

Commission Members: Chair Pat Bailey, Jayne Foley, Daniel Herzlinger, Jennifer Fox, Robert Foster, Jon Kachmar, Kara Wooldrik, Simon Rucker, Baxter Miatke, and City Councilor Anna Trevorrow.

City of Portland
Land Bank Commission Agenda
January 12, 2022
5:00 PM

On the second Wednesday of the month at 5:00 pm, the Portland Land Bank Commission will conduct a virtual meeting using emergency legislation approved by LD 2167; 1 M.R.S. §403 A, that authorizes cities and towns to conduct meetings online. This meeting will be conducted remotely using Zoom.

Please use the link below to join the webinar:

- I. Call to Order
- II. Citizen Comment Period
- III. Agenda Items
 - i. Acceptance of December 8th, 2021 meeting minutes- **Action Item**
 - ii. Treasurer's Report
 - iii. Secretary's Report - Review Annual Report Presentation
- IV. Communications
 - i. New City Councilor appointee- Welcome
 - ii. Parks Commission Report
 - iii. Parks Division Report
 - iv. Commissioner Requests for Agenda Items
- V. Parcel Updates

The Land Bank Commission is responsible for identifying and protecting open space resources within the City of Portland. The commission seeks to preserve a balance between development and conservation of open space important for wildlife, ecological, environmental, scenic or outdoor recreational values.

- i. Hale Parcel
- ii. Redlon Woods
- iii. North Deering Park
- iv. *Executive Session: Pursuant to 405(6)(C), the Commission may go into executive session for discussion on parcel acquisition.

VI. Adjournment

The Land Bank Commission is responsible for identifying and protecting open space resources within the City of Portland. The commission seeks to preserve a balance between development and conservation of open space important for wildlife, ecological, environmental, scenic or outdoor recreational values.

Commission Members: Chair Pat Bailey, Jayne Foley, Daniel Herzlinger, Jennifer Fox, Robert Foster, Jon Kachmar, Kara Wooldrik, Simon Rucker and Baxter Miatke **Staff:** Doug Roncarati and Samara Ray.

City of Portland
Land Bank Commission Minutes
December 8, 2021
5:00 PM

I. Call to Order

Land Bank Commission Chair Pat started the meeting at 5:00pm

II. Citizen Comment Period

Pat asked if there was any public comment or comment from the Commissioners. There was no comment from the public or the Commissioners.

III. Agenda Items

i. Acceptance of the November 10th Meeting Minutes

Pat wanted to make sure that Jon checked the appraised value for the Hale property, Jon confirmed the appraised value is 27,000. The minutes were approved with a few edits from Commissioners. Simon moved to accept the minutes, Jon seconded. The minutes passed unanimously.

ii. Treasurer's Report

No updates from Baxter this month.

iii. Secretary's Report - Comments and Acceptance of Annual Report Action Item

Pat handed this over to Simon and thanked everyone that helped. Pat said she made a few comments on the report. Robert, Jennifer and Daniel helped Simon out on the 2021 Land Bank Annual Report. There are some changes to the draft that was submitted.

The Parks Department is now issuing an up to date Land Bank Financials Report. Kara confirmed that Greg Mitchell is still a consultant with the City. Pat said the accounting report is hard to follow. Because of the bonding of cash, these reports did not accurately show the Land Bank balance. To provide a better summary the Parks Department is issuing a report on one spreadsheet that will be shared with the Land Bank Commissioners Kara said this is a huge step forward and Baxter noted that a Treasurer is still necessary to go through the budget in detail to make sure it is accurate.

Simon provided an overview of the Annual Report, describing each section and noting that the order of the exhibits have yet to be finalized.

Baxter asked about the map of Land Bank holdings. Simon said that the link to the map is included as the PDF is too large to be attached to the Annual Report. They may work with City staff to get smaller maps for each Land Bank property to be included in future years. Baxter noted that Fort Gorges was not on the map and it would be great to have this.

Pat asked Kara to give an overview about how Portland Trails works with the City on trail improvements. She said they meet with Ethan or Alex in early Spring to determine priorities. Then Parks will choose the top few that are related to trails and then Parks staff will ask Portland Trails for a proposal. Every year Portland Trails has additional projects related to ecosystems and no one in the City is appointed for these types of projects, although the Parks work on invasive removal in the past year has been helpful. Kara said there is not a lot of funding to provide management or conservation efforts of Land Bank properties. Pat noted that there should be an agenda item to have Portland Trails address the Commission since they are on the ground every day on the trails to gain an additional perspective. Portland Trails and Maine Audubon are Land Bank partners and it would be good to have additional perspectives on land management from these organizations. Jon said that the effort right now to update the Commission ordinances could be a good time to add some stewardship responsibilities to Land Bank properties.

Pat proposed that the Commission vote on the 2021 Land Bank Annual Report with all edits noted this evening. Jennifer made a motion to accept the 2021 Land Bank Annual Report, Jon K seconded a roll call vote was made and the motion passed unanimously.

i. Parks Commission Report

Jon gave a summary of December 2nd Parks Commission meeting, a great deal of this meeting was spent on a presentation from Fiona Hopper and her work involving Wabenaki curriculum for Portland Public Schools. Fiona is the Social Studies Teacher Leader and Wabenaki Coordinator for Portland Public Schools. A law was passed 20 years ago that required schools to teach Wabenaki studies; it is referred to as LD291. There is not a school distinct to her knowledge that is in compliance with this law. 20 years ago a state law was passed. Fiona talked about many sites that are important in indigenous history that are Land Bank properties and Park properties.

