staff that provide day to day supervision for these functions. The Department is responsible for basic municipal services, wastewater - stormwater utilities, public infrastructure management, maintenance and development, citywide fleet management, and development and implementation of capital improvement plans. Department staff supports several city committees including the Transportation Sustainability and Energy Committee, Parks Commission, and Land Bank Commission, and is staffing a task force on funding for stormwater program obligations.

The net expenditure decrease of \$424,375, or 2.6%, is driven in large part by the reduction in vehicle fuel prices and consumption, as well as elimination of the universal waste program, and an increase in Street Lighting utility costs. This FY16 budget also includes the reduction of four full-time positions. The increase of revenues of \$309,909, or 6.1%, is due to the combination of the price increase in the pay-as-you-throw trash bag program, anticipated increases in the Cemetery division revenues, higher estimated Street Occupancy Permit revenue, and the inclusion of Sale of City Property. Revenue decreases include a reduction in the Local Road Assistance Program (LRAP) estimate and revenues generated from the newly eliminated universal waste program.

Public Services Administration

The Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of street-sidewalk and special events permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

Expenses increased by \$25,985 or 3.5%, mostly due to payroll cost increases. The increase in revenues of \$34,088, or 22.8%, is largely due to special event permit fee changes.

Cemeteries

Cemetery Operations is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. In addition to the care of grounds, the division is responsible for interments and disinterments, lot sales and other funeral-related services. The Cemetery crew maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Wilde Memorial Chapel, located on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

Expenses decreased by \$6,143 or 1.0%. Revenues increased \$108,867, or 27.2%, primarily due to the estimated increase in perpetual care interest income, the addition of a new columbarium niche, as well as a general overall increase in cemetery fees.

Forestry and Horticulture

The Forestry and Horticulture Section is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance trimming is done as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs that are blocking streets. The successful Community Garden program is run through this division, with over 300 plots in eight gardens. Forestry personnel respond to weather emergencies year round, and are assigned to winter operations.

The division actively seeks grant money from the State to increase the number of city trees planted each year. Forestry and Horticulture also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees in the City. Annual CDBG funds are sought to support tree replacements within eligible downtown and peninsula zones. The division helps to maintain the City's status as a "Tree City USA".

Expenses decreased by \$36,697 or 5.6%. Revenues have remained fairly flat.

Districting

The Districting division is a national award winning multi-tasking Public Service maintenance program comprised of five working crews. The division is responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, parks and grounds maintenance, including winter sidewalk snow removal operations.

Parks maintenance includes the year-round care of community and neighborhood parks and open spaces. Over 100 individual parks and open spaces are cared for. Districting continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. This division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. Furthermore, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

The Districting divisional expenditures have increased minimally by \$437. Revenues have decreased by \$13,703, or 4.6%, primarily due to a reduction in enterprise fund charges.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, reducing the recycling fleet from six to three trucks. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces, as well as over 60 solar smart trash compactor units.

City property owners may dispose up to ten qualified bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card

The Bulky Item Pick-up program was implemented in May of 2012. Residents must apply online and request stickers to attach to their approved items for disposal. Qualified small items, less than 30 pounds, which will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten qualified small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for qualified items over 30 pounds.

Expenses decreased by \$166,125, or 5.6%, due mainly to the non-funding of the universal waste program and the elimination of one full-time position. The revenue net increase of \$209,114, or 9.9%, comprises the increased pay-as-you-throw bag program fee, offset by the universal waste program revenue loss.

Communications

The Communications Section encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This Section is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and EMS) of emergency situations occurring on the streets of Portland as reported by any Public Services employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

Expenses increased by \$2,148 or 1.5%.

Portland Downtown District

The Portland Downtown District (PDD) is responsible for providing maintenance, cleaning services, and sidewalk snow removal to the downtown district. Revenue for this division is paid by the PDD Corporation for the services provided.

Expenses increased by \$12,008, or 3.7%, due to increased labor costs.

Construction

The Construction Company has been involved in a myriad of projects including sidewalk and handicap ramp construction, sewer culvert and trench work, sewer maintenance support, winter operations, playground and track construction, traffic calming installation, relocation of City property, building repairs, and special assistance with Island Service needs. This Section is an important resource with its versatility and cost efficiency.

Expenses decreased \$30,897, or 7.2%, mainly due to the reduction of one full-time position.

Transportation Operations

The Transportation Operations division operates and maintains traffic and pedestrian signal systems and most street lighting. All electric utility costs for these systems are borne by this budget. The division also designs and makes its own signage throughout the City and is responsible for the installation and maintenance of all traffic control signage and road markings, including crosswalks and bike lanes. Traffic markings are installed by a contractor and supervised by staff from this Section. In addition, traffic calming, road closures, and detour requests are processed by this division, as well as transportation studies and pedestrian counts. The Transportation Operations division supports the Planning Department's development process by providing comprehensive review of parking strategies and traffic impacts for incoming site plan and subdivision applications. The division works with MaineDOT on safety improvement projects and purchases of safety devices. The City also participates in a PACTS supported Regional Traffic Management System (RTMS), which is tasked with long term regional goals of traffic signal specifications and communications.

Expenses increased by \$68,130, or 3.2%. This net increase is essentially due to the combination of the rise in street lighting costs offset by the expense reduction related to the parking restriction changes in FY15. Revenues increased \$49,987, or 20.6%, primarily as a result of the continued high collection of Street Occupancy permit revenue.

Engineering

The Engineering division is of a team of professional and technical staff who provide a variety of civil and construction engineering services for the City. This team develops, designs, seeks (alternative) funding for, administers, and constructs transportation and some environmental infrastructure projects in addition to managing a variety of compliance programs and customer support services. Additional tasks include record-keeping, mapping, and reviewing and inspecting private development. Capital projects focus on roadway, sidewalk, traffic, bicycle network, trail systems, stormwater, and sewer systems.

Expenses increased by \$22,694 or 3.2%, mainly due to general wage salary increases. Revenue estimates have decreased \$138,391, or 17.0%, due to the FY15 elimination of the Local Road Assistance Program (LRAP) transit bonus funding.

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Services workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public.

The expenditure budget net increase of \$49,048, or 4.5%, is a result of the increased appropriation for winter equipment rental and salary lines. The revenue collections primarily represent chargebacks for plowing and snow removal of school properties and walking routes.

Fleet Services

The Fleet Services division purchases, repairs, and rebuilds the City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, Administration, Public Services, Recreation and Facilities Management, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee and maintains the vehicle replacement program Citywide.

Fleet Services is also responsible for the 82 Hanover Street building, which houses the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments, with two certified fabricators.

Expenses decreased by \$365,934, or 9.3%, mainly due to the reduction in price and consumption of vehicle fuel. This budget also includes the elimination of one full-time position. The revenues increased \$67,895, or \$15.9%, which is attributable to the expected sale of retired city property.

Island Services

Island Services is responsible for all Public Services functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. Island Services also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

Expenditures for Island Services remain relatively flat. The revenue estimate reflects a slight monetary increase in scrap metal sales.

Recreation & Facilities Management

The Recreation and Facilities Management Department consists of three major divisions: Facilities Management, Recreation, and Building Maintenance. The Facilities Management is responsible for scheduling and management of Merrill Auditorium, Hadlock Stadium, Portland Exposition Building, Ocean Gateway, and Maine State Pier. Recreation manages five community centers, pools, athletic fields, playgrounds, courts, senior adult programming and therapeutic recreation. Lastly, the Building Maintenance responsibilities include the maintenance, repair and renovation of a variety of City and School buildings.

The department's overall net cost decreased. The expenditure increase is primarily due to the rise in general payroll and utility costs. Revenues have also increased, by \$289,009 or 3.3%; the most notable increases are displayed in the Public Assembly Facility, Merrill Auditorium, and Recreation divisions.

Recreation & Facilities Administration

The Recreation and Facilities Management's Administrative division serves a large and extremely diverse department. Serving all three major sections, Facilities Management, Recreation and Building Maintenance, the Administration division oversees the numerous activities and challenges that transpire within the department. Functions include providing general administrative support, involving much of the centralized accounting and payroll duties.

The expenditure increase of \$5,696, or 1.9%, is attributed to salary increases.

Trades

The Trades division budget is comprised of a highly skilled workforce that maintains, repairs and renovates the various City buildings. Services provided include carpentry, painting, electrical, plumbing, remodeling, and the maintenance of heating and ventilating systems.

Expenses have decreased by \$91,690, or 9.3%, primarily due personnel changes including the elimination of one full-time position and the inter-department transfer of another position to the Public Assembly Facility division.

Merrill Auditorium

This division includes all the expenses for maintaining Merrill Auditorium, a 1,900 seat performing arts venue, attached to City Hall, including the technical and operations staff. The theater hosts a variety of performances each year including the symphony, opera, ballet, musical theater and concerts.

Expenditures have increased \$19,472, or 4.5%, due to the additional monies related to Phase I of the Heat System Replacement and Phase II of the Sprinkler Head Replacement. Revenues are estimated to increase by \$74,640, or 14.7%.

Ice Arena

The Ice Arena is celebrating its 30th year of operation and has been renamed in honor of the late William B. Trough. Mr. Trough was instrumental in creating the rink when he served on the City Council during the 1970s-80's. The City-owned rink, located next to the Portland Expo and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice skating and Figure Skating lessons are offered as well. The City also operates the Ice Arena concession.

The majority of the expenditure increase of \$18,092, or 3.4%, is a result of maintenance and repairs to the building and utilities. Revenues are estimated to increase \$18,365, or 3.1%, primarily due to the addition of curling at the rink.

Exposition Building

This division includes all the expenses for maintaining and managing the Portland Exposition Building. Numerous events are held each year at this facility by profit and non-profit organizers, including many school related sport activities. The Portland Expo is also home to the Maine Red Claws, a NBA development league, which began playing in FY2010.

Expenditure changes in various line categories have resulted in an increase of \$23,141, or 5.7%, predominantly due to utility cost increases. Revenues have increased slightly by \$2,400.

Waterfront Maintenance

Waterfront Maintenance is responsible for the repair, maintenance, and operations of city-owned waterfront property which includes the Portland Ocean Terminal, Maine State Pier and Ocean Gateway.

Portland's 2014 cruise ship season comprised of sixty-five ships carrying over 73,000 passengers. Seventy-six ships, thirty-eight of which carry over 1,000 passengers, are currently scheduled for the summer / fall of FY16 with an expected 77,000+ visitors.

The expense increase of \$52,892, or 7.3%, is due primarily to the projected increase in utility expense, also a revenue offset. This budget also includes the addition of a half-time position. Net revenues are anticipated to increase \$16,992, or 1.0%. Increases in cruise ship and Nova Star ferry passenger charges is offset by reductions in other revenue, including the loss and budget estimate corrections in lease / rental income.

Public Assembly Facility

The Public Assembly Facility (PAF) division handles the general management, marketing, booking, event coordination, and other miscellaneous staff and operational needs of the department's Facilities Management division functions.

Expenditures have increased by \$99,320, or 14.4%, the majority of which is attributed to increased payroll costs resulting from a staffing change, the divisional transfer of one full-time position from the Trades division. Revenues are up \$117,900, or 52.5%, largely due to the boost in waterfront concerts, as well as new weekend rates at Ocean Gateway.

Concessions

The Concessions division manages the concessions and catering operations for Merrill Auditorium, Portland Exposition, Fitzpatrick Field and the Trough Ice Arena.

Expenditures have increased \$20,409, or 7.0%, due to the increased food and payroll expenses. The concession revenues are also up \$20,000 or 5.6%.

Athletic Facilities

The Athletic Facilities division is responsible for the care of all City-owned athletic facilities in Portland. This includes fourteen baseball / softball fields, two artificial surface soccer / football stadiums, fifteen multi-purpose fields, thirty playgrounds, a variety of tennis, basketball and volleyball courts, as well as ornamental water fountains.

Expenditures decreased by \$33,225, or 4.3%, primarily due to the elimination of one full-time position. Program revenues decreased by \$21,175 or 7.2%.

Recreation

The Recreation division provides a wide range of programming / leagues and clinics for all age groups in the City, and operates community centers in the Riverton, Reiche, East End, the Cummings Center and Peaks Island. The Recreation division offers before-and-after school programming at all mainland elementary schools, as well as summer camp programs for children in grades K-7. This division also offers an extensive program for Senior Adults.

For the sixth year, the July 4th fireworks display and concert will continue due to the generous donations and support of the Stars and Stripes Foundation, local businesses and the community.

Expenditures are up \$80,715, or 5.0%, due to staffing increases in the before-and-after school program, as well as general payroll cost increases. Revenues are also projected to increase, by \$65,898, or 5.0%, largely due to the income generated from the before-and-after school and camp programs.

Aquatics

The Aquatics division operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. The division offers swimming lessons and aquatic programming for all ages including an Adult Master's Program.

The division's expenditures rose \$13,394, or 3.3%, mainly due to general payroll cost increases. Revenues are projected to decrease \$8,796, or 2.9%, due to less demand in children's swimming lessons.

Therapeutic Recreation

Therapeutic Recreation, a contracted service expense under the Recreation division prior to FY14, is an in-house City service comprised of approximately three and one-half City positions.

Revenues are received mostly from nearby communities and school districts, with anticipated revenues offsetting approximately 80% of expenses. The net City cost is less than when contracted while providing additional programming.

The FY16 staffing expenditure increase is offset by the camp and enrichment revenue increase.

Riverside Golf Course

The City-owned Riverside Golf Course offers 30 holes: the 18-hole North course and the 9-hole South course and the 3-hole practice course. Amenities include lessons, clinics and a Pro-Shop, all managed by the Recreation Division. Riverside is also home to several golf tournaments each year. The 3-hole practice course is used by the First Tee program, new golfers, and golfers sharpening their short game skills. In addition, the 9-hole course recently began hosting weekend Footgolf.

The latest CIP improvements include a renovated North Course clubhouse, Riverside Grill, the newly city-operated restaurant (spring 2014), new greens, and new tee mowers.

FY16 Expenditures are down \$2,903, or 0.4%, while revenues are projected to increase by \$9,600 or 1.1 %.

Golf Course Restaurant

The new Riverside Municipal Golf Course restaurant, The Riverside Grill, opened its doors in May of 2014. In its second season of operation, the newly in-house operated city restaurant is managed by the department's Food Service Manager and experienced Chef. The restaurant serves both lunch and dinner, and brunch on Saturdays & Sundays. Riverside Grill is also open for breakfast on weekdays during the golf season.

The net budget displays a marginal increase in FY16.

Public Health

Public Health, a division of the Health and Human Services Department, is the State's most comprehensive municipal public health organization. Approximately 80% of the expense budget is supported by service revenue and Federal, State and private grants.

The FY16 budget reflects the closure of the Healthcare for the Homeless Clinic during FY15, as well as changes in the accounting treatment of other special revenue accounts.

Family Health

Family Health is comprised of the Children's Oral Health, Maternal & Child Health, School-based Health Center and Portland Defending Childhood programs. These programs provide access to school-based medical, dental, and behavioral health services, violence prevention, and maternal and child health services in home and community locations. Collectively, Family Health served more than 3,800 individuals with more than 7,400 visits. Additionally, Portland Defending Childhood implemented evidenced-informed violence prevention curricula in nearly 100 class rooms throughout the Portland Public School system.

Chronic Disease Prevention

The Chronic Disease Prevention Program implements evidenced-based community health interventions designed to improve the health of those who live, work and learn in Portland. The health issues addressed include tobacco, smoke-free living, physical activity, healthy eating, lead poisoning prevention, sodium reduction, and substance abuse prevention.

Health Care for the Homeless

The Health Care for the Homeless Program closed December 31, 2014 (FY15) due to a loss of city grant funding. This program, awarded to another agency, provided health care services for adults and teens experiencing homelessness in Portland, including a wide range of medical, dental, mental health, substance abuse treatment, and supportive services. There are no plans the city-operated program to reopen in the future.

India Street Clinic

Through the continual acquisition of new grants, the India Street Clinic budget supports over 5,000 residents. Programs and services include adult immunization and TB testing, and several sexually transmitted disease programs that provide testing, counseling, case management, prevention and education. Positive Health Care creates access and services for individuals living with HIV. HIV and Hepatitis prevention services include a Needle Exchange Program. In addition, the Portland Community Free Clinic is a collaboration of volunteers and the City's Health and Human Services (HHS) Public Health Division, providing comprehensive primary medical care and referral services for over 600 low-income adults lacking medical insurance and a medical provider.

Environmental Health & Safety

The Environmental Health & Safety program inspects food service establishments and prepares response efforts in the event of a biological public health crisis. Beginning in FY12, the Environmental Health & Safety program assumed responsibilities for food service establishment inspections. The risk of foodborne illness from food service establishments is decreased through the education of restaurant personnel and the enforcement of state laws and city ordinances by Health Inspectors. This program is partially funded by the U.S. Centers for Disease Control and Prevention's Public Health Preparedness and Response for Bioterrorism Cooperative Grant, distributed at the state level to the Maine Center for Disease Control and Prevention and then onto the City of Portland. This funding supports the planning and response for biological public health hazards in Southern Maine through the Cities Readiness Initiative.

