The division continues to perform the maintenance and reconstruction of brick, concrete and asphalt sidewalks, installation and repair of granite and bituminous curbing, street repair and reconstruction, and maintenance and repair of driveway aprons. Crew duties also include culvert replacement, grading and maintaining gravel roads, roadside mowing, and maintaining the general cleanliness of the City. This division participates in winter operations including plowing, sand and salt operations, snow removal, and repairing of all damage to streets, sidewalks and lawns due to winter damage. Furthermore, the division is responsible for several municipal programs, including sidewalk sweeping, spring cleanup, and weed control.

The Streets & Sidewalks budget increased \$95,384, or 5.7%. This increase is in part attributed to the FY22 restoration of a half-year worth of wages of a Maintenance Worker; this position was temporarily reduced in the FY21 budget in light of the pandemic. The FY22 budget also includes new seasonal temporary help monies. In addition, the FY22 Public Works budget increase incorporates the contracted graffiti removal services which previously resided in the Police Department's budget.

Solid Waste

The Solid Waste division provides weekly curbside collection of recyclables and a pay-as-you-throw trash collection system. The recycling program allows residents to commingle all of their recyclable materials in a single bin. This has allowed the department to utilize compactor trucks for recycling collection, significantly reducing the recycling fleet. The division also services 150+ trash receptacles within the Portland Downtown District, and the City's parks and open spaces, as well as over 60 solar smart trash compactor units.

City property owners may dispose up to ten qualified bulky items annually at no charge using their electronic pass (E-Card). Items such as furniture, gas grills, bicycles, yard equipment (mowers), yard waste, and up to ten gallons of household hazardous waste can be brought to the Riverside Recycling Facility. Multifamily property owners receive one card.

The Bulky Item Pick-up program was implemented in May of 2012. Residents can apply online and request stickers to attach to their approved items for disposal. Qualified small items, less than 30 pounds, which will not fit in a City trash bag and can be lifted by one person, are free of charge to residents. Ten qualified small items are allowed each year, and are picked up by city packer trucks on the same day as residential trash pick-up. A collection fee is charged to residents for qualified items over 30 pounds.

FY22 Solid Waste expenditures increased \$172,457, or 7.7%. The payroll budget includes the restoration of 1.5 full-time equivalent (FTE) positions reduced in the FY21 budget as part of the pandemic cost-saving measures, a full-time Solid Waste Manager and a half-time Maintenance Worker, as well as an increase in overtime. Other budget changes include additional monies attributed to an increase in the ecomaine tipping fees and estimated tonnage, and a reduction in contracted temporary services.

The FY22 revenues have decreased \$7,081 or 0.3%, mainly due to a slight projected decrease in bag fee revenue which accounts for the bulk of the Solid Waste revenue activity.

Communications

The Communications section encompasses a wide variety of services, including serving as the primary point of contact for customers calling in with requests, work order database management, and daily dispatch functions. This section is involved with developing and overseeing departmental projects such as equipment logbook distribution, and communications with other departments and outside agencies. A large focus is supporting customer service throughout the department.

The Dispatch Center is staffed six days a week during the spring, summer and fall seasons for the daylight hours, and operates 24 hours a day / 7 days a week during the winter. The center participates in the "Radio Watch" program by notifying appropriate response personnel (Police, Fire and EMS) of emergency situations occurring on the streets of Portland as reported by any Public Works employees. Dispatchers track work order requests for follow up and evaluation purposes. The Dispatch Center supports the operations of the department during emergency response events.

The FY22 expenditures decreased by \$2,172, or 1.1%. This budget includes contractual wage increases for the three full-time positions and a reduction in Maintenance & Repair other equipment charges.

The Communications section receives reimbursement from other City fund accounts for the expenses of this operation.

Portland Downtown District

The Portland Downtown District (PDD) is responsible for providing maintenance, cleaning services, and sidewalk snow removal to the downtown district. Expenses for this division are offset by revenue from the PDD Corporation for the services provided.

The FY22 budget remains essentially flat, a decrease of \$377. The budget changes include a new sweeper attachment and a reduction in holiday light and barrel replacement.

Winter Operations

Winter Operations provides daily operations of sanding and salting streets, plowing, and snow and ice removal services throughout the City. Plowing city sidewalks along school routes and other designated areas helps to ensure safe mobility for pedestrians. The Public Works workforce unites to participate in Winter Operations, with the primary function being snow and ice removal during winter months to ensure the safety of the public. Winter operations actual expenses remain dependent on snowfall and severity of winter conditions.

The FY22 Winter Operations expenditures increased by \$54,318, or 4.1%. This budget includes a new snow dump guaranteed tip fee, an estimated cost increase for contracted plowing and snow removal services, and a tonnage price increase for road salt supplies. The winter payroll reduction is attributed to the estimated decrease in use of the enterprise funds' staff for winter services.

The majority of the revenue collection is attributed to the school reimbursement for snow clearing.

Island Services

Island Services is responsible for all Public Works functions including roads, fences, earthwork, solid waste collection and normal maintenance for four islands: Cliff, Little Diamond, Great Diamond, and Peaks Island. Island Services also serves Cushing Island in a limited capacity. Island Services responds to requests from all City divisions for boat transportation and assists the Fire Department on all Portland islands.

The FY22 budget increased \$67,900, or 9.9%. This increase is largely due to the addition of one full-time island maintenance worker. The Island Services' contractual services budget increase is predominantly related to Cushing Island, including the FY22 transfer of the caretaker/security contractual monies from the Police Department.

The minor revenue activity represents the sale of scrap metal.

Traffic & Transportation

The Traffic & Transportation Operations program supports field operations, personnel, materials, systems maintenance and utility costs. Over \$400,000 is budgeted for annual electric utility costs for street lighting and traffic & pedestrian signals. This program is also responsible for the city's annual pavement marking as well as equipment, material & labor associated with regulatory and advisory traffic and parking signage throughout the city.

The FY22 expenditure budget increased \$139,409, or 9.9%. The FY22 increases include the restoration of a 0.4 full-time equivalent (FTE) Traffic Signal Repair Worker from the FY21 pandemic budget cutback measures, the addition of high visibility epoxy markings and a second round of school route crosswalk markings, an annual rise in the CMS streetlight contract, and new rectangular rapid flashing beacons (RRFB) and flashing speed sign equipment.

The School Department reimburses the City for costs related to school street light charges.

Transportation Engineering

The Transportation Engineering team, along with the Engineering division, provides civil engineering support to the Planning & Urban Development Department, supporting an increasing volume of locally administered projects funded by the Federal Highway Program through Portland Area Comprehensive Transportation System (PACTS) and Maine DOT.

The FY22 Transportation Engineering budget remains relatively flat with an overall expenditure budget increase of \$3,107 or 0.7%, related to union contractual wage and administrative services minor increases. Revenues are targeted to increase \$90,883, or 8.7%, largely due to the current trend in street occupancy permitting.

Engineering

The Engineering division is comprised of a team of professional and technical staff with Civil Engineering, GIS, and Construction Engineering expertise. The Engineering team supports the Water Resources division and numerous City Departments with several vital resources, including City Archives, survey, research, street numbering, GIS data, Right-Of-Way permitting, and construction activity inspection and enforcement. A key role of this division includes supporting the Planning & Urban Development Division with all land development proposal review and activities.

The FY22 expenditures have increased \$61,568, or 5.1%. This increase is mostly attributed to the restoration of the Construction Inspection Specialist and the Engineering Asset Management Technician positions to full-time after having been reduced to half-time during the FY21 pandemic budget reductions.

Local Road Assistance Program (LRAP) represents the largest revenue stream for the Engineering section. In addition, the FY22 Engineering revenue includes a projected increase of \$22,956, or 2.5%, in wage reimbursement from other City funds.

Fleet Services

The Fleet Services division purchases, repairs, and rebuilds the City-owned vehicles, and runs a preventative maintenance schedule to assure optimum equipment availability. The division serves Police, Fire, EMS, City Administration, Public Works, Parks Recreation and Facilities, and assists other users including the Fire Boat. The total number of vehicles and equipment in the fleet exceeds 800. Fleet Services provides for the cost of all parts, outside repairs, and fuel for all City equipment, supports the Fleet User Committee, and maintains the vehicle replacement program city-wide.

Fleet Services, located at Canco Road, is also responsible for housing the winter equipment. The Weld & Fabrication Shop services the Jetport, Engineering, and other City departments with two certified fabricators.

The FY22 Fleet Services budget has increased \$170,977, or 5.1%. The most notable budget change is the increased projection in the cost of fuel.

FY22 division revenues also increased, by \$15,706 or 7.7%, which is largely correlated to the higher fuel cost chargebacks to the Enterprise Funds.

Parks, Recreation & Facilities

The mission of Parks, Recreation and Facilities is to enhance the quality of life through people, parks and programming while creating lasting memories for Portland citizens and its visitors. This department consists of three major divisions: Parks, Recreation, and Public Assemblies. Parks oversees all parks, open spaces, trails, community gardens, playgrounds, courts, fountains, forestry & horticulture, athletic fields and cemeteries. Recreation manages four community centers, senior adult programs, and youth programs such as basketball, summer camp and before & after school care. The William B. Trough Ice Arena and Riverside Golf Course are additional recreational opportunities. The Public Assemblies is responsible for the scheduling and management of Merrill Auditorium, Hadlock Stadium, James A. Banks Exposition Building, Ocean Gateway, Maine State Pier and permitted outside events. The Public Assemblies also manages the City's Clock Tower Cafe and concessions, as well as custodial services for numerous buildings. This past year has been particularly challenging due to the state and federal restrictions on bringing people together. In FY21 there were significant department decreases and those reductions carry forward in FY22; despite these challenges, the department has been able to continue to offer safe alternatives.

The FY22 expenditure decrease is \$133,485, or 1.4%. This budget also includes the further net reduction of 2.7 FTEs and other staffing changes. The revenue increase of \$1,448,713, or 24.9%, is attributed to the FY22 ARPA \$1.5m allocation to cover the loss of revenue activity in various programs as a result of the pandemic.

Parks, Recreation & Facilities Administration

The Parks, Recreation and Facilities Administrative division serves a large and extremely diverse department. The Administrative division oversees the numerous activities and challenges that transpire within the department, including providing general administrative support, centralized accounting, human resources, and payroll duties.

The FY22 Administration budget decrease of \$65,199, or 13.5%, is primarily due to staffing changes including the elimination of one Administrative Associate position, and the transfer and reclass of another Administrative Associate to Forestry. Other budget changes include the addition of various software programs and additional funds for department staff in the travel and training line.

Parks

The Parks section manages a park system that includes over sixty parks, seven-and-a-half miles of multi-use trails, ten community gardens, two stadiums, and dozens of athletic fields and courts all spread across 1,288 acres of land. Parks also stewards an urban forest of 20,000 inventoried trees, and maintains flowerbeds, meadows, and natural open spaces throughout the city. Our Park Rangers strive to make our parks safe for all, and our hard-working maintenance crews keep our parks beautiful in the summer and plow the city sidewalks and trails in the winter.

The Parks section aims to provide outdoor recreational opportunities for everyone during all four seasons of the year from the Portland Skatepark, to four splash pads and wading pools, two dog parks, three maintained ice-skating ponds, a sledding hill, and miles of groomed cross-country ski trails.

Parks FY22 expenditures decreased \$27,483, or 3.2%. This budget includes a decrease in payroll, largely in temporary help, and other minor reductions including utility expenses and the elimination of grant funded PPE budgeted in FY21. The FY22 budget also includes some funding for on-going turf restoration; focused areas include Fort Allen, the Western Prom, Edwards Lot and Lincoln Park.

The FY22 revenue decrease of \$52,500, or 32.5%, is attributed to the removal of the FY21 Keep Maine Healthy Grant; other revenues are expected to remain the same for our core Park functions.

Forestry

The Forestry and Horticulture section is responsible for the care of over 20,000 street trees throughout the City and nearly an equal number in the park areas. Routine maintenance is done as necessary, and Forestry employees are on-call 24 hours a day to respond to emergencies such as fallen limbs blocking streets. The Forestry and Horticulture section actively seeks grant money from the State to increase the number of city trees planted each year. Forestry also promotes the "Tree Challenge" program, where individuals and businesses may donate funds to help plant additional trees across the City. This section helps to maintain the City's status as a "Tree City USA", an award Portland has received since 1978.

Furthermore, our Horticulture crew creates and maintains beautiful display gardens including our Deering Oaks rose garden and downtown planters.

The FY22 Forestry and Horticulture expenditures increased \$44,019, or 6.1%, primarily due to the transfer and reclass of an Administrative Division position to a GIS Mapping Technician in the Forestry and Horticulture section. In addition, this budget includes funding for Brown Tail Moth, Emerald Ash and Dutch Elm disease prevention, City tree replacements, and chipper winch equipment. The FY21 Keep Maine Healthy Grant funded planters is eliminated in the FY22 budget.

Due to the FY22 budget elimination of the Keep Maine Healthy Grant, revenues are down \$25,000 or 71.6%; all other section revenues remain flat.

Athletic Facilities

Athletic Facilities is responsible for the care of all City-owned athletic facilities in Portland. This includes fourteen baseball and softball fields, two artificial surface football and soccer stadiums, fifteen multi-purpose fields, thirty playgrounds, a variety of tennis, basketball and volleyball courts, as well as ornamental water fountains.

The FY22 expenditure budget has increased minimally by \$7,053, or 0.8%. This budget includes the addition of a new Playground Technician position, offset by a reduction in temporary help and staff turnover savings, as well as additional funding for turf restoration and monies for goal equipment replacement. The FY21 porta-potty rental increase was reduced in the FY22 budget.

Revenues are expected to increase \$81,816, or 33.3%, due to increased usage of fields and fee increases.

Net Division Total	666,940	514,009	592,177	592,177	592,177	592,177

Cemeteries

Cemeteries is responsible for the care and maintenance of Evergreen and Forest City Cemeteries, the City's two active burial grounds. The Cemetery crew also maintains the two largest inactive cemeteries in the City, Eastern and Western Cemeteries, as well as the inactive Pine Grove Cemetery which is adjacent to the grounds of Evergreen Cemetery. Overall, the Cemetery Operations is responsible for the care and maintenance of thirteen cemeteries.

In addition to the care of grounds, the section is responsible for interments and disinterments, lot sales and other funeral-related services. Wilde Memorial Chapel, located on the grounds of Evergreen Cemetery, may be rented through this division for weddings, funerals, and memorial services.

In addition to the conventional use as cemeteries, these grounds have also traditionally been used as public parks. Evergreen Cemetery, for example, is comprised of an extensive network of country lanes, paved roads, wooded trails, and greenscape which invite exploration. As the largest open space in Portland, the cemetery attracts a rich variety of avian life; the Maine Audubon utilizes Evergreen Cemetery and its undeveloped woods for annual bird watching excursions.

The FY22 Cemetery expenditure budget increased \$39,140, or 5.0%, largely due to additional funding for the Evergreen Lot development. Other minor expense increases include a maintenance position reclassification, supplies and capital outlay. The FY22 additional \$25,000 in expenditures for the Evergreen Lot development is entirely offset by revenues from the Naumann Trust. Revenues are anticipated to increase \$50,920, or 7.4%, primarily due to the estimated increase in cemetery lot sales.

Recreation

Recreation provides a wide range of programming, leagues and clinics for all age groups in the City and operates four community centers: Riverton, Reiche, East End, and Peaks Island. Recreation offers before-and-after school programming at all elementary schools known as the Before and After the Bell Program, as well as summer camp programs. While the City's traditional recreation programs may differ in appearance since the pandemic, the core programs continue, adapting as necessary to meet current safety standards as well as the needs of the community.

In the FY22 budget, the Recreation program will begin to bring back the popular Senior Adults program. While programming will still be modified or limited, we are excited to reconnect with this group in our community in a safe manner.

The FY22 expenditure budget has increased \$85,342, or 6.0%, due to the reinstatement of a Recreation Leader and the phased restoration of programming as permitted. Revenues are also expected to increase \$43,838, or 3.8%, largely due to the projected FY22 rise in the use of the before and after school program over the FY21 budget estimate; with children returning to school, the need for before and after care is expected to increase. The budgeted FY21 Keep Maine Healthy grant money is eliminated in this budget. Other miscellaneous program activity and associated revenue such as facility rentals continue to be behind compared to the pre-pandemic environment.

Aquatics

Aquatics operates two indoor pools at the Riverton and Reiche Community Centers and a seasonal outdoor pool, the Kiwanis Pool on Douglas Street. This program offers swimming lessons and aquatic programming for all ages including adult water aerobics and a Master's level program. In any given week pre-pandemic, the Aquatics section traditionally instructs over 700 people in city pools, from infants to adults.

The FY22 expenditure budget has increased \$71,909, or 15.3%, and revenues are expected to decrease \$28,644, or 10.9%. The expenditure increase is predominantly due to the reinstatement of the Aquatics Leader and contractual wage increases; other increases include pool maintenance supplies. While the revenues are expected to decrease, we're hopeful that as students return to the classroom and can safely resume aquatics sports, the City can rebuild this program and increase revenues.

Riverside Golf Course

The City owned Riverside Golf Course offers 30 holes: the 18-hole North Course, the 9-hole South Course and the 3-hole practice course. Amenities include lessons and clinics and is also home to several golf tournaments each year. The 3-hole course is utilized by the golf pro to provide lessons to new golfers and golfers sharpening their short game skills.

Riverside is also a full-service winter venue with sledding hills, two ice skating ponds, and many miles of cross-country ski trails provided at no cost to participants.

FY22 expenditures increased \$17,434, or 1.8%, due to an increase in the number of seasonal employees. FY22 revenues are also expected to increase \$142,339, or 13.2%. During this past year when outdoor activities were sought out during the midst of the pandemic, the golf course saw the benefit of increased memberships and daily play. This trend is expected to continue even as people become more comfortable with moving indoors again.

Golf Course Restaurant

During FY21, the Riverside Grill restaurant, located at the Riverside Golf Course, made the difficult decision to close its doors as a City run restaurant. This decision opened up the opportunity for someone in our community to fill the empty space and serve our visitors at the golf course. The Club at Riverside opened its doors in June 2021.

Due to this change, the FY22 expenditure budget has decreased \$208,039, or 91.4%, which includes the reduction of two one-half time positions. All of the remaining budgeted expenditures are to maintain any City owned equipment and buildings. Revenues are also expected to decrease \$168,430, or 87.4%. While the City will collect a monthly rent and be reimbursed for utilities, the new tenant will benefit from the sales of food and drinks.

Ice Arena

The Ice Arena is named in honor of the late William B. Troubh who was instrumental in creating the rink when he served on the City Council during the 1970s-1980's. The City owned rink, located next to the James A. Banks Exposition Building and Hadlock Field, provides rental of ice time to various community users including adult leagues, high school, middle school and youth hockey organizations, and to the public. Ice-skating and figure skating lessons are offered as well.

The FY22 expenditure budget is decreasing \$28,183, or 5.1%. This reduction is primarily due to the elimination of Keep Maine Healthy grant funded in FY21, equally affecting the FY22 expenditure and revenue budgets. The FY22 budget includes the reduction of a full-time Recreation Programmer II position. Minor reductions in other expenditure lines have helped offset the FY22 increased cost of utilities with the reopening of the Ice Arena year-round after having been closed during the summer of 2020 (FY21) due to the coronavirus pandemic.

Revenues are expected to decrease \$41,720, or 7.3%, in part due to the limited number of ice rental times available in addition to the FY21 grant funding removal. With the ongoing coronavirus pandemic, rental times have been spread out to reduce the risk of groups crossing paths. As restrictions have been lifted, we are allowing more rental times which will increase revenues.

Public Assembly Facility (PAF)

Public Assemblies Administration supervises the general management, marketing, booking, event coordination and other miscellaneous staffing and operational needs of the department's Facilities division functions. The James A. Banks Exposition Building, Hadlock Field, Merrill Auditorium, Maine State Pier, Ocean Gateway and permitted events are included under Public Assembly Facilities. The Maine State Pier and Ocean Gateway traditionally hosts over 150 annual events with over 60,000 guests in attendance; these events include concerts, weddings, proms, non-profit fundraisers, business meetings and holiday parties. Over 600 permitted outdoor events traditionally take place within the City including road races, block parties, farmer's markets, Art Walks, and rallies.

The performing arts and sports industries have been profoundly impacted by the coronavirus pandemic. The Public Assemblies division is driven by these industries and thus has also been equally impacted.

The FY22 expenditure budget has decreased \$137,524, or 22.5%. This reduction is primarily due to the elimination of Keep Maine Healthy grant funded in FY21, equally affecting both the FY22 expenditure and revenue budgets. This budget also reflects the elimination of the FY21 budgeted Events Manager positions reduced wages which were decreased in FY21 due to the pandemic slowdown; this FY22 budget reflects a net reduction of 3.0 full-time equivalent (FTE) positions.

FY22 revenues are expected to decrease \$88,300, or 12.6%. With restrictions being lifted, we will be able to safely restart events and weddings in our facilities and thus increase revenues.

Concessions

The Concessions division manages the concessions and catering operations for Merrill Auditorium, James A. Banks Exposition Building, Fitzpatrick Stadium and the Troubh Ice Arena.

The FY22 expenditures increased \$19,426, or 5.3%. This budget increase is mainly due to the restoration of the Clock Tower Cafe staff wages after having been reduced in the FY21 budget due to the temporary café closure triggered by the pandemic, offset in part by the elimination of the FY21 Keep Maine Healthy grant funds.

Revenues are expected to decrease \$51,883, or 11.7% largely due to the FY22 elimination of the Keep Maine Healthy grant funds. The Clock Tower Café reopening increased this FY22 revenue estimate while food service income at performing arts and sports venues is projected to decrease over the FY21 budget estimate. As events return to our facilities, we expect these revenues to increase.

Custodial Services

Custodial Services provides the personnel and materials for the cleaning operations of City Hall, Public Safety, Merrill Auditorium, James A. Banks Exposition Building, the Canco Road complex and Ocean Gateway, as well as other city facilities. This operation is under the direction of the Public Assemblies Division.

The Custodial Services staff became extremely valuable over the past year, with the responsibility of keeping our buildings and facilities safe for all visitors and employees during the coronavirus pandemic. The FY22 expenditures have increased \$64,302, or 7.9%, primarily due to the need for one additional full-time equivalent (FTE) position; this increase comprises of two new part-time custodial positions to assist with the cleaning and sanitizing of the buildings. This budget also includes funds for the Exposition building floor refinishing.

Merrill Auditorium

This division program includes all the expenses for the venue operations at Merrill Auditorium, a 1,900 seat performing arts venue attached to City Hall. Prime Tenants include Portland Ovation, Portland Symphony Orchestra, and Friends of the Kotschmar Organ. The theater hosts a variety of performances each year including symphonies, Broadway performances, concerts, comedians, graduations and holiday programming. Merrill Auditorium traditionally hosts approximately 125 annual events with over 148,000 patrons in attendance.