One of the Parks top priorities is improvements at Dougherty Field and Playground. Jon will share a presentation about the Land Bank Commission at the January Parks Commission meeting which will include information about the Land Bank and Parks Commission ordinances. Most parks are in the Land Bank. One of the reasons most of the park spaces were put into the Land Bank to provide an additional layer of protection- supermajority vote is required by the City Council to remove protections. Doug has been involved with the ordinance in the past and offered to be a resource as the Commissions and City work to potentially draft new ordinances. The Parks Commission will have a February retreat the topic will be how to assist Friends Groups.

ii. Parks Division Report

Highlights include that the Parks Division recently hired 3 new parks Maintainers and is

V. Parcel Updates

i. Hale Parcel - Riverton Trolley Park

The memo to approve the Land Bank purchase will not go to the City Council for approval until the Purchase and Sale agreement is finalized. The hope would be to work with Tom Jewel and figure out a strategy for the Purchase and Sale agreement to close by the end of January.

ii. North Deering Park Expansion

TPL reached out to the 410 Auburn St landowner and they are not interested in the longer timelines that come with TPL transactions. Phil Dube of TLP wanted everyone to know that they will continue to explore ways to get access through Auburn St.

Staff provided an update from Doug Beck from the State about ORLP submissions. The 5th ORLP round closed in September with States submitting 64 proposals requesting just over \$150 million. They have initiated the technical review process and set an ambitious schedule to complete the merit review process and final selection by March 31, 2022.

Additional updates

Pat and Simon discussed the presentation of the 2021 Land Bank Annual Report to the City Council. Samara will place it on the draft agenda for the City Council meeting on Jan the 3rd, it may be pushed to the next meeting. Samara will confirm with Pat and Simon about when the meeting it will be presented at is confirmed.

Doug wanted to acknowledge the work Jon and the Parks Commission have been doing to raise awareness of indegenouse peoples in this area.

In regards to Kara's comments about open space maintenance. He always thought that the open spaces were different in terms of maintenance but some of these open spaces do have trails, dog walkers and innovative species. There are different management opportunities for these spaces. They cannot be forgotten however they do require different management but some provision does need to be made like what level of care and investment we need to do for these spaces. Lastly he mentioned that the City of Portland is working on its new stormwater permit and low impact design program related to it. He is lobbying for stream, shoreline, wetlands and over all resource protection. A key component is, protect the best and figure out how to manage the rest.

Pat asked if there were any comments, she thanked Commissioners.

VI. Adjournment

Meeting was adjourned.

Portland Land Bank Commission 2021 Annual Report

December 2021

Acknowledgment

The Land Bank Commission is pleased to present its annual report to the City Manager and City Council whose collective wisdom and vision recognized a “need to balance development within the municipality with conservation of open space important for wildlife, ecological, environmental, scenic or outdoor recreation values” by creating an entity to ensure conservation and preservation of limited open space. The Commission offers special thanks and appreciation to Michael Goldman, Ethan Hipple, Alex Marshall, Greg Mitchell, Mike Murray, Samara Ray, Doug Roncarati, and all staff whose hard work supports the Commission’s efforts.

Overview

Under The City of Portland, Maine Code of Ordinances, Article III-A, the Land Bank Commission is charged with the responsibility of submitting an annual report to the City Manager and making recommendations for preserving open space to the City Council. This annual report provides a summary of the work the Commission completed in the last year.

The Land Bank Commission receives funding to assist with achieving the goals of the Commission and to acquire property for open space conservation purposes. One half of 1% of the City's annual Capital Improvement Budget is set aside for the acquisition of property recommended to the City Council for Land Bank status and for remedial work on existing Land Bank holdings. The Commission has other methods to acquire or protect open space property which include personal property donations, direct purchases, easements, land trades, grants, and developer agreements.

Commission Members (2021):

Pat Bailey, Chair, At Large
Simon Rucker, Secretary, District 1
Baxter Miatke, Treasurer, District 3
Jon Kachmar, At Large
Jennifer Fox, At Large
Jayne Foley, District 4
Dan Herzlinger, District 4
Robert Foster, District 4
Andrew Zarro (City Council Representative)

Non Voting Members

Kara Wooldrik, Portland Trails Representative
Maine Audubon Society Representative (vacant)

Staff Support:

Tom Jewell, Outside Counsel, Jewell & Bulger, P.A.
Michael Goldman, Associate Corporation Counsel
Ethan Hipple, Director, Parks, Recreation and Facilities Department
Alex Marshall, Parks Director, Parks, Recreation and Facilities Department
Greg Mitchell, Consultant, Housing & Economic Development
Mike Murray, Director of Cemeteries and Project Management
Doug Roncarati, Stormwater Program Coordinator
Samara Ray, Senior Executive Assistant

Introduction

This document, including the attached Exhibits, is the Annual Report and Updated Registry of Open Spaces as set forth in Section 2-42 (g), Article III-A of the City of Portland, Code of Ordinances created by the City Council in 1999 which established the Portland Land Bank Commission with the following stated purposes:

1. Act as an advocate for the acquisition and conservation of open space within the city;
2. Cooperate with other agencies and parties on wetlands mitigation projects;
3. Recommend on a priority basis the acquisition of various interests in real estate in order to effectuate the goal of this article;
4. Accept gifts and funds from both private and public sources and disburse such funds for the purposes hereunder;
5. Act as a liaison to other public and private nonprofit agencies involved in planning, acquiring, disposing, and managing land within the municipality; and
6. Recommend an annual budget to the city manager and city council to carry out its purpose.