Health Equity & Research

The Health Equity and Research Program supports the Public Health Division with health services to minority populations, health assessments, and evaluation efforts. Specific activities include outreach to racial and ethnic minority groups, data analysis, and quality improvements initiatives. Health Equity and Research also manages the Cumberland District Public Health Council and publishes the Annual Report.

Social Services

The Social Services Division provides both financial assistance and support services for low-income Portland residents. Its purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Programs operated include General Assistance, homeless shelters for individuals and families, Refugee Services, Case Management and Representative Payee Services.

The City funds approximately 48% of the Social Services FY16 budget, as compared to the 19% budgeted in FY15. The remaining 52% of expenditures is funded through federal and state grants. Because of modifications to the State's General Assistance program eligibility, the FY16 expenditures decreased \$1,123,850, or 8.5%. The new division within Social Services, Portland Community Support Fund, was established to assist previously eligible asylum-seeking and visa-holding clients for a one year transition period. Revenues have decreased by approximately \$4,457,776, or 41.5%. The reduction is due to both a change in the State's General Assistance funding formula and change in eligibility standards related to asylum seekers and shelter expenses.

Social Services Administration

The administrative unit is responsible for overall management of division programs. Administrative services include grant management, data/statistical analysis, payroll and human resources, accounts payable, receivables and other operational costs.

The FY16 Administration expenditure decrease is largely the result of a redistribution of payroll charges to the Shelter division. The divisional revenue decrease is in part attributed to the revenue reallocation to the Housing & Support Services division.

General Assistance

State law requires municipalities to administer General Assistance (GA) which provides for immediate aid to individuals who meet eligibility requirements and are unable to provide basic necessities essential to maintaining themselves or their families. Maine laws state that municipalities have the responsibility to provide financial assistance to all eligible residents of their municipality, as well as non-residents who intend to reside in the municipality and have no other residence. GA provides basic needs in the areas of shelter, housing costs, utilities, food, medication, disposable diapers and hygiene items. All assistance is issued in vouchers and no cash is provided. The GA program processes an average of 1,500 applications per month and provides assistance to 4,350 individuals per year (unduplicated number).

Due to reductions in grants to non-qualified immigrants and changes in the General Assistance billing requirements / reimbursement rate, the City's GA revenue reimbursement was reduced by \$3,800,158 in FY16. Expenditures were also reduced by \$4,006,350 to comply with state regulations regarding non-qualified immigrants.

Shelter Division

The Social Services Division operates the Oxford Street Shelter & Community Overflow Shelter for adults and the Family Shelter. These shelters provide safe, temporary housing for homeless adults and families. Services provided include assistance with housing location, case management and crisis intervention. The Oxford Street Shelter has a capacity of 154 beds and also operates an off-site Community Overflow Shelter at the Preble Street Resource Center and a warming center at the General Assistance waiting room. The Family Shelter has a capacity of 104 beds. Shelter services are provided to over 2,200 adults and 305 families each year.

The FY16 expenditure increase is largely due to the additional approved staffing at the Overflow Shelter. State reimbursement revenues declined due to changes in billing requirements, a change in the State's reimbursement percentage rate, and the exclusion of non-qualified immigrants.

Refugee Services

The Refugee Services Program provides case management services and cultural skills training to secondary migrant refugees in Portland. Multi-lingual staff assists with short term crisis intervention and case work. Services provided include employment and job placement, housing location and life skills training. Refugee Services also operates the Services for Survivors of Torture Program which is funded through the federal office of Refugee Resettlement. This program provides clinical services, counseling and therapy for both refugees and asylum seekers who were victims of torture. The Refugee Services Program provides services to 1,000 individuals per year.

Housing & Support Services

The Housing and Support Services Division provides case management, employment assistance, representative payee services, veteran's services and housing assistance to homeless individuals in Portland. This Division also operates the Home To Stay program which is fully funded by a grant from the Maine State Housing Authority and the Tenant Based Rental Housing Assistance Program (TBRA). Home To Stay provides follow up case management services and housing subsidies to homeless individuals and families. The HUD Home funded TBRA program provides security deposits and first month rental assistance to homeless individuals and families.

Portland Community Support Fund

The Portland Community Support Fund, a new division in FY16, was established to provide basic necessities assistance for immigrants who have received General Assistance in the past but are now deemed non-qualified for reimbursement by the State. During Fiscal Year 2015, the City was notified by the Maine Department of Health and Human Services that it was implementing a new policy and would no longer reimburse the City for the General Assistance payments that the City had made to persons seeking asylum in the United States, citing as its authority the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA).

This city program allows the individuals and families receiving benefits as of June 30, 2015, to receive assistance for a one year transition period.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of nine divisions.

The Barron Center's expenditure budget increased \$334,560 or 2.2% primarily due to wage increases. Barron Center revenues increased \$928,337, or 5.1%; this increase is related to the acuity of residents and the higher reimbursement associated for care based on acuity.

Barron Center Administration

Administration is responsible for the overall operations and administration of the Barron Center's 266.7 budgeted positions. Finance is responsible for the financial operations, which includes budgeting, payroll, accounts payable, accounts receivable, financial reporting, and financial projections. Labor Relations handles all personnel related issues and assists in contract negotiations. Social Services coordinates all resident admissions and provides for the psychosocial needs of the residents and their families. The medical director is responsible for staff physician services to residents and consultation with the administrator and nursing.

The Administration budget's decrease of \$12,340, or 0.7%, is attributed to a decrease in laboratory and medical services, the temporary allocation of training funds in the Human Resources budget, and wage increases.

Office of Elder Affairs

The Office of Elder Affairs serves Portland's seniors in two specific ways: (1) The Elder Advocate which provides information and referral services, short term case management, and advocacy services (2) The Adult Day Health I & II programs provide day health services to the frail elderly and the chronically ill who live in the community.

The Office of Elder Affairs expense budget increased \$8,252, or 2.5%, mainly due to wage increases.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's 17.4 positions provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The Nursing Administration budget increased by \$60,413, or 5.3%. This increase is attributed mainly to general wage increases and a .4 FTE staffing increase for an Admission/Restorative Nurse position.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit is located on the main floor of the facility, is a 25 bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36 bed unit located on the second floor. The majority of the patients on 2 North have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36 bed unit located on the second floor. The dementia residents on the 2 South unit (continuing care dementia) are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36 bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50 bed unit, managed as five 10 bed "neighborhoods" which provide Alzheimer related / type services. Residents of BC II are highly mobile and require unique staffing considerations.

The Nursing Direct Care budget consists only of wages, and has increased \$300,567 or 4.6%.

Nutrition and Supply

The Nutrition and Supply division consists of Resident Nutrition, Cafeteria / Catering, and Central Medical Supply. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, visitors, and operates The Clock Tower Cafe at City Hall. The catering services are for City functions, receptions, and celebrations. Central Medical Supply purchases, receives, stores and distributes routine medical supplies, over the counter drugs, and other supplies for several divisions.

Nutrition and Supply's budget increased \$101,888 or 3.3%. The rise in expenses is largely attributed to increased costs in food, pharmacy and medical supply expenses, as well as increased wage costs.

Environmental Services

The Environmental Services division consists of Buildings and Ground Maintenance. The Buildings and Ground Maintenance program is responsible for the physical plant, grounds, utilities, and safety on the twelve-acre Brighton Avenue health care campus.

The Environmental Services budget decreased \$103,941, or 9.5%. This decrease is primarily attributed to specific building renovation / building maintenance monies allocated in FY15.

Housekeeping

The goals and responsibilities of the Housekeeping staff are to provide a clean and appealing environment for all residents of the Barron Center.

The Housekeeping budget decreased \$9,269 or 1.5%. This decrease is mostly attributed to the reduction in the number of bed replacements.

Laundry Services

The Laundry division provides a clean and adequate supply of laundry to the residents. Personal laundry services are provided to nearly all of the residents. Laundry services are also provided to the City's Oxford Street Shelter for men and various Public Health Facilities run by the City of Portland.

The Laundry budget decreased by \$11,944, or 2.5%.

Debt Service

The Debt Service account provides for the payment of the principal and interest on the City's outstanding General Obligation Bonds, as well as the cost for the current-year bond issuance. Revenue in this department is from bond costs, primarily for the enterprise funds and the School Department.

Library

Portland Public Library is a general purpose library system that serves the Portland community by providing a diverse collection of books, media, programs, classes, and electronic resources at four branch locations and a Portable Library (Bookmobile). Portland Public Library (PPL) also provides patrons with access to materials nationwide through its Interlibrary Loan program. PPL services support and encourage the educational, informational, civic, and recreational interests of all members of the community. As a regional library, PPL resources are available to citizens throughout Cumberland and York Counties and, via reciprocal service agreements, with other libraries nationwide.

Portland Public Library is governed by a Board of Trustees who serve three year staggered terms. As an independent 501c3 non profit organization, PPL finances all its collections, programs, and outreach through an Annual Campaign, operational grants, fees, and endowment income. The City of Portland owns the land and buildings in which the Library operates its branch locations. Municipal support from the City of Portland, Cumberland County, and the Maine State Library is directed solely to the infrastructure needs of these buildings and the salaries of Library employees.

In April 2010, the Main Library located on Monument Square completed Phase I of a renovation project. This location now features increased natural light and more flexible, useable public space, meaning PPL can now welcome and engage with a broader spectrum of users. Visitation and use of the Library's collection and resources have greatly increased as a result of the renovation. Phase II of the Main Library renovation is in the conceptual planning phase.

In 2013, following a comprehensive community survey by the Library the year before, PPL began its Portable Library Program in neighborhoods throughout the City. This effort encompasses the Bookmobile, deposit collections, and other outreach that serves Portland citizens with practical challenges to reaching a library location to access resources.

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60, and Public Safety employees with 25 years of service. There is also a plan covering grandfathered Public Safety employees with 20 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, Group Life Insurance, Unemployment, and FICA. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

Health Insurance Program

The Health Insurance account provides funding for the City's self-insured health plan. The City picks up the full cost of medical coverage for all full-time employees as well as the family costs for grandfathered employees. For all remaining employees, the City picks up 81% of employee and child(ren) costs, 77% of employee and adult costs and 70% of family costs. Claim payments are made by a third party administrator.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. When applicable, this account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

Contingency

The Contingency account provides funds which are set aside as a necessary provision for meeting unforeseen contingencies and emergencies which may arise during the year. Expenditures for contingencies arising in the implementation of the policies and work programs established by the City Council are authorized by the City Manager.

The FY16 expenditure increase includes the addition of monies for legal services related to the recent General Assistance eligibility changes, the new Stormwater Utility costs effective January of 2016, and the Parks Commission Master Plan.

Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. Claims are processed in-house in the legal department through Maine Municipal Association's (MMA) property and casualty pool. In addition, the City purchases insurance policies to cover property and liability exposures that could possibly exceed the liability limits set forth in the Maine Tort Claims Act.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

County Tax

County tax is assessed to each municipality by the county in which it resides. Distribution of the tax burden is made on the basis of the valuation of a municipality as determined by the State Board of Equalization. Portland's share of Cumberland County tax has increased by \$270,866 or 5.4%.

Transit District (Metro)

The Transit District account provides subsidy support to the Greater Portland Transit District, better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves. In April 2009, the Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members. The district is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities. The City of Portland's share of the local operating subsidy is approximately 82%. Portland's share of the Metro budget has decreased by \$26,795 or 1.1%.

Regional Transportation

The Regional Transportation Program provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP has a contract with the cities of Portland, South Portland, and Westbrook, with the cost apportioned based on ridership.

The Regional Transportation budget has decreased by \$15,055 or 10.3%.

Capital

The Capital budget consolidates the normal operating annual capital expenses into one comprehensive budget, rather than incorporating these expenses in the individual department budgets. This presentational format, which began in FY12, is designed to better assess yearly changes on a budgetary level, and to serve as a useful tool in managing capital needs.

Street Openings

The Street Opening program and budget are governed by state law, and must be kept separate from the general fund. Each time one of the City's roads or sidewalks is excavated, the Street Opening program provides the services for permitting, inspection, and enforcement of the work. To fully fund the program, the City collects fees for services and to provide for the permanent restoration of excavations made by private contractors. The fee structure is based on the actual costs of administering the program.

In addition to administering and monitoring the excavations made by private contractors and utility companies, this fund also provides for some of the services required by state tort liability laws.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On July 1, 2015, the sewer user fee increases 10.1%, from \$8.81 to \$9.70 per hundred cubic feet (hcf). This rate decreases \$1.50 to \$8.20 per hcf beginning January 1, 2016 when the new Stormwater billing separates from the sewer rate, allowing more equitable distribution of user costs based on impervious area. The City has been making improvements to its combined sewer overflows. The second tier of projects was completed in 2013, and 2014 begins the third tier of CSO projects, totaling over \$170 million over 15 years.

In FY16, approximately 80.5% of the budget is allocated for debt service and assessment fees to the Water District.

STORMWATER FUND

The Stormwater function is managed under a new fund beginning in FY16. A stormwater division, previously a component of the Sewer Fund, separated in FY16 as part of an effort to achieve greater fairness in paying stormwater costs among its' users.

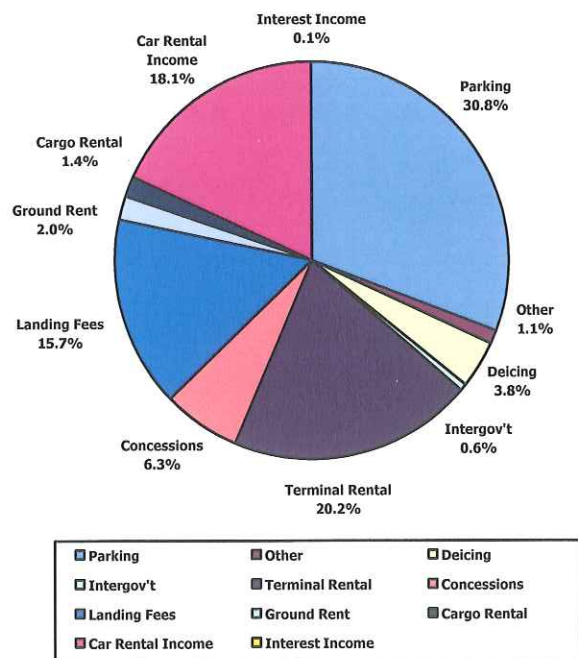

In FY15, the Council appropriated start-up monies mid-year for the implementation of this new Stormwater program.

Beginning January 1, 2016, the Sewer and Stormwater billing charges will be split into two entities. The PWD will continue to provide billing services for the Sewer fees, while the City will be maintaining the billing system for the costs related to Stormwater or the impervious areas. The current Stormwater Service Charge is \$6.00/month per 1,200 square feet of impervious surface. The collected funds will be used to maintain and improve the City's infrastructure.

JETPORT

The Jetport is ranked by the Federal Aviation Administration as the 93rd largest airport in the United States based on enplanements. In calendar year 2014, a total of 1,674,762 passengers flew into and out of the Jetport. The Jetport is served by American Airlines, Delta Airlines, JetBlue, Southwest Airlines, United Airlines and US Airways, along with their regional partners.

Jetport Revenues

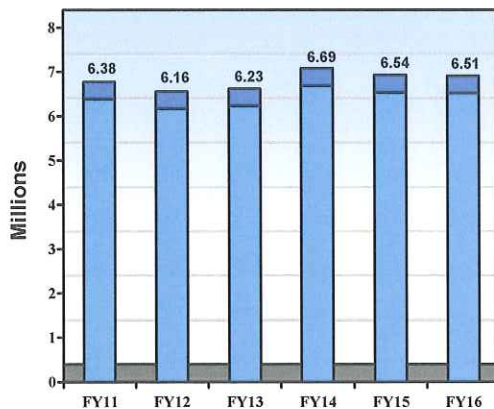

Note: Due to rounding, totals may not equal 100%

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 34% of the Jetport's total FY16 revenue, with parking, rental cars, concessions, ground rent, and miscellaneous revenue providing the other 66%.

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a commission to the Jetport based on gross sales. In FY16, car rental agency income is expected to draw 27% of the non-airline revenue. Parking, representing 47% of non-airline revenue, is contracted out to a private management company which pays the Jetport a monthly fee based on total net revenue earned.

Jetport Parking Division Income

Note: FY15 and FY16 are estimated amounts

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is

that the costs of providing goods and services to the public be financed primarily through user charges. There are four enterprise funds administered by three departments of the City. A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Department of Recreation and Facilities Management. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

STORMWATER FUND

The principal function of the Stormwater fund is to account for operating, maintaining, and meeting the capital costs requirements of the City of Portland stormwater and combined sewer infrastructure systems. The City of Portland maintains 108 miles of stormwater infrastructure, 131 miles of combined sewer systems, and 15,000 other structures that help to move and treat stormwater.

The city is also responsible for regulation of new development and redevelopment of properties within the city and for meeting State

and Federal requirements regarding the quality of streams and tidal waters within its jurisdiction.

JETPORT

The City of Portland's Department of Aviation and Transportation is responsible for the operation and maintenance of the Portland Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine. Passenger enplanements have increased from approximately 250,111 passengers annually in 1980 to 844,041 for calendar year 2014.