Merrill Auditorium was one of the hardest hit programs by the ongoing coronavirus pandemic. Until just recently, the performing arts industry had severe restrictions on attendance levels as well as performance staffing levels. Due to the safety restrictions that were in place, most performing arts venues including Merrill Auditorium, were operating on a virtual basis; our prime tenants designed a season of streaming shows on virtual platforms for their patrons' entertainment. With restrictions being lifted, Merrill Auditorium hosted its first live performance in July of 2021 with an audience in attendance.

The FY22 expenditure budget has decreased \$15,682, or 14.3%, largely due to the elimination of a 0.8 full-time equivalent (FTE) Assistant Technical Director position and internal operations support chargebacks. Revenues are expected to increase \$86,187, or 29.1%, because of additional in-person bookings of the venue.

Public Buildings & Waterfront

The Public Buildings & Waterfront Department oversees the City's public buildings including the many smaller facilities, island infrastructure, trail lighting, School HVAC maintenance, and long-term planning for the Fire Department. The Public Buildings & Waterfront Department also manages and maintains the Portland waterfront piers and facilities, including cruise ship operations. This department is comprised of highly skilled staff and licensed trades workers whose tasks consists of everyday maintenance, long term facility planning, and general contracting.

The FY22 department expenditures have increased \$438,958, or 8.6%. This budget incorporates a new roof for Merrill Auditorium, two position upgrades for the School HVAC Technicians, two full-time City Hall Greeter positions, card readers for controlled access, two additional vaulted toilets for public use, and continued funding for annual trail and seawall repairs.

The department's revenue increase of \$1,974,478, or 121.8%, is directly attributed to the \$2m American Rescue Plan Act (ARPA) FY22 appropriation to cover the loss of cruise ship revenue during the pandemic's US "No Sail" order. City staff continues to work closely with our Canada NE Partners preparing for a safe return of service for arriving guests. Excluding the ARPA funding, the department's FY22 revenue decreased \$25,522 or 1.6%.

Public Buildings & Waterfront Administration

The Public Buildings and Waterfront Administration staff oversees maintenance and up-keep of various city buildings, including the Waterfront division. Functions include providing general administrative support, centralized accounting, budget preparation, CIP oversight, and payroll, as well as long term facility planning and general contracting.

The FY22 Administration budget increase of \$20,606, or 5.3%, is predominantly due to the elimination of the FY21 pandemic furlough budget reduction and FY22 computer replacements.

Trades

The Trades budget is comprised of a highly skilled workforce that maintains, repairs, and renovates various City buildings. Services provided include carpentry, painting, electrical, plumbing, remodeling, and maintenance of the heating and ventilating systems.

The FY22 expenditure increase of \$17,238, or 2.8%, is predominantly due to the restoration of the FY21 wage furloughs and the union contractual wage agreements. The Fish Pier reimburses the General Fund for services provided by the Trade's staff; the program revenue remains flat in FY22.

School HVAC

School HVAC is responsible for heating, ventilation and air conditioning maintenance for all seventeen school buildings. All expenses are fully reimbursed by the School Department through inter-fund transfers.

The FY22 School HVAC expenditure budget increased by \$12,153, or 2.2%, due to the reclass of the two HVAC Technicians positions. The revenue reimbursement should equal the program's total expenditures.

Waterfront Maintenance

The Waterfront Maintenance is responsible for the repair, maintenance and operations of City-owned waterfront property which includes the Portland Ocean Terminal, Maine State Pier, Ocean Gateway and two-and-a-half miles of Seawall.

The division responsibilities include fender system replacement, pier deck repairs, and exterior wall pile cap, stringer, and trail seawalls. This division also maintains over thirty floats between the mainland and islands.

The coronavirus Conditional Sailing Order (CSO) has been in place since October 2020, replacing the original No Sail Order which suspended the cruise ship operations in mid-March 2020. The FY22 Waterfront projected revenues is decreasing \$12,711, or 1.9%, after having a FY21 budget revenue decrease of \$1,983,967, or 74.3%. The FY22 Public Buildings & Waterfront Department budget includes \$2m in American Rescue Plan Act (ARPA) funding to account for the revenue loss during the pandemic.

The FY22 division expenditures are decreasing by \$98,386 or 8.0%. Budget changes include reductions in temporary help and services, as well as other cruise ship operating lines.

Health & Human Services Department

The City's Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This assignment often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

The HHS Administration division consists of four full-time positions including the Director of Health and Human Services, and administrative support staff.

FY22 HHS Administration expenditures have increased \$9,350, or 2.8%.

HHS Public Health

Public Health, a division of the Health and Human Services (HHS) Department, is the State's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, Health Equity, India Street Health Center, and Research and Evaluation. Public Health's specific activities include, but are not limited to, health policy development, public health research, data surveillance, health education, and analysis and communication, providing direct services to the underserved

FY22 Public Health expenditures increased \$139,943, or 6.3%, primarily due to a net allocation increase of a half-time equivalent (FTE) position and other assorted staffing changes, a contracted physician at India Street, a Public Health Board accreditation expense (once every five years), and new computers.

The FY22 Public Health revenues are projected to decrease \$321,934, or 17.7%, due a decline in grant program and India Street donation revenue.

Public Health Administration

Public Health Administration provides support services to all programs within the Public Health division, as well as administrative support to HHS. These services include grant management, policy and procedures creation and management ensuring HIPPA confidentiality compliance, Public Health Accreditation Board requirement maintenance, payroll and reimbursement processing, supply ordering, facilities support, and liaises with the City's Finance, Legal and Information Technology departments.

FY22 Public Health Administration expenditures increased by \$114,483 or 38.9%. Public Health Administration has a net increase of one full-time equivalent position; two new staff positions, a Deputy Director of HHS and a grant funded Program Manager Resettlement Coordinator, are shared between the Public Health and Social Services divisions. This budget also includes the Public Health accreditation expense renewed every five years.

The Public Health Administration revenue estimate reflects the administrative fee received for the management and oversight of the various grants administered by Public Health. The FY22 grant revenue declined \$128,428, or 38.4%, predominantly due to the exclusion of the FY21 Keep Maine Healthy grant.

Family Health

Family Health is comprised of the Maternal & Child Health program along with housing administration for the STD clinic, Portland Community Free Clinic, the Teen Clinic and the Minority Health Program.

The Maternal and Child Health Program offers a variety of services to Portland residents including free home visits for residents who are pregnant or have a child up to age 5. Education and services include developmental assessments, healthy eating, and child safety assessments, including lead hazards. Additional services include the Maternal & Child Health Programs' playgroup to serve children ages 0-5 years as well as providing medical consulting to child care providers in Portland. COVID-19 has increased the need for the nurses to utilize PPE as well as forced them to make modifications in their service delivery that include additional required technology. These additional expenses are covered by grant revenue to the program.

FY22 Family Health program expenditures remain virtually flat, increasing by \$443 or 0.3%. Program revenues declined by \$7,291, or 8.0%, due to the FY21 one-time Keep Maine Healthy grant funding.

Chronic Disease Prevention

The City of Portland's Chronic Disease Prevention Program is dedicated to serving the residents of Portland by creating and advocating for health policies at the local and district level. Additionally, the Public Health Division staff utilize evidence-based and / or promising practices and collaborative partnerships for the implementation of initiatives aimed at improving the health of all community members. The Chronic Disease Prevention Program is presently comprised of the following: Tobacco and Lead Poisoning Prevention, Healthy Eating Active Living (HEAL), Substance Use Prevention and Harm Reduction Services (SUPHRS), and the Mobile Medical Outreach Project.

Throughout the COVID-19 pandemic, Chronic Disease Prevention programs have adapted their approaches to meet the evolving needs of community members. These adaptations have included increased outreach and technical assistance as well as virtual educational and training opportunities.

The FY22 Chronic Disease Prevention expenditures decreased by \$21,045 or 2.6% due to the elimination of a part-time staff member during FY21, a net decrease of 0.2 FTE. Revenues decreased \$72,910, or 9.4%, attributed to various grant funding changes.

Health Equity

The Health Equity program supports the Public Health Division with services to minority populations. The Health Equity program specific activities include health education to racial and ethnic minority groups, including both direct services to community members and training to public health and health care professionals on cultural competency. This program also implements the Enhanced National Culturally and Linguistically Appropriate Services (CLAS) Standards to ensure all services provided by the Public Health Division are in compliance. COVID-19 has caused this program to refocus their attention both in FY21 and FY22. This program is built solely on responding to community needs and was able to redeploy to administer COVID-19 prevention and education services, testing and connection to treatment resources. This program is currently focusing on increasing access to vaccinations in our minority populations.

The FY22 Health Equity expenditures decreased by \$19,899 or 9.5%. This reduction is largely attributed to a reduction in staffing by 0.3 FTE as a result of combining two part-time positions into one full-time position. Program grant revenues decreased \$17,380 or 23.0%.

India Street Clinic

The India Street Clinic houses Portland's Substance Use Prevention & Harm Reduction Services Program, the HIV/STD Clinic and the Portland Community Free Clinic and the Teen Clinic. Clients enrolled in the Needle Exchange Program have the opportunity to access harm reduction supplies, overdose prevention education, and Naloxone, as well as counseling, testing, and linkage to treatment for HIV/Hepatitis C. The Clinic's Patient Navigator works with clients both in the clinical and outreach setting to connect them with community-based resources, such as food, shelter, and medical services. The STD Clinic offers HIV, STD, and Hepatitis C testing and treatment services for sexually transmissible diseases both in-clinic and in outreach settings. The Portland Community Free Clinic provides a primary medical home for individuals ages 18-64 who are uninsured that earn below 250% of the Federal Poverty Level. This clinic is primarily staffed by volunteer medical providers and support staff. The Teen Clinic is physically housed at Preble Street Teen Center but is staffed and supported by the Portland Public Health Division. The India Street Clinic also houses our Public Health Laboratory which provides lab support for all of the programs housed at the clinic. COVID-19 increased clinic expenditures on account of the needed PPE and decreased projected revenue for the clinic due to lost 340B funding.

FY22 India Street expenditures increased \$49,226 or 7.0% mainly due to the added STD clinic contract physician monies, along with other minor line increases. Program revenues decreased \$102,828 or 19.8%.

Research & Evaluation

The Research and Evaluation program serves several important functions within the Public Health Division, including research, public health surveillance, analysis and interpretation of public health data, and program evaluation. The program conducts public health research that focuses on understanding determinants of health. In addition, this program conducts program evaluation, a systematic and objective assessment of the relevance, efficiency, effectiveness, sustainability, and impact of a program or intervention. Public Health surveillance, which is the systematic collection, analysis, and interpretation of health data, is another core program function. Data used to conduct public health surveillance include city-wide survey data collected by the Research and Evaluation program, as well as data obtained from local and national sources. The Research and Evaluation program serves as a major source for Public Health data repository.

The FY22 Research & Evaluation expenditures increased \$16,734, or 30.3%. The Public Health Program Coordinator's salary is fully restored after having been reduced due to the pandemic's FY21 budget cutbacks. FY22 budgeted grant revenues increased \$6,903 or 37.3%.

HHS Social Services

The Social Services Division provides both financial assistance and support services for low-income Portland residents. This division's purpose is to provide quality services that encourage dignity, self-respect and self-reliance in the transition from public assistance to self-sufficiency. Programs operated include General Assistance (GA), Homeless Shelters for individuals and families, Case Management and Representative Payee Services.

FY22 Social Services expenditures increased \$2,091,495, or 14.3%, predominantly due to the increased demand in the General Assistance Program client expense lines. A large majority of this increase is a result of the rising number of individuals and families that need to be placed in hotels for emergency housing. Emergency housing hotel placement began as a need to socially distance due to the COVID-19 pandemic and has continued with a growing number of families and individuals requiring emergency housing.

The FY22 Social Services staffing changes include the addition of 1.7 full-time equivalent (FTE) positions which consists of two equally shared administrative positions with Public Health, a Deputy Director and a Program Manager Resettlement Coordinator, as well as two Human Services Specialist (Project) positions related to the Rapid Re-Housing (RRH) program running through October 2021 equaling 0.7 FTE. Vacancy dollar reductions in the FY21 budget have also been restored. The City's Social Services shelters have also seen an increased need for overtime and temporary help as a result of the labor market shortage.

Other expense changes include the division's restoration of the travel & training lines, cut in the FY21 budget due to the pandemic, and a newly budgeted expense line for Oxford Street Shelter insurance.

The FY22 Social Services revenues are estimated to increase \$106,785 or 1.0%. The division's revenues are derived mainly from the State of Maine, grants, and other miscellaneous reimbursements which includes the Social Security Representative Payee Program and the Maine State Housing Authority (MSHA) incentive funding.

Social Services Administration

Social Services Administration is responsible for the overall general management of the Social Services programs. Services include grant management, data/statistical analysis, payroll, accounts payable, receivables, representative payee, and other operational responsibilities.

The FY22 Social Services Administration expenditures increased by \$97,021 or 15.4%. This increase is primarily attributed to the addition of a Deputy Director and a Program Manager Resettlement Coordinator, or a net of one full-time equivalent (FTE), in Social Services Administration; these two positions are equally shared in the budget with Public Health Administration. This budget also includes the restoration of travel & training funds eliminated in FY21 as part of the pandemic budget reductions.

FY22 revenues have decreased \$16,505, or 5.5%, due to the elimination of the Emergency Solutions Grants (ESG-CV) funded by the CARES Act in FY21, offset in-part by the new FY22 grant Resettlement Coordinator salary reimbursement.

Social Services General Assistance

State law requires municipalities to administer General Assistance (GA) which provides for immediate aid to individuals who meet eligibility requirements and are unable to provide basic necessities essential to maintaining themselves or their families. Maine law states that municipalities have the responsibility to provide financial assistance to all eligible residents of their municipality, as well as non-residents who intend to reside in the municipality and have no other residence. GA provides basic needs in the areas of shelter, housing costs, utilities, food, medication, disposable diapers and hygiene items. All assistance is issued in vouchers and no cash is provided.

In FY22, the GA program has continued the focus on self-sufficiency through the HIRE (Helping Individuals Regain Employment) program. The program has increased the City's partnership with local employers, education professionals, and the local Career Center in order to aid our GA recipients in finding long term employment.

The FY22 General Assistance expenditures increased by \$1,627,205, or 19.2%. This increase is primarily related to the increased expenditures for emergency housing (hotels), housing assistance, and other client services which is in part due to the need for social distancing during the Covid-19 pandemic. Seventy percent of the expense related to client services and housing are reimbursed by the state which has therefore also increased the FY22 revenue estimate. The GA total revenue estimate is increasing by \$687,593, or 12.0%. Although not reflected here, the City anticipates the remaining thirty percent of the hotel cost will be reimbursed by FEMA.

Oxford Street Shelter

The Social Services Division operates the Oxford Street Shelter and Community Overflow Shelter for adults. The Oxford Street Shelter is a low barrier facility that provides access to safe overnight shelter for homeless adults (18+) 365 days a year. During FY18, the Oxford Street shelter expanded its hours of operation to 24 hours. The Oxford Street Shelter has a capacity of 154 beds.

The shelter promotes a housing culture by offering an array of services such as housing triage, housing orientation, current apartment lists and assistance with travel to apartment showings.

FY22 Oxford Street Shelter expenditures increased by \$295,137 or 7.7%. This increase is predominately due to the reinstatement of wages that were removed from the FY21 budget, the first fiscal year of the pandemic, due to vacancies. In addition, overtime and temporary services expenditures have risen due to the difficulty in hiring full-time staff. Other budget changes include the removal of the City's Preble Street Dayroom rental / service funding, discontinued during FY21, the restoration of travel & training monies, and a newly funded insurance cost.

FY22 program revenues have declined \$428,367, or 15.3%, attributed primarily to the elimination of the FY21 one-time pandemic funding of the Emergency Solutions Grant (ESG-CV) and the Keep Maine Healthy Grant.

Family Shelter

The Social Services Division operates the City of Portland's Family Shelter. The administrative and support services staff are located on the first floor of 54 Chestnut Street.

The Family Shelter provides temporary housing to families with children under the age of 18. Shelter apartments are located at 54-58 Chestnut Street, including one unit to accommodate individuals with disabilities. Combined, the Family Shelter has a total capacity of 146 beds in an apartment style living environment. Apartments are shared by families and are furnished. Residents have access to telephones, cleaning supplies, transportation, and other basic needs. Each family member is assigned a case manager who works with families to develop self-sufficiency work plans in order to obtain permanent housing.

The FY22 Family Shelter expenditures increased by \$72,132, or 4.2%. Payroll changes include the addition of two full-time positions through October 2021 for the State's Temporary Rapid Rehousing (RRH) program, fully funded by the Maine State Housing Authority (MSHA), the restoration of wages due to a FY21 vacancy, and budget changes in temporary and overtime. Other budget changes include an increase in client transportation and interpreter services expenditures.

Program revenues have decreased \$135,936, or 9.9%.

Barron Center

The Barron Center, a division of the Department of Health & Human Services, is the state's second largest long-term care nursing facility. The former Portland City Hospital serves the residents of Portland and the surrounding communities. The Barron Center's three major funding sources are the MaineCare (Medicaid) Program, the Medicare Program, and private insurances. The Barron Center consists of ten programs.

The Barron Center provides comprehensive health care services to individuals in need, recognizing the unique value of each person with the purpose of preserving and enhancing the individual's quality of life. The Barron Center is a 219-bed skilled rehabilitation and nursing facility, including a 50-bed specialty unit for the care of dementia. The Center provides speech, occupational and physical therapy services, and short- and long-term nursing care services in addition to end of life and hospice services.

FY22 Barron Center expenditures increased \$424,543 or 2.6%. In FY22, this division added the Central Supply program which separated from Nutrition & Supply. The department's largest category increases are primarily in the supply and payroll lines. FY22 staffing changes include the restoration of 7.4 full-time equivalent (FTE) CNA positions reduced in the FY21 budget due to the pandemic, along with the reclassification of 17 CNA positions to Unit Assistants to assist in recruitment efforts in this competitive workforce environment. This budget also incorporates a new telephone system contract and an increase in Environmental Services maintenance & repairs.

Revenues increased by \$3,215,205, or 16.7%. This increase is largely attributed to the inclusion of \$2.5m from the American Rescue Plan Act (ARPA) to cover the decreased census and subsequent revenue loss during the pandemic, as well as the assumption of an increased patient census in FY22.

Barron Center Administration

Barron Center Administration is responsible for the care and management of the facility's capacity for 219 residents and 300+ full and part-time employees. The Business Office is responsible for the financial operations, which includes budgeting, payroll, accounts payable, and accounts receivable (including coordinating with the Barron Center's billing vendor).

FY22 Barron Center Administration expenditures increased by \$42,964, or 2.3%, mostly attributed to the funding of the new cloud-based phone system. An Administrative Assistant replaced a Switchboard Operator in a staffing reorganization during FY21. Other FY22 increases include the restoration of funding due to the FY21 pandemic budget cutbacks, new health administrative services costs and general contractual cost increases.

Office of Elder Affairs

Through the Office of Elder Affairs, the City provides the community with an Elder Advocate, who is available to work with any Portland senior who needs help. Assistance is provided in the form of senior information and referrals, adult day health services and community collaboration. Two Adult Day Programs offer supportive, daytime care that enables older adults living alone or with family to remain at home. One program specializes in the care of individuals with Alzheimer's disease or related dementias. Both adult day programs provide much needed respite for family caregivers.

The Office of Elder Affairs also collaborates with the Elder Abuse Institute of Maine to provide transitional housing and support services for elderly victims of abuse through the Martha's Cottage Project. The Office of Elder Affairs also leads the Age Friendly Community Initiative for the City of Portland.

The FY22 Office of Elder Affairs expenditures increased by \$18,237 or 5.1%. This increase is related to returning operating expenditures to the pre-pandemic amounts, including the restoration of a 0.4 full-time equivalent (FTE) CNA position.

Nursing Administration

Nursing Administration is responsible for the supervision and management of the Nursing Direct Care division in two buildings 24-hours per day, seven days a week. The division's 19.2 positions provide clinical nursing supervision and direction to the Barron Center's nursing staff on the five nursing units in the main building and the fifty bed Alzheimer's unit (Barron Center II). Staffing patterns on the six units are continually adjusted to meet the changing needs of the resident population and to meet State of Maine mandated minimum staffing ratios.

The FY22 Nursing Administration expenditures increased by \$26,893, or 1.6%. Many of the category line decreases are the result of the internal reorganization / transfer of expenses to the new FY22 Central Supply program. The FY22 Nursing Administration increases include the transfer of an LPN position from Nursing Direct Care, an electronic medical record charting system upgrade and a new minor capital equipment item.

Nursing Direct Care

Nursing Direct Care is comprised of six nursing units: Zolov, 2 North, 2 South, 3 North, 3 South, and Barron Center (BC) II. Each nursing unit focuses in a specialized form of care:

- The Zolov Unit, located on the main floor of the facility, is a 25-bed unit for short-term rehabilitation and more intensive-care residents.
- 2 North is a 36-bed unit located on the second floor. The majority of these patients have long-term skilled nursing needs requiring higher levels of professional staff to meet their clinical needs.
- 2 South is a 36-bed unit located on the second floor. The dementia residents (continuing care dementia) on this unit are the most labor intensive, and are often completely dependent on nursing care services as a result of their specific disease process.
- 3 North and 3 South are both 36-bed units located on the third floor, which are traditional long-term care units.
- BC II is a 50-bed unit, managed as five 10-bed "neighborhoods", which provides Alzheimer related services. BC II residents are highly mobile and require unique staffing considerations.

FY22 Nursing Direct Care personnel expenditures increased \$105,529 or 1.6%. Seven full-time equivalent (FTE) CNA positions are restored in this budget, attributed to the FY21 temporary staffing reduction in response to the lower resident census and the limited new patient intake during the pandemic. Other staffing changes include the transfer of one LPN position to Nursing Administration and the reclass of seventeen CNA positions to Unit Assistants to aid in the recruitment of personnel during the tight labor market for these skilled caregivers.

Nutrition

Nutrition (formally Nutrition and Supply) consists of Resident Nutrition, Cafeteria and Catering. The Resident Nutrition program is responsible for the therapeutic and nutritional needs of the residents. The Cafeteria / Catering program provides food services for employees, residents, families, and visitors. Catering services are also provided for City functions, receptions, and celebrations.

FY22 Nutrition expenditures decreased by \$663,235, or 23.7%, over the FY21 budget. This program was formerly Nutrition and Supply and in FY22 this program split into two with the creation of a new program entitled Central Supply. The transferred expenditure allocations include one full-time equivalent (FTE) Material Manager position. The FY22 remaining Nutrition expenditure increases comprise of new equipment purchases, additional food expense, and a new preventive kitchen equipment maintenance contract.

Environmental Services

The Barron Center's Environmental Services program is composed of six employees who are responsible for the maintenance of the twelve-acre Brighton Avenue facility. The maintenance division keeps the building in repair and working order through completing projects in-house or arranging for outside vendors. Maintenance is also responsible for snow removal, landscaping, and conducting facility fire drills.

FY22 Environmental Services expenditures increased by \$32,990, or 2.9%, attributed to the needed maintenance and repairs of the facility.