City Code requires the Commission to annually file a report consisting of two parts: the Registry of Open Space and an operating budget.

The Registry of Open Space must list all open space of types in Code Section 2-43 (a), publicly or privately owned, located within the city or abutting the city as potential buffer areas, for the purpose of providing information pertinent to property utilization, protection, development, or use of such open space. The Registry must show all property interests then currently held by the city, including a description of the use of those interests and all acquisitions, improvements, or dispositions of all property interests held by the city at any time during each filing.

The types of land and interests specified in Section 2-43 (a) are the following:

- Ocean, harbor, river, stream, or pond frontage and adjoining back lands;
- Fresh or saltwater marshes, estuaries, flood plains and adjoining uplands;
- Islands;
- Land for future passive public outdoor recreational use, including hiking, trails, bicycle paths, green belts, and high elevations with a view;
- Aquifers, aquifer recharge areas, and other ecologically fragile or significant property;
- Properties with unique historical or geological characteristics or otherwise important to the community's cultural welfare;
- Woods or forest land;
- Farmland or wildlife habitat;
- Open spaces which help shape the settlement pattern of the community by promoting the neighborhood concept and discouraging sprawl;

- Vacant parcels of land, vacant buildings and properties or buildings and properties in significant disrepair which may be reclaimed for the purpose of establishing natural areas for conservation and open space land; or
- Conservation or trail easements and other similar interests in land.

A map of Land Bank Holdings is attached as Exhibit D. To view a full-sized map of Land Bank holdings click [here](#).

The Operating Budget for all expenses and projects of the Commission is required to be submitted to the City Manager and City Council by Code Section 2-41 (h) (9). That Section of the Code specifies that the budget “shall include a separate budget for expenditures from the Land Bank fund, which expenditures will be limited to the purposes for which the fund is dedicated.”

Compliant with the stated requirements in Code, the Land Bank Commission Annual Report for 2021 contains the Registry and operating budget for the calendar year 2022.

2021 Accomplishments

- **Rand Road.** In February, the Land Bank Commission acquired an approximately 27.38 acre parcel of open space land on Rand Road. A press release and map for this project area attached as Exhibit E.
- **Riverton Trolley Park Addition.** This parcel (CBL 325 C00 to 007) was approved by the Land Bank Commission in November. If acquired, this would constitute a 0.9-acre addition to the park. This undeveloped tract of land is heavily forested and acts as a wildlife habitat and drainage buffer between the Presumpscot River and the existing residential and commercial development along Riverside Street. Acquisition of this property, which has significant local support, would buffer Riverton Trolley Park from development on Riverside Street. A map and summary are attached as Exhibit F.
- **North Deering Park (1831 Washington Avenue).** North Deering Park consists of approximately 8 acres of forested wetlands between Washington and Auburn Avenues in North Deering. This is a cooperative project between the Land Bank Commission and the Trust for Public Land, who are also working to conserve the adjacent ballfield and 410 Auburn Street which is on the Land Bank Priority Parcel List (HP-11). In September, the Commission voted to allocate \$80,000 of Land Bank funds for the acquisition of the 8 acre parcel. The City of Portland, working with TPL, has submitted a \$400,000 grant request to the Outdoor Recreation Legacy Program (ORLP), a federal program, for additional acquisition funding. A map and summary are attached as Exhibit G.

- **Redlon Woods.** Work on Phase II of the Redlon Woods project continues, with the pace of development and building during 2021 impacting the acquisition. A map of this project is attached as Exhibit H.
- **Trail improvements and maintenance.** The Land Bank Commission allocated a total of \$14,200 for a six-person field team for two weeks of trail maintenance at Riverton Trolley Park.
- **New Land Bank Commissioner.** In 2021, the Land Bank Commission welcomed Jayne Foley, Robert Foster, Dan Herzlinger and Baxter Miatke. Information about commissioner, including term dates and bios, can be found [here](#).

Program Budget and Project Initiatives for 2022

Per Chapter 2 of the City Code, an annual appropriation of 0.5% of the total annual capital improvement program is to be deposited into the Land Bank Fund. The annual appropriation of 0.5% of the total CIP for 2018, 2019, 2020 and 2021 is shown on a separate line item in our budget as the bonding has not been authorized. For planning purposes the appropriated amount of \$287,627 from these fiscal years is shown on a separate line item.

Available funding as of December 8, 2021 for the planned work activity by the Land Bank Commission is approximately \$593,789.87, as indicated in the 2021 Land Bank Commission Budget which is attached as Exhibit I.