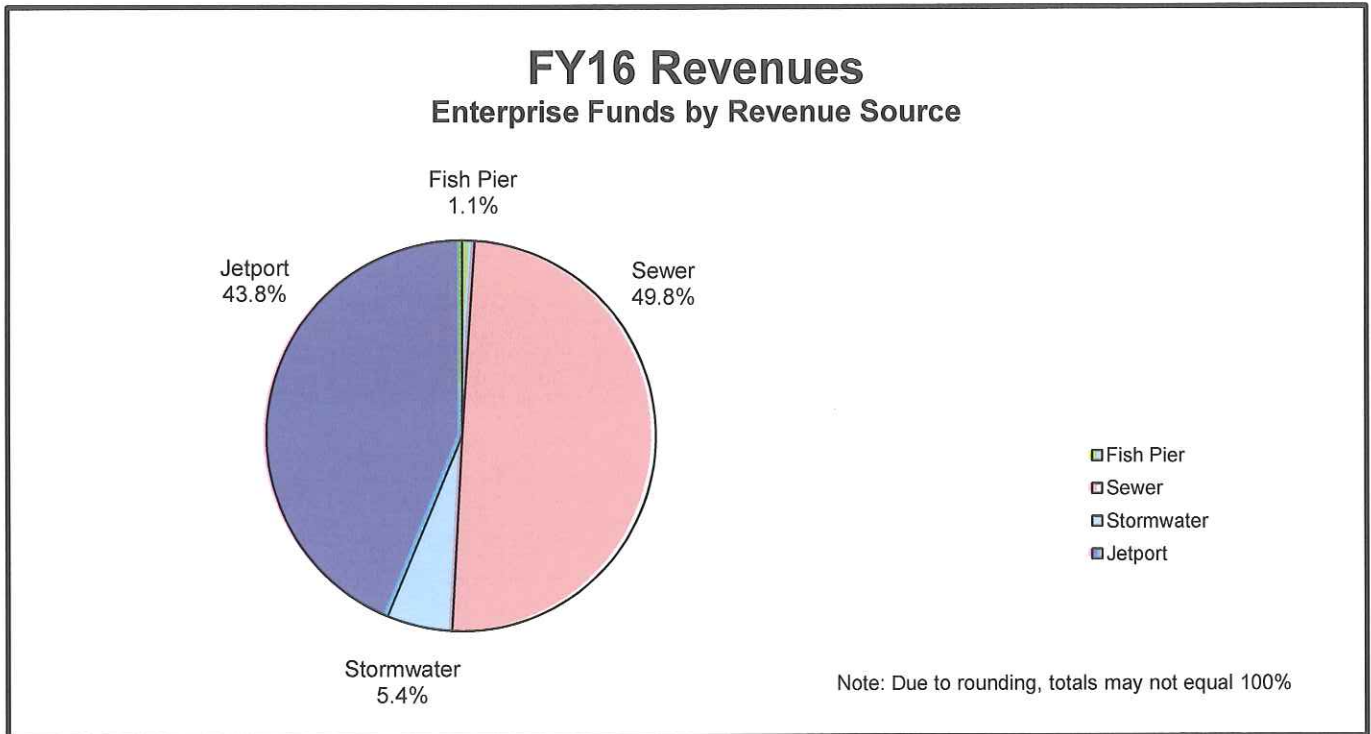

The Jetport's major expenses include the terminal building, operation of the Jetport Parking division, and maintenance of the Airfield runways, taxiways and aprons. Other central expenses include security, administrative, and marketing costs.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

Sewer Fund

The principal function of this fund is to account for the sewer services provided to City residents and business establishments. The Portland Water District (not a city department) owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly or quarterly fees, based upon water volume, to support the expenses of the fund.

In FY16, Sewer and Stormwater Management services split into two separate entities / funds. This division of sewer and stormwater is designed to address user fees, resulting from stormwater runoff, in a more equitable fashion; up to now, both funded programs were raised through sewer user fees.

Sewer Finance

This division's services are provided by the City's Finance Department. Finance provides billing and collection services, as well as lien processing for delinquent accounts. The Finance Department also maintains the financial records for the Sewer Fund and the computer network system.

Sewer Districting

The Sewer Districting division is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance, and sewer inspections and investigations.

Division expenses have increased by \$381,186, or 27.3%, for multiple expense lines. This includes increased payroll expenses, offset by revenue increases, due to the separation of the Sewer and Stormwater programs. Other increases include the addition of a right-of-way survey, conduit maintenance and repair, and capital replacement.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for implementing the Combined Sewer Overflow (CSO) abatement program and industrial pretreatment program, both federally mandated by the Clean Water Act.

Expenses increased slightly by \$3,701, or 0.4%. Payroll expenses increased while contractual services related to aerial mapping and environmental investigations decreased.

Stormwater Management

In the FY16 budget, Stormwater Management separated from the Sewer Fund. With the Stormwater's new funding stream, program costs related to stormwater activities will no longer be tied to the sewer user fee; the new stormwater fee is effective in January of 2016. This new stormwater fee is devised to create greater equity / cost sharing amongst all property owners.

Stormwater Fund

Stormwater Management separated from the Sewer Fund beginning in FY16. The new stormwater fee, effective in January of 2016, is designed to fund the expenditures needed to operate and maintain this critical infrastructure system, preventing pollutants from entering valued waterways as mandated by the federal Clean Water Act (CWA). This new fee structure was designed to disperse the program costs to all City property owners who benefit from the positive impacts of this investment. The stormwater fee is based on the impervious area on a property.

Stormwater Finance Administration

The Stormwater Finance division is providing billing, collection and customer service to all property owners in the City of Portland. The new Stormwater service charge begins in January 2016. Property owners will have an opportunity to review a sample invoice of their Stormwater charges during the Fall of 2015.

Stormwater Management

The Stormwater Management division separated from the Sewer Fund in FY16. This division represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. They perform street flushing, and clean up after special events (parades, New Year's celebration, etc.). Their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

Jetport

The Portland International Jetport provides commercial air service to over a million and a half passengers a year and also provides a general aviation facility for private aircraft and an air cargo terminal. The Jetport is a dedicated fund, which means that all revenues generated remain with the airport to fund both normal airport operations as well as capital improvements. No tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is budgeted under Administrative Services as the anticipated surplus.

Since the completion of the expansion of the terminal building in FY 2012, the airport has focused on completing minor capital improvement projects and is working on a new Airport Master Plan, providing guidance through the next 10–20 years.

The Jetport's overall expenditure budget (excluding surplus) reflects an increase of \$959,251 or 5.0%. Revenues have also increased, by \$590,066, or 2.9%.

Jetport Administration

The Jetport's Administration division is responsible for the day-to-day management of the Jetport and planning future operations. Divisional services include payroll, accounts payable and accounts receivable, budgeting and human resources functions. The Administration division also manages taxi permitting for the City of Portland.

The Administration budget has increased by \$42,504 or 5.0%. This increase is due to the inclusion of funds to prepare an updated Jetport 10 year Master Plan.

Jetport Field

The Jetport Field division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft.

The budget has increased by \$218,560 or 7.5%. Budgetary increases include staffing changes and higher costs related to vehicle maintenance & repair, airfield snow removal chemicals, lighting and signage supplies, and capital needs.

General Aviation

The Jetport General Aviation division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. The General Aviation division collects landing fees from the aircraft that use the GA area, similar to the fees charged to the commercial airlines. These revenues help lower costs for the commercial airlines that serve the Jetport.

The General Aviation budget has decreased by \$12,875, or 32.9%, due to the exclusion / reduction of the pavement crack sealing repair allocation.

Jetport Fringe & Indirect Costs

The Jetport's Fringe and Indirect Costs division reimburses the City's General Fund for expenses incurred for their services, including Police and Fire employee benefits, general liability insurance, the Fire Department's cost of firefighting and EMS services, and chargebacks on City-provided services including Executive, Finance, Legal, Human Resources and Information Technology.

This division's expenditures have increased by \$281,661 or 8.6%, due to an increase in the Jetport's contribution to bond costs for retirement payments, and an increase in the cost of City-provided services.

Jetport Security Division

The Security division performs all administrative and operational activities related to security, including federally-mandated Jetport Security enhancements. The division maintains all security related equipment including cameras and monitors, computer equipment, and security doors and gates. This division is also responsible for processing employee background checks and issuing employee ID badges. The Communication Center provides communications and technical support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public. The costs of the police officers which serve at the Jetport are also paid from this division.

The Security division's budget has increased a minimal of \$481, primarily due to the addition of a half-time position offset by capital outlay decreases.

Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including interior and exterior terminal cleaning and maintenance. The terminal division's Engineering section is responsible for the planning, design and management of major terminal improvements.

The Terminal division's budget has an increase of \$124,880, or 2.5%. Budget changes include an increase in utility costs, building cleaning services and maintenance costs, and the purchase of a software system enabling the airlines to share aircraft boarding gates, offset by a decrease in Capital requests and staffing changes.

Jetport Surplus

The Jetport surplus is determined annually by calculating total revenues minus total expenses, including capital purchases.

The FY16 surplus has decreased by \$369,185, or 41.1%.

Division Summary

Jetport Marketing

The Marketing division provides marketing, advertising and promotional services for the Jetport.

The Marketing budget has decreased by \$22,716, or 4.0%, due to projected decreases in advertising expenditures, including the elimination of a Marketing Intern position.

Jetport Parking

The Parking division oversees the parking maintenance of the Jetport's parking garage and surface lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

Expenditures have increased by \$436,048, or 10.4%, due to the inclusion of a Capital project to begin a 20 year parking garage preventative maintenance and repair program.

Airfield Deicing Facility

The Airfield Deicing Facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the expenditures incurred, thus creating a "net zero" impact on the Jetport's overall budget.

Expenditures for the Airfield Deicing Facility have decreased by \$109,292, or 13.4%, predominately due to the deicing facility's ability to process used deicing fluid from other facilities, for which the Jetport gets a small credit for each gallon of "outside" fluid processed, thus lowering or yearly costs. Utility expenditures also declined.

Key Revenues and Expenditures

Revenues

The Housing and Community Development Program or HCD is a special revenue fund that is supported by several federal and local funding sources.

1. **Community Development Block Grant (CDBG) Program:** The Community Development Block Grant (CDBG) is funded by the federal government under the Housing and Community Development Act of 1974. For Program year 2015-2016 the City allocated \$1,905,564, which is comprised of \$1,791,064 in direct allocation from HCD and \$114,500 from program income; there are no dollars being used this year from re-programmed funds. These funds are used to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.
2. **Home Investment Partnership Program (HOME):** The HOME funds are available for a broad range of housing activities benefiting low and moderate income households. For 2015-2016, the City proposes to utilize \$820,832 of HOME funds and \$210,000 of Program Income for a HOME Consortium between the City (\$673,597) and County (\$357,236) for the development of new rental housing, single family and multi-family rehabilitation, tenant based rental assistance and assistance to special non-profit agencies called Community Housing Development Organizations (CHDOs) to develop affordable housing.
3. **Emergency Solutions Grant Program (ESG):** The ESG funds can be used by the City to fund the rehabilitation, operation and support services of providers and facilities assisting Portland's homeless

population. The City proposes to use its 2015-2016 ESG entitlement allocation of \$161,834 to purchase supplies for the Homeless Health Clinic, and to provide case management and homeless prevention services through City Family Shelter programs administered by the Department of Health and Human Services.

4. **Portland Development Fund:** Originally established in 1986, the goal of the Portland Development Fund is to respond to the need for 1) housing that is affordable to low and moderate income families, and 2) commercial and industrial development opportunities to further strengthen the local economy and generate jobs, particularly in downtown Portland.

Originally there was approximately \$1 million in the Portland Development Fund for both housing and economic development activities. Sources of funding include Urban Development Action Grant (UDAG) miscellaneous revenue, CDBG program income, CDBG entitlement allocations from previous years, and loan repayments and interest generated. In 1990 the fund was split into Housing, administered by the Housing & Community Development Division, and Economic Development, administered by the Economic Development Department.

The Housing portion of these funds is appropriated for several activities, including the development of new affordable rental housing, single and multi-family rehabilitation, and lead paint abatement. UDAG funds administered by the Economic Development Department, which is now approximately \$739,000, are used for loans and investments by the Portland Development Corporation.

Expenditures

The three expenditure categories utilized by the CDBG Program are: Social Services, Development Activity Funding, and Program Planning and Administration. A brief description of the services provided for the 2015-2016 fiscal year under each of these categories follows. A more comprehensive source of information on these programs can be found in the 2010-2015 Consolidated Housing or the 2015-2016 Annual Action Plan issued by the Department of Planning and Development.

SOCIAL SERVICES

1. Basic Needs Services includes Amistad Peer Coaching Program and Preble Street: Day Shelter, Teen Shelter, Women's Shelter and Food Programs.
2. Safe Neighborhood programs include the Amistad Support and Recovery Center, the Police Department's Community Policing Program, Milestone Homeless Outreach, and the Wayside Food Programs.
3. Work and Shop programs include the Catherine Morrill Day Nursery / Child Care Assistance Program.
4. Economic Development programs include Coastal Enterprises, Inc. Portland Jobs Alliance Program.

DEVELOPMENT ACTIVITY FUNDING

1. Housing projects include the Community Housing of Maine Supportive Housing.
2. Mobility and Accessibility projects include the Planning Department's Bike Parking Project and the Public Services Department's Reiche School Pedestrian Safety Project.
3. Safe Neighborhood projects include Public Service's Greenleaf Street Reconstruction Project.
4. Economic Development projects include the City of Portland's Business Assistance Program, and Coastal Enterprises, Inc.'s

Portland Job Alliance and Microenterprise Assistance programs.

PROGRAM PLANNING & ADMINISTRATION

The following are reimbursements to general operating accounts for program administration services:

1. The Department of Planning & Development provides Administration, Planning, Housing & Community Development, Historic Preservation, and Citizen Participation services which are reimbursable under the HCD guidelines.
2. The City receives reimbursement for a portion of the annual audit cost associated with auditing the HCD Program.
3. The City may receive reimbursement for a portion of the fringe benefits associated with the positions funded with HCD monies. However, the fringe benefit reimbursement along with all of the administrative costs must not exceed the 20% cap set by CDBG guidelines.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2016 School budget was approved by the voters May 12, 2015.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 76.0% of the FY16 Education budget.

State Subsidy

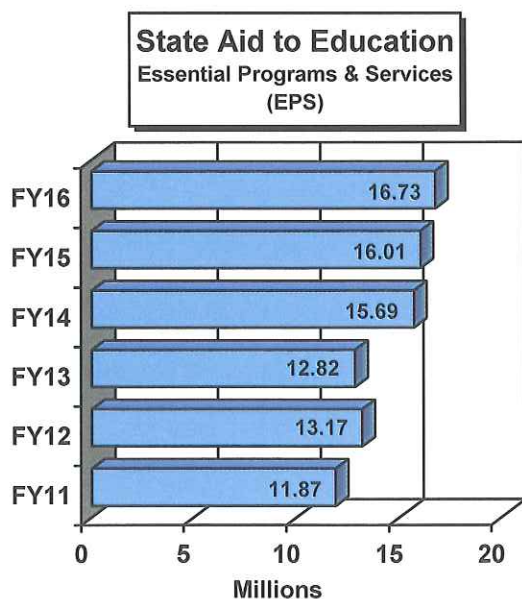

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The portion of State Aid for Essential Programs and Services (EPS) accounts for 16.3% of the School's FY16 Budget. The chart represents the State Aid to Education EPS revenue history over the past six years.

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Department of Education for the City be administered by a School Committee comprised of nine members. The School Committee performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into three categories: (1) Salaries and Benefits, (2) Services, Supplies and Other Costs, and (3) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Note: FY15 and FY16 are estimated amounts.

Budget Overview

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114 mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac Indian name meaning "shaped like a

great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cumberland County Civic Center. Two major medical centers, Maine Medical Center and Mercy Hospital, are also located in the City.

Budget Overview

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

Budget Overview

1. projected collection estimates for the current fiscal year with explanations for projections substantially different than estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion

of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department budget, under the new school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final

Budget Overview

justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self balancing accounts that comprise its assets, liabilities, reserves, fund equity/retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, recreation and facilities management, public services, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the

acquisition, construction or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds in FY16 are: Fish Pier, Sewer, Stormwater and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

Budget Overview

All proprietary funds are accounted for on a flow of economic resources measurement focus.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Basis of Budgeting

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Activity: A segment of the account number that identifies the type and purpose of the account. The two activity classifications used in budgeting are: 300's - Revenues and 400 & 500's - Expenditures.

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The element classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The element classification for employee related costs such as health insurance, pension, FICA, unemployment, and tool allowance.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Glossary of Terms

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The element classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Client Expenses: The element classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The element classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The element classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Glossary of Terms

Element: A segment of the account number that distinguishes types of expenditures. The major classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance and Repairs, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, furniture and other equipment.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of/and guidelines for financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices as a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, recreation and facilities management, public services, health and human services, public library, county tax, metro, and debt service.

Glossary of Terms

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

HUD: The abbreviation for Housing and Urban Development.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

Insurance: The element classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category (salary, materials, telephone service, travel, etc.) separately, along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The element classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The element classification used for tangible property or equipment used for operations having a cost between \$5,000 and \$10,000 per single item.