Central Supply

In FY22 Nutrition and Supply was divided into two separate programs. This newly created Central Medical Supply program purchases, receives, stores and distributes routine medical supplies, over-the-counter drugs and other supplies for the various programs within the Barron Center. In addition, selected related expenditures also transferred from Nursing Administration. This program is staffed by the Materials Manager.

Debt Service

The Debt Service account provides for the payment of the principal and interest on the City's outstanding General Obligation Bonds, as well as the cost for the current-year bond issuance. Department revenue is from reimbursed bond costs, primarily from the City's enterprise funds and the School Department.

The FY22 Debt Service expenditure increase is \$2,655,134 or 5.8%, and the revenue increase is \$814,259 or 4.2%. The FY22 Debt Service expenditure increase is attributed in-part to the 2001 pension obligation bonds which is scheduled to rise annually until reaching final maturity in FY26. The Debt Service received TIF Fund monies in FY20 and in FY21 which has been removed in the FY22 budget to rebuild TIF balances.

Public Library

Portland Public Library is a general-purpose library system that serves Portland and the surrounding region. Portland Public Library (PPL) provides a wide array of collections, programs, and services to 80,000 patrons through four locations, the book mobile, and the outreach service to low-mobility community members, as well as 24/7 access through the “virtual branch” on its website.

The Portland Public Library is a trusted educational leader and multifaceted community resource in Portland, PPL welcomes everyone, and provides exciting and meaningful opportunities to children and families, and to teens and adults as lifelong learners. PPL is also frequently accessed by those on the margins – the economically challenged, those in recovery or newly released from incarceration, new Mainers, our aging population, and others in transition. In addition to collections of over 360,000 and more extensive online resources, the Library offers over 1,000 programs each year for citizens to engage in education, entertainment, important conversations about issues in the community, tutoring, training in workforce skills, and other opportunities for growth.

Portland Public Library is an independent 501(c)(3) non-profit organization, governed by a Board of Trustees. PPL finances all of its collections, programs, and outreach through an Annual Campaign, operational grants, fees, and endowment income. The City of Portland owns the land buildings in which the Library operates its public locations. Municipal support from the City of Portland, Cumberland County, and the Maine State Library is directed solely to the infrastructure needs of these buildings and the salaries and benefits of Library staff.

Due to the on-going pandemic, the Library is offering limited services and hours of operations; Library hours and services will be extended as further public health guidance permits.

This budget reflects the City’s contribution to the Library; the FY22 budget increased \$78,557 or 2.0%.

Pension

The City makes contributions for the future retirement of employees and disability payments.

The City has two separate defined benefit pension plans. Full retirement benefits are available to non-Public Safety employees with 25 years of service at age 60 (or at age 65 after July 1, 2014), and Public Safety employees with 25 years of service. Contributions to the Maine Public Employees Retirement System (MainePERS) are made by both the employee and the City. Generally, participants are vested after five creditable years of service.

Employees also have the choice of an International City Management Association Retirement Corporation (ICMA RC) 401(a) defined contribution plan.

The City gross budgets employee benefits; the pension revenues include reimbursements from other City funds such as the Enterprise Funds, the School Department, and grants based on employee pay allocations.

The FY22 Pension expenditure budget increased \$767,218, or 9.9%. This budget incorporates an upgraded pension plan for the Public Safety group beginning in January 2022; this incentive is one strategy leading the efforts to successfully recruit and retain employees in a competitive labor market felt at the local, state and national levels.

Employee Benefits

The Employee Benefits account consists of the following divisions: Health Insurance Program, Workers' Compensation, FICA, Group Life Insurance, and Unemployment. Since all benefit costs for the City are budgeted for in one account, this budget is considered a non-departmental budget. The Department of Human Resources has oversight responsibility.

The FY22 Employee Benefits expenditure budget estimate decreased \$914,623, or 4.1%. This decrease is primarily attributed to the expected expenditure decrease in Health Insurance, 1st year fee reduction for the new health administrator fee, and drop in workers' comp medical costs.

The FY22 department revenue estimate increased \$412,457, or 6.6%, largely due to employee reimbursements for non-covered City paid health insurance premiums.

Health Insurance Program

The Health Insurance Account provides funding for the City's self-insured health plan. The City picks up the full cost of medical individual and family coverage for full-time grandfathered employees. For all remaining full-time employees, the City picks up 85% of employee only costs, 72% of employee and child(ren) costs, 69% of employee and adult costs and 65% of family costs.

During FY17, the City introduced a new voluntary wellness program, aimed at improving health and well-being of employees by achieving healthier living. Participation in the program's five wellness activities provides an incentive at the beginning of each plan year for employees to reduce or eliminate the employee only 15% share of costs.

Claim payments are made by a third-party administrator.

The FY22 Health Insurance expenditure budget is decreasing \$746,782, or 4.0%, largely due to anticipated lower Health Insurance line expenditures as well as a 1st year savings with the City's new 3rd party health insurance administrator. Health Insurance division revenues are estimated to increase \$479,861, or 8.2%, which is primarily due to the increased reimbursement estimate for the employee's share of health premiums.

Workers' Compensation

The City is self-insured under the provisions of the Maine Workers' Compensation Act. Our third-party administrator, Maine Municipal Association, processes all claims and maintains files and provides WC Board filing of notices. Monthly reports are received from MMA outlining payments made for medical, legal, indemnity and other expenditures on open claims. This account includes all the aforementioned payments as well as administration fees charged based on claims activity. When applicable, this account also carries the debt payments on bonds purchased for the settlement of on-going WC claims. The Risk Prevention line, which funds the City's Drug and Alcohol Testing program, is also a function of this budget.

The FY22 Workers' Compensation (WC) expenditures is decreasing \$118,292, or 6.5%, largely due to a decrease in anticipated WC medical expenses, and other WC service fees. Enterprise Fund and School Department reimbursements are also decreasing, by \$60,000 or 26.7%.

FICA

In 1986, the Internal Revenue Service began requiring employees covered by pension plans other than Social Security to contribute to Medicare. Therefore, employees hired after April 1, 1986, are required to contribute a percentage of their annual wages for Medicare coverage. The City must also make a matching contribution. The current rate is 1.45%.

The FY22 FICA expenditures are estimated to decrease \$67,878, or 4.9%. Revenues are projected to decrease \$8,242, or 6.1%.

Group Life Insurance

The Group Life Insurance account pays the full cost of this insurance for qualified retirees, Police, Fire and EMS. The City's contributions are based on the employee's actual wages. The wages are multiplied by the applicable insurance rate per \$1,000. This program is administered by the Maine Public Employees Retirement System (MainePERS).

All other City employees pay the entire cost of life insurance.

The revenues received are from inter-fund transfers to the Jetport for the cost of the group life insurance contributions paid on the public safety employees assigned to the Air Rescue Station and Jetport Security forces.

General Liability Insurance

This account funds the City's self-insurance program, including the defense and/or settlement of claims against the City, and repair of damage to City property. In addition, the City purchases insurance policies to cover property and liability exposures with limits set forth in the Maine Tort Claims Act. Claims are processed in-house in the legal department through Maine Municipal Association's (MMA) property and casualty pool.

Insurance premiums are charged to enterprise funds for buildings and contents, boiler, crime bond, airport and marine coverage. Revenue is also derived through subrogation to third parties for damage to City property.

Memberships/Other

The Memberships account provides for City membership in various professional and governmental organizations whose purpose is to provide services and information to the City. A significant portion of this budget is comprised of the Metro subsidy.

Membership expenditures increased \$412,328 or 12.2%. This increase is attributed primarily to the addition of the FY22 Housing Trust Fund contribution, as well as an increase in the Metro Assessment.

The FY22 department revenue reflects a Downtown TIF Fund Metro reimbursement and FY22 Metro CARES Act monies.

Transit District

The Transit District account provides subsidy support to the Greater Portland Transit District (GPTD), better known as Metro.

The Greater Portland Transit District is a shared venture to provide public transportation services to the residents of the municipalities it serves, serving the communities of Brunswick, Falmouth, Freeport, Gorham, Portland, South Portland, Westbrook, and Yarmouth. Metro works with the Portland Area Comprehensive Transportation System (PACTS), the Greater Portland Council of Governments (GPCOG), multiple partner transit agencies, and member communities to implement a coordinated regional transit system.

A Board of Directors manages the transit district. The Board of Directors has responsibility for budgeting and financing. During the course of early 2019, Metro worked with the communities of Brunswick, Freeport and Yarmouth to move the Metro BREEZ project from its pilot phase to permanence. This also entailed bringing these communities onto the Metro Board of Directors as full members who also contribute their fair portion of the agency's fixed and overhead costs. The district's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the district, fares, and assessments of member communities.

The FY22 City's Metro budget has increased by \$143,089 or 5.0%. The FY22 revenue represents estimated Downtown TIF and the Coronavirus Aid, Relief, and Economic Security (CARES) Act reimbursements.

Regional Transportation

The Regional Transportation Program (RTP) provides para-transit services to the City on a contractual basis, for individuals unable to use public transportation (METRO), in accordance with the American with Disabilities Act (ADA). RTP services the cities of Portland, South Portland, Falmouth, and Westbrook, with the cost apportioned based on ridership.

Memberships - Miscellaneous

The Memberships Miscellaneous division provides for City membership in various professional and governmental organizations whose purpose is to provide services and information to the City. This year's budget includes funding for the Housing Trust Fund, Greater Portland Council of Governments, Community Television Network, the Maine Municipal Association, the Board of Harbor Commissioners, the HOME Team, and Community Counseling for TIP Program.

The division's expenditures have increased \$269,239, or 64.1%, attributed in large part to the FY22 addition of the Housing Trust Fund contribution.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On July 1, 2021, the FY22 sewer user fee increases to \$11.80 per hundred cubic feet (hcf). This is an increase of \$0.65 over the FY21 rate of \$11.15 per hcf, an increase of 5.8%.

In FY22, approximately 79.8% of the Sewer Fund budget is allocated for debt service and assessment fees to the Water District.

STORMWATER FUND

The Stormwater program / rate began mid-year FY16 on January 1, 2016; Stormwater related services separated from the Sewer Fund as part of an effort to achieve greater fairness in paying stormwater costs among its' users, allowing more equitable distribution of user costs which are based on impervious area.

The FY22 stormwater service charge increases to \$7.00/month per 1,200 square feet of impervious surface as of July, 1, 2021, an increase of \$0.25 or 3.7%. The City maintains the Stormwater billing system.

The collected funds from the sewer user fees and stormwater service charges are used to maintain and improve the City's infrastructure, and to fund projects related to the Department of Environmental Protection's ("DEP") mandated Combined Sewer Overflow ("CSO") requirements. The capital cost estimate of these projects totals several hundred million over an approximate 20-year time period.

JETPORT

Note: Due to rounding, totals may not equal 100%

The Jetport is ranked by the Federal Aviation Administration as the 101st largest airport in the United States based on enplanements as of calendar year 2020. The Jetport served 792,571 passengers in calendar year 2020, the year that the coronavirus pandemic began and which reduced the use of air travel worldwide. Despite these reductions, the Jetport has seen a strong recovery; in the final month of FY21, June of 2021, the Jetport passenger volumes marked the third busiest June in the Jetport's history due to a surge in leisure travel resulting from pent up demand

combined with direct service from several new destinations.

The Jetport is served by four major airlines operating year-round: American Airlines, Delta Airlines, Southwest Airlines, and United Airlines, along with their regional partners. Additional seasonal service is provided by Elite Airways, Frontier, JetBlue and Sun Country.

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 34% of the Jetport's total FY22 revenue estimate, with parking, rental cars, concessions, ground rent, and miscellaneous revenue providing the other 66%.

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a fee for parking ready spaces, counter space, and commission on gross sales to the Jetport. In FY22, car rental agency income is expected to draw 26% of the non-airline revenue. Parking, representing 36% of non-airline revenue, is contracted out to a private management company, which remits the net revenues generated by the parking operations on a monthly basis. Although lower air travel is anticipated to continue compared to the pre-pandemic levels, there are signs of recovery as noted in the increased budget estimates in regards to parking income, airline revenues and car rental revenue.

Note: FY21 and FY22 are estimated amounts

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are four enterprise funds administered by three departments of the City. A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Public Buildings and Waterfront department. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

STORMWATER FUND

The principal function of the Stormwater fund is to account for operating, maintaining, and meeting the capital costs requirements of the City of Portland stormwater and combined sewer infrastructure systems. The City of Portland maintains 129 miles of stormwater infrastructure, 141 miles of combined sewer systems, 96 miles of sanitary sewer, 9 sewer-pumping stations, and approximately 15,000 other structures that help to move and treat stormwater.

The city is also responsible for the capital costs necessary to maintain the system and the development and redevelopment of properties within the city and for meeting State and Federal mandates regarding the quality of streams and tidal waters within its jurisdiction.

JETPORT

The Jetport Fund is responsible for the operation and maintenance of the Portland International Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine.

The Jetport's major expenses include the terminal building, operation of the Jetport Parking division, and maintenance of the Airfield runways, taxiways and aprons. Other central expenses include security, administrative, and marketing costs.

Fish Pier Authority

The Fish Pier Authority, a quasi-municipal corporation, was created in 1989 to operate the eighteen-acre site. The pier is home to the City owned Portland Fish Exchange, the first public auction site for fresh seafood in the nation.

The bylaws of the Fish Pier Authority require that all revenue generated from the Fish Pier operations must stay with the Authority.

As an Enterprise Fund, expenditures and revenues net to zero.

The FY22 expenditure budget has decreased slightly, by \$1,575, or 0.4%. Excluding projected surplus (revenues over expenditures), the FY22 Fish Pier revenue estimate is anticipated to decrease \$1,030, or 0.2%. The Fish Pier revenue is largely comprised of parking income, along with ground rent income.

Sewer Fund

The principal function of the Sewer Fund Enterprise is to account for the sewer services provided to City residents and business establishments. The Portland Water District, not a city department, owns and operates the wastewater treatment plant for which the Sewer Fund pays a monthly fee. The City owns and maintains the infrastructure sewer lines and is responsible for the costs of maintenance, improvements, and expansion.

All users of the system pay monthly, quarterly or annual fees, based upon water volume, to support the expenses of the fund.

As an Enterprise Fund, expenditures and revenues net to zero. Revenues in excess of expenditures are recorded in the fund balance line.

The FY22 Sewer Fund budgeted expenditures increased \$1,732,443 or 6.5%. This increase is largely attributed to Debt Service, the Portland Water District Assessment, the FY22 salary restoration after the FY21 pandemic budget reductions, and sewer flow monitoring funding.

The FY22 Sewer Fund revenue estimate, excluding projected surplus, is anticipated to increase \$2,242,210 or 8.4%; this increase incorporates both the FY21 and FY22 user fee increases. The City continues to fund projects related to the Department of Environmental Protection (DEP) and the Environmental Protection Agency (EPA) mandated Combined Sewer Overflow (CSO) requirements. The City is progressing on the Tier III approved projects including the Back Cove South and West storage conduit projects.

Sewer Finance

This division's services are provided by the City's Finance Department. Finance provides billing and collection services, as well as lien processing for delinquent accounts. The Finance Department also maintains the financial records for the Sewer Fund and the computer network system.

The FY22 Sewer Finance division's decrease of \$6,252, or 6.0%, is related to the anticipated reduction in lien processing expenditures.

Sewer Public Works Administration

This Sewer Administration division accounts for the associated costs incurred by the Department of Public Works administrative staff for sewer related activities.

The FY22 Administration expenditures increased \$6,414, or 0.9%. This minor increase is due to the addition of ITpipes mobile web implementation, Blue Portland web hosting fees, and pipeline assessment NASSCO training.

Sewer Districting

Sewer Districting is responsible for the maintenance and repair of the City's sanitary sewer and stormwater systems including pump station operations and maintenance, catch basin cleaning, right of way inspections and maintenance, and sewer inspections and investigations.

FY22 program expenditures have increased \$169,836, or 6.6%. This increase includes monies to restore FY21 wages due to the pandemic budget reductions and an increase in permanent pavement restoration fees.

Sewer Communications

Public Works Sewer Communications accounts for the costs incurred for sewer related functions; these services include service requests, street flooding and Dig Safe requests.

The Sewer Communications expenditures are budgeted at one third of the General Fund Communication program costs. The expenditures for this program have decreased \$1,344 or 2.1%.

Sewer Engineering

The environmental engineering component of the Engineering division concentrates on sewer and storm water systems and compliance programs. Services include sanitary sewer and storm water system construction and rehabilitation, separation of sewage and storm water systems, investigation of drainage complaints and system failures, various environmental permitting, and enforcement of City ordinances and technical standards for sewage, stormwater and industrial waste discharge. This group is also responsible for the implementation of the Combined Sewer Overflow (CSO) abatement program and the industrial pretreatment program, both federally mandated by the Clean Water Act.

The FY22 divisional budget reflects an increase of \$107,846, or 21.0%, and is largely attributed to the additional funding for sewer flow monitoring. This additional budget funding is related to the phase 1 of I/I rehabilitation which recommends and requires flow monitoring to assess flow reduction.

Stormwater Fund

The Stormwater Fund supports the expenditures needed to operate and maintain this critical infrastructure system, preventing pollutants from entering valued waterways as mandated by the federal Clean Water Act (CWA). The stormwater fee, implemented in January of 2016 and separating from the Sewer Fund, was designed to disperse the program costs to all City property owners who benefit from the positive impacts of this investment. The stormwater fee is based on the impervious area on a property.

The FY22 budgeted expenditures increased \$275,789, or 9.3%, and is largely attributed to the projected increase in the debt service costs. Other FY22 budget changes include the reinstatement of one full-time Stormwater Coordinator position and an increase in project survey funding for drainage repairs, both reduced in FY21 as part of the pandemic budget reductions.

The FY22 Stormwater Fund revenue estimate, excluding projected surplus, is anticipated to increase \$656,343 or 9.7%; this increase incorporates both the FY21 and FY22 Stormwater user fee increases. The City continues to fund projects related to the Department of Environmental Protection (DEP) and the Environmental Protection Agency (EPA) mandated Combined Sewer Overflow (CSO) requirements.

Stormwater Finance Administration

The Stormwater Finance division provides billing, collection and customer service to all property owners in the City of Portland.

The FY22 Stormwater Finance division's expenditures have decreased \$12,839, or 4.8%, primarily due to reductions in the billing and collection processing fees, as well as financial software implementation fees.

Division Summary

Stormwater Management

The Stormwater Management division budget represents the costs to operate and maintain this critical infrastructure system, and to meet or exceed the Stormwater Management requirements of the Clean Water Act. The activities supported by this budget include proportional amounts of catch basin cleaning, ditch clearing, drainage system maintenance, materials disposal, fleet maintenance, and minor structural system repairs that are attributed to the stormwater versus the sewer system. This budget also includes the personnel and consulting service costs for "Small Municipal Separate Storm Sewer System" (MS4) compliance program development and administration, as well as the ongoing participation in the regional Interlocal Stormwater Working Group (ISWG) and anticipated payments towards the Long Creek Watershed Management Plan.

The Sweeping division removes materials such as litter, winter sand, leaves, debris and small particles from City streets. The Sweeping division performs street flushing, and clean up after special events (parades, New Year's celebration, etc.); their efforts promote cleanliness and help the City comply with stormwater quality regulations. Most Sweeping personnel work from 11:00 PM to 7:00 AM. The division provides for daytime sweeping in Parkside, in addition to the longstanding daytime operations on Munjoy Hill.

The FY22 expenditures increased by \$136,484, or 8.8%. The FY22 changes include the restoration of a full-time Stormwater Coordinator position and contracted drainage project survey work reduced due to the pandemic FY21 budget cutbacks. This budget also incorporates a portion of the Cityworks annual maintenance fee and other minor staffing changes.

Jetport Fund

The Portland International Jetport provides commercial air service (over two million passengers a year pre-pandemic), general aviation facilities via two fixed base operators (FBOs) for private aircraft, and an air cargo facility. The Jetport is a dedicated fund which means all revenues generated remain with the airport to fund both normal airport operations as well as capital improvements. No local tax dollars are used to support the Jetport. In order to balance the fund for budgetary purposes, the projected revenue excess over projected expenditures is normally budgeted under Administrative Services as the anticipated surplus; due to the covid air travel restrictions in place since March of 2020, FY21 and FY22 budgeted expenditures have been projected to be in excess of revenues and is displayed under the use of Jetport Fund Balance revenue classification.

The Jetport completed its most recent Airport Master Plan in 2016. The master plan sets the Jetport's priorities in spending for infrastructure improvements, major equipment purchases, and asset management for the short (years 1-6), intermediate (years 7-11), and long term (years 12-20) planning horizons.

The pandemic continues to have an impact on the Jetport as COVID-19 travel restrictions have reduced the use of air travel worldwide. The Jetport's overall FY22 expenditure budget has decreased \$127,000 or 0.5%. Without the use of fund balance, the FY22 projected revenues have increased by \$5,097,275 or 31.5%; the anticipated FY22 Federal CARES reimbursement accounts for roughly 36.0% of this total revenue increase. Airline and Parking revenue are the Jetport's largest revenue streams, followed by car rental commissions.

Jetport Administration

Jetport Administration is responsible for the day-to-day management of the Jetport and for planning future operations. Administration services include property management, payroll, accounts payable and accounts receivable, budgeting and human resources functions.

The FY22 Administration budget decreased by \$51,225, or 4.5%. FY22 Budget changes include partial funding for the Convention and Visitor's Bureau (CVB) informational transportation desk due to the pandemic travel restrictions and an administrative replacement vehicle.

Jetport Fringe and Indirect Costs

The Jetport's Fringe and Indirect Costs, a program under the Jetport Administration Division, reimburses the City's General Fund for expenses incurred for their services including employee benefits, general liability insurance, the Fire Department's Air Rescue Station and Medcu services, and chargebacks for City-provided departmental services including Executive, Finance, Legal, Human Resources and Information Technology. This budget also incorporates the Jetport wage adjustment account.

For FY22 budgeted expenditures decreased by \$79,835, or 1.9%, and is largely attributed to the reduction in the indirect cost chargebacks.

Jetport Field

The Jetport Field Division maintains the runways, taxiways and all other surfaces inside the security fence at the airport, keeping them safe for arriving and departing aircraft. Division responsibilities include mowing, snow removal and fleet maintenance.

The FY22 expenditures have increased by \$14,509, or 0.3%. The FY22 budget incorporates position reclasses, an increase in airfield paint supplies, new capital improvement projects, and other fundamental operating expenditure items.

Jetport General Aviation

The Jetport General Aviation Division (GA) includes the maintenance of the Jetport field area designed for use by private pilots, including the pavement and surrounding fencing. The General Aviation division collects landing fees from the aircraft that use the GA area, similar to the fees charged to the commercial airlines.

The FY22 General Aviation expenditures remain flat, and the landing fee revenues are projected to increase \$11,070, or 5.2%.

Jetport Operations

The Jetport Operations Division performs all administrative and operational activities related to security and operations at the Jetport. These activities include observing all federally mandated TSA security and FAA operations regulations. The division oversees the maintenance of all security related equipment including cameras and monitors, computer equipment, and security doors and gates. The division is also responsible for processing employee background checks and issuing employee ID badges. The Operations Center provides communications, technical, and operations support to all areas of the airport, as well as monitoring flight information and providing a point of contact for the public, the airlines, and the airport businesses on property. The costs of the police officers that serve at the Jetport are also paid from this division.