Land Bank Commission Project Initiatives 2022

- *Complete the acquisition of the Riverton Trolley Park Addition* (see above).
- *Continue work towards the acquisition of North Deering Park* (see above).
- *Complete the acquisition of parcels in Redlon Park.* The Land Bank Commission is currently working on acquiring additional parcels within Redlon Woods. Redlon Woods consists of several acres of open space surrounded by Brighton Avenue, Stevens Avenue, Capisic Street and Bancroft Street. The Land Bank Commission has been working on conservation of Redlon Woods since 2000 and it was one of the project examples that led to the formation of the Land Bank Commission. A map of the Redlon Woods project is attached as Exhibit E.
- *Continue acquisitions of parcels in Oatnuts Park.* There is the potential for the acquisition of additional lots for Oatnuts Park going into 2022.

- *Review and assess Tax Acquired Parcels Committee List.* The Land Bank Commission will annually review and assess the TAPC list for TAPC properties suitable for Land Bank protection and provide our recommendations to city staff.
- *Trail improvements, wayfinding and maintenance on Land Bank parcels.* Land Bank signage will be installed and trail maintenance will continue to be funded on Land Bank properties.
- *Green Space Gathering.* The Land Bank hopes to again work with the Parks Commission to assist with developing the agenda and logistics with the annual Green Space Gathering that focuses on open space advocates. The status of the gathering for 2022 is TBD.
- *Continue to field proposals to the Land Bank Commission from community members.* We receive requests from the public to consider parcels of land to be put into the Land Bank and these requests constitute several of the ongoing projects.

Exhibit A – Description of Current Land Bank Registry Existing Holdings (Open Space)

E-1 Natick Street. This parcel is contiguous with the northern end of the Interurban Line parcel (HP- 19) which, like its counterpart, runs along the western side of the railroad line. The land provides a wooded buffer between the railroad line and adjacent residential development and includes a trail that is heavily used by local residents. A network of wetlands and a stream are also located on the property.

E-2 Pineloch Drive. Situated next to Oatnuts Park, this parcel follows a sewer right-of-way and brook, which are flanked on both sides by mixed woodlands. The Portland Water District conveyed this property to the City in 2001. The trail through Oatnuts Park emerges into the cleared right-of-way and follows it for several hundred feet before reentering the woods and continuing on towards the Presumpscot River Preserve.

E-3 City RPZ Land on Starbird Lane. This large parcel is located next to the Fore River Sanctuary, at the confluence of Capisic Brook and the Fore River, and consists of a mix of marshland, wet meadow, and woodland. It serves as valuable habitat for migratory waterfowl and other species of wildlife. Forming its southern border, the railroad line affords excellent views of the marsh.

E-4 City RPZ Land on Rand Road. This parcel, along with the Union Water-Power land (HCP-14) is located off Rand Road just to the west of the Fore River Sanctuary. The property is predominantly wooded, with the exception of the CMP right-of-way that runs the length of the parcel. It forms a significant drainage area with many hills and gullies collecting and guiding stormwater toward the Fore River. Consequently, numerous streams and wetlands are located throughout the parcel. The blend of softwoods and hardwoods, shrubs, and ground cover provide abundant habitat for wildlife, including deer. Together these parcels serve as an important wildlife corridor for the Fore River, even though it is bounded to the west by the Maine Turnpike. Several footpaths wind through the woods and along the right-of-way, connecting to Portland Trails' Fore River Sanctuary trail system. This includes a trail along the remains of the historic Cumberland and Oxford Canal.

E-5 Hobart Street Area. Situated off Hobart Street these parcels provide public access to and afford spectacular views of the Fore River. It also links with Portland Trails' Fore River Trail on the other side of Hobart Street. Portland Water District maintains a pump station and outfall at the site.

E-6 Pine Grove Park. Pine Grove Park, as the name implies, is an 8-acre parcel on Ray Street that is mostly covered with mature white pine. Several paths wind through the park bringing attention to interesting ledge outcrops.

E-7 Blueberry Road Parcel. Located along the Stroudwater River at the end of Blueberry Road, this one-acre parcel includes a section of the proposed Stroudwater River Corridor (HCP-15)

nearest the Maine Turnpike. This City-owned property provides direct access to the river and Stroudwater Trail. The Portland Water District has a pump station on part of the property. The land is currently afforded some protection by virtue of being in the Resource Open Space Zone (ROS) and the Shoreland Overlay Zone.

E-8 Conservation Area at Evergreen Cemetery. This area at the rear of Evergreen Cemetery just beyond the ponds is a pleasant and inviting refuge of undeveloped woodland, undulating ground and rock outcroppings in the city. It consists primarily of two landscapes. One is a high central area of exposed bedrock vegetated with small trees. The other is lower, more level and somewhat poorly drained woodland with larger trees and an open plain of ground. The tree cover is mixed deciduous and evergreen consisting largely of White and Red Oak species, White Pine and Hemlock, with some Birch and Red Maple. The area is approximately 30 acres in size. It contains a number of existing trails. This area, in conjunction with the rest of the cemetery, provides an excellent habitat for a variety of bird species. For this reason Evergreen Cemetery is a favorite spot for birding enthusiasts. In addition, joggers, walkers, cross-country skiers, and dog owners use the area.