Glossary of Terms

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Classification: A basis for distinguishing types of expenditures in conjunction with the element. The major expense classifications used by the City of Portland are: Payroll, Benefits, Administrative Services, Client Services, Contractual Services, Maintenance and Repair, Rental, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The element classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Payroll: The element classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Rental: The element classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Glossary of Terms

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The element classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The element classification which includes expenses for electricity, fuel, telephone, and water and sewer.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

Library	\$ 143,287
Capital Outlay	\$ 106,900
Public Health GPH Contract	\$ 98,108

Shelter Security Services	\$ 93,989
Supplies All-Other	\$ 92,449
Metro	\$ 87,629
Regional Transportation System (RTP)	\$ (98,325)
Canco Road Property Lease (Fire)	\$ (111,102)
Contingency Legal Services (GA)	\$ (200,000)
Workers Comp Indirect Chargebacks	\$ (200,222)
Vehicle Fuel	\$ (304,685)

Enterprise Funds Expenditures

The 2016-2017 Enterprise Funds budget totals \$49,909,707, an increase of \$3,397,702 or 7.3% over the 2015-2016 budget.

The FY17 Stormwater Fund has an expenditure budget of \$4,111,512, resulting in an increase of \$1,676,614. In FY16 the Stormwater program separated from the Sewer Fund, with the FY16 budget reflecting a mid-year implementation. The FY17 budget estimate represents the 1st full year of Stormwater Fund operations.

The Jetport expenditure budget increased \$1,024,376 or 4.9% (or \$445,802, or 2.2%, excluding surplus). The more significant Jetport budgetary changes include the following:

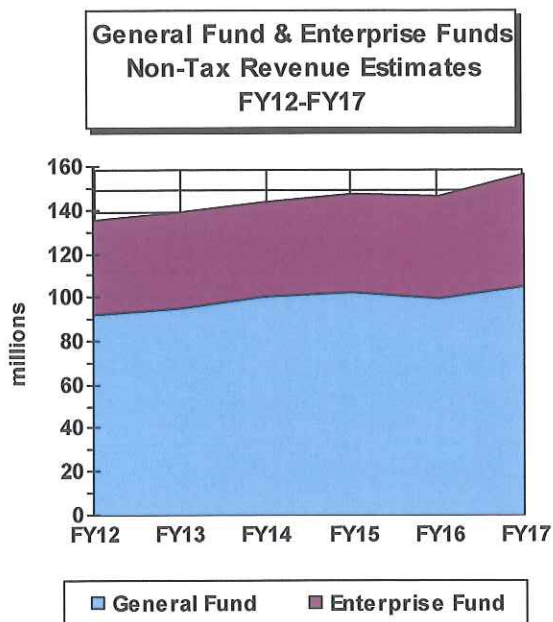

Anticipated Surplus	\$ 578,574
Wages	\$ 248,606
Benefits	\$ 162,684
Runway Snow Removal Contract	\$ 97,750
Marketing Contracted Services	\$ 87,050
Utilities	\$ 73,267
Baggage Handling Maintenance	\$ 66,632
Indirect Costs	\$ (79,720)
Air Rescue Contributions	\$ (216,833)

The Sewer Fund expenses increased \$690,774 or 3.0%. These changes include:

PWD Assessment	\$ 392,163
Debt Service	\$ 324,541
Misc. Contractual Services	\$ 121,230

Benefits	\$ 79,209
Minor Equipment / Minor Capital	\$ 68,558
Construction Supplies	\$ 54,900
Indirect Costs	\$ (45,025)
Capital Outlay	\$ (90,000)
Sewer Line TV Inspections	\$ (300,000)

General Fund Revenues

The 2016-2017 General Fund non-tax revenues are estimated at \$104,493,514, an increase of \$5,442,290, or 5.5%, over the 2015-2016 budget. The significant revenue changes are comprised of the following:

Debt Service Enterprise Fund Charges	\$ 1,937,125
Barron Center Patient Receipts	\$ 660,424
Excise Tax	\$ 657,450
Social Services Grant Reimbursements	\$ 530,247
Building Permits	\$ 450,000
Debt Service School Department Charges	\$ 432,192
SS State Social Service (GA)	\$ 351,174
Health Insurance Employee Reimb	\$ 333,484
Parking Tickets	\$ 300,000
CIP Wage Reimbursement (Public Works)	\$ 277,000

Police Dispatch Cost Share Reimb	\$ 256,342
Parking Garages & Lots	\$ 245,188
Parking Meters	\$ 210,000
Revenue Sharing	\$ 199,103
Business Licenses	\$ 170,355
Police Outside Jobs	\$ 148,500
Trash Bags	\$ 146,477
Street Opening Reimb (Engineering)	\$ 144,532
Debt Svc Communications Systems Reimb	\$ 134,682
Recreation Program Income	\$ 130,725
Canco Road Rental Income	\$ 113,430

Misc. Wage & Benefit Enterprise Fd Chgs	\$ (533,866)
Debt Service Operating Transfers In	\$ (647,785)
Public Health Division	\$ (945,904)

Enterprise Funds Revenues

The Enterprise Funds 2016-2017 revenue estimates are \$51,680,227, an increase of \$4,250,372 or 9.0%.

The major changes in the revenue estimates include the following:

Stormwater User Fees	\$ 3,658,143
Jetport Car Rental Commission	\$ 437,990
Jetport Terminal Rental	\$ 263,344
Jetport Landing Fees	\$ 223,744
Jetport Concessions	\$ 102,812
Jetport Interest Income	\$ 100,000
Jetport Taxi Business Licenses	\$ (131,525)
Sewer User Fees	\$ (414,758)

Housing & Community Development Program (HCD)

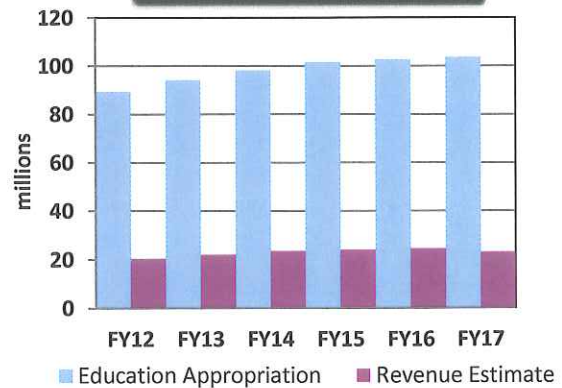

The final 2016-2017 HCD program totals \$1,905,948, an increase of \$384 from the 2015-2016 program. The Entitlement Grant increased \$384, and Program Income and use of Surplus Funds remained unchanged, at \$114,500 and \$0 respectively.

Education

The Education budget for 2016-2017 is \$103,602,884, an increase of \$826,227 or 0.8%. A brief summary of the changes in school expenditures include:

Salaries	\$ 990,099
Student Transportation Purchase Private	\$ 193,508
Books & Periodicals	\$ 187,737
Employee Training & Development Svcs	\$ 174,918
Tuition In-State SAU	\$ 150,000
Stormwater User Fees	\$ 69,154
Natural Gas	\$ (78,207)
Tuition to Private Source	\$ (79,029)
Purchased Professional / Technical Svcs	\$ (79,712)
Heating Oil	\$ (105,142)
Textbooks / Curriculum Update	\$ (116,849)
Debt Service	\$ (204,235)
Benefits	\$ (314,476)

**Education Appropriations &
Non-Tax Revenue Estimates
FY12-FY17**

The total non-tax revenue estimate for Education is \$23,271,508, a decrease of \$1,431,939 or 5.8%. A summary of the revenue changes are as follows:

Use of Surplus	\$ 335,000
Tuition Public K-8	\$ 40,000
PATHS Part I & Part II Assessment	\$ (42,508)
Tuition – State Agency Client	\$ (70,000)
MaineCare Medicaid Reimbursement	\$ (75,000)
Food Service Revenue	\$ (100,457)
State Subsidy - EPS	\$ (1,527,379)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, September and March.

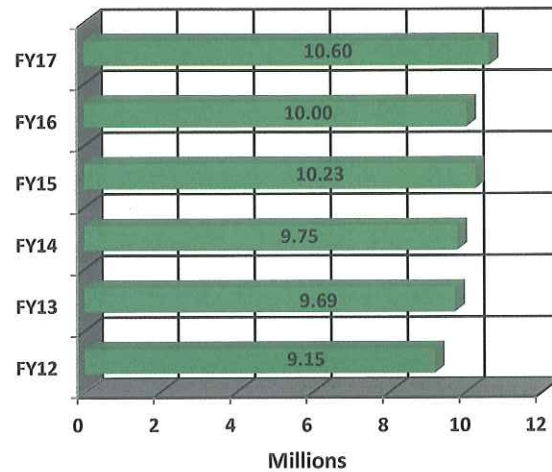

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The last property revaluation was phased in over two years: FY2006 and FY2007. The previous revaluation was done in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY16 and FY17 are estimated amounts.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

Note: FY16 and FY17 are estimated amounts.

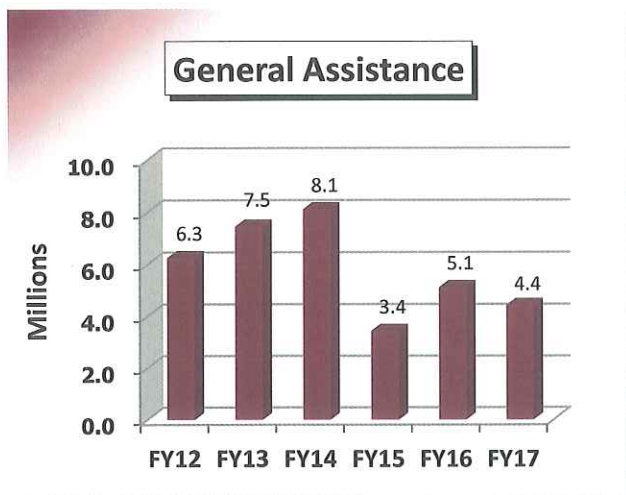

Licenses and permits found in this category include street occupancy permits, business

licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, Business Licenses, and the Cable TV Franchise are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

General Assistance (GA) reimbursement is the largest revenue in this category. In FY16, the State of Maine GA reimbursement rate changed from a tiered percentage reimbursement rate (50% / 90%) to a flat seventy percent (70.0%) reimbursement rate based on the City's eligible program expenditures. The lower FY15 GA revenue collections, as well as the FY16 revenue projection and FY17 estimate, reflect changes by the state in the GA reimbursement eligibility guidelines, excluding certain immigrants. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

Note: FY16 and FY17 are City estimated amounts.

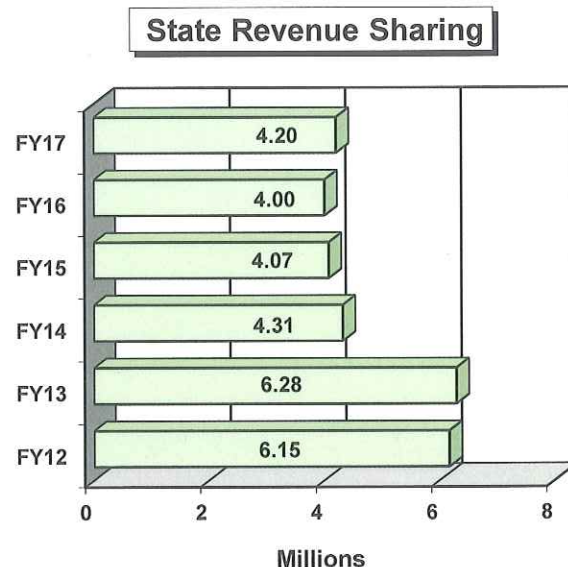

An additional major source of revenue in this category is State Revenue Sharing.

Traditionally the State has set aside 5% of all the sales, corporate, and personal income tax

revenues it receives, creating a Revenue Sharing pool. The Revenue Sharing pool is then shared amongst 492 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

The State's FY16 budget, enacted June 30, 2015, temporarily reduced the Revenue Sharing distribution pool from 5.0% of all state sales, corporate, and personal income tax revenues to 2.0% for four years (FY2016 - FY2019). This reduction replaces the previous FY2014 and FY2015 reduction, which capped Revenue Sharing at \$62.5m.

Under this changed formula, FY17 Revenue Sharing I is calculated by multiplying the total Revenue Sharing Pool by 80%. Revenue Sharing II is calculated by multiplying the total Revenue Sharing Pool by 20%, with an added \$4m lump sum distribution at year end.

Note: FY16 and FY17 are City estimated amounts

Revenue Sharing I is based on the following formula:

$$\frac{\text{population of town} \times \text{assessment (tax levy)}}{\text{state valuation for municipality}} = \text{the town's number}$$

Rev-II distributions are based on this calculation:

- a) assessment / state valuation = mil. rate
- b) (mil. Rate - .01) x population
= the town's number

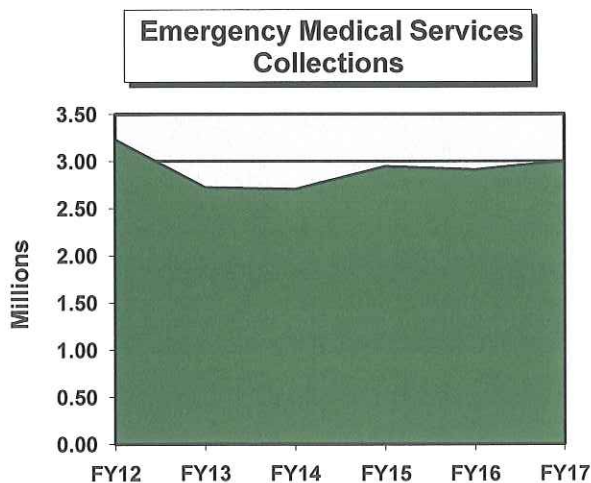

All numbers are added together to come up with a statewide total. From the statewide total, each municipality is assigned a percentage of the total. The resulting percentage is then multiplied by the pool amount.

In FY2017, the State's Revenue Sharing projected share for Portland is 6.1%.

This category also includes the Local Road Assistance Program (LRAP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

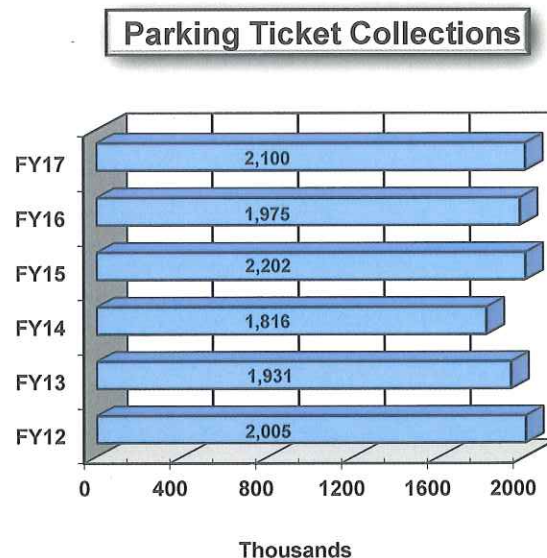

Note: FY16 and FY17 are estimated amounts.

Major sources of revenue are derived from Patient Receipts (Barron Center), Cultural / Recreation Services, Health Insurance Reimbursements, Emergency Medical Services (EMS), and Recycling.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties.

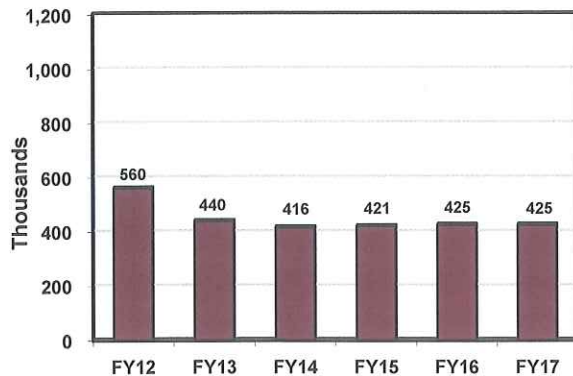

Note: FY16 and FY17 are estimated amounts.

6. USE OF MONEY AND PROPERTY

This revenue type includes revenues received from parking facilities, rental income, and interest earnings.

Interest Income

Note: FY16 and FY17 are estimated amounts.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, cemetery endowments, library, and School department are known as interfund charges. It also includes State Grants, Housing and Community Development Grants, Federal Grants and Other Agency Revenues.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, City Manager, Assessor, Finance, Legal, Human Resources, Parking, Economic Development, Planning, Permitting & Inspections, Information Technology, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police and Fire / EMS operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to the most advanced investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment and economic slowdown.

Fire

The Fire Department provides for fire suppression, emergent medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Department is also responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system.