The FY22 Operations division's expenditure budget has increased by \$76,226, or 3.2%. This budget incorporates four staffing reclasses and an increase in capital outlay. Miscellaneous revenue is anticipated to decrease \$18,750 or 50.0%.

Jetport Terminal Division

The Terminal division oversees all of the activities involving the supervision of the passenger terminal, including the interior and exterior terminal cleaning and maintenance. The terminal division's engineering section is responsible for the planning, design and management of major terminal improvements.

The FY22 expenditures are projected to decrease by \$11,571, or 0.2%. This budget includes the reorganization of one staff position, a reduction in terminal cleaning services and utilities, an equipment maintenance contract, and building cooling improvements.

Jetport Parking Division

The Parking division oversees the parking maintenance and operations of the Jetport's parking garage and surface parking lots. The Jetport contracts with a parking management company, and receives parking revenues net of the company's operational costs and management fee.

The FY22 Jetport Parking division expenditures have decreased by \$81,354, or 1.8%, largely due to the decrease in budgeted capital expenses. Jetport parking revenues are projected to increase by \$633,340, or 13.7%, due to the rise in passenger activity as pandemic air travel restrictions are lifted.

Jetport Airfield Deicing Facility

The Airfield Deicing Facility allows for the collection and recycling of the used deicing fluid by a contracted vendor, thus preventing these chemicals from seeping into the ground. The Jetport pays the costs of this operation and receives revenue from the airlines to offset the expenditures incurred.

Jetport Surplus

The Jetport surplus is determined annually by calculating total revenues minus total expenses, including capital purchases. As an enterprise fund, this entity is self-supporting and under normal operating conditions displays a varying operating budget annual surplus. In FY21 and FY22 however, due to the coronavirus pandemic outbreak and the restrictions imposed on air travel worldwide, the Jetport's budgeted expenditures exceeded the budgeted revenues.

In the FY21 and FY22 budgets, the difference between the excess of expenses over revenues is balanced by the use of surplus to reflect an overall net zero budget for the Jetport Fund (displayed under revenues); under typical operating conditions, the surplus of revenue over expenditures is displayed under the Administrative Services expenditure category.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2022 School budget was approved by the voters June 8, 2021, and subsequently amended by the City Council July 19, 2021, increasing the FY2022 School appropriation by \$1.3m.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 78.4% of the FY2022 Education budget.

State Subsidy

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The budgeted portion of State Aid for Essential Programs and Services (EPS) and debt service accounts for 16.3% of the School's FY2022 Budget.

The chart represents the State Aid to Education revenue history over the past six years.

Note: FY21 and FY22 are estimated amounts

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Board of Public Education for the City be administered by a school board comprised of nine members. The Board of Public Education performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into six categories: (1) Salaries and Benefits (2) Contractual Services (3) Supplies (4) Miscellaneous (5) Debt Service and (6) Capital Equipment. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114-mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the Micmac Indian name meaning "shaped like a

great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater, which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep-water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cross Insurance Arena. Two major medical centers, Maine Medical Center and Northern Light Mercy Hospital, are also located in the City.

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Revenue Base Budget	Expenditure Base Budget	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The City's budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early November, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

1. projected collection estimates for the current fiscal year with explanations for projections substantially different from the estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Completed revenue packages are submitted to the Budget Office by mid-December.

Expenditure Budgets

The second phase of the City's budget process begins in early January. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office in late January.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion

of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The school department budget, under the school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget, which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final

justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity / retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, parks recreation and facilities, public works, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the acquisition, construction or improvement of

capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds are: Fish Pier, Sewer, Stormwater and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

All proprietary funds are accounted for on a flow of economic resources measurement focus.

Basis of Budgeting

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year-end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The character code classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The character code classification for employee related costs such as health insurance, pension, FICA, unemployment, cell phones, clothing and tool allowance, and medical stipends.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment / Transfer: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of more than \$10,000.

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The character code classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Character Code: A grouping mechanism that characterizes the type of expenditure and / or revenue. The major expenditure classifications utilized by the City of Portland include Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance & Repairs, Rentals, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service. The major revenue classifications include Property & Excise Taxes, Licenses & Permits, Intergovernmental, Charges for Services, Fines Forfeits & Penalties, Uses of Money & Property, and Other Finance Resources.

Client Expenses: The character code classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The character code classification which accounts for the purchase of services such as consulting, advertising, temporary services, and printing.

Contributions: The character code classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, and other equipment.

FTE: Personnel staffing acronym for full-time equivalent based on the position's standard hours.

Function: A segment of the account number that identifies the budget category of the account. The eleven primary activity classifications used in budgeting include Education, General Government, Public Safety, Public Works, Health and Human Services, Parks and Recreation, Library, Debt Service, County Tax, Metro and the Enterprise Operations.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of / and guidelines for financial accounting and reporting. These guidelines govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, public works, parks recreation and facilities, health and human services, public library, county tax, metro, and debt service.

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually designated for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

HUD: The abbreviation for Housing and Urban Development.

Insurance: The character code classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists each expenditure category or object code separately (salary, materials, telephone service, travel, etc.), along with the dollar amount budgeted for each specified category.

Maintenance and Repairs: The character code classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The character code classification used for tangible property or equipment used for operations having a cost of $\geq$ \$5,000 and $<$ \$10,000 per single item.

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Code: A segment of the account number identifying the specific types of expenditures and / or revenues at the most detailed level. The city's object codes, defined in the chart of accounts, are utilized across all funds as appropriate, completing the full account number designation. Object Codes are assigned a character code for budget grouping classification purposes.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, contractual services, maintenance and repairs, utilities, and supplies.

Operating Transfers Out: The character code classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Organization Code: A short code identifying an account number's fund, department, division, and program.

Payroll: The character code classification for the cost of employees' wages including salaries, overtime, temporary help, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Program: A segment of the account number identifying the third level in the formal City organization in which a specific activity is carried out; several programs may comprise a single division.

Rental: The character code classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The character code classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The character code classification which includes expenses for heating fuel, electricity, water and sewer, and telephone.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

Budget Highlights

General Fund & Enterprise Funds FY18 - FY23

General Fund Expenditures

The 2022-2023 General Fund budget totals \$268,845,942, an increase of \$36,689,053 or 15.8% over the revised FY22 budget; the FY22 Social Services budget was appropriated an additional \$20m in April of 2022 related to the COVID pandemic requirements, the influx of asylum seekers and the rising numbers of individuals seeking assistance. This FY23 budget continues to incorporate the restoration of the coronavirus FY21 budget reductions; the magnitude of the pandemic began to emerge in March of 2020 (late FY20) during the City's FY21 budget preparation process. The major changes in the FY23 budget include:

Social Services Client Services	\$ 21,953,856
City Wages	\$ 6,832,705
Debt Service	\$ 4,191,581
Pension	\$ \$916,283
Vehicle Fuel	\$ 428,730
County Tax	\$ 415,906
Library	\$ 306,575
Waterfront Border Patrol Upgrades	\$ 250,000
Health Insurance	\$ 159,571
Office of Diversity & Inclusion	\$ 149,075

Solid Waste Management Contract	\$ 145,524
METRO	\$ 117,642
Vehicle Maintenance & Repair	\$ 108,330
HHS Land & Building Rental	\$ 107,548
Workers' Comp Insurance	\$ 100,000
Temporary Services	\$ 95,979
Vehicle & Equipment Rental	\$ 88,910
Barron Center Electronic Medical Records	\$ 87,100
Fleet Fuel Dispensing System	\$ 80,000
Fleet Shop Lifts	\$ 80,000
SS GA PSRC Logan Place Contract (Restored)	\$ 73,000
City Council Audit	\$ 66,655
Fire Turnout Gear	\$ 65,104
Minor Equipment / Minor Capital	\$ 61,893
Travel & Training	\$ 60,633
Economic Development Grant Support	\$ 60,000
HR Relocate / Remodel	\$ 50,000
Fire Steven Ave & 90 Anderson Bldg Impr.	\$ 50,000
Medical Supplies	\$ 48,434
General Liability Insurance	\$ 43,129
Liability Self-Insurance Payments	\$ 41,744
Planning Cloud Upgrade	\$ 40,000
Spring Street Garage Pay on Foot Stations	\$ 40,000
Waterfront Ptld Landing Ship Grant Match	\$ (40,000)
Lab & Medical Services	\$ (47,281)
IT Human Resources Support	\$ (50,000)
Food Expense	\$ (56,997)
Planning Recode Phase II	\$ (65,000)
Historic District Housing Cost Study	\$ (65,000)
Workers' Comp Indirect Chargebacks	\$ (200,000)
Ambulance	\$ (280,000)
Merrill Roof Repair	\$ (500,000)

Enterprise Funds Expenditures

The FY2023 Enterprise Funds budget totals \$65,143,196, an increase of \$9,083,779 or 16.2% over the 2021-2022 budget; this budget increase is largely attributed to the Jetport anticipated surplus & capital outlay and the Sewer & Stormwater debt service.

The FY23 Jetport expenditure budget totals \$30,250,451, increasing \$6,302,697 or 26.3% compared to FY22 (Note: the FY22 Jetport surplus is budgeted at zero for a second year as a result of the pandemic climate). The more significant Jetport budgetary changes include the following:

Surplus	\$ 3,170,067
Capital Outlay	\$ 1,079,750
Building Contracted Cleaning Services	\$ 518,842
Payroll	\$ 269,392
Benefits	\$ 223,286
Temporary Services Security Guards Contract	\$ 178,551
Baggage Service Contract	\$ 175,000
Police Security & Air Rescue	\$ 124,313
Field Winter Snow Plow & Removal	\$ 123,385
Utilities	\$ 120,520
BHS & Jet Bridge Repair	\$ 100,000
Administrative Services	\$ 75,712
Terminal Landscaping	\$ 75,000

The FY23 Sewer Fund expenditure budget of \$29,318,982 increased by \$877,621 or 3.1% compared to FY22. The budgetary changes comprise of the following:

Debt Service Division	\$ 429,535
City Wages	\$ 154,574
Pest Control Contract Services	\$ 80,000
DEP Integrated Plan	\$ 75,000
Administrative Services	\$ 58,737
Utilities	\$ 32,856
District Road Paving	\$ 30,000

The FY23 Stormwater Fund has an expenditure budget of \$5,146,546, resulting in an increase of \$1,897,885 or 58.4%. The more significant expenditure variances are:

Debt Service Division	\$ 1,706,656
City Wages	\$ 143,268

The FY23 Fish Pier Fund has an expenditure budget of \$427,217, resulting in a minimal increase of \$5,576 or 1.3%.

General Fund Revenues

The 2022-2023 General Fund non-tax revenues are estimated at \$177,392,547, an increase of \$31,117,071, or 21.3%, over the 2021-2022 revised budget.

The FY23 / FY22 revenue changes include the following:

SS State of Maine General Assistance	\$ 24,617,383
Revenue Sharing	\$ 3,500,000
Debt Service Enterprise Fund Chargebacks	\$ 3,362,180
Debt Service Fund Reimbursement	\$ 1,100,000
Barron Center Patient Receipts	\$ 997,356
Social Services Misc. Reimbursements	\$ 765,803
Debt Service School Department Charges	\$ 765,728
Parking Meters	\$ 566,000
Parking Garage Hourly & Monthly	\$ 503,428
MEDCU Charges for Services	\$ 470,000
Public Health Division Grant Reimb.	\$ 465,959
Before & After School Program	\$ 443,908
Parks & Recreation Rental Income	\$ 410,278
Waterfront Cruise Ship Passenger Fees	\$ 386,749
Golf Course Recreation / Cultural Fees	\$ 301,886
Ocean Gateway Parking	\$ 253,550
Trash Bags	\$ 233,220
Parking Tickets	\$ 200,000
Finance P-Card Rebate	\$ 180,000
Street Occupancy	\$ 179,750
Enterprise Fund Misc. Reimbursements	\$ 176,687

Jetport Security & Air Rescue	\$ 173,059
TIF Reimbursements	\$ 155,202
Building Permits	\$ 150,000
Police Cruiser Use	\$ 138,250
School Chargebacks Misc.	\$ 125,386
Temple Street Garage	\$ 125,000
Cemeteries Cultural & Recreation Fees	\$ 119,600
Police Outside Jobs	\$ 96,853
Parks & Recreation Misc, Charges for Svcs	\$ 89,105
CIP Charges	\$ 63,796
Recreation Culture & Recreation Fees	\$ 59,245
Athletic Facilities Field Use	\$ 49,407
Renewable Energy Credits	\$ 45,923
Fringe Benefits	\$ 45,414
Debt Service Operating Transfers In	\$ 44,965
Confined Space Fire	\$ 44,000
Planning Dev Application & DRC Inspection	\$ (-40,000)
School Benefit Chargebacks	\$ (-44,468)
Sale of City Property	\$ (-50,000)
Health Insurance Employee Reimbursement	\$ (-91,269)
India Street Donations	\$ (-92,275)
Social Services Grant Reimbursements	\$ (99,182)
Barron Center Laundry Services	\$ (-113,866)
Special Rev / Endowments	\$ (115,055)
Debt Service Misc. Charges for Services	\$ (-204,414)
Other GF Accounts	\$ (-537,000)
American Rescue Plan Act (ARPA)	\$ (-3,197,059)
Social Services FEMA General Assistance	\$ (-6,000,000)

Stormwater User Fees	\$ 526,830
Jetport Cargo Revenues	\$ 128,624
Fish Pier Parking Income	\$ 63,174
Sewer Enterprise Fund Charges	\$ 44,330
Jetport Concessions	\$ 37,377
Sewer Fringe Benefits	\$ 31,081
Jetport Interest Income	\$ (-61,600)
Jetport Federal CARES Reimbursement	\$ (-1,834,393)

Housing & Community Development Program (HCD)

The 2022-2023 HCD program totals \$2,162,465, a decrease of \$183,925, or 7.8%, from the 2021-2022 program: the Entitlement Grant decreased \$102,784, Program Income increased \$1,186, HUD Cares Act (CV) funding decreased \$125,331 offset by new ESG CV funding of \$126,121, Tax Increment Financing (TIF) funding decreased \$90,000, and the Cotton Street lot sale proceeds remain flat at \$20,000. This budget also incorporates the use of \$6,883 in Surplus Funds.

Education

Education Appropriations & Non-Tax Revenue Estimates FY18-FY23

Enterprise Funds Revenues

The Enterprise Funds 2022-2023 revenue estimates are \$69,036,351, an increase of \$10,816,672 or 18.6%.

The major changes in the revenue estimates include the following:

Jetport ARPA 96 Federal Reimbursement	\$ 5,600,000
Jetport Car Rental Commissions	\$ 2,224,982
Jetport Parking Income	\$ 1,299,123
Sewer User Fees	\$ 1,173,316
Jetport Terminal Rental	\$ 857,530
Jetport Landing Fees	\$ 723,913

The final 2022-2023 Education budget approved June 14, 2022 is \$133,070,967, an increase of \$6,616,267 or 5.2% over the revised FY22 budget. A summary of the more significant school expenditure changes is provided below:

School Wages	\$ 3,429,132
Benefits	\$ 1,003,187
Software / Annual Subscription	\$ 698,222
Debt Service	\$ 665,727
Tuition to Private Source	\$ 180,294
Purchased Professional / Technical Services	\$ 177,877
Food	\$ 159,269
Software Maintenance	\$ 156,195
Student Transport Purchase Private	\$ 151,000
Insurance – General Liability	\$ 137,893
Tech-Related Supplies	\$ 128,147
Rentals	\$ 119,324
General Supplies	\$ 113,994
Legal Services	\$ 80,000
Electricity	\$ 75,338
Repair & Maintenance Services	\$ 71,860
Instructional Supplies	\$ (-110,904)
Tech-Related Equipment (Under \$10k)	\$ (-127,675)
Software Licenses (1-Time Expense)	\$ (-510,575)

The total non-tax revenue estimate for Education is \$29,219,896, an increase of \$1,848,447 or 6.8%. A summary of the revenue changes are as follows:

Surplus Use	\$ 1,410,390
State Subsidy – EPS/Debt Service	\$ 899,495
Food Service	\$ 508,544
Adult Ed Tuition - Individual Vocation	\$ 15,000
State Agency Client	\$ (-23,953)
Building Rentals	\$ (-42,500)
Adult Ed Tuition – Individual Enrichment	\$ (51,430)
Indirect Recovery Cost	\$ (-100,000)
MaineCare Medicaid Reimbursement	\$ (-781,170)

Key Revenues and Expenditures

Revenues

The operating budget categorizes revenues into seven distinct sources. A brief explanation of the revenue source is provided as well as significant changes in their estimates.

1. GENERAL AND OTHER EXCISE TAXES

Real Estate and Personal Property Tax

The principal tax of the City is the tax on real and personal property. A single tax applies for each fiscal year to the assessed value of the taxable real or personal property. The City's Tax Collector receives the tax commitment from the City Assessor, with assessed values as of April 1 of each year. Property taxes are collected in two installments, traditionally in September and March.

Collection of real estate taxes is ordinarily enforced in the City by the "tax lien" procedure as provided in the Maine Revised Statutes, as amended, to the collection of delinquent real estate taxes. Real Estate Tax Liens are recorded against the individual property at the County Registry of Deeds. This lien has priority over all mortgages, liens, attachments and encumbrances of any nature, subject to any paramount federal tax lien and subject to bankruptcy and insolvency laws. If the account is not satisfied within 18 months, the property becomes tax acquired and may be disposed of by the City.

The latest revaluation occurred in FY22. The previous property revaluation was phased in over two years, FY2006 and FY2007, and a prior revaluation was completed in 1992.

Automobile Excise Taxes

Excise Taxes are another major revenue source in this category. Vehicles are assessed a sum equal to a stated mill rate on each dollar of the manufacturer's suggested list price. The mill rate starts at 24 mills for a current year model

and declines to 4 mills for the 6th and succeeding years.

Excise Tax Collections

Note: FY22 and FY23 are estimated amounts.

2. LICENSES AND PERMITS

Many of the licenses and permits are established by the City Council and set forth in the Code of Ordinances. However, there are a number of fees established by the City pursuant to state law.

Building Permits

Note: FY22 and FY23 are estimated amounts.

Licenses and permits found in this category include street occupancy permits, business licenses, police & protective licenses, professional / occupational licenses, and non-business licenses. Building Permits, Business Licenses, Street Occupancy and the Cable TV Franchise are the largest sources of revenues in this category.

3. OTHER GOVERNMENTAL AGENCIES

Reimbursements are received from the state, other governmental agencies or individuals generally to compensate either in part or in full for services rendered by the City of Portland.

The FY23 budget incorporates \$5.553m in American Rescue Program Act (ARPA) relief funds to offset the anticipated loss of City revenue during the coronavirus pandemic recovery, down from the first year FY22 funding of \$8.750m.

Note: FY22 and FY23 are estimated amounts.

The largest revenue in this category for FY23 is the General Assistance (GA) reimbursement. In FY16, the State of Maine GA reimbursement rate changed from a tiered percentage reimbursement rate (50% / 90%) to a flat seventy percent (70.0%) reimbursement rate based on the City's eligible program expenditures. The GA revenue collections,

FY15 and forward, reflect changes by the state in the GA reimbursement eligibility guidelines, excluding certain immigrants. This budget reflects the increasing need for general assistance resulting from the influx of asylum seekers beginning in the summer of FY20, and the start of the pandemic beginning in the spring of FY20. The increased need is anticipated to continue. Due to the need to "socially distance" during the pandemic, shelter capacities were reduced and local hotel utilization became necessary to provide for emergency housing.

During FY22 a mid-year appropriation amendment increase was approved by the City Council adding \$20m to the General Assistance expenditure budget; the revenue funding included an anticipated additional \$14m from the state and \$6m from FEMA. The Social Services division is continually striving to assist its clients to achieve self-sufficiency through its various programs funded by state and federal grants.

Another major source of revenue in this category is State Revenue Sharing.

Note: FY22 and FY23 are estimated amounts.

Traditionally the State has set aside 5% of all the sales, corporate, and personal income tax revenues it receives, creating a Revenue Sharing pool. The Revenue Sharing pool is then shared amongst 487 municipalities and unorganized townships in Maine, and distributed monthly. The total amount received by each municipality is based on two formulas: Revenue Sharing I and Rev-II.

The State's FY2016 budget, enacted June 30, 2015, temporarily reduced the Revenue Sharing distribution pool from 5.0% of all state sales, corporate, and personal income tax revenues to 2.0% for four years (FY2016 - FY2019). This reduction replaced the previous FY2014 and FY2015 reduction, which capped Revenue Sharing at \$62.5m.

The State partially restores the Revenue Sharing distribution pool in FY2020 to 3.0%, which has been reduced since FY2014, with a phased in approach to restore back to the statutorily defined level of 5.0% in future years; the allocation percentage changed to 3.75% in FY2021 and 4.5% in FY2022.

Revenue Sharing I is based on the following formula:

- a) $\frac{[\text{population of town} \times \text{assessment (tax levy)}]}{\text{state valuation for municipality}} = \text{the town's computed number}$
- b) $\text{computed number} / \text{sum of all computed numbers} = \text{proportional share of REV-I distributions}$

Revenue Sharing II is based on the following formula:

- a) $\text{assessment} / \text{state valuation} = \text{mil. rate}$
- b) $(\text{mil. Rate} - .011) \times \text{population} = \text{the town's computed number}$
- c) $\text{computed number} / \text{sum of all computed numbers} = \text{proportional share of REV-II distributions}$

*Revenue Sharing II Distributions: In fiscal year 2016, 2017, 2018, 2019, approximately 20% of funds are set aside in the Local Government Fund and a lump sum distribution of \$4 million at the end of each year.

In FY2023, the State's Revenue Sharing projected share for Portland is 5.2% based on the most recent data.

This category also includes the Local Road Assistance Program (LRAP). This state program provides equitable financial assistance to communities for improving local roads, maintaining state roads in urban areas, and assisting the State in making capital improvements to state aid minor collector highways.

4. CHARGES FOR SERVICES

Also called user fees, these charges are voluntary payments for direct, measurable consumption of services provided by the municipality.

Major sources of revenue are derived from Patient Receipts (Barron Center), Cultural / Recreation Services, Health Insurance Reimbursements, Emergency Medical Services (EMS), and Recycling.

Note: FY22 and FY23 are estimated amounts.

5. FINES, FORFEITS & PENALTIES

This revenue type includes receipts from fines and penalties imposed for the commission of statutory offenses, violation of lawful administrative rules and regulations, and for neglect of official duty. Fines include district court fines and violations of local ordinance such as parking fines and building code violations.

Note: FY22 and FY23 are estimated amounts.

Parking violations contribute to the majority of the revenues found under Fines, Forfeits & Penalties.

6. Use of Money and Property

Note: FY22 and FY23 are estimated amounts.

The Use of Money and Property revenue type includes revenues received from parking facilities, rental income, and interest earnings.