E-9 City-Owned Parcels in Oatnuts Park. Oatnuts Park is an approximately 23-acre undeveloped wooded area located off of Summit Street in the North Deering neighborhood. Oatnuts Park is contiguous with the Presumpscot River Preserve. It includes a gated entrance on Summit Street and existing trails providing access to the Presumpscot River Preserve and to nearby residential streets.

E-10 Presumpscot River Preserve. The 48-acre Presumpscot River Preserve, located in the North Deering neighborhood, is one of the river's largest areas of undeveloped riparian land. It abuts land owned by Portland Trails, the Town of Falmouth and other private landowners who keep their land wild. The parcel is heavily wooded and many of the steep slopes that traverse the landscape are overgrown and difficult to access. The property includes over 3100 feet of river-frontage, providing direct access to the beauty and peacefulness of the river. The preserve is crossed by a cascading stream and several stream pools. It provides Portland residents with unequalled opportunities within the city for nature study, fishing, and picnicking. Further, with the removal of the Smelt Hill Dam in 2003, alewives have returned to the lower Presumpscot River for their annual migratory run. They draw a variety of other wildlife to the river including cormorants and osprey, which congregate at Presumpscot Falls looking for an easy meal. The City is cooperatively managing the preserve in conjunction with Portland Trails. There are several wonderful trails that provide direct access to the river within the preserve and beyond its borders.

E-11 Sheridan Street Property. This property forms one of the few areas of open space on the bay side of the Eastern Promenade. The land drops precipitously from the western side of North Street to the eastern side of Sheridan Street, making most of it unsuitable for development. It offers accessible open space between Sheridan Street and North Street, and good views of Back Cove and points west. It links via footpaths to the grounds of the East End School.

E-12 PATHS Wooded Area. Located behind the Portland Arts and Technology High School (PATHS), this land is comprised of a few lightly wooded areas, but is mostly open and includes both scrub-shrub wetlands and granite outcroppings. Over the past ten years the School has used the land as a training ground for students. The PATHS property and North Deering/Riverton Parcels (E-19) serve as the headwaters of Dole Brook, a stream that runs west through Riverside Golf Course to connect with the Presumpscot River. Preservation of these wetlands, fields and woodland buffers is critical to protecting water quality within Dole Brook Watershed.

E-13 Virginia Street Parcels. These City-owned, tax-acquired parcels adjacent to Maine Ave and Ray Street are contiguous with the Ocean Ave Open Space (E-14) and part of the Ocean Avenue Recreation Area. This undeveloped land features a mix of shrubs, trees, wetlands and streams. Several trails running through this property connect it to the larger Portland Trails network. The property's proximity to extensive residential neighborhoods creates an exceptional opportunity for recreation, education, and conservation activities.

E-14 Ocean Avenue Open Space. This property is the area formerly used as a landfill on outer Ocean Avenue near the intersection with Presumpscot Avenue. The 60+ acre site includes the capped landfill, Quarry Run Dog Park, and adjacent woodlands and wetland areas, which provide a mix of habitat for a variety of wildlife species including turkeys, deer and fox and song birds, especially migrating sparrows. In fact, the site is so popular with "birders" that is known as the "Dragon Fields" due to its proximity to the former Dragon Cement quarry. The landfill rises approximately 50-70 feet above the gravel drive at the highest point, affording good views in all directions, including Casco Bay to the south and east. These properties, in combination with the Virginia Street Parcels (E-13) and other nearby City-owned tax-acquired parcels make up the Ocean Avenue Recreation Area. The Commission has been working to protect additional trails and wildlife habitat, mainly wetland areas, contiguous with these existing holdings.

E-15 Maggie Lane Lot. This triangular lot off Maggie Lane, in combination with a trail easement on private property, was acquired in 2008 to provide trail access and linkage along the Riverton Rail Trail. Portland Trails constructed a trail head and boardwalk to connect with the trail network.

E-16 Beverly Street Lots – North. The Beverly Street Lots - North link with southern counterpart and the Natick Street Property along the west side of the Riverton Rail Trail. These lots were acquired to protect the Dole Brook stream corridor, provide access to the trail and to preserve a wooded buffer between the trail and adjacent properties.

E-17 Beverly Street Lots – South. The Beverly Street Lots - South, link with their northern counterpart and the Natick Street Property along the west side of the Riverton Rail Trail. These lots were acquired to protect wetlands associated with Dole Brook, provide access to the trail and to preserve a wooded buffer between the trail and adjacent properties.

E-18 Goodridge Avenue Lots. These wooded lots behind the intersection of Goodridge Avenue and Eleanor Street were acquired in conjunction with the Maggie Lane Lot and a trail easement to provide trail access and linkage along the Riverton Rail Trail. Portland Trails completed the new section of trail in 2010.

E-19 North Deering / Riverton Parcels. This large group of parcels is located north and west of the PATHS Wooded Area (E-12), just across the tracks from the Riverton Rail Trail. These wooded parcels provide connectivity to the Portland Trails network, provide significant wildlife habitat and preserve wetlands and stream buffers essential to maintaining the health of Dole Brook.

E-20 Castine Pines. This attractive grove of pine trees at the intersection of Forest Avenue and Castine Avenue was acquired as conservation land in 2008 through a land swap with a local developer planning to build additional housing on the street.