The Fire Department maintains ten fire stations and the Spring Street Fire Museum. A minimum of Forty-six firefighters and paramedics staff each shift on 18 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, two air rescue units, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

3. PUBLIC WORKS

The Department of Public Works is responsible for providing many of the essential services to City of Portland residents throughout the year. These services include the operation of the Riverside Recycling Facility (under a contract arrangement), and a comprehensive solid waste program, which includes trash collection, residential curbside recycling, a fall leaf collection program, as well as a heavy item / bulky collection pick-up program. Public Works also provides for the construction and maintenance of city streets and sidewalks, the sewer system, stormwater maintenance, and technical support / engineering services for Capital Improvements Projects. Other key services include the removal of snow and ice from city streets and sidewalks, maintenance of

the Portland Downtown District, maintenance and repair of all City vehicles and equipment, and traffic management, including maintenance of traffic signaling, street lights and traffic control and calming. Public Works also provides core public works services to four adjacent islands in Casco Bay.

4. HEALTH AND HUMAN SERVICES

The Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

Public Health is the state's most comprehensive local public health department. It consists of six programs: Operations, Family Health, Chronic Disease Prevention, the India Street Clinic, Environmental Health and Safety, and Health Equity and Research.

Social Services provides both financial assistance and support services for low-income Portland residents. Programs operated include General Assistance, Homeless Shelters for individuals and families, Case Management, and Representative Payee Services.

The Barron Center is the state's second largest long-term care nursing facility. The Barron Center is a 219 bed skilled rehabilitation and nursing facility, including a 50 bed specialty unit for the care of dementia. Residents of the Barron Center are able to receive speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The Office of Elder Affairs provides the community with an Elder Advocate. Assistance is provided in the form of senior information and referral, adult day health services, and community collaboration. Elder Affairs also operates Martha's Cottage, which is the only

domestic violence shelter for seniors in the country.

The majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants and reimbursement for direct services. The largest funding source for long-term care services at the Barron Center is MaineCare (Medicaid), followed by Medicare and private insurance.

5. Parks, RECREATION AND FACILITIES

The Department of Parks, Recreation and Facilities oversees the Parks, Forestry and Cemetery divisions, recreational programs and activities, the maintenance of all city and school buildings, including the school HVAC systems and the waterfront properties, and the marketing and events management at the Expo, Merrill Auditorium, Ocean Gateway, Hadlock Field, and Fitzpatrick Stadium.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Parks, Recreation and Facilities is responsible for the day to day management and care of the parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department reaches out to many citizens and visitors through over 100 individual parks and 9.2 miles of trails.

All of this encompasses a geographical area of over 1,200 acres. The Parks, Recreation, and Facilities Department also maintains a wide variety of City trees as well as providing new plantings, and also manages two active cemeteries (Evergreen and Forest City) and several inactive cemeteries.

Recreation offers a vast array of services and leisure activities including recreation programs,

before and after school care, center for therapeutic recreation, pools, special events, operations of the ice arena, golf course, and golf course restaurant, and the maintenance and scheduling of athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 83.3% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

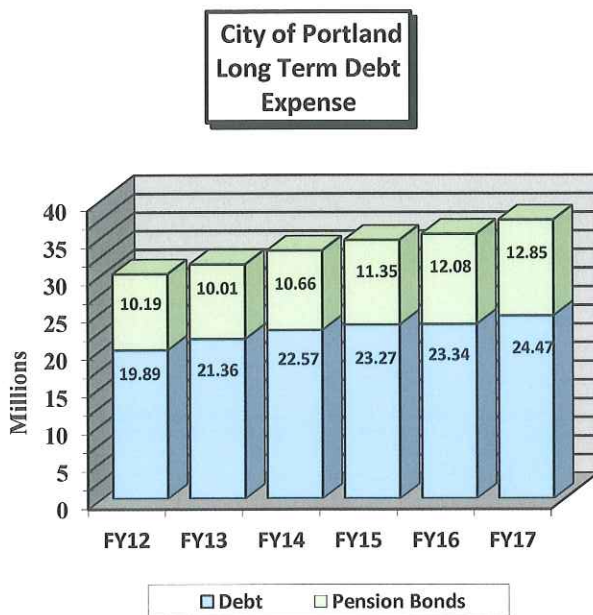

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services to the residents of each of its three participating communities. The Town of Falmouth joined the City of Portland and the City of Westbrook, Maine as members in April of 2009. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. The Board of Directors has responsibility for budgeting and financing. The District's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the District, fares and assessments of member communities.

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the annual assessment is \$2,572,744 or 81.7%.

8. LONG TERM DEBT

Note: FY16 and FY17 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City budget. For fiscal year 2017, the gross debt budget is \$37,323,569, or 20.0% of the City's general fund budget; the School Department and Enterprise Funds reimburse the general fund \$14,918,636 of this expense. The FY17 net cost of debt service to the City general fund is \$21,737,962.

9. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2016, the City's equalized State Valuation of \$7,996,350,000 was 19.6% of the County's total equalized State Valuation of \$40.8 billion, resulting in a FY17 assessment to the City of Portland of \$5,417,119.

City Council

The City of Portland operates under a charter which was last amended on November 02, 2010. The City Council is comprised of a Mayor, elected for a four year term, five district Council members, and three members elected from the registered voters of the entire City-at-Large. The Council members are elected for three-year staggered terms.

The charter grants to the City Council all powers to enact reasonable by-laws, regulations and ordinances. The council adopts an annual budget, authorizes the issuance of debt and provides for an annual audit. The Mayor has the authority to veto the annual budget, however, the veto may be overridden by six members of the City Council.

In addition to formally meeting two times each month, the Council meets frequently in subcommittees and workshops.

The revenues received by this department are from Housing & Community Development (HCD) grant funds for a portion of the annual audit costs.

City Clerk

The Department of City Clerk has three major functions: Elections, Vital Records, and City Records Maintenance; Business Licensing transferred to the Department of Permitting & Inspections, a newly created department in FY17. The City Clerk oversees the operation of these functions and acts as Clerk of the City Council by recording and keeping all its official acts. The Principal Administrative Officer, the Clerk's Deputy, is charged with ensuring the City Clerk's Office runs in accordance with the Clerk's directives and obligations.

The Election Administrator is charged with facilitating municipal and state elections. The City Clerk's office is responsible for all election preparation, including preparing ballots, nomination papers, training election officials, testing the election scanners to certify their accuracy, and absentee voting. The Clerk's Office is also responsible for tallying election results and securing voted ballots. Three elections are budgeted for FY17: the Nov. 2016 Presidential Election, the May 2017 School Budget Validation and 2017 Special City Council Election. Voter Registration is part of the election process and involves maintaining voter lists, certifying election nomination papers and citizen initiative petitions, processing peoples veto papers, and generating reports from the Central Voter Registration system (CVR). This is a statewide system designed to standardize and centralize voter registration.

The Vital Records Clerks are responsible for recording and issuing vital records such as the births, deaths and marriages that occur in Portland. An account has been created to facilitate donations for the preservation of these records, which are in poor condition; these records must be maintained forever. In addition, Clerks are responsible for performing marriages, the licensing of dogs, the sale of fish and game licenses, domestic partnership registrations, genealogy request searches, and providing Notary and Dedimus Justice services.

City record keeping involves indexing and binding Council minutes, responding to research requests, and the storage of the audio/video recordings of several boards and committees.

City Manager

This department consists of the City Manager and support staff. The FY17 budget transfers the Housing Safety division to a newly established Department of Permitting & Inspections.

Appointed by the City Council, the City Manager serves as the Chief Executive Officer of the City. In addition to the City Manager, the administrative staff also includes other key staff members necessary for the success in providing high quality services. As the largest municipality in Maine, the staff works diligently toward being involved and pro-active in the Portland community, as well as in the broader local and state community.

Assessor

The Department of the Assessor is responsible for the creation and maintenance of the tax roll. Additionally, it maintains records on over 1,300 exempt real estate accounts. The distribution of taxes is accomplished by assigning taxable assessed values to approximately 22,600 real estate accounts and 4,200 personal property accounts. Among the documents that must be accurately maintained by this department are real property records, property maps, ownership records, property sales information and personal property records. Computerization and web site development of department records and tasks continue as an enhancement to the assessment and data processing functions of this office.

Finance

The Department of Finance consists of Administration and Treasury. The Finance Director and two division managers oversee the efficient operations of these functions.

The FY17 division expenditures increased \$50,096, or 3.0%, due to wages. The revenues reflected have increased by \$286,774 or 5.3%. The revenue increase is primarily due to higher projected estimates for Interest & Penalties and Revenue Sharing.

Finance Administration

Finance Administration oversees all financial operations of the City.

Finance Administration responsibilities include payroll, accounts payable, grant accounting, and general and enterprise fund accounting for all City departments. Payroll processes weekly payroll for over 1,600 full-time, part-time, temporary, on-call and seasonal employees, maintains earnings and reduction records, and reports federal and state taxes and provides extensive earnings research for Maine State Retirement System. Accounts Payable processes all City requests for payments to vendors, and is responsible for sorting all incoming City Hall mail. The Accounting staff also maintains the City's general ledger.

Budget is responsible for monitoring expenditure activity for the City, providing a monthly analysis of expenditures and revenues, reviewing all payment documents, processing departmental requests for transfers between operating accounts, and administering the annual budget process.

Purchasing assists City departments in obtaining goods and services. Purchasing is responsible for issuing bids, obtaining price quotations, and resolving differences with vendors. Purchasing also works closely with the Legal Department to develop procurement contracts.

Treasury

The Treasury division is responsible for the collection of all monies into the City. This includes the collection of real estate taxes, personal property taxes, delinquent sewer user fees, and vehicle excise taxes and registration fees, as well as issuance of license plates. Treasury also collects parking ticket revenues and miscellaneous receivables, processes boat and utility trailer registrations, and issues island vehicle and golf cart registrations and Metro bus passes. All cash receipts for the City are processed in Treasury.

Residents may visit the Treasury Office in City hall for these services. There are also electronic options for residents:

- (a) Treasury offers an electronic funds transfer (ACH) monthly debit from citizen accounts to conveniently pay taxes.
- (b) Web payments for residents to pay taxes via credit card or e-check: <http://portlandmaine.gov/1567/Pay-Your-Property-Taxes-On-Line>.
- (c) Online options are available for residents to re-register vehicles through the State of Maine website: <https://www1.maine.gov/online/bmv/rapid-renewal/>.
- (d) Parking tickets can also be paid online through the website: <http://www.informe.org/ppt/>.
- (e) View / Print Tax Bills on-line at: <http://www.portlandmaine.gov/taxbill>.

The Treasury general fund expenditures increased minimally by \$448. Non-tax revenue projections include an anticipated increase in Interest and Penalties and Revenue Sharing.

Legal

The goal of the Legal Department is to provide competent and cost-effective legal advice, services and representation to the City Council, its officials, boards and commissions, department heads and City staff. The department is under the direction of Corporate Counsel, who manages a staff of three attorneys, one paralegal / insurance claims administrator, and a paralegal / legal assistant.

The department provides a full range of legal services for the City and maintains a high level of expertise in areas of particular importance to municipal government such as tax collections, contracts, economic development, assessments, planning, zoning, Rule 80B appeals, administrative law, general assistance, construction law, transportation, personnel, municipal finance, code enforcement, liability claims and statutory and ordinance drafting and interpretation. In addition, the department staffs and/or provides legal advice to all City standing and special committees and Boards.

The majority of the revenues received by the department are from charge backs for legal services provided by the attorneys for the Fish Pier, Sewer, Stormwater, and Jetport funds. The department also receives revenue for various ordinance code violations, and settlements.

Human Resources

The Department of Human Resources provides many services to all City departments, including recruitment and hiring oversight, civil service program administration, labor relations, organizational development and education, employee health and benefits administration, and safety and risk management.

Expenditures increased \$190,355, or 23.8%, largely related to a mid-year hire of a new EEO Officer / HR Generalist and an enhanced city-wide investment in employee development. The revenues received by this department are from charge backs for the services provided by the Human Resources staff for the Sewer, Stormwater and Jetport funds.

Parking

Parking falls under the direction of the Executive Department. The Parking Division manages both on-street and off-street parking in the City and administers the School Crossing Guide program. Parking Control Officers enforce on-street signage and the City's parking ordinance to encourage turnover parking and provide public safety throughout the City. When requested, Parking Control Officers also assist the Police Department with traffic control during fire emergencies, accidents, and other matters of public safety.

The Parking Division also maintains and collects revenue from 1,609 metered spaces throughout the City, 728 of which have been converted to multi-space meters that accept credit cards. The City anticipates converting additional single space meters to multi space meters in the 2017 fiscal year.

Finally, the Parking Division administers, operates, and/or oversees four parking garages and four parking lots. The division provides budgets, physical oversight, staffing, and revenue collection for these facilities.

FY17 expenses are up \$168,959, or 7.8%, largely due to additional funding for garage repairs at the Elm Street, Spring Street and Temple Street parking garages, as well as increased operating costs related to the increased installation of multi-space meters. The estimated FY17 revenues are up by \$756,350, or 10.7%, due to the FY17 garage hourly and monthly rate increases, and anticipated higher revenue collections in parking ticket and meter income.

Parking Administration

Parking Administration includes the management of on-street parking, the parking meter operation, the Parking Control Officers, and the issuance of residential parking stickers. This division also handles the administration of the Temple Street and Casco Bay parking garages.

Expenses have increased 3.9%. The FY17 revenues have risen \$520,950, or 11.8%, primarily due to anticipated higher collections in both parking ticket and parking meter revenue.

Elm Street Garage

The Elm Street Garage is a City-owned parking facility adjacent to Portland High School, and is operated and staffed by the Parking division. The Elm Street Garage provides hourly parking for people wishing to visit downtown businesses and the Merrill Auditorium / Portland Public Library area, as well as providing monthly parking spaces for employees of Portland High School, area businesses, some City Hall employees, and private citizens.

Expenses are up \$58,252, or 24.0%, primarily due to an increase in building repair funding. Revenues are up \$107,060, or 23.9%, due to the increase in the number of monthly parkers, and FY17 increases in hourly and monthly rates.

Spring Street Garage

The Spring Street Garage is a City-owned parking facility adjacent to the Cross Arena and is operated and staffed by the Parking Division. The Spring Street Garage has been used successfully as an economic development tool for downtown revitalization and provides parking for Arena events. The garage also provides hourly parking for people visiting businesses in the Congress Street / Free Street area, as well as providing monthly parking spaces for employees of area businesses and private citizens.

Expenses are up \$42,738, or 10.2%, which includes a building condition appraisal study and increased building repairs, offset by an anticipated reduction in electricity expense. Revenues are up \$102,340, or 7.9%, due to increases in hourly and monthly rates.

Temple Street Garage

The Temple Street Garage, located adjacent to the Nickelodeon Theater, is leased and managed by a private company. The Parking Division, however, oversees the operations and must approve all capital improvements in the garage. The Temple Street Garage provides hourly parking for people wishing to visit businesses in the Temple Street area, such as the Nickelodeon Theater and One City Center, as well as providing monthly parking spaces for employees of area businesses and private citizens.

FY17 expenditures are up \$15,624, or 14.4%. FY17 revenues are expected to increase by \$26,000, or 2.9%.

Economic Development

The Department of Economic Development is responsible for enhancing the economic growth of the City and is dedicated to fostering a vibrant and healthy economic climate for the benefit of all those who live and work in Portland. The Department strives to facilitate a strong and diversified tax base, an active and revitalized city, and employment opportunities.

By leading a collaborative effort among agencies, both in advocacy and acting as a business resource, the Department provides professional and knowledgeable service through quality programs and coordinated efforts to improve the well-being of Portland. The Department endeavors to keep open the lines of communication so that economic development issues are addressed in a timely, thorough, and proactive manner.

The FY17 Expenditure increase includes the inclusion of Creative Portland's Executive Director salary and assistant salary, offset by an equal increase in the FY17 Revenue, as these positions are funded by the Downtown Transit Oriented Development Tax Increment Financing District.

Economic Development

The division of Economic Development is comprised of the Director, Business Development Representative, Waterfront Coordinator, and the Senior Executive Assistant. In addition, Creative Portland Corporation (CPC) staffing of 1.8 full-time equivalents was added in FY17; CPC is a nonprofit organization which supports the City of Portland's economic development efforts, which enhances and creates business in the creative economy, arts district development, and employment opportunities.

The new CPC positions are funded 100% through the Downtown Transit Oriented Development Tax Increment Financing District. The Waterfront Coordinator position is funded through revenue from the Waterfront Tax Increment Financing District.

Portland Development Corporation

The Portland Development Corporation (PDC) is a quasi-municipal non-profit corporation created in December 1990 by the City Council. The Division specializes in providing specific programs which will assist in the recruitment and development of new and existing business and industry within the city.

The Portland Development Corporation budget is fully funded by the interest income from its business loan programs; the PDC relies on this income from its business loan program to cover its operating expenses. Expenses are offset 100% by program revenue.

Police Department

The Police Department is comprised of six divisions: Administration, Jetport Security, Uniform Operations Group, Bureau of Investigative Services, Operations Support Services, and Dispatch Services.

Following a strategic plan created in 2010, the Police Department mission focuses on three distinct areas: Service Excellence, Community Engagement, and Resource Maximization. Every decision, plan, and contact made places emphasis on these three areas. All members of the Portland Police Department reference the core values of Leadership, Integrity, and Service when interacting with the public.