7. OTHER FINANCING RESOURCES

These revenues include reimbursements both from internal and external sources.

Reimbursements for expenditures incurred by staff departments, fringe benefit accounts, and departments providing direct services to the enterprise funds, school department, TIF, cemetery endowments, library, and other miscellaneous city funds are known as interfund charges. Other financing resources revenue includes various grant reimbursements including the Housing and Community Development grant and Other Agency revenues.

The biggest source of interfund revenue is the debt service chargebacks to the Enterprise Funds and School department. Other large revenue sources include chargebacks to the Enterprise Funds for employee benefits such as pension, workers' comp and medical insurance.

The Police and Fire departments charge the Jetport for direct services as well as administrative services provided. The direct services encompass 24-hour air rescue and security operations at the Jetport. The Jetport is also charged a minimal portion of each department's administrative cost.

The sale of City property and surplus activity are also found in this category.

Expenditures

Although the General Fund budget presents expenditure information by department, the City of Portland categorizes spending activities by nine areas. The following will provide a brief summary explanation of each of these expenditure types.

1. GENERAL GOVERNMENT

General governmental expenditures include the legislative and administrative functions for the benefit of the public and municipal agency as a whole. This includes expenditures for City Council, City Clerk, Executive, Assessor, Finance, Legal, Human Resources, Parking, Housing & Economic Development, Planning, Permitting & Inspections, Information Technology, Public Buildings & Waterfront, Pension, Insurances, Contingency, and Memberships / Other.

2. PUBLIC SAFETY

The Public Safety category includes the Police, Fire / EMS and Dispatch operations. The Public Safety function is the largest tax supported service provided by the City of Portland, aside from the School Department.

Police

The Police Department is the largest municipal law enforcement agency in the state. The department provides a complete spectrum of services, from an active and diverse patrol force to a highly trained team of Detectives providing comprehensive investigative services. The department's mission is enhanced by closely integrating field operations with community expectations through the application of the community policing philosophy. A highly trained professional workforce is supplemented by an advanced technology infrastructure. The marriage of the best people and the best tools enables high quality service in an ever more challenging police environment.

Fire

The Fire Department provides for fire suppression, emergency medical care response and transport. Additional responsibilities include Emergency Management and Homeland and Port Security oversight. Areas of unique responsibility include Hazmat/WMD Technical Response Team, Confined Space Rescue, Fire and Emergency Medical service to the Casco

Bay Islands, Air Rescue Fire Fighting at the Jetport, Marine Fire Fighting for Portland Harbor, Fire Prevention, and Fire Inspection, which includes plan review and property safety inspections. The Fire Department is also responsible for a municipal fire alarm system and the maintenance of a city wide 800 MHz radio system.

The Fire Department maintains ten fire stations and the Spring Street Fire Museum. A minimum of forty-six firefighters and paramedics staff each shift on 18 pieces of apparatus, which include: five engine companies, four ladder companies, five ambulances, one heavy rescue company, two air rescue units, and one marine unit. Each piece of apparatus is equipped with advanced life support equipment 24 hours a day, seven days a week.

Dispatch

The Dispatch Department, while remaining under the direction of the Police Department, separated into its own department in FY22.

3. PUBLIC WORKS

The Department of Public Works is responsible for providing many of the essential services to City of Portland residents throughout the year. These services include the operation of the Riverside Recycling Facility (under a contract arrangement), and a comprehensive solid waste program, which includes trash collection, residential curbside recycling, a leaf collection program, as well as a heavy item / bulky collection pick-up program. Public Works also provides for the construction and maintenance of city streets and sidewalks, the sewer system, stormwater maintenance, and technical support / engineering services for Capital Improvements Projects. Other key services include the removal of snow and ice from city streets and sidewalks, maintenance of the Portland Downtown District, maintenance and repair of all City vehicles and equipment, and traffic management, including maintenance of traffic signaling, street lights and traffic control and calming. Public Works also

provides core public works services to four adjacent islands in Casco Bay.

4. HEALTH AND HUMAN SERVICES

The Department of Health and Human Services (HHS) undertakes the planning and coordination of health and human service activities in Portland. This often occurs in collaboration with non-profit agencies and the state and federal government. HHS consists of five operational divisions: HHS Administration, Public Health, Social Services, the Barron Center and the Office of Elder Affairs.

Public Health is the state's most comprehensive local public health department. Public Health consists of six programs: Administration, Family Health, Chronic Disease Prevention, Health Equity, the India Street Clinic, and Public Health Research.

Social Services provides both financial assistance and support services for low-income Portland residents. Services include case management, including assistance with securing housing and job placement, and representative payee services to clients. The Social Services division includes Administration, General Assistance, the Oxford Street Shelter and the Family Shelter. Day services are available at the Oxford Street Shelter.

Social Services was required to reduce the number of available beds in the shelters due to the COVID pandemic guidelines. Due to these challenges, which began in the spring of FY20, along with extremely limited emergency shelter options, the use of hotels to house individuals and families has become a regular part of the City's Health & Human Services operations resulting in a substantial increase in the client services expense lines. In addition, the city has experienced an influx of asylum seekers. The City Council approved a mid-year FY22 budget appropriation amendment to address the needs of the record numbers seeking city emergency shelter services.

The Barron Center is the state's second largest long-term care nursing facility. The Barron Center is a 219-bed skilled rehabilitation and nursing facility, including a 50-bed specialty unit for the care of residents with dementia. Residents of the Barron Center are able to receive speech, occupational and physical therapy services, and short- and long-term nursing care services in addition to end of life and hospice services.

The Office of Elder Affairs provides the community with an Elder Advocate. Assistance is provided in the form of senior information and referral, adult day health services, and community collaboration. Elder Affairs operates Martha's Cottage, which is the only domestic violence shelter for seniors in the country. In addition, the Office of Elder Affairs leads the Age Friendly Community Initiative for the City of Portland.

A large majority of the funding for the Public Health and Social Services divisions is derived from state and federal grants, and miscellaneous reimbursements for direct services.

5. PARKS, RECREATION AND FACILITIES

The Department of Parks, Recreation and Facilities consists of four divisions: Administration, Parks, Recreation, and Facilities. The Parks division oversees Parks, Forestry & Horticulture, Athletic Facilities, and Cemeteries. The Recreation division oversees the Recreation, Aquatics, the Riverside Golf Course, Golf Course Restaurant (leased operation) and Ice Arena programs, including the permitting of outdoor events, races and rallies. The Facilities division is comprised of the Public Assemblies, Concessions, Custodial Services, and the Merrill Auditorium programs.

The City of Portland has managed Portland's open spaces since the nineteenth century beginning with a Cemeteries and Public Grounds Committee. Parks, Recreation and Facilities is responsible for the day-to-day management and

care of over 1,200 acres of parks and open spaces in the City. Serving people of all ages and contributing to healthy lifestyles and leisure activities of the community, this department serves the many citizens and visitors of Portland through 67 individual parks and 8 miles of multi-use trails.

The Parks, Recreation, and Facilities Department also oversees 20,000 City-owned trees and provides new plantings each year. Cemeteries manages two active cemeteries (Evergreen and Forest City) and eleven inactive cemeteries.

Recreation offers a vast array of services and leisure activities including Community Centers for special events, recreation programs for children and adults, before and after school care, center for therapeutic recreation, three pools, operations of the ice arena and Riverside Golf Course, and the management and scheduling of the athletic fields.

6. LIBRARY

The Portland Public Library is governed by a Board of Trustees. As an independent and non-profit organization, the Library is self-supporting through its own resources with additional grants from the City, Cumberland County and the State of Maine. The amount appropriated represents approximately 85.5% of the Library's estimated expenditures. The City also owns the land and building in which the Library operates.

The expenditures under this category are for the City's contribution to the Portland Public Library.

7. METRO

The Greater Portland Transit District, a quasi-municipal organization better known as Metro, is a shared venture to provide public transportation services, serving the Brunswick, Falmouth, Freeport, Gorham, Portland, South Portland, Westbrook, and Yarmouth communities. In April of 2009, the Town of Falmouth joined the City of Portland and the

City of Westbrook as the third community assessment member. The District is managed by a Board of Directors selected by the municipal officers of each participating municipality. During early 2019, Metro began working with the communities of Brunswick, Freeport and Yarmouth to move the Metro *BREEZ* project from its pilot phase to permanence; this also entailed bringing these communities onto the Metro Board of Directors as full members who also share in covering their fair portion of the agency's fixed and overhead costs. The Board of Directors has the responsibility for budgeting and financing. The District's operating and capital expenditures, including debt service, are financed by state and federal grants received directly by the District, fares, assessments of member communities, non-member local funding, and other miscellaneous revenues.

The appropriation found under this division represents the City of Portland's assessment for the upcoming fiscal year. The City's portion of the FY23 annual assessment is \$3,137,789.

8. LONG TERM DEBT

Note: FY22 and FY23 are estimated amounts.

Debt Service expenditures repay principal and interest on the City's general obligation bonds, as well as the administration cost of the current and past year bond issuances. The primary reason for borrowing funds is for financing of Capital improvements, some of which are for Schools and Enterprise Funds.

The City's debt source is the single largest item of expense in the City's budget. For fiscal year 2023, the gross debt budget is \$52,546,994 or 19.5% of the City's general fund budget; it is estimated that the Enterprise Funds and the School Department are to reimburse the general fund \$23,621,487 of this expense. The FY23 anticipated net cost of debt service to the City general fund is \$27,564,438.

9. COUNTY TAX

This expenditure is paid to finance Portland's share of the cost of county government, including debt repayment. This is determined by the ratio of the City's equalized State Valuation to the County's total equalized State Valuation. At January 1, 2022, the City's equalized State Valuation of \$12,095,550,000 was 21.4% of the County's total equalized State Valuation of \$56.6 billion, resulting in a FY23 assessment to the City of Portland of \$7,563,215.

Key Revenues and Expenses

Revenues

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. Administered by the Fish Pier Authority board, this fund receives revenues from leases and parking on the pier. Revenue generated by fish pier operations is required to be used to support the pier maintenance and capital improvements, as well as supporting the Portland Fish Exchange auction.

SEWER FUND

100% of the revenues generated by the Sewer Fund are from sewer user fees. The Portland Water District bills the City's residents and businesses for water and sewer. The sewer portion is based upon water volume.

On July 1, 2022, the FY23 sewer user fee increases to \$12.30 per hundred cubic feet (hcf). This is an increase of \$0.50 over the FY22 rate of \$11.80 per hcf, an increase of 4.2%.

In FY23, approximately 78.8% of the Sewer Fund budget is allocated for debt service and assessment fees to the Water District.

STORMWATER FUND

The Stormwater program / rate began mid-year FY16 on January 1, 2016; Stormwater related services separated from the Sewer Fund as part of an effort to achieve greater fairness in paying stormwater costs among its' users, allowing more equitable distribution of user costs which are based on impervious area.

The FY23 stormwater service charge increases to \$7.50/month per 1,200 square feet of impervious surface as of July, 1, 2022, an increase of \$0.50 or 7.1%. The City maintains the Stormwater billing system.

The collected funds from the sewer user fees and stormwater service charges are used to maintain and improve the City's infrastructure, and to fund projects related to the Department of Environmental Protection's ("DEP") mandated Combined Sewer Overflow ("CSO") requirements. The capital cost estimate of these projects totals several hundred million over an approximate 20-year time period.

JETPORT

Note: Due to rounding, totals may not equal 100%

The Jetport is ranked by the Federal Aviation Administration as the 95th largest airport in the United States based on enplanements as of calendar year 2021. The Jetport passenger count rose to serving 1,707,818 passengers in calendar year 2021 almost two years after the coronavirus pandemic began which reduced the use of air travel worldwide; a rebound from the Jetport's FY21 (July 2020 - June 2021) passenger count of 968,611. Despite the coronavirus pandemic reductions, the Jetport has seen a strong recovery. In the final month of FY22, June of 2022, the Jetport passenger volumes marked the busiest June

in the Jetport's history due to a surge in leisure travel resulting from pent up demand combined with direct service from several new destinations.

The Jetport is served by four major airlines operating year-round: American Airlines, Delta Airlines, Southwest Airlines, and United Airlines, along with their regional partners. Additional seasonal service is provided by Elite Airways, Frontier, JetBlue, Sun Country, and Cape Air.

Airlines pay terminal rental and landing fees based on Jetport cost center expenses. Airline revenues account for approximately 29% of the Jetport's total FY23 revenue estimate, with parking, rental cars, concessions, ground rent, and miscellaneous revenue providing the other 71%.

Note: FY22 and FY23 are estimated amounts

Rental cars are provided on-site by Alamo, Avis, Budget, Dollar, Enterprise, Hertz, and National. Each agency pays a fee for parking ready spaces, counter space, and commission on gross sales to the Jetport. In FY23, car rental agency income is expected to draw 27% of the non-airline revenue. Parking, representing 30% of non-airline revenue, is contracted out to a private management company, which remits the net revenues generated by the parking operations on a monthly basis. Air travel is anticipated to continue to gain momentum and it is predicted the Jetport will soon achieve their pre-pandemic levels as noted in the increased budget estimates in regards to parking income, airline revenues and car rental revenue.

The Airfield Deicing Facility is a net zero cost operation, with all costs initially paid by the Jetport and then reimbursed by airlines for services rendered.

All revenues generated by the Jetport are dedicated, meaning that any excess of revenue after expenses have been paid at year-end must remain in the Jetport fund to be used for future expansion or major capital improvement needs.

Expenditures

Enterprise Fund accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing goods and services to the public be financed primarily through user charges. There are four enterprise funds administered by four departments of the City: Finance, Public Works, Parks Recreation & Facilities, and Public Buildings & Waterfront. A brief description of each of these operations follows.

FISH PIER

The Fish Pier Authority is a segregated budget that maintains the Portland Fish Pier and keeps its own fund balance. The Fish Pier falls under the direction of the Public Buildings and Waterfront department. The Pier was deeded to the City in 1984 by the State to use in support of commercial fishing activities.

SEWER FUND

The principal function of the Sewer Fund is to account for the sewer services to the City residents and business establishments. The City is also served by the Portland Water District (PWD), a wholly separate quasi-municipal entity, whose operations are not part of the City for treatment of its wastewater. The City owns and maintains the infrastructure sewer lines and is responsible for the cost of their maintenance, improvements and expansion. The PWD owns and operates a treatment plant for sewage delivered to the plant by the City, for which the City pays a monthly fee. The City is responsible for the entire debt service required to finance the PWD's treatment plant in Portland.

STORMWATER FUND

The principal function of the Stormwater fund is to account for operating, maintaining, and meeting the capital costs requirements of the City of Portland stormwater and combined sewer infrastructure systems. The City of Portland maintains 129 miles of stormwater infrastructure, 141 miles of combined sewer systems, 96 miles of sanitary sewer, 9 sewer-pumping stations, and approximately 15,000 other structures that help to move and treat stormwater.

The city is also responsible for the capital costs necessary to maintain the system and the development and redevelopment of properties within the city and for meeting State and Federal mandates regarding the quality of streams and tidal waters within its jurisdiction.

JETPORT

The Jetport Fund is responsible for the operation and maintenance of the Portland International Jetport. The Jetport serves as a vital transportation link to the City of Portland and the entire southern region of Maine.

The Jetport's major expenses include the terminal building, operation of the Jetport Parking division, and maintenance of the Airfield runways, taxiways and aprons. Other central expenses include security, administrative, and marketing costs.

Key Revenues and Expenditures

In 2007, the State Legislature passed a bill that required both consolidation of School districts and a referendum vote on every school budget. The Portland School Department, because of its size, did not have to consolidate with any other district. Portland is, however, still required to have a referendum vote on their budget. After approval by the City Council, the FY2023 School budget was approved by the voters June 14, 2022.

Revenues

The funding sources for Education, other than Property Taxes, are summarized into four major categories - General Fund, Adult Education, Food Service, and Other Revenue. The property tax funds 78.0% of the FY2023 Education budget.

State Subsidy

The second largest School-funding source is State Aid to Education. The State subsidy funding formula was amended by the Essential Programs and Services Funding Act of 2003.

The budgeted portion of State Aid for Essential Programs and Services (EPS) and debt service accounts for 16.2% of the School's FY2023 Budget.

The chart represents the State Aid to Education revenue history over the past six years.

State Aid to Education
Essential Programs & Services
(EPS) and Debt Service

Note: FY22 and FY23 are estimated amounts

Expenditures

The City operates its educational program for grades K through 12, Adult Education, and for applied technology education under its own supervision. Article III of the City's Charter, as amended, provides that the Board of Public Education for the City be administered by a school board comprised of nine members. The Board of Public Education performs all duties and functions regarding the care and management of the public schools in the City.

For presentation in the City's Municipal Budget, the Education budget is broken down into six categories: (1) Salaries and Benefits (2) Contractual Services (3) Supplies (4) Miscellaneous (5) Capital Equipment and (6) Debt Service. For a more comprehensive report, the School Department issues an annual Education Budget Report.

Budget Overview

Background Information

The City of Portland is located on the southern coast of the State of Maine in the southeastern section of the County of Cumberland, the State's most populous county. The City is approximately 108 miles north-northeast of Boston, Massachusetts and 60 miles southwest of the City of Augusta, the State's capital. Portland is bordered by the Town of Falmouth on the northeast and the City of Westbrook on the west, with the Presumpscot River forming a portion of this border. The Fore River separates Portland from the City of South Portland for a major portion of its southern border. The Atlantic Ocean forms Portland's eastern border as well as Portland Harbor and Casco Bay.

As the hub of Maine's southern region convenient access to Portland is provided by Exits 44, 45, 46, 47, and 48 of U.S. Interstate Route 95 (the Maine Turnpike) which intersects the City's western plain in a north-south direction, and the U.S. Interstate Route 295 spur which bisects the City through its interior. U.S. Route 1 follows the coastal plain of the City, also in a north-south direction. The Portland International Jetport, located in the City, provides air traffic for the region. The Casco Bay Island Transit District provides commuter and tour boat service to the major islands in Casco Bay. Bus transit, by major carriers operating two terminals in the City, provides regularly scheduled interstate and intra-state transportation. The Amtrak Downeaster passenger railroad service runs between Portland and Boston, offering additional stops along the 114-mile journey in Maine, New Hampshire and Massachusetts during the approximate 2 1/2 hour trip. The Maine Central Railroad, Boston & Maine Corporation and the St. Lawrence & Atlantic Railroad Company provides the greater Portland area with rail links to all of Maine, the continental United States and Canada.

The area embracing Portland was first settled in 1632 and called "Machigonne", the

Micmac Indian name meaning "shaped like a great knee". The area was then referred to as Casco but subsequently incorporated as Old Falmouth in 1718, formed of the area now encompassing the cities of Portland, South Portland, and Westbrook and the towns of Cape Elizabeth and Falmouth. Portland separated from Old Falmouth and incorporated as a town on July 4, 1786, taking its present name. Portland was chartered as a city on March 26, 1832, and annexed the City of Deering (formerly the Town of Stroudwater, which included the present limits of Westbrook plus Deering, Deering being further set off as a city in 1871) on February 6, 1899. Portland was the site of the 1819 Constitutional Convention when Maine broke away from the Commonwealth of Massachusetts to become a separate state in 1820. The City served as the first capital from 1820 until its removal to Augusta in 1831.

The metropolitan area is clustered on the "Peninsula" which is surrounded on its sides by Back Cove, Casco Bay and the Fore River with the Eastern and Western Promenades at its opposite ends. Once confined geographically to this narrow peninsula the City added greatly to its territory with the annexation of Deering and now consists of 19.15 square miles of land area. The sections of the City are: Brighton, Casco Bay Islands, Deering, East Deering, the Peninsula, North Deering, Riverton, Stroudwater, Woodfords and Morrills.

Portland is the largest city in Maine, the seat of government for the County of Cumberland and is the region's leading industrial, commercial and cultural center. With one of the finest deep-water harbors on the Atlantic Coast, Portland is closer to Europe than any other transatlantic port in the United States. The City enjoys numerous parks, monuments, historical sites, several hotels and restaurants. Portland is home of the University of Southern Maine, University of New England, the Portland Museum of Art, the Maine College of Art and the Cross Insurance Arena. Two major medical centers, Maine Medical Center and Northern Light Mercy Hospital, are also located in the City.

Budget Overview

Purpose of the Budget

The annual budget serves three principle purposes:

The budget serves as a tool for the City Manager and department heads in planning the work programs to be performed and the services to be provided by the departments and divisions of the City government.

The budget enables the City Council to determine the amount of available revenues and the manner in which it is to be allocated to various governmental programs in accordance with the needs of the community.

The budget serves as an instrument of control for governmental spending by making available at all times the relative position of actual expenditures to appropriated amounts of departments and divisions and the progress of work being accomplished.

The budget document is the financial plan of the City government. When adopted by the City Council, it reflects the proposed expenditures of the various departments and divisions and the method of financing these expenditures.

Phases of Budgeting

Municipal budgeting consists of three phases:

1. budget preparation
2. review and adoption
3. execution

Budget Calendar

Dec	Jan	Feb
Dept. Base Budget Preparation	Dept. Base Budget Preparation	Budget Compilation
Mar	Apr	May
City Manager Budget Review	Finance Committee Review	City Council Deliberations, Public Hearings & Adoption

Budget Preparation

The budget is prepared in two stages -- revenue estimation and expenditure budgets.

Revenue Estimate

The optimal budget process begins with revenue estimation for a very simple reason, the City can appropriate no more than it expects to have in resources. This very simple fact makes the accuracy of revenue estimates critical. Unrealistically high estimates assure that at some point in the budget year, an expenditure freeze will be required. On the other hand, with the fiscal constraints that exist in the public sector, significantly understating revenues can negatively impact the tax levy by increasing taxes unnecessarily.

Besides historical data, which is very important, factors such as inflationary and unemployment trends, interest rates, sales and general economic factors are taken into consideration by the departments.

In early December, an automated revenue package is made available to the departments. The departments must provide the following information for the revenues that are their responsibility:

Budget Overview

1. projected collection estimates for the current fiscal year with explanations for projections substantially different from the estimate
2. an estimate for the upcoming fiscal year with the method and/or calculations behind the estimate

If a department is proposing a fee increase, a memo outlining pertinent information including action necessary to establish the fee, administrative mechanism for collections, reasonableness, and the new revenue capability is included in the submitted revenue package.

Expenditure Budgets

The expenditure phase of the City's budget process also begins in early December. The departments prepare their budgets from the instructions given, such as wage guidelines and target figures. Budget packages are submitted to the Budget Office around late January or early February.

Review and Adoption

During the month of March, the City Manager reviews the budgets through a series of budget hearings with the departments. The City Manager then formulates his recommendations. Prior to April 1 of each year, the City Manager's proposed budget for the following fiscal year is then submitted to the City Council. An accurate summary of this budget is made available no later than two (2) weeks after its submission to the City Council.

The City Council then refers the City Manager's budget to the Finance Committee for review and consideration. During the month of April, the Finance Committee holds budget hearings with all the City departments and the School department. Upon completion of these hearings, the Finance Committee formulates their recommendations and presents the budget to the City Council. The

school department budget, under the school consolidation law passed in 2007, is required to conduct a referendum to approve the budget.