E-21 Ocean Ave Rec Area-Pine Grove Ave Lots. These lots near Copley Woods Circle were purchased to fill in gaps at the southern edge of the Ocean Avenue Recreation Area. This acquisition preserves trail connectivity and wooded wetlands in this area. Additional lots near Stepping Stone Lane were also included in this transaction.

E-22 Ocean Ave Rec Area-Belfast St Lots. These lots near Maine Avenue and Ray Street were donated to the Land Bank as conservation land to fill in gaps at the north-western edge of the Ocean Avenue Recreation Area. This acquisition preserves trail connectivity and wooded wetlands in this area.

E-23 Ocean Ave Rec Area-Marlborough Rd/Trapelo St Lots. These lots near Copley Woods Circle were purchased to fill in gaps at the southern edge of the Ocean Avenue Recreation Area. This acquisition preserves trail connectivity and wooded wetlands in this area.

E-24 Dole Brook Driving Range Property. This property across the street from Riverside Golf Course was once used as a driving range. The land is mostly wooded with the exception of a clearing for the former driving range and slopes towards a ravine that carries Dole Brook on its way to the Presumpscot River. Dole Brook has been identified as an impaired stream by the Maine Department of Environmental Protection, because it does not meet its designated water quality classification due to the impacts of urban stormwater runoff. State and Federal regulations under the Clean Water Act require the City to restore water quality in the brook. This property was placed in the Land Bank to protect the stream corridor, prevent further water quality degradation and potentially provide for passive recreational activities, such as trails or a low-impact driving range.

E-25 Canco Woods. The Canco Woods property was protected in 2012 through a collaborative partnership between neighborhood residents, the Trust for Public Land, Portland Trails, the Land Bank Commission and the former land owner, Union Water- Power Company. This very popular 13-acre wooded area features wetlands, streams and trails. The City also has a sewer

right-of-way through a portion of the property. Canco Woods is owned by the City and is subject to a conservation easement held by Portland Trails.

E-26 University Park. A popular spot for off-leash dog walking, University Park can be accessed from either Yale Street off Allen Avenue or from the east at Harvard Street. The property is bisected by the Harvard Street Path.

E-27 Wooded Area North of Riverside Golf Course. This wooded area is part of Riverside Golf Course and is bordered by the Presumpscot River and Interstate 95.

E-28 Land Along Canco Road. This parcel connects to the larger Canco Woods to the south (E-25) and contains the road frontage of The Woods at Canco retirement home.

E-29 to E-62 – See Exhibit B

E-63 Redlon Woods. This wooded area, located in the Rosemont neighborhood, features an interesting mix of woodlands, wetlands and ledge outcroppings, as well as some popular informal walking and mountain biking trails. The desire to protect this open space was the impetus behind the creation of the Land Bank Commission in 1999. Long-term protection of Redlon Woods has involved and will continue to require collaboration between the Land Bank Commission, City, neighboring property owners, local NGOs and other open space preservation advocates

E-66 Avangrid 204 Rand Rd. (See attached Exhibit D).

Portland Land Bank Commission Conserves Open Space on Rand Road

***Ahead of Earth Day, addition of 27-acre parcel will add to existing
preserves at the Fore River Sanctuary and Jewell Falls***

PORTLAND, Maine -- The Portland Land Bank Commission announced the acquisition by the City of Portland of a 27-acre forested parcel along Rand Road near outer Congress Street, from the Avangrid Foundation. This land has been a high priority open space parcel for several years due to its adjacency to existing conservation land, its network of trails and its natural and recreational values. With this addition, the City has added protection to its largest remaining undeveloped area around the headwaters of the Fore River.

"When you're hiking in these woods you are among soaring pine trees, streams and open wetlands," said Pat Bailey, Chair of the Portland Land Bank Commission. "You feel like you are in a special place but you are right in the heart of Portland."

The Avangrid Foundation, charitable arm of AVANGRID, parent company of Central Maine Power, worked with the City and Land Bank Commission to assess the best and highest use of the property and then to ensure that the parcel would be kept as open space and available to the public. The Foundation donated 85% of the appraised value to the Land Bank to support the acquisition.

"At the Avangrid Foundation we look for unique opportunities to partner with our local communities and pursue our mission of environmental stewardship, and this was the perfect opportunity to do both," said Nicole Licata Grant, Executive Director of the Avangrid Foundation. "We are so pleased to work with the City's Land Bank Commission to provide this land for public use. We want to thank the Boulos Company and the Law Firm of Curtis Thaxter for the additional donation of time and services to bring it to fruition."

Public access to the Rand Road property will continue via the trail network maintained by Portland Trails, which can be reached from Rowe Avenue, Starbird Land and Rand Road. Due to the varied land cover, topography and soil type, this is an area of regional flow for species moving to adapt to climate change. Development of the Rand Road property would not only represent the loss of an opportunity to protect a unique and important natural area, it would degrade the value of adjacent conservation lands by fragmenting the large undeveloped acreage.

"This is a big deal for Portland to be able to preserve this 27-acre parcel that helps the City accomplish so many goals at once -- from preserving our existing tree canopy and habitat areas, to getting us closer to 100% of our residents living within a 10-minute walk of a park or

trail, to creating outdoor recreation and exercise opportunities for walkers, bikers, students, commuters, and dog-walkers,” said Ethan Hipple, the City’s Director of Parks, Recreation & Facilities. “One hundred years from now, when Portland may have grown or changed so much, residents will be thankful that this gem of a property was set aside for the public to share and enjoy forever. The City of Portland and the Land Bank Commission want to thank the law firm of Jewell & Bulger for donating time and services to complete this transaction.”