The Police Department's expense increase of \$1,073,219, or 7.3%, is primarily due to increases in payroll expenses. This budget includes the addition of an Ordinance Enforcement Officer (Support Services), two Telecommunicator positions due to the retirements of South Portland personnel related to the on-going consolidation with South Portland in the Portland Regional Communications Center (Dispatch Services), as well as the transfer of the Radio System Specialist from the Fire Operations Support Services division (Dispatch Services).

Increased Communications Center and Outside Police Jobs reimbursements account for the majority of the 20.9% revenue increase of \$466,900.

Police Administration

It is the responsibility of the Chief of Police to create policy and make resource management decisions for the Police Department's resources. The administrative staff provides support in the areas of legal assistance, fiscal management, internal standards, human resources, and the investigation of complaints filed against police officers.

Expenditures in this division have increased \$30,036, or 3.0%, primarily due to increases in payroll expenses. Revenues have increased \$16,465, or 14.1%, primarily due to reimbursed Outside Jobs administrative fees.

Jetport Security

The sergeant assigned to the Jetport Security division serves as a direct liaison between the Police Department and the Jetport staff and administration.

Officers assigned to the Jetport perform duties as follows: monitor security checkpoint during arrivals and departures, actively patrol the interior of the Jetport terminal, regulate activities of taxi operators utilizing the Jetport, assist in parking enforcement at the terminal, monitor activities at the baggage claim area, perform security checks of secured areas of the complex, make patrol sweeps of the parking areas including the garage, respond to all requests for police or emergency services originating at the Jetport, and process reports accordingly.

Expenditures in this division have increased \$11,672, or 2.2%, due to increases in payroll expenses. The cost for this division is entirely offset by revenues received by the Jetport.

Uniformed Operations Group

A Commander heads the Uniformed Operations Group. The primary duty of this group is the protection of lives and property. This is accomplished through continuous patrol directed at the repression of crime and the apprehension of violators. The group consists of three patrol teams broken out into twelve squads. This unique deployment structure allows the department to assign a proportionate number of patrol officers to the high and low demand hours of the day and days of the week. It also promotes teamwork and cohesive organizational commitment within the small units. Each team is responsible for conducting routine patrol services such as responding to calls for service, traffic enforcement, building security and maintenance of public order. Directed patrol officers work closely with Senior Lead Officers in each sector of the City to enhance crime prevention and streamline problem solving.

Senior Lead Officers are assigned to six neighborhood sectors and the Youth Services program. These officers work closely with Portland residents, local businesses and their fellow officers to enhance problem solving. In addition to answering calls for police service, these officers attend meetings, collaborate with fellow officers, and work with the Community Policing Coordinators to streamline efforts in their geographically assigned areas. Portland has five neighborhood-based community policing centers located in the Parkside, Bayside, East Bayside, West End, and Munjoy Hill neighborhoods. Community Policing also serves properties owned and managed by the Portland Housing Authority.

The Uniformed Operations Group also contains a Traffic Unit responsible for traffic-related services and an Island Unit responsible for providing public safety services to residents of Peaks Island.

Expenditures in this division have increased \$576,542, or 6.6%, primarily due to increases in payroll expenses. The majority of the budgeted FY17 contractual services increase is due to the transfer of the graffiti removal contract from the City Manager's division; during FY17, graffiti removal services is transferred to Public Works and performed in-house by city staff. Revenues have increased \$182,878, or 22.4%, offsetting Outside Jobs salary and vehicle operational costs, and the increased summer police cadet patrol in the Portland Downtown District (PDD).

Bureau of Investigative Services

The Bureau of Investigative Services is commanded by the Assistant Chief and is comprised of the following sections: crimes against persons, crimes against property, and narcotics investigations. The division is responsible for the thorough investigation of criminal incidents referred from the rest of the department. The division also provides supervision of the court officer, criminal process services, and the victim advocacy program.

Expenditures in this division have increased \$64,797, or 3.8%, largely due to increases in payroll expenses. Revenues received include funding from the Maine Drug Enforcement Agency (MDEA) and the Police Victim Witness Advocate grant for salary reimbursement. FY17 revenues reflect an increase of \$2,943 or 1.8%.

Operation Support Services

The Operation Support Services Division is commanded by the Assistant Chief and is comprised of the following sections: computer crimes, forensics, property, training, and records. Included in the budget are minor costs associated with the Regional Forensic Crime Laboratory.

Expenditures in this division have increased \$99,822, or 13.6%, due to increases in payroll expenses including the addition of an Ordinance Enforcement Officer, as well as a return to a normalized level of training expenses. Revenues have decreased \$3,400, or 6.8%.

Dispatch Services

The Portland Regional Communications Center (PRCC) comprises Dispatch Services, supervised by the Emergency Communications Director. The PRCC is responsible for receiving telephone requests for all emergency services and dispatching appropriate resources as well as providing field officers with automated information 24 hours a day.

In 2011, telecommunications completed a regional consolidation that allowed the dispatch center to dispatch police and fire calls for the towns of South Portland and Cape Elizabeth. This reorganization has allowed all three communities to maximize their resources while emphasizing a commitment to service excellence.

Expenditures in this division have increased \$290,350, or 14.7%, primarily due to payroll increases. This increase incorporates the on-going transition / merger of personnel resulting from the consolidation with South Portland, as well as other payroll increases which include the addition of a Radio System Specialist transferred from the Fire Department. Overtime cost increases include the one-time cost of a new State training requirement for Emergency Fire Dispatchers. Revenues have also increased \$256,342, or 45.0%, due to the regional cost-sharing reimbursement agreement.

Fire Department

The Fire Department consists of five divisions: Administration, Code Enforcement and Community Services, Field Operations, Jetport Air Rescue, and Operations Support Services. The Fire Chief oversees the operation of these divisions.

The Fire Department's overall expenditure increase is \$213,967, or 1.3%. Payroll accounts for the majority of this increase, which comprises of a net of 1.5 new full-time equivalent (FTE) positions and a cost of living increase. The FY17 budget also includes an additional allocation of \$50,000 for an assessment of the fire department stations located around the city. The expenditure increases are offset in part by a decrease of the Canco Road Lease; the City purchased the 212 Canco Road property during FY16.

The Fire Department's revenue decreased \$63,121, or 1.4%. The Air Rescue expenditure budget, reimbursed 100% by the Jetport, decreased \$218,367 largely due to the division's reduction of 4.0 FTE Firefighter/EMT positions. Larger department revenue changes also include an increase in the Emergency Medical Services (EMS) revenue projection.

Fire Administration

The Administration Division is responsible for the planning, organization, and day-to-day operations of all fire suppression, emergent medical care, fire prevention, disaster preparations, and terrorism responses within Portland. The policies and procedures that guide the department in carrying out its mission are established by the Fire Chief.

This division also administers the human resources activities for the department including hiring, worker compensation claims, benefits, wellness, risk management, and payroll. The division has instituted a Peer Support Team, using the Police Department model, to deliver support and services to members facing crisis; this endeavor has positively impacted leave associated with Critical Incident Stress cases.

The Fire Administration budget decreased by \$82,722, or 11.7%, mainly due to the reduction of an Assistant Fire Chief position. Division revenues increased \$23,992, or 22.3%, largely due to the Homeland Security grant salary reimbursement associated with the Emergency Management Administrator's increased hours.

Code Enforcement & Community Services

The division of Code Enforcement and Community Services is responsible for the review of all building permits for renovation or new construction for structures that house three or more units, and the review of all commercial buildings. Additionally, the division reviews site plans, building permits, sprinkler system permits, fire alarm system permits, as well as the installation of above ground & underground storage tanks and liquefied petroleum gas tanks.

The division administers the Fire Prevention Code, N.F.P.A 101 Life Safety Code, the State laws of the Fire Service and the National Fire Codes, food and liquor code requirements, and fuel inspections. Codes are updated throughout the year and educational seminars are conducted. This division also provides the management oversight of company level inspections of residential and commercial properties totaling over 5,000 a year.

The division of Code Enforcement and Community Services also comprises the public information, education and community outreach initiatives, which includes the Portland High School Program, public education materials, and public information of current events affecting the citizens of Portland.

The division's budget decrease of \$129,725, or 34.6%, is mainly attributed to staffing changes: the reduction of a Firefighter/EMT and a transfer of a Captain/EMT to the Field Operations division. Revenues increased \$7,904, or 86.9%, due to an adjustment in licensing and permit revenue.

Field Operations

The Field Operations Division is responsible for providing emergency services including fire suppression, emergency medical care and transport, hazardous materials response, technical rescue response and any possible public emergency. The division supports fire and life safety programs through routine field safety inspections.

The Field Operations division is responsible for the development of skill sets for the entire department. Training evolutions are conducted daily to ensure proficiency in the delivery of Emergency Medicine and Firefighting services. Responsibilities include ensuring compliance with state mandated EMS requirements, which involves overseeing the medical licenses of over 200 personnel. Field EMS Operations provides advanced life support to the City's residents, and the working and visiting population of Portland. Services range from basic patient assessments and CPR, to sophisticated advanced life support intervention, such as advanced airway management and complex drug therapies. The unit provides in-service training for all fire department members as well.

Field Operations provides emergency services for the waterfront area, islands, and all marine craft associated with Portland Harbor and Casco Bay, including emergency medical transportation for the island residents, as well as training for the islands' volunteer call forces. The crew conducts fire prevention inspections of waterfront facilities and harbor patrols when threat conditions warrant. Additionally, this division provides fire protection for citizens of the Casco Bay Islands associated with the City of Portland, primarily Peaks Island, Cliff Island, Cushing Island, House Island, and Great and Little Diamond Islands. This division provides continuous seamanship and pilot training to assure competent boat handling for the navigation of the Portland Harbor and Casco Bay waters, as mandated by Fire Department operations.

The Field Operations Division expenditure increase is \$772,837, or 5.8%. The largest expenditure increase is in Payroll and incorporates 8.3 restored positions, previously reduced with the ending of the SAFER grant, and a transfer of a Captain/EMT from the Code Enforcement and Community Services division. The revenue increase of \$89,250, or 2.8%, is due to an anticipated increase in EMS collections.

Air Rescue Station

The Jetport Air Rescue Station Division provides aircraft rescue and firefighting for the City's airport. Efforts are also placed on fire prevention measures and fire safety at the aircraft loading areas. Air Rescue Station performance is measured according to Federal Aviation Administration standards for aircraft safety performance. Firefighting abilities are measured in accordance with N.F.P.A. 1003 Professional Qualification Standards.

The Air Rescue Station division's expenditure decrease of \$218,367 or 19.8%, and corresponding revenue decrease, is predominantly due to a reduction in 4.0 Firefighter/EMT positions.

The Air Rescue service expense is fully reimbursed through inter-fund charges to the Jetport's Enterprise Fund.

Operation Support Services

The Operations Support Services Division encompasses Hydrants, Building Maintenance and Fire Alarm. The hydrant system is the backbone of the fire suppression efforts of the Fire Department. The department is charged by the Portland Water District to ensure that the 1,620 hydrants in the City are properly maintained for use with high-flow firefighting equipment. Building maintenance provides for the operation of nine of the city's fire stations and the fire museum. The division maintains station heating and plumbing systems and makes necessary building repairs, including preventive maintenance for boilers, emergency generators, and compressors. The fire alarm section maintains the City's fire alarm system and emergent and non-emergent radio systems, and supports the 911 Portland Regional Communication Center's (PRCC) core equipment.

The Operations Support Services expenditure decrease of \$128,056, or 11.6%, is attributed to the elimination of lease payments for the Canco Road facility, which the city assumed ownership of in FY16, and the transfer out of the Radio System Specialist position to Police Dispatch. This budget also incorporates additional funds for fire building assessments.

This division's revenue is generated from the Fire Alarm Master Box Connections fees (see City Code Chapter 10, Section 102©).

Department of Planning & Development

The Department of Planning and Urban Development consists of three sections: Housing and Community Development (including Administration and Rehabilitation); Transportation; and Planning (including Historic Preservation). In addition to the City funded planning programs, this budget includes CDBG expenditures for staff, which is federally reimbursed. These divisions are accounted for in various cost centers in the budget (Administration, Planning, Housing & Community Development, and Historic Preservation.)

The reorganization in FY17 moved the Inspections Division from the Planning & Urban Development Department into a new Permitting and Inspections Department.

The department's expenditure budget has decreased by \$657,233, or 29.3%; this expenditure decrease is primarily due to the transfer of the Inspections Division. Excluding the Inspections Division, expenditures have increased 2.1%. Other department changes include the reduction of 1.2 full-time equivalent (FTE) positions, increasing the professional development allocation to invest in staff training, growth and retention, funding for recording / streaming Planning Board meetings, and an increased advertising allocation.

The department's expected revenue, excluding Inspections, decreases \$11,868, or 1.4%. This decrease reflects reductions in the HCD funding for salary reimbursements, offset by FY17 increased fees and project review reimbursements.

Planning & Development Administration

The Administration division oversees all operations of the Department of Planning and Urban Development. A greater part of the expenditures are salaries that are included on the CDBG side of the budget.

Expenditures have increased minimally by \$2,020, or 0.4%.

Revenues have decreased \$16,364 or 6.2%. Changes include the revenue reduction of the part-time Bicycle / Pedestrian Program Coordinator project position which was eliminated in the FY17 budget and a lower HCD allocation for salary reimbursement, offset by a projected increase in transportation project review revenues.

Planning

The Planning division provides development review services for site plan, subdivision, historic preservation, DEP site location permits, and rezoning requests. Planning also provides comprehensive and long range planning for the City. These services include the East Bayside Areawide Brownfields Plan, neighborhood planning and implementation of general and specific master plans, and public realm planning. Planning also manages the Congress Square Park redesign, the Public Art program, and other urban design initiatives.

Planning expenditures have increased by \$13,312, or 1.7%. FY17 expenditure changes include the reduction of an Office Assistant.

Planning revenues have decreased \$3,032, or 0.8%, due to reduced revenue from HCD funds toward salaries, offset by an increase in application and reimbursable reviewer charge revenue.

Housing & Community Development

Housing and Community Development is responsible for administering all of the City-assisted housing rehabilitation loan and grant programs, as well as homeownership efforts. Housing-related planning activities are also carried out by this division.

This portion of the Housing and Community Development budget is entirely funded by the Community Development Block Grant (CDBG), Home Grant, and Housing Development Fund (program income from CDBG loan paybacks); any increase or decrease in the budget has no impact on the tax levy.

Historic Preservation

Historic Preservation provides services relating to the historic preservation ordinance and historic preservation planning and grants. The staff works closely with the Historic Preservation Board in enforcing and interpreting the City's historic preservation ordinance. A major project for this fiscal year will be working with the Army Corps of Engineers and the Friends of Fort Gorges on safety and stabilization improvements.

Expenses increased \$13,483, or 10.7%, primarily for assisting in the creation of three new Historic Preservation Districts.

Revenues increased \$3,287, or 5.2%, due to FY17 fee increases. Revenues received include Certified Local Government (CLG) grant funding from the Maine Historic Preservation Commission.

Permitting & Inspections Administration

The Permitting & Inspections Administration division supports this newly created FY17 department centralizing the functions of Inspections, Housing Safety and Business Licensing. This division consists of the Permitting & Inspections Director, as well as an administrative support position, and the necessary tools to support the oversight of the department operations.

Inspections

Inspections issues permits for construction of all types, and acts as the enforcement agency for building, environmental, plumbing, electrical, mechanical, food service establishments, and zoning and land use rules and regulations.

As part of the FY17 city-wide reorganization, this division transferred from the Planning Department to the newly created Permitting and Inspections Department.

For comparative purposes, the Inspections Division's expenditure budget has increased by \$117,837. The majority of this increase is due to changes in staffing needs, including a net increase of one position and the transfer of the Life Safety CEO/Plan Reviewer position from Housing Safety. The increases in the non-payroll expenditures are largely due to the shift of the Taxi licensing expenses from the Jetport; during FY17, the Taxi Licensing related items are transferred to the Permitting & Inspections' Business Licensing Division.

The revenue budget increase of \$596,475 is attributed primarily to the anticipated increase in Building Permit collections and the transferal of the Taxi Licensing revenue from the Jetport enterprise fund.

Housing Safety

In FY17, Housing Safety transferred from the City Manager's department to Permitting & Inspections. This division is responsible for ensuring the rental housing unit properties register with the city. The purpose of the program is to inspect the approximately 17,000 units for life safety issues and respond to housing complaints. The rental housing inspection program is funded by the revenue collected from the rental units' annual registration fee.

The FY17 budget more accurately represents the costs associated with the division's operations; the Housing Safety division was created in FY16. The Housing Safety budget is down \$34,329 mainly due to the transfer of one position to the Inspections Division.

Business Licensing

The Business License Specialist and an Assistant maintain and process over 2,000 licenses annually as required by the City Code. This division provides license applications and facilitates the business licensing process, coordinating all interdepartment approvals pursuant to licensing ordinances. A major emphasis of the coming year is to streamlining the process for the customers and partners.

Information Technology

The Information Technology Department (IT) is responsible for the design, development and maintenance of a large, wide-area information network, managing all the technology hardware and software used by the City of Portland. The department is divided in four sections of expertise: Applications, Technical and Customers Services, Operations, and Geographic Information Systems (GIS).