The City Council holds a public hearing on the City's Finance Committee's recommended budget at least ten days prior to the final passage of the appropriation resolve, which must be on or before June 30. A budget workshop is scheduled for the City Council to discuss the budget after the initial public hearing. Final action is taken by the City Council at the second reading of the budget, which as previously stated must be before June 30th.

Execution

Amounts are appropriated for general City purposes and one amount for school purposes, the total of which cannot exceed estimated revenues.

Budgets for the general fund and the enterprise funds are legally adopted each year through the passage of an appropriation resolve. Special revenue funds and capital projects funds do not have legally appropriated budgets but have adopted project budgets.

Total expenditures for the year may not exceed total appropriations for the period. The City Council may, by resolution, appropriate additional amounts only up to the amount of excess revenues and unencumbered budget surplus remaining after the purpose of the original appropriation has been satisfied. At the end of the fiscal year, all unencumbered appropriations lapse unless specifically continued by resolution of the City Council.

With the passage of the budget and appropriation resolve, the control phase of the fiscal program begins. Throughout the fiscal year, the budget acts as a control on expenditures, and on programs and activities of the City. The fact that funds are budgeted to a department and activity is not itself a final justification for the expenditure of money; constant review and control must be maintained throughout the year. Responsibility for this

Budget Overview

control is shared by the City Manager, the department heads, and the Budget Office. Final responsibility lies with the City Manager.

No payment voucher shall be processed until the Budget Office has certified that funds are available under the proper account for the department initiating the payment request.

Accounting System

Fund Accounting: The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity / retained earnings, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following funds are represented in the budget report.

Governmental Funds

General Fund: Transactions related to revenues and expenditures for delivery of those services traditionally provided by municipal governments, which are not accounted for in other funds, are accounted for in the General Fund. These services include, among others, general government, public safety, parks recreation and facilities, public works, health and human services, library, pension and employee insurance, county tax and Metro, debt service, and education.

Capital Projects Funds: Transactions related to revenues obtained and used for the acquisition, construction or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived

principally from proceeds of general obligation bond issues.

Special Revenue Funds: Transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed, are accounted for in Special Revenue Funds.

The special revenue fund presented in the budget document is the Community Development Block Grants. It accounts for grants received from the federal government under the Housing and Community Development Act of 1974, as amended. These funds are used to repair streets, sidewalks and maintain parks in neighborhoods that qualify under the regulations. Qualified external human service organizations also share in these funds.

Proprietary Funds

Enterprise Funds: Transactions related to City facilities and services which are intended to be supported primarily through user charges, or where management has decided that determination of net income is appropriate, are accounted for in Enterprise Funds.

The operations classified as Enterprise Funds are: Fish Pier, Sewer, Stormwater and Jetport.

Basis of Accounting and Budgeting

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus.

All proprietary funds are accounted for on a flow of economic resources measurement focus.

Budget Overview

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred and revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year-end. Revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue and charges for services. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Basis of Budgeting

The City follows certain accounting principles for General Fund budgetary reporting purposes that differ from GAAP; the most significant of which are encumbrances treated as expenditures for budgetary purposes, and interfund and interdepartmental transfers under generally accepted accounting principles treated as revenues and/or expenditures for budgetary reporting purposes. In addition, the City's budgetary reporting for insurance claims, compensated absences, and investment income is done in accordance with the cash basis method of accounting, as opposed to the modified accrual method required by generally accepted accounting principles.

Glossary of Terms

Ad Valorem Tax: Property taxes levied on the assessed value of real or personal property.

Administrative Services: The character code classification which includes the cost of memberships to professional organizations, literature, licenses, travel, training, and postage.

Appropriation: An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes.

Assets: Property owned by a government which has a monetary value.

Authorized Positions: The approved list of positions that an organization may hire to fill.

Balanced Budget: A budget in which planned resources equal planned expenditures.

Benefits: The character code classification for employee related costs such as health insurance, pension, FICA, unemployment, clothing and tool allowance, and medical stipends.

Bond: A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation, revenue bonds, and special improvement district bonds. These are most frequently used for construction of large capital projects such as buildings, streets and sewers.

Budget: A financial plan for a specified period of time (fiscal year).

Budget Adjustment / Transfer: A procedure to revise a budget appropriation.

Budget Calendar: The schedule of key dates that a government follows in the preparation and adoption of the budget.

Budget Document: The official written statement prepared by the Budget Office and supporting staff which presents the approved budget by the City Council.

Budget Message: The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and recommendations made by the City Manager.

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Equipment: Tangible property or equipment used for operations, expected to have a service life of more than a year and a cost of \$10,000 or greater for a single item.

Glossary of Terms

Capital Improvements Budget: A plan of proposed capital expenditures and the means of financing them. The capital budget normally is based on a capital improvement program (CIP).

Capital Improvement Program (CIP): A plan for capital improvements to be implemented each year over a fixed period of years to meet capital needs arising from the long-term work effort. It sets forth each project or other contemplated expenditures in which the government is to have a part and specified the full resources estimated to be available to finance the projected expenditures.

Capital Outlays: The character code classification for an expenditure which results in the acquisition of or addition to fixed assets.

Cash Basis: The method of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Character Code: A grouping mechanism that characterizes the type of expenditure and / or revenue. The major expenditure classifications utilized by the City of Portland include Payroll, Benefits, Administrative Services, Client Expenses, Contractual Services, Maintenance & Repairs, Rentals, Insurance, Supplies, Minor Capital, Utilities, Contributions, Capital Outlay, and Debt Service. The major revenue classifications include Property & Excise Taxes, Licenses & Permits, Intergovernmental, Charges for Services, Fines Forfeits & Penalties, Uses of Money & Property, and Other Finance Resources.

Client Expenses: The character code classification generally associated with the costs of the Social Services General Assistance Program such as food, housing, prescriptions, and utility expenses.

Contingency Account: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

Contractual Services: The character code classification which accounts for the purchase of services such as consulting, advertising, temporary services, and program-activity expense.

Contributions: The character code classification for monies contributed to organizations to help fund their program costs.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Deficit: The excess of an entity's liabilities over its assets (see Fund Balance).

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a late payment penalty is assessed.

Department: A segment of the account number that identifies the highest level in the formal City organization in which a specific activity is carried out.

Depreciation: 1. Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence. 2. That portion of the cost of a capital asset which is charged as an expense during a particular period.

Glossary of Terms

Division: A segment of the account number identifying the second level in the formal City organization in which a specific activity is carried out; several divisions may comprise a single department.

Encumbrance: The legal commitment of appropriated funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.

Enterprise Fund: A fund established to account for operations financed in a manner similar to a private business enterprise, i.e., where the costs of providing goods and services to the public are financed or recovered through user charges.

Estimated Revenue: The amount of projected revenue to be collected during the fiscal year.

Expenditure/Expense: This term refers to the outflow of funds paid for an asset, goods, or services obtained.

Final Allowance: The final budget amounts approved by the City Council.

Fiscal Year (FY): The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Portland has specified July 1 to June 30 as its fiscal year.

Fixed Assets: Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, and other equipment.

FTE: Personnel staffing acronym for full-time equivalent based on the position's standard hours.

Function: A segment of the account number that identifies the budget category of the account. The eleven primary activity classifications used in budgeting include Education, General Government, Public Safety, Public Works, Health and Human Services, Parks and Recreation, Library, Debt Service, County Tax, Metro and the Enterprise Operations.

Fund: An accounting entity which has a set of self-balancing accounts and records all financial transactions for specific activities or government functions. Eight commonly used fund types in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.

Fund Balance: Fund balance is the excess of assets over liabilities and reserves, and is therefore also known as surplus funds.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of / and guidelines for financial accounting and reporting. These guidelines govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations.

Glossary of Terms

General Fund: The largest fund within the City, the general fund accounts for most of the financial resources of the government not specifically accounted for in other funds. General fund revenues include general property and other taxes, licenses and permits, fines, forfeits and penalties, use of money and property, intergovernmental charges, service charges, interdepartmental charges, and reimbursements. General Fund expenditures are categorized as general government, public safety, public works, parks recreation and facilities, health and human services, public library, county tax, metro, and debt service.

General Obligation Bonds: Bonds that finance a variety of public projects such as streets, buildings, and improvements; the repayment of these bonds is usually made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually designated for specified purposes. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

Holiday Payments: The wages paid to union employees for holidays according to the stipulations of the union contract.

Housing and Community Development Program (HCD): The Special Revenue Fund used to account for the expenditures and revenues received under the Housing and Urban Development's Community Development Block Grant (CDBG).

HUD: The abbreviation for Housing and Urban Development.

Insurance: The character code classification which accounts for insurance expenses including general liability, workers' compensation, and self-insurance.

Intergovernmental Revenue: Funds received from Federal, State and other local government sources, such as grants and shared revenues.

Liability: Debt or other legal obligations arising out of transactions in the past that must be paid or refunded at some future date, not including encumbrances.

Line-Item Budget: A budget which lists in detail each expenditure category's object code separately (salaries, temporary help, overtime, etc.), along with the dollar amount budgeted for each specified line item.

Maintenance and Repairs: The character code classification associated with up-keep of the city's tangible assets such as buildings, equipment, and land.

Maturities: The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Measurement Focus: The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents "financial flow" information (revenues and expenditures) or "capital maintenance" information (revenues and expenses).

Glossary of Terms

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of property valuation.

Minor Capital Items: The character code classification used for tangible property or equipment used for operations having a cost of $\geq$ \$5,000 and $<$ \$10,000 per single item.

Modified Accrual Basis: The accrual basis of accounting where revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current period. All governmental funds and Expandable Trust Funds are accounted for using the modified accrual basis of accounting.

Net Budget: The legally adopted budget less all interfund transactions. Those amounts in the budget representing transfers and interfund reimbursements which in effect are double counted in from the perspective of the entire budget are subtracted from the legally adopted budget amount.

Object Code: A segment of the account number identifying the specific types of expenditures and / or revenues at the most detailed level. The city's object codes, defined in the chart of accounts, are utilized across all funds as appropriate, completing the full account number designation. Object Codes are assigned a character code for budget grouping classification purposes.

Operating Budget: The portion of the budget which pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for expenditures such as personnel, contractual services, maintenance and repairs, rentals, supplies and utilities.

Operating Transfers Out: The character code classification for interfund transfers or expense activity between funds.

Ordinance: A formal legislative enactment by the governing body of a municipality having the full force and effect of law within the boundaries of the municipality to which it applies, provided it does not conflict with a higher form of law such as a state statute.

Organization Code: A short code identifying an account number's fund, department, division, and program.

Payroll: The character code classification for the cost of employees' wages including salaries, temporary help, overtime, and termination pay.

PDC: The abbreviation for the Portland Development Corporation, a local development corporation, organized by the City in 1991 for the purposes of implementation and administration of economic development programs that enhance and create business and employment opportunities, and the enhancement and coordination of the provision of services to the City's downtown business district.

PDD: The abbreviation for Portland Downtown District.

Program: A segment of the account number identifying the third level in the formal City organization in which a specific activity is carried out; several programs may comprise a single division.

Glossary of Terms

Rental: The character code classification used for rental expenses of land, buildings, vehicles and equipment.

Reserve: An account used to indicate that a portion of a fund's assets are legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Resolution: An order of a legislative body requiring less legal formality than an ordinance or statute.

Revenue: Funds which the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a future fiscal year.

Risk Management: An organized attempt to protect a government's assets against accidental loss in the most economical method.

Self Insurance: The underwriting of one's own insurance instead of obtaining coverage from a private provider.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund: A fund created to account for transactions related to revenues and expenditures under certain federal and state grants and from other sources, upon which legal restrictions are imposed.

Supplies: The character code classification relating to the purchase of materials, provisions, and other tangible goods.

Tax Levy: The total amount to be raised by general property taxes.

Tax Lien: The legal method for collecting delinquent real estate taxes.

Tax Rate: The amount of taxes (mills) levied for each \$1,000 of assessed valuation.

Termination: The final wage payment for accrued vacation and sick time, if applicable, upon an employee's termination with the City.

Utilities: The character code classification which includes expenses for heating fuel, electricity, water and sewer, and internet & data.

Wage Adjustment: A wage reserve account for changes which may result from scheduled union contract negotiations.

CITY OF PORTLAND
Executive Department
Jon P. Jennings, City Manager

April 8, 2019

To Mayor Strimling and Members of the Portland City Council:

Pursuant to Article VI, Section 5(e) and Article VII, Sections 5 and 6 of the City of Portland Charter, I am hereby submitting the City Manager's Recommended \$263.4 million FY20 Municipal Operating Budget.

As you know, my budget submission is typically shaped by guidance from Council goals along with my operational priorities. This year, however, because there were not final Council goals to guide us, and because we were facing a number of difficult operational decisions in order to remain fiscally responsible, you will see this budget submission is essentially status quo. We had many cost increases outside of our control which exceeded the regular rate of inflation / the Consumer Price Index, but I felt strongly that our budget overall should align closely to those metrics, even if it meant making very tough budget decisions. If I had recommended everything requested by our City departments this budget would reflect an 11.1% tax rate increase. However, I cut \$7.4 million from departmental requests in order to come in with a budget with less than a three percent tax rate increase. Should there be any additional priorities the Council wants to address, I felt it most appropriate for those decisions to be made by the Council before being added to the final budget.

Over my nearly four years as City Manager, I continue to be extremely proud of all we've accomplished and the progress we've made in terms of making municipal government more innovative, efficient, inclusive, and transparent. We've made good progress in addressing critical infrastructure needs that had been neglected for too long and we continue to fund as many of these projects as we can. We've continued our focus on right-sizing municipal services and improving our processes not only because it is good customer service, but because I believe the efficiencies we achieve will afford us the opportunity to tackle our long-range plans.

There's no doubt that Portland continues to be a healthy, vibrant city with diverse sectors driving its economy. We are a major center for commerce, finance, arts and entertainment, food and drink, healthcare, Information Technology, the marine industry, post-secondary education, and tourism. Our world renowned and award-winning food and drink sector economy received another high honor this year when Bon Appetit magazine named Portland the 2018 Restaurant City of the Year. While this firmly roots our city on the national food map and was cause for celebration, we're working hard at the staff level to make sure Portland is known as more than just a foodie city. One example of this is when INRIX, a global leader in mobility analytics and connected car services, selected Portland to pilot its highly autonomous vehicle mapping program. I believe that Portland can benefit from leveraging our technology and start up scene to make us an attractive city for companies to pilot additional products and services. We look forward to collaborating further with Start Up Maine this year as their annual conference will focus on the role civic tech can play in our economy.

The growth our city has seen has been very beneficial in many ways, although it's not without its challenges. While growth is a good problem for a city to have, it means our valuation has continued to rise, lowering our state revenue share and increasing our county tax.

FY19 Recap

Our Planning and Inspections Departments issued Certificates of Occupancy to approximately 317 additional units of new housing in calendar year 2018 and a total of more than 1,263 units in the last five years combined. Beyond this, more than 139 units of new housing across the city are currently in the development pipeline. At the same time, our inclusionary zoning ordinance has helped make that new development equitable, by requiring all projects larger than 10 units provide a set aside of 10% of the units for workforce housing or make a financial contribution to the Housing Trust Fund. Since the ordinance went into effect, there have been five additional projects completed or under construction, adding an additional 18 workforce homes with many more in the pipeline.

During 2018, the Planning Board approved eight Inclusionary Zoning projects with a total of 29 workforce units of rental, condo and single-family housing. The Housing Trust fund balance is currently \$1,275,820.08, with \$556,500 being collected to date. Additional funding is expected as current projects under development are completed.

Commercial development has continued at or above levels not experienced in the city in the last hundred years. In response, we've continued to update our land use regulations to help advance our economy sustainably. Highlights include:

- The Recode effort to rewrite the Zoning Code is underway with the goal of simplifying and clarifying the City's regulations for all development. In addition, work has begun on rewriting both the sign regulations and the site plan ordinance. Concurrently, the Technical Manual was recently updated to include specifications for LED street lights and improved exterior lighting for cost effective and efficient lighting.
- Portland's Impact Fee system was adopted in 2018, which assesses fees on all development based upon the anticipated infrastructure needs to serve new development. It applies to any new building or building addition that results in net new residential units, non-residential square footage, hotel rooms, or water meters.
- Another major policy initiative adopted this year is the Hotel IZ conditional use. The ordinance requires either the creation of affordable housing units or a contribution to the Housing Trust Fund for the development of new hotel rooms.

In support of our small business community, the Portland Development Corporation invested approximately \$1,082,000 in FY18 in 19 businesses and economic development projects, which leveraged more than \$5 million in private sector funds associated with creating 26 jobs and retaining 62 jobs. Fiscal year 2018 loan activity included a public to private investment ratio of 1:7. And just a few weeks ago we found out we are receiving the U.S. Conference of Mayor's 2019 Partner America Small Business Friendly Community Award. Portland has demonstrated its commitment and support of small business by creating a business friendly environment for businesses to grow and prosper.

Our transportation hub of air, rail, cruise, and shipping continues to be a vital economic driver, connecting Portland to the world. For the 2018 season, the Port of Portland had substantial growth again with 119 cruise ships and a passenger count that exceeded 170,000 and 68,000 crew. The Jetport, which once again won the customer experience award for North America among airports with fewer than 2 million passengers, is the fastest growing airport in New England with a record setting 2.1 million passengers coming through last year. On top of that, they added new direct service to Denver, Tampa, Ft. Myers and Raleigh-Durham and expanded routes to New York City, Chicago, and several destinations in Florida.

While there are many needs to balance with this growth, it is clear that Portland is an attractive place to live, work, and play.

We also continue to provide key health and human services for our people. The Office of Elder Affairs responded to approximately 750 requests from Portland senior citizens in need of services and information, and is working to implement multiple goals outlined in Portland's Age-Friendly Community initiative, in partnership with the AARP Maine. The office operates two adult day health programs at the Barron Center, licensed to accommodate 45 clients, and also provides transitional housing and support services for older victims of domestic abuse through the *Martha's Cottage Project*, in collaboration with the Elder Abuse Institute of Maine.

The Social Services' Helping Individuals Regain Employment (HIRE) Program continues to help General Assistance recipients get out of poverty and into self sufficiency by removing barriers to employment. From January 2018 through December 2018, we completed 367 intakes helping 279 eligible adults secure employment, 13 individuals successfully obtain disability benefits, 231 individuals connect to ESL classes, 15 individuals enroll in vocational rehabilitation services, assisted 46 individuals secure employment authorization, and 27 individuals enroll in certificate training programs that led to job placements.

Our emergency shelter services continue to serve unprecedented levels on a nightly basis. In spite of this, our staff works extremely hard to find permanent housing solutions for our most vulnerable populations. The Oxford Street Shelter placed 249 total clients, 29 of whom were long-term stayers, into permanent housing. The 249 clients equaled a total of 43,729 bed nights. The Family Shelter served 183 families totaling 664 individuals. Of the 183 families, 160 secured permanent housing (87%) with only two families returning for a second stay.

As I alluded to earlier, we're focused on working to make our community an innovation hub, a place where data and technology are used to improve people's lives and make interactions with city government more efficient. As part of those efforts, we've converted all of our City's streetlights to LED technology and deployed intelligent traffic signals at Morrill's Corner to improve the flow of vehicles through the intersection thereby reducing traffic congestion and the length of time vehicles idle at the signals. Preliminary reports show a 23% reduction in travel times through this intersection. We're now in the process of installing this technology at additional intersections along Forest Avenue to further improve traffic flow, and we'll be installing it along Franklin and Commercial Streets. The more we are able to use this technology along our busiest transportation nodes, the more the signals speak to each other and improve traffic flow. We're also utilizing environmental sensors to monitor air quality through a pilot project with Google.

As we look to complete our implementation of Tyler Technologies' software this year, we'll be creating an internal data governance team so we can take a look at the data we have and collect to make sure we're using it strategically to inform our decision making processes. I believe these decisions will lead to greater efficiencies in our municipal operations, allowing us to achieve savings that we can reinvest toward our long-range goals. It's our goal to then share this data with the public through an open data portal so we can better tell Portland's story through the use of data.

BUDGET GOALS & REALITIES

The goal of this budget was to bring forward a recommendation that allows us to continue moving forward on the progress we've made, but in a fiscally responsible way. Our staff goals for FY20 revolve around efficiency and innovation so we can further improve city services while reducing costs, emphasizing customer service, and fulfilling our commitment to getting things done on a timely basis. We must continue to take care of our infrastructure needs that were set aside for too long. This year I asked Department Heads to present me with the requests they felt they needed to accomplish their jobs efficiently, but not necessarily to meet each and every goal they have given the budget constraints we face.

The reality of this budget is that the roughly \$3 million increase in expenditures is driven by personnel costs, due to contractual obligations and cost of living increases.

All departments had to work extremely hard to meet the budget guidance I provided, which was to come in under a 3% tax rate increase. If I had simply recommended the budget as requested by our City Departments, without making difficult budget cuts and choices, the resulting impact would have been an 11.1% City tax rate increase. As we developed the City budget, we eliminated approximately \$7.4 million of those requests and other adjustments on the path to our 2.9% tax rate increase.

The most difficult budget reality we are facing this year is within our Social Services division. While Portland is a compassionate city, and we always will be, we simply cannot afford to continue providing all of the current services and believing this to be a sustainable path. I am asking the City Council to have a fundamental discussion about what services we can provide and what we can afford.

As you know, we dedicated \$200,000 in last year's budget to fund the Community Support Fund, which provides temporary assistance for those who are seeking asylum, but are no longer covered by General Assistance. Unfortunately, this fund was exhausted much earlier than anticipated in March 2019 given the influx in people seeking emergency shelter services.

Because the FY19 Community Support Fund was exhausted so quickly, I am proposing that the Community Support Fund support individuals who are living in the city as of July 1, 2019 and only cover rental assistance in FY20. We will utilize our other existing community partners who already offer food and other basic necessities to cover those needs. Therefore, this budget recommends reducing the Community Support Fund by \$50,000 and funding it with \$150,000. It is also my recommendation that the Council look to phase out the Community Support Fund over the next two fiscal years as individuals leave the program.

Additionally, because of the fact that there are limits to our resources, I propose eliminating the second overflow space for both the Oxford Street Shelter and the Family Shelter. This would mean that we will use space at Preble Street for overflow needs at OSS and space at the Salvation Army for overflow at the Family Shelter, but no longer allow our General Assistance offices to be used as a third overflow space given the costs in staffing this facility.

As we developed this budget, we had to make some very tough choices to keep Portland affordable while at the same time trying to maintain the level of services we provide for our residents and businesses, and address a few items within our key priorities. While this budget overall includes a net increase of six positions, four of which are for Social Services, there were several positions that were eliminated as part of departmental reorganizations.

As I said last year, I firmly believe we cannot focus on one part of government to the detriment of another. I take my responsibilities to the Council and the taxpayers of the city very seriously. As we have discussed on many occasions, we are all concerned about the affordability of the city and government can be a driver of costs that make it unaffordable to live in Portland. That is why I felt it was important for us to limit the tax impact due to the drivers outlined in the budget.