The Avangrid Foundation recognized the conservation value of the area and quickly reached an agreement with the Portland Land Bank Commission, despite the COVID-19 pandemic. The Portland Land Bank Commission is responsible for identifying and protecting open space resources within the City of Portland. The commission seeks to preserve a balance between development and conservation of open space important for wildlife, ecological, environmental, scenic, or outdoor recreational values.

About The Avangrid Foundation

The Avangrid Foundation is an independent, nonprofit organization that funds philanthropic investments that primarily impact communities where AVANGRID, Inc. and its subsidiaries operate. Since 2002, the Avangrid Foundation and its predecessors have invested more than \$28 million in partnerships that focus on building sustainable, vital and healthy communities; preserving cultural and artistic heritage; advancing education; and improving people’s lives. The Avangrid Foundation is committed to advancing the United Nations Sustainable Development Goals in the United States. For more information, please visit www.avangridfoundation.org.

City of Portland
Land Bank Commission
Maine

The Land Bank Commission,

I'm writing to request \$80,000 to support the acquisition of an +/- 8-acre forested parcel in North Deering, Portland. With help from The Trust for Public Land, the City of Portland submitted a \$400,000 grant request to the Outdoor Recreation Legacy Program (ORLP), a federal program. However, ORLP funding requires a 1:1 match and the \$80,000 request from The Land Bank Commission would help meet that need. The Trust for Public Land, the project manager, plans to also submit an application to the Land for Maine's Future Program to request an additional \$320,000, which would satisfy the 1:1 ORLP match requirement when combined with The Land Bank's support/contribution.

According to the Trust for Public Land's *Park Serve*, a geospatial analysis tool, North Deering is one of the few neighborhoods with a "high" need for public space within a 10-minute walk. Due to this deficiency, local children use this space as a wooded play space and refer to it as "The Forbidden Forest." The unofficial open space contains well-loved informal trails and wetlands, critical natural infrastructure that can help manage stormwater runoff and floods.

This project will add much needed public outdoor space in the neighborhood. During the COVID-19 pandemic, public outdoor spaces have offered respite and opportunities for physical activities to many communities. This park will make it possible for this community to have easy access to outdoor space and aligns with TPL's *Land for People* mission.

The Trust for Public Land (TPL) is dedicated to protecting *Land for People* and working with our partners we have conserved more than 170,000 acres and created over 70 new parks and public land units – including the Bayside Trail, Eastern Prom Trail, and Canco Woods – in Maine since 1998.

We are excited about this project and look forward to working with our partners to bring it to life.

Sincerely,

Phillip Dube, Senior Project Associate
The Trust for Public Land

Exhibit I - Land Bank Commission Budget 2022

2022 FINAL Land Bank Commission Budget			
	Prepared by: Baxter Miatke (Treasurer)	11/5/2021	
	Reviewed by: Pat Bailey (Chair)	11/5/2021	
	Updated and Finalized At Meeting	11/10/2021	
	<u>General Statement of Financial Position</u>		<u>Notes</u>
	Balance from City: (As of 11/1/2021)	\$ 303,762.87	Cash on Hand Balance reported from City Staff (includes donations)
	2018, 2019, 2020, 2021 Land Bank Allocations	\$ 287,627	This is an estimated additional amount that is not bonded at this point. The process for using these funds would be to contact the City Finance Director with a summary about the prospective purchase and then the funds would be bonded and allocated.
	Restricted Gifts (parks account)	\$ 2,400	
	Total Estimated Available as of 11/1/2021	\$ 593,789.87	Includes estimated allocations and restricted gifts
	<u>2022 Anticipated Expenditures</u>		
	Property Acquisition	\$ 282,000	\$80,000 of this approved by comission for North Deering Park through TPL (expected 2022), Assume \$27,000 for Riverton Trolly Park Parcel from appraisal, Assume up to \$100,000 for Redlon Parcel, Assume \$75,000 for to be determined acquisitions in 2022
	<u>Aqisition Related Dilligence</u>		
	Survey	\$ 10,200	Assume 3 surveys at approximately \$3,400 each
	Appraisals	\$ 10,200	Assume 3 appraisals at approximately \$3,400 each
	Environmental Assessments	\$ 5,000	Assume 2 Environmental Assesments at \$2,500 each
	Legal	\$ 10,000	Assume 2 legal reviews up to \$5,000 each
			<i>Sub Total Acquisition related Costs \$35,000</i>
	Land Maintenance	\$ 20,000	Assumes Portland Trails Work and Parks and Rec on existing Land Bank Properties
	Administrative	\$ 3,000	Assume administrative fees for comission
	Total 2022 Estimated Expenditures	\$ 340,400	
	Percentage of Available Funds for 2022 Expenditures	57%

Land Bank Highlights 2021

- **Rand Road Avangrid Project.** 27-acre forested parcel along Rand Road near outer Congress Street, acquired from the Avangrid Foundation via bargain sale.
- **North Deering Park Project.** 8 acre forested parcel as complementary addition to Haverty Field and 410 Auburn Street, with The Trust for Public Land (completion in 2022).
- **Riverton Trolley Park Addition.** 7 lots comprising approximately 1 acre of land adjacent to the park, which will be added to it as a forested buffer. Completion slated for 2022.
- **All projects are/were on LBC High Priority List from the Annual Report**

Land Bank Commission Project Initiatives 2022

- Complete the acquisition of the Riverton Trolley Park Addition
- Continue work towards the acquisition of North Deering Park
- Complete the acquisition of parcels in Redlon Park.
- Continue acquisitions of parcels in Oatnuts Park.
- Review and assess Tax Acquired Parcels Committee List
- Trail improvements, wayfinding and maintenance on Land Bank parcels
- Green Space Gathering.
- Continue to field proposals to the Land Bank Commission from community members.