The Applications support team develops software for specialized needs, and supports the software purchased by the City. The Technical and Customer Services team is responsible for the internal and external customer service for the City of Portland. The Technical Services team manages data and voice networks, including the Help Desk, which support our workforce of more than 1,300 technology users. The Customer Services team manages customer support using a social media application called FixIt! Portland; 3,325 customer service requests were processed in 2015 from Portland residents and visitors. The Operations team monitors and maintains AS400 systems for Public Administration and Public Safety, installing quarterly updates and semi-annual updates for all applications. The Geographic Information Systems section maintains and updates the computerized mapping systems used by Public Administration and Public Safety. Additionally, IT is responsible for maintaining the technology infrastructure that supports a combined Public Safety Answering Services (PSAP) for Portland, South Portland and Cape Elizabeth.

The department's expenditure budget has increased by \$196,542, or 9.2%. The increase is a result of our migration to Google Apps for Work and upgrades planned for other critical systems. The Revenues received represent the reimbursement of costs and services provided to the Enterprise Funds and the PSAP.

Public Works

The Director of Public Works oversees the operations of ten (10) divisions within the General Fund as well as the Street Openings, Sewer and Stormwater funds. The Director along with an Assistant Director of Operations, division managers and administrative support staff provide day to day supervision for these functions. The department is responsible for basic municipal services, wastewater - stormwater utilities, public infrastructure management, citywide fleet management, and the development and implementation of capital improvement plans. Department staff supports city committees including the Transportation Sustainability and Energy Committee, and staffs a task force on funding for stormwater program obligations.

As part of the city-wide reorganization plan, the Cemeteries and Forestry division moved to the newly titled Parks, Recreation and Facilities department during FY16. In FY17, the parks operation split from Districting, completing this portion of the transition. The Construction Company division program was also discontinued in FY17.

The FY17 Public Works budget also reflects other staffing restructuring. The department recognized the need for increased staffing in the engineering and traffic divisions to eliminate the need of hiring outside consulting services at a much higher cost. Additionally, the shifting of personnel between the general, sewer and stormwater fund is part of a more comprehensive plan to ensure compliance with the Federal Clean Water Act.

The Public Works expenditure budget decreased by \$500,501, or 3.4%. Largely due to Parks relocation, Public Works payroll shows an overall decrease of \$280,674 or seven full-time positions. In addition, the continued low price of vehicle fuel continues to provide savings. Revenue projections increased by \$168,356, or 3.5%. Revenue increases include higher estimated trash bag collections and higher salary reimbursements, accompanied by funding source changes. Revenue changes also include departmental restructuring to the Department of Parks, Recreation and Facilities.

Public Works Administration

The Administration division provides strategic planning and management for the department. Accounting, payroll, human resource functions, general office support, issuance of street opening permits, and customer service are all integral components of this division. In addition, the department's Safety and Training program is managed through this division.

Overall FY17 expenditure decreases in this department resulted from both a department and city-wide reorganization. Payroll changes include the shifting of 1.5 event staff positions to the Department of Parks, Recreation & Facilities' Public Assembly Facility division, among other department staff restructuring changes.

Districting

The Districting division is a national award winning multi-tasking Public Works maintenance program comprised of five working crews. The division is responsible for maintaining each of the five Districts within the City. Each crew consists of a supervisor and a group of highly trained maintenance workers capable of performing all aspects of work as it relates to municipal street, sidewalk, parks and grounds maintenance, including winter sidewalk snow removal operations.

Districting continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. This division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. Furthermore, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

Districting expenditure reductions of \$531,760 are primarily due to the FY17 separation of the parks assignments to a new Parks division within the Department of Parks, Recreation & Facilities. The revenue reduction of \$262,100 is attributed predominantly to the FY17 Public Works personnel shift / restructuring between the general fund and enterprise funds.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, reducing the recycling fleet from six to three trucks. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces, as well as over 60 solar smart trash compactor units.

City property owners may dispose up to ten qualified bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card

The Bulky Item Pick-up program was implemented in May of 2012. Residents must apply online and request stickers to attach to their approved items for disposal. Qualified small items, less than 30 pounds, which will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten qualified small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for qualified items over 30 pounds.

Expenditure reductions of \$196,624 is attributed to the division's reduction of two staff positions, as well as an anticipated decrease in contractual and supply costs. The revenue increase of \$126,948 is a result of an estimated increase in trash bag collections.

Communications

The Communications section encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This section is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and EMS) of emergency situations occurring on the streets of Portland as reported by any Public Works employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

The FY17 reduction in expenditures is due to the reassignment of safety items to the applicable divisions.

Portland Downtown District

The Portland Downtown District (PDD) is responsible for providing maintenance, cleaning services, and sidewalk snow removal to the downtown district. Expenses for this division are offset by revenue from the PDD Corporation for the services provided.

Replacement barrels and a slight increase in payroll costs are the major contributors to the expenditure increase of \$15,881, or 4.7%.

Construction

The Construction Company had been involved in a myriad of projects including sidewalk and handicap ramp construction, sewer culvert and trench work, sewer maintenance support, winter operations, playground and track construction, traffic calming installation, relocation of City property, building repairs, and special assistance with Island Service needs. This workload has been disbursed to other divisions within the Public Works Department as part of the FY17 reorganization plan.

Transportation Operations

The Transportation Operations division operates and maintains traffic and pedestrian signal systems and most street lighting. All electric utility costs for these systems are borne by this budget. The division also designs and makes its own signage throughout the City and is responsible for the installation and maintenance of all traffic control signage and road markings, including crosswalks and bike lanes. Traffic markings are installed by a contractor and supervised by staff from this section. In addition, traffic calming, road closures, and detour requests are processed by this division, as well as transportation studies and pedestrian counts. The Transportation Operations division supports the Planning Department's development process by providing comprehensive review of parking strategies and traffic impacts for incoming site plan and subdivision applications. The division works with MaineDOT on safety improvement projects and purchases of safety devices. The City also participates in a Portland Area Comprehensive Transportation System (PACTS) supported Regional Traffic Management System (RTMS), which is tasked with long term regional goals of traffic signal specifications and communications.

As a result of a department-wide reorganization, the FY17 Traffic Operations budget calls for a net increase of 6 full-time positions: 4 new positions and 2 position transfers from the Engineering division. To reduce costs, in lieu of hiring outside consulting services, reimbursement of approximately \$117,000 in staff project work is anticipated.

Engineering

The Engineering division is of a team of professional and technical staff who provide a variety of civil and construction engineering services for the City. This team develops, designs, seeks (alternative) funding for, administers, and constructs transportation and some environmental infrastructure projects in addition to managing a variety of compliance programs and customer support services. Additional tasks include record-keeping, mapping, and reviewing and inspecting private development. Capital projects focus on roadway, sidewalk, traffic, bicycle network, trail systems, stormwater, and sewer systems.

FY17 expense increases are largely due to the department-wide reorganization, involving division staff reassignment and the authorization of three new positions. Revenue is generated by way of salary reimbursement from projects, as well as the Street Openings, Sewer and Stormwater funds. Both expenditures and revenues have increased, by \$384,388 and \$360,580 respectively.

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Works workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public.

Winter Expenses increased by \$16,325. Reflecting the loss of the Somerset snow dump, the city's snow removal appropriation increased. Also in FY17, the school's parking lot plowing contract responsibilities transferred to the School Department, thus decreasing both the expenditures and the offsetting revenue reimbursement; school revenues decreased \$75,217. Winter operations actual expenses remain dependent on snowfall and severity of winter conditions.

Fleet Services

The Fleet Services division purchases, repairs, and rebuilds the City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, City Administration, Public Works, Parks Recreation and Facilities, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee and maintains the vehicle replacement program city-wide.

Fleet Services is also responsible for the 82 Hanover Street building, which houses the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments, with two certified fabricators.

Overall expenses in the FY17 budget decreased \$161,421 despite the restoration of a Fleet Services Supervisor, reduced in the FY16 budget, and an increase in repairs and maintenance of an aging fleet. Cost savings continue to be recognized in the reduction of fuel costs, correspondingly attributing to the lower reimbursements received by the School Department and Enterprise Fund users. The projected sale of city equipment also contributes to the division's total revenue decrease of \$134,762.

- (5) (1) Position Upgraded to Accountant during FY16

Island Services

Island Services is responsible for all Public Works functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. Island Services also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

Expenditures increased \$27,505, or 4.8%, mainly due to increases in payroll and addition of the new stormwater utility fee.

Parks, Recreation & Facilities

Parks, Recreation and Facilities, formerly the Recreation and Facilities Management Department, consists of four major sections: Parks, Recreation, Public Assembly Facilities, and Building Maintenance. The Parks section oversees parks, playgrounds, courts, athletic fields, cemeteries, forestry and horticulture, and fountains. Recreation manages five community centers, pools, Riverside Golf course and restaurant, Troubh Ice Arena, senior adult programming and therapeutic recreation. The Public Facilities section is responsible for scheduling and management of Merrill Auditorium, Hadlock Stadium, Portland Exposition Building, Ocean Gateway, and the Maine State Pier. Lastly, the Building Maintenance responsibilities include the maintenance, repair and renovation of a variety of City and School buildings.

Reorganization within the City and this department occurred in FY16 and FY17. During FY16, the Cemeteries and Forestry Divisions transferred from Public Works, while Parks split from Public Works Districting in FY17. The Canco Road Division was created mid-year FY16, a newly acquired property: the Parks, Recreation and Facilities staff occupies 212 Canco Road and Public Works staff occupies 250 Canco Road. In addition, Therapeutic Recreation merged with the Aquatics Division in FY17.

Parks, Recreation & Facilities Administration

The Parks, Recreation and Facilities Administrative division serves a large and extremely diverse department. The Administration division oversees the numerous activities and challenges that transpire within the department. Functions include providing general administrative support, involving much of the centralized accounting and payroll duties.

The expenditure increase of \$13,693, or 4.5%, is attributed primarily to payroll expenses.

Trades

The Trades division budget is comprised of a highly skilled workforce that maintains, repairs, and renovates the various City buildings. Services provided include carpentry, painting, electrical, plumbing, remodeling, and the maintenance of heating and ventilating systems.

Expenses have increased by \$80,371, or 9.0%, primarily due to the addition of one Trades Worker position to assist with the expanded needs on the waterfront and the increased department operations' labor needs.

Merrill Auditorium

This division includes all the expenses for maintaining Merrill Auditorium, a 1,900 seat performing arts venue attached to City Hall. The theater hosts a variety of performances each year including opera, ballet, musical theater and concerts.

Expenditures have increased \$28,719, or 6.4%, in part due to Payroll increases, including additional hours for custodial services. The FY17 budget also includes monies for Phase III of the Sprinkler Head Replacement and Phase II of the Heat System Pipe Replacement. Revenues have decreased by \$28,640, or 4.9%.

Ice Arena

The William B. Troubh Ice Arena is named in honor of the late William B. Troubh; William B. Troubh was instrumental in creating the ice rink when he served on the City Council during the 1970s-80's. The City-owned rink, located next to the Portland Expo and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice skating and Figure Skating lessons are offered as well. The City also operates the Ice Arena concession stand.

The majority of the expenditure increase of \$24,411, or 4.4%, is a result of supplies related to building maintenance improvements. Revenues are estimated to stay relatively flat.

Exposition Building

This division includes all the expenses for maintaining and managing the Portland Exposition Building. Numerous events are held each year at this facility by profit and non-profit organizers, including many school related sport activities. The Portland Expo is home to Portland high varsity basketball and the Maine Red Claws, a NBA development league which began playing in 2010.

Expenditures have increased \$14,410 or 3.4%. Revenues have increased by \$6,450 or 2.2%.

Waterfront Maintenance

Waterfront Maintenance is responsible for the repair, maintenance and operations of City-owned waterfront property which includes the Portland Ocean Terminal, Maine State Pier and Ocean Gateway.

Portland's 2015 cruise ship season comprised of 80 ships carrying over 94,000 passengers. More than 80 ships in excess of 100,000 passengers are estimated to visit Portland in 2016.

The expense increase of \$89,722, or 11.4%, is due primarily to the increases in utility expenses, a revenue offset, as well as smaller increases in various other lines. Revenues are anticipated to decrease by \$92,979, or 5.6%. Revenue changes include the loss of the Nova Star lease.

Public Assembly Facility

The Public Assembly division handles the general management, marketing, booking, event coordination and other miscellaneous staff and operation needs of the Facilities Management section functions of the department.

Expenditures have increased by \$168,464, or 21.4%, attributed to increased payroll costs, including the transfer of 1.5 employees from Public Works (permitting). Revenues have also increased by \$174,870, or 51.0%, due to new weekend rates at Ocean Gateway, additional waterfront concerts, and the transfer of the permitting functions.

Concessions

The Concessions division manages the concessions and catering operations for Merrill Auditorium, Portland Exposition, Fitzpatrick stadium and the Trough Ice Arena.

Expenditures have increased \$41,896, or 13.4%, due largely to new point of sale equipment, as well as rises in payroll and food expenses. Concessions income has also increased, by \$23,000 or 6.1%.

School HVAC

The School HVAC division is responsible for heating, ventilation and air conditioning maintenance for all twenty elementary, middle and high school buildings. All expenses are reimbursed by the School Department through inter-fund transfers.

The FY17 budget reflects the reduction of one position; this position was relocated to the School Department during FY16.

Athletic Facilities

The department's Parks section oversees the Athletic Facilities division. Athletic Facilities is responsible for the care of all City-owned athletic facilities in Portland. This includes fourteen baseball/softball fields, two artificial surface football/soccer stadiums, fifteen multi-purpose fields, thirty playgrounds, and a variety of tennis, basketball and volleyball courts, as well as ornamental water fountains.

Expenditures increased by \$30,748, or 4.2%, due to the new stormwater user fees. Revenues have increased by \$3,675 or 1.4%.

Recreation

The Recreation Division provides a wide range of programming/leagues and clinics for all age groups in the City and operates community centers in the Riverton, Reiche, East, Cummings Center and Peaks Island. The Recreation division offers before-and-after school programming at all elementary schools (no before care at Peaks), as well as summer camp programs for children currently in K-7th grade. This division also offers an extensive program for senior adults.

For the 7th year, the 4th of July Fireworks display and concert will continue due to the generous donations and support of the Stars and Stripes Foundation, local businesses and the community.

Expenditures have increased \$161,387, or 9.6%, primarily due to increased staffing in the before-and-after school program, and the personnel shift of one position from the Aquatics division. Program expenses have also increased. Similarly, revenues are projected to increase \$145,230, or 10.6%, attributed largely to increased enrollment in the camp and before-and-after school programs.

Aquatics

The Aquatics division operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. In FY17 the Therapeutic Recreation merged with the Aquatics division. The division offers swimming lessons and aquatic programming for all ages including adult water aerobics and Master's level program.

The expenditure net increase, taking into the account the division merger and personnel restructuring, is predominantly due to the addition of one full-time equivalent position. The net revenue decrease of the combined programs is due to projection adjustments in therapeutic and swimming income.

Riverside Golf Course

The City-owned Riverside Golf Course offers 30 holes: the 18-hole North Course, the 9-hole South course and the 3-hole practice course. Amenities include lessons and clinics which are managed by Recreation. The FY17 budget includes the return of a golf pro. Riverside is home to several golf tournaments events each year. The 3-hole practice course is utilized by the new golf pro to provide lessons to beginner golfers and by golfers sharpening their short game skills.

FY17 expenditures are increased by \$98,082, or 12.6%, primarily due to the addition of the golf pro position, as well as an increase in cart rental expense. Cart rental income likewise increased, as well as projections for golf play, contributing to the total revenue increase of \$51,589, or 5.9%.

Golf Course Restaurant

The Riverside Golf Course restaurant, the Riverside Grill, opened its doors in May 2014. The restaurant is managed by Parks, Recreation and Facilities and is managed in-house by the Food Service Manager and an experienced Chef. The restaurant is open to golfers and the general public alike for lunch and dinner, as well as brunch on Saturdays and Sundays. The restaurant also provides a golfers' beverage cart option.

Canco Road Buildings

The Canco Road Buildings is a new division, following the 2015 and 2016 property acquisitions of 212 Canco Road and 250 Canco Road. This budget provides for the maintenance and cleaning operations of both facilities. Parks, Recreation and Facilities staff, formerly housed in several locations, is now centrally located at 212 Canco Road. The Public Works Districting and Communication division staff recently occupied 250 Canco Road, with the Transportation Operations division to follow in the fall of FY17; the Fleet division is expected to relocate in FY18. In addition, the Canco Road facility provides storage space for Public Safety, previously leased, and is home to the Fire Department's Fire Alarms section. The consolidation of city operations into one larger facility fulfills city goals to maximize efficiencies.

The FY17 revenue is attributed to the 212 Canco Road leased tenant space at time of the property purchase; the remainder of these leases expires during FY17.

Cemeteries

The Cemetery division is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. In addition to the care of grounds, the division is responsible for interments and disinterments, lot sales and other funeral-related services. The Cemetery crew maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Wilde Memorial Chapel, located on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

The Cemetery division transferred from Public Works mid-year FY16 as part of the city-wide reorganization plan.