In addition to the items noted above, additional Departmental highlights include:

Public Works: This budget includes a \$372,384 increase in the Solid Waste budget due to an increase in tipping fees from ecomaine, because of a change in the recycling markets and costs for shipping and processing recyclables. Because of this, the budget includes an increase in the fees for the Pay As You Throw Bags, a 15 cent increase in the 15-gallon bags and a 30 cent increase in the 30 gallon bags. This will raise about \$215,000 in revenue. Looking ahead to FY21, we will evaluate alternative ways in which we can cover our solid waste costs beyond utilizing Pay As You Throw Bags.

Economic Development: This budget includes an additional staff person to help carry out the strategic plan for the Office of Economic Opportunity, in line with the Economic Development Committee's recent vote. It also includes the removal of Creative Portland staff, and instead the City will give them a flat \$140,000 to cover their staffing needs.

Parks, Recreation & Facilities: To balance the overall impact to the tax levy, this budget includes a 5% increase in fees at our City cemeteries, assorted fee increases on concession items at our event venues and increases in rates and fees at Riverside Golf Course to cover course expenditures. As we fully implement the pesticides ordinance, the City faces increasing labor costs to keep our fields in usable condition. To address these rising costs this budget includes a fee assessed on for-profit groups who utilize our fields.

Waterfront: This budget includes an increase in the per passenger fee for cruise ship visits, which results in an additional \$200,000 in revenue.

Police: The Police Department budget includes an increase in \$68,000 to cover the costs of routine supplies. These expenses were traditionally covered by a non-competitive federal grant that we receive annually. However, we were not allowed to accept it this year because of our policy creating the Community Support Fund. The budget also includes covering the substance use disorder liaison who runs the Law Enforcement Addiction Advocacy Program (LEAAP) out of the general fund as we were not able to continue funding it via asset forfeiture monies.

Social Services: As mentioned previously, our Social Services Division has been dealing with a tremendous influx in those seeking emergency shelter services. Given this influx wasn't fully anticipated in FY19's budget, we ended up using additional per diem workers to cover our staffing needs. In the FY20 budget, we are budgeting for these per diem workers as full time positions.

Barron Center: We were able to increase our patient census after instituting a number of administrative changes at the Barron Center and therefore we are now covering our expenses and are working hard to earn revenue in the near future.

Grants Management: You will notice that overall our Public Health, Social Services and Planning & Urban Development budgets appear to be much higher than last year, but this is because grant funded positions are included in the personnel line items.

Assessors: The City is now in the midst of the citywide revaluation process. The process will continue in FY20 with technical support from Tyler Technologies. Citizens will soon begin receiving educational materials related to the revaluation process. It is expected that the revaluation results will be captured in the FY21 budget.

City Clerk: The 23.1% increase in the City Clerk's budget is due to FY20 being a presidential election year, which includes a primary election.

POSITIVE BUDGET DRIVERS

Excise taxes are still a significant source of revenue for the city, but the increases we saw over the last several years are starting to level off. We're conservatively projecting excise tax revenue to be \$11.5 million in FY20, which is roughly \$500,000 less than FY19. As mentioned earlier, increased cruise ship activity is projected to provide \$200,000 in additional revenue. Property valuation has grown by \$85 million in the current year due to significant new projects breaking ground and continues our upward trajectory in overall valuation. This \$85 million of new property valuation creates an additional approximately \$985,000 in tax revenue for municipal use. While this may seem like a significant amount, it represents only a 0.106% overall increase to our FY19 valuation of approximately \$7.9 billion, and can only fund a fraction of the cost increases and budget challenges we face in FY20, which are outside of my control.

Health Insurance: Unlike the last several years, the FY20 budget contains no large increase in health insurance costs. Our value-based insurance design and employee wellness program continues to help control overall costs, but because the health insurance market is volatile it is likely that these costs will end up being a budget challenge again in future years. While there was not a large increase, contributions for employees and their dependents will include a 3% increase in medical rates, and a 6.6% increase in dental rates.

TIF Funds: This year's budget includes greater use of City Council approved Bayside, Downtown/Transit and Waterfront Tax Increment Financing (TIF) District revenue to invest in public infrastructure and cover City staff costs. Use of TIF District revenue enables the City to take advantage of tax "sheltering" which allows municipalities to keep one hundred percent of new property tax revenue included in these TIF Districts. This means that the City maintains higher levels of state aid for education and municipal sharing in addition to contributing less to the City's share of the Cumberland County annual budget.

BUDGET CHALLENGES

As I mentioned above, the new property growth alone has not been able to keep up with the built in cost increases and other budget challenges for FY20, including union contracts already approved (\$3.4 million), debt services increases (\$924k related to our 2001 pension obligation bonds) and Cumberland County tax increase (\$351k).

Contractual Salary Obligations: The City Council approves contracts with all eight City bargaining units representing nearly 90% of the City workforce. These contracts include previously agreed upon salary increases of 2% plus other minor changes (4% for the two Police unions due to the nationwide shortage of officer applicants and to bring our salary ranges to competitive levels compared to surrounding municipalities). An estimated \$3.4M of the FY20 increases are related to contractually obligated salary increases across all unions.

Debt Service: This budget includes a \$3.2 million increase in debt service costs, including a \$924,000 increase related to the pension obligation bonds approved by City Council back in 2001. The payments on the pension obligation bonds will continue to rise by nearly \$1M annually until the bonds are retired in FY26. The budget also includes \$1.2M related to the upcoming renovation at Lyseth Elementary School and approximately \$400,000 of new debt service related to the City's continuing efforts to reduce combined sewer overflows and replace aging sewer infrastructure. The City pays all debt service from the general fund and receives reimbursement from the enterprise funds and the School Department for their respective projects.

METRO: The FY20 budget includes a 2.7% increase in our METRO contribution or an additional \$74,123.

County Tax: The FY20 budget includes a 5.6% or \$351,471 increase in Cumberland County tax assessment. Were it not for the increase in our County Tax assessment, the City's tax rate increase for this year's budget would be 2.6% instead of 2.9%.

BALANCING THE BUDGET

City expenditures have increased 4.9%. The growth of non-tax revenues and property valuation result in a City side tax rate increase for municipal services of 2.9%. This means the city-side mill rate is \$11.67 per \$1,000 of assessed property value. The impact on an average homeowner with a property valued at \$240,000 is \$79.

CONCLUSION

I would like to thank Finance Director Brendan T. O'Connell, Deputy Finance Director Anne Bilodeau, Budget Analyst Jennifer Lodge, Human Resources Director Gina Tapp, Communications Director Jessica Grondin, and our new Director of Innovation & Performance Management Lena Geraghty for their assistance in developing this budget recommendation and presentation, as well as the hard work and diligence of Department Heads in developing budget requests. Thank you to the members of the City Council for working with staff collaboratively over the last year. We all look forward to reviewing this proposed budget with the Finance Committee and full Council.

Sincerely,

Jon P. Jennings
City Manager

Date: February 6, 2019

To: Jon Jennings, City Manager

From: Sarah Campbell, Executive Director

Subject: Portland Public Library FY 20 Budget

The Library's request for FY 20 is larger than requests from the recent past. Typically, our request of the City has averaged about 3% per year. This year there are a number of special circumstances driving this request. The total request is for 7.3%, and the major components of that request are listed below.

Total Increase in Request	\$ 293,757	7.2%
Salary Increase	\$ 67,500	1.7%
Social Worker position	\$ 36,660	0.9%
IT Support	\$ 27,000	0.7%
Health Insurance increase	\$ 105,000	2.6%
Increase in Parking cost	\$ 12,533	0.3%
Fee Revenue loss	\$ 17,500	0.4%
Other changes	\$ 27,564	0.7%

Staff & Salary increases

Under the terms of our Collective Bargaining Agreement, we are bound to implement a 2.5% salary increase of \$67,500 or 1.7% of the overall request.

For the first time in several years, we are proposing a new position as well, a Social-Worker-In-Residence. Over the last two years, we had a grant from the National Network of Libraries of Medicine for health outreach services. This included funding for a social worker who we contracted to provide referral services for patrons in need, to help improve staff's ability to interact with patrons with mental health, substance abuse or other behavioral issues, and to raise general awareness of these issues for all of our staff. Since that grant ended in October 2018, we retained the social worker to continue with us on a temporary basis particularly to support our Security staff and in building collaboration with other providers in the area that work with our most at-risk patrons. We also were able to partner with the University of New England School of Social Work to host a social work intern this school year. With this expertise and assistance in house, we have seen evidence of both better ability to orient patrons to service options in the community and, notably, a reduction in calls to the Portland Police Department.

Recently, with the reduction in Preble Street's hours, we have experienced an increase of troubled patrons with significant substance and mental-health issues. This social worker capacity has been critically important in helping us work with these populations in a supportive, non-confrontational and effective manner.

We propose to make this social worker position a permanent member of the staff, with the goal of continuing to help us meet the needs of an increasingly troubled segment of our patron population and to strengthen our connection to the network of providers in the community who work with this population. We believe that such a position housed at the Library will provide leadership and partnership to other City providers and reduce some of the stress on other City resources. The position would be 30 hours a week and cost \$36,660, or 0.9% of the overall increase.

Our Network Manager moved on early last year and we were not able to find a new person with the skills we needed for what we were able to pay. As a result, we have developed a help-desk person in-house at about 2/3 of the cost of the previous Network Manager's salary and we have engaged an outside consultant to help us with strategic planning and the more complex IT issues we face. While our salary line represents this decrease of \$18,000, we have increased our Professional Services line by \$27,000. Together, this solution is costing about \$9,000 more than the previous arrangement, but significantly less than the market rate to replace the Network Manager.

Benefits cost increases

The largest cost item in our request is health insurance - a 21% increase over the FY 19 budget. Costs for FY 19 are projected to exceed budget by \$40,000. That overrun, combined with a projected additional 12% increase for FY 20, results in this significant piece of our overall request.

The increase in parking cost comes from two components. The increase in the monthly rate from \$120 to \$130 per month was not included in last year's budget. In addition, the federal tax law changes passed last year include a 21% tax on the parking benefit. These changes result in \$12,533 or 0.3% of our request.

Revenues are projected lower

Under operating revenue, Libraries across the nation are experiencing a decline in fee collection. Our fees have been trending downward for the past few years and we expect that to continue through FY 20. This reduction in Operating revenue results in a \$17,500 or 0.4% of our request.

Under Development revenue, we are also uncertain about the effects of the tax law around deductions on non-profit fundraising and we want to be prepared for such changes to our Annual Fund. As a result, we have projected a smaller increase to our Annual Fund for FY 20.

Miscellaneous changes

Of the \$27,564 listed as "other changes", \$11,660 results from a 2.5% increase in Collections expenditures. This cost area is central to our mission as a library and in fact is not keeping up with inflation. Another \$10,945 comes from increased building maintenance costs, which are a continuing issue as the main library building passes the 40-year mark since construction. It also should be noted that there was no increase in our Contractual line last year, which went from \$1,452,000 down to \$1,448,000.

We recognize that this is a challenging request during a difficult budget season and hope that you will agree that much of this request is driven by external forces we cannot control and that our role in the downtown is changing and placing new and increased demands on our limited resources.

FY2019 COUNTY OF CUMBERLAND-**Using 2019 Final Valuation**

The tax distribution schedule describes the amount of tax required from each municipality based on their equalized valuation to provide the revenue necessary for county operations. Previous year information is provided for comparison purposes. The tax calculation table at the bottom of the schedule shows the factors of expenditures revenues, and surplus used to calculate the amount of county property tax assessed on the real and personal property in each municipality.

The State of Maine Valuation for 2019 shows overall County increase of **Valuation Growth**

Jon Jennings
City Manager
City of Portland
389 Congress Street
Portland, ME 04101

Re: Preliminary 2019 Budget and Formula

Dear Mr. Jennings,

On October 25, 2018, the Greater Portland Transit District (Metro) Board of Directors unanimously approved the Fiscal Year 2019 Preliminary Budget and Formula. In accordance with 30-A-MRS §3516 and 30-A-MRS §3516 (Attachment B), Metro is submitting its Fiscal Year 2019 Preliminary Budget and Formula. Accordingly, the City of Portland is required to notify Metro of a refusal to accept the method (i.e., formula) by which local contributions are distributed within thirty (30) calendar days of this submission.

For **BUS SERVICE** in Portland, the Metro Board of Directors approved a 2019 local contribution of **\$2,787,772**. This is a **2.8% increase compared to 2018**. Portland residents will continue to benefit from an **expansion of METRO transit service in mid-2018**. The Transit West Project doubled frequency of service on the Brighton Avenue corridor with the introduction of the Husky Line, brought new service to the Riverton areas of northwest Portland with the new Route 3 cross-town bus route, and introduced an unlimited access transit pass program for University of Southern Maine students, staff and faculty. Notably, the Route 3 transit improvement that connect the city of Westbrook to South Portland will relieve overcrowding on Route 4 (Brighton) and Route 5 (Outer Congress).

The table below outlines service levels in terms of revenue miles.

Table 1: Service Levels in Revenue Miles

Bus Route	Mode	Municipalities	Portland	Westbrook	Falmouth	S. Portland	Gorham	Breez	Total
Route 1	Local	Portland	95,554	-	-	-	-	-	95,554

For **ADA PARATRANSIT SERVICE** in Portland, the 2019 local contribution is projected to not exceed **\$78,480** which was the budget amount for 2018. ADA Paratransit costs are determined based on projected ridership and the cost-per-trip charged by Metro's provider, Regional Transportation Program (RTP). ADA paratransit boardings increased substantially in 2017 due to changes in how the state's non-emergency medical transportation broker (Logisticare) assigns trips for passengers who are eligible for ADA Paratransit Service. Ridership in Portland has leveled off in 2018 and is expected to total 14,000-14,500 boardings. Similar use is expected in 2019. In 2018, METRO staff renegotiated its contract with RTP substantially lowering the cost per boarding.

For your convenience, I have incorporated the major elements of the approved preliminary budget in the body of this letter. In addition, I have attached a document outlining the statutory budget procedures prepared by Metro's legal counsel. Provided below is a discussion of Metro's 2018 accomplishments, 2019 objectives, and additional information on the 2019 budget.

METRO OVERVIEW

Metro operates ten (10) bus routes serving the communities of Brunswick, Falmouth, Freeport, Gorham, Portland, South Portland, Westbrook, and Yarmouth. Metro works with the Portland Area Comprehensive Transportation System (PACTS), the Greater Portland Council of Governments (GPCOG), multiple partner transit agencies, and member communities to implement a coordinated regional transit system.

The following key performance metrics are provided for information:

- Projected 2018 Ridership: 1,940,000 (up 5% from 1,850,000 in 2017)
- Projected 2018 Fare Recovery Ratio: 23% (down from 24% in 2017)
- Projected 2018 LOCAL System Productivity: 2.0 boardings per mile (matching 2017).

Figure 1: Metro 20 Year Ridership Trends

2018 TOP ACCOMPLISHMENTS

- **Ridership Growth** – 2018 ridership is expected to be 5% higher than 2017 due to mid-year service expansions.
- **Transit West Project** – In August 2018, Metro implemented as scheduled two new bus routes (the Husky Line and Route 3) along with supporting bus stop improvements, restructured three (3) existing routes to be more direct and efficient, and introduced the USM Transit Pass Program.
- **New and Replacement Bus Fleet** – Based on a 2016 competitive procurement, Metro took delivery of eight 40-foot expansion buses in 2018 along with three 40-foot replacement buses. The new buses are larger and include modern amenities such as: three position bike

racks, in-seat USB ports, improved seating, modern styling, and brighter interiors. An additional 13 buses of the same model will be delivered over the course of 2019 and 2020 which will replace buses that will have surpassed their 12-year useful life.

- **Fleet Wide Wi-Fi** – Along with the new bus fleet, Wi-Fi was installed on ALL Metro buses to improve the passenger experience.
- **Metro Brand Update** – With the incoming expansion and replacement buses during 2018-2020, 2018 was the right year to update Metro's brand, logo, and vehicle paint scheme. The updated brand and paint scheme reflect Metro's work toward modernizing public transit in Maine and establishing a stronger identity in the region.
- **Bus Shelters** – In addition to the bus stop improvements supporting the new bus routes, eight bus shelters were installed.
- **Rebooted Website** – Metro introduced a new web site with the goals of improving easy access to transit information and aligning with the agency's new look.

2019 TOP OBJECTIVES

- **Automated Fare Payment** – complete procurement phase for deployment of automated fare payment, which will allow better fare payment options for customers (e.g., payments by mobile app and smart cards) and roll-out of more special programs for universities, schools, and major employers. Implementation is planned for mid-to-late 2019.
- **Fare Pricing Changes** – alongside improvements in fare payment options, Metro plans to modify, and most likely increase, pricing of the single one-way cash fare along with the various pass products. However, new fare payment technology and "fare capping" will allow a major improvement in the cost equity of fare payment. Fare capping is a method whereby passengers using smart cards or smart phone apps will receive price discounts based on trips taken. This stands in contrast to the current system which provides discounts based on up-front costs.
- **Portland Peninsula Transit Restructure** – In 2019, Metro will commence a community planning process to re-imagine and restructure how public transit on the peninsula can be improved. This process must be strongly integrated with city goals and activities to improve mobility and reduce parking demand and traffic congestion. Metro anticipates working in partnership with the City of Portland, stakeholders and the public and advancing a slate of service changes and improvements that can be implemented in mid-2020. These service improvements will be focused on improving mobility options for getting onto and around the peninsula and be implemented in connection with the introduction of battery electric buses.

- **Falmouth Transit Service** – Metro anticipates working with the town of Falmouth in 2019 on options to improve transit service within the town.
- **Metro BREEZ Permanence** – during the course of early 2019, Metro will be working with the communities of Brunswick, Freeport and Yarmouth to move the project from its pilot phase to permanence. This also entails bringing these communities onto the Metro Board of Directors as full members who also share in covering their fair portion of the agency's fixed and overhead costs.
- **PACTS Regional Transit Development Plan Phase 2** – Work with PACTS/GPCOG and regional transportation partners to complete Phase 2 of the Regional Transit Development Plan. Phase 2 will have a longer-term focus aimed at recommending the strongest possible transit system and investment priorities for the region.
- **Replacement Facility Preliminary Study** – Metro plans to complete a preliminary study of the options, locations, cost, funding strategies and overall feasibility of constructing a replacement facility within 5-7 years. This study would be based on a reasonable long-range forecast of service expansion needs and projected fleet size.

2019 OPERATING AND CAPITAL BUDGET

The current draft of the 2019 operating budget totals \$11,402,767. This budget represents a 13% increase over the 2018 total budget of \$10,102,931. The major reason for the increase includes the annualization of costs related to the Transit West expansion but for which Metro also receives offsetting revenue from a variety of sources including federal funding and fare revenue. The remainder of the cost increase is related debt service related to the expansion and replacement fleet; programmatic improvements including software maintenance fees for a replacement financial management system, additional positions and customer amenities; and cost and price increases related to labor, fuel, and commodities. Amounts related to these items are provided below.

The body of this memo reports on the proposed 2019 expenditures, anticipated revenues, proposed new cost allocation method for determining local contributions, and the proposed 2019-2023 Capital Improvement Program.

Table 2: Summary of Proposed 2019 Operating Budget

Table 4: Notes on Draft 2019 Line Item Operating Budget

Note #	Line Item	Explanation
1	Regular Wages	Increase related to annualization of 11 bus operator positions added in 2018 to support the Transit West expansion. Also, 2.5 new positions are proposed in 2019 and include a Fleet Care Worker, an additional Bus Operator and a Technology Manager scheduled to be hired mid-year. Finally, labor costs are increasing due to 2.75% COLA increase based on the Collective Bargaining Agreement (CBA) as well as programmed step increases which are also mandated by the CBA.
2	Overtime Wages	Overtime wages is increasing in the operations category due to higher service levels and numbers of employees. As a percentage of Regular Wages, Overtime Wages is expected to be consistent at about 7-8%. The current year (2018) is seeing very high overtime wages due to health related employee absences and position vacancies. Staff is preparing additional information for the Board on how the overtime budget is developed and optimized.
3	FICA	This increase is driven by wages.
4	Health Insurance	Additional employees as well as Medical insurance costs estimated to increase by 5%. Past increases were 8% in 2018 and 13% in 2017.
5	HRA Payments	Cost is determined in relation to actual history of payments and numbers of employees.
6	Dental Insurance	Dental insurance costs are estimated to increase by 5% along with additional employees.
7	Disability Insurance	This amount is based on on wages (updated 2018 and 2019 wage base).
8	Unemployment	Increase related to Modification Rate increase and increase in overall wages.
9	Pension	Despite the increase in staff, the retirement program is now voluntary, so the participation rate assumption is slightly lower.
10	Uniforms	An increase in the allowance for uniforms was included as part of the current CBA.
11	Contract Reimb	An increase in the allowance for uniforms was included as part of the current CBA.
12	Temporary Help	This cost is related to sourcing temporary assistance to cover a planned leave in the Finance Dept.
13	Technology Services	Cost increase is related to the software hosting/maintenance fees for the Financial Management System (Finance, Payroll, HR) as well as the annual maintenance fee for the new web site.
14	Advertising	Net reduction related to reduced advertising need in relation to the 2018 expansion year (-\$15,000). There are programmed increases for recruiting (\$5,000) and BREEZ outreach (\$7,500).
15	Other Contracted Services	Net reduction related to removal of one-time expenses (-\$35,000) related to the 2018 Transit West launch. Programmed increases include a Security Program (\$38,000), marketing design and creative services (\$22,000) and design/production of new regional map (\$15,000).
16	Custodial Services	With building/grounds staff taking on additional duties related to bus stop/and shelter maintenance, there is a need to outsource custodial services at the main office and passenger facility at Elm/Congress.
17	CNG Fuel	Cost increase related to expansion service and anticipated higher natural gas pricing.
18	Diesel Fuel	Cost increase related to expansion service and anticipated higher diesel pricing as of September 2019.
19	Tires and Tubes	Cost increase related to fleet expansion from 36 to 44.
20	Supplies Cust Rel & Promo	Increase related to higher quantity needs for transit schedules and informational brochures.
21	Parts	Although fleet size is increasing, new buses incorporated in 2018 and planned to be phased in in 2019 will contain growth in this line item.
22	Phone/Cell/Internet	Added cost related to extending Wi-Fi to entire fleet and annual maintenance fees related to extending the AVL system to additional buses.
23	Auto/Liability Insurance	Increase related to fleet size increasing as well as higher cost to ensure newer buses compared to older ones.
24	Conferences and Travel	Conferences and training opportunities programmed for all departments.
25	ADA Paratransit Services	Reduction related to new agreement with RTP which reduced rate per boarding.
26	Interest Expense	Short and long term interest increasing due to greater utilization of short-term debt due to cash flow and long-term interest on bonded debt for buses.
27	Debt Service Principal	Increase related to bonded debt to cover local match on 8 expansion buses and 3 replacement buses.
28	Capital Program	Refer to proposed Capital Improvement Program - Attachment A
29	Additional Budget Reductions	An additional \$43,000 in budget reduction measures is needed to ensure municipal contributions are sustainable in 2019. Staff are continuing to identify and advance additional measures.