**Thank you to the Portland
City Council!**

Memorandum

TO: Parks Commission and Land Bank Commission

FROM: Alex Marshall, Parks Director, Parks, Recreation and Facilities Department

SUBJECT: Parks Division Update

DATE: January 2022

Parks Division Staffing

- Vacancy: Athletic Facilities Maintainer
- Vacancy: Horticulturist
- Vacancy: Arborist

ARPA Funds For Tree Planting Blitz

The initial tranche of ARPA funds were allocated and the Parks Department was one of the fortunate departments to receive a share. The Council voted in support of a one time tree planting blitz in the Bayside Neighborhoods. \$250,000 will be going towards project planning, management and implementation, sidewalk infrastructure improvements such as raised tree wells, watering equipment and trees. This funding will support the planting of an additional 80 trees on top of the existing 30 that the Forestry Team plants in the neighborhoods each year. This project will be occurring over the course of 2022.

Winter Recreation

Winter can be challenging at times with the need to clear snow but it also brings much joy and recreation opportunities. Throughout the winter our Playgrounds and Park Ranger Crews maintain the various winter recreation areas throughout the city. The skating ponds at Deering Oaks, Ludlow st., and Payson Park as well as the sledding/terrain hill at Payson and the cross country ski trails at Deering Oaks and Payson Park. These are extremely delicate facilities as the weather needs to cooperate and maintenance needs to be constant for them to thrive. Please stay informed via our online map for recreation facility closures as the ice may be too thin or the trails may not be groomed. A couple of important things to keep in mind are: To always let City Staff clear the ice and to keep dogs off the cross country ski trails. Our crews work very hard to keep these facilities in great condition and there are best practices for this maintenance that needs to be followed.

Food Truck Pilot Program on The Eastern Promenade

During 2020 and 2021 we saw a large increase in Food Trucks at the Eastern Promenade. A natural occurring activation of the park happened which had a number of impacts both good and bad. With the increased visitors to the space comes the need to modify the infrastructure to withstand their impact. This Winter we are working with the Food Truck operators who utilize this park space and various city staff who have operational oversight of the general area to develop a plan to address the 4 major concerns that have surfaced from this fabulous growth. Those concerns are: Tree root zone compaction,

CITY OF PORTLAND
Parks, Recreation & Facilities Department
Ethan Hipple, Director

CITY OF PORTLAND

vehicular/pedestrian safety, increased litter, and carbon emissions from generator use.

Park Projects and Department Updates

Staff are working on the following Park Improvement projects:

- Dougherty Field Playground: Bid documents have been put together and the RFP will be advertised in the next few days.
- Park Walkway improvements: Deering Oaks bid documents are being finalized and reviewed by the Planning Department.
- Fitzpatrick Drainage Improvements: Drawings are complete. An RFP is ready to be advertised.
- Talbot School Basketball Court Reconstruction: Additional funding has been secured and the bid will be advertised again in late Winter for a Summer/Fall construction.
- Lyseth Playground: Construction drawings are being created and the RFP will shortly follow for a late Winter advertisement and late Summer construction.
- Skate Park Expansion Phase II: Preliminary RFP for design development is being finalized and will be advertised when funding is in hand.
- Stroudwater Bridge: City Parks and Planning staff are working with Portland Trails and the Stroudwater Preserve Development Team to develop the plan for installation of the bridge that sits on the side of Westbrook Street before the I-95 bridge. Grant funding will be essential as City funds are limited.
- Preble Street Field & Stormwater Project: Final design and landscaping plans are being finalized. 2022 is looking to be the summer where we get the elevated natural turf field back.
- Riverton Preserve: Recreation improvement plans are in progress and will consist primarily of a trail network with other improvements. This project is intended to fulfill LWCF conversion requirements, and final approval of the improvement plan rests with the state and National Park Service, which has a public engagement process.
- Riverton Trolley Park: The LWCF grant has been submitted. The City Council gave their approval for the City to proceed with the grant application. Project budget will be an estimated total of \$500,000 (\$250,000 PPC/Private/City and \$250,000 LWCF)
- Western Promenade Welcome Signs: Three new historic Welcome Signs are being ordered and installed as the weather permits. Spring may be the desirable time for this
- Lower Western Prom Park Improvements: Final design improvements have been made and construction/bid documents are to follow in the coming months.
- Community Garden Fence and Gate Installations: We will be replacing 6 Community Garden fences and 3 sheds. A fencing bid document will be advertised this Winter and installation is planned to begin in the Spring.