Expenses increased by \$80,267, or 13.8%, primarily due to labor costs and additional funds to remove hazardous trees. Revenues have remained fairly flat.

Forestry

The Forestry and Horticulture division is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance trimming is done as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs that are blocking streets. The successful Community Garden program is run through this division, with over 300 plots in eight gardens.

The division actively seeks grant money from the State to increase the number of city trees planted each year. Forestry and Horticulture also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees in the City. The division helps to maintain the City's status as a "Tree City USA".

The Forestry division transferred from Public Works mid-year FY16 as part of the city-wide reorganization plan.

Expenses have increased by \$3,897 or 0.6%. Revenues have decreased by \$77,231, or 80.1%, as the Forestry division no longer manages the School Department's contractual grounds work.

Parks

Parks maintains the year-round care of community and neighborhood parks and open spaces. Over 100 individual parks and open spaces are cared for. The Parks crew also maintains 7.5 miles of trail on Eastern Promenade, Back Cove and Bayside Trail.

In FY17, the Parks division split from the Public Works Districting division as part of the city-wide reorganization plan.

The Parks division total expenditures for FY17 include staff restructuring. Revenues of \$18,550 are associated with East End Beach.

Department of Health & Human Services

The City of Portland's Health and Human Services Administration division consists of five full-time positions. The creation of this division has allowed Health and Human Services to consolidate the finance and human resources functions within the department, which includes Public Health, Social Services and the Barron Center. The Director of Health and Human Services, an Executive Assistant, and the Director of Elder Affairs are also included in the Administration division's budget.

In addition to payroll expenses, the budget includes minor operational expenses.

Public Health

Public Health, a division of the Health and Human Services Department, is the State's most comprehensive local public health department. Public Health consists of five programs: Operations, Family Health, Chronic Disease Prevention, the India Street Clinic, Environmental Health and Safety, and Health Equity and Research. As part of the FY17 reorganization plan, the Environmental Health and Safety division responsibilities were redistributed to other divisions during FY17; this includes the food service establishment inspections which merged with the new Permitting & Inspections Department. Public Health's specific activities include, but are not limited to, direct clinical services for the uninsured and underinsured, health policy development, and health education. The division relies primarily on grant funding.

The FY17 Public Health budget reflects the transition of some clinical services to community partners throughout the fiscal budget year.

Public Health Operations

The Operations program provides support services to five programs within the Public Health Division and is responsible for the grant management oversight of over thirty grants. These administrative services include accounting and payroll, human resources functions, policy & procedures creation and management, ensuring HIPAA and confidentiality compliance, credentials all clinical providers, tracking certifications and licenses, clinical billing management, supply ordering, facilities support, and liaises with City departments.

The Program is funded through both City funds as well as Grant funds.

The FY17 budget for Operations decreased by \$101,920, or 29.4%, primarily due to a reduction in staffing.

Family Health

Family Health is comprised of the Children's Oral Health, Maternal & Child Health, School-Based Health Centers and the Portland Defending Childhood programs. These programs provide access to school-based medical, dental, behavioral health care and services, violence prevention, and maternal and child health services in home and at community locations. Collectively, Family Health has served more than 3,800 individuals with more than 7,400 visits. Additionally, Portland Defending Childhood implemented evidenced-informed violence prevention curricula in nearly 100 class rooms throughout the Portland Public School system.

The FY17 budget for Family Health has increased by \$168,335, or 18.9%, primarily due to the addition of the electronic dental record system (EDR) and contractual staffing, offset by a decrease in city staff positions.

Chronic Disease Prevention

The Chronic Disease Prevention Program implements evidence-based community health interventions designed to improve the health of those who live, work and learn in Portland. The health issues addressed include tobacco, smoke-free living, physical activity, healthy eating, lead poisoning prevention, sodium reduction and substance abuse prevention.

The FY17 budget for Chronic Disease Prevention has decreased by \$350,063, or 39.5%, due to decreased grant funding.

India Street Clinic

The clinic, at 103 India Street, offers a range of integrated safety net services to the medically under-served populations of Portland and Cumberland County. The India Street Clinic supports approximately 5,000 individuals per year; services include adult immunization, TB testing, flu clinics, and sexually transmitted disease (STD) clinics which provide treatment, education, counseling and partner notification services. India Street also has a comprehensive Primary Care Practice; services include mental health and substance abuse counseling, plus psychiatric care for people with HIV disease. In the Portland Needle Exchange, enrollees may access clean syringes, education, counseling, testing, overdose prevention and linkage to treatment. The Portland Community Free Clinic is a partnership between volunteers, The Friends of the Free Clinic, and the City's Department of Health and Human Services. The clinic provides medical care to the uninsured who earn below 250% of Federal Poverty. India Street also houses a Public Health Laboratory.

The India Street Clinic's FY17 budget reflects the proposed transition of the Ryan White Positive Healthcare Grant to Greater Portland Health on December 31, 2016. The HIV and STD testing services and the Needle Exchange will remain at the clinic on India Street.

The FY17 budget for the India Street Clinic decreased by \$411,052, or 34.1%.

Environmental Health & Safety

The Environmental Health & Safety program inspects food service establishments and prepares response efforts in the event of a biological public health crisis. The risk of foodborne illness from food service establishments is decreased through the education of restaurant personnel and the enforcement of state laws and city ordinances by Health Inspectors. This program is partially funded by the U.S. Centers for Disease Control and Prevention's Public Health Preparedness and Response for Bioterrorism Cooperative Grant, distributed at the state level to the Maine Center for Disease Control and Prevention and then onto the City of Portland. This funding supports the planning and response for biological public health hazards through the Cities Readiness Initiative.

The FY17 budget for Environmental Health and Safety increased by \$27,059, or 11.4%.

During FY17, as part of the overall City's FY17 reorganization plan, the food service inspections program merges with the Business Licensing division under the new Permitting and Inspections Department; the emergency response coordination efforts transfer to the City Manager's department.

Health Equity & Research

The Health Equity and Research Program supports the Public Health Division with health services to minority populations, health assessments, and accreditation efforts. Specific activities for minority populations include health education to racial and ethnic minority groups, enrolling individuals in health insurance, and training public health and health care professionals in cultural competency. Specific research activities include data analysis, quality improvement initiatives, and program evaluation. The program also manages the Cumberland District Public Health Council, which brings together area partners to address public health issues collaboratively, and publishes the Annual Report.

The Health Equity and Research budget decreased by \$137,532, or 51.0%, primarily due to decreased funding.

Social Services

The Social Services Division provides both financial assistance and support services for low-income Portland residents. Its purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Programs operated include General Assistance (GA), Homeless Shelters for individuals and families, Case Management and Representative Payee Services.

The City funds approximately 41% of the Social Services FY17 budget, as compared to the 48% budgeted in FY16; the remaining 59% of expenditures is primarily funded through federal and state grants. Revenues have increased due to increased shelter grant funding from Maine State Housing Authority, an anticipated increase in GA reimbursement, and HCD program funding.

The FY17 Social Services program changes include creating separate divisions for the Oxford Shelter and Family Shelter divisions, and the elimination of the Refugee Services and Portland Community Support Fund divisions.

General Assistance

State law requires municipalities to administer General Assistance (GA) which provides for immediate aid to individuals who meet eligibility requirements and are unable to provide basic necessities essential to maintaining themselves or their families. Maine law states that municipalities have the responsibility to provide financial assistance to all eligible residents of their municipality, as well as non-residents who intend to reside in the municipality and have no other residence. GA provides basic needs in the areas of shelter, housing costs, utilities, food, medication, disposable diapers and hygiene items. All assistance is issued in vouchers and no cash is provided. The GA program processes an average of 1,500 applications per month and provides assistance to 4,350 individuals per year (unduplicated number).

In FY17, GA has an increased focus on self-sufficiency through the creation of the HIRE (Helping Individuals Regain Employment) program. The division has increased the City's partnership with local employers, education professionals and the local Career Center in order to aid our GA recipients in finding long term employment.

Due to the elimination of the Portland Community Support Fund and the increased need for General Assistance, the GA expenditures increased by \$2,600,993, or 49.7%. Revenues increased by \$511,451, or 15.8%.

Housing & Support Services

The Housing and Support Services Division provides case management, employment assistance, representative payee services, and housing assistance to homeless individuals in Portland. This Division also operates the Home to Stay program which is fully funded by a grant from the Maine State Housing Authority and the Tenant Based Rental Assistance Program (TBRA).

Home to Stay is a rapid re-housing initiative designed to help individuals and families quickly exit homelessness and return to permanent housing. The Program helps participants locate and secure permanent housing and continues to work with the household to help prevent the recurrence of homelessness. Home to Stay provides follow up case management services and housing subsidies to homeless individuals and families. The HUD Home funded TBRA program provides security deposits and first month rental assistance to homeless individuals and families.

In FY17, the budgeted revenues and expenditures for the Home to Stay initiative have been transferred to the Oxford Street and Family Shelters. Support services including workfare and representative payee are provided in the Housing and Support Services Division.

Portland Community Support Fund

The Portland Community Support Fund was established in FY16 to provide basic necessities assistance for immigrants who have received General Assistance in the past but were deemed non-qualified for reimbursement by the State during Fiscal Year 2015.

There is no funding allocated for the Portland Community Support Fund in FY17.

Oxford Street Shelter

The Social Services Division operates the Oxford Street Shelter and Community Overflow Shelter for adults. The Oxford Street Shelter is a low barrier facility that provides access to safe overnight shelter for homeless adults (18+) 365 days a year. The Oxford Street Shelter has a capacity of 154 beds. This division also operates an off-site Community Overflow Shelter at the Preble Street Resource Center and a warming center at the General Assistance waiting room. Additionally, clients are provided with a place to access a day shelter on weekends.

The shelter promotes a housing culture by offering an array of services such as housing triage, housing orientation, current apartment lists and assistance with travel to apartment showings.

Family Shelter

The Social Services Division operates the City of Portland's Family Shelter. The Family Shelter assists families with children under the age of 18. The Family Shelter has a capacity of 104 beds. Shelter services are provided to over 2,200 adults and 305 families each year. The Family Shelter is an apartment style homeless shelter that offers private rooms and shared spaces. Families who reside at the shelter work on several goals including housing, establishing medical care, enrolling children in school, and establishing mainstream resources.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of nine divisions.

The Barron Center provides comprehensive health care services to individuals in need recognizing the unique value of each person with the purpose of preserving and enhancing the individual's quality of life. The Barron Center is a 219 bed skilled rehabilitation and nursing facility, including a 50 bed specialty unit for the care of dementia. The Center provides speech, occupational and physical therapy services, and short and long term nursing care services in addition to end of life and hospice services.

The FY17 Barron Center's expenditure budget increased by \$729,014, or 4.6%, primarily due to the increased costs in billing services, rehabilitation services, and capital outlay needs. The FY17 revenue budget for the Barron Center increased \$586,726, or 3.0%. This increase is related to the acuity of residents and the higher reimbursement associated for care based on acuity.

Barron Center Administration

The Barron Center Administration division is responsible for the care and management of the facility's 219 residents and 300+ full and part-time employees. The Business Office is responsible for the financial operations, which includes budgeting, payroll, accounts payable, and accounts receivable (including coordinating with the Barron Center's billing vendor). Social Services coordinates all resident admissions and provides for the psychosocial needs of the residents and their families. Lastly, the Administration division includes the department's Human Resources functions.

The FY17 budget for Administration increased by \$353,079, or 19.4%, primarily due to the increased contractual services related to a new billing vendor, increased rehabilitation services (offset by increased revenues), and the replacement of the patient transportation van.

Office of Elder Affairs

Through the Office of Elder Affairs, the City provides the community with an Elder Advocate who is available to work with any Portland senior who needs help. Assistance is provided in the form of senior information and referral, adult day health services, and community collaboration.

The FY17 budget for the Office of Elder Affairs decreased \$102,967, or 30.5%, attributable to the reallocation of the Director's salary to the new HHS Administration division, as well as a reduction in staff.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's 18.2 positions provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The FY17 budget for Nursing Administration increased by \$190,997 or 15.8%. This increase is attributed mainly to additional payroll costs, including the addition of a part-time Resident Services Director position, and the costs associated with the electronic medical records system.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit is located on the main floor of the facility, is a 25 bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36 bed unit located on the second floor. The majority of the patients on 2 North have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36 bed unit located on the second floor. The dementia residents on the 2 South unit (continuing care dementia) are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36 bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50 bed unit, managed as five 10 bed "neighborhoods" which provide Alzheimer related / type services. Residents of BC II are highly mobile and require unique staffing considerations.

The FY17 budget for Nursing Direct Care budget consists only of wages, and increased \$99,913 or 1.5%.

Nutrition and Supply

The Nutrition and Supply division consists of Resident Nutrition, Cafeteria / Catering, and Central Medical Supply. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, visitors, and operates The Clock Tower Cafe at City Hall. Catering services are provided for City functions, receptions, and celebrations. Central Medical Supply purchases, receives, stores, and distributes routine medical supplies, over the counter drugs, and other supplies for the various divisions within the Barron Center.

The FY17 budget expenditures increased \$100,297, or 3.1%. The rise in expenses is largely attributed to the capital costs, including a kitchen box truck replacement, food expense and increased wage costs.

Environmental Services

The Barron Center's Environmental Services Division is composed of six employees who are responsible for the maintenance of the twelve-acre Brighton Avenue facility. The maintenance division keeps the building and grounds in repair and working order through completing projects themselves or arranging for outside vendors. Maintenance also conducts facility fire drills and provides orientation education for drill procedures.

The expenditures in the FY17 Environmental Services budget increased \$23,865, or 2.4%.

Laundry Services

The Laundry division provides a clean and adequate supply of laundry to the residents. Personal laundry services are provided to nearly all of the residents. Laundry services are also provided to the City's Oxford Street Shelter and to Greater Portland Health on Park Avenue.

The FY17 budget for Laundry increased by \$46,390, or 9.8%. This increase is attributed to the replacement of a laundry truck and increased payroll expenses.

Library

Portland Public Library is a general purpose library system that serves the Portland community by providing a diverse collection of books, media, programs, classes, and electronic resources at four branch locations and a Portable Library (Bookmobile). Portland Public Library (PPL) also provides patrons with access to materials nationwide through its Interlibrary Loan program. PPL services support and encourage the educational, informational, civic, and recreational interests of all members of the community. As a regional library, PPL resources are available to citizens throughout Cumberland and York Counties and, via reciprocal service agreements, with other libraries nationwide.

Portland Public Library is governed by a Board of Trustees who serve three year staggered terms. As an independent 501c3 non-profit organization, PPL finances all its collections, programs, and outreach through an Annual Campaign, operational grants, fees, and endowment income. The City of Portland owns the land and buildings in which the Library operates its branch locations. Municipal support from the City of Portland, Cumberland County, and the Maine State Library is directed solely to the infrastructure needs of these buildings and the salaries of Library employees.

In April 2010, the Main Library located on Monument Square completed Phase I of a renovation project. This location now features increased natural light and more flexible, useable public space, meaning PPL can now welcome and engage with a broader spectrum of users. Visitation and use of the Library's collection and resources have greatly increased as a result of the renovation. Phase II of the Main Library renovation is in the conceptual planning phase.

In 2013, following a comprehensive community survey by the Library the year before, PPL began its Portable Library Program in neighborhoods throughout the City. This effort encompasses the Bookmobile, deposit collections, and other outreach that serves Portland citizens with practical challenges to reaching a library location to access resources.

(1) .1 Hours Increase during FY16

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60 (or at age 65 after July 1, 2014), and Public Safety employees with 25 years of service. There is also a plan covering grandfathered Public Safety employees with 20 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, Group Life Insurance, Unemployment, and FICA. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

Health Insurance Program

The Health Insurance account provides funding for the City's self-insured health plan. The City picks up the full cost of medical coverage for all full-time employees as well as the family costs for grandfathered employees. For all remaining employees, the City picks up 81% of employee and child(ren) costs, 77% of employee and adult costs and 70% of family costs. Claim payments are made by a third party administrator.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. When applicable, this account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

Unemployment

The Unemployment Insurance Program is mandated by state and federal law. The City is self-insured and reimburses the state for all benefits paid to eligible recipients as determined by the Maine Unemployment Security Commission.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

Contingency

The Contingency account provides funds which are set aside as a necessary provision for meeting unforeseen contingencies and emergencies which may arise during the year. Expenditures for contingencies arising in the implementation of the policies and work programs established by the City Council are authorized by the City Manager.

The FY17 expenditure decrease is primarily a result of the reallocation of the new FY16 stormwater utility charges to their respective departments and the appropriation increase in FY16 for legal services related to General Assistance. The FY17 budget includes monies for an American with Disabilities (ADA) self-evaluation plan study.

Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. Claims are processed in-house in the legal department through Maine Municipal Association's (MMA) property and casualty pool. In addition, the City purchases insurance policies to cover property and liability exposures that could possibly exceed the liability limits set forth in the Maine Tort Claims Act.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, airport and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

County Tax

County tax is assessed to each municipality by the county in which it resides. Distribution of the tax burden is made on the basis of the valuation of a municipality as determined by the State Board of Equalization. Portland's share of Cumberland County tax has increased by \$177,110 or 3.4%.