Table 5: Draft 2019 Line Item Revenue Budget

Revenue Category	2018 Budget	% of Total	2019 Budget	% of Total	# Change	% Change	Note #
Fare Revenue	\$ 2,280,878	22.6%	\$ 2,634,201	23.1%	\$ 353,323	15.5%	1

Total	\$ 10,102,931	100%	\$ 11,402,767	100%	\$ 1,299,836	13%	

Revenues

1. **Fare Revenue** – Fare revenue is budgeted to total \$2,634,201. The 2018 fare revenue budget is \$2,280,878 while actual fare revenue is expected to total \$2,175,000-\$2,200,000. The increase in 2019 is related to the anticipated ridership increase stemming from the Transit West expansion as well as a fare increase in the second half of the fiscal year. Budgeted Fare Recovery (ratio of fare revenue to operating expenses) is anticipated to be 25% in 2019. Actual fare recovery in 2018 is projected to be 22-23%. Fare recovery in 2020 should exceed 25% given this will be the first full year of the fare increase, but also depends on 2020 cost factors.
2. **Miscellaneous Revenue** – includes revenue from advertising, lease revenue, and fuel/maintenance services provided to other agencies. This revenue is allocated by revenue hour to the LOCAL system only. While under the pilot phase, the BREEZ system does not draw from these revenue sources.
 - a. *Advertising Revenue* – is expected to increase from \$232,300 to \$270,000 due to increasing base advertising sales in 2018 and anticipated revenue from advertising on new bus shelters including on Congress Street in Portland.
 - b. *Lease Revenue* – is expected to increase from \$38,424 to \$40,732 based on lease terms with RTP.
 - c. *Outside Repair/CNG Sales* – is expected to decrease from \$58,000 to \$52,000 based on history.

- d. *Miscellaneous Income* – is expected to increase from \$32,000 to \$58,100 due to higher interest income, sale of surplus buses and revenue from USM through advertising.
- 3. **State Funding** – includes annual funding from the state of Maine. This funding source is static at \$170,426 and is not expected to increase for several more years. This revenue is allocated by revenue hour to the LOCAL system only. While under the pilot phase, the BREEZ system does not draw from this revenue source.
- 4. **Federal Funding (Operations)** – set at **\$2,013,698** this includes Federal Transit Administration (FTA) Section 5307 funding for Operations activities. This revenue is allocated by revenue hour to the LOCAL system only. While under the pilot phase, the BREEZ system does not draw from this funding source.
 - a. Based on current PACTS programming, Metro is scheduled to receive **\$1,958,990** in federal funding to support operations. This is an increase of \$135,388 (7.4%).
 - i. Of this amount, \$98,916 reflects the first year of permanent federal operating support for the Metro BREEZ. As the start-up CMAQ funding is drawn down, this amount will assist with the transition of the BREEZ from its pilot phase to permanence.
 - ii. The remaining \$36,472 reflects the annual 2% increase programmed in the PACTS' Six Year Operating and Capital Program (SYCOP) to support cost increases of ongoing operations.
 - b. Metro staff will be submitting a request to PACTS to increase the inflation factor to 5-7% in 2019. At 5%, this could add an additional **\$54,708**. The annual escalation rate currently programmed in the SYCOP is 2%. From 2016-2019, the cost of labor and external price increases have averaged 3.8% annually. In addition, Metro will request that the SYCOP assume 3% annual increases prospectively to adequately cover the price increases related to labor costs, health insurance, and fuel.
- 5. **Federal Funding (Preventive Maintenance)** – includes FTA Section 5307 funding for Preventive Maintenance activities. This revenue is allocated by revenue hour to the LOCAL system only. While under the pilot phase, the BREEZ system does not draw from this funding source. Based on current PACTS programming, Metro is scheduled to receive \$720,937 in federal funding to support Preventive Maintenance activities. This funding

can cover the cost of fleet and facilities maintenance including labor, parts, and external repair contracted services. This is an increase of \$14,136 (2.0%).

- a. Metro staff will be submitting a request to PACTS to increase this to at least 5% in 2019 to correct under-funding the previous three years. The annual escalation rate programmed in the PACTS Six Year Operating and Capital Program (SYCOP) is 2%. From 2016-2019, the cost of labor and external price increases have averaged 3.8% annually. In addition, Metro will request that the SYCOP assume 3% annual increases prospectively.
 - b. Metro is proposing to utilize \$100,000 from a Preventive Maintenance reserve grant in 2019 as a bridge to offset the impact of a half-year fare increase in 2019. The other half of the fare increase will be realized in 2020 and ensure this use of one-time funding is backed by a recurring funding solution.
6. **Federal Funding (JARC)** – Since the mid-2000s through 2017, Metro allocated a \$40,500 credit to Falmouth with corresponding proportional debits to Portland and Westbrook. In 2018, the Board approved a reduction to \$30,917 as part of a 3-year phase out of the program. Based on Finance Committee direction on August 6, 2018, the amount is reduced by 50% to \$15,917. Along with this change, staff recommend an additional change:
- a. Secure an additional \$15,917 in FTA Section 5307 funding for 2019 only and allocate to Falmouth's portion of the Route 7 as a direct source of funding rather than a credit which impacts Portland and Westbrook. This tactic is subject to PACTS approval in early 2019. *Using supplemental funding and this approach, Portland and Westbrook are no longer subsidizing Falmouth's portion of the Route 7.*
7. **Federal Funding (ADA)** – includes FTA Section 5307 funding that supports the required ADA Complementary Paratransit services for Metro's bus service area. The amount of federal funding is expected to decrease from \$418,560 in 2018 to \$360,000 in 2019 due to a new agreement with Metro's service provider, RTP. In the new agreement, the cost per trip was reduced. However, Metro's 2019 funding programmed at PACTS is only \$272,000. Metro staff will be requesting an increase through the regular PACTS process in early 2019.

8. **Federal Funding (CMAQ BREEZ)** – includes Federal Highway Administration (FHWA) Congestion Mitigation and Air Quality (CMAQ) funding to support three years of operations activities for the BREEZ. This revenue is allocated by revenue hour to the BREEZ Route only, but evenly split among the communities served. Revenue hours are evenly split because this is limited stop, express bus service with significant segments operated on highway.
 - a. Budgeted Funding - 2019 funding is budgeted to be \$329,800 up slightly from 328,821 in 2018. This final allocation of the CMAQ start-up grant will fund the BREEZ through the end of the pilot period in 2019.
9. **Federal Funding (CMAQ Transit West)** – includes Federal Highway Administration (FHWA) Congestion Mitigation and Air Quality (CMAQ) funding to support 3 years of operations activities for the Transit West Routes. This revenue is allocated by revenue hour to the Transit West Routes only (Husky Line and Route 3).
 - a. Budgeted Funding - 2019 funding is budgeted to be \$623,822 up from 296,667 in 2018. This is the first year of full funding and second year overall.
10. **Municipal (Non-Members)** – the budgeted amount of \$158,200 represents that anticipated local funding from the towns of Brunswick, Freeport, and Yarmouth (each at \$41,067) for the continuation of service through December 31, 2019 and a transition to bearing the appropriate share of maintenance and overhead costs. This amount also includes the town of Gorham's \$35,000 contribution to the Husky Line.
11. **Municipal (Members-ADA)** – the budgeted amount of \$90,000 represents anticipated local funding needed to support ADA Complementary Paratransit services for Metro's bus service area. The amount of funding is expected to decrease from \$104,640 in 2018 to \$90,000 in 2019 due to a new agreement with Metro's service provider, RTP. In the new agreement, the cost per trip was reduced. Please note that a portion of Gorham's contribution to the Husky Line includes a small dollar amount for any ADA paratransit trips in Gorham.
12. **Municipal (Members)** – Historically, Metro has allocated the net cost of service to municipalities based on Revenue Miles. For a small transit system with uniform service levels and characteristics, this was a simple and generally equitable method.

However, because Fixed and Variable costs are not separated, the principal weakness of the method is that mileage changes in one municipality can have large impacts on costs in other municipalities. Additionally, as Metro grows and has introduced higher speed/limited stop services, the Revenue Miles metric is less accurate at equitably representing the service supplied to a community, and by extension, the costs to provide it. Finally, while Revenue Miles is a fair measure of service supply, the metric is detached from any productive incentives at the municipal level to take steps toward improving the conditions in which transit operates.

Accordingly, staff recommended and the Metro Board approved allocating costs based on the following methods:

- a) **Revenue Hours** – In order to standardize the cost to operate service across routes with varying speeds and because personnel expense is Metro’s largest cost category, staff recommend using Revenue Hours as the primary cost allocation factor. Revenue Hours levels the playing field as it relates to allocating costs across routes. In general, using Revenue Hours as the primary cost allocation method will mean that faster routes have lower costs and slower routes have higher costs.
 - Importantly, this method creates a productive incentive for municipalities to work with Metro on strategies to shorten running times (e.g., transit signal priority systems, intersection treatments that allow buses to leap-frog long traffic cues, in-line stops, and dedicated lanes or lane segments).
- b) **Costs per Hour** – use separate costs per hour (CPH) for the LOCAL system and the BREEZ system. This is related to the structural differences in the cost to operate the BREEZ, including lower fleet maintenance, insurance and fuel costs; segmented local funding for capital projects; and the BREEZ’s status as a pilot project which temporarily exempts it from Metro’s overhead costs. The CPH for both the LOCAL and BREEZ systems are generated by dividing the total cost to operate each system by each system’s revenue hours.
- c) **Fare Revenue** – allocate fare revenue by route and jurisdiction based on ridership and average fare. This is a standard method for allocating fare revenue in multi-jurisdictional transit agencies. The benefits of this method are that communities delivering higher ridership receive the appropriate fare revenue. Moreover, the method avoids questions over whether and to what extent higher ridership communities are subsidizing lower ridership communities.

- Similar to Revenue Miles, allocating fare revenue to municipalities according to ridership creates a productive incentive to build ridership as well as critically examine and take corrective action on under-performing routes.
- d) **Non-Member Communities** – continue the policy of allocating the cost of service in a non-member community’s jurisdiction based on the member communities’ allocation percentages. This practice is undertaken when Metro determines that the value of providing service in a non-member community’s jurisdiction outweighs the absence of local funding coming from that community. The main example and precedent for this policy is Metro’s operation of the Route 5 to the Maine Mall. In 2019, this policy extends to the Route 3 segment in South Portland and the Husky Line segment in Gorham less the amount contributed by Gorham under the pilot program.

Based on the anticipated expenditures and revenue and proposed improvements in cost/revenue allocation, Table 5 presents the anticipated assessments for 2019.

Table 6: Member Community Assessments

<i>Member Communities</i>	<i>2018 Allocations</i>	<i>Rev. Member Allocations</i>	<i>\$ Change</i>	<i>% Change</i>	<i>Service Increase %</i>
Falmouth	\$ 163,873	\$ 179,941	\$ 16,068	8.9%	0%
Portland	\$ 2,709,916	\$ 2,787,772	\$ 77,856	2.8%	10%
Westbrook	\$ 616,175	\$ 774,449	\$ 158,274	20.4%	64%
Total	\$ 3,489,964	\$ 3,742,162	\$ 252,198	6.7%	22%

Notes on major factors impacting each community:

Portland

- The factors affecting Portland’s anticipated assessment are the Transit West improvements, program/cost increases, planned fare increase, and Westbrook’s proportional service increase, which means Portland’s relative share of fixed and overhead costs reduces.
- The proposed changes to cost and revenue allocation generally offset each other in 2019, but set the stage for relatively stronger cost containment in the future than would be possible under the status quo.
 - Portland has the highest ridership performance and the greatest potential for future ridership development. All things being equal, activities that help create ridership in Portland will mean Portland receives 100% of the associated fares compared to only about 70% under the existing method.

- Metro and Portland can and should work together to improve route speeds through efforts to prioritize and further streamline transit, which can also positively impact future assessments.
- The proposal to fund the final year of the Falmouth JARC program with new funding means Portland will no longer bear any share of maintaining this program.

Falmouth

- The major contributing factors to Falmouth's anticipated assessment are the overall program and cost increases, planned fare increase, and the planned reduction of the JARC grant program.
- The proposed change to cost allocation generally favors Falmouth due to the faster speeds of routes in the town. The proposed change to fare revenue allocation negatively impacts Falmouth due to its current lower relative ridership. However, Metro and the town of Falmouth can work together to positively impact this.

Westbrook

- The major contributing factors to Westbrook's anticipated assessment are the Transit West improvements, program/cost increases, planned fare increase, and Westbrook's proportional service increase, which means it absorbs more of Metro's fixed and overhead costs. The \$774k assessment amount is within expectations previously provided to Westbrook City Administration and City Council in 2017.
- The proposed changes to cost and revenue allocation generally offset each other in 2019 but set the stage for relatively stronger cost containment in the future than would be possible under the status quo. Especially due to the Husky Line and Route 3, route speeds are generally faster, whereas ridership and fare revenue are below the system average. However, ridership and revenue are expected to increase as the new routes mature. The addition of a stop at the Rock Row development is expected to increase ridership on the Husky Line in Westbrook.
- Looking ahead, Metro and Westbrook should continue to work together to improve route speeds through efforts to prioritize and further streamline transit.

- The proposal to fund the final year of the Falmouth JARC program with new funding means Westbrook will no longer bear any share of maintaining this program.

On behalf of the Metro Board of Directors, please accept our thanks for supporting public transportation. We look forward to continuing our efforts and record of results in advancing transit in the region. If you have any questions, please do not hesitate to contact me.

Respectfully,

Greg Jordan

Greg Jordan
General Manager/CEO

**Peaks Island Council
FY 2020 Budget Request
As Approved for Submission
February 27, 2019**

Motion: The Peaks Island Council requests the Portland City Council to allocate the following funds to the **Peaks Island Council FY2020** Parking and Transportation Fund in the amount of \$40,000 in accordance with the following items:

Item A: The Peaks Island Council requests the City Manager or his designee to expend monies from the Parking and Transportation Fund payable to Casco Bay Lines to purchase bicycle tickets for a **summer bike ticket program** on Peaks Island. The total is not to exceed \$500.00.

Jon Jennings, Portland City Manager

Date

Item B: The Peaks Island Council requests the City Manager or his designee to expend monies from the Parking and Transportation Fund payable to Casco Bay Lines to purchase tickets for needs-based Peaks Island residents. To receive **Needs-Based tickets**, recipients must fit defined criteria developed by the Peaks Island Council. The total is not to exceed \$3,800.

Jon Jennings, Portland City Manager

Date

Item C: The Peaks Island Council requests the City Manager or his designee to transfer to the Portland School Department \$5,000.00 to cover the cost of extending Portland School Department issued 10-month Casco Bay Lines **passes for Peaks Island public middle and high schools students** to 12-month passes.

Jon Jennings, Portland City Manager

Date

Item D: The Peaks Island Council requests the City Manager or his designee to expend monies from the Parking and Transportation Fund payable to Casco Bay Lines for Island resident **college students**: for up to 3 monthly stickers per student @ \$82.45/sticker, not to exceed \$247.00 . For the purposes of PIC transportation support, a college student shall be defined as a full-time island resident carrying a full-time course load (12 credits) at a Portland-area institution of higher education.

Jon Jennings, Portland City Manager

Date

Item E: The Peaks Island Council requests the City Manager or his designee to issue vouchers in the amount of \$84 per voucher per student to the parents of **children attending private schools** off-island. Criteria for determination of residency will be directed through the Island/Neighborhood Administrator's Office. Total cost allocated is \$330.00 .

Jon Jennings, Portland City Manager

Date

Item F: Police Cadet

The Peaks Island Council requests that the Portland City Manager allow the allocation of \$2,067 to reimburse the Portland Police Department for a portion of the cost of establishing a Police Cadet on Peaks Island for the period from ***July 1, 2019 – Sept 17, 2019, and for the period from May 25, 2020-June 30, 2020.*** The Cadet will focus on the Island Avenue/Welch Street area. The Cadet will assist with congestion issues in and around the Peaks Island ferry landing.

Jon Jennings, Portland City Manager

Date

Item G: ITS: a.k.a., Island "Taxi" The Peaks Island Council requests the City Manager or his designee to provide an allocation of \$20,000.00 to the **Island Transportation System** for continued support of the only transportation service available to residents.

Jon Jennings, Portland City Manager

Date

Item H: The Peaks Island Council requests the City Manager or his designee to provide an allocation of \$4,750.00 to **Peaks Island Tax & Energy Assistance (PITEA)** for the express purposes of assisting eligible island residents with heating costs. Applications for eligibility approved by Peaks Island Clergy, and monies are paid by PITEA directly to the fuel company.

Jon Jennings, Portland City Manager

Date

Item I: The Peaks Island Council requests the City Manager or his designee to provide an allocation of \$750 to the **Peaks Island Environmental Team (PEAT)** for the purposes of printing visitor-education materials.

Jon Jennings, Portland City Manager

Date

Item J: The Peaks Island Council requests the City Manager, or his designee to provide an allocation of \$2056.00 to the Peaks Island Council for **Administrative Expenses**.

Jon Jennings, Portland City Manager

Date

Item K: The Peaks Island Council requests the City Manager, or his designee provide an allocation of \$500.00 in support of the **Peaks Island Website** to Friends of the Peaks Island Library, a 501c3 organization, serving as fiscal agent for the website effort.

Jon Jennings, Portland City Manager

DEFINITIONS OF FY22 ORG CATEGORY SUMMARY EXPENDITURE REPORT COLUMNS

FY21 APPRV'D APPRO = Actual amount of the FY21 approved appropriation as approved by the City Council.

FY21 TOTAL PROJECTION = Projected total amount of expenditure in the current budget year as submitted by Departments in January 2021.

FY22 MGR RECOMM – The amount of FY22 budget request recommended by the City Manager to the City Council in April 2021 after performing detailed budget reviews with each Department.

INCR / (DECR) FY22 / FY21 – A comparison of the FY21 Apprv'd Appro Column with the FY22 Mgr Recomm column showing the budget year to budget year increase that would result (in dollars) if the FY22 City Manager's Recommended budget was approved.

APPRO % CHG FY22 / FY21 - A comparison of the FY21 Apprv'd Appro Column with the FY22 Mgr Recomm column showing the budget year to budget year percentage increase that would result if the FY22 City Manager's Recommended budget was approved.

FY2021 COUNTY OF CUMBERLAND-**Using 2021 Final Valuation**

The tax distribution schedule describes the amount of tax required from each municipality based on their equalized valuation to provide the revenue necessary for county operations. Previous year information is provided for comparison purposes. The tax calculation table at the bottom of the schedule shows the factors of expenditures revenues, and surplus used to calculate the amount of county property tax assessed on the real and personal property in each municipality.

The State of Maine Valuation for 2021 shows overall County increase of **Valuation Growth**

**Peaks Island Council
FY 2022 Budget Request
As Approved for Submission
February 24, 2021**

As approved at its meeting on February 24, 2021, the Peaks Island Council requests the Portland City Council to allocate the following funds to the Peaks Island Council FY2021 Parking and Transportation Fund in the amount of \$40,000.00 in accordance with the following items:

Item A: The Peaks Island Council requests the City Manager or his designee to expend monies from the Parking and Transportation Fund payable to Casco Bay Lines to purchase bicycle tickets for a **summer bike ticket program** on Peaks Island. The total is not to exceed \$500.00.

Jon Jennings, Portland City Manager

Date

Item B: The Peaks Island Council requests the City Manager or his designee to expend monies from the Parking and Transportation Fund payable to Casco Bay Lines to purchase tickets for needs-based Peaks Island residents. To receive **Needs-Based tickets**, recipients must fit defined criteria developed by the Peaks Island Council. The total is not to exceed \$3,000.00

Jon Jennings, Portland City Manager

Date

Item C: The Peaks Island Council requests the City Manager or his designee to transfer to the Portland School Department \$4,500.00 to cover the cost of extending Portland School Department issued 10-month Casco Bay Lines **passes for Peaks Island public middle and high schools students** to 12-month passes.

Jon Jennings, Portland City Manager

Date

Item D: The Peaks Island Council requests the City Manager or his designee to expend monies from the Parking and Transportation Fund payable to Casco Bay Lines for Island resident **college students**: for up to 3 monthly stickers per student @ \$82.45/sticker, not to exceed \$450.00 . For the purposes of PIC transportation support, a college student shall be defined as a full-time island resident carrying a full-time course load (12 credits) at a Portland-area institution of higher education.

Jon Jennings, Portland City Manager

Date

Item E: The Peaks Island Council requests the City Manager or his designee to issue vouchers in the amount of \$84 per voucher per student to the parents of **children attending private schools** off-island. Criteria for determination of residency will be directed through the Island/Neighborhood Administrator's Office. Total cost allocated is \$400.00 .

Jon Jennings, Portland City Manager

Date

Item F: ITS: a.k.a., Island "Taxi" The Peaks Island Council requests the City Manager or his designee to provide an allocation of \$20,984.00 to the **Island Transportation System** for continued support of the only transportation service available to residents.

Jon Jennings, Portland City Manager

Date

Item G: The Peaks Island Council requests the City Manager or his designee to provide an allocation of \$5,300.00 to **Peaks Island Tax & Energy Assistance (PITEA)** for the express purposes of assisting eligible island residents with heating costs. Applications for eligibility approved by Peaks Island Clergy, and monies are paid by PITEA directly to the fuel company.

Jon Jennings, Portland City Manager

Date

Item H: The Peaks Island Council requests the City Manager or his designee to provide an allocation of \$860.00 to the **Peaks Island Environmental Team (PEAT)** for the purposes of printing visitor-education materials.

Jon Jennings, Portland City Manager

Date

Item I: The Peaks Island Council requests the City Manager, or his designee to provide an allocation of \$2006.00 to the Peaks Island Council for **Administrative Expenses**.

Jon Jennings, Portland City Manager

Date

Item J: The Peaks Island Council requests that the City Manager or his designee provide an allocation of \$2000.00 to the **Fifth Maine Museum** for the replacement of windows to prevent heat loss and further water damage to the nearly 200 year-old building.

Jon Jennings, Portland City Manager

Date

DEFINITIONS OF FY23 ORG CATEGORY SUMMARY EXPENDITURE REPORT COLUMNS

FY22 REVISED APPRO = Actual amount of the FY22 approved appropriation as approved by the City Council.

FY22 TOTAL PROJECTION = Projected total amount of expenditure in the current budget year as submitted by Departments in January 2022.

FY23 MGR RECOMM – The amount of FY23 budget request recommended by the City Manager to the City Council in April 2022 after performing detailed budget reviews with each Department.

INCR / (DECR) FY23 / FY22 – A comparison of the FY22 Revised Appro Column with the FY23 Mgr Recomm column showing the budget year to budget year increase that would result (in dollars) if the FY23 City Manager's Recommended budget was approved.

APPRO % CHG FY23 / FY22 - A comparison of the FY22 Revised Appro Column with the FY23 Mgr Recomm column showing the budget year to budget year percentage increase that would result if the FY23 City Manager's Recommended budget was approved.
